PART I

ITEM 1. BUSINESS

General. Weingarten Realty Investors, an unincorporated trust organized under the Texas Real Estate Investment Trust Act, and its predecessor entity began the ownership and development of shopping centers and other commercial real estate in 1948. WRI is self-advised and self-managed. As of December 31, 2000, we owned or operated under long-term leases interests in 254 developed income-producing real estate projects. We owned 197 shopping centers located in the Houston metropolitan area and in other parts of Texas and in Louisiana, Arizona, Nevada, Arkansas, New Mexico, Oklahoma, Tennessee, Kansas, Colorado, Missouri, Illinois, Florida and Maine. We also owned 55 industrial projects located in Tennessee, Nevada and Houston, Austin and Dallas, Texas. Additionally, we owned one multi-family residential project and one office building, which serves, in part, as WRI's headquarters. Our interests in these projects aggregated approximately 30.0 million square feet of building area and 113.4 million square feet of land area. We also owned interests in 38 parcels of unimproved land under development or held for future development that aggregated approximately 12.5 million square feet.

WRI currently employs 222 persons and its principal executive offices are located at 2600 Citadel Plaza Drive, Houston, Texas 77008, and its phone number is (713) 866-6000.

Investment and Operating Strategy. WRI's investment strategy is to increase cash flow and the value of its portfolio through intensive, hands-on management of its existing portfolio of assets, selective remerchandising and renovation of properties and the acquisition and development of income-producing real estate assets where the returns on such investments exceed our blended long-term cost of capital. We will also pursue the disposition of selective non-core assets as circumstances warrant, and we believe the sales proceeds can be effectively redeployed into assets with higher growth potential.

At December 31, 2000, neighborhood and community centers represented 83.6% of total revenue, including our share of revenue from unconsolidated joint ventures and excluding our partners share of revenue from consolidated joint ventures, industrial properties accounted for 13.1% and the remainder relates to one apartment complex and one office building, which serves in part as the company's corporate headquarters. We expect to continue to focus the future growth of the portfolio in neighborhood and community centers and bulk and office/service industrial properties, generally in a ratio similar to our current holdings. We expect this external growth to occur in the markets in which we currently operate as well as other markets in the southern half of the U.S. While we do not anticipate investment in other classes of real estate such as multi-family or office assets, we remain open to opportunistic uses of our undeveloped land.

WRI may either purchase or lease income-producing properties in the future, and may also participate with other entities in property ownership through partnerships, joint ventures or similar types of co-ownership. Equity investments may be subject to existing mortgage financing and other indebtedness or such financing or indebtedness may be incurred in connection with acquiring such investments.

WRI may invest in mortgages; however, we currently have only invested in first mortgages to joint ventures or partnerships in which we own an equity interest. We may also invest in securities of other issuers, for the purpose, among others, of exercising control over such entities, subject to the gross income and asset tests necessary for REIT qualification.

Our operating philosophy is based on intensive hands-on management and leasing of our properties. In acquiring and developing properties, we attempt to accumulate enough properties in a geographic area to allow for the establishment of a regional office, which enables us to obtain in-depth knowledge of the

market from a leasing perspective and to have easy access to the property and our tenants from a management viewpoint.

1

Diversification from both a geographic and tenancy perspective is a critical component of our operating strategy. While over 70% of our properties are located in the state of Texas, we continue to expand our holdings outside of the state. With respect to tenant diversification, our two largest merchants, Kroger and Safeway, accounted for 3.5% and 3.4% of our total revenue including our share of revenue from unconsolidated joint ventures and excluding our partners share of revenue from consolidated joint ventures, as of December 31, 2000, respectively. No other tenant accounted for more than 1.4%.

We finance the growth and working capital needs of the company in a conservative manner. With a credit rating of A/a3 from Standard & Poors and Moody's Investor Services, respectively, we have the highest unsecured credit rating of any public REIT. We intend to maintain this conservative approach to managing our balance combined sheet, which , in turn, gives us many options to raising debt or equity capital when needed. At December 31, 2000, our fixed charge coverage ratio was 2.6 to 1 and our debt to total market capitalization was 35%.

WRI's policies with respect to the investment and operating philosophies discussed above are reviewed by our Board of Trust Managers periodically and may be modified without a vote of our shareholders.

Location of Properties. Historically, WRI has emphasized investments in properties located primarily in the Houston area. Since 1987, we began actively acquiring properties outside of Houston. Of our 292 properties that were owned or operated under long-term leases as of December 31, 2000, 99 of our 254 developed properties and 14 of our 38 parcels of unimproved land were located in the Houston metropolitan area. In addition to these properties, we owned 88 developed properties and eight parcels of unimproved land located in other parts of Texas. Because of our investments in the Houston area, as well as in other parts of Texas, the Houston and Texas economies affect, to a significant degree, the business and operations of WRI.

In 2000, the economies of Houston and Texas continued to grow, still exceeding the national average. The economy of the entire southwestern United States, where we have our primary operations, also remained strong relative to the national average. The Houston economy, although bolstered by a resurgent oil market, has become highly diversified after experiencing significant growth in the technology, construction, services, health care and finance, insurance and real estate sectors. It has become much more integrated into the international economy and is somewhat affected by the international climate. Thus, Houston's expansion is expected to continue in 2001 and beyond against a backdrop of a slowing national economy. Any deterioration in the Houston or Texas economies could adversely affect us. However, our centers are generally anchored by supermarkets and drug stores under long-term leases, and these types of stores, which deal in basic necessity-type items, tend to be less affected by economic change.

Competition. WRI is among the five largest publicly-held owners and operators of neighborhood and community shopping centers in the nation based on revenues, number of properties and total market capitalization. There are numerous other developers and real estate companies (both public and private) financial institutions and other investors engaged in the development, acquisition and operation of shopping centers and commercial property who compete with us in our trade areas. This results in competition for both acquisitions of existing income-producing properties and also for prime development sites. There is also

competition for tenants to occupy the space that WRI and its competitors develop, acquire and manage.

We believe that the principal competitive factors in attracting tenants in our market areas are location, price, anchor tenants and maintenance of properties. We also believe that our competitive advantages include the favorable locations of our properties, our ability to provide a retailer with multiple locations with anchor tenants in the Houston area and the practice of continuous maintenance and renovation of our properties.

Financial Information. Additional financial information concerning WRI is included in the Consolidated Financial Statements located on pages 29 through 47 herein.

2

ITEM 2. PROPERTIES

At December 31, 2000, WRI's real estate properties consisted of 292 locations in fourteen states. A complete listing of these properties, including the name, location, building area and land area (in square feet), as applicable, is set forth below:
