Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by checkmark whether the registrant is a large accelerated filer, an accelerated filer or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act. (Check one):

Large Accelerated Filer ☒ Accelerated Filer ☐ Non-Accelerated Filer ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). ☐ Yes ☒ No

Indicate the number of shares outstanding of each of the issuer's class of common stock as of December 7, 2006, the latest practicable date.

Edgar Filing: MONSTER WORLDWIDE INC - Form 10-Q

Class	Outstanding on December 7, 2006
Common Stock	123,722,925
Class B Common Stock	4,762,000

EXPLANATORY NOTE

In this Form 10-Q for the quarter ended June 30, 2006, Monster Worldwide, Inc. ("Monster Worldwide" or the "Company") is restating its consolidated financial statements as of and for the three and six months ended June 30, 2005. The Company is restating its consolidated financial statements to reflect additional non-cash stock based compensation costs and related income tax effects, relating to stock option awards that were granted during the periods 1997 through March 31, 2003.

On June 12, 2006, the Company announced that a committee of independent directors of the Board of Directors (the "Special Committee") assisted by independent legal counsel and outside accounting experts was conducting an independent investigation to review the Company's historical stock option grant practices and related accounting. The Special Committee and its advisors conducted an extensive review of the Company's historical stock option grants and related accounting, including an assessment and review of the Company's accounting policies, internal records, supporting documentation and e-mail communications, as well as interviews with current and former employees and current and former members of the Company's executive management and Board of Directors.

On July 26, 2006, the Company announced that although the Special Committee investigation had not yet reached a conclusion, the Company cautioned shareholders and the investing public against relying on previously published financial statements. On October 25, 2006, the Company announced that its Audit Committee, after consultation with senior management, the Special Committee and the Company's independent registered public accounting firm, determined that the consolidated financial statements and related financial information contained in its Annual Reports on Form 10-K through December 31, 2005 should no longer be relied upon. Accordingly, since 2005 information was impacted as a result of the findings of the Special Committee, the Company did not timely file its Form 10-Q for the quarter ended June 30, 2006 to accurately reflect prior period information. This Quarterly Report accurately reflects prior period results. The Company's consolidated financial statements for the quarter ended June 30, 2006 on this Form 10-Q should only be read in conjunction with the Company's Form 10-K/A. See Note 2 of our consolidated financial statements included in this Form 10-Q for further discussion.

The Special Committee has determined that the exercise price of a substantial number of stock option grants during the periods between 1997 through March 31, 2003 differed from the fair market value of the underlying shares on the measurement date. In most cases, the original date assigned to the grant corresponded to the date as of which a unanimous written consent ("UWC") was executed by the members of the Compensation Committee of the Company's Board of Directors, but the date of that consent did not correspond to the actual date on which the identities of the individual optionees and the number of shares underlying each option was determined. In a significant number of instances, the stock price on the assigned date was lower, sometimes substantially lower, than the price on the date the award may be deemed to have actually been determined. The Company believes that the dates as of which the UWC's were dated were earlier than the dates on which they were actually executed. In a significant number of instances, the stock price on the assigned date (the date as of which the UWC was executed) was lower, sometimes substantially lower, than the price on the date the award may be deemed to have actually been determined. The Company believes that this practice was done intentionally, by persons formerly in positions of responsibility at the Company for the purpose of issuing options at a higher intrinsic value than would have otherwise been the case.

Restatement Methodology

Historically, the Company has generally accounted for stock option grants as if the options were granted at an exercise price no less than fair market value as indicated by the closing price of a share of the Company's common stock trading on the NASDAQ National Market on either the "as of" date reflected on the relevant UWC of the Compensation Committee of the Board of Directors or the date of minutes of an actual Compensation Committee meeting ("Minutes"). A majority of stock options granted during the

period under review were granted pursuant to UWC's. The UWC's, by their terms, typically referred to an attached Schedule A listing the specific names of the grantees and the number of shares subject to each option. The UWC's that have been located by the Company, however, either have no Schedule A annexed to them, or where one is attached, it frequently does not match the Company's electronic stock option database.

The Company has therefore concluded that neither the "as of" dates referenced on Compensation Committee UWCs nor the dates of Minutes can be relied on as proper option grant measurement dates. The Company has been unable to ascertain with any degree of certainty when, if ever, UWC's or Minutes with full, complete and final Schedule A's were reviewed and approved by the Compensation Committee.

In light thereof, the Company has concluded that the most appropriate and accurate source of data to determine option grant measurement dates is the electronic record of option grant information resident in its electronic stock option database program known as Transcentive, which went into use in late 1998. The entry into Transcentive of the specific grantee information as to each stock option grant constituted an acknowledgement by the Company to the grantee of the grantee's legal entitlement to the grant and, in the absence of authoritative information as to when grants were actually approved by the Company provides an appropriate measurement date framework based on entitlement. For option grants made subsequent to the implementation of Transcentive, the Company has calculated the restated intrinsic value using a grant measurement date based on when the option data was entered into the database program (the "Creation Date"). For options granted prior to the implementation of Transcentive, the new measurement date was determined by applying the average lag time between the "as of" date and the Creation Date for options granted subsequent to the implementation of Transcentive to the originally utilized measurement date in order to approximate a reliable measurement date. The average lag period between the date as of which UWC's were executed and the date that options purportedly granted by such consents were inputted into the Company's Transcentive system was ninety-seven days. For grants prior to December 1998, the Company has therefore used measurement dates equating to ninety-seven days following the date as of which the UWC relating to such options were executed.

Given the volatility of the Company's common stock, the use of another measurement date could have resulted in a substantially higher or lower cumulative compensation expense. This in turn would have caused net income or loss to be different than amounts reported in the restated consolidated financial statements.

Findings

Based on the findings of the Special Committee, management of the Company has concluded that the Company's consolidated financial statements as of and for the three and six months ended June 30, 2005 should be restated to record additional non-cash stock based compensation expenses and related income tax effects resulting from the stock option review. As of December 31, 2005, the Company had accelerated substantially all unvested outstanding stock options in order to mitigate compensation expense that would have been required upon the effectiveness of SFAS 123R beginning January 1, 2006. Accordingly, the 2006 periods will not be materially effected as a result of this restatement.

The restatement of the Company's previously issued financial statements reflects the following:

- (a) the recognition of non-cash stock based compensation expense and related income tax effects related to stock options affected by the grant dating issues; and
- (b) adjustments to previously recognized income tax benefits as a result of certain stock options that were granted to certain of the Company's executive officers with exercise prices that were less than the fair market value of the Company's common stock on the actual date of grant and, therefore, did not qualify as deductible performance-based compensation in accordance with Internal Revenue Code section 162(m) ("IRC 162(m)").

Edgar Filing: MONSTER WORLDWIDE INC - Form 10-Q

The Company has notified the Internal Revenue Service of the stock option review. Under Section 162(m), stock options that are in-the-money at the time of grant do not qualify as performance-based compensation. The Company is not entitled to a deduction for the compensation expense related to the exercise of those options held by officers who are covered by IRC 162(m).

In connection with the restatement, the Company has recorded cumulative non-cash stock based compensation of \$339.6 million through December 31, 2005, offset by a cumulative income tax benefit of \$67.7 million, totaling \$271.9 million on an after-tax basis. The table below reflects the impacts of the restatement adjustments discussed above on the Company's consolidated statements of operations for the periods presented below:

Category of adjustments: (in thousands)	Three Months Ended June 30, 2005	Six Months Ended June 30, 2005	Cumulative (January 1, 1997 through December 31, 2005)
Stock option grant date changes - continuing operations ^(a)	\$ 2,134	\$ 4,913	\$ 196,020
Stock option grant date changes - discontinued operations	25	774	143,566
Pre-tax stock option expense adjustments	2,159	5,687	339,586
Income tax impact on grant date changes-continuing operations	(594)	(1,329)	(52,199)
Income tax impact on grant date changes-discontinued operations	(6)	(190)	(20,257)
Income tax adjustments related to IRC 162(m) resulting from adjustments due to grant date changes - continuing operations			4,800
Income tax benefit	(600)	(1,519)	(67,656)
Total adjustments to net income (loss)	\$ 1,559	\$ 4,168	\$ 271,930

(a)

Non-cash stock based compensation expenses in continuing operations have been recorded as adjustments to the "Salaries and related" line item in our consolidated statements of operations.

The Company was unable to timely file its Quarterly Reports on Form 10-Q for the quarters ended June 30, 2006 and September 30, 2006, primarily due to the unavailability of reliable financial information for the 2005 periods. The Company's Form 10-Q for the quarter ended June 30, 2006 is being filed concurrently with the Form 10-Q/A for the quarter ended March 31, 2006 as well as the Company's Form 10-K/A for the year ended December 31, 2005. The Company expects to file a Quarterly Report on Form 10-Q for the quarter ended September 30, 2006 within the next two weeks of this filing date.

As a result of the failure by Monster Worldwide to file quarterly reports on a timely basis, the Company is no longer eligible to use Form S-3 to register its securities with the Securities and Exchange Commission until all required reports under the Securities Exchange Act of 1934 have been timely filed for the 12 months prior to the filing of the registration statement for those securities.

On October 6, 2006, Andrew J. McKelvey resigned from his positions as Chairman of the Board and Chief Executive Officer. The Board of Directors of the Company named William M. Pastore, the Company's then President and Chief Operating Officer as its Chief Executive Officer and as a director. On that date, the Board of Directors established an Executive Committee consisting of Salvatore Iannuzzi, Chair, John Gaudling and Ronald Kramer to act for the Board of Directors in overseeing the Company's affairs and to perform the functions of the Chairman. Mr. McKelvey kept his seat on the Board of Directors and was named Chairman Emeritus. On October 29, 2006, Andrew J. McKelvey resigned as a member of the Board.

of Directors and as Chairman Emeritus. Mr. McKelvey and his legal counsel have advised the Special Committee of the Board of Directors that Mr. McKelvey had declined to be interviewed by the Special Committee on the previously agreed date and that Mr. McKelvey would not provide assurance he would appear at a later date.

Following Mr. McKelvey's resignation and at the direction of management and the Board of Directors, the Company's internal audit department and outside counsel examined certain transactions between the Company and Mr. McKelvey or entities or individuals affiliated with him. Mr. McKelvey has reimbursed the Company approximately \$533,000 for certain expenses paid by the Company during the periods 1996 through 2006. The Company continues to seek reimbursement, plus interest, on certain other items.

On November 22, 2006, the Company's Board of Directors, with concurrence from the Special Committee, announced that it had terminated for cause Myron Olesnycky, the Company's former Senior Vice-President, General Counsel and Secretary. Mr. Olesnycky was suspended from his position on September 19, 2006. The action was a result of the Special Committee's review of the Company's historical stock option grant practices.

The Company's Board of Directors and senior management believe that the practices discussed related to the granting of options during the periods 1997 through March 31, 2003 are contrary to the high ethical standards they believe should apply to all of the Company's business practices.

Although the investigation is substantially complete, the Special Committee continues to analyze the facts disclosed by its investigation in order to make comprehensive recommendations to the Board regarding remedial steps, and is in the process of determining what remedial recommendations it will make. It expects to make those recommendations in the first quarter of 2007.

MONSTER WORLDWIDE, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(dollars in thousands, except per share amounts)
(unaudited)

1. DESCRIPTION OF BUSINESS AND BASIS OF PRESENTATION

Description of Business

Monster Worldwide, Inc. (the "Company") has continuing operations that consist of four reportable segments: Monster Careers - North America; Monster Careers - International; Internet Advertising and Fees; and Advertising & Communications. These segments provide services to customers in a variety of industries throughout North America, Europe and the Asia-Pacific region.

Monster Careers. The Company's Monster Careers segments (both North America and International) predominantly earn revenue from the placement of job postings on the websites within the Monster network, access to the Company's resume databases and other career-related services. The Company's Monster Careers segments operate globally.

Internet Advertising and Fees. The Company's Internet Advertising and Fees segment earns revenue from the display of advertisements on the Monster network of websites, click-throughs on text-based links, leads provided to advertisers and subscriptions to premium services. Among the larger components of this segment are the Company's Fastweb, MonsterTrak, Tickle and Military.com businesses. Prior to the first quarter of 2006, these operations were managed and reported by the Company's "Monster" segment, therefore prior period segment disclosures have been restated to conform to the current operating structure. Revenue from this segment is primarily earned in the United States.

Advertising & Communications. The Company's Advertising & Communications segment mainly earns revenue from job advertisements placed in newspapers, Internet career-related websites such as Monster, and other media, plus associated fees for related services. Revenue is recorded net of media placement costs. This segment has operations in the United States and Canada. On May 10, 2006, the Company sold its TMP Worldwide Advertising & Communications businesses in the United Kingdom and Ireland. See Note 8 for further discussion. Additionally, in August 2006, the Company disposed of its remaining Advertising & Communications business in North America. See Note 10 for further discussion.

Basis of Presentation

The consolidated interim financial statements included herein are unaudited and have been prepared by the Company pursuant to the rules and regulations of the United States Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States have been omitted pursuant to such rules and regulations, although the Company believes that the disclosures are adequate to make the information presented not misleading. The consolidated interim financial statements include the accounts of the Company and all of its wholly-owned and majority-owned subsidiaries. All significant inter-company accounts and transactions have been eliminated in consolidation.

These statements reflect all normal recurring adjustments that, in the opinion of management, are necessary for fair presentation of the information contained herein. These consolidated interim financial statements should be read in conjunction with the financial statements and notes thereto included in the Company's Annual Report on Form 10-K/A for the year ended December 31, 2005. The Company adheres to the same accounting policies in preparation of interim financial statements. As permitted under generally accepted accounting principles, interim accounting for certain expenses, including income taxes are based on full year assumptions. Such amounts are expensed in full in the year incurred. For interim financial reporting purposes, income taxes are recorded based upon estimated annual income tax rates.

2. RESTATEMENT OF CONSOLIDATED FINANCIAL STATEMENTS

On June 12, 2006, the Company announced that a committee of independent directors of the Board of Directors (the "Special Committee") assisted by independent legal counsel and outside accounting experts was conducting an independent investigation to review the Company's historical stock option grant practices and related accounting. The Special Committee and its advisors conducted an extensive review of the Company's historical stock option grants and related accounting, including an assessment and review of the Company's accounting policies, internal records, supporting documentation and e-mail communications, as well as interviews with current and former employees and current and former members of the Company's executive management and Board of Directors.

On July 26, 2006, the Company announced that although the Special Committee investigation had not yet reached a conclusion, the Company cautioned shareholders and the investing public against relying on previously published financial statements. On October 25, 2006, the Company announced that its Audit Committee, after consultation with senior management, the Special Committee and the Company's independent registered public accounting firm, determined that the consolidated financial statements and related financial information contained in its Annual Reports on Form 10-K through December 31, 2005 should no longer be relied upon. Accordingly, since 2005 information was impacted as a result of the findings of the Special Committee, the Company has amended its Form 10-Q for the quarter ended March 31, 2006 and is filing this Form 10-Q for the quarter ended June 30, 2006 to accurately reflect prior period information.

The Special Committee has determined that the exercise price of a substantial number of stock option grants during the periods between 1997 through March 31, 2003 differed from the fair market value of the underlying shares on the measurement date. In most cases, the original date assigned to the grant corresponded to the date as of which a unanimous written consent ("UWC") was executed by the members of the compensation committee of the Company's Board of Directors, but the date of that consent did not correspond to the actual date on which each individual optionee and the number of shares underlying each option was determined. The Company believes that the dates as of which the UWC's were dated were earlier than the dates on which they were actually executed. In a significant number of instances, the stock price on the assigned date (the date as of which the UWC was executed) was lower, sometimes substantially lower, than the price on the date the award may be deemed to have actually been determined. The Company believes that this practice was done intentionally, by persons formerly in positions of responsibility at the Company for the purpose of issuing options at a higher intrinsic value than would have otherwise been the case.

Restatement Methodology

Historically, the Company has generally accounted for stock option grants as if the options were granted at an exercise price no less than fair market value as indicated by the closing price of a share of the Company's common stock trading on the NASDAQ National Market on either the "as of" date reflected on the relevant UWC of the Compensation Committee of the Board of Directors or the date of minutes of an actual Compensation Committee meeting ("Minutes"). A majority of stock options granted during the period under review were granted pursuant to UWC's. The UWC's, by their terms, typically referred to an attached Schedule A listing the specific names of the grantees and the number of shares subject to each option. The UWC's that have been located by the Company, however, either have no Schedule A annexed to them, or where one is attached, it frequently does not match the Company's electronic stock option database.

The Company has therefore concluded that neither the "as of" dates referenced on Compensation Committee UWCs nor the dates of Minutes can be relied on as proper option grant measurement dates. The Company has been unable to ascertain with any degree of certainty when, if ever, UWC's or Minutes with full, complete and final Schedule A's were reviewed and approved by the Compensation Committee.

In light thereof, the Company has concluded that the most appropriate and accurate source of data to determine option grant measurement dates is the electronic record of option grant information in its electronic stock option database program known as Transcutive, which went into use in late 1998. The entry into Transcutive of the specific grantee information as to each stock option grant constituted an acknowledgement by the Company to the grantee of the grantee's legal entitlement to the grant and, in the absence of authoritative information as to when grants were actually approved by the Company provides an appropriate measurement date framework based on entitlement. For option grants made subsequent to the implementation of Transcutive, the Company has calculated the restated intrinsic value using a grant measurement date based on when the option data was entered into the database program (the "Creation Date"). For options granted prior to the implementation of Transcutive, the new measurement date was determined by applying the average lag time between the "as of" date and the Creation Date for options granted subsequent to the implementation of Transcutive to the original option grant date in order to approximate a reliable measurement date. The average lag period between the date as of which UWC's were executed and the date that options purportedly granted by such consents were inputted into the Company's Transcutive system was ninety-seven days. For grants prior to December 1998, the Company has therefore used measurement dates equating to ninety-seven days following the date as of which the UWC relating to such options were executed.

Given the volatility of the Company's common stock, the use of another measurement date could have resulted in a substantially higher or lower cumulative compensation expense. This in turn would have caused net income or loss to be different than amounts reported in the restated consolidated financial statements.

Findings

Based on the findings of the Special Committee, management of the Company has concluded that the Company's consolidated financial statements as of and for the three and six months ended June 30, 2005 should be restated to record additional non-cash stock based compensation expenses and related income tax effects resulting from the stock option review. As of December 31, 2005, the Company had accelerated substantially all unvested outstanding stock options in order to mitigate compensation expense that would have been required upon the effectiveness of SFAS 123R beginning January 1, 2006. Accordingly, the 2006 periods will not be materially effected as a result of this restatement.

The restatement of the Company's previously issued financial statements reflects the following:

- (a) the recognition of non-cash compensation expense and related income tax effects related to stock options affected by the grant dating issues; and
- (b) adjustments to previously recognized income tax benefits as a result of certain stock options that were granted to certain of the Company's executive officers with exercise prices that were less than the fair market value of the Company's common stock on the actual date of grant and, therefore, did not qualify as deductible performance-based compensation in accordance with Internal Revenue Code section 162(m) ("IRC 162(m)").

These restated consolidated financial statements include cumulative compensation expense, net of income taxes, of \$271,930 through December 31, 2005, which is recorded as an adjustment to opening retained deficit as of December 31, 2005 included in the accompanying consolidated balance sheet. The following

table reflects the impact of the adjustments on the Company's continuing and discontinued operations in the Company's consolidated statements of operations for the periods presented below:

Category of adjustments:	Three Months Ended June 30, 2005	Six Months Ended June 30, 2005	Cumulative (January 1, 1997 through December 31, 2005)
Stock option grant date changes - continuing operations ^(a)	\$ 2,134	\$ 4,913	\$ 196,020
Stock option grant date changes - discontinued operations	25	774	143,566
Pre-tax stock option expense adjustments	2,159	5,687	339,586
Income tax impact on grant date changes - continuing operations	(594)	(1,329)	(52,199)
Income tax impact on grant date changes - discontinued operations	(6)	(190)	(20,257)
Income tax adjustments related to IRC 162(m) resulting from adjustments due to grant date changes - continuing operations			4,800
Income tax benefit	(600)	(1,519)	(67,656)
Total adjustments to net income	\$ 1,559	\$ 4,168	\$ 271,930

(a) Non-cash stock based compensation expenses in continuing operations have been recorded as adjustments to the "Salaries and related" line item in our consolidated statements of operations.

The Company's consolidated statements of operations for the three and six months ended June 30, 2005, as reported in the Company's Form 10-K/A include the impact of the non-cash stock based compensation expenses and related income tax adjustments resulting from the Special Committee's investigation. The statements of operations for those periods included in this Quarterly Report are different from the Form 10-K/A due to dispositions that occurred during the first six months of 2006. See Note 8 for further discussion of the Company's 2006 divestitures.

3. EARNINGS PER SHARE AND STOCK-BASED COMPENSATION

Earnings Per Share

Basic earnings per share does not include the effects of potentially dilutive stock options and restricted stock awards, and is computed by dividing income available to common shareholders by the weighted average number of common shares outstanding for the period. Diluted earnings per share reflects, in periods in which they have a dilutive effect, commitments to issue common stock and common stock issuable upon exercise of stock options for periods in which the options' exercise price is lower than the Company's average share price for the period.

A reconciliation of shares used in calculating basic and diluted earnings per common and Class B common share follows. Certain stock options and stock issuable under employee compensation plans were excluded from the computation of earnings per share due to their anti-dilutive effect. The weighted average number of such common stock equivalents is approximately 681,000 and 6,535,000 for the three months ended June

30, 2006 and 2005, respectively and 682,000 and 6,459,000 for the six months ended June 30, 2006 and 2005, respectively.

(thousands of shares)	Three Months Ended June 30,		Six Months Ended June 30,	
	2006	2005	2006	2005
Basic weighted average shares outstanding	128,551	121,049	127,662	120,853
Effect of common stock equivalents - stock options and stock issuable under employee compensation plans	3,458	2,132	3,728	2,467
Diluted weighted average shares outstanding	132,009	123,181	131,390	123,320

Impact of the Adoption of SFAS 123R

The Company adopted Statement of Financial Accounting Standards ("SFAS") No. 123(R) *Share Based Payment* ("SFAS 123R") using the modified-prospective-transition method beginning January 1, 2006. Under that transition method, results for prior periods have not been restated and stock compensation costs recognized during the three month and six month periods ended June 30, 2006 includes: (a) compensation cost for all share based payments granted, but not yet vested as of January 1, 2006, based on the grant-date fair value estimated in accordance with SFAS 123, and (b) compensation cost for all share-based payments granted subsequent to January 1, 2006, based on the grant date fair value in accordance with the provisions of SFAS 123R. SFAS 123R also requires excess tax benefits from the exercise of stock options to be presented in the consolidated statements of cash flows as a financing activity rather than an operating activity, as presented prior to the adoption of SFAS 123R. Excess tax benefits are realized benefits from tax deductions for exercised options in excess of the deferred tax asset attributable to stock based compensation costs for such options. The total income tax benefit recognized in the statement of operations for stock-based compensation costs was \$22 and \$286 for the three and six months ended June 30, 2006, respectively. The Company did not have any stock-based compensation costs capitalized as part of an asset. The Company has granted stock options and awarded non-vested stock to employees, directors and executive officers.

At June 30, 2006, the Company has the following stock-based employee compensation plans:

Employee Stock Options. The Company recognized approximately \$53 and \$148 of pre-tax compensation expense in the consolidated statement of operations related to employee stock options for the three and six months ended June 30, 2006, respectively. The fair value of these options was estimated on the grant date using the Black-Scholes option-pricing model. Beyond June 30, 2006, the Company does not anticipate recognizing any material compensation expense associated with employee stock options. As of January 1, 2006, substantially all of the Company's employee stock options were vested and the Company has not granted any stock options subsequent to January 1, 2006.

Executive Stock Bonus Arrangements. The Company, from time to time, enters into separate share-based payment arrangements with executive officers and directors. The terms of such agreements are subject to various specified performance and vesting conditions. As of June 30, 2006, there were approximately 430,309 non-vested shares outstanding related to executive agreements with varying exercise prices. The Company recorded the equity awards using the fair market value of the Company's common stock on the date the award was approved by the Compensation Committee of the Board of Directors. These awards are amortized on a straight-line basis over the vesting period. The Company recognized pre-tax compensation expense, as a component of salaries and related in the consolidated statements of operations, related to stock bonus arrangements with executive officers of approximately \$1,405 and \$534 for the three months ended June 30, 2006 and 2005, respectively and \$2,695 and \$1,502 for the six months ended June 30, 2006 and 2005, respectively.

2006 Restricted Stock Unit Plan. On March 27, 2006, the Compensation Committee of the Board of Directors approved the grant of 663,500 restricted stock units to approximately 350 employees of the Company ("2006 RSU Plan"). The amounts of restricted stock units awarded are subject to reduction or elimination based on whether or not certain specified performance-based conditions are satisfied. If the optimal performance-based condition becomes satisfied, the maximum number of restricted stock units will vest in 25% increments on each of March 5, 2007, March 5, 2008, March 5, 2009 and March 5, 2010, provided that the recipient is continuously employed by the Company or any of its affiliates on each applicable vesting date. The Company recorded the equity award using the fair market value of the Company's common stock on March 27, 2006, which was \$48.58 and is amortizing the award on a straight-line basis over the vesting period. During the second quarter of 2006, the Compensation Committee approved the grant of 17,800 restricted stock units to employees of the Company. The Company recorded the equity award at \$44.64, which was the closing stock price on the date of approval. For the three and six months ended June 30, 2006, the Company recorded approximately \$2,080 and \$2,763, respectively, of pre-tax compensation expense, as a component of salaries and related in the consolidated statements of operations, related to the 2006 RSU Plan.

Share-based Payment Activity

The following table summarizes the activity of our employee stock options for the six months ended June 30, 2006:

(thousands of shares)	Shares	Weighted Average Exercise Price	Weighted Average Contractual Term (in years)	Aggregate Intrinsic Value
Outstanding at January 1, 2006	13,673	\$ 27.94		
Granted				
Exercised	(3,672)	24.82		
Forfeited/expired/cancelled	(112)	46.56		
Outstanding at June 30, 2006	9,889	28.91	5.9	\$ 136,015
Options exercisable at June 30, 2006	6,262	\$ 28.56	4.8	\$ 88,324

The aggregate intrinsic value is calculated as the difference between the market price of our common stock as of June 30, 2006 and the exercise price of the underlying options. During the six months ended June 30, 2006 and 2005, the aggregate intrinsic value of options exercised was \$92,306 and \$10,095, respectively. The Company did not grant any options during the six months ended June 30, 2006; however, the weighted average grant date fair value of options granted during the six months ended June 30, 2005 period was \$28.15.

The following table summarizes the activity of our non-vested stock for the six months ended June 30, 2006:

	Shares	Weighted Average Fair Value at Grant Date
Non-vested at January 1, 2006	241,309	\$ 29.64
Granted - 2006 RSU Plan	681,300	48.48
Granted - Executive Bonus Agreements	252,500	45.89
Forfeited	(8,900)	48.58
Vested	(63,500)	35.37
Non-vested at June 30, 2006	1,102,709	\$ 44.56

Edgar Filing: MONSTER WORLDWIDE INC - Form 10-Q

As of June 30, 2006 there was approximately \$30,399 and \$13,300 of unrecognized compensation cost related to the Company's 2006 RSU Plan and executive stock bonus agreements, respectively. These performance-based awards relate to non-vested stock and are being amortized over the vesting periods on a straight-line basis.

Prior to the Adoption of SFAS 123R

Prior to the adoption of SFAS 123R, the Company provided the disclosures required under SFAS 123, as amended by SFAS No. 148, *Accounting for Stock-Based Compensation: Transition and Disclosure*, which requires disclosure of the pro forma effects of stock option expense on net income and earnings per share. The Company's prior period financial statements accounted for the issuance of employee stock options using Accounting Principles Board ("APB") Opinion No. 25 ("APB 25"), *Accounting for Stock Issued to Employees* and related interpretations. Under APB 25, generally, no compensation expense was recognized in connection with the awarding of stock option grants to employees provided that, as of the grant date, all terms associated with the award are fixed and the quoted market price of the stock is equal to or less than the amount an employee must pay to acquire the stock as defined. The pro forma effects of stock-based compensation on net income and net income per share in the 2005 period have been estimated at the date of grant using the Black-Scholes option-pricing model based on the following weighted average assumptions:

	Three Months Ended June 30, 2005	Six Months Ended June 30, 2005
Risk-free interest rate	3.7%	3.7%
Volatility	47.2%	47.2%
Expected life (years)	4.2	4.2

For purposes of pro forma disclosures, the estimated fair value of the options is assumed to be expensed over the options' vesting periods. The following table illustrates the effect of the restatement adjustments and pro forma effects of recognizing compensation expense under the fair value method of accounting on the Company's operating results and per share data as follows:

	Three Months Ended June 30, 2005 (As restated)	Six Months Ended June 30, 2005 (As restated)
Net income as, restated	\$ 18,017	\$ 35,979
Add: Stock based employee compensation expense included in reported net income, net of tax ^(a)	1,906	5,144
Deduct: Compensation expense determined under fair value based method for stock options, net of tax ^(a)	(25,108)	(45,871)
Pro forma net loss, as restated	\$ (5,185)	\$ (4,748)
Basic earnings per share:		
Net income - as restated	\$ 0.15	\$ 0.30
Net loss - pro forma, as restated	\$ (0.04)	\$ (0.04)
Diluted earnings per share:		
Net income - as restated	\$ 0.15	\$ 0.29
Net loss - pro forma, as restated	\$ (0.04)	\$ (0.04)

(a)

Includes adjustments to reflect the impact of the stock option investigation as discussed in Note 2.

Stock Option Accelerations

During the year ended December 31, 2005, the Company accelerated the vesting date of substantially all of its unvested, outstanding stock option awards in order to avoid recognizing compensation expense in the consolidated statement of operations in the Company's financial statements subsequent to the effectiveness of SFAS 123R on January 1, 2006. As a result of the accelerations, the Company has eliminated approximately \$23,494 of compensation expense that would have been recognized from January 1, 2006 through 2008.

Edgar Filing: MONSTER WORLDWIDE INC - Form 10-Q

On December 28, 2004, the Company granted approximately 2,800,000 options to executives and employees. Such options vested over the five-month period ending on May 31, 2005 and the vested options generally become exercisable in four annual installments commencing December 28, 2005.

Included in pro-forma compensation expense for the three and six months ended June 30, 2005 is approximately \$15,061 and \$19,175, respectively, net of tax, resulting from accelerated vesting that occurred during the six months ended June 30, 2005. In addition, the pro-forma compensation expense for the three and six months ended June 30, 2005 includes approximately \$10,039 and \$25,098, respectively, net of tax, related to the vesting of the December 28, 2004 grant.

4. BUSINESS COMBINATIONS

For the period January 1, 2005 through June 30, 2006, we completed three business combinations. Although none of the following acquired businesses was considered to be a significant subsidiary, either individually or in the aggregate, they do affect the comparability of results from period to period. The acquisitions and the acquisition dates are as follows:

Acquired Business	Acquisition Date	Business Segment
Emailjob.com SAS	February 11, 2005	Monster Careers - International
JobKorea	October 14, 2005	Monster Careers - International
PWP, LLC ("Education.org")	May 2, 2006	Internet Advertising & Fees

Accrued Integration and Restructuring Costs

The Company has formulated integration and restructuring plans to eliminate redundant facilities, personnel and duplicate assets in connection with its business combinations. These costs were recognized as liabilities assumed in connection with the Company's business combinations. Accordingly, these costs are considered part of the purchase price of the business combinations and have been recorded as increases to goodwill. During the six months ended June 30, 2006, the Company charged \$1,340 to goodwill relating entirely to the Company's acquisition of Emailjob.com and reversed \$333 of previously capitalized costs related to acquisitions in the Internet Advertising & Fees segment.

Changes in the Company's approved restructuring plans or costs related to new restructuring initiatives may be recorded in goodwill for up to one year following the acquisition date and must be recorded in the Company's operating results thereafter. Reductions to integration and restructuring reserves established in connection with purchase business combinations are recorded as a reduction to goodwill. As of June 30, 2006 and December 31, 2005, the Company had accrued \$6,928 and \$7,703, respectively, for integration and restructuring obligations, mainly relating to future operating lease payments.

5. INVESTMENT IN UNCONSOLIDATED AFFILIATE

In February 2005, the Company acquired a 40% interest in ChinaHR.com Holdings Ltd. ("ChinaHR") for consideration of \$50,000 in cash. In February 2006, the Company increased its ownership interest in ChinaHR to 44.4% by acquiring an additional 4.4% interest from ChinaHR shareholders, for cash consideration of \$19,936. The Company accounts for its investment in ChinaHR using the equity method of accounting, thereby recording its owned percentage of ChinaHR's net results of operations as Losses in Equity Interest in the Company's statement of operations. Such losses reduce the carrying value of the Company's investment in ChinaHR.

In March 2006, the Company entered into a credit facility with ChinaHR, whereby the Company has agreed to advance ChinaHR up to an aggregate of \$20,000, with no more than \$10,000 being advanced in the first year of the agreement. Interest on the loans will be assessed at the LIBOR rate plus 1% and shall be payable on a quarterly basis, in arrears. The credit facility provides that any advances shall be due and payable in full on the maturity date, which is the earliest of March 2011 or the consummation of an initial

public offering of securities by the ChinaHR. As of June 30, 2006, the Company has advanced \$4,800 to ChinaHR under the credit facility.

ChinaHR is a leading recruitment website in China and provides online recruiting, campus recruiting and other human resource solutions. As a result of its investment, the Company has the right to occupy three of seven seats on ChinaHR's Board of Directors. In addition, the Company also has certain rights and obligations, the amount and likelihood of which are not currently determinable, to acquire a 51% or more interest in ChinaHR in the event of an initial public offering or by February 1, 2008, whichever comes first.

6. COMPREHENSIVE INCOME (LOSS)

The Company's comprehensive income (loss) is as follows:

	Three Months ended June 30,		Six Months ended June 30,	
	2006	2005	2006	2005
		(As restated)		(As restated)
Net income	\$ 39,617	\$ 18,017	\$ 81,879	\$ 35,979
Foreign currency translation adjustment and other	21,445	(31,537)	28,909	(57,760)
Comprehensive income (loss)	\$ 61,062	\$ (13,520)	\$ 110,788	\$ (21,781)

7. STOCKHOLDERS' EQUITY

Share Repurchase Program

In November 2005, the Board of Directors authorized the Company to purchase up to \$100 million of its shares of common stock in the open market or otherwise from time to time over a 30-month period as conditions warrant. Through June 30, 2006, the Company has repurchased 994,584 shares of its common stock for an aggregate purchase price of \$45,081, of which, 294,584 shares were purchased in open market transactions during the six months ended June 30, 2006 for \$14,416.

Structured Stock Repurchase

In March 2006, the Company entered into a \$22,758 structured stock repurchase transaction. In June 2006, the Company repurchased 500,000 shares upon maturity of the structured stock agreement. The structured stock repurchase was executed under the Company's authorized repurchase program.

8. DISCONTINUED OPERATIONS

On May 10, 2006, the Company sold its TMP Worldwide Advertising & Communications businesses in the United Kingdom and Ireland. In a separate transaction, the Company also sold its recruitment advertising agency in Spain. The Company received cash of approximately \$33,000 (net of working capital and other adjustments) and a \$9,000 interest bearing note receivable maturing on May 10, 2013. The Company recorded a pre-tax gain on the sale of these businesses of \$543 (\$812 after-tax loss, net of a \$1,355 tax expense), included as a component of discontinued operations in the statements of operations.

On March 1, 2006, the Company sold its TMP Worldwide Advertising & Communications businesses in Australia/New Zealand and Singapore in two separate transactions. The Company recognized a pre-tax gain on the sale of these businesses of \$2,453 (\$5,420 including the tax benefit recognized upon disposition) in the first quarter of 2006.

The impact of these transactions and the historical operating results of these businesses have been reclassified to discontinued operations for all periods presented. The dispositions were not considered material and did not include a significant amount of assets. The Company executed these transactions in order to focus more resources to support the growth of the Monster franchise on a global basis.

Edgar Filing: MONSTER WORLDWIDE INC - Form 10-Q

During the year ended December 31, 2005, the Company disposed of the following businesses that collectively comprised substantially all of its Directional Marketing operating segment. The results of operations of these businesses and the associated disposal costs are reflected as discontinued operations in the consolidated statements of operations for the three and six months ended June 30, 2005:

On June 1, 2005, the Company sold substantially all of its Directional Marketing division to a private equity firm for net cash consideration of \$49,586 (\$80 million purchase price less working capital and other adjustments and \$2,500 of cash placed in escrow for an 18 month period following the disposition date) and a \$7,000, 3% promissory note due to the Company after 7 years. The sale included the Company's Yellow Pages business in North America and Japan along with its online relocation business. The Company recognized a loss on sale of these businesses of \$10,729 (\$1,803 net of tax benefits) in the second quarter of 2005. In the third quarter of 2005, the Company returned cash consideration of \$657 upon final determination of working capital sold in connection with the disposition. The sale of the Directional Marketing business did not include the Company's Directional Marketing operations in the United Kingdom. The Company's European Advertising & Communications management continues to operate that business, and accordingly, those results have been reclassified to our Advertising & Communications operating segment.

On May 2, 2005, the Company sold its TMP Direct business unit, an order fulfillment business, formerly part of the Company's Directional Marketing segment. The business was purchased by GECKO Inc., an entity owned 65% by George Eisele, a director of Monster Worldwide, for \$2,500 cash paid at closing plus an amount equal to 50% of TMP Direct's working capital as of the closing date payable on May 2, 2006. George Eisele and another individual shareholder of GECKO Inc. personally guaranteed the May 2, 2006 payment obligation of GECKO Inc. The Company received \$500 in the second quarter of 2006 in connection with this obligation. The sale was not considered material and did not include a significant amount of assets. The Company recognized a pre-tax and after tax loss on sale of this business of \$551 in the second quarter of 2005.

The following amounts primarily related to our dispositions in 2006 and 2005 have been segregated from continuing operations and are reflected as discontinued operations in each period's consolidated statement of operations:

	Three Months ended June 30,		Six Months ended June 30,	
	2006	2005	2006	2005
		(As restated)		(As restated)
Revenue	\$ 4,916	\$ 30,456	\$ 22,106	\$ 68,115
Loss before income taxes	\$ (910)	\$ (4,899)	\$ (80)	\$ (8,984)
Income tax expense (benefit)	(276)	(2,001)	117	(3,380)
Loss from discontinued operations, net of tax	(634)	(2,898)	(197)	(5,604)
Pre-tax gain (loss) on sales of discontinued operations	726	(11,280)	3,179	(11,280)
Income tax expense (benefit)	1,419	(8,926)	(1,548)	(8,926)
Gain (loss) on sale of business, net of tax	(693)	(2,354)	4,727	(2,354)
Income (loss) from discontinued operations, net of tax	\$ (1,327)	\$ (5,252)	\$ 4,530	\$ (7,958)

Included in the income (loss) from discontinued operations, net of tax calculation is the impact of the stock option adjustments discussed in Note 2. The Company recorded \$19 and \$584 for the three and six months ended June 30, 2005, respectively, of non-cash stock based compensation costs as a component of discontinued operations, which directly relate to stock options that were awarded to individuals who were employed by the businesses discussed above that were disposed.

9. SEGMENT AND GEOGRAPHIC DATA

As of January 1, 2006, the Company changed the composition of its reportable segments to reflect changes in its internal management and reporting structure. The prior period segment information contained below has been restated to reflect the Company's new operating structure. The Company conducts business in four reportable segments: Monster Careers - North America; Monster Careers - International; Internet Advertising and Fees; and Advertising & Communications. Corporate operating expenses are not allocated to the Company's reportable segments. See Note 1 for a description of our revised operating segments.

The Company's Advertising & Communications division recognizes a commission on the sale of certain Monster products. Revenue recognized by the Advertising & Communications segment for such sales was \$4,195 and \$4,993 for the three months ended June 30, 2006 and 2005, respectively and \$7,689 and \$8,087 for the six months ended June 30, 2006 and 2005, respectively.

In March 2006, the Compensation Committee of the Board of Directors approved the 2006 RSU Plan. Accordingly, the Company has recorded \$2,080 and \$2,763 of pre-tax compensation expense in the Company's statements of operations for the three and six months ended June 30, 2006, respectively. The Company's chief operating decision maker includes these expenses when measuring the results of each reportable segment in the 2006 periods.

Corporate operating expenses for the three and six month periods ended June 30, 2005 include the impact of the non-cash stock based compensation costs of \$2,134 and \$4,913, respectively, in connection with the investigation into the Company's historical stock option grant practices and related accounting. The Company's Monster Careers - North America, Monster Careers - International, Internet Advertising and Fees and Advertising and Communications' business units' results have not changed.

The following tables present the Company's operations by business segment and by geographic region:

Revenue	Three Months ended June 30,		Six Months ended June 30,	
	2006	2005	2006	2005
Monster:				
Careers - North America	\$ 162,816	\$ 126,152	\$ 322,814	\$ 249,708
Careers - International	74,374	45,880	138,965	87,097
Internet Advertising and Fees	37,979	26,059	70,426	50,820

Total Revenue	\$ 295,800	\$ 217,023	\$ 572,753	\$ 426,319

The following table reconciles each reportable segment's assets to total assets reported on the Company's consolidated balance sheets as of June 30, 2006 and December 31, 2005:

Total Assets by Segment	June 30, 2006	December 31, 2005
		(As restated)
Monster Careers - North America	\$ 530,159	\$ 530,882
Monster Careers - International	413,544	312,897
Internet Advertising & Fees	179,366	151,827
Advertising & Communications	227,590	232,359
Corporate	453,188	328,188
Shared assets ^(c)	59,452	47,638
Assets of discontinued operations		74,924
Total Assets	\$ 1,863,299	\$ 1,678,715

(a) Corporate operating expenses include \$2,134 and \$4,913 of non-cash stock based compensation as a result of the stock option adjustments for the three and six months ended June 30, 2005, respectively, as discussed in Note 2.

(b) Includes Canada and the Asia-Pacific region.

(c) Shared assets represent assets that provide economic benefit to all of the Company's operating segments. Shared assets are not allocated to operating segments for internal reporting or decision-making purposes.

10. SUBSEQUENT EVENTS

On August 31, 2006, the Company sold its TMP Worldwide Advertising & Communications business in the United States and Canada. The purchase price of the transaction was \$45,000. Net proceeds after a working capital adjustment, taxes and transaction costs are expected to be approximately \$27,000. The sale completes the global divestiture of the Advertising & Communications unit.

Stock Option Investigation

As described in Note 2, the Company announced on June 12, 2006 that a Special Committee was established to conduct an independent investigation into the Company's historical stock option grant practices and related accounting. The Special Committee was being assisted by independent legal counsel and outside accounting experts. As a result of their review, it was determined that the exercise price of a substantial number of stock option grants during the periods between 1997 through March 31, 2003 differed from the fair market value of the underlying shares on the recorded measurement date.

On October 6, 2006, Andrew J. McKelvey resigned from his positions as Chairman of the Board and Chief Executive Officer. The Board of Directors of the Company named William M. Pastore, the Company's then President and Chief Operating Officer as its Chief Executive Officer and as a director. On that date, the Board of Directors established an Executive Committee consisting of Salvatore Iannuzzi, Chair, John

Edgar Filing: MONSTER WORLDWIDE INC - Form 10-Q

Gaulding and Ronald Kramer to act for the Board of Directors in overseeing the Company's affairs and to perform the functions of the Chairman. Mr. McKelvey kept his seat on the Board of Directors and was named Chairman Emeritus. On October 29, 2006, Andrew J. McKelvey resigned as a member of the Board of Directors and as Chairman Emeritus. Mr. McKelvey and his legal counsel have advised the Special

Committee of the Board of Directors that Mr. McKelvey had declined to be interviewed by the Special Committee on the previously agreed date and that Mr. McKelvey would not provide assurance he would appear at a later date.

Following Mr. McKelvey's resignation and at the direction of management and the Board of Directors, the Company's internal audit department and outside counsel examined certain transactions between the Company and Mr. McKelvey or entities or individuals affiliated with him. Mr. McKelvey has reimbursed the Company approximately \$533 for certain expenses paid by the Company during the periods 1996 through 2006. The Company continues to seek reimbursement, plus interest, on certain other items.

On November 22, 2006, the Company's Board of Directors, with concurrence from the Special Committee, announced that it has terminated for cause Myron Olesnyckyj, the Company's former Senior Vice-President, General Counsel and Secretary. Mr. Olesnyckyj was suspended from his position on September 19, 2006. The action was a result of the Special Committee's review of the Company's historical stock option grant practices.

The Company has incurred significant expenses in 2006 for legal, tax, accounting and other professional services in connection with the stock option investigation, preparation of restated consolidated financial statements, stock option related litigation and government investigations. The Company expects to continue to incur substantial costs in 2007 in connection with these matters.

Stock Option Regulatory Proceedings and Litigation

Both the United States Attorneys Office ("USAO") and the United States Securities and Exchange Commission ("SEC") have informed the Company that each is conducting an investigation into the Company's past stock option grants. In connection therewith, the Company has received a grand jury subpoena from the United States District Court for the Southern District of New York and requests for the voluntary production of documents from the SEC. The Company is cooperating fully with both the USAO and the SEC.

In October 2006, a putative class action litigation was filed in the United States District Court for the Southern District of New York by a former Company employee against the Company and a number of its current and former officers and directors. The action purports to be brought on behalf of all participants in the Company's 401(k) plan. The complaint alleges that the defendants breached their fiduciary obligations to plan participants under §§ 404, 405, 409 and 502 of the Employee Retirement Income Security Act ("ERISA"), 29 U.S.C. § 1104 et seq., by allowing Plan participants to purchase and to hold and maintain Company stock in their Plan accounts without disclosing to those Plan participants the historical stock option practices. The complaint seeks, among other relief, equitable restitution, attorney's fees and an order enjoining defendants from violations of ERISA.

In addition, derivative actions in connection with historical stock option practices have been commenced by shareholders purportedly on behalf of the Company in both the United States District Court for the Southern District of New York and in the Supreme Court of the State of New York, New York County, against a number of current and former officers and directors of the Company, naming the Company as a nominal defendant.

On October 20, 2006, the three federal court actions were consolidated by the Court and styled as *In re Monster Worldwide, Inc. Stock Option Derivative Litigation*, Master Docket 1:06:cv-04622 (S.D.N.Y.)(NRB-DCF) (Consolidated Action). It is expected that the plaintiffs in the consolidated federal actions will file a consolidated amended complaint on or about December 19, 2006. The current federal complaints assert claims for breach of fiduciary duty, gross mismanagement, unjust enrichment, and violations of Sections 10(b) and 14(a) of the Securities Exchange Act of 1934 (the "Exchange Act") for the period between January 1, 1997 and the present. The federal court plaintiffs seek, among other relief, an indeterminate amount of damages from the individual defendants.

On September 18, 2006, the three purported derivative actions that were filed in the Supreme Court of the State of New York, New York County, were also consolidated. The consolidated actions have been styled as *In re Monster Worldwide Inc. Derivative Litigation*, Index. No. 06-108700 (Supreme, N.Y. County). On or about December 1, 2006, the plaintiffs in the consolidated state court actions filed a consolidated amended complaint asserting claims for breach of fiduciary duty and related state law causes of action. The state court plaintiffs seek, among other relief, an indeterminate amount of damages from the individual defendants.

The Company has received correspondence from, or on behalf of, certain former employees who are the grantees of certain vested stock options that were scheduled to expire or be forfeited unless exercised within the last several months. In light of the current suspension of the Company's S-8 and the resulting prohibition on the exercise of any stock options, said individuals were precluded from exercising such options prior to their expiration date. The former employees have informed the Company that they will seek to hold the Company liable for any financial damages suffered as a result of their inability to exercise the options during the suspension period.

The Company may become subject to additional private or government actions. The expense of defending such litigation may be significant. In addition, an unfavorable outcome in such litigation could have a material adverse effect on the Company's business and results of operations. The Company may also be obligated under the terms of its by-laws to advance litigation costs for directors and officers named in litigation relating to their roles at the Company.

Report of Independent Registered Public Accounting Firm

Board of Directors and Stockholders
Monster Worldwide, Inc.
New York, New York

We have reviewed the consolidated balance sheet of Monster Worldwide, Inc. as of June 30, 2006, and the related consolidated statements of operations for the three-month and six-month periods ended June 30, 2006 and 2005, and cash flows for the six-month periods ended June 30, 2006 and 2005 included in the accompanying Securities and Exchange Commission Form 10-Q for the period ended June 30, 2006. These interim financial statements are the responsibility of the Company's management.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to the consolidated financial statements referred to above for them to be in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 2, the Company has restated its consolidated statements of operations for the three-month and six-month periods ended June 30, 2005 and the consolidated statements of cash flows for the six-month period ended June 30, 2005.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board, the consolidated balance sheet of Monster Worldwide, Inc. as of December 31, 2005, and the related consolidated statements of operations, stockholders' equity, and cash flows for the year then ended (not presented herein); and in our report dated February 3, 2006, except for the effects of the restatement discussed in Note 2 and Note 17 which are as of December 11, 2006, we expressed an unqualified opinion on those consolidated financial statements. As discussed in Note 8, the Company has classified the results of operations of TMP Worldwide Advertising and Communications businesses in United Kingdom, Ireland, Spain, Australia, New Zealand and Singapore as discontinued operations and accordingly the accompanying December 31, 2005 balance sheet reflects adjustments relating to these changes. As discussed in Note 3, the Company changed its accounting policy for stock-based compensation awards exchanged for employee services and accordingly the accompanying December 31, 2005 balance sheet reflects adjustments relating to this change. We have not audited the accompanying balance sheet.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

We make forward-looking statements in this report and in other reports and proxy statements that we file with the SEC. In addition, our senior management might make forward-looking statements. Broadly speaking, forward-looking statements include:

projections of our revenues, income, earnings per share, capital expenditures, capital structure or other financial items;

descriptions of plans or objectives of our management for future operations, products or services, including pending acquisitions and dispositions;

forecasts of our future economic performance; and

descriptions of assumptions underlying or relating to the foregoing.

Forward-looking statements discuss matters that are not historical facts. Because they discuss future events or conditions, forward-looking statements often include words such as "anticipate," "believe," "estimate," "expect," "intend," "plan," "project," "target," "can," "could," "may," "should," "will," "would," or similar expressions. Do not unduly rely on forward-looking statements. They give our expectations and are not guarantees. Forward-looking statements speak as of only the date they are made, and we might not update them to reflect changes that occur after the date they are made.

There are many factors many beyond our control that could cause results to differ significantly from our expectations. Some of these factors are described in "Item 1A. Risk Factors" of our annual report on Form 10-K/A for the year ended December 31, 2005.

Overview

Founded in 1967, Monster Worldwide, Inc. is the parent company of Monster, the leading global online careers property. We also own TMP Worldwide, one of the largest recruitment advertising agencies in North America. Our clients range from Fortune 100 companies to small and medium-sized enterprises and government agencies.

Monster is our flagship brand. Monster consists of three reportable segments, spans 24 countries and accounted for 93% of our total revenue for the six months ended June 30, 2006. Monster connects employers with job seekers and offers innovative technology and services that give employers more control over the recruiting process. We have been able to capitalize on Monster's brand and create worldwide awareness by offering online recruiting solutions that we believe are redefining the way employers and job seekers connect. These tools, which include searchable job postings, a resume database and career management content and advice, provide users with more control over the employment process. Monster's job search, resume posting services and basic networking are free to the job seeker. Monster also offers premium career services at a fee to job seekers. Employers and human resources professionals pay to post jobs, search Monster's resume database and use career site hosting and applicant tracking systems and other ancillary services. In addition, Monster offers Internet advertising to a wide variety of businesses that seek to market their products and services through a broad and diverse network of online properties.

Business Combinations

For the period January 1, 2005 through June 30, 2006, we completed three business combinations. Although none of the following acquired businesses was considered to be a significant subsidiary, either

Edgar Filing: MONSTER WORLDWIDE INC - Form 10-Q

individually or in the aggregate, they do affect the comparability of results from period to period. The acquisitions and the acquisition dates are as follows:

Acquired Business	Acquisition Date	Business Segment
Emailjob.com SAS	February 11, 2005	Monster Careers - International
JobKorea	October 14, 2005	Monster Careers - International
PWP,LLC ("Education.org")	May 2, 2006	Internet Advertising & Fees

Discontinued Operations

On May 10, 2006, the Company sold its TMP Worldwide Advertising & Communications businesses in the United Kingdom and Ireland. In a separate transaction, the Company also sold its recruitment advertising agency in Spain. The Company received cash of approximately \$33,000 (net of working capital and other adjustments) and a \$9,000 note receivable maturing on May 10, 2013. The Company recorded a pre-tax gain on the sale of these businesses of \$543 (\$812 after-tax loss, net of a \$1,355 tax expense), included as a component of discontinued operations in the statements of operations.

On March 1, 2006, the Company sold its TMP Worldwide Advertising & Communications businesses in Australia/New Zealand and Singapore in two separate transactions. The Company recognized a pre-tax gain on the sale of these businesses of \$2,453 (\$5,420 including the tax benefit recognized upon disposition) in the first quarter of 2006.

The impact of these transactions and the historical operating results of these businesses have been reclassified to discontinued operations for all periods presented. The dispositions were not considered material and did not include a significant amount of assets. The Company executed these transactions in order to focus more resources to support the growth of the Monster franchise on a global basis.

During the year ended December 31, 2005, the Company disposed of the following businesses that collectively comprised substantially all of its Directional Marketing operating segment. The results of operations of these businesses and the associated disposal costs are reflected as discontinued operations in the consolidated statements of operations for the three and six months ended June 30, 2005:

On June 1, 2005, we sold substantially all of our Directional Marketing division to a private equity firm for net cash consideration of \$49,586 (\$80 million purchase price less working capital and other adjustments and \$2,500 of cash placed in escrow for an 18 month period following the disposition date) and a \$7,000, 3% promissory note due to the Company after 7 years. The sale included our Yellow Pages business in North America and Japan along with its online relocation business. We recognized a loss on sale of these businesses of \$10,729 (\$1,803 net of tax benefits) in the second quarter of 2005. In the third quarter of 2005, we returned cash consideration of \$657 upon final determination of working capital sold in connection with the disposition. The sale of the Directional Marketing business did not include our Directional Marketing operations in the United Kingdom. Our European Advertising & Communications management continues to operate that business, and accordingly, those results have been reclassified to our Advertising & Communications operating segment.

On May 2, 2005, we sold our interests in TMP Direct, an order fulfillment business, formerly part of our Directional Marketing segment. The business was purchased by GECKO Inc., an entity owned 65% by George Eisele, a director of Monster Worldwide, for \$2,500 cash, paid at closing plus an amount equal to 50% of TMP Direct's working capital as of the closing date payable on May 2, 2006. George Eisele and another individual shareholder of GECKO Inc. personally guaranteed the May 2, 2006 payment obligation of GECKO Inc. The Company received \$500 in May 2006 in connection with this obligation. The sale was not considered material and did not include a significant amount of assets. We recognized a pre-tax and after tax loss on sale of this business of \$551 in the second quarter of 2005.

Edgar Filing: MONSTER WORLDWIDE INC - Form 10-Q

The following amounts primarily related to our dispositions in 2006 and 2005 have been segregated from continuing operations and are reflected as discontinued operations in each period's consolidated statement of operations:

	Three Months ended June 30,		Six Months ended June 30,	
	2006	2005	2006	2005
		(As restated)		(As restated)
Revenue	\$ 4,916	\$ 30,456	\$ 22,106	\$ 68,115
Loss before income taxes	\$ (910)	\$ (4,899)	\$ (80)	\$ (8,984)
Income tax expense (benefit)	(276)	(2,001)	117	(3,380)
Loss from discontinued operations, net of tax	(634)	(2,898)	(197)	(5,604)
Pre-tax gain (loss) on sales of discontinued operations	726	(11,280)	3,179	(11,280)
Income tax expense (benefit)	1,419	(8,926)	(1,548)	(8,926)
Gain (loss) on sale of business, net of tax	(693)	(2,354)	4,727	(2,354)
Income (loss) from discontinued operations, net of tax	\$ (1,327)	\$ (5,252)	\$ 4,530	\$ (7,958)

Included in the income (loss) from discontinued operations, net of tax calculation is the impact of the stock option adjustments discussed in Note 2. We recorded \$19 and \$584 of non-cash stock based compensation costs for the three and six months ended June 30, 2005 as a component of discontinued operations, which directly relate to stock options that were awarded to individuals who were employed by the businesses discussed above that were disposed. In August 2006, we disposed of our remaining Advertising & Communications business in North America.

Critical Accounting Estimates

Our consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States ("GAAP"). In connection with the preparation of our financial statements, we are required to make assumptions and estimates about future events, and apply judgments that affect the reported amounts of assets, liabilities, revenue, expenses and the related disclosures. We base our assumptions, estimates and judgments on historical experience, current trends and other factors that management believes to be relevant at the time our consolidated financial statements are prepared. On a regular basis, management reviews the accounting policies, assumptions, estimates and judgments to ensure that our financial statements are presented fairly and in accordance with GAAP. However, because future events and their effects cannot be determined with certainty, actual results could differ from our assumptions and estimates, and such differences could be material.

Our significant accounting policies are discussed in Note 1, *Basis of Presentation and Significant Accounting Policies*, of the Notes to Consolidated Financial Statements, included in Item 8, *Financial Statements and Supplementary Data*, of our Annual Report on Form 10-K/A. Management believes that the following accounting policies are the most critical to aid in fully understanding and evaluating our reported financial results, and they require management's most difficult, subjective or complex judgments, resulting from the need to make estimates about the effect of matters that are inherently uncertain. Management has reviewed these critical accounting estimates and related disclosures with the Audit Committee of our Board of Directors.

Revenue Recognition

Monster Careers. Our Monster Careers segments (both North America and International) earn revenue primarily from the placement of job postings on the websites within the Monster network, access to the

Edgar Filing: MONSTER WORLDWIDE INC - Form 10-Q

Monster network's online resume database and other career-related services. We recognize revenue at the time that job postings are displayed on the Monster network websites. Revenue earned from subscriptions to the Monster network's resume database is recognized over the length of the underlying subscriptions, typically from two weeks to twelve months. Revenue associated with multiple element contracts is allocated based on the relative fair value of the services included in the contract. Unearned revenues are reported on the balance sheet as deferred revenue.

Internet Advertising and Fees. Our Internet Advertising and Fees segment earns revenue from the display of advertisements on the Monster network of websites, click-throughs on text-based links, leads provided to advertisers and subscriptions to our non-career premium services.

The Company recognizes revenue related to the display of advertisements on its Internet properties as "impressions" are delivered. An "impression" is delivered when an advertisement appears in pages viewed by users. Arrangements for these services generally have terms of less than one year or may be terminated at any time by the advertiser.

The Company generates revenue from text based links to the websites of its advertisers that are placed on the Company's Internet properties. The Company recognizes revenue from these arrangements as "click-throughs" occur. A "click-through" occurs when a user clicks on an advertiser's listing.

The Company generates revenue from "leads" that it provides to third-party advertisers. "Leads" consist of information solicited by an advertiser by way of the Company's website. When a user provides the requested information, the Company turns over such information to the advertiser for a predetermined fee, at which time, revenue is recognized. Agreements to provide such information generally have terms that define the number of leads and time period over which they must be provided to the advertiser.

Fee revenue consists of revenues generated from a variety of consumer based services, including subscriptions and networking. The Company recognizes fee revenue over the length of the underlying subscriptions or when services are performed.

Advertising & Communications. Our Advertising & Communications division derives revenue from job advertisements placed in newspapers, Internet career job boards such as Monster and other media, plus associated fees for related services. Revenue is recorded net of media placement costs, which are passed on to the customer. Revenue is generally recognized upon placement date for newspapers and other print and offline media. Online media revenue is recognized when services are purchased.

Asset Impairment

Business Combinations, Goodwill and Intangible Assets. The purchase method of accounting requires that assets acquired and liabilities assumed be recorded at their fair values on the date of a business acquisition. Our consolidated financial statements and results of operations reflect an acquired business from the completion date of an acquisition. The costs to acquire a business, including transaction, integration and restructuring costs, are allocated to the fair value of net assets acquired upon acquisition. Any excess of the purchase price over the estimated fair values of the net tangible and intangible assets acquired is recorded as goodwill.

The judgments that we make in determining the estimated fair value assigned to each class of assets acquired and liabilities assumed, as well as asset lives, can materially impact net income in periods following a business combination. We generally use either the income, cost or market approach to aid in our conclusions of such fair values and asset lives. The income approach presumes that the value of an asset can be estimated by the net economic benefit to be received over the life of the asset, discounted to present value. The cost approach presumes that an investor would pay no more for an asset than its replacement or reproduction cost. The market approach estimates value based on what other participants in the market have paid for reasonably similar assets. Although each valuation approach is considered in

valuing the assets acquired, the approach ultimately selected is based on the characteristics of the asset and the availability of information.

We evaluate our goodwill annually for impairment or more frequently if indicators of potential impairment exist. The determination of whether or not goodwill has become impaired involves a significant level of judgment in the assumptions underlying the approach used to determine the value of our reporting units. Changes in our strategy and/or market conditions could significantly impact these judgments and require reductions to recorded amounts of intangible assets.

Long-lived assets. We review long-lived assets, other than goodwill, for impairment whenever events or changes in circumstances indicate that the related carrying amounts may not be recoverable. Determining whether an impairment has occurred typically requires various estimates and assumptions, including determining which cash flows are directly related to the potentially impaired asset, the useful life over which cash flows will occur, their amount and the asset's residual value, if any. In turn, measurement of an impairment loss requires a determination of fair value, which is based on the best information available. We use internal discounted cash flows estimates, quoted market prices when available and independent appraisals, as appropriate, to determine fair value. We derive the required cash flow estimates from our historical experience and our internal business plans and apply an appropriate discount rate.

Income Taxes

We record a valuation allowance to reduce our deferred tax assets to the amount that is more likely than not to be realized. While we have considered projected future taxable income and ongoing tax planning strategies in assessing the need for the valuation allowance, in the event we were to determine that it would be able to realize a net deferred tax asset in the future, in excess of the net recorded amount, an adjustment to the deferred tax asset would increase earnings in the period such determination was made. Likewise, should we determine that we would not be able to realize all or part of our net deferred tax asset in the future, an adjustment to the deferred tax asset would decrease earnings in the period such determination was made. Our future effective tax rates could be adversely affected by earnings being lower than anticipated in countries where we have lower statutory rates, changes in the valuation of our deferred tax assets or liabilities, or changes in tax laws or interpretations thereof. In addition, our filed tax returns are subject to the examination by the Internal Revenue Service and other tax authorities. We regularly assess the likelihood of adverse outcomes resulting from these examinations to determine the adequacy of our provision for income taxes.

In connection with the restatement of our consolidated financial statements due to stock option adjustments, we recorded deferred tax benefits on the non-cash stock based compensation expense ratably over the option vesting periods for grants to individuals who were employed in tax jurisdictions where a tax deduction is available. Under required accounting standards, we do not record anticipated loss of tax benefits due to market declines in the value of the Company's common stock.

Section 162(m) of the Internal Revenue Code provides important limitations which affect the ultimate realization of tax benefits on non-cash stock based compensation expense for U.S. based executives. In accordance with Section 162(m), non-performance based compensation in excess of \$1 million paid to the Chief Executive Officer and the 4 other listed officers, whose salary is disclosed in the annual proxy for the year in which the salary, is paid is not deductible. In order for the limitation to apply the executive must still be employed at the end of the year in which the payment occurs.

Section 162(m) provides that stock options that are in-the money at the time of grant do not qualify as performance based compensation and are potentially subject to the \$1 million salary deduction limitation in the year in which the executive exercises the option. The executive's status as a listed officer in the year of exercise, the amount of total non-performance based compensation received, and whether the executive is still employed at the end of the year of exercise determines whether the limitation applies.

Edgar Filing: MONSTER WORLDWIDE INC - Form 10-Q

In recording deferred tax assets, we do not anticipate whether recorded tax benefits could be subject to Section 162(m) limitations. In the restated consolidated financial statements we recorded deferred tax assets ratably as the non-cash stock based compensation expense is recognized in the statement of operations, and in accordance with the applicable vesting period.

To the extent actual events are inconsistent with the initial assumption and tax benefits are not ultimately realized, we reverse the recorded tax benefits in the year in which such events occur. When options are cancelled or expire unexercised, recorded tax benefits are reversed to additional paid in capital to the extent of previous credits to additional paid in capital for excess tax benefits, and then to the income tax provision. If a Section 162(m) limitation is determined to apply, the disallowance of tax benefits is reflected by reducing previously recorded tax benefits in the year of exercise by reversing the recorded deferred tax asset to the income tax provision on the statement of operations. Future year's financial results may be impacted due to events inconsistent with the underlying assumptions.

Stock Based Compensation

We account for stock based compensation in accordance with Accounting Principles Board ("APB") Opinion No. 25, *Accounting for Stock Issued to Employees* ("APB 25"). Under APB 25, generally, no compensation expense is recognized in connection with the awarding of stock option grants to employees provided that, as of the grant date, all terms associated with the award are fixed and the quoted market price of the stock is equal to or less than the amount an employee must pay to acquire the stock as defined. For fixed awards, compensation expense is measured as the excess, if any, of the quoted market price of our common stock at the date of grant over the exercise price of the option granted. Compensation expense for fixed awards is recognized ratably over the vesting period on a straight-line basis.

As a result of the review of the Special Committee, it was determined that the exercise price of a substantial number of stock option grants during the periods between 1997 through March 31, 2003 differed from the fair market value of the underlying shares on the recorded measurement date. In a significant number of instances, the stock price on the assigned date (the date as of which the UWC was executed) was lower, sometimes substantially lower, than the price on the date the award may be deemed to have actually been determined. The Company believes that this practice was done intentionally, by persons formerly in positions of responsibility at the Company for the purpose of issuing options at a higher intrinsic value than would have otherwise been the case. As a result, we have recorded a pre-tax non-cash cumulative charge of \$339.6 million (\$271.9 million on an after-tax basis) in our consolidated financial statements through December 31, 2005 to reflect additional stock based compensation costs.

Restatement Methodology

Historically, we have generally accounted for stock option grants as if the options were granted at an exercise price no less than fair market value as indicated by the closing price of a share of our common stock trading on the NASDAQ National Market on either the "as of" date reflected on the relevant UWC of the Compensation Committee of the Board of Directors or the date of minutes of an actual Compensation Committee meeting ("Minutes"). A majority of stock options granted during the period under review were granted pursuant to UWC's. The UWC's, by their terms, typically referred to an attached Schedule A listing the specific names of the grantees and the number of shares subject to each option. The UWC's that have been located by the Company, however, either have no Schedule A annexed to them, or where one is attached, it frequently does not match our electronic stock option database.

We have therefore concluded that neither the "as of" dates referenced on Compensation Committee UWC's nor the dates of Minutes can be relied on as proper option grant measurement dates. We have been unable to ascertain with any degree of certainty when, if ever, UWC's or Minutes with full, complete and final Schedule A's were reviewed and approved by the Compensation Committee.

In light thereof, we have concluded that the most appropriate and accurate source of data to determine option grant measurement dates is the electronic record of option grant information in its electronic stock option database program known as Transcitive, which went into use in late 1998. The entry into Transcitive of the specific grantee information as to each stock option grant constituted an acknowledgement by the Company to the grantee of the grantee's legal entitlement to the grant and, in the absence of authoritative information as to when grants were actually approved by the Company provides an appropriate measurement date framework based on entitlement. For option grants made subsequent to the implementation of Transcitive, we have calculated the restated intrinsic value using a grant measurement date based on when the option data was entered into the database program (the "Creation Date"). For options granted prior to the implementation of Transcitive, the new measurement date was determined by applying the average lag time between the "as of" date and the Creation Date for options granted subsequent to the implementation of Transcitive to the original option grant date in order to approximate a reliable measurement date. The average lag period between the date as of which UWC's were executed and the date that options purportedly granted by such consents were inputted into our Transcitive system was ninety-seven days. For grants prior to December 1998, we have therefore used measurement dates equating to ninety-seven days following the date as of which the UWC relating to such options were executed.

The calculation of the non-cash stock based compensation charge resulting from the Special Committee's investigation required significant estimation and assumption. The estimates we used in deriving the amounts in our consolidated financial statements were based on historical trends and internal information. A significant amount of judgment was required in examining each separate option grant and also in determining the new measurement dates applied to each grant in our calculation. For instance, the Creation Date methodology utilized to calculate the non-cash stock based compensation charge has caused certain groups of options which were originally granted on a single date to be re-measured across a number of distinct and different dates. In addition, the historic volatility in our stock price had potentially significant influence on the results of our calculation of the non-cash stock based compensation charge. For example, a \$1 movement in the new measurement date price of each option award would result in a difference of approximately \$26.6 million in the cumulative charge we have reported. Due to the volatility of the Company's common stock, the use of another measurement date could have resulted in a substantially higher or lower compensation expense. This in turn would have caused net income or loss to be different than amounts reported in the restated consolidated financial statements.

Results of Operations

Consolidated operating results as a percent of revenue for the three and six months ended June 30, 2006 and 2005 is as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2006	2005	2006	2005
	(As restated)		(As restated)	
Revenue	100.0%	100.0%	100.0%	100.0%
Salaries and related	37.8%	42.9%	37.7%	42.3%
Office and general	16.2%	18.9%	17.3%	19.3%

* Includes amortization of stock based compensation under our 2006 Restricted Stock Unit Plan.

Edgar Filing: MONSTER WORLDWIDE INC - Form 10-Q

Our Monster Careers North America segment benefited from the continued improvement in the domestic labor market, continued migration to online employment advertising and our ongoing sales force expansion. Our business experienced continued demand for access to Monster's resume database in the second quarter of 2006, suggesting an environment where employers are placing increasing emphasis and resources on finding qualified candidates as a result of tighter labor markets. We were able to penetrate further into the enterprise market, which largely consists of businesses that employ 2,000 or more people, and also posted solid growth in our staffing channel. In addition, we continue to successfully execute on our eCommerce model, which now accounts for approximately 20% of our North American revenue, allowing our clients to self-serve their job-posting needs. Our eCommerce service generated over 17,500 new customers in the second quarter of 2006 and delivered more than 38% revenue growth compared to the prior year period. The investments we made in the eCommerce model continue to drive strong revenue

Edgar Filing: MONSTER WORLDWIDE INC - Form 10-Q

growth among the SMB market (small to medium sized businesses), while generating high margin returns despite the smaller average order size. We believe that our growth in North America will largely come from making competitive gains at the regional and local market level and we, therefore, continue to monitor our pricing structure in the local and regional markets in order to achieve a competitive advantage and continually improve our customer service.

Our Monster Careers North America segment generated an operating margin of 34.4% while making incremental investments in customer service, product, marketing and sales. Our marketing resources, which are 36.0% of our operating expenses, are diversely allocated to online media, radio, television and traditional print advertising. Marketing and promotional spending increased 25.0% over the 2005 period as we targeted both the job seeker and employer. We have made opportunistic investments in driving quality seeker traffic to our website and as a result, the number of resumes in our database increased approximately 25% compared to the prior period. Growing user engagement is a top operating priority for Monster, and in the second quarter of 2006, we increased the number of My Monster accounts, which are unique to each specific job seeker, by 20.0% over the prior year period. We added 107 sales and support staff during the second quarter of 2006, primarily in our new sales center in Tempe, Arizona, which we believe presents us with a unique opportunity to leverage a lower cost structure in a key regional market, while at the same time adding to our sales infrastructure.

Monster Careers International

The operating results of our Monster Careers International division for the three months ended June 30, 2006 and 2005 are as follows:

(dollars in thousands)	2006	% of Revenue	2005	% of Revenue	% Increase	Increase
Revenue	\$ 74,374	100.0%	\$ 45,880	100.0%	\$ 28,494	62.1%
Selling, general and administrative	67,253	90.4%	46,406	101.1%	20,847	44.9%
Depreciation and amortization*	4,930	6.6%	2,382	5.2%	2,548	107.0%
Operating income (loss)	\$ 2,191	2.9%	\$ (2,908)	-6.3%	\$ 5,099	175.3%

*

Includes amortization of stock based compensation under our 2006 Restricted Stock Unit Plan.

Our Monster Careers International segment increased revenue in each country where we operate and now comprises 25.1% of our total revenue. Our considerable time and capital investments in the major countries across Continental Europe and Asia are paying off, evidenced by the segment's 50.0% organic revenue growth, which excludes the negative effect of currency exchange rates and the operations of businesses acquired within the trailing twelve month period. As in North America, we are seeing a rapid migration of help wanted advertising online. The Netherlands and Germany contributed revenue gains in excess of 70% on a combined basis, while the rest of Europe contributed revenue growth in excess of 35%. We are actively marketing and promoting our eCommerce model throughout Continental Europe and early indicators suggest that it is becoming a strong complement to our field and telesales groups. Our fourth quarter 2005 acquisition of JobKorea, which is largely an eCommerce business, has established our presence in one of Asia's largest emerging markets where a large portion of the population is online. As a result, our revenue from the Asia/Pacific region is growing and is now 14.9% of our International Careers revenue.

We have been aggressively increasing our investments overseas through a refined mix of marketing, sales and product enhancements. Marketing expenses increased at a faster pace than our revenue growth rate and more than doubled compared to the 2005 period. Our investments in marketing are increasing our brand awareness, driving job seeker traffic to our websites and expanding our reach, both to the job seeker and to the employer. Those investments, combined with the addition of 107 sales and support staff during the second quarter of 2006, have helped us achieve a significant portion of our overall revenue growth and

help us gain market share in key European countries. Our management team is committed to growing the business overseas, while still mindful of profitability and the cost structure. In the second quarter of 2006, the division increased total expenses by 48.0%, while delivering an operating margin of 2.9%. Our objective to transition Monster Careers International into a scalable operation, similar to that of our North American business, is taking hold and we believe that our investments in marketing, training and productivity will enable us to continue the migration of the European and Asian markets online.

Internet Advertising & Fees

The operating results of our Internet Advertising and Fees segment for the three months ended June 30, 2006 and 2005 are as follows:

(dollars in thousands)	2006	% of Revenue	2005	% of Revenue	Increase	% Increase
Revenue	\$ 37,979	100.0%	\$ 26,059	100.0%	\$ 11,920	45.7%
Selling, general and administrative	23,716	62.4%	16,780	64.4%	6,936	41.3%
Depreciation and amortization*	1,626	4.3%	1,106	4.2%	520	47.0%
Operating income	\$ 12,637	33.3%	\$ 8,173	31.4%	\$ 4,464	54.6%

*

Includes amortization of stock based compensation under our 2006 Restricted Stock Unit Plan.

Revenue at our Internet Advertising and Fees segment increased 45.7% primarily due to greater demand for online advertising in the second quarter of 2006 as companies targeted users across our network of websites, which consistently rank in the top 20 most visited properties on the Internet. We were able to generate higher quality leads for our advertisers, thereby allowing us to charge higher rates per lead. We also generated a greater overall volume of leads when compared to the prior period. We believe that online advertising represents a significant growth opportunity for us, as our audience is appealing to both brand and remnant advertisers. Our second quarter acquisition of Education.org contributed \$1.2 million to our revenue in the 2006 period.

Although the segment increased total expenses 41.7%, operating margins improved to 33.3% in the 2006 period as compared to 31.4% in the prior year. As of June 30, 2006, we had 105 sales and support staff in various locations across the United States, up 84.2% compared to the 2005 period. Our marketing costs increased 63.5% over the 2005 period as we made enhancements to our product and promoted our services to our diverse audience. We plan to expand our advertising sales force across the United States and introduce the Internet advertising model overseas in the latter half of 2006.

Advertising & Communications

The operating results of our Advertising & Communications division for the three months ended June 30, 2006 and 2005 are as follows:

(dollars in thousands)	2006	% of Revenue	2005	% of Revenue	Increase (decrease)	% Increase (decrease)
Revenue	\$ 20,631	100.0%	\$ 18,932	100.0%	\$ 1,699	9.0%
Selling, general and administrative	16,866	81.8%	16,929	89.4%	(63)	-0.4%
Depreciation and amortization*	1,279	6.2%	997	5.3%	282	28.3%
Operating income	\$ 2,486	12.0%	\$ 1,006	5.3%	\$ 1,480	147.2%

*

Includes amortization of stock based compensation under our 2006 Restricted Stock Unit Plan.

Edgar Filing: MONSTER WORLDWIDE INC - Form 10-Q

Revenue at our Advertising & Communications division increased 9.0% over the 2005 period, primarily due to stronger demand for our interactive products and services and a stronger overall labor market. The print market continues to be challenged by the migration of help-wanted advertising online, and we are monitoring the business to serve our clients in each market. The division represents 7.0% of our total revenue and only operates in the United States and Canada.

The segment posted operating income for the second quarter of 2006, as a result of a concerted effort to maintain a disciplined cost structure. A coordinated shift in emphasis toward higher margin products and interactive offerings, coupled with tight expense management has aided our profitability in the second quarter of 2006. We will continually monitor our cost structure to ensure that expenses are in line with revenue. In August 2006, we disposed of our remaining Advertising & Communications business in North America.

Consolidated Operating Expenses and Operating Income

Consolidated operating expenses and operating income for the three months ended June 30, 2006 and 2005 are as follows:

(dollars in thousands)	2006	% of Revenue	2005	% of Revenue	Increase	%
			(As restated)	(As restated)	(As restated)	(As restated)
Salaries and related	\$ 111,925	37.8%	\$ 93,099	42.9%	\$ 18,826	20.2%
Office and general	47,969	16.2%	40,996	18.9%	6,973	17.0%
Marketing and promotion	73,404	24.8%	47,175	21.7%	26,229	55.6%
Operating expenses	233,298	78.9%	181,270	83.5%	52,028	28.7%
Operating income	\$ 62,502	21.1%	\$ 35,753	16.5%	\$ 26,749	74.8%

Our Monster Careers North America and International segments accounted for primarily the entire year over year increase in total operating expenses, stemming mainly from hiring initiatives since June 2005 and increased marketing and promotion of the Monster brand. We increased global headcount by 27.1% over the 2005 period, primarily for increased sales and support staff in our Monster Careers segments. As a result we incurred higher salary, benefits and commission costs. Included in the 2005 period is \$2.1 million of non-cash stock based compensation costs associated with our historical stock option grant practices and related accounting. No such amounts were recorded in the 2006 period, as we accelerated all unvested outstanding options as of December 31, 2005 to mitigate compensation expense we would have had to record upon the effectiveness of SFAS 123R. In the second quarter of 2006, we recorded \$3.5 million of compensation expense related to our equity compensation plans, primarily our 2006 RSU Plan. Marketing increased \$26.2 million over the prior year period as a result of allocating greater resources to expanding our brand recognition and strengthening our reach in our International Careers segment. We also stepped up our marketing efforts in the North America to drive further penetration into local markets. We will continue to market our services heavily throughout Europe and Asia while keeping our marketing and promotion expenses in line with our revenue expectations. Our acquisitions of JobKorea and Education.org contributed approximately \$6.1 million to the increase in total operating expenses for the quarter.

Income Taxes

Income taxes for the three months ended June 30, 2006 and 2005 are as follows:

(dollars in thousands)	2006	2005	Change	
			\$	%
		(As restated)	(As restated)	(As restated)
Income from continuing operations before income taxes	\$ 66,646	\$ 36,677	\$ 29,969	81.7%
Income taxes	23,418	13,041	10,377	79.6%
Effective tax rate	35.1%	35.6%		

Our effective tax rates differ from the statutory rate due to the impact of state and local income taxes, certain nondeductible expenses, foreign earnings taxed at different tax rates and valuation allowances. Included in income tax expense in the 2005 period is \$0.6 million of income tax benefits relating to the stock option findings of the Special Committee. Our future effective tax rates could be adversely affected by earnings being lower than anticipated in countries where we have lower statutory rates, changes in the valuation of our deferred tax assets or liabilities, or changes in tax laws or interpretations thereof. In addition, our filed tax returns are subject to the examination by the Internal Revenue Service and other tax authorities. We regularly assess the likelihood of adverse outcomes resulting from these examinations to determine the adequacy of our provision for income taxes.

Earnings Per Share

Diluted earnings per share increased 100% in the second quarter of 2006 compared to the 2005 period, even as diluted weighted average shares outstanding increased 8.8 million shares. The share increase is mainly the result of incremental dilution associated with a higher average stock price in the 2006 period, as well as additional shares issued in connection with employee stock option exercises. We repurchased 614,584 shares in the second quarter of 2006 to offset additional dilution. The net impact of the stock option adjustments we recorded in the second quarter of 2005 resulted in a decline of \$0.01 to our 2005 earnings per share. Net income was 13.4% of total revenue in the 2006 period, compared to 8.3% in the 2005 period.

The Six Months Ended June 30, 2006 Compared to the Six Months Ended June 30, 2005

Monster Careers North America

The operating results of our Monster Careers North America division for the six months ended June 30, 2006 and 2005 are as follows:

Monster Careers North America

(dollars in thousands)	2006	% of Revenue	2005	% of Revenue	Increase	% Increase
Revenue	\$ 322,814	100.0%	\$ 249,708	100.0%	\$ 73,106	29.3%
Selling, general and administrative	202,222	62.6%	162,174	64.9%	40,048	24.7%
Depreciation and amortization*	9,353	2.9%	7,800	3.1%	1,553	19.9%
Operating income	\$ 111,239	34.5%	\$ 79,734	31.9%	\$ 31,505	39.5%

* Includes amortization of stock based compensation under our 2006 Restricted Stock Unit Plan.

Edgar Filing: MONSTER WORLDWIDE INC - Form 10-Q

Our Monster Careers North America segment benefited significantly from an improved domestic labor market, continued migration to online employment advertising and our ongoing sales force expansion. The division grew revenue 29.3% as we posted strong growth in our enterprise, staffing and eCommerce

Edgar Filing: MONSTER WORLDWIDE INC - Form 10-Q

channels. We continue to successfully execute on our eCommerce model, allowing our clients to self-serve their job-posting needs. Our eCommerce service generated over 32,000 new customers during the first six months of the year and now accounts for approximately 20% of the division's revenue. The investments we made in the eCommerce model continue to drive strong revenue growth among the SMB market (small to medium sized businesses), while generating high margin returns despite the smaller average order size. We saw a particularly strong demand for access to our Monster's resume database in the first half of 2006, suggesting an environment where employers are placing increasing emphasis and resources on finding qualified candidates as a result of tighter labor markets. We believe that our growth in North America will largely come from making competitive gains at the regional and local market level and we, therefore, continue to monitor our pricing structure in the local and regional markets in order to achieve a competitive advantage and continually improve our customer service.

Our Monster Careers North America segment generated an operating margin of 34.5% while making incremental investments in marketing and sales. Our marketing resources are diversely allocated to online media, radio, television and traditional print advertising. We have made opportunistic investments in driving quality seeker traffic to our website and accordingly, the number of resumes in our database increased approximately 25% compared to the prior period. Our investments in local and national marketing campaigns have expanded our reach and strengthened user engagement for our services. We added 186 sales and support staff during the first half of 2006. We believe that our new sales center in Tempe, Arizona presents us with a unique opportunity to leverage a lower cost structure in a key regional market, while at the same time adding to our sales infrastructure.

Monster Careers International

The operating results of our Monster Careers International division for the six months ended June 30, 2006 and 2005 are as follows:

(dollars in thousands)	2006	% of Revenue	2005	% of Revenue	Increase	%
Revenue	\$ 138,965	100.0%	\$ 87,097	100.0%	\$ 51,868	59.6%
Selling, general and administrative	126,900	91.3%	86,899	99.8%	40,001	46.0%
Depreciation and amortization*	8,764	6.3%	4,851	5.6%	3,913	80.7%
Operating income (loss)	\$ 3,301	2.4%	\$ (4,653)	(5.3)%	\$ 7,954	170.9%

*

Includes amortization of stock based compensation under our 2006 Restricted Stock Unit Plan.

Our Monster Careers International segment increased revenue in each country where we operate and now comprises 24.3% of our total revenue. Our considerable investments in marketing and sales staff in the major countries across Continental Europe and Asia are paying off, evidenced by the segment's organic revenue growth rate, improved efficiencies and secular growth. We continue to see a rapid migration of help wanted advertising online. Our three largest international markets, the United Kingdom, Germany and France, contributed approximately 54% of total International revenue. We are actively marketing and promoting our eCommerce model throughout Continental Europe and early indicators suggest that it is becoming a strong complement to our field and telesales groups. Our fourth quarter 2005 acquisition of JobKorea, which is largely an eCommerce business, has established our presence in one of Asia's largest emerging markets where a large portion of the population is online. As a result, our revenue from the Asia/Pacific region is growing and is now 15.1% of our International Careers revenue.

We have been aggressively increasing our investments overseas through a refined mix of marketing, sales and product enhancements. Our marketing expense more than doubled compared to the 2005 period as our investments in marketing are increasing our brand awareness, driving job seeker traffic to our websites and expanding our reach, both to the job seeker and to the employer. Those investments, combined with the addition of 260 sales and support staff during the first half of 2006, have helped us achieve a significant

Edgar Filing: MONSTER WORLDWIDE INC - Form 10-Q

portion of our overall revenue growth and help us gain market share in key European countries. Our management team is committed to growing the business overseas, while still mindful of profitability and the cost structure. In the first six months of 2006, the division increased total expenses by 47.9%, while still delivering an operating margin of 2.4%. Our objective to transition Monster Careers International into a scalable operation, similar to that of our North American business, is taking hold and we believe that our investments in marketing, training and productivity will enable us to continue the migration of the European and Asian markets online.

Internet Advertising & Fees

The operating results of our Internet Advertising and Fees segment for the six months ended June 30, 2006 and 2005 are as follows:

(dollars in thousands)	2006	% of Revenue	2005	% of Revenue	Increase	%
Revenue	\$ 70,426	100.0%	\$ 50,820	100.0%	\$ 19,606	38.6%

Depreciation and amortization*	3,703	5.3%	2,225	4.4%	1,478	66.4%
Operating income	\$ 22,245	31.6%	\$ 15,425	30.4%	\$ 6,820	44.2%

*

Includes amortization of stock based compensation under our 2006 Restricted Stock Unit Plan.

Revenue at our Internet Advertising and Fees segment continues to increase as we stepped up our focus, introduced a fully dedicated management team in 2006 and experienced greater demand for online advertising in 2006 as companies targeted users across our network of websites, which consistently rank in the top 20 most visited properties on the Internet. We believe that online advertising represents a significant growth opportunity for us, as our audience is appealing to both brand and remnant advertisers. In general, we believe our revenue growth rate of 38.6% in the 2006 period compares very favorably to the overall growth of internet advertising. Our subscription and fee based revenue, which provides access to our premium services, continues to generate revenue, primarily through memberships, which range from one month to twelve months. During the six months ended June 30, 2006, we aligned our sales force to cross-sell across our network of unique properties to our clients. We believe this will enable us to get greater exposure to different advertisers and alert our clients to our diverse audience.

The segment posted an operating margin of 31.6% in the first half of 2006, slightly above the 2005 level. We plan to expand our advertising sales force across the United States and introduce the Internet advertising model overseas in the latter half of 2006. We have added 48 sales and support staff in various locations across the United States versus the prior year period.

Advertising & Communications

The operating results of our Advertising & Communications division for the six months ended June 30, 2006 and 2005 are as follows:

(dollars in thousands)	2006	% of Revenue	2005	% of Revenue	Increase	%
Revenue	\$ 40,548	100.0%	\$ 38,694	100.0%	\$ 1,854	4.8%
Selling, general and administrative	34,054	84.0%	33,252	85.9%	802	2.4%
Depreciation and amortization*	2,310	5.7%	1,956	5.1%	354	18.1%
Operating income	\$ 4,184	10.3%	\$ 3,486	9.0%	\$ 698	20.0%

*

Includes amortization of stock based compensation under our 2006 Restricted Stock Unit Plan.

Edgar Filing: MONSTER WORLDWIDE INC - Form 10-Q

Revenue at our Advertising & Communications division increased 4.8% primarily due to an increased demand for our interactive products and offerings. We believe that the current trends in the print advertising market in North America are challenging and we continue to see help-wanted advertising migrating online. The demand for print advertising continued to trend downward in 2006 and we have adjusted our business to reflect the services that clients require. The division represents 7.1% of our total revenue and only operates in the United States and Canada.

The segment posted an improved operating profit in the first half of 2006, as a result of a concerted effort to maintain a disciplined cost structure and manage expenses to expected revenue levels. We believe that a coordinated shift in emphasis toward higher margin products and interactive offerings, coupled with tight expense management has aided our profitability in the 2006 period. We will continually monitor our cost structure to ensure that expenses are in line with revenue. In August 2006, we disposed of our remaining Advertising & Communications business in North America.

Consolidated Operating Expenses and Operating Income

Consolidated operating expenses and operating income for the six months ended June 30, 2006 and 2005 are as follows:

(dollars in thousands)	2006	% of Revenue	2005	% of Revenue	Increase	%
			(As restated)	(As restated)	(As restated)	(As restated)
Salaries and related	\$ 216,003	37.7%	\$ 180,134	42.3%	\$ 35,869	19.9%
Office and general	98,925	17.3%	82,191	19.3%	16,734	20.4%
Marketing and promotion	139,375	24.3%	95,262	22.3%	44,113	46.3%
Operating expenses	454,303	79.3%	357,587	83.9%	96,716	27.0%
Operating income	\$ 118,450	20.7%	\$ 68,732	16.1%	\$ 49,718	72.3%

Operating expenses grew 27.0% in the first half of 2006 compared to the prior year period, mainly as a result of investments in marketing, sales and product enhancements. Our Monster franchise accounted for nearly all of the year over year increase in total operating expenses, stemming mainly from hiring initiatives since June 2005 and increased marketing and promotion of the Monster brand. We increased global headcount by 27.1% over the 2005 period, primarily for increased sales and support staff in our Monster Careers segments. As a result we incurred higher salary, benefits and commission costs. Included in the 2005 period is \$4.9 million of non-cash stock based compensation costs associated with our historical stock option grant practices and related accounting. No such amounts were recorded in the 2006 period, as we accelerated all unvested outstanding options as of December 31, 2005 to mitigate compensation expense we would have had to record upon the effectiveness of SFAS 123R. In the first half of 2006, we recorded \$5.6 million of compensation expense related to our equity compensation plans, primarily our 2006 RSU Plan. Marketing increased 46.3% as we allocated greater resources to key countries overseas to expand our brand recognition. We also stepped up our marketing efforts in the North America to drive further penetration into the local markets. We will continue to market our services heavily throughout Europe and Asia while keeping our marketing and promotion expenses in line with our revenue expectations. Our acquisition of JobKorea and Education.org contributed approximately \$9.7 million to total operating expenses in the first half of the year.

Income Taxes

Income taxes for the six months ended June 30, 2006 and 2005 are as follows:

(dollars in thousands)	2006	2005	Change	
			\$	%
		(As restated)	(As restated)	(As restated)
Income from continuing operations before income taxes	\$ 125,974	\$ 69,465	\$ 56,509	81.3%
Income taxes	45,100	24,952	20,148	80.7%
Effective tax rate	35.8%	35.9%		

Our effective tax rates differ from the statutory rate due to the impact of state and local income taxes, certain nondeductible expenses, foreign earnings taxed at different tax rates and valuation allowances. Included in income tax expense in the 2005 period is \$1.3 million of income tax benefits relating to the stock option findings of the Special Committee. Our future effective tax rates could be adversely affected by earnings being lower than anticipated in countries where we have lower statutory rates, changes in the valuation of our deferred tax assets or liabilities, or changes in tax laws or interpretations thereof. In addition, our filed tax returns are subject to the examination by the Internal Revenue Service and other tax authorities. We regularly assess the likelihood of adverse outcomes resulting from these examinations to determine the adequacy of our provision for income taxes.

Earnings Per Share

Diluted earnings per share increased 113.8% in the current six month period compared to the 2005 period, even as diluted weighted average shares outstanding increased 8.1 million shares. The share increase is mainly the result of incremental dilution associated with a higher average stock price in the year to date 2006 period, as well as additional shares issued in connection with employee stock option exercises. We repurchased 794,584 shares in the first half of 2006 to offset additional dilution. The net impact of the stock option adjustments we recorded in the six months of 2005 resulted in a decline of \$0.03 to our earnings per share. Net income was 14.3% of total revenue in the 2006 period, compared to 8.4% in the 2005 period.

Financial Condition

The following table details our cash and cash equivalents, marketable securities and cash flow components:

(dollars in thousands)	June 30, 2006	December 31, 2005	Change	
			\$	%
Cash and cash equivalents	\$ 47,059	\$ 196,597	\$ (149,538)	(76.1)%

Edgar Filing: MONSTER WORLDWIDE INC - Form 10-Q

Our principal capital requirements have been to fund (i) working capital, (ii) marketing and development of our Monster network, (iii) acquisitions and (iv) capital expenditures. Prior to the sale of our Directional Marketing segment in the second quarter of 2005, our working capital requirements were generally higher in the first half of each year, when payments to major Yellow Page directory publishers were at their highest levels.

Historically, we have relied on funds provided by operating activities, equity offerings, short and long-term borrowings and seller-financed notes to meet our liquidity needs. We invest our excess cash predominantly in money market funds, and commercial paper that matures within three months of its origination date and in marketable securities, such as auction rate bonds, which are highly liquid and are of high-quality investment grade with the intent to make such time deposits and funds readily available for operating and strategic long-term equity investment purposes.

We believe that our current cash and cash equivalents, marketable securities, revolving credit facility and cash we anticipate to generate from operating activities will provide us with sufficient liquidity to satisfy our working capital needs, capital expenditures, meet our investment requirements and commitments and fund our share repurchase activities through at least the next twelve months. Our cash generated from operating activities is subject to fluctuations in the global economy and unemployment rates.

As of June 30, 2006, we had cash and cash equivalents and marketable securities of \$470.0 million, compared to \$320.3 million as of December 31, 2005. Our increase in cash and marketable securities of \$149.7 million during the six months ended June 30, 2006 was mainly due to our strong operating income before taking into account depreciation and amortization of intangibles and stock-based compensation ("OIBDA") and cash received from the exercise of employee stock options, including their associated tax benefit. Strong revenue increases and working capital management, aided by a \$21.6 million increase in deferred revenue and a \$30.5 million increase in accounts payable and accrued expenses, helped generate \$145.1 million in cash flow from operating activities. Cash flow from operating activities was decreased by \$7.6 million for cash used in our discontinued operations. Overall, working capital increased at a measured rate compared to revenue and expenses. The disposition of our Directional Marketing business in 2005 significantly improved the consistency of our cash flows from operations and its correlation to OIBDA from quarter to quarter.

We used \$367.0 million of cash for investing activities in the six months ended June 30, 2006, reflecting our net cash purchase of marketable securities of \$299.2 million and our payment of \$29.9 million for seller-notes payable on businesses acquired in prior periods. In addition, we acquired an additional 4.4% equity interest in ChinaHR.com for \$19.9 million and funded \$4.8 million to ChinaHR under a previously announced credit facility. We also paid \$17.0 million in connection with the acquisition of Education.org in our Internet Advertising and Fees segment. Capital expenditures were \$26.3 million in the first six months of 2006. Offsetting our cash used for investing activities was \$33.0 million of net proceeds from the sale of businesses.

We generated cash from financing activities in the first six months of 2006, resulting from \$91.2 million of cash received from employee stock option exercises, and \$17.0 million related to the tax benefit on stock options exercised. In addition, we used \$22.8 million of cash in a structured stock repurchase, which resulted in the repurchase of 500,000 shares and \$14.4 million used to repurchase 294,584 shares of common stock in open market transactions.

In March 2006, we extended a credit facility to ChinaHR, whereby we have agreed to advance ChinaHR up to an aggregate of \$20,000 with no more than \$10,000 being advanced in the first year of the agreement. Interest on the loans will be assessed at the LIBOR rate plus 1% and shall be payable on a quarterly basis in arrears. The credit facility provides that any advances shall be due and payable in full on the maturity date, which is the earliest of March 2011 or the consummation of an initial public offering of securities by the ChinaHR. In May 2006, we advanced \$4,800 to ChinaHR under the credit facility.

In November 2005, our Board of Directors authorized us to purchase up to \$100 million of our common stock on the open market, or otherwise from time to time, over a 30-month period as conditions warrant. Through June 30, 2006, the Company has repurchased 994,584 shares of its common stock for an aggregate purchase price of \$45.1 million.

Recent Accounting Pronouncements

In July 2006, the Financial Accounting Standards Board ("FASB") issued FASB Interpretation No. 48 "Accounting for Uncertainty in Income Taxes (an interpretation of FASB Statement No. 109)" which is effective for fiscal years beginning after December 15, 2006. The new guidance will be effective for us on January 1, 2007. This interpretation was issued to clarify the accounting for uncertainty in the amount of income taxes recognized in the financial statements by prescribing a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. We are currently evaluating the potential impact of this interpretation.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements* ("SFAS 157"), which clarifies the definition of fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurement. SFAS 157 does not require any new fair value measurements and eliminates inconsistencies in guidance found in various prior accounting pronouncements. SFAS 157 will be effective for the Company on January 1, 2008. The Company is currently assessing whether the adoption of SFAS 157 will have an impact on the Company's financial statements.

In September 2006, the Securities and Exchange Commission ("SEC") released Staff Accounting Bulletin No. 108, *Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements* ("SAB 108"). SAB 108 provides interpretive guidance on the SEC's views on how the effects of the carryover or reversal of prior year misstatements should be considered in quantifying a current year misstatement. The provisions of SAB 108 will be effective for the Company for the year ended December 31, 2006. The Company is currently evaluating the impact of applying SAB 108 but does not believe that the adoption of SAB 108 will have a material effect on the Company's financial statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our primary market risks include fluctuations in interest rates and exchange rate variability.

We have interest rate risk primarily related to our short-term investment portfolio. Our short-term investments will produce less income than expected if market interest rates fall therefore our future investment income may fall short of expectations due to changes in market interest rates or we may suffer losses in principal if forced to sell short-term investments which have declined in market value due to increases in interest rates.

We also have interest rate risk related to our revolving credit agreement. At June 30, 2006, the utilized portion of our three-year revolving credit agreement was approximately \$2.2 million for standby letters of credit and approximately \$97.8 million was unused. Interest on future outstanding loans under the revolving credit agreement shall be charged based on a variable interest rate related to our choice of (1) the higher of (a) the prime rate or (b) the Federal Funds rate plus 0.5%, plus a margin determined by the ratio of our debt to earnings before interest, taxes, depreciation and amortization ("EBITDA") as defined in the revolving credit agreement or (2) the London Interbank Offered Rate (LIBOR) plus a margin determined by the ratio of our debt to EBITDA as defined in the revolving credit agreement.

We conduct operations in various foreign countries, including Belgium, Canada, France, Germany, India, Ireland, Italy, the Netherlands, New Zealand, South Korea, Spain, Sweden, and the United Kingdom. For the three and six months ended June 30, 2006, approximately 27% and 26%, respectively, of our revenue was earned outside the United States and collected in local currency and related operating expenses were

also paid in such corresponding local currency. To the extent the U.S. dollar strengthens against foreign currencies, the translation of these foreign currency denominated transactions results in reduced revenues, operating expenses and net income for our international operations. Similarly, our revenues, operating expenses and net income or loss will increase for our international operations if the U.S. dollar weakens against foreign currencies. We use forward foreign exchange contracts as cash flow hedges to offset risks related to certain foreign currency transactions. These transactions primarily relate to non-functional currency denominated inter-company funding loans and non-functional currency indebtedness. We do not trade derivative financial instruments for speculative purposes. The financial statements of our non-U.S. subsidiaries are translated into U.S. dollars using current rates of exchange, with gains or losses included in the cumulative translation adjustment account, a component of stockholders' equity. During the three and six months ended June 30, 2006, we had a translation gain of \$21.4 million and \$28.9 million, respectively, primarily attributable to the weakening of the U.S. dollar against the Euro and the British Pound.

We have risks related to our short term investment activities. The primary objective of our investment activities is to preserve principal while at the same time maximizing yields without significantly increasing risk. To achieve this objective, we maintain our portfolio of short-term investments and cash and cash equivalents in a variety of marketable debt instruments of high quality issuers, including auction rate bonds, commercial paper, money market funds and bank time deposits. We limit the amount of credit exposure to any one issuer. Our marketable securities are generally classified as available for sale and consequently are recorded on the balance sheet at fair value with unrealized gains or losses reported as a separate component of accumulated other comprehensive income. As of June 30, 2006, net unrealized losses on these investments were not material.

ITEM 4. CONTROLS AND PROCEDURES

As disclosed in the Explanatory Note on page 2 of this Form 10-Q and in Note 2 of our consolidated financial statements included in this Form 10-Q, the Company disclosed on June 12, 2006, that a committee of independent directors of the Board of Directors (the "Special Committee") assisted by independent legal counsel and forensic accounting experts that were not previously involved with the Company's stock option plans, was conducting an independent investigation to review the Company's historical stock option grant practices and related accounting. As a result of the investigation, the Special Committee has determined that the exercise price of a substantial number of stock option grants during the periods between 1997 through March 31, 2003 differed from the fair market value of the underlying shares on the measurement date. The Special Committee has also determined that this practice was done intentionally, by persons formerly in positions of responsibility at the Company for the purpose of issuing options at a higher intrinsic value than would have otherwise been the case.

Based on the findings of the Special Committee, management of the Company has concluded that the Company's consolidated financial statements for the years ended December 31, 2005, 2004 and 2003, and the three and six month periods ended June 30, 2005 should be restated to recognize additional non-cash stock based compensation expense and the related income tax impacts.

As more fully described in our 2005 Form 10-K/A, during 2005, the Company did not maintain effective control over our internal control over financial reporting and our "disclosure controls and procedures" as such term is defined under Exchange Act Rule 13a-15(f) or 15d-15(f). In arriving at these conclusions, management evaluated, among other things, the control deficiencies related to accounting for stock based compensation and the continued employment of persons in positions of responsibility who may be deemed to have overridden our internal controls. As a result, management concluded that these control deficiencies that resulted in the need for a restatement of our previously issued financial statements constituted a material weakness as of December 31, 2005.

Monster Worldwide maintains "disclosure controls and procedures," as such term is defined under Securities Exchange Act Rule 13a-15(f) or 15d-15(f), that are designed to ensure that information required

to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures. In designing and evaluating the disclosure controls and procedures, Monster Worldwide's management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives and Monster Worldwide's management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Monster Worldwide has carried out an evaluation, as of the end of the period covered by this report, under the supervision and with the participation of Monster Worldwide's management, including Monster Worldwide's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of Monster Worldwide's disclosure controls and procedures. The control deficiencies noted above, continued to persist during the period in which this report was being prepared.

There have been no significant changes in Monster Worldwide's internal controls over financial reporting that occurred during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting. As of the date of this filing, although the investigation into our historical stock option grant practices is substantially complete, the Special Committee continues to analyze the facts disclosed by its investigation in order to make comprehensive recommendations to the Board regarding remedial steps, and is in the process of determining what remedial recommendations it will make. It expects to make those recommendations in the first quarter of 2007, at which time the Company will implement the recommendations of the Special Committee.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The Company is involved in various legal proceedings that are incidental to the conduct of its business. It is not involved in any pending or threatened legal proceedings aside from the stock option litigation discussed below that it believes could reasonably be expected to have a material adverse effect on its financial condition or results of operations.

As stated in Note 2 of its consolidated financial statements, the Company announced on June 12, 2006 that a committee of independent directors of the Board of Directors (the "Special Committee"), assisted by outside counsel, was conducting an independent investigation to review the Company's historical stock option grant practices and related accounting.

Stock Option Litigation

Both the United States Attorneys Office ("USAO") and the United States Securities and Exchange Commission ("SEC") have informed the Company that each is conducting an investigation into the Company's past stock option grants. In connection therewith, the Company has received a grand jury subpoena from the United States District Court for the Southern District of New York and requests for the voluntary production of documents from the SEC. The Company is cooperating fully with both the USAO and the SEC.

In October 2006, a putative class action litigation was filed in the United States District Court for the Southern District of New York by a former Company employee against the Company and a number of its current and former officers and directors. The action purports to be brought on behalf of all participants in the Company's 401(k) plan. The complaint alleges that the defendants breached their fiduciary obligations to plan participants under §§ 404, 405, 409 and 502 of the Employee Retirement Income Security Act ("ERISA"), 29 U.S.C. § 1104 et seq., by allowing Plan participants to purchase and to hold and maintain Company stock in their Plan accounts without disclosing to those Plan participants the historical stock option practices. The complaint seeks, among other relief, equitable restitution, attorney's fees and an order enjoining defendants from violations of ERISA.

In addition, derivative actions in connection with historical stock option practices have been commenced by shareholders purportedly on behalf of the Company in both the United States District Court for the Southern District of New York and in the Supreme Court of the State of New York, New York County, against a number of current and former officers and directors of the Company, naming the Company as a nominal defendant.

On October 20, 2006, the three federal court actions were consolidated by the Court and styled as *In re Monster Worldwide, Inc. Stock Option Derivative Litigation*, Master Docket 1:06:cv-04622 (S.D.N.Y.)(NRB-DCF) (Consolidated Action). It is expected that the plaintiffs in the consolidated federal actions will file a consolidated amended complaint on or about December 19, 2006. The current federal complaints assert claims for breach of fiduciary duty, gross mismanagement, unjust enrichment, and violations of Sections 10(b) and 14(a) of the Securities Exchange Act of 1934 (the "Exchange Act") for the period between January 1, 1997 and the present. The federal court plaintiffs seek, among other relief, an indeterminate amount of damages from the individual defendants.

On September 18, 2006, the three purported derivative actions that were filed in the Supreme Court of the State of New York, New York County, were also consolidated. The consolidated actions have been styled as *In re Monster Worldwide Inc. Derivative Litigation*, Index. No. 06-108700 (Supreme, N.Y. County). On or about December 1, 2006, the plaintiffs in the consolidated state court actions filed a consolidated amended complaint asserting claims for breach of fiduciary duty and related state law causes of action. The state court plaintiffs seek, among other relief, an indeterminate amount of damages from the individual defendants.

The Company has received correspondence from, or on behalf of, certain former employees who are the grantees of certain vested stock options that were scheduled to expire or be forfeited unless exercised within the last several months. In light of the current suspension of the Company's S-8 and the resulting prohibition on the exercise of any stock options, said individuals were precluded from exercising such options prior to their expiration date. The former employees have informed the Company that they will seek to hold the Company liable for any financial damages suffered as a result of their inability to exercise the options during the suspension period.

The Company may become subject to additional private or government actions. The expense of defending such litigation may be significant. In addition, an unfavorable outcome in such litigation could have a material adverse effect on the Company's business and results of operations. The Company may also be obligated under the terms of its by-laws to advance litigation costs for directors and officers named in litigation relating to their roles at the Company.

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, Item 1A. "Risk Factors" in the Company's Annual Report on Form 10-K/A for the year ended December 31, 2005, which could materially affect our business, financial position and results of operations. There are no material changes from the risk factors set forth in Part I, Item 1A., "Risk Factors," of the Company's Annual Report on Form 10-K/A for the year ended December 31, 2005.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

On May 2, 2006, we issued 20,000 shares of our common stock in a private placement transaction pursuant to Section 4(2) of the Securities Act of 1933, as amended, in addition to other consideration, in exchange for all of the outstanding equity interests of PWP, LLC (also known as Education.org).

The Company has a stock repurchase plan in place that allows it to purchase securities on the open market or otherwise from time to time as conditions warrant. A summary of the Company's repurchase activity for the three months ended June 30, 2006 is as follows:

Period	Total number of shares repurchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Dollar Value of Shares That May Yet Be Purchased Under the Plans or Programs ^(a)
April 1 - April 30		N/A		\$ 83,556,688
May 1 - May 31	99,584	\$ 52.43	99,584	\$ 78,315,959
June 1 - June 30	515,000	\$ 44.04	515,000	\$ 54,919,338
Total Q2 2006	614,584	\$ 47.29	614,584	\$ 54,919,338
Total six months ended June 30, 2006	794,584	\$ 47.32	794,584	\$ 54,919,338

(a) - On November 10, 2005, the Board of Directors approved a share repurchase plan, authorizing the Company to purchase up to \$100 million of shares of its common stock. The share repurchase plan expires 30 months from the authorization date.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

(a)

The annual meeting of stockholders was held on June 7, 2006.

Edgar Filing: MONSTER WORLDWIDE INC - Form 10-Q

(b)

The following directors were elected at the Annual Meeting and received the vote indicated.

	FOR	WITHHELD
Andrew J. McKelvey	159,380,274	3,134,209
George R. Eisele	161,465,079	1,049,404
John Gaulding	155,928,332	6,586,151
Michael Kaufman	155,480,471	7,034,012
Ronald J. Kramer	155,804,319	6,710,164
David A. Stein	156,336,283	6,178,200
John Swann	155,923,807	6,590,676

(c)

The proposal to ratify the appointment of BDO Seidman, LLP as the Company's independent registered public accounting firm for the year ending December 31, 2006 was approved by the vote indicated:

FOR	159,817,304
AGAINST	2,132,497
ABSTENTIONS	564,682

(d)

The stockholder proposal pertaining to board diversity was not approved by the vote indicated:

FOR	9,067,321
AGAINST	84,554,088
ABSTENTIONS	61,783,060

ITEM 6. EXHIBITS.

The following exhibits are filed as a part of this report:

- 15 Letter from BDO Seidman, LLP regarding unaudited interim financial information.
