EDIETS.COM, INC

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2003

(Unaudited)

1. ORGANIZATION

eDiets.com, Inc. (the Company) was incorporated in the State of Delaware on March 18, 1996 for the purpose of developing and marketing Internet-based diet and fitness programs. The Company markets its programs primarily through advertising and other promotional arrangements on the World Wide Web and is moving towards the use of offline advertising and other promotional efforts as well.

2. BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements included herein have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and note disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted pursuant to those rules and regulations. The Company believes that the disclosures made are adequate to make the information presented not misleading. All the adjustments which, in the opinion of management, are considered necessary for a fair presentation of the results of operations for the periods shown are of a normal recurring nature and have been reflected in the unaudited condensed consolidated financial statements. Results of operations for the three months ended March 31, 2003 are not necessarily indicative of the results that may be expected for the year ending December 31, 2003. The information included in these unaudited condensed consolidated financial statements should be read in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations contained in this report and the consolidated financial statements and accompanying notes included in the Company's Annual Report on Form 10-KSB for the fiscal year ended December 31, 2002.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the condensed consolidated financial statements and accompanying notes. While the Company believes that such estimates are fair when considered in conjunction with the condensed consolidated financial position and results of operations taken as a whole, the actual amount of such estimates, when known, may vary from these estimates.

3. STOCKHOLDERS' EQUITY

In January 2002, the Company issued 25,000 stock options to a member of the Company's Board of Directors for services provided to the Company beyond his duties as a Board Member. The fair value of the options totaled approximately \$24,000, which was recognized as consulting expense in the accompanying condensed consolidated statement of operations for the quarter ended March 31, 2002.

In addition to the options discussed above, the Company issued options to purchase a total of 61,000 shares of common stock to non-employees for the three months ended March 31, 2002. The fair value of these options totaled approximately \$53,000 and was recognized as general and administrative expense in the three month period ended March 31, 2002.

For the quarter ended March 31, 2003, the Company did not issue any stock options to non-employees.

4. EQUITY INVESTMENT

The Company has a 60% interest in a foreign joint venture, eDiets Europe Limited, that is accounted for under the equity method of accounting. The investment recorded to date is zero as it has been limited to the license of the Company's international technology rights. Accordingly, since the Company has not invested any funds, nor is it committed to do so,

Table of Contents**EDIETS.COM, INC****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)**

the Company has not recorded its share of the joint venture's losses since inception. eDiets Europe Limited's cumulative losses since inception have totaled approximately \$191,000 through March 31, 2003. In the event that the Company makes a cash investment or commitment to the joint venture, the Company will record its share of the losses to date, up to the amount funded or committed.

5. (LOSS) EARNINGS PER COMMON SHARE

Basic (loss) earnings per common share is computed using the weighted average number of common shares outstanding during the period. Diluted (loss) earnings per share is computed using the weighted average number of common and dilutive potential common shares outstanding during the period. Dilutive potential common shares consist of the incremental common shares issuable upon exercise of stock options and warrants (using the treasury stock method).

The following table sets forth the computation of basic and diluted (loss) earnings per common share (in thousands, except per share information):

	Three Months Ended March 31,	
	2003	2002
Basic (loss) earnings per common share:

Diluted (loss) earnings per common share:

Effect of dilutive potential common shares:		
Stock options and warrants		2,097
Adjusted weighted average shares and assumed conversions	15,809	17,706
Diluted (loss) earnings per common share	\$ (0.13)	\$ 0.03

6. INCOME TAXES

The Company recorded approximately \$59,000 of income tax benefit for the three months ended March 31, 2003 primarily related to the amortization of intangible assets resulting from the DietSmart acquisition in October 2001. The Company expects to be able to offset any taxable income for the current year with available net operating loss carryforwards from prior years.

Table of Contents**EDIETS.COM, INC****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)****7. STOCK-BASED COMPENSATION**

The Company applies the intrinsic value method provisions of Accounting Principles Board Opinion No. 25, *Accounting for Stock Issued to Employees*, and related interpretations in accounting for grants of options to Company directors, officers and employees under the Company's stock option plan. No stock-based employee compensation cost was reflected in the statement of operations for the months ended March 31, 2003, as all options granted under the plan had an exercise price equal to the market value of the underlying common stock on the date of grant. The following table illustrates the effect on net (loss) income and (loss) earnings per share as if the Company had applied the fair value recognition provisions of Statement of Financial Accounting Standard (SFAS) No. 123, *Accounting for Stock-Based Compensation* as amended by SFAS No. 148, *Accounting for Stock-Based Compensation - Transition and Disclosure*, in accounting for options grants under the plan.

8. RECENT ACCOUNTING PRONOUNCEMENTS

On December 31, 2002, the Financial Accounting Standards Board issued SFAS No. 148, *Accounting for Stock-Based Compensation - Transition and Disclosure*. Statement 148 amends SFAS No. 123, *Accounting for Stock-Based Compensation*, to provide alternative methods of transition to SFAS No. 123's fair value method of accounting for stock-based employee compensation. SFAS 148 also amends the disclosure provisions of SFAS 123 and APB Opinion No. 28, *Interim Financial Reporting*, to require disclosure of the method used to account for stock-based employee compensation and the effect of the method on reported net income and earnings per share results in both annual and interim financial statements. The disclosure provisions were effective for the Company beginning with the annual financial statements for the year ended December 31, 2002.

COMPARISON OF THE THREE MONTHS ENDED MARCH 31, 2003 TO MARCH 31, 2002

Revenue: Our revenue for the three months ended March 31, 2003 was \$7,331,000 as compared to \$6,998,000 for the three months ended March 31, 2002. The 5% increase in revenue was mainly due to price increases over the prior year in the form of a shorter initial membership period combined with a higher absolute price for our program and to increased non-subscription revenues. Paying members as of March 31, 2003 were approximately 190,000 compared to approximately 205,000 as of March 31, 2002. Approximately 17% of our revenues in the three months ended March 31, 2003 came from additional sources of revenue, such as advertising revenue, commission revenue and e-commerce revenue.

As of March 31, 2003, deferred revenue, which relates to payments for which services had not yet been provided, grew by \$0.7 million during the quarter to \$3.8 million compared to \$3.1 million at the prior year end, as more members opted for longer term subscriptions.

Cost of Revenue: Cost of revenue consists primarily of Internet access and service charges, credit card fees, consulting costs for professionals that provide online meetings, revenue sharing costs, advertising servicing fees, salary payments to our nutritional staff and product and fulfillment costs related to e-commerce sales. Cost of revenue increased to \$872,000 or 12% of revenue for the three months ended March 31, 2003 from \$721,000 or 10% of revenue for the three months ended March 31, 2002. The dollar increase was primarily due to increased consulting costs for outside professionals and revenue sharing costs owed to third-parties offset by decreased Internet access and service charges and credit card fees.

Product Development: Product development costs consist primarily of salary payments to our development staff and related expenditures for technology and software development. These expenses decreased to \$284,000 or 4% of revenue for the three months ended March 31, 2003 from \$361,000 or 5% of revenue for the three months ended March 31, 2002. The dollar decrease for the three months ended March 31, 2003 as compared to the corresponding period in the prior year was primarily due to the capitalization of additional salary costs pursuant to AICPA Statement of Position 98-1, Accounting for the Costs of Computer Software Developed for or Obtained for Internal Use, and Emerging Issue Task Force Issue No. 00-2, Accounting for Web Site Development Costs.

Sales and Marketing Expense: Sales and marketing expenses consist primarily of Internet advertising expenses, which we generally incur prior to the recognition of revenue from sales generated from those efforts. These expenses increased to \$6,798,000 or 93% of revenue for the three months ended March 31, 2003 from \$3,670,000 or 52% of revenues for the three months ended March 31, 2002. Sales and marketing costs for Internet advertising was approximately \$5,488,000 and \$2,753,000 for the periods ended March 31, 2003 and 2002, respectively. The increase was primarily due to higher than anticipated customer acquisition costs and was largely due to a doubling of online advertising expenditures

Edgar Filing: EDIETS COM INC - Form 10QSB

compared to the first quarter of 2002 without a commensurate increase in new members acquired. The two

Table of Contents

most significant components of the shortfall in members acquired during the first quarter of 2003 were a shortfall under a contract with a major Internet portal and lower than expected response to the Company's email marketing campaigns. The Company has taken several steps to improve its advertising productivity. The Company also incurred approximately \$884,000 of compensation costs related to its sales and marketing activities for the period ended March 31, 2003 as compared to approximately \$763,000 in the corresponding period in the prior year. The increase was primarily due to additional personnel costs related to sales and marketing efforts.

General and Administrative Expenses: General and administrative expenses consist primarily of salaries, overhead and related costs for general corporate functions, including professional fees. General and administrative expenses decreased to \$1,097,000 or 15% of revenue for the three months ended March 31, 2003 from \$1,441,000 or 21% of revenue for the three months ended March 31, 2002. The dollar decrease was primarily due to lower salary expenses, professional fees and general overhead expenses.

Depreciation and Amortization: Depreciation and amortization expenses increased to \$332,000 or 5% of revenue for the three months ended March 31, 2003 from \$324,000 or 5% of revenue for the three months ended March 31, 2002. The dollar increase was attributable to the larger asset base subject to depreciation.

Other Expenses, net: Other expense, net, which consists of interest income offset by interest expense and charges incurred on the disposal of fixed assets, decreased by \$52,000 to \$10,000 for the three months ended March 31, 2003 from the corresponding period in the prior year. The decrease was primarily due to a decrease in interest expense related to the notes payable issued as a part of the acquisition of DietSmart, Inc. (DietSmart) in October 2001. We made the final payment on these obligations in January 2003.

Income Tax Benefit: Income tax benefit of \$59,000 for the three months ended March 31, 2003 mainly relates to the tax benefit from the amortization of intangible assets resulting from the DietSmart acquisition. We expect to be able to offset any taxable income for the current year with available net operating loss carryforwards from prior years.

Net (Loss) Income: As a result of the factors discussed above, we recorded a net loss of \$2,003,000 for the three months ended March 31, 2003 compared to net income of \$472,000 for the three months ended March 31, 2002.

LIQUIDITY AND CAPITAL RESOURCES

Cash Flows from Operating Activities: We reported a \$101,000 net use of cash in operations in the first quarter of 2003 as compared to \$1,100,000 of net cash provided by operations in the first quarter of 2002. The \$101,000 net use of cash was primarily attributable to our net loss and increases in prepaid expenses, offset by increases in accounts payable, accrued liabilities and deferred revenue. The \$1,100,000 of net cash provided by operations in the first quarter of 2002 was primarily attributable to net income and an increase in deferred revenue offset by decreases in prepaid expenses, accounts payable and accrued liabilities.

Cash Flows from Investing Activities: Our investing activities used \$203,000 in the first quarter of 2003 and \$79,000 in the first quarter of 2002, primarily for purchases of computer equipment.

Cash Flows from Financing Activities: Our financing activities used \$514,000 in the first quarter of 2003 and \$27,000 in the first quarter of 2002. The use in 2003 was primarily attributable to the repayment of notes payable issued in connection with the 2001 acquisition of DietSmart and to the repayment of capital lease obligations. As of March 31, 2003 the Company's debt totaled \$196,000 and consists primarily of capital lease obligations.

Available Cash: At March 31, 2003 we had \$1,326,000 of unrestricted cash and cash equivalents and another \$209,000 in restricted cash. The Company is monitoring and managing its capital resources and based on early second quarter results anticipates improved cash flow from operations in the second quarter of 2003 compared to the first quarter. Management believes that cash on hand and cash flows from operations will be sufficient to fund its working capital and capital expenditures for at least the next twelve months. To the extent we require additional funds to support our operations or the expansion of our business, we may seek to undertake additional equity financing. There can be no assurance that additional financing, if required, will be available to us in amounts or on terms acceptable to us or at all.

Contractual Obligations: The following summarizes future cash outflow related to our contractual obligations at March 31, 2003 (in thousands):

Total contractual cash obligations	<u>\$3,172</u>	<u>\$ 2,723</u>	<u>\$ 360</u>	<u>\$ 89</u>

We currently have online advertising commitments with major Internet portals totaling approximately \$2,382,000 through March 31, 2004.

Letter of Credit: We have an irrevocable standby letter of credit from a bank in the amount of \$200,000 that expires in January 2004. The letter of credit is collateralized by certain cash equivalents and is being used to guarantee our obligations under our capital leases for computer servers. As of March 31, 2003 we had approximately \$169,000 in leased equipment against the letter of credit.

We also have a second irrevocable standby letter of credit from a bank in the amount of \$500,000 that expires in July 2003 which is being used to guarantee our obligations under our advertising agreement with the MSN® network of Internet services.

RECENT ACCOUNTING PRONOUNCEMENTS

In December 2002, the FASB issued SFAS 148, *Accounting for Stock-Based Compensation Transition and Disclosure*, which amends SFAS 123, *Accounting for Stock-Based Compensation*. SFAS 148 provides alternative methods of transition for an entity that voluntarily changes to the fair value based method of accounting for stock-based employee compensation. It also amends the disclosure provisions of SFAS 123 to require prominent disclosure about the effects an entity's accounting policy decisions with respect to stock-based employee compensation on reported net income in both annual and interim periods. SFAS 148 is effective for annual periods ending after December 15, 2002 and interim periods beginning after December 15, 2002. The adoption of SFAS No. 148 did not have an effect on our financial condition or results of operations. The Company continues to apply the intrinsic value based method of accounting prescribed by APB 25, *Accounting for Stock Issued to Employees*.
