Notes to Consolidated Financial Statements

1. Income taxes:

Effective October 1, 2000, the Company was required to adopt on a retroactive basis the new accounting standards of The Canadian Institute of Chartered Accountants ("CICA") for income taxes. Under this accounting standard, the Company is not required to restate its comparative figures for prior years.

Under these new standards, future tax assets and liabilities attributable to all temporary differences are measured using the future tax rates expected to be in effect when the items are recovered or settled. The effect of a change in tax rates must be recognized in income at the enactment date.

Previously, future tax assets and liabilities were recorded at the tax rate in effect in the period the temporary difference arose and were not adjusted for subsequent tax rate changes. The Company's temporary differences are principally in respect of deductible share issue costs which were recorded directly in capital stock rather than as a credit to income tax expense. There is no cumulative effect as of October 1, 2000 of this change in accounting policy. As a result of the December 2000 announcement by the government to introduce legislation to reduce income tax rates over the next four years, the Company was required to revalue its future tax assets as at December 31, 2000 to reflect the reduction in future expected tax rates. The impact of this was to increase the Company's tax provision for the three months ended December 31, 2000 by \$100,000. Under the CICA's new accounting standard the Company is required to record this item as an adjustment to income tax expense, notwithstanding the fact that such amounts were not previously reflected in income tax expense when recorded.

2. Segmented information:

The Company provides integrated marketing communication services to its clients. While the Company has subsidiaries in Canada, the United States, the United Kingdom and Continental Europe, it operates as a global business and has no distinct operating segments
