The primary differences between Net Income as calculated under generally accepted accounting principles ("GAAP") and Cash Available For Distribution ("CAD") result from the timing of income and expense recognition and non-cash events. These differences between CAD and GAAP income include the treatment of loan origination fees, which for CAD purposes are recognized when received but for GAAP purposes are amortized over the life of the associated loan. In addition, there are differences related to non-cash gains and losses associated with bond valuations and sales, non-cash gains and losses associated with changes in market value of derivative financial instruments, amortization of goodwill and intangibles and capitalization of mortgage servicing rights, net of deferred taxes for GAAP purposes, which are not included in the calculation of CAD.

The common shares outstanding reported for Cash Available for Distribution are the actual shares outstanding at the end of the quarter. For GAAP, the weighted average shares outstanding during the period are reported for the basic net income per share calculation. The weighted average shares outstanding for diluted net income per share include the potential dilutive effect from the exercise of options, vesting of restricted shares, conversion of the preferred shares and provision for shares to be awarded under the Midland acquisition earn out provision.

VARIANCE ANALYSIS FOR CAD

2nd Quarter 2002 Compared to 2nd Quarter 2001:

Total income for the second quarter of 2002 increased \$3.7 million over the same period last year due primarily to: (1) a \$2.1 million increase in collections of interest on bonds, other bond-related investments, other notes and loans; (2) a \$0.8 million increase in loan origination and brokerage fees due primarily to an increase in origination fees, which included a \$0.8 million fee related to the CAPREIT investment, partially offset by a decrease in fees related to tax credit and conventional equity transactions; and (3) a \$0.8 million increase in other income due to an increase in asset management fees, advisory fees and cancellation fees.

Total expenses for the second quarter increased \$1.7 million over the same period last year due primarily to: (1) a \$0.9 million increase in salary and related benefits expense associated with 2001 new hires; (2) a \$0.5 million increase in professional fees due to an increase in consulting and legal expenses related to new information system initiatives and other corporate

Edgar Filing: MUNICIPAL MORTGAGE & EQUITY LLC - Form 8-K

initiatives; and (3) a \$0.4 million increase in interest expense primarily associated with increased construction lending production and an increase in financing costs associated with on-balance sheet securitizations.

Year-to-Date 2002 Compared to Year-to-Date 2001:

Total income for the six months ended June 30, 2002 increased \$7.2 million over the same period last year due primarily to: (1) a \$4.4 million increase in collections of interest on bonds, other bond-related investments, other notes and loans; (2) a \$1.6 million increase in loan origination and brokerage fees due primarily to an increase in origination fees, including a \$0.8 million fee related to the CAPREIT investment; and (3) a \$0.8 million increase in other income due to increased asset management fees, advisory fees and cancellation fees.

Total expenses for the six months ended June 30, 2002 increased \$3.3 million over the same period last year due primarily to: (1) a \$1.3 million increase in salary and related benefits expense associated with 2001 new hires; (2) a \$0.7 million increase in other operating expenses primarily driven by deployment of accounting information systems and other upgrades in technology infrastructure; (3) a \$1.0 million increase in interest expense, primarily associated with increased construction lending production and an increase in financing costs associated with on-balance sheet securitizations; and (4) a \$0.3 million increase in income taxes, primarily due to an increase in taxable fee income.

VARIANCE ANALYSIS FOR GAAP

2nd Quarter 2002 compared to 2nd Quarter 2001:

Edgar Filing: MUNICIPAL MORTGAGE & EQUITY LLC - Form 8-K

increase in loan origination and brokerage fees due primarily to an increase in origination fees on taxable permanent lending; and (4) a \$0.8 million increase in other income due to an increase in asset management fees, advisory fees and cancellation fees; and (5) a \$1.3 million decrease in gain on sales as a result of a one-time gain of \$1.1 million on a tax credit equity re-syndication in the second quarter of 2001.

Total expenses for the second quarter of 2002 increased \$1.9 million over the same period last year due primarily to: (1) a \$0.9 million increase in salary and related benefits expense associated with 2001 new hires; (2) a \$0.5 million increase in professional fees due to an increase in consulting and legal expenses related to new information system initiatives and other corporate initiatives; (3) a \$0.3 million decrease in amortization expense due to changes in accounting guidelines relating to discontinued amortization of goodwill; and (4) a \$0.7 million increase in interest expense primarily associated with increased construction lending production and an increase in financing costs associated with on-balance sheet securitizations.
