SAFE HARBOR STATEMENT

This Quarterly Report on Form 10-Q (the "Report") contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Discussions containing such forward-looking statements may be found in Items 2 and 3 hereof, as well as within this Report generally. In addition, when used in this Report, the words "believes," "anticipates," "think", "expects," "estimates," "plans," "intends," and similar expressions are intended to identify forward-looking statements. All forward-looking statements are subject to a number of risks and uncertainties that could cause actual results to differ materially from projected results, as discussed in our Annual Report on Form 10-K and below under the heading "Risk Factors". Factors that may cause these differences include, but are not limited to:

changing customer and product mixes;

changing market conditions and industry consolidation;

competition;

general economic conditions in the markets in which the Company operates;

rising commodity and energy prices;

risk of cancellation or rescheduling of orders;

work stoppages or other business interruptions (including those due to extreme weather conditions) at transportation centers or shipping ports;

risk of war, terrorism and similar hostilities;

dependence on our information systems;

the outcome of potential government or regulatory proceedings or future litigation relating to pending claims, inquiries or audits;

dependence on key personnel; and

other matters discussed in the Business Description contained in the Company's Annual Report on Form 10-K for the fiscal year ended September 1, 2007.

Consequently, such forward-looking statements should be regarded solely as the Company's current plans, estimates and beliefs. The Company does not undertake any obligation to update any forward-looking statements to reflect future events or circumstances after the date of such statements.

Available Information

Notes to Condensed Consolidated Financial Statements

(Dollar amounts and shares in thousands, except per share data)

(Unaudited)

Note 1. Basis of Presentation

MSC Industrial Direct Co., Inc. ("MSC") was incorporated in the State of New York on October 24, 1995. The accompanying condensed consolidated financial statements include MSC and all of its subsidiaries, and MSC and such subsidiaries are hereinafter referred to collectively as the "Company." All intercompany balances and transactions have been eliminated in consolidation.

The unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation (consisting of normal recurring adjustments) have been included. Operating results for the first twenty-six weeks of fiscal 2008 are not necessarily indicative of the results that may be expected for the fiscal year ending August 30, 2008. For further information, refer to the financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended September 1, 2007.

The Company's fiscal year ends on a Saturday close to August 31 of each year.

A reconciliation between the numerator and denominator of the basic and diluted EPS calculation is as follows:

	Thirteen Weeks Ended		Twenty-Six Weeks Ended	
	March 1, 2008	February 24, 2007	March 1, 2008	February 24, 2007

Weighted average common and common equivalent shares	65,198	66,781	65,965	67,258
Diluted EPS	\$ 0.73	\$ 0.61	\$ 1.43	\$ 1.20

Note 2. Stock-Based Compensation

The Company records stock-based compensation in accordance with the provisions of Statement of Financial Accounting Standards No. 123, as amended ("FAS 123R"). The stock-based compensation expense related to stock option plans and the Associate Stock Purchase Plan included in operating expenses for the twenty-six week periods ended March 1, 2008 and February 24, 2007 was \$3,428 and

\$3,004, respectively. Tax benefits related to this expense for the twenty-six week periods ended March 1, 2008 and February 24, 2007 were \$1,095 and \$790, respectively. The tax benefit recorded for the stock-based option expense is at a lower rate than the Company's current effective tax rate because a portion of the options are Incentive Stock Options ("ISO"). In accordance with Statement of Financial Accounting Standards No. 109 "Accounting for Income Taxes," no tax benefit is recorded for an ISO unless upon exercise a disqualifying disposition occurs. All options granted after March 30, 2004 have been Non-Qualified Stock Options.

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model with the following assumptions:

	Twenty-Six Weeks Ended	
	March 1, 2008	February 24, 2007
Expected life (years)	4.8	4.8
Risk-free interest rate	4.07%	4.72%
Expected volatility	28.5%	33.2%
Expected dividend yield	1.4%	1.2%

A summary of the activity of the Company's stock option plans for the twenty-six weeks ended March 1, 2008 is as follows:

	Options	Weighted-Average Exercise Price per Share	Weighted-Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value
Outstanding on September 1, 2007	2,574	\$ 25.57		
Granted	499	47.72		
Exercised	(101)	19.27		
Forfeited/Canceled	(27)	38.36		
Outstanding on March 1, 2008	2,945	\$ 29.42	4.58	\$ 32,892
Exercisable on March 1, 2008	1,796	\$ 21.48	3.78	\$ 34,298

The weighted-average grant-date fair value for the twenty-six week periods ended March 1, 2008 and February 24, 2007 was \$13.18 and \$14.09, respectively. The total intrinsic value of options exercised during the twenty-six week periods ended March 1, 2008 and February 24, 2007 was \$2,171 and \$6,166, respectively. The unrecognized share-based compensation cost related to stock option expense at March 1, 2008 is \$12,503 and will be recognized over a weighted average period of 2.69 years.

Stock-based compensation expense recognized for restricted stock awards was \$914 and \$623 for the thirteen week periods ended March 1, 2008 and February 24, 2007, respectively, and \$1,792 and \$1,292 for the twenty-six week periods ended March 1, 2008 and February 24, 2007, respectively. The unrecognized compensation cost related to the unvested restricted shares at March 1, 2008 was \$14,866 and will be recognized over a weighted-average period of 3.57 years.

Note 4. Notes Payable

At March 1, 2008, the Company had term loan borrowings outstanding under its credit facility of \$159,625. Principal payments on the term loan began in June 2007. The remaining payments consist of quarterly installments of approximately \$7,688 in the third quarter of fiscal 2008, \$10,250 in each of the next four quarters commencing in June 2008, approximately \$12,813 in each of the following four quarters commencing in June 2009, \$20,500 in each of the following two quarters commencing in June 2010 and a final payment of approximately \$18,685 due in December 2010. Optional prepayments may be made at any time, or from time to time, in whole or part, without premium or penalty. The borrowing rate in effect for the term loan borrowings at March 1, 2008 was 3.78%. On February 14, 2008, the Company increased the revolving commitment credit line from \$75,000 to \$150,000, of which the Company had \$94,000 outstanding at March 1, 2008. The borrowing rate in effect for the revolving loans at March 1, 2008 was 3.90%. The revolving loan is due in thirty days from the origination date and can be renewed in thirty, sixty, ninety and one hundred eighty day increments. The interest rate payable for borrowings under the credit facility is currently 50 basis points over LIBOR rates. The interest rate payable for borrowings under the revolving loans is currently 40 basis points over LIBOR.

rates. The Company is also charged a fee of 10 basis points on the borrowed and unborrowed balances of the revolving loans. Under the terms of the credit facility, the Company is subject to various operating and financial covenants including a maximum consolidated leverage ratio and a minimum consolidated interest coverage ratio. At March 1, 2008, the Company is in compliance with the operating and financial covenants of the credit facility.

On February 7, 2008, the Company issued a Promissory Note (the "Note"), effective as of January 17, 2008. Pursuant to the Note, the Company may borrow from the lender, in the lender's sole discretion, up to \$50,000. Subject to certain exceptions, the interest rate for any loans made pursuant to the Note shall, at the Company's option, be at (a) the prime rate as is publicly announced by the lender from time to time, (b) a fixed rate of interest determined by the lender in its sole discretion or (c) the adjusted LIBOR rate plus 40 basis points. All outstanding balances under the loan shall be due no later than March 31, 2008. During the period, the Company borrowed and repaid \$30,000 under the Note. No borrowings under the Note were outstanding at March 1, 2008 and the Note terminated on March 11, 2008.

The Company also has a long-term note payable in the amount of \$593 to the Pennsylvania Industrial Development Authority, which is secured by the land on which the Harrisburg, Pennsylvania customer fulfillment center is located, which bears interest at 3% per annum and is payable in monthly installments of \$15 (includes principal and interest) through September 2011.

Note 5. Shareholders' Equity

Each holder of the Company's Class A common stock is entitled to one vote for each share held of record on the applicable record date on all matters presented to a vote of shareholders, including the election of directors. The holders of Class B common stock are entitled to ten votes per share on the applicable record date and are entitled to vote, together with the holders of the Class A common stock, on all matters which are subject to shareholder approval, including the election of directors. Holders of Class A common stock and Class B common stock have no cumulative voting rights or preemptive rights to purchase or subscribe for any stock or other securities and except as described below there are no conversion rights or redemption or sinking fund provisions with respect to such stock.

On January 8, 2008, the Board of Directors reaffirmed and replenished the Company's stock repurchase plan (the "Plan") so that the total number of shares of Class A common stock authorized for future repurchase was restored to 7,000 shares, of which, 4,499 shares remain authorized for repurchase at March 1, 2008. During fiscal 1999, the Board of Directors established the Plan, which allows the Company to repurchase shares at any time and in any increments it deems appropriate in accordance with Rule 10b-18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). During the first twenty-six weeks of fiscal 2008, the Company repurchased 3,127 shares of its Class A common stock for \$120,406 (2,524 shares were repurchased for \$95,999 during the second quarter of fiscal 2008), which is reflected at cost as treasury stock in the accompanying condensed consolidated financial statements. The Company reissued 39 shares of treasury stock during the first twenty-six weeks of fiscal 2008 to fund the Associate Stock Purchase Plan.

Note 5. Shareholders' Equity (Continued)

The holders of the Company's Class B common stock have the right to convert their shares of Class B common stock into shares of Class A common stock at their election on a one-to-one basis. All shares of Class B common stock convert into shares of Class A common stock on a one-to-one basis upon the sale or transfer of such shares of Class B common stock to any person who is not a member of the Jacobson or Gershwind families or any trust not established principally for members of the Jacobson or Gershwind families or is not an executor, administrator or personal representative of an estate of a member of the Jacobson or Gershwind families.

The Company has 5,000 shares of preferred stock authorized. The Company's Board of Directors has the authority to issue shares of preferred stock. Shares of preferred stock have priority over the Company's Class A common stock and Class B common stock with respect to dividend or liquidation rights, or both. As of March 1, 2008, there were no shares of preferred stock issued or outstanding.

The Company paid dividends of \$23,633 for the twenty-six weeks ended March 1, 2008. On April 3, 2008, the Board of Directors declared a dividend of \$0.18 per share payable on May 1, 2008 to shareholders of record at the close of business on April 17, 2008. The dividend will result in a payout of approximately \$11,400, based on the number of shares outstanding at April 8, 2008.

Note 6. Product Warranties

The Company generally offers a maximum one-year warranty, including parts and labor, for some of its machinery products. The specific terms and conditions of those warranties vary depending upon the product sold. The Company may be able to recoup some of these costs through product warranties it holds with its original equipment manufacturers, which typically range from thirty to ninety days. In general, many of the Company's general merchandise products are covered by third party original equipment manufacturers' warranties. The Company's warranty expense for the twenty-six week periods ended March 1, 2008 and February 24, 2007 has been minimal.

Note 7. Legal Proceedings

There are various claims, lawsuits, and pending actions against the Company and its subsidiaries incident to the operations of its businesses. In addition, as a government contractor, from time to time the Company is subject to governmental or regulatory inquiries or audits, including a current inquiry relating to pricing compliance and Trade Agreements Act compliance. A claim against the Company arising from this inquiry has not been made and the amount of potential liability, if any, is not estimable at this time. However, in the opinion of management, the ultimate resolution of all such claims, lawsuits, pending actions and inquiries will not have a material adverse effect on the Company's condensed consolidated financial position, results of operations or liquidity.

Note 8. Income Taxes

In July 2006, the Financial Accounting Standards Board issued FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes" an Interpretation of FASB Statement No. 109 ("FIN 48"). FIN 48 prescribes a method of recognition, measurement, presentation and disclosure within the financial statements for uncertain tax positions that a company has taken or expects to take

in a tax return. Implementation of FIN 48 on September 2, 2007 resulted in no adjustment to the liability for unrecognized tax benefits.

As of the date of adoption the gross amount of unrecognized tax benefits, exclusive of interest and penalties, totaled approximately \$5,021, all of which would affect the effective tax rate if released. The Company classifies the income tax liability associated with uncertain tax positions as an accrued liability. The amount of interest and penalties related to the Company's unrecognized tax benefits, as of the date of the adoption, was approximately \$335, both of which are classified as a component of income tax expense. The Company files income tax returns in the U.S. as well as various state and foreign jurisdictions. The Company is no longer subject to income tax examinations by taxing authorities for taxable years before fiscal 2003.

Note 9. Acquisition

On June 8, 2006, the Company acquired all of the outstanding common stock of J&L America, Inc., d/b/a J&L Industrial Supply ("J&L"), a former subsidiary of Kennametal, Inc. The changes in the accrued exit costs related to the closure of the J&L customer fulfillment centers and employee severance costs during the twenty-six week period ended March 1, 2008 are as follows:

	Exit Costs	Severance Costs	Total
Beginning Balance at September 2, 2007	\$ 1,522	\$ 752	\$ 2,274
Payments	(382)	(45)	(427)
Ending Balance at March 1, 2008	\$ 1,140	\$ 707	\$ 1,847

Note 10. New Accounting Pronouncements

In December 2007, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards ("SFAS") No. 141(revised 2007) ("SFAS No. 141R"), Business Combinations. SFAS No. 141R significantly changes the accounting for business combinations in a number of areas including the treatment of contingent consideration, preacquisition contingencies, transaction costs, in-process research and development and restructuring costs. In addition, under SFAS No. 141R, changes in an acquired entity's deferred tax assets and uncertain tax positions after the measurement period will impact income tax expense. SFAS No. 141R is effective for fiscal years beginning after December 15, 2008. This standard will change our accounting treatment for business combinations on a prospective basis.

In September 2006, the Financial Accounting Standards Board issued SFAS No. 157, "Fair Value Measurements," ("SFAS 157"). SFAS 157 defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles and expands disclosures about fair value measurements. The provisions of SFAS 157 are effective for fiscal years beginning after November 15, 2007. The Company is currently evaluating the impact this adoption may have on its results of operations and financial condition, but does not expect it will have a material impact, if any.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following is intended to update the information contained in the Company's Annual Report on Form 10-K for the fiscal year ended September 1, 2007 and presumes that readers have access to, and will have read, "Management's Discussion and Analysis of Financial Condition and Results of Operations" contained in such Annual Report on Form 10-K.

This Quarterly Report on Form 10-Q contains or incorporates certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, and the Company intends that such forward-looking statements be subject to the safe harbors created thereby. Such forward-looking statements involve known and unknown risks and uncertainties and include, but are not limited to, statements regarding future events and our plans, goals and objectives. Such statements are generally accompanied by words such as "believe," "anticipate," "think," "intend," "estimate," "plan", "expect," or similar terms. Our actual results may differ materially from such statements. Factors that could cause or contribute to such differences include, without limitation, changing customer and product mixes, changing market conditions, industry consolidation, competition, general economic conditions in the markets in which the Company operates, rising commodity and energy prices, the outcome of potential government or regulatory proceedings or future litigation relating to pending claims, inquiries or audits, risk of cancellation or rescheduling of orders, work stoppages or other business interruptions (including those due to extreme weather conditions) at transportation centers or shipping ports, the risk of war, terrorism and similar hostilities, dependence on our information systems and on key personnel. Although the Company believes that the assumptions underlying its forward-looking statements are reasonable, any of the assumptions could prove inaccurate and, therefore, the Company cannot make any assurances that the results contemplated in such forward-looking statements will be realized. The inclusion of such forward-looking information should not be regarded as a representation by the Company or any other person that the future events, plans or expectations contemplated by the Company will be achieved. Furthermore, past performance is not necessarily an indicator of future performance. The Company does not undertake any obligation to update any forward-looking statements to reflect future events or circumstances after the date of such statements.

Overview

MSC Industrial Direct Co., Inc. (together with its subsidiaries, "MSC," the "Company," "we," "our," or "us"), a corporation incorporated in the State of New York in 1995, is one of the largest direct marketers of a broad range of industrial products to industrial customers throughout the United States. We distribute a full line of industrial products intended to satisfy our customers' maintenance, repair and operations ("MRO") supplies, which includes our metalworking products.

MSC is one of the largest direct marketers of a broad range of industrial products to small and mid-sized industrial customers throughout the United States. We offer approximately 590,000 stock-keeping units ("SKUs") through our master catalogs, weekly, monthly and quarterly specialty and promotional catalogs, newspapers, brochures and the Internet, including our websites, MSCDirect.com, JLIIndustrial.com and use-enco.com (the "MSC Websites"). We service our customers from five customer fulfillment centers and 98 branch offices. Most of our products are carried in stock, and orders for these in-stock products are typically fulfilled the day on which the order is received.

Net sales increased 7.9% and 8.4% for the thirteen and twenty-six week periods ended March 1, 2008, as compared to the same periods in fiscal 2007. We have been able to gain market share in the national account and government program (the "Large Account Customer") sectors, which have become important components of our overall customer mix, revenue base, recent and projected growth and planned business expansion. By expanding in these sectors, which involve customers with multiple locations and high volume MRO needs, we are diversifying our customer base beyond small and

mid-sized customers, thereby reducing the cyclical nature of our business. As part of the Company's strategy to drive future sales growth, we continue to increase the number of field sales associates in existing markets, and we have opened new branches in the Salt Lake City, Utah, Portland, Oregon, and Seattle, Washington areas, each with their own field sales force. Sales related to the new branches did not have a significant impact on the Company's total sales for the twenty-six week period ended March 1, 2008. The Company has increased the number of field sales associates to 857 at March 1, 2008, as compared to 757 at February 24, 2007. We expect that the number of field sales associates will increase to approximately 865 by the end of the third quarter of fiscal 2008. See discussion below describing recent weakness in the Institute for Supply Management index and the anticipated impact on our sales growth.

Our gross profit margins have increased slightly to 46.5% and 46.4%, respectively, for the thirteen and twenty-six week periods ended March 1, 2008, as compared to 46.4% and 46.3% for the same periods in fiscal 2007.

Operating expenses increased as a result of the increased sales volume related expenses (primarily payroll related costs and freight expenses), offset by a decrease in the annual bonus accrual requirement as the estimated fiscal 2008 annual bonus payout is expected to be at lower levels than in fiscal 2007, and there were no integration costs related to the acquisition of J&L for the thirteen and twenty-six week periods ended March 1, 2008, as compared to the same periods in fiscal 2007. However, as a result of the increase in gross margin and the leveraging of our fixed operating costs, we were able to increase operating margins for the thirteen and twenty-six week periods ended March 1, 2008 to 18.0% and 17.9%, respectively, as compared to 17.2% for the same periods in fiscal 2007. We expect operating expenses to continue to increase through the remainder of fiscal 2008 as we continue our program of investing in growth development programs, increasing headcount, enhancing our e-commerce capabilities and other sales related initiatives involving cost increases.

We anticipate cash flows from operations, available cash and funds available under the revolving credit facility will be adequate to support our operations for the next 12 months.

The Institute for Supply Management ("ISM") index, which measures the economic activity of the U.S. manufacturing sector, is important to our planning because it historically has been an indicator of our manufacturing customers' activity. Approximately 75% of our revenues (excluding the UK operations of J&L "J&L UK") came from sales in the manufacturing sector during the twenty-six weeks ended March 1, 2008, including some Large Account Customers. The ISM is currently at 48.6%, as reported on April 1, 2008. We had seen the ISM trending downward in recent months, and now with the ISM currently at this level, together with the weak durables orders and recent weak employment reports, this may be an indication of a deceleration in the growth of the overall economy as well as of the manufacturing sector. It is possible that the impact of rising energy prices, inflation, interest rate fluctuations, raw material costs and availability, along with the condition of the U.S. economy, will have an adverse effect on customer order flow and therefore our sales growth may continue to decline. We believe that companies will be seeking cost reductions and shorter cycle times from their suppliers. Our business model focuses on providing overall procurement cost reduction and just-in-time delivery to meet our customers' needs. To meet our customers' needs and our business goals, we will seek to continue to drive cost reduction throughout our business through cost saving strategies and increased leverage from our existing infrastructure, and continue to provide additional procurement cost savings solutions to our customers through technology such as our Customer Managed Inventory and Vendor Managed Inventory programs.

Results of Operations**Net Sales**

	Thirteen Weeks Ended			Twenty-Six Weeks Ended		
	March 1, 2008	February 24, 2007	Percentage Change	March 1, 2008	February 24, 2007	Percentage Change
(Dollars in thousands)						
Net Sales	\$ 436,486	\$ 404,618	7.9%	\$ 874,040	\$ 806,630	8.4%

Net sales increased 7.9% and 8.4% for the thirteen and twenty-six week periods ended March 1, 2008, respectively, as compared to the same periods in fiscal 2007. Of this amount, for the thirteen and twenty-six week periods ended March 1, 2008, as compared to the same periods in fiscal 2007, we estimate approximately 16.0% and 19.0%, respectively, was attributable to our increase in prices on certain stock keeping units ("SKUs"), based on market conditions in accordance with our pricing strategy, approximately 59.0% and 53.0%, respectively, was attributable to the growth of our Large Account Customer programs and the remaining net sales growth was primarily a result of an increase in sales to our new and existing core accounts.

The primary reason for the increase in sales to existing customers during the thirteen and twenty-six week periods ended March 1, 2008, is the success of our sales force in expanding these accounts. Our Large Account Customer programs sales initiative continued to be successful and contributed strongly to our total sales growth and the diversification of our customer mix and revenue base. The growth of the Large Account Customer programs (these customers tend to order larger amounts) is the primary reason for the increase in average order size to approximately \$307 (excluding J&L UK) in the second quarter of fiscal 2008 from \$292 in the second quarter of fiscal 2007 (excluding J&L UK). These Large Account Customers tend to require advanced e-commerce capabilities. We believe that our ability to transact with our customers through various portals and directly through the MSC Websites, gives us a competitive advantage over smaller suppliers. Sales through the MSC Websites were \$116.6 million for the second quarter of fiscal 2008, representing 26.7% of consolidated net sales. As our Large Account Customer programs continue to grow we will benefit from processing more sales through electronic transactions that carry lower operating costs than orders processed manually through our call centers and branches. These cost savings may be offset by the lower gross margins on Large Account Customer business. We grew the field sales force to 857 associates at March 1, 2008, an increase of approximately 13.2% from sales associate levels of 757 at February 24, 2007, as a result of our strategy to acquire new accounts and expand existing accounts across all customer types.

We introduced approximately 24,000 new SKUs in our fiscal 2008 catalog and removed approximately 30,000 slower selling SKUs. We believe that the new SKUs improve the overall quality of our offering and will be important factors in our sales growth.

We anticipate that the gross profit margin will be approximately 46.3% for the third quarter of fiscal 2008.

Operating Expenses

	Thirteen Weeks Ended			Twenty-Six Weeks Ended		
	March 1, 2008	February 24, 2007	Percentage Change	March 1, 2008	February 24, 2007	Percentage Change
(Dollars in thousands)						
Operating Expenses	\$ 124,443	\$ 118,032	5.4%	\$ 249,043	\$ 234,517	6.2%
Percentage of Net Sales	28.5%	29.2%		28.5%	29.1%	

The increase in operating expenses in dollars for the thirteen week period ended March 1, 2008 as compared to the same period in fiscal 2007, was primarily due to an increase in payroll and payroll related costs, an increase in freight expense to support increased sales, product sourcing and internet initiatives, and increased spending on other growth development programs. These increases were offset by costs related to the J&L integration occurring in fiscal 2007, that did not incur in fiscal 2008. For the twenty-six week period ended March 1, 2008, the increase in payroll and payroll related costs, and freight expense are offset by a reduction in the annual bonus expense accrual required and there were no integration costs related to the acquisition of J&L.

Payroll and payroll related costs continue to make up a significant portion of our operating expenses. These costs increased primarily as a result of an increase in headcount and annual payroll increases. The increase in headcount is primarily the result of the increase in sales associates as part of our overall growth strategy to build sales as well as an increase in personnel in our customer fulfillment centers and branches to handle increased sales volume. The increase is also due to product sourcing and internet initiatives, as well as spending on growth development programs. For the twenty-six week period ended March 1, 2008, the increase in these expenses are offset by a reduction in the annual bonus expense accrual as the estimated fiscal 2008 annual bonus payout is expected to be at lower levels than in fiscal 2007. We expect to increase the field sales force to approximately 865 by the end of our third quarter of fiscal 2008, which will result in increased payroll and payroll related costs.

The reduction in the operating expenses as a percentage of net sales for the thirteen and twenty-six week periods ended March 1, 2008 are primarily due to the Company incurring costs related to the integration of J&L in fiscal 2007 that were not incurred in the current fiscal year. Excluding J&L integration costs, the operating expenses as a percentage of net sales, for the thirteen and twenty-six week periods ended February 24, 2007, were 28.6% and 28.7%, respectively.

Income from Operations

Percentage of Net Sales	18.0%	17.2%		17.9%	17.2%	

The increase in income from operations for the thirteen and twenty-six week periods ended March 1, 2008, as compared to the same periods in fiscal 2007, was primarily attributable to the costs related to the integration of J&L incurred in fiscal 2007 which did not occur in fiscal 2008, the increase in gross margin and the distribution of expenses over a larger revenue base.

Interest Expense

Edgar Filing: MSC INDUSTRIAL DIRECT CO INC - Form 10-Q

The decrease in interest expense for the thirteen and twenty-six week periods ended March 1, 2008, as compared to same periods in fiscal 2007, is a result of lower average loan balances and lower average interest rates. Average loan balances outstanding for the term loan and revolving loans for the thirteen and twenty-six week periods ended of March 1, 2008 were approximately \$203.8 million and \$187.2 million, respectively, as compared to the same periods in fiscal 2007 of approximately \$220.2 million and \$210.1 million, respectively.

Effective Tax Rate	37.82%	38.98%		37.99%	39.08%	

The effective tax rate for the thirteen and twenty-six week periods ended March 1, 2008 was 37.82% and 37.99% compared to 38.98% and 39.08% with the comparable period in fiscal 2007. The decrease in the rate is primarily attributable to lower state taxes due to the successful implementation of certain tax planning strategies.

Net Income

	Thirteen Weeks Ended			Twenty-Six Weeks Ended		
	March 1, 2008	February 24, 2007	Percentage Change	March 1, 2008	February 24, 2007	Percentage Change

Net Income	\$ 47,460	\$ 40,507	17.2%	\$ 94,326	\$ 80,803	16.7%
Diluted Earnings Per Share	\$ 0.73	\$ 0.61	19.7%	\$ 1.43	\$ 1.20	19.2%

The factors which affected net income for the thirteen and twenty-six week periods ended March 1, 2008, as compared to the same periods in fiscal 2007, have been discussed above. In addition to the increase in net income, the diluted earnings per share for the thirteen and twenty-six week periods ended March 1, 2008 was impacted by the repurchase of shares of our Class A common stock in fiscal 2007, as well as repurchases made in the first half of fiscal 2008, which resulted in fewer shares outstanding at March 1, 2008.

Liquidity and Capital Resources

Our primary capital needs have been to fund the working capital requirements necessitated by our sales growth, adding new products, and facilities expansions. In the past, our primary sources of financing have been cash generated from operations. In fiscal 2006, we entered into a new term loan and revolving credit agreement. Proceeds from the term loan were used to fund part of the purchase price of the J&L acquisition in June 2006. In addition, on February 7, 2008, we issued a promissory note. Borrowings under the revolving credit agreement and a promissory note, along with cash generated from operations, have been used to fund the repurchase of shares of our Class A common stock, to pay dividends, and for working capital needs. At March 1, 2008 total borrowings outstanding were \$254.2 million, as compared to \$230.8 million at February 24, 2007.

On February 7, 2008, we issued a Promissory Note (the "Note"), effective as of January 17, 2008. Pursuant to the Note, we may borrow from the lender, in the lender's sole discretion, up to \$50.0 million. Subject to certain exceptions, the interest rate for any loans made pursuant to the Note shall, at the our option, be at (a) the prime rate as is publicly announced by the lender from time to time, (b) a fixed rate of interest determined by the lender in its sole discretion or (c) the adjusted LIBOR rate plus 40 basis points. All outstanding balances under the loan shall be due no later than

March 31, 2008. During the period, we borrowed and repaid \$30.0 million under the Note. No borrowings under the Note were outstanding at March 1, 2008 and the Note terminated on March 11, 2008.

At March 1, 2008, we had term loan borrowings outstanding under its credit facility of \$159.6 million. Principal payments on the term loan began in June 2007. The remaining payments consist of quarterly installments of approximately \$7.7 million in the third quarter of fiscal 2008, \$10.3 million in each of the next four quarters commencing in June 2008, approximately \$12.8 million in each of the following four quarters commencing in June 2009, \$20.5 million in each of the following two quarters commencing in June 2010 and a final payment of approximately \$18.7 million due in December 2010. Optional prepayments may be made at any time, or from time to time, in whole or part, without premium or penalty. The borrowing rate in effect for the term loan borrowings at March 1, 2008 was 3.78%. On February 14, 2008, we increased the revolving commitment credit line from \$75.0 million \$150.0 million, of which the Company had \$94.0 million outstanding at March 1, 2008. The borrowing rate in effect for the revolving loans at March 1, 2008 was 3.90%. The revolving loan is due in thirty days from the origination date and can be renewed in thirty, sixty, ninety and one hundred eighty day increments. The interest rate payable for borrowings under the credit facility is currently 50 basis points over LIBOR rates. The interest rate payable for borrowings under the revolving loans is currently 40 basis points over LIBOR rates. The Company is also charged a fee of 10 basis points on the borrowed and unborrowed balances of the revolving loans. Under the terms of the credit facility, we are subject to various operating and financial covenants including a maximum consolidated leverage ratio and a minimum consolidated interest coverage ratio. At March 1, 2008, we were in compliance with the operating and financial covenants of the credit facility.

Net cash provided by operating activities for the twenty-six week periods ended March 1, 2008 and February 24, 2007 was \$67.0 million and \$73.7 million, respectively. The decrease of \$6.7 million in net cash provided by operating activities resulted primarily from an increase in growth in accounts receivable, a reduction in accounts payable and accrued liabilities, offset by a reduction in growth of inventory and higher net income during the twenty-six week period ended March 1, 2008, as compared to the same period in fiscal 2007.

Net cash used in investing activities for the twenty-six week periods ended March 1, 2008 and February 24, 2007 was \$5.9 million and \$27.5 million, respectively. The decrease is due to payments for the acquisition of J&L and higher expenditures for property, plant and equipment that occurred during the twenty-six week period ended February 24, 2007.

Net cash used in financing activities for the twenty-six week periods ended March 1, 2008 and February 24, 2007 was \$61.5 million and \$48.9 million, respectively. The increase in net cash used in financing activities for the twenty-six week period ended March 1, 2008 was primarily attributable to increased repurchases of shares of Class A common stock, higher quarterly cash dividends paid to shareholders, higher repayments of notes payable under the credit facility and other notes, offset from the net proceeds from the revolving credit facility. Net cash used in financing activities for the twenty-six week period ended February 24, 2007 was primarily attributable to the repurchases of shares of Class A common stock and the quarterly cash dividend paid to shareholders, offset from the net proceeds from the revolving credit facility.

We reissued approximately 39,000 shares of treasury stock during the first twenty-six weeks of fiscal 2008 to fund the Associate Stock Purchase Plan. During the first twenty-six weeks of fiscal 2008, we repurchased approximately 3.1 million shares of our Class A common stock for approximately \$120.4 million (approximately 2.5 million shares were repurchased for \$96.0 million during the second quarter of fiscal 2008), which is reflected at cost as treasury stock in the accompanying condensed consolidated financial statements. We may make future repurchases based on market conditions and other investment criteria. We have adequate resources to fund such future repurchases with cash and our \$150.0 million revolving credit facility.

Edgar Filing: MSC INDUSTRIAL DIRECT CO INC - Form 10-Q

We paid a dividend of \$11.7 million on February 5, 2008 and \$11.9 million on November 15, 2007, to shareholders of record at the close of business on January 22, 2008 and November 1, 2007, respectively. On April 3, 2008, the Board of Directors declared a dividend of \$0.18 per share payable on May 1, 2008 to shareholders of record at the close of business on April 17, 2008. The dividend will result in a payout of approximately \$11.4 million, based on the number of shares outstanding at April 8, 2008.

As a result of implementing operational enhancements and expansions in customer fulfillment centers, we may continue to see an increase in capital expenditures during fiscal 2008. We have adequate resources to fund these plans with cash and our \$150.0 million revolving credit facility.

Related Party Transactions

We are affiliated with two real estate entities (together, the "Affiliates"), which lease property to us. The Affiliates are owned and controlled by our principal shareholders, Mitchell Jacobson, our Chairman, and his sister Marjorie Gershwind. We paid rent under operating leases to the Affiliates for the first twenty-six weeks of fiscal 2008 of approximately \$0.9 million, in connection with our occupancy of our Atlanta Customer Fulfillment Center and one branch office. In the opinion of our management, based on its market research, the leases with Affiliates are on terms which approximate fair market value.

The current square footage of the Atlanta Customer Fulfillment Center is approximately 529,000 square feet. During the third quarter of fiscal 2008, the Company and the landlord negotiated an amendment to the existing lease, with respect to a 172,000 square foot expansion of this facility. Certain construction costs of approximately \$5.4 million will be paid by the landlord. The term of the lease has been extended to the year 2030. The Company will make monthly payments of approximately \$185,500 until July 2009. Monthly payments thereafter will increase pursuant to the terms of the amended lease. All other material terms of the lease agreement remain unchanged. Based on local market terms and data compiled by an independent real estate consultant, the Company believes this transaction to be on arm's length terms.

Contractual Obligations

Certain of our operations are conducted on leased premises, two of which are leased from Affiliates, as noted above. The leases (most of which require us to provide for the payment of real estate taxes, insurance and other operating costs) are for varying periods, the longest extending to the year 2023, at March 1, 2008. In addition, we are obligated under certain equipment and automobile operating leases, which expire on varying dates through 2011.

Subsequent to March 1, 2008, an amendment was made to the existing lease for the Atlanta Customer Fulfillment Center, as noted above, and the term of the lease has been extended through the year 2030.

Off-Balance Sheet Arrangements

We have not entered into any off-balance sheet arrangements.

Critical Accounting Estimates

We make estimates, judgments and assumptions in determining the amounts reported in the condensed consolidated financial statements and accompanying notes. Estimates are based on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. The estimates are used to form the basis for making judgments about the carrying values of assets and liabilities and the amount of revenues and expenses reported that are not readily apparent from other sources. Actual results may differ from these estimates. Our significant accounting

policies are described in the notes to the condensed consolidated financial statements in our Annual Report on Form 10-K for the fiscal year ended September 1, 2007. The accounting policies described below are impacted by our critical accounting estimates.

Allowance for Doubtful Accounts

We perform periodic credit evaluations of our customers' financial condition and collateral is generally not required. We evaluate the collectibility of accounts receivable based on numerous factors, including past transaction history with customers and their credit-worthiness. We estimate an allowance for doubtful accounts as a percentage of net sales based on historical bad debt experience and adjust it for changes in the overall aging of accounts receivable as well as specifically identified customers that are having difficulty meeting their financial obligations (e.g. bankruptcy, etc.). Historically, there has not been significant volatility in our bad debt expense due to strict adherence to our credit policy.

Inventory Valuation Reserve

Inventories consist of merchandise held for resale and are stated at the lower of weighted average cost or market. Management evaluates the need to record adjustments to reduce inventory to net realizable value on a quarterly basis. The reserve is initially provided for based on a percentage of sales. Each quarter items to be liquidated are specifically identified and written-down, using historical data and reasonable assumptions, to its estimated market value, if less than its cost. Inherent in the estimates of market value are management's estimates related to customer demand, technological and/or market obsolescence, possible alternative uses and ultimate realization of excess inventory.

Sales Returns

We establish a reserve for anticipated sales returns based on historical return rates. The return rates are periodically analyzed for changes in current return trends. Historically, material adjustments to the estimated sales reserve have rarely been required based on actual returns. If future returns are materially different than estimated returns, an adjustment to the sales return reserve may be required.

Reserve for Self-insured Group Health Plan

We have a self-insured group health plan. We are responsible for all covered claims to a maximum liability of \$300,000 per participant during a September 1 plan year. Benefits paid in excess of \$300,000 are reimbursed to the plan under our stop loss policy. Due to the time lag between the time claims are incurred and the time claims are paid by us, a reserve for those claims incurred but not reported ("IBNR") is established. The amount of this reserve is reviewed quarterly and is evaluated based on a historical analysis of claim trends, reporting and processing lag times and medical costs inflation.

New Accounting Pronouncements

See Note 10 to the accompanying financial statements.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

At March 1, 2008, we had term loan borrowings outstanding under our credit facility of \$159.6 million. Principal payments on the term loan began in June 2007. The remaining payments consist of quarterly installments of approximately \$7.7 million in the third quarter of fiscal 2008, \$10.3 million in each of the next four quarters commencing in June 2008, approximately \$12.8 million in each of the following four quarters commencing in June 2009, \$20.5 million in each of the following two quarters commencing in June 2010 and a final payment of approximately \$18.7 million due in December 2010. Optional prepayments may be made at any time, or from time to time, in whole or part, without premium or penalty. The borrowing rate in effect for the term loan borrowings at March 1, 2008 was 3.78%. On February 14, 2008, we increased the revolving commitment credit line

from \$75.0 million to \$150.0 million, of which we had \$94.0 million outstanding at March 1, 2008. The borrowing rate in effect for the revolving loans at March 1, 2008 was 3.90%. The revolving loan is due in thirty days from the origination date and can be renewed in thirty, sixty, ninety and one hundred eighty day increments. The interest rate payable for borrowings under the credit facility is currently 50 basis points over LIBOR rates. The interest rate payable for borrowings under the revolving loans is currently 40 basis points over LIBOR rates. The Company is also charged a fee of 10 basis points on the borrowed and unborrowed balances of the revolving loans. Under the terms of the credit facility, we are subject to various operating and financial covenants including a maximum consolidated leverage ratio and a minimum consolidated interest coverage ratio. At March 1, 2008, we are in compliance with the operating and financial covenants of the credit facility.

On February 7, 2008, we issued a Promissory Note (the "Note"), effective as of January 17, 2008. Pursuant to the Note, we may borrow from the lender, in the lender's sole discretion, up to \$50.0 million. Subject to certain exceptions, the interest rate for any loans made pursuant to the Note shall, at the our option, be at (a) the prime rate as is publicly announced by the lender from time to time, (b) a fixed rate of interest determined by the lender in its sole discretion or (c) the adjusted LIBOR rate plus 40 basis points. All outstanding balances under the loan shall be due no later than March 31, 2008. During the period, we borrowed and repaid \$30.0 million under the Note. No borrowings under the Note were outstanding at March 1, 2008 and the Note terminated on March 11, 2008.

In addition, our interest income is most sensitive to changes in the general level of U.S. interest rates. In this regard, changes in U.S. interest rates affect the interest earned on our cash and cash equivalents. Based on current debt levels, a change in the interest rate of 50 basis points would not have a significant impact on the annual financial results.

Item 4. Controls and Procedures

Our senior management is responsible for establishing and maintaining a system of disclosure controls and procedures (as defined in Rule 13a-15(e) and Rule 15d-15(e) promulgated under the Exchange Act) designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Exchange Act is accumulated and communicated to the issuer's management, including its principal executive officer or officers and principal financial officer or officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

In accordance with Exchange Act Rules 13a-15 and 15d-15, the Company carried out an evaluation, with the participation of the Chief Executive Officer and Chief Financial Officer, as well as other key members of the Company's management, of the effectiveness of the Company's disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective, as of the end of the period covered by this report, to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is (i) accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer as appropriate to allow timely decisions regarding required disclosure and (ii) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms.

No change occurred in our internal controls over financial reporting (as defined in Rule 13a-15(f) and Rule 15d-15(f) promulgated under the Exchange Act) during the fiscal quarter ended March 1, 2008 that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.

PART II. OTHER INFORMATION**Item 1. Legal Proceedings**

There are various claims, lawsuits, and pending actions against the Company and its subsidiaries incident to the operations of its businesses. In addition, as a government contractor, from time to time the Company is subject to governmental or regulatory inquiries or audits, including a current inquiry relating to pricing compliance and Trade Agreements Act compliance. A claim against the Company arising from this inquiry has not been made and the amount of potential liability, if any, is not estimable at this time. However, in the opinion of management, the ultimate resolution of all such claims, lawsuits, pending actions and inquiries will not have a material adverse effect on the Company's condensed consolidated financial position, results of operations or liquidity.

Item 1A. Risk Factors

Except as described below, there have been no material changes from the Risk Factors described in our Annual Report on Form 10-K for the fiscal year ended September 1, 2007. The information below updates, and should be read in conjunction with, the Risk Factors and information disclosed in the Annual Report on Form 10-K.

Shares Eligible for Future Sale

Sales of a substantial number of shares of Class A common stock in the public market could adversely affect the prevailing market price of the Class A common stock and could impair our future ability to raise capital through an offering of our equity securities. As of March 1, 2008 there were 44,832,496 shares of Class A common stock outstanding. In addition, as of March 1, 2008, approximately 2,945,000 options to purchase shares of Class A common stock granted under the Company's stock option plans were outstanding. As of March 1, 2008, restricted stock or options to purchase an additional 1,647,729 shares of Class A common stock were available for grant or issuance, respectively, under the Company's 2005 Omnibus Equity Plan. Approximately 136,000 shares may be sold through the Company's Associate Stock Purchase Plan. The Omnibus Equity Plan covers 3,000,000 shares in the aggregate. On October 18, 2007, the Board of Directors approved the granting of 474,000 stock options and 135,213 shares of restricted stock. On January 8, 2008, the Board of Directors approved the granting of 25,000 stock options and 7,345 shares of restricted stock.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table sets forth repurchases, by the Company, of its outstanding shares of Class A common stock during the quarter ended March 1, 2008:

Period	Total Number of Shares Purchased(1)	Average Price Paid Per Share(2)	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs(3)	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
12/02/07 01/05/08		\$		1,900,406
01/06/08 02/02/08	2,024,488	37.63	2,024,488	4,999,497
02/03/08 03/01/08	500,000	39.65	500,000	4,499,497
Total	2,524,488	\$ 38.03	2,524,488	

- (1) Associates delivered 24,678 shares of restricted stock to the Company, upon vesting, to satisfy tax-withholding requirements.

(2) Average price paid per share includes any commissions paid. Activity is reported on a trade date basis.

(3) During fiscal 1999, the Board of Directors established the MSC stock repurchase plan (the "Plan"). The total number of shares of Class A common stock initially authorized for future repurchase was set at 5,000,000 shares. On January 8, 2008 the Board of Directors reaffirmed and replenished the Plan so that the total number of shares of Class A common stock authorized for future repurchase was increased to 7,000,000 shares. As of March 1, 2008, the maximum number of shares that may yet be repurchased under the Plan was 4,499,497 shares. There is no expiration date for this program.

Item 4. Submission of Matters to a Vote of Security Holders

On February 7, 2008, the Company held its 2008 Annual Meeting of Shareholders (the "Meeting"). In connection with the Meeting, the Company solicited proxies from its shareholders pursuant to Regulation 14 of the Securities Exchange Act of 1934.

The matters voted upon by the shareholders and the votes cast with respect to such matters are as follows:
