LETTER TO SHAREHOLDERS

[PHOTO OF THOMAS E. FAUST JR.]

Thomas E. Faust Jr.
President

We are pleased to welcome shareholders of Eaton Vance Tax-Advantaged Dividend Income Fund (the "Fund"), a closed-end fund traded on the New York Stock Exchange under the symbol EVT, with the Fund's first annual report. Among the first equity income funds designed to take advantage of new favorable tax rates on dividend income, the Fund's investment objective is to provide a high level of after-tax total return, consisting primarily of tax-advantaged dividend income and capital appreciation. The Fund invests primarily in a diversified portfolio of common and preferred stocks that pay dividends that qualify for federal income taxation at long-term capital gains rates.

Based on net asset value (NAV) per share for the period from inception on September 30, 2003, through August 31, 2004, the Fund had a total return of 16.84%. This return resulted from an increase in NAV from \$19.10 (offering price, less all commissions and fees) on September 30, 2003, to \$21.14 on August 31, 2004, and the distribution of \$1.075 per share in dividend income.(1)

Based on share price trading on the New York Stock Exchange for the period from inception on September 30, 2003, through August 31, 2004, the Fund had a total return of 5.67%. This return resulted from an increase in share price from \$19.10 (offering price, less all commissions and fees) on September 30, 2003, to \$19.12 on August 31, 2004, and the distribution of \$1.075 per share in dividend income.(1) Based on the most recent dividend and a share price of \$19.12, the Fund had a market yield of 6.75% as of August 31, 2004.(2)

WITH TODAY'S LOWER TAX RATES, IT IS STILL IMPORTANT FOR INVESTORS TO CONSIDER TAX EFFECTS...

Last year, Congress passed legislation that included several provisions that affect individual investors. The most important aspects of the Jobs and Growth Tax Relief Reconciliation Act of 2003 for individuals were a lowering of tax rates for ordinary income and long-term capital gains and a change in the tax treatment of qualifying dividend income, which is now taxed at the same rates as long-term capital gains, rather than as ordinary income.

The biggest change for equity investors is that qualifying dividend income is now taxed at much lower rates than other investment income and short-term gains (maximum rate of 15% vs. 35%). The spread between short-term and long-term capital gains tax rates has also increased. These changes increase the importance of achieving a mix of returns that emphasizes long-term gains and qualifying dividends over less favorably taxed short-term gains and non-qualifying dividends and other investment income.

Edgar Filing: EATON VANCE TAX ADVANTAGED DIVIDEND INCOME FUND - Form N-CSR

Taxes continue to be the single largest cost borne by long-term equity investors. Strategies to help minimize tax effects can add real value to taxable accounts. Just as before, it makes sense for taxpayers to invest in funds that share their objective of after-tax returns.

Sincerely,

/s/ Thomas E. Faust Jr.

MANAGEMENT DISCUSSION

AN INTERVIEW WITH MICHAEL R. MACH, JUDITH A. SARYAN, AND THOMAS H. LUSTER,

Michael R. Mach, CFA
Portfolio Manager

Q: Michael, would you describe the economic and market environment since the Fund's inception on September 30, 2003?

A: MR. MACH: Since the Fund's inception 11 months ago, the U.S. economy has shown above-trend growth, driven by stimulative monetary and fiscal policy, improving consumer confidence and a healthier employment picture. At the same time, inflation has been generally on the increase, albeit rising slowly from very low levels back toward the long-term average. Against this generally positive economic backdrop, equity markets scored solid gains.

During the 11-month period ending August 31, 2004, the Fund provided shareholders a total return of 16.84% on a net asset value (NAV) basis and 5.67% based on share price.* For comparative purposes, over this same period, the Russell 1000 Value Index and the Merrill Lynch Preferred Index had total returns of 18.68% and 5.04%, respectively.(1)

[PHOTO OF JUDITH A. SARYAN, CFA]

Judith A. Saryan, CFA
Portfolio Manager

Q: Judith, could you discuss how the Fund has been invested over the past 11 months?

A: MS. SARYAN: Based on the Fund's objective of providing a high level of after-tax total return, consisting primarily of tax-advantaged dividend income and capital appreciation, the Fund was primarily invested in securities that generated a relatively high level of qualifying dividend income (QDI). At the end of the period, the Fund had approximately 69.0% of total investments invested in common stocks, approximately 30.3% of total investments invested in preferred stocks, and 0.7% of total investments held in cash equivalents. Within the common stock portfolio, the Fund had 34.1% of total investments invested in utility and telecommunication stocks. An additional 34.9% of the Fund's total investments were invested in common stocks diversified across the consumer, industrial and financial sectors.(2)

Q: Judith, how would you characterize the performance of the Fund's utility and telecommunication common stocks over this period?

A: MS. SARYAN: The utility and telecommunication stocks owned by the Fund generally outperformed the overall markets for the 11-month period ending August 31, 2004. Utility stocks rose during this period as longterm interest rates declined. Historically, utility, telecommunication and other higher yielding stocks have tended to do well during periods of declining long-term interest rates. Also throughout this period, many of the utility and telecommunication companies owned by the Fund experienced strong free cash flow generation. This allowed many of the Fund's utility and telecommunication holdings to increase their regular quarterly, semi-annual or annual dividend payments. In a number of cases, companies held in the Fund's portfolio also rewarded shareholders with special one-time dividend payments.

Thomas H. Luster, CFA
Portfolio Manager

Q: Michael, would you comment on the performance of the Fund's other common stock holdings?

A: MR. MACH: In addition to the utility and telecommunication stocks mentioned above, the Fund also benefited from being invested in a broadly diversified basket of other dividend-paying common stocks. Consumer-related stocks held by the Fund generally moved higher during the period, as consumer spending benefited from tax rebates and strong new job creation. Growing demand and increasing commodity prices generally benefited the Fund's holdings in the energy and material sectors. And as improving corporate earnings and free cash flow began to fuel a rebound in business spending, industrial stocks held by the Fund also generally benefited.

Q: Tom, could you comment on the performance of the Fund's preferred stocks?

A: MR. LUSTER: During the period, preferred stocks owned by the Fund generated mid-single digit returns. The performance of the Fund's preferred stock holdings generally followed fixed-income benchmarks during the period, posting positive returns during periods of stable or falling interest rates, and negative returns during periods when yields moved higher. During the last 11 months, the volatility associated with owning preferred stocks was greater than usual. The Fund's disciplined and research-intensive approach to managing its preferred portfolio allowed it to navigate successfully through this period of unusual volatility

Q: Judith, has the Fund invested in any non-U.S. securities since its 9/30/03 inception?

A: MS. SARYAN: Yes, the Fund has invested in non-U.S. securities in both its common and preferred portfolios. These investments have provided the Fund with international diversification and dividend yields often more attractive than the yields available on stocks issued by similar domestic corporations. As of August 31, 2004, approximately 23.4% of the Fund's total investments were invested in non-US common stocks. In addition, approximately 16.9% of the Fund's total investments were invested in "Yankee" preferreds, preferred stocks generally issued by large, highly rated, European financial institutions but denominated in U.S. dollars.(1)

Q: Tom, are there any unifying themes tying together Fund investments?

A: MR. LUSTER: Definitely. Our discipline is to buy dividend-paying stocks, whether common or preferred, of companies characterized by strong business franchises, backed by proven management teams and solid balance sheets. For

Edgar Filing: EATON VANCE TAX ADVANTAGED DIVIDEND INCOME FUND - Form N-CSR

common stocks, we focus on companies that offer the potential for growth in earnings, cash flow and dividends. For preferreds, we have generally favored highly-rated, higher-yielding securities.

Q: Michael, have a significant number of the Fund's common stock holdings raised their dividends since the Fund's inception?

A: MR. MACH: Yes. In fact, a majority of the Fund's common stock holdings raised their dividends during this period. The Jobs and Growth Tax Reconciliation Act of 2003 that President Bush signed into law in May of 2003 effectively removed many of the disincentives previously associated with paying out earnings as dividends. This has set the stage for the increases in dividend payouts now emerging. We believe the growing number of dividend increases we have seen in recent months also reflects companies achieving higher profits and, in some cases, divesting non-core investments. This has provided greater free cash flow that has been used by corporations to increase the dividends paid to shareholders.

(1) Holdings are subject to change due to active management.

4

Q: Judith, could you describe how the Fund's dividend capture strategy helps it to generate incremental qualified dividend income?

A: MS. SARYAN: The Fund's dividend capture strategy is a trading strategy designed to enhance the level of qualified, tax-advantaged dividend income earned by the Fund. By implementing its dividend capture strategy, the Fund has been able to collect a greater number of dividend payments over the last 11 months than it would have collected by simply adhering to a buy-and-hold strategy.

On September 15, 2004, the Fund announced an increase in its monthly dividend from \$0.1075 per share to \$0.1100 per share. This increase reflected both the effective implementation of the Fund's dividend capture strategy and the significant number of dividend increases by companies represented in the Fund's common stock portfolio.(1)

Q: Judith, is it your expectation that all of the dividend income paid out by the Fund will be QDI income through the end of 2004?

A: MS. SARYAN: At this point, we anticipate that virtually all of the income paid out by the Fund will be considered QDI income, subject to taxation at long-term capital gains rates no greater than 15%.

Q: Tom, would you review how the Fund has managed the maturities of the Auction Preferred Shares (APS) that it has issued to leverage its initial assets?

A: MR. LUSTER: Since the Fund initially issued its APS in December 2003, we have on a number of occasions moved to extend the maturities of these issues. As of September 23, 2004, the Fund's \$700 million in APS borrowings maintained a weighted average maturity of 121 days. This compares against a weighted average maturity of 21 days when the APS were first issued. By lengthening the maturity of the Fund's APS in this manner, we believe the Fund has lowered its sensitivity to rising short-term interest rates. Use of financial leverage creates an opportunity for increased income, but, at the same time, creates special risks (including the likelihood of greater volatility of net asset value and market price of the common shares).

Q: Michael, do you have any final comments for our shareholders?

Edgar Filing: EATON VANCE TAX ADVANTAGED DIVIDEND INCOME FUND - Form N-CSR

A: MR. MACH: In recent months, driven by a combination of the lower tax rate applied to qualifying dividend income, strong corporate earnings and free cash flow growth, and historically low dividend payout ratios, corporations have meaningfully increased dividend payments made to shareholders of common stock. We believe the Fund is positioned to benefit should this trend continue.

EATON VANCE TAX-ADVANTAGED DIVIDEND INCOME FUND as of August 31, 2004

NOTES TO FINANCIAL STATEMENTS

1 SIGNIFICANT ACCOUNTING POLICIES

Eaton Vance Tax-Advantaged Dividend Income Fund (the Fund) is registered under the Investment Company Act of 1940, as amended, as a diversified, closed-end management investment company. The Fund was organized under the laws of the Commonwealth of Massachusetts by an Agreement and Declaration of Trust dated July 10, 2003. The Fund's investment objective is to provide a high level of after-tax total return consisting primarily of tax-advantaged dividend income and capital appreciation. The Fund pursues its objective by investing primarily in dividend-paying common and preferred stocks. The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The policies are in conformity with accounting principles generally accepted in the United States of America.

A INVESTMENT VALUATION -- Securities listed on a U.S. securities exchange generally are valued at the last sale price on the day of valuation or, if no sales took place on such date, at the mean between the closing bid and asked prices therefore on the exchange where such securities are principally traded. Equity securities listed on the NASDAQ National Market System generally are valued at the official NASDAQ closing price. Unlisted or listed securities for which closing sales prices or closing quotations are not available are valued at the mean between the latest available bid and asked prices or, in the case of preferred equity securities that are not listed or traded in the over-the-counter market, by an independent pricing service. The value of preferred equity securities that are valued by a pricing service on a bond basis will be adjusted by an income factor, to be determined by the investment adviser, to reflect the next anticipated regular dividend. Exchange-traded options are valued at the last sale price for the day of valuation as quoted on the principal exchange or board of trade on which the options are traded or, in the absence of sales on such date, at the mean between the latest bid and asked prices therefore. Futures positions on securities and currencies generally are valued at closing settlement prices. Short-term debt securities with a remaining maturity of 60 days or less are valued at amortized cost. If short-term debt securities were acquired with a remaining maturity of more than 60 days, their amortized cost value will be based on their value on the sixty-first day prior to maturity. Other fixed income and debt securities, including listed securities and securities for which price quotations are available, will normally be valued on the basis of valuations furnished by a pricing service. The daily valuation of foreign securities generally is determined as of the close of trading on the principal exchange on which such securities trade. Events occurring after the close of trading on foreign exchanges may result in adjustments to the valuation of foreign securities to more accurately reflect their fair value as of the close of regular trading on the New York Stock Exchange. The Fund may rely on an independent fair valuation service in adjusting the valuations of foreign securities. Foreign securities and currencies are valued in U.S. dollars, based on foreign currency exchange rate quotations supplied by an independent quotation service. Investments held by the Fund for which valuations or market quotations are unavailable are valued at fair value using methods determined in good faith by or at the direction of the Trustees of the Fund considering relevant factors, data and information including the market value of freely tradable securities of the same class in the principal market on which such securities are normally traded.

B INCOME -- Dividend income is recorded on the ex-dividend date for dividends

Edgar Filing: EATON VANCE TAX ADVANTAGED DIVIDEND INCOME FUND - Form N-CSR

received in cash and/or securities. However, if the ex-dividend date has passed, certain dividends from foreign securities are recorded as the Fund is informed of the ex-dividend date. Interest income is recorded on the accrual basis.

C FEDERAL TAXES -- The Fund's policy is to comply with the provisions of the Internal Revenue Code applicable to regulated investment companies and to distribute to shareholders each year all of its taxable income, including any net realized gain on investments. Accordingly, no provision for federal income or excise tax is necessary. At August 31, 2004, the Fund, for federal income tax purposes, had a capital loss carryover of \$3,388,959, which will reduce the Fund's taxable income arising from future net realized gain on investments, if any, to the extent permitted by the Internal Revenue Code, and thus will reduce the amount of distributions to shareholders which would otherwise be necessary to relieve the Fund of any liability for federal income or excise tax. Such capital loss carryover will expire August 31, 2012. Additionally, at August 31, 2004, the Fund had net capital losses of \$15,134,158 attributable to security transactions incurred after October 31, 2003. These capital losses are treated as arising on the first day of the Fund's taxable year ended August 31, 2005.

D OFFERING COSTS -- Costs incurred by the Fund in connection with the offering of the common shares and preferred shares were recorded as a reduction of capital paid in excess of par applicable to common shares.

14

E WRITTEN OPTIONS -- Upon the writing of a call or a put option, an amount equal to the premium received by the Fund is included in the Statement of Assets and Liabilities as a liability. The amount of the liability is subsequently marked-to-market to reflect the current value of the option written in accordance with the Fund's policies on investment valuations discussed above. Premiums received from writing options which expire are treated as realized gains. Premiums received from writing options which are exercised or are closed are added to or offset against the proceeds or amount paid on the transaction to determine the realized gain or loss. If a put option is exercised, the premium reduces the cost basis of the securities purchased by the Fund. The Fund, as writer of an option, may have no control over whether the underlying securities may be sold (call) or purchased (put) and, as a result, bears the market risk of an unfavorable change in the price of the securities underlying the written option.

F PURCHASED OPTIONS -- Upon the purchase of a call or put option, the premium paid by the Fund is included in the Statement of Assets and Liabilities as an investment. The amount of the investment is subsequently marked-to-market to reflect the current market value of the option purchased, in accordance with the Fund's policies on investment valuations discussed above. If an option which the Fund has purchased expires on the stipulated expiration date, the Fund will realize a loss in the amount of the cost of the option. If the Fund enters into a closing sale transaction, the Fund will realize a gain or loss, depending on whether the sales proceeds from the closing sale transaction are greater or less than the cost of the option. If a Fund exercises a put option, it will realize a gain or loss from the sale of the underlying security, and the proceeds from such sale will be decreased by the premium originally paid. If the Fund exercises a call option, the cost of the security which the Fund purchases upon exercise will be increased by the premium originally paid.

G SWAP AGREEMENTS -- The Fund may enter into swap agreements to hedge against fluctuations in securities prices, interest rates or market conditions, to change the duration of the overall portfolio, to mitigate non-payment or

default risk, or to gain exposure to particular securities, baskets of securities, indices or currencies. In a standard swap transaction, two parties agree to exchange the returns (or differentials in rates of return) to be exchanged or swapped between the parties, which returns are calculated with respect to a notional amount (i.e., the return on or increase in value of a particular dollar amount invested at a particular interest rate or in a "basket" of securities representing a particular index). The Fund will enter into swaps on a net basis. If the other party to a swap defaults, the Fund's risk of loss consists of the net amount of payments that the Fund is contractually entitled to receive. The Fund will not enter into any swap unless the claims-paying ability of the other party thereto is considered to be investment grade by the Adviser. The Fund is exposed to credit loss in the event of non-performance by the counterparty. These instruments are traded in the over-the-counter market. If the Adviser is incorrect in its forecasts of market values, interest rates and other applicable factors, the investment performance of the Fund would be unfavorably affected.

H FOREIGN CURRENCY TRANSLATION -- Investment valuations, other assets, and liabilities initially expressed in foreign currencies are converted each business day into U.S. dollars based upon current exchange rates. Purchases and sales of foreign investment securities and income and expenses are converted into U.S. dollars based upon currency exchange rates prevailing on the respective dates of such transactions. Recognized gains or losses on investment transactions attributable to foreign currency exchange rates are recorded for financial statement purposes as net realized gains and losses on investments. That portion of unrealized gains and losses on investments that results from fluctuations in foreign currency exchange rates is not separately disclosed.

I USE OF ESTIMATES -- The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expense during the reporting period. Actual results could differ from those estimates.

J INDEMNIFICATIONS -- Under the Fund's organizational documents, its officers and Trustees may be indemnified against certain liabilities and expenses arising out of the performance of their duties to the Fund and shareholders are indemnified against personal liability for obligations of the Fund. Additionally, in the normal course of business, the Fund enters into agreements with service providers that may contain indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred.

K OTHER -- Investment transactions are accounted for on a trade date basis. Realized gains and losses are computed on the specific identification of the securities sold.

15

L EXPENSE REDUCTION -- Investors Bank & Trust Company (IBT) serves as custodian of the Fund. Pursuant to the custodian agreement, IBT receives a fee reduced by credits which are determined based on the average daily cash balance the Fund maintains with IBT. All credit balances used to reduce the Fund's custodian fees are reported as a reduction of total expenses in the Statement of Operations.

2 AUCTION PREFERRED SHARES

Edgar Filing: EATON VANCE TAX ADVANTAGED DIVIDEND INCOME FUND - Form N-CSR

The Fund issued 4,000 shares of Auction Preferred Shares (APS) Series A, 4,000 shares of APS Series B, 4,000 shares of APS Series C, 4,000 shares of APS Series D, 4,000 shares of APS Series E, 4,000 shares of APS Series F and 4,000 shares of APS Series G on December 10, 2003 in a public offering. The underwriting discount and other offering costs were recorded as a reduction of the capital of the common shares. Dividends of the APS, which accrue daily, are cumulative at a rate which was established at the offering of the APS and have been reset by an auction based on the dividend period of each Series. Rates are reset weekly for Series A and Series B, annually for Series C, Series D and Series F, approximately monthly for Series E and approximately bi-monthly for Series G. The reset period for Series C, Series D and Series F was changed after the initial public offering for each such series. Subsequent to August 31, 2004, the reset period for Series A was changed to an annual reset period. Dividends are generally paid on the day following the end of the dividend period for Series A, Series B and Series E. Series C, Series D, Series F and Series G pay accumulated dividends on the first business day of each month and on the day following the end of the dividend period.

Dividend rate ranges for the period from the commencement of the offering, December 10, 2003, to August 31, 2004 are as indicated below:

SERIES	DIVIDEND RATE RANGES
Series A	1.03% - 1.70%
Series B	1.03% - 1.65%
Series C	1.08% - 1.75%
Series D	1.07% - 1.75%
Series E	1.08% - 1.65%
Series F	1.099% - 1.225%
Series G	1.10% - 1.82%

The APS are redeemable at the option of the Fund, at a redemption price equal to \$25,000 per share, plus accumulated and unpaid dividends on any dividend payment date. The APS are also subject to mandatory redemption at a redemption price equal to \$25,000 per share, plus accumulated and unpaid dividends, if the Fund is in default for an extended period on its asset maintenance requirements with respect to the APS. If the dividends on the APS shall remain unpaid in an amount equal to two full years' dividends, the holders of the APS as a class have the right to elect a majority of the Board of Trustees. In general, the holders of the APS and the common shares have equal voting rights of one vote per share, except that the holders of the APS, as a separate class, have the right to elect at least two members of the Board of Trustees. The APS have a liquidation preference of \$25,000 per share, plus accumulated and unpaid dividends. The Fund is required to maintain certain asset coverage with respect to the APS as defined in the Fund's By-Laws and the Investment Company Act of 1940. The Fund pays an annual fee equivalent to 0.25% of the preferred shares' liquidation value for the remarketing efforts associated with the preferred auctions.

3 DISTRIBUTION TO SHAREHOLDERS

The Fund intends to make monthly distributions of net investment income, after payment of any dividends on any outstanding Auction Preferred Shares. In addition, at least annually, the Funds intends to distribute net capital gain, if any. Distributions are recorded on the ex-dividend date. (1) For the period from the commencement of offering, December 10, 2003, to August 31, 2004.

The Fund distinguishes between distributions on a tax basis and a financial reporting basis. Accounting principles generally accepted in the United States of America require

16

that only distributions in excess of tax basis earnings and profits be reported in the financial statements as a return of capital.

The tax character of the distributions declared for the period from the start of business, September 30, 2003, to August 31, 2004, was as follows:

PERIOD ENDED
AUGUST 31, 2004

Distributions declared from:

Ordinary income \$ 84,978,226

During the period from the start of business, September 30, 2003, to August 31, 2004, accumulated undistributed net investment income was decreased by \$1,067,087, and accumulated net realized loss on investments decreased by \$1,067,087 due to differences between book and tax accounting for investment transactions. This change had no effect on the net assets or the net asset value per share.

As of August 31, 2004, the components of distributable earnings (accumulated losses) on a tax basis were as follows:

Edgar Filing: EATON VANCE TAX ADVANTAGED DIVIDEND INCOME FUND - Form N-CSR

Capital loss carryforwards	\$ (3,388,959)
Unrealized appreciation	\$ 166,616,049
Other temporary differences	\$ (22,964,017)

4 INVESTMENT ADVISER FEE AND OTHER TRANSACTIONS WITH AFFILIATES

The investment adviser fee is earned by Eaton Vance Management (EVM), as compensation for management and investment advisory services rendered to the Fund. Under the advisory agreement, EVM receives a monthly advisory fee in the amount equal to 0.85% annually of average daily gross assets of the Fund. For the period from the start of business, September 30, 2003, to August 31, 2004, the advisory fee amounted to \$15,853,685. EVM serves as the administrator of the Fund, but currently receives no compensation for providing administrative services to the Fund.

In addition, the Adviser has contractually agreed to reimburse the Fund for fees and other expenses in the amount of 0.20% of the average daily gross assets for the first five years of the Fund's operations, 0.15% of average daily gross assets in year six, 0.10% in year seven and 0.05% in year eight. For the period from the start of business, September 30, 2003, to August 31, 2004 the Investment Adviser waived \$3,730,279 of its advisory fee. The Adviser has also agreed to reduce the investment adviser fee by an amount equal to that portion of commissions paid to brokerdealers in execution of Fund portfolio transactions that is consideration for third-party research services. For the period from May 1, 2004, to August 31, 2004, the Investment Adviser waived \$21,298 of its advisory fee.

EVM has agreed to reimburse the Fund for costs incurred in the Fund's organization. For the period from the start of business, September 30, 2003, to August 31, 2004, EVM reimbursed the Fund \$7,500 in organization expenses.

Trustees of the Fund who are not affiliated with EVM may elect to defer receipt of all or a percentage of their annual fees in accordance with the terms of the Trustees Deferred Compensation Plan. For the period from the start of business, September 30, 2003, to August 31, 2004, no significant amounts have been deferred.

Certain officers and Trustees of the Fund are officers of the above organization.

During the period ended August 31, 2004, the Fund engaged in a sale transaction in the amount of \$19,988,874 with a Portfolio which utilizes Boston Management and Research, a wholly-owned subsidiary of EVM, as investment adviser. This sale transaction complied with Rule 17a-7 under the Investment Company Act of 1940.

(1) For the period from the start of business, September 30, 2003, to August 31, 2004.

8 RISKS ASSOCIATED WITH FOREIGN INVESTMENTS

Investing in securities issued by companies whose principal business activities are outside the United States may involve significant risks not present in domestic investments. For example, there is generally less publicly available information about foreign companies, particularly those not subject to the disclosure and reporting requirements of the U.S. securities laws. Foreign issuers are generally not bound by uniform accounting, auditing, and financial reporting requirements and standards of practice comparable to those applicable to domestic issuers. Investments in foreign securities also involve the risk of possible adverse changes in investment or exchange control regulations, expropriation or confiscatory taxation, limitation on the removal of funds or other assets of the Fund, political or financial instability or diplomatic and other developments which could affect such investments. Foreign stock markets, while growing in volume and sophistication, are generally not as developed as those in the United States, and securities of some foreign issuers (particularly those in developing countries) may be less liquid and more volatile than securities of comparable U.S. companies. In general, there is less overall governmental supervision and regulation of foreign securities markets, broker-dealers, and issuers than in the United States.

9 FINANCIAL INSTRUMENTS

Edgar Filing: EATON VANCE TAX ADVANTAGED DIVIDEND INCOME FUND - Form N-CSR

The Fund may trade in financial instruments with off-balance sheet risk in the normal course of its investing activities to assist in managing exposure to various market risks. These financial instruments include written options, forward foreign currency exchange contracts, and financial futures contracts and may involve, to a varying degree, elements of risk in excess of the amounts recognized for financial statement purposes. The notional or contractual amounts of these instruments represent the investment the Fund has in particular classes of financial instruments and does not necessarily represent the amounts potentially subject to risk. The measurement of the risks associated with these instruments is meaningful only when all related and offsetting transactions are considered. The Fund did not have any open obligations under these financial instruments at August 31, 2004.

Please see schedule of investments contained in the Report to Stockholders included under Item 1 of this Form N-CSR.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES

The Board of Trustees of the Trust has adopted a proxy voting policy and procedure (the "Fund Policy"), pursuant to which the Trustees have delegated proxy voting responsibility to the Fund's investment adviser and adopted the investment adviser's proxy voting policies and procedures (the "Policies") which are described below. The Trustees will review the Fund's proxy voting records from time to time and will annually consider approving the Policies for the upcoming year. In the event that a conflict of interest arises between the Fund's shareholders and the investment adviser, the administrator, or any of their affiliates or any affiliate of the Fund, the investment adviser will generally refrain from voting the proxies related to the companies giving rise to such conflict until it consults with the Board of the Fund except as contemplated under the Fund Policy. The Board's Special Committee will instruct the investment adviser on the appropriate course of action.

The Policies are designed to promote accountability of a company's management to its shareholders and to align the interests of management with those shareholders. The investment adviser will generally support company management on proposals relating to environmental and social policy issues and on matters regarding the state of organization of the company. On all other matters, the investment adviser will take management's proposals under advisement but will consider each matter in light of the guidelines set forth in the Policies. Except in the instance of routine matters related to corporate administration which are not expected to have a significant economic impact on the company or its shareholders (on which the investment adviser will routinely vote with management), the investment adviser will review each matter on a case-by-case basis and reserves the right to deviate from the Policies guidelines when it believes the situation warrants such a deviation. The Policy includes voting guidelines for matters relating to, among other things, the election of directors, approval of independent auditors, executive compensation, corporate structure and anti-takeover defenses. The investment adviser may abstain from voting from time to time where it determines that the costs associated with voting a proxy outweighs the benefits derived from exercising the right to vote.

In addition, the investment adviser will monitor situations that may result in a conflict of interest between the Fund's shareholders and the investment adviser, the administrator, or any of their affiliates

or any affiliate of the Fund by maintaining a list of significant existing and prospective corporate clients. The investment adviser's personnel responsible for reviewing and voting proxies on behalf of the Fund will report any proxy received or expected to be received from a company included on that list to the investment adviser's general counsel or chief equity investment officer. The general counsel or chief equity investment officer will determine if a conflict exists. If a conflict does exist, the proxy will either be voted strictly in accordance with the Policy or the investment adviser will seek instruction on how to vote from the Board.

Effective August 31, 2004, information on how the Fund voted proxies relating to portfolio securities during the 12 month period ended June 30, 2004 [is/will be] available (1) without charge, upon request, by calling 1-800-262-1122, and (2) on the Securities and Exchange Commission's website at <http://www.sec.gov>.
