Item 2.02 Results of Operations and Financial Condition.

On February 17, 2005, Advanced Energy Industries, Inc. announced via press release its financial results for the fourth quarter and year ended December 31, 2004. A copy of the press release is furnished with this Current Report on Form 8-K as Exhibit 99.1.

Use of Non-GAAP Financial Information

To supplement the fourth quarter 2004 condensed consolidated financial statements prepared under Generally Accepted Accounting Principles in the United States of America (GAAP), Advanced Energy Industries, Inc. uses non-GAAP financial measures, as defined in Regulation G of the Securities Exchange Act of 1934, as amended, of adjusted net income that is GAAP net income, adjusted to exclude certain charges and benefits, and adjusted gross profit that is GAAP gross profit, adjusted to exclude inventory write-downs for excess and obsolete inventory. Reconciliations from the non-GAAP financial measures to the most directly comparable measures reported under GAAP are included in the press release. Due to the amount of charges incurred in the fourth quarter as a result of realignment and other activities, Advanced Energy believes that the adjusted results are useful to investors to aid in understanding the operating results of the fourth quarter. The management of Advanced Energy uses the adjusted results to analyze the fourth quarter 2004 and to plan and forecast future periods. The non-GAAP measures used are neither in accordance with, nor alternatives for, the comparable GAAP measures, and may be materially different from similar non-GAAP measures reported by other companies. The presentation of this supplemental information should not be considered as a substitute for the company's net income or gross profit determined in accordance with GAAP.
