Forward-Looking Statements

Statements made in the exhibits hereto which describe the Company's or management's objectives, projections, estimates, expectations or predictions of the future may be "forward-looking statements" within the meaning of securities laws, which can be identified by the use of forward-looking terminology such as "believes," "expects," "may," "will," "should," "estimates," "anticipates" or the negative thereof or other variations thereon. The Company cautions that, by their nature, forward-looking statements involve risk and uncertainty and that the Company's actual actions or results could differ materially from those expressed or implied in such forward-looking statements or could affect the extent to which a particular projection is realized. Important factors which could cause such differences include global supply and demand conditions for aluminum and other products, aluminum ingot prices and changes in raw materials' costs and availability, changes in the relative value of various currencies, cyclical demand and pricing within the principal markets for the Company's products, changes in government regulations, particularly those affecting environmental, health or safety compliance, economic developments, relationships with and financial and operating conditions of customers and suppliers, the effects of integrating acquired businesses and the ability to attain expected benefits and other factors within the countries in which the Company operates or sells its products and other factors relating to the Company's ongoing operations including, but not limited to, litigation, labour negotiations and fiscal regimes.
