Supplemental Pro Forma
Financial Information:

The numbers presented on a pro forma basis in the table below have been adjusted to give effect to the following (on an after tax basis) as if they had occurred as of the beginning of the periods presented:

the issuance of the notes;

application of the net proceeds of the offering as described under "Use of Proceeds";
and

consummation of the Tender Offer (assuming it is fully subscribed).

The pro forma amounts below exclude an anticipated nonrecurring loss resulting from the aggregate purchase price of the CBC notes in the Tender Offer exceeding their principal amount, which will be reported as a component of interest expense in the period it is incurred, which is expected to be the current fiscal quarter unless the timing for the Tender Offer is extended. The Company currently anticipates that this loss will be approximately \$17 million; however, the actual cost to the company of any CBC notes that it acquires in the Tender Offer (and thus the actual amount of this loss) is not yet known. See footnote (2) under "Capitalization" in the Preliminary Prospectus.

(1) Adjustments to this item reflect the company's current estimate of the total payments the company will be required to make in the Tender Offer, assuming that it is fully subscribed. The Tender Offer is currently pending and it is not yet known what principal amount

Edgar Filing: MOLSON COORS BREWING CO - Form FWP

of the CBC notes will be tendered or whether the Tender Offer will be successfully completed. In addition, the actual cost of the Tender Offer, if it is successful, is not known at this time because it depends on the amount of CBC notes tendered, whether the current timing for the Tender Offer changes and the yield borne by the reference US Treasury security used in the pricing of the Tender Offer at the time the price

Edgar Filing: MOLSON COORS BREWING CO - Form FWP

for the Tender Offer is fixed. In particular, the cost of the CBC tender will increase if the yield of the reference US Treasury security declines and decrease if that yield increases. The cost of the Tender Offer has been estimated on the basis of assumptions that (1) the full amount tendered for in the Tender Offer will be tendered, (2) the timing for the Tender Offer will not change and (3) the reference security used in pricing the Tender Offer will bear the same yield on the date the price for the Tender Offer is fixed as it bore on June 8, 2007. These assumptions are made for illustrative purposes only and actual conditions will likely differ from these assumptions.
