**PART I. FINANCIAL INFORMATION**

**Item 1. Financial Statements**

*Review by Independent Registered Public Accounting Firm*

With respect to the interim consolidated financial statements included in this Quarterly Report on Form 10-Q for the quarter ended June 30, 2010, PricewaterhouseCoopers LLP, the company's independent registered public accounting firm, has applied limited procedures in accordance with professional standards for a review of such information. Their report on the interim consolidated financial statements, which follows, states that they did not audit and they do not express an opinion on the unaudited interim financial statements. Accordingly, the degree of reliance on their report on the unaudited interim financial statements should be restricted in light of the limited nature of the review procedures applied. This report is not considered a "report" within the meaning of Sections 7 and 11 of the Securities Act of 1933, and, therefore, the independent accountants' liability under Section 11 does not extend to it.

Table of Contents

**Report of Independent Registered Public Accounting Firm**

To the Shareholders and Board of Directors of W. R. Grace & Co.:

We have reviewed the accompanying consolidated balance sheet of W. R. Grace & Co. and its subsidiaries as of June 30, 2010, the related consolidated statements of operations and comprehensive income (loss) for the three-month and six-month periods ended June 30, 2010 and 2009, and the consolidated statements of equity (deficit) and of cash flows for the six-month periods ended June 30, 2010 and 2009. These interim financial statements are the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying consolidated interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

The accompanying interim consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Notes 1 and 2 to the consolidated interim financial statements, on April 2, 2001, the Company and substantially all of its domestic subsidiaries voluntarily filed for protection under Chapter 11 of the United States Bankruptcy Code, which raises substantial doubt about the Company's ability to continue as a going concern in its present form. Management's intentions with respect to this matter are also described in Notes 1 and 2. The accompanying consolidated interim financial statements do not include any adjustments that might result from the outcome of this uncertainty.

We previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet as of December 31, 2009, and the related consolidated statements of operations, equity (deficit), comprehensive income (loss), and of cash flows for the year then ended (not presented herein), and in our report dated February 25, 2010, we expressed an unqualified opinion on those consolidated financial statements with an explanatory paragraph relating to the Company's ability to continue as a going concern.

Table of Contents

**Notes to Consolidated Financial Statements**

**1. Basis of Presentation and Summary of Significant Accounting and Financial Reporting Policies**

W. R. Grace & Co., through its subsidiaries, is engaged in specialty chemicals and specialty materials businesses on a global basis through two operating segments: Grace Davison, which includes specialty catalysts and specialty materials used in a wide range of energy, refining, consumer, industrial, packaging and life sciences applications; and Grace Construction Products, which includes specialty construction chemicals and specialty building materials used in commercial, infrastructure and residential construction.

W. R. Grace & Co. conducts substantially all of its business through a direct, wholly-owned subsidiary, W. R. Grace & Co.-Conn. ("Grace-Conn."). Grace-Conn. owns substantially all of the assets, properties and rights of W. R. Grace & Co. on a consolidated basis, either directly or through subsidiaries.

As used in these notes, the term "Company" refers to W. R. Grace & Co. The term "Grace" refers to the Company and/or one or more of its subsidiaries and, in certain cases, their respective predecessors.

**Voluntary Bankruptcy Filing** During 2000 and the first quarter of 2001, Grace experienced several adverse developments in its asbestos-related litigation, including: a significant increase in personal injury claims, higher than expected costs to resolve personal injury and certain property damage claims, and class action lawsuits alleging damages from Zonolite® Attic Insulation ("ZAI"), a former Grace attic insulation product.

After a thorough review of these developments, Grace's Board of Directors concluded that a federal court-supervised bankruptcy process provided the best forum available to achieve fairness in resolving these claims and on April 2, 2001 (the "Filing Date"), Grace and 61 of its United States subsidiaries and affiliates, (collectively, the "Debtors"), filed voluntary petitions for reorganization (the "Filing") under Chapter 11 of the United States Bankruptcy Code in the United States Bankruptcy Court for the District of Delaware (the "Bankruptcy Court"). The cases were consolidated and are being jointly administered under case number 01-01139 (the "Chapter 11 Cases"). Grace's non-U.S. subsidiaries and certain of its U.S. subsidiaries were not included in the Filing.

Under Chapter 11, the Debtors have continued to operate their businesses as debtors-in-possession under court protection from creditors and claimants, while using the Chapter 11 process to develop and implement a plan for addressing the asbestos-related claims. Since the Filing, all motions necessary to conduct normal business activities have been approved by the Bankruptcy Court. (See Note 2 for Chapter 11 Information)

**Basis of Presentation** The interim Consolidated Financial Statements presented herein are unaudited and should be read in conjunction with the Consolidated Financial Statements presented in the Company's 2009 Annual Report on Form 10-K. Such interim Consolidated Financial Statements reflect all adjustments that, in the opinion of management, are necessary to be a fair statement of the results of the interim periods presented; all such adjustments are of a normal recurring nature except for the impacts of adopting new accounting standards as discussed below. Potential accounting adjustments discovered during normal reporting and accounting processes are evaluated on the basis of materiality, both individually and in the aggregate, and are recorded in the accounting period discovered, unless a restatement of a prior period is necessary. All significant intercompany accounts and transactions have been eliminated.

Table of Contents

**Notes to Consolidated Financial Statements (Continued)**

**1. Basis of Presentation and Summary of Significant Accounting and Financial Reporting Policies (Continued)**

The results of operations for the six-month interim period ended June 30, 2010 are not necessarily indicative of the results of operations for the year ending December 31, 2010.

**Reclassifications** Certain amounts in prior years' Consolidated Financial Statements have been reclassified to conform to the 2010 presentation. Such reclassifications have not materially affected previously reported amounts in the Consolidated Financial Statements.

**Use of Estimates** The preparation of financial statements in conformity with U.S. generally accepted accounting principles (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Consolidated Financial Statements, and the reported amounts of revenues and expenses for the periods presented. Actual amounts could differ from those estimates, and the differences could be material. Changes in estimates are recorded in the period identified. Grace's accounting measurements that are most affected by management's estimates of future events are:

Contingent liabilities, which depend on an assessment of the probability of loss and an estimate of ultimate resolution cost, such as asbestos-related matters (see Notes 2 and 3), income taxes (see Note 7), environmental remediation (see Note 10), and litigation (see Note 10);

Pension and postretirement liabilities that depend on assumptions regarding participant life spans, future inflation, discount rates and total returns on invested funds (see Note 8); and

Realization values of net deferred tax assets and insurance receivables, which depend on projections of future income and cash flows and assessments of insurance coverage and insurer solvency.

The accuracy of management's estimates may be materially affected by the uncertainties arising under Grace's Chapter 11 proceeding.

**Effect of New Accounting Standards** In June 2009, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards ("SFAS") No. 167, "Amendments to FASB Interpretation No. 46(R)", which was subsequently codified as Accounting Standard Codification ("ASC") 810. The objective of this Statement is to improve financial reporting by enterprises involved with variable interest entities. The Statement is effective as of the beginning of each reporting entity's first annual reporting period that begins after November 15, 2009, for interim periods within that first annual reporting period, and for interim and annual reporting periods thereafter. Grace adopted this standard in 2010 and it did not have a material effect on its Consolidated Financial Statements.

In January 2010, the FASB issued Accounting Standard Update ("ASU") 2010-06 "Improving Disclosures about Fair Value Measurements". This update provides additional guidance and expands the disclosure requirements related to transfers of assets in and out of Levels 1 and 2 as well as the activity for Level 3 fair value measurements. The new disclosures and clarifications of existing disclosures are effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances, and settlements in the roll forward of activity in Level 3 fair value measurements. Those disclosures are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years.

Table of Contents

**Notes to Consolidated Financial Statements (Continued)**

**1. Basis of Presentation and Summary of Significant Accounting and Financial Reporting Policies (Continued)**

Grace adopted the new disclosures requirements which were effective December 15, 2009 and they did not have a material effect on its Consolidated Financial Statements. See Note 6 for further discussion of ASC 820.

**2. Chapter 11 Information**

**Official Parties to Grace's Chapter 11 Cases** Three creditors' committees, two representing asbestos claimants, the Official Committee of Asbestos Personal Injury Claimants (the "PI Committee") and the Official Committee of Asbestos Property Damage Claimants (the "PD Committee"), and the third representing other unsecured creditors, and the Official Committee of Equity Security Holders (the "Equity Committee"), have been appointed in the Chapter 11 Cases. These committees, a legal representative of future asbestos personal injury claimants (the "PI FCR") and a legal representative of future asbestos property damage claimants (the "PD FCR"), have the right to be heard on all matters that come before the Bankruptcy Court and have important roles in the Chapter 11 Cases. The Debtors are required to bear certain costs and expenses of the committees and the representatives of future asbestos claimants, including those of their counsel and financial advisors.

As discussed below, the Debtors, the Equity Committee, the PI Committee and the PI FCR have filed a joint plan of reorganization, subsequently amended, with the Bankruptcy Court that is designed to address all pending and future asbestos-related claims and all other pre-petition claims as outlined therein. The committee representing general unsecured creditors, the PD Committee and the PD FCR are not co-proponents of this joint plan.

**Plans of Reorganization** On November 13, 2004, Grace filed a proposed plan of reorganization, as well as several associated documents, including a disclosure statement, trust distribution procedures, exhibits and other supporting documents, with the Bankruptcy Court. On January 13, 2005, Grace filed an amended plan of reorganization (the "Prior Plan") and related documents to address certain objections of creditors and other interested parties. At the time it was filed, the Prior Plan was supported by the committee representing general unsecured creditors and the Equity Committee, but was not supported by the PI Committee, the PD Committee or the PI FCR. At the time of filing of the Prior Plan, the PD FCR had not been appointed.

On July 26, 2007, the Bankruptcy Court terminated Grace's exclusive rights to propose a plan of reorganization and solicit votes thereon. As a result of the termination of these rights, any party-in-interest may propose a competing plan of reorganization. On November 5, 2007, the PI Committee and the PI FCR filed a proposed plan of reorganization (the "PI Plan") with the Bankruptcy Court.

On April 6, 2008, the Debtors reached an agreement in principle with the PI Committee, the PI FCR, and the Equity Committee designed to resolve all present and future asbestos-related personal injury claims (the "PI Settlement").

Prior to the PI Settlement, the Bankruptcy Court entered a case management order for estimating liability for pending and future asbestos personal injury claims. A trial for estimating liability for such claims began in January 2008 but was suspended in April 2008 as a result of the PI Settlement.

Table of Contents

**Notes to Consolidated Financial Statements (Continued)**

**2. Chapter 11 Information (Continued)**

As contemplated by the PI Settlement, on September 19, 2008, the Debtors, supported by the Equity Committee, the PI Committee and the PI FCR, as co-proponents, filed a joint plan of reorganization with the Bankruptcy Court to reflect the terms of the PI Settlement.

On November 21, 2008, the Debtors reached an agreement in principle (the "ZAI PD Term Sheet") with the Putative Class Counsel to the U.S. ZAI claimants, the PD FCR, and the Equity Committee designed to resolve all present and future U.S. ZAI property damage claims and demands as described below.

On December 13, 2009, the Ontario Superior Court of Justice, in the Grace Canada, Inc. proceeding pending under the Companies' Creditors Arrangement Act, approved the Amended and Restated Canadian ZAI Minutes of Settlement (the "Amended Settlement"), entered into by the Company, Grace Canada, Inc. and legal representatives of Canadian ZAI property damage claimants on November 16, 2009, that would settle all Canadian ZAI property damage claims and demands. Under the Amended Settlement, all Canadian ZAI property damage claims and demands would be paid through a separate Canadian ZAI property damage claims fund of CDN\$8.6 million. The effectiveness of the Amended Settlement is subject to the approval of the Bankruptcy Court. The Amended Settlement is also subject to the confirmation and effectiveness of the Joint Plan (as defined below) and will be considered null and void if the Bankruptcy Court's confirmation order is not issued on or before December 31, 2010. The Crown has filed objections to the terms of the Joint Plan based on the provisions of, and their treatment under, the Amended Settlement. The Bankruptcy Court is considering those confirmation objections.

As contemplated by the PI Settlement and the ZAI PD Term Sheet, the Debtors, supported by the Equity Committee, the PI Committee and the PI FCR, as co-proponents, amended the joint plan of reorganization and several associated documents, including a disclosure statement, trust distribution procedures, exhibits and other supporting documents on December 18, 2008, February 3, 2009 and February 27, 2009 through filings with the Bankruptcy Court. The Debtors and co-proponents filed technical modifications to the joint plan and certain exhibits on September 4, 2009, October 12, 2009, December 16, 2009 and March 19, 2010. The joint plan of reorganization (as amended and modified, the "Joint Plan") is designed to address all pending and future asbestos-related claims and all other pre-petition claims as outlined therein. The Joint Plan supersedes the Prior Plan and the PI Plan.

Under the Joint Plan, two asbestos trusts would be established under Section 524(g) of the Bankruptcy Code. All asbestos-related personal injury claims would be channeled for resolution to one asbestos trust (the "PI Trust") and all asbestos-related property damage claims, including U.S and Canadian ZAI property damage claims, would be channeled to a separate asbestos trust (the "PD Trust").

The Joint Plan assumes that Cryovac, Inc. ("Cryovac"), a wholly-owned subsidiary of Sealed Air Corporation ("Sealed Air"), will fund the PI Trust and the PD Trust with an aggregate of: (i) \$512.5 million in cash (plus interest at 5.5% compounded annually from December 21, 2002); and (ii) 18 million shares (reflecting a two-for-one stock split) of common stock of Sealed Air, pursuant to the terms of a settlement agreement resolving asbestos-related, successor liability and fraudulent transfer claims against Sealed Air and Cryovac, as further described below (the "Sealed Air Settlement"). The value of the Sealed Air Settlement changes daily with the accrual of interest and the trading value of Sealed Air common stock. The Joint Plan also assumes that Fresenius AG ("Fresenius") will fund the PI Trust and the PD Trust with an aggregate of \$115.0 million pursuant to

Table of Contents

**Notes to Consolidated Financial Statements (Continued)**

**2. Chapter 11 Information (Continued)**

the terms of a settlement agreement resolving asbestos-related, successor liability and fraudulent transfer claims against Fresenius, as further described below (the "Fresenius Settlement"). The Sealed Air Settlement and the Fresenius Settlement have been approved by the Bankruptcy Court but remain subject to the fulfillment of specified conditions.

Any plan of reorganization, including the Joint Plan and any plan of reorganization that may be filed in the future by a party-in-interest, will become effective only after a vote of eligible creditors and with the approval of the Bankruptcy Court and the U.S. District Court for the District of Delaware (the "District Court"). On March 9, 2009, the Bankruptcy Court approved the disclosure statement associated with the Joint Plan. On March 31, 2009, Grace distributed the Joint Plan, exhibits and disclosure statement along with voting materials to all creditors entitled to vote on the Joint Plan. The Bankruptcy Court required all creditors eligible to vote on the Joint Plan to submit their votes, and all parties-in-interest who object to the Joint Plan to submit their objections, by May 20, 2009. All classes of creditors entitled to vote accepted the Joint Plan. The class of general unsecured creditors, who voted on a provisional basis pending a determination by the Bankruptcy Court as to whether the class is impaired and therefore entitled to a vote, voted to reject the Joint Plan. The objections filed generally relate to demands for interest at rates higher than provided for in the Joint Plan, assertions that the Joint Plan may impair insurers' contractual rights, assertions that the Joint Plan discriminates against Libby, Montana personal injury claimants and the classification and treatment of claims under the Joint Plan.

Hearings to determine whether the Bankruptcy Court will approve the Joint Plan were held in June, September and October of 2009 and closing arguments on confirmation were held in January 2010.

Grace believes that the Joint Plan complies with the requirements for confirmation under the Bankruptcy Code and Grace intends to vigorously defend the Joint Plan against these and all other objections. If certain objections were resolved adversely to Grace and the other Joint Plan proponents, or if rulings by the Bankruptcy Court resolving certain objections favorably to the Joint Plan proponents were appealed, certain conditions to the Joint Plan, including for example, payments pursuant to the Sealed Air Settlement and the Fresenius Settlement, might not be satisfied and potential lenders might not be willing to provide the new financing that Grace requires to fund the Joint Plan. The resolution of these objections and any related appeals could have a material effect on the terms and timing of Grace's emergence from Chapter 11.

The Joint Plan is designed to address all pending and future asbestos-related claims and demands and all other pre-petition claims as outlined respectively therein. However, it is possible that the Joint Plan will not be confirmed by the Bankruptcy Court, or become effective if it is confirmed. If the Joint Plan is not confirmed by the Bankruptcy Court or the District Court or does not become effective, the Debtors would expect to resume the estimation trial, which was suspended in April 2008 due to the PI Settlement, to determine the amount of its asbestos-related liabilities. Under those circumstances, a different plan of reorganization may ultimately be confirmed and become effective. Under a different plan of reorganization, the interests of holders of Company common stock could be substantially diluted or cancelled. The value of Company common stock following the effective date of any plan of reorganization and the extent of any recovery by non-asbestos-related creditors would depend principally on the amount of Debtors' asbestos-related liability under such effective plan of reorganization.

Table of Contents

**Notes to Consolidated Financial Statements (Continued)**

**2. Chapter 11 Information (Continued)**

**Joint Plan of Reorganization** Under the terms of the Joint Plan, claims under the Chapter 11 Cases would be satisfied as follows:

*Asbestos-Related Personal Injury Claims*

All pending and future asbestos-related personal injury claims and demands ("PI Claims") would be channeled to the PI Trust for resolution. The PI Trust would use specified trust distribution procedures to satisfy allowed PI Claims.

The PI Trust would be funded with:

\$250 million in cash plus interest thereon from January 1, 2009 to the effective date of the Joint Plan to be paid by Grace;

Cash in the amount of the PD Initial Payment (as described below) and the ZAI Initial Payment (as described below) to be paid by Grace;

A warrant to acquire 10 million shares of Company common stock at an exercise price of \$17.00 per share, expiring one year from the effective date of the Joint Plan;

Rights to all proceeds under all of the Debtors' insurance policies that are available for payment of PI Claims;

Cash in the amount of \$512.5 million plus interest thereon from December 21, 2002 to the effective date of the Joint Plan at a rate of 5.5% per annum to be paid by Cryovac reduced by the amount of Cryovac's contribution to the PD Initial Payment and the ZAI Initial Payment (as described below) and 18 million shares of Sealed Air common stock to be paid by Cryovac pursuant to the Sealed Air Settlement;

Cash in the amount of \$115 million to be paid by Fresenius pursuant to the Fresenius Settlement reduced by the amount of Fresenius' contribution to the PD Initial Payment and ZAI Initial Payment (as described below); and

Deferred payments by Grace of \$110 million per year for five years beginning in 2019, and \$100 million per year for 10 years beginning in 2024, that would be subordinate to any bank debt or bonds outstanding, guaranteed by the Company and secured by the Company's obligation to issue 50.1% of its outstanding common stock (measured as of the effective date of the Joint Plan) to the PI Trust in the event of default.

*Asbestos-Related Property Damage Claims*

All pending and future asbestos-related property damage claims and demands ("PD Claims") would be channeled to the PD Trust for resolution. The PD Trust would contribute CDN\$8.6 million to a separate Canadian ZAI PD Claims fund through which Canadian ZAI PD Claims would be resolved. The PD Trust would generally resolve U.S. ZAI PD Claims that qualify for payment by paying 55% of the claimed amount, but in no event would the PD Trust pay more per claim than 55% of \$7,500 (as adjusted for inflation each year after the fifth anniversary of the effective date of the Joint Plan). The PD Trust would satisfy other allowed PD Claims pursuant to specified trust distribution procedures with cash payments in the allowed settlement amount. Unresolved PD Claims and future PD claims would be litigated pursuant to procedures to be approved by the Bankruptcy Court and, to the extent such claims were determined to be allowed claims, would be paid in cash by the PD Trust in the amount determined by the Bankruptcy Court.

Table of Contents

**Notes to Consolidated Financial Statements (Continued)**

**2. Chapter 11 Information (Continued)**

The PD Trust would contain two accounts, the PD account and the ZAI PD account. U.S. ZAI PD Claims would be paid from the ZAI PD account and other PD Claims would be paid from the PD account. The separate Canadian ZAI PD Claims would be paid by a separate fund established in Canada. Each account would have a separate trustee and the assets of the accounts would not be commingled. The two accounts would be funded as follows:

The PD account would be funded with:

Approximately \$147 million in cash plus cash in the amount of the estimated first six months of PD Trust expenses, to be paid by Cryovac and Fresenius (the "PD Initial Payment"), and CDN\$8.6 million in cash to be paid by Grace pursuant to the Amended Settlement.

A Grace obligation (the "PD Obligation") providing for a payment to the PD Trust every six months in the amount of the non-ZAI PD Claims allowed during the preceding six months plus interest and, except for the first six months, the amount of PD Trust expenses for the preceding six months. The aggregate amount to be paid under the PD Obligation would not be capped.

The ZAI PD account would be funded as follows (the "ZAI Assets"):

\$30 million in cash plus interest from April 1, 2009 to the effective date, to be paid by Cryovac and Fresenius (the "ZAI Initial Payment").

\$30 million in cash on the third anniversary of the effective date of the Joint Plan, to be paid by Grace.

A Grace obligation providing for the payment of up to 10 contingent deferred payments of \$8 million per year during the 20-year period beginning on the fifth anniversary of the effective date of the Joint Plan, with each such payment due only if the ZAI Assets fall below \$10 million during the preceding year.

All payments to the PD Trust that were not to be paid on the effective date of the Joint Plan would be secured by the Company's obligation to issue 50.1% of its outstanding common stock (measured as of the effective date of the Joint Plan) to the PD Trust in the event of default. Grace would have the right to conduct annual audits of the books, records and claim processing procedures of the PD Trust.

*Other Claims*

All allowed administrative claims would be paid in cash and all allowed priority claims would be paid in cash with interest. Secured claims would be paid in cash with interest or by reinstatement. Allowed general unsecured claims would be paid in cash, including any post-petition interest as follows: (i) for holders of pre-petition bank credit facilities, post-petition interest at the rate of 6.09% from the Filing Date through December 31, 2005 and thereafter at floating prime, in each case compounded quarterly; and (ii) for all other unsecured claims that are not subject to a settlement agreement providing otherwise, interest at 4.19% from the Filing Date, compounded annually, or if pursuant to an existing contract, interest at the non-default contract rate. The general unsecured creditors that hold pre-petition bank debt have asserted that they are entitled to post-petition interest at the default rate specified under the terms of the underlying credit agreements which, if paid, would be approximately an additional \$110 million. Grace has asserted that such creditors are not entitled to interest at the default rate and has requested the Bankruptcy Court to determine the

Table of Contents

**Notes to Consolidated Financial Statements (Continued)**

**2. Chapter 11 Information (Continued)**

appropriate rate at which interest would be payable. Unsecured employee-related claims such as pension, retirement medical obligations and workers compensation claims, would be reinstated.

*Effect on Company Common Stock*

The Joint Plan assumes that Company common stock will remain outstanding at the effective date of the Joint Plan, but that the interests of existing shareholders would be subject to dilution by additional shares of Company common stock issued under the warrant or in the event of default in respect of the deferred payment obligations to the PI Trust or the PD Trust under the Company's security obligation.

In order to preserve significant tax benefits which are subject to elimination or limitation in the event of a change in control (as defined by the Internal Revenue Code) of Grace, the Joint Plan provides that under certain circumstances, the Board of Directors would have the authority to impose restrictions on the transfer of Grace stock with respect to certain 5% shareholders. These restrictions will generally not limit the ability of a person that holds less than 5% of Grace stock after emergence to either buy or sell stock on the open market. In addition, the Bankruptcy Court has approved trading restrictions on Grace common stock until the effective date of a plan of reorganization. These restrictions prohibit (without the consent of Grace) a person from acquiring more than 4.75% of the outstanding Grace common stock or, for any person already holding more than 4.75%, from increasing such person's holdings. This summary of the stock transfer restrictions does not purport to be complete and is qualified in its entirety by reference to the order of the Bankruptcy Court, which has been filed with the SEC.

**Claims Filings** The Bankruptcy Court established a bar date of March 31, 2003 for claims of general unsecured creditors, PD Claims (other than ZAI PD Claims) and medical monitoring claims related to asbestos. The bar date did not apply to PI Claims or claims related to ZAI PD Claims.

Approximately 14,900 proofs of claim were filed by the March 31, 2003 bar date. Of these claims, approximately 9,500 were non-asbestos related, approximately 4,400 were PD Claims, and approximately 1,000 were for medical monitoring. The medical monitoring claims were made by individuals who allege exposure to asbestos through Grace's products or operations. Under the Joint Plan, these claims would be channeled to the PI Trust for resolution. In addition, approximately 800 proofs of claim were filed after the bar date.

Approximately 6,675 non-asbestos related claims were filed by employees or former employees (the "Employee Claims") for benefits arising from Grace's existing plans, programs, and policies regarding employee bonuses and other compensation, indemnity agreements or various medical, insurance, severance, retiree and other benefits (collectively, the "Grace Benefit Programs"). On July 3, 2010, the Bankruptcy Court entered an order disallowing the Employee Claims because: (i) Grace has continued to pay its Grace Benefit Programs obligations during the Chapter 11 Cases and intends to do so for the remainder of the Chapter 11 Cases and thereafter; and (ii) pursuant to the Joint Plan, Grace is assuming its obligations under the Grace Benefit Programs and will continue to pay all such obligations pursuant to the terms and conditions of the applicable Grace Benefit Programs. The omnibus objection to Employee Claims does not address an additional approximately 270 claims filed by employees and former employees. These remaining employee-related claims will be addressed through the claim objection process and the dispute resolution procedures approved by the Bankruptcy Court.

Table of Contents**Notes to Consolidated Financial Statements (Continued)****2. Chapter 11 Information (Continued)**

The remaining non-asbestos, non-employee related claims include claims for payment of goods and services, taxes, product warranties, principal and interest under pre-petition credit facilities, amounts due under leases and other contracts, leases and other executory contracts rejected in the Chapter 11 Cases, environmental remediation, pending non-asbestos-related litigation, and non-asbestos-related personal injury. The Debtors analyzed the claims filed pursuant to the March 31, 2003 bar date and found that many are duplicates, represent the same claim filed against more than one of the Debtors, lack any supporting documentation, or provide insufficient supporting documentation. As of June 30, 2010, of the approximately 4,335 non-ZAI PD Claims filed, approximately 395 claims have been resolved, approximately 3,905 claims have been expunged, reclassified by the Debtors or withdrawn by claimants, leaving approximately 35 claims to be addressed through the property damage case management order approved by the Bankruptcy Court and/or the Joint Plan or another plan of reorganization. The claims remaining to be addressed include 16 asbestos property damage claims that had been expunged by a bankruptcy court order that was reversed by an order of the District Court on September 29, 2009. As of June 30, 2010, of the approximately 3,300 non-asbestos claims filed, approximately 1,910 have been expunged or withdrawn by claimants, approximately 1,180 have been resolved, and an additional approximately 210 claims are to be addressed through the claim objection process and the dispute resolution procedures approved by the Bankruptcy Court.

Additionally, by order dated June 17, 2008, the Bankruptcy Court established October 31, 2008 as the bar date for ZAI PD Claims related to property located in the U.S. As of June 30, 2010, approximately 19,260 US ZAI PD Claims have been filed. In addition, on October 21, 2008, the Bankruptcy Court entered an order establishing August 31, 2009 as the bar date for ZAI PD Claims related to property located in Canada. Under the Amended Settlement, notwithstanding the Canadian ZAI PD Claims Bar Date of August 31, 2009, all Canadian ZAI PD Claimants who have filed a proof of claim by December 31, 2009, shall be entitled to seek compensation from the Canadian ZAI PD Claims Fund to be established pursuant to the Amended Settlement. As of June 30, 2010, approximately 14,100 Canadian ZAI PD Claims have been filed. The Joint Plan provides for the channeling of US ZAI PD Claims and Canadian ZAI PD Claims to the Asbestos PD Trust created under the Joint Plan, and the subsequent transfer of Canadian ZAI PD Claims to a Canadian fund. No bar date has been set for personal injury claims related to ZAI. The Joint Plan provides that ZAI PI Claims would be channeled to the Asbestos PI Trust created under the Joint Plan.

Grace is continuing to analyze and review unresolved claims in relation to the Joint Plan. Grace believes that its recorded liabilities for claims subject to the March 31, 2003 bar date represent a reasonable estimate of the ultimate allowable amount for claims that are not in dispute or have been submitted with sufficient information to both evaluate the merit and estimate the value of the claim. The PD Claims are considered as part of Grace's overall asbestos liability and are being accounted for in accordance with the conditions precedent under the Prior Plan, as described in Note 3.

**Debt Capital** All of the Debtors' pre-petition debt is in default due to the Filing. The accompanying Consolidated Balance Sheets reflect the classification of the Debtors' pre-petition debt within "liabilities subject to compromise."

On March 2, 2010, Grace terminated its debtor-in-possession (DIP) facility and replaced it with a \$100 million cash-collateralized letter of credit facility with a commercial bank to support existing and new financial assurances.

Table of Contents

**Notes to Consolidated Financial Statements (Continued)**

**2. Chapter 11 Information (Continued)**

**Accounting Impact** The accompanying Consolidated Financial Statements have been prepared in accordance with FASB ASC 852, "Financial Reporting by Entities in Reorganization Under the Bankruptcy Code". ASC 852 requires that financial statements of debtors-in-possession be prepared on a going concern basis, which contemplates continuity of operations and realization of assets and liquidation of liabilities in the ordinary course of business. However, as a result of the Filing, the realization of certain of the Debtors' assets and the liquidation of certain of the Debtors' liabilities are subject to significant uncertainty. While operating as debtors-in-possession, the Debtors may sell or otherwise dispose of assets and liquidate or settle liabilities for amounts other than those reflected in the Consolidated Financial Statements. Further, the ultimate plan of reorganization could materially change the amounts and classifications reported in the Consolidated Financial Statements.

Pursuant to ASC 852, Grace's pre-petition and future liabilities that are subject to compromise are required to be reported separately on the balance sheet at an estimate of the amount that will ultimately be allowed by the Bankruptcy Court. As of June 30, 2010, such pre-petition liabilities include fixed obligations (such as debt and contractual commitments), as well as estimates of costs related to contingent liabilities (such as asbestos-related litigation, environmental remediation and other claims). Obligations of Grace subsidiaries not covered by the Filing continue to be classified on the Consolidated Balance Sheets based upon maturity dates or the expected dates of payment. ASC 852 also requires separate reporting of certain expenses, realized gains and losses, and provisions for losses related to the Filing as reorganization items. Grace presents reorganization items as "Chapter 11 expenses, net of interest income," a separate caption in its Consolidated Statements of Operations.

As discussed in Note 3, Grace has not adjusted its accounting for asbestos-related assets or liabilities to reflect the Joint Plan.

Grace has not recorded the benefit of any assets that may be available to fund asbestos-related and other liabilities under the Fresenius Settlement and the Sealed Air Settlement, as under the Joint Plan, these assets will be transferred to the PI Trust and the PD Trust. The estimated fair value available under the Fresenius Settlement and the Sealed Air Settlement as measured at June 30, 2010, was \$1,236.9 million comprised of \$115.0 million in cash from Fresenius and \$1,121.9 million in cash and stock from Cryovac under the Joint Plan. Payments under the Sealed Air Settlement will be made directly to the PI Trust and the PD Trust by Cryovac.

Grace's Consolidated Balance Sheets separately identify the liabilities that are "subject to compromise" as a result of the Chapter 11 proceedings. In Grace's case, "liabilities subject to compromise" represent both pre-petition and future liabilities as determined under U.S. GAAP. Changes to pre-petition liabilities subsequent to the Filing Date reflect: (1) cash payments under approved court orders; (2) the terms of the Prior Plan, as discussed above and in Note 3, including the accrual of interest on pre-petition debt and other fixed obligations; (3) accruals for employee-related programs; and (4) changes in estimates related to other pre-petition contingent liabilities. The accounting for the asbestos-related liability component of "liabilities subject to compromise" is described in Note 3.

Table of Contents**Notes to Consolidated Financial Statements (Continued)****2. Chapter 11 Information (Continued)**

Components of liabilities subject to compromise are as follows:

<b>(In millions)</b>	<b>June 30, 2010</b>	<b>December 31, 2009</b>
Asbestos-related contingencies	\$ 1,700.0	\$ 1,700.0
Pre-petition bank debt plus accrued interest	864.3	850.6
Environmental contingencies	145.4	148.4
Income tax contingencies	102.6	117.9
Unfunded special pension arrangements	115.8	111.0
Postretirement benefits other than pension	71.2	69.3
Drawn letters of credit plus accrued interest	32.1	31.4
Accounts payable	31.2	31.2
Retained obligations of divested businesses	27.7	29.1
Other accrued liabilities	73.3	67.3
Reclassification to current liabilities(1)	(10.4)	(9.1)
<b>Total Liabilities Subject to Compromise</b>	<b>\$ 3,153.2</b>	<b>\$ 3,147.1</b>

---

(1)

As of June 30, 2010 and December 31, 2009, approximately \$10.4 million and \$9.1 million, respectively, of certain pension and postretirement benefit obligations subject to compromise have been presented in other current liabilities in the Consolidated Balance Sheets in accordance with ASC 715.

Note that the unfunded special pension arrangements reflected above exclude non-U.S. pension plans and qualified U.S. pension plans that became underfunded subsequent to the Filing. Contributions to qualified U.S. pension plans are subject to Bankruptcy Court approval.

Table of Contents**Notes to Consolidated Financial Statements (Continued)****2. Chapter 11 Information (Continued)*****Change in Liabilities Subject to Compromise***

The following table is a reconciliation of the changes in pre-filing date liability balances for the period from the Filing Date through June 30, 2010.

<b>(In millions) (Unaudited)</b>	<b>Cumulative Since Filing</b>
Balance, Filing Date April 2, 2001	\$ 2,366.0
<b>Cash disbursements and/or reclassifications under Bankruptcy Court orders:</b>	
Payment of environmental settlement liability	(252.0)
Freight and distribution order	(5.7)
Trade accounts payable order	(9.1)
Resolution of contingencies subject to Chapter 11	(130.0)
Other court orders for payments of certain operating expenses	(340.2)
<b>Expense/(income) items:</b>	
Interest on pre-petition liabilities	451.7
Employee-related accruals	91.7
Provision for asbestos-related contingencies	744.8
Provision for environmental contingencies	331.1
Provision for income tax contingencies	(59.0)
Balance sheet reclassifications	(36.1)
<b>Balance, end of period</b>	<b>\$ 3,153.2</b>

Additional liabilities subject to compromise may arise due to the rejection of executory contracts or unexpired leases, or as a result of the Bankruptcy Court's allowance of contingent or disputed claims.

For the holders of pre-petition bank credit facilities, beginning January 1, 2006, Grace agreed to pay interest on pre-petition bank debt at the prime rate, adjusted for periodic changes, and compounded quarterly. The effective rate for the six month periods ended June 30, 2010 and 2009 was 3.25%. From the Filing Date through December 31, 2005, Grace accrued interest on pre-petition bank debt at a negotiated fixed annual rate of 6.09%, compounded quarterly. The general unsecured creditors that hold pre-petition bank credit facilities have asserted that they are entitled to post-petition interest at the default rate specified under the terms of the underlying credit agreements which, if paid, would be approximately \$110 million greater than the interest currently accrued. Grace has asserted that such creditors are not entitled to interest at the default rate and has requested the Bankruptcy Court to determine the appropriate rate at which interest would be payable.

For the holders of claims who, but for the Filing, would be entitled under a contract or otherwise to accrue or be paid interest on such claim in a non-default (or non-overdue payment) situation under applicable non-bankruptcy law, Grace accrues interest at the rate provided in the contract between the Grace entity and the claimant or such rate as may otherwise apply under applicable non-bankruptcy law.

For all other holders of allowed general unsecured claims, Grace accrues interest at a rate of 4.19% per annum, compounded annually, unless otherwise negotiated during the claim settlement process.

In addition to Grace's financial reporting obligations as prescribed by the SEC, the Debtors are also required, under the rules and regulations of the Bankruptcy Code, to periodically file certain statements and schedules and a monthly operating report with the Bankruptcy Court. This information is available to the public through the Bankruptcy Court. This information is prepared in a format that may not be comparable to information in Grace's quarterly and annual financial

Table of Contents

**Notes to Consolidated Financial Statements (Continued)**

**2. Chapter 11 Information (Continued)**

statements as filed with the SEC. The monthly operating reports are not audited, do not purport to represent the financial position or results of operations of Grace on a consolidated basis, and should not be relied on for such purposes.

**3. Asbestos-Related Litigation**

Grace is a defendant in property damage and personal injury lawsuits relating to previously sold asbestos-containing products. As of the Filing Date, Grace was a defendant in 65,656 asbestos-related lawsuits, 17 involving claims for property damage (one of which has since been dismissed), and the remainder involving 129,191 claims for personal injury. Due to the Filing, holders of asbestos-related claims are stayed from continuing to prosecute pending litigation and from commencing new lawsuits against the Debtors. The PI and PD Committees, representing the interests of asbestos personal injury and asbestos property damage claimants, respectively, and the PI FCR and PD FCR, representing the interests of future asbestos personal injury and property damage claimants, respectively, have been appointed in the Chapter 11 Cases. Grace's obligations with respect to present and future claims will be determined through the Chapter 11 process.

**Property Damage Litigation** The plaintiffs in asbestos property damage lawsuits generally seek to have the defendants pay for the cost of removing, containing or repairing the asbestos-containing materials in the affected buildings. Various factors can affect the merit and value of PD Claims, including legal defenses, product identification, the amount and type of product involved, the age, type, size and use of the building, the legal status of the claimant, the jurisdictional history of prior cases, the court in which the case is pending, and the difficulty of asbestos abatement, if necessary.

Out of 380 asbestos property damage cases (which involved thousands of buildings) filed prior to the Filing Date, 140 were dismissed without payment of any damages or settlement amounts; judgments after trial were entered in favor of Grace in nine cases; judgments after trial were entered in favor of the plaintiffs in eight cases for a total of \$86.1 million; 207 property damage cases were settled for a total of \$696.8 million; and 16 cases remain outstanding (including the one on appeal). Of the 16 remaining cases, eight relate to ZAI and eight relate to a number of former asbestos-containing products (two of which also are alleged to involve ZAI).

Approximately 4,300 additional PD claims were filed prior to the March 31, 2003 claims bar date established by the Bankruptcy Court. (The bar date did not apply to ZAI claims.) Grace objected to virtually all PD claims on a number of different bases, including: no authorization to file a claim; the claim was previously settled or adjudicated; no or insufficient documentation; failure to identify a Grace product; the expiration of the applicable statute of limitations and/or statute of repose, and/or laches; and a defense that the product in place is not hazardous. As of June 30, 2010, following the reclassification, withdrawal or expungement of claims, approximately 430 PD Claims subject to the March 31, 2003 bar date remain outstanding. The Bankruptcy Court has approved settlement agreements covering approximately 395 of such claims for an aggregate allowed amount of \$147 million.

Eight of the ZAI cases were filed as purported class action lawsuits in 2000 and 2001. In addition, 10 lawsuits were filed as purported class actions in 2004 and 2005 with respect to persons and homes in Canada. These cases seek damages and equitable relief, including the removal, replacement and/or disposal of all such insulation. The plaintiffs assert that this product is in millions

Table of Contents

**Notes to Consolidated Financial Statements (Continued)**

**3. Asbestos-Related Litigation (Continued)**

of homes and that the cost of removal could be several thousand dollars per home. As a result of the Filing, the eight U.S. cases have been stayed.

Based on Grace's investigation of the claims described in these lawsuits, and testing and analysis of this product by Grace and others, Grace believes that ZAI was and continues to be safe for its intended purpose and poses little or no threat to human health. The plaintiffs in the ZAI lawsuits dispute Grace's position on the safety of ZAI. In October, 2004, the Bankruptcy Court held a hearing on motions filed by the parties to address a number of important legal and factual issues regarding the ZAI claims. In December, 2006, the Bankruptcy Court issued an opinion and order holding that, although ZAI is contaminated with asbestos and can release asbestos fibers when disturbed, there is no unreasonable risk of harm from ZAI. The ZAI claimants sought an interlocutory appeal of the opinion and order with the District Court, but that request was denied. In the event the Joint Plan is not confirmed, the ZAI claimants have reserved their right to appeal such opinion and order if and when it becomes a final order.

At the Debtors' request, in July 2008, the Bankruptcy Court established a bar date for U.S. ZAI PD Claims and approved a related notice program that required any person with a U.S. ZAI PD Claim to submit an individual proof of claim no later than October 31, 2008. Approximately 17,960 U.S. ZAI PD Claims were filed prior to the October 31, 2008 claims bar date and, as of June 30, 2010 an additional 1,300 U.S. ZAI PD Claims were filed. As described above, on December 13, 2009, the Ontario Superior Court of Justice, in the Grace Canada, Inc. proceeding pending under the Companies' Creditors Arrangement Act, approved the Amended Settlement that would settle all Canadian ZAI PD Claims on the terms of the Joint Plan. On October 20, 2008, the Bankruptcy Court established August 31, 2009 as the bar date for Canadian ZAI PD Claims. Approximately 13,100 Canadian ZAI PD Claims were filed prior to the bar date and, as of June 30, 2010, an additional 1,000 Canadian ZAI PD Claims were filed. Under the Amended Settlement, all Canadian ZAI PD Claims filed before December 31, 2009 would be eligible to seek compensation from the Canadian ZAI property damage claims fund.

As described in Note 2, on November 21, 2008, the Debtors, the Putative Class Counsel to the U.S. ZAI property damage claimants, the PD FCR, and the Equity Committee reached an agreement in principle designed to resolve all present and future U.S. ZAI PD Claims. The terms of the U.S. and Canadian ZAI agreements in principle have been incorporated into the terms of the Joint Plan and related documents. As described below, Grace's recorded asbestos related liability does not include the agreements in principle to settle the ZAI liability that is part of the Joint Plan. The asbestos related liability at June 30, 2010, which is based on the Prior Plan, assumes the risk of loss from ZAI litigation is not probable. If the Joint Plan or another plan of reorganization reflecting the agreements in principle is not confirmed or does not become effective and Grace's view as to risk of loss from ZAI litigation is not sustained, Grace believes the cost to resolve the U.S. ZAI litigation may be material.

**Personal Injury Litigation** Asbestos personal injury claimants allege adverse health effects from exposure to asbestos-containing products formerly manufactured by Grace. Historically, Grace's cost to resolve such claims has been influenced by numerous variables, including the nature of the disease alleged, product identification, proof of exposure to a Grace product, negotiation factors, the solvency of other former producers of asbestos containing products, cross-claims by co-defendants, the rate at which new claims are filed, the jurisdiction in which the claims are filed, and the defense and disposition costs associated with these claims.

Table of Contents**Notes to Consolidated Financial Statements (Continued)****3. Asbestos-Related Litigation (Continued)**

Cumulatively through the Filing Date, 16,354 asbestos personal injury lawsuits involving approximately 35,720 PI Claims were dismissed without payment of any damages or settlement amounts (primarily on the basis that Grace products were not involved) and approximately 55,489 lawsuits involving approximately 163,698 PI Claims were disposed of (through settlements and judgments) for a total of \$645.6 million. As of the Filing Date, 129,191 PI Claims were pending against Grace. Grace believes that a substantial number of additional PI Claims would have been received between the Filing Date and June 30, 2010 had such PI Claims not been stayed by the Bankruptcy Court.

The Bankruptcy Court has entered a case management order for estimating liability for pending and future PI Claims. A trial for estimating liability for PI Claims began in January 2008 but was suspended in April 2008 as a result of the PI Settlement.

**Asbestos-Related Liability** The asbestos-related liability as of June 30, 2010 and December 31, 2009, including pre-Filing Date and post-Filing Date settlements, was \$1,700 million and is included in "liabilities subject to compromise" in the accompanying Consolidated Balance Sheets. Grace adjusted its asbestos-related liability in the fourth quarter of 2004 based on the filing of the Prior Plan. The Prior Plan contained a condition precedent that the Bankruptcy Court determine that \$1,613 million (this amount, plus \$87 million of prepetition settlements and judgments, "the Funding Amount") was sufficient to pay, on a net present value basis, all PI Claims and PD Claims entitled to payment and related trust administration costs and expenses. Therefore, prior to the PI Settlement, the U.S. and Canadian ZAI agreements in principle and the filing of the Joint Plan, Grace was prepared to settle its asbestos-related claims at the Funding Amount as part of a consensual plan of reorganization and recorded its asbestos-related liability on that basis. The treatment of asbestos-related liabilities is significantly different under the Joint Plan than under the Prior Plan. Grace has not adjusted its accounting for asbestos-related liabilities to reflect the Joint Plan. At this time, Grace is unable to determine a reasonable estimate of the value of certain consideration payable to the PI Trust and the PD Trust under the Joint Plan. These values will ultimately be determined on the effective date of the Joint Plan. Grace expects to adjust its accounting for the Joint Plan when the consideration can be measured and material conditions to the Joint Plan are satisfied. Grace expects that such adjustments may be material to Grace's consolidated financial position and results of operations.

If the Joint Plan is not confirmed by the Bankruptcy Court, the Debtors would expect to resume the estimation trial, which was suspended in April 2008 due to the PI Settlement, to determine the amount of its asbestos-related liabilities. Through the PI Claim estimation process and the continued adjudication of PD Claims, Grace would seek to demonstrate that most claims have no value because they fail to establish any significant property damage, health impairment or occupational exposure to asbestos from Grace's operations or products. If the Bankruptcy Court agreed with Grace's position on the number of, and the amounts to be paid in respect of, allowed PI Claims and PD Claims, then Grace believes that the Funding Amount could be lower than \$1,700 million. However, this outcome would be highly uncertain and would depend on a number of Bankruptcy Court rulings favorable to Grace's position. Conversely, the PI and PD Committees and the PI FCR have asserted that Grace's asbestos-related liabilities are substantially higher than \$1,700 million, and in fact are in excess of Grace's business value. If the Bankruptcy Court accepted the position of the PI and PD Committees and the PI FCR, then any plan of reorganization likely would result in the loss of all or substantially all equity value by current shareholders.

Table of Contents

**Notes to Consolidated Financial Statements (Continued)**

**3. Asbestos-Related Litigation (Continued)**

**Insurance Rights** Grace holds insurance policies that provide coverage for 1962 to 1985 with respect to asbestos-related lawsuits and claims. For the most part, coverage for years 1962 through 1972 has been exhausted, leaving coverage for years 1973 through 1985 available for pending and future asbestos claims. Since 1985, insurance coverage for asbestos-related liabilities has not been commercially available to Grace. As discussed in Note 2, pursuant to the Joint Plan, rights to insurance policies that provide coverage for asbestos-related claims and proceeds, including interest, received after the date of the PI Settlement, would be assigned to the PI Trust.

For each insurance year, Grace's coverage consists of both primary and excess coverage. Primary coverage for an insurance year generally reimburses Grace for the portion of paid claims allocated to that year starting at the first dollar paid (after any deductible) through the coverage limit. With one exception, coverage disputes regarding Grace's primary insurance policies have been settled, and the settlement amounts have been paid in full. Excess insurance generally reimburses Grace for claims paid above a specified policy threshold through the coverage limit. For each insurance year, Grace's insurance program includes multiple layers of excess coverage. A layer of excess coverage, which may include multiple insurers, is triggered once claim payments that can be assigned to that insurance year are paid up to the threshold of that layer.

Grace has entered into settlement agreements, which are not dependent upon the effectiveness of the Joint Plan, with various excess insurance carriers. These settlements involve amounts paid and to be paid to Grace. The unpaid maximum aggregate amount available under these settlement agreements is approximately \$487 million. With respect to asbestos-related personal injury claims, these settlement agreements generally require that the claims be spread over the claimant's exposure period and that each insurer pay a pro rata portion of each claim based on the amount of coverage provided during each year of the total exposure period.

Excluding settlement agreements that are dependent upon the effectiveness of the Joint Plan, Grace has no agreements in place with insurers with respect to approximately \$483 million of excess coverage. Such policies are at layers of coverage that have not been triggered, but certain layers would be triggered if the Prior Plan became effective at the recorded asbestos-related liability of \$1,700 million. In estimating its ultimate insurance recovery, Grace has assumed that its unsettled excess coverage would be available on terms that are substantially similar to the existing settlement agreements described above. Unless the Joint Plan becomes effective and asbestos-related insurance rights are assigned to the PI Trust, Grace believes that any allowed ZAI claims also would be covered under the policies discussed above to the extent they relate to installations of ZAI occurring after July 1, 1973.

In addition, Grace has approximately \$253 million of excess coverage with insolvent or non-paying insurance carriers. Non-paying carriers are those that, although technically solvent, are not currently meeting their obligations to pay claims. Grace has filed and continues to file claims in the insolvency proceedings of these carriers. Grace periodically receives distributions from some of these insolvent carriers.

Grace has entered into settlement agreements, which are dependent upon the effectiveness of the Joint Plan, with underwriters of a portion of Grace's excess insurance coverage. Under these agreements, the insurers have agreed, subject to certain conditions, to pay to the PI Trust (directly or through an escrow arrangement) an aggregate of approximately \$232 million in respect of claims for which Grace was provided coverage under the affected policies. Certain other insurers have agreed, subject to certain conditions, to reimburse the PI Trust on terms that are substantially similar

Table of Contents**Notes to Consolidated Financial Statements (Continued)****3. Asbestos-Related Litigation (Continued)**

to the existing settlement agreements described above. Due to the open contingencies in these settlement agreements, Grace has not recorded this amount or reduced its asbestos insurance receivable balance.

As of June 30, 2010, excluding the effect of settlements that are dependent upon the effectiveness of the Joint Plan and after subtracting previous reimbursements by insurers and allowing for discounts pursuant to certain settlement agreements that are not dependent upon the effectiveness of the Joint Plan, there remains approximately \$970 million of excess coverage from 54 presently solvent insurers. Grace estimates that eligible claims would have to exceed \$4 billion to access total coverage.

Grace estimates that under the Prior Plan, assuming the resolution value of asbestos-related claims is equal to the recorded liability of \$1,700 million (which should fund claim payments in excess of \$2 billion), Grace should be entitled to approximately \$500 million of insurance recovery. This amount was determined by estimating the aggregate and per year payout for claims over time and applying the expected insurance recovery factor to such claims. However, the ultimate amount of insurance recovered on such claims will depend on a number of factors that will only be determined at the time claims are paid including: the nature of the claim, the relevant exposure years, the timing of payment, the solvency of insurers and the legal status of policy rights. Accordingly, Grace's estimate of insurance recovery under the Prior Plan may differ materially from actual amounts that ultimately may be received by Grace. Under the Joint Plan, these insurance rights will be assigned to the PI Trust.

**4. Inventories**

Inventories are stated at the lower of cost or market, and cost is determined using FIFO. Inventories consisted of the following at June 30, 2010 and December 31, 2009:

<b>(In millions)</b>	<b>June 30, 2010</b>	<b>December 31, 2009</b>
Raw materials	\$ 58.9	\$ 48.8
In process	30.6	36.8
Finished products	123.8	104.6
Other	31.2	30.4
	<b>\$ 244.5</b>	<b>\$ 220.6</b>

Table of Contents**Notes to Consolidated Financial Statements (Continued)****5. Debt****Components of Debt**

<b>(In millions)</b>	<b>June 30, 2010</b>	<b>December 31, 2009</b>
<b>Debt payable within one year</b>	<b>\$ 5.4</b>	<b>\$ 10.8</b>
<b>Debt payable after one year</b>		
Other long-term borrowings	<b>\$ 0.6</b>	<b>\$ 0.4</b>
<b>Debt Subject to Compromise</b>		
Bank borrowings	<b>\$ 500.0</b>	<b>\$ 500.0</b>
Accrued interest on bank borrowings	<b>364.3</b>	<b>350.6</b>
Drawn letters of credit	<b>25.8</b>	<b>25.8</b>
Accrued interest on drawn letters of credit	<b>6.3</b>	<b>5.6</b>
	<b>\$ 896.4</b>	<b>\$ 882.0</b>
Weighted average interest rates on total debt	<b>3.5%</b>	<b>3.4%</b>

On March 2, 2010, Grace terminated its debtor-in-possession (DIP) facility and replaced it with a \$100 million cash-collateralized letter of credit facility to support existing and new financial assurances. The terminated DIP facility also provided credit support for foreign currency and commodity derivatives. The asset backed arrangement of the DIP facility has been replaced with cash collateral accounts which secure the obligations arising from letters of credit, foreign currency and commodity transactions. At June 30, 2010, Grace held \$81.5 million in restricted cash and cash equivalents primarily to support this facility. As of June 30, 2010, the Debtors had no revolving loans and had \$71.0 million of standby letters of credit issued and outstanding under the facility.

At June 30, 2010, the fair value of Grace's debt payable within one year not subject to compromise approximated the recorded value of \$5.4 million. Fair value is determined based on expected future cash flows (discounted at market interest rates), quotes from financial institutions and other appropriate valuation methodologies. At June 30, 2010, the carrying value of Grace's bank debt subject to compromise plus interest was \$896.4 million. The estimated fair value of the bank debt is lower than the carrying value; however, because such debt is subject to compromise in Grace's Chapter 11 proceeding, neither carrying values nor market values may reflect ultimate liquidation value.

**6. Fair Value Measurements**

Certain of Grace's assets and liabilities are reported at fair value. ASC 820 defines fair value as the value that would be received at the measurement date in the principal or "most advantageous" market. Grace uses principal market data, whenever available, to value assets and liabilities that are required to be reported at fair value.

Grace has identified the following financial assets and liabilities that are subject to the fair value analysis required by ASC 820:

*Fair Value of Debt and Other Financial Instruments*

See Note 5 for a discussion of the fair value of Grace's debt. At June 30, 2010, the recorded values of other financial instruments such as cash equivalents, short-term investments, and trade

Table of Contents

**Notes to Consolidated Financial Statements (Continued)**

**6. Fair Value Measurements (Continued)**

receivables and payables approximated their fair values, based on the short-term maturities and floating rate characteristics of these instruments.

*Derivatives*

Certain raw materials and energy sources are subject to price fluctuation. Grace hedges against volatility in certain raw material and energy purchases using financial instruments as appropriate. Grace also enters into long term supply agreements and/or forward commitments to secure materials at stable prices and in quantities fully expected to be used in production.

From time to time, Grace enters into commodity derivatives such as fixed-rate swaps with financial institutions to mitigate the risk of volatility of natural gas prices or other commodities. Under fixed-rate swaps, Grace locks in a fixed rate with a financial institution for future purchases, purchases its commodity from a supplier at the prevailing market rate, and then settles with the bank for any difference in the rates, thereby "swapping" a variable rate for a fixed rate.

Grace uses fixed-rate swaps to mitigate the risk of natural gas price volatility. The valuation of Grace's fixed-rate natural gas swaps was determined using a market approach, based on natural gas futures trading prices quoted on the New York Mercantile Exchange. Commodity fixed-rate swaps with maturities of not more than 12 months are used and designated as cash flow hedges of forecasted purchases of natural gas. Current open contracts hedge forecasted transactions until June 2011. The effective portion of the gain or loss on the commodity contracts is recorded in accumulated other comprehensive income (loss) and reclassified into income in the same period or periods that the underlying commodity purchase affects income. At June 30, 2010, the contract volume, or notional amount, of the commodity contracts was 2.5 million British thermal units (MMBtu).

Grace uses fixed-rate swaps to mitigate the risk of aluminum price volatility. The valuation of Grace's fixed-rate aluminum swaps was determined using a market approach, based on aluminum futures trading prices quoted on the London Metal Exchange. Commodity fixed-rate swaps with maturities of not more than 12 months are used and designated as cash flow hedges of forecasted purchases of aluminum. Current open contracts hedge forecasted transactions until June 2011. The effective portion of the gain or loss on the commodity contracts is recorded in accumulated other comprehensive income (loss) and reclassified into income in the same period or periods that the underlying commodity purchase affects income. At June 30, 2010, the contract volume, or notional amount, of the commodity contracts was 3.5 million pounds.

Because Grace does business in over 40 countries, results are exposed to fluctuations in currency exchange rates. Grace seeks to minimize exposure to these fluctuations by matching sales in volatile currencies with expenditures in the same currencies, but it is not always possible to do so. From time to time Grace will use financial instruments such as currency forward contracts, options, or combinations of the two to reduce the risk of certain specific transactions. However, Grace does not have a policy of hedging all exposures, because management does not believe that such a level of hedging would be cost-effective.

From time to time, Grace enters into currency exchange rate forward and/or option contracts to mitigate the effects of exchange rate fluctuations. The valuation of Grace's currency exchange rate forward contracts is determined using both a market approach and an income approach. Inputs used to value currency exchange rate forward contracts consist of: (1) spot rates, which are quoted by

Table of Contents**Notes to Consolidated Financial Statements (Continued)****6. Fair Value Measurements (Continued)**

various financial institutions; (2) forward points, which are primarily affected by changes in interest rates; and (3) discount rates used to present value future cash flows, which are based on the London Interbank Offered Rate (LIBOR) curve.

In November 2007, Grace purchased currency forward contracts to mitigate the effect of currency risk with respect to intercompany loans between its principal U.S. subsidiary and a German subsidiary. As of June 30, 2010, the total notional amount related to the remaining outstanding currency forward contracts was €247.8 million. These derivatives are not designated as hedging instruments under ASC 815.

The following tables present the fair value hierarchy for financial assets and liabilities measured at fair value on a recurring basis as of June 30, 2010 and December 31, 2009:

*Debt and Interest Rate Swap Agreements*

Grace was not a party to any debt or interest rate swaps at June 30, 2010 and December 31, 2009.

*Credit Risk*

Grace is exposed to credit risk in its trade accounts receivable. Customers in the petroleum refining and construction industries represent the greatest exposure. Grace's credit evaluation policies, relatively short collection terms and history of minimal credit losses mitigate credit risk exposures. Grace does not generally require collateral for its trade accounts receivable, but may

Table of Contents

**Notes to Consolidated Financial Statements (Continued)**

**6. Fair Value Measurements (Continued)**

require a bank letter of credit in certain instances, particularly when selling to customers in cash restricted countries.

Grace may also be exposed to credit risk in its derivatives contracts. Grace monitors counterparty credit risk and currently does not anticipate nonperformance by its derivatives counterparties. Grace's derivatives contracts are with internationally recognized commercial financial institutions.

**7. Income Taxes**

On February 18, 2010, the Joint Committee on Taxation of the U.S. Congress ("JCT") approved the settlement relating to the carryback of remaining NOLs from 1998 to the tax years 1990 through 1996. This resulted in a refund that is still being processed by the IRS. Grace recorded a tax benefit in the amount of \$16.9 million related to the settlement in March 2010. The recorded tax benefit included an estimate of interest payable to Grace that exceeds the IRS estimate by approximately \$4.7 million. Grace maintains that its calculation of the interest payable to Grace is correct and is in the process of filing a claim for the additional interest amount.

Upon receiving the JCT approval, Grace was able to reverse \$15.5 million of liabilities for uncertain tax positions. Although these uncertain tax positions arose in years subsequent to the years subject to the IRS settlement, they could have been challenged because of carryover tax attributes.

Grace accrues potential interest and any associated penalties related to uncertain tax positions in "benefit from (provision for) income taxes" in the Consolidated Statements of Operations. The total amount of interest and penalties accrued on uncertain tax positions was \$30.4 million (\$22.0 million net of applicable tax benefits) and \$69.8 million (\$48.3 million net of applicable tax benefits) as of June 30, 2010 and December 31, 2009, respectively. The total amount of interest and penalties expensed for the quarter ended June 30, 2010 was \$0.7 million (\$0.5 million net of applicable tax benefits).

Table of Contents**Notes to Consolidated Financial Statements (Continued)****7. Income Taxes (Continued)**

Grace files U.S. federal income tax returns as well as income tax returns in various states and foreign jurisdictions. In many cases, Grace's uncertain tax positions are related to income tax returns for tax years that remain subject to examination by the relevant taxing authorities. The following table summarizes these open tax years by major jurisdiction:

<b>Tax Jurisdiction(1)</b>	<b>Examination</b>	
	<b>Examination in Progress</b>	<b>Not Yet Initiated</b>
United States Federal	None	2006 - 2009
United States State	1993 - 2007	2008 - 2009
Germany	2006 - 2008	2009
United Kingdom	None	2003 - 2009
Singapore	None	2002 - 2009
France	None	2007 - 2009
Canada	2002 - 2005	2006 - 2009

(1)

Includes federal as well as state, provincial or local jurisdictions, as applicable.

As a large taxpayer, Grace is under continual audit by the various tax authorities on open-year tax positions. It is possible that the amount of the liability for unrecognized tax benefits could change in the next twelve months. As a result of examinations and settlements, Grace believes there may be a material change to Grace's aggregate recorded liabilities for uncertain tax positions in the next twelve months with respect to the following matters:

1.

In court decisions that only applied between the government and taxpayers other than Grace, certain tax benefits similar to those claimed by a non-U.S. subsidiary of Grace were denied. Notwithstanding these cases, Grace believes based on the statutes, administrative regulations and other case law existing at this time that the tax benefits claimed by its non-U.S. subsidiary should be sustained if challenged. It is reasonably possible, however, that such benefits would not be sustained. In such case, Grace estimates that the tax expense could range from \$22.9 million to \$50.2 million (including interest) and Grace would also expect to accelerate recognition of a deferred charge of \$14.6 million.

2.

As a result of the expected resolution of examination issues and settlements with U.S. federal and state tax authorities, Grace believes it is reasonably possible that the amount of unrecognized tax benefits would decrease during the next twelve months by up to \$20.4 million.

As of June 30, 2010, Grace has prior-year tax credit carryforwards of \$35.6 million consisting of \$16.1 million of foreign tax credit carryforwards with expiration dates beginning in 2012 through 2018, \$0.6 million of general business credit carryforwards with expiration dates through 2025 and \$18.9 million of alternative minimum tax credit carryforwards with no expiration dates. As of June 30, 2010, Grace had a valuation allowance related to foreign tax credit carryforwards of \$2.4 million.

Table of Contents**Notes to Consolidated Financial Statements (Continued)****8. Pension Plans and Other Postretirement Benefit Plans**

**Pension Plans** The following table presents the funded status of Grace's fully-funded, underfunded, and unfunded pension plans:

<b>(In millions)</b>	<b>June 30, 2010</b>	<b>December 31, 2009</b>
Overfunded defined benefit pension plans	\$ 27.7	\$ 36.7
Underfunded defined benefit pension plans	(442.2)	(372.2)
Unfunded defined benefit pension plans	(151.9)	(158.2)
Total underfunded and unfunded defined benefit pension plans	(594.1)	(530.4)
Unfunded defined benefit pension plans included in liabilities subject to compromise	(110.1)	(105.4)
Pension liabilities included in other current liabilities	(12.2)	(12.9)
Net funded status	\$ (688.7)	\$ (612.0)

Fully-funded plans include several advance-funded plans where the fair value of the plan assets exceeds the projected benefit obligation, or PBO. This group of plans was overfunded by \$27.7 million as of June 30, 2010, and the overfunded status is reflected as "overfunded defined benefit pension plans" in the Consolidated Balance Sheets. Underfunded plans include a group of advance-funded plans that are underfunded on a PBO basis by a total of \$442.2 million as of June 30, 2010. Additionally, Grace has several plans that are funded on a pay-as-you-go basis, and therefore, the entire PBO of \$274.2 million at June 30, 2010 is unfunded. The combined balance of the underfunded and unfunded plans was \$716.4 million as of June 30, 2010 and is presented as a liability on the Consolidated Balance Sheets as follows: \$12.2 million in "other current liabilities;" \$594.1 million included in "underfunded and unfunded defined benefit pension plans", of which \$442.2 million relates to underfunded plans and \$151.9 million relates to unfunded plans; and \$110.1 million in "liabilities subject to compromise."

Grace maintains defined benefit pension plans covering current and former employees of certain business units and divested business units who meet age and service requirements. Benefits are generally based on final average salary and years of service. Grace funds its U.S. qualified pension plans ("U.S. qualified pension plans") in accordance with U.S. federal laws and regulations. Non-U.S. pension plans ("non-U.S. pension plans") are funded under a variety of methods, as required under local laws and customs.

Grace also provides, through nonqualified plans, supplemental pension benefits in excess of U.S. qualified pension plan limits imposed by federal tax law. These plans cover officers and higher-level employees and serve to increase the combined pension amount to the level that they otherwise would have received under the U.S. qualified pension plans in the absence of such limits. The nonqualified plans are unfunded and Grace pays the costs of benefits as they are due to the participants.

At the December 31, 2009 measurement date for Grace's defined benefit pension plans, the projected benefit obligation ("PBO") was approximately \$1,531 million as measured under U.S. GAAP. The PBO basis reflects the present value (using a 5.75% discount rate for U.S. plans and a 5.71% weighted average discount rate for non-U.S. plans as of December 31, 2009) of vested

Table of Contents**Notes to Consolidated Financial Statements (Continued)****8. Pension Plans and Other Postretirement Benefit Plans (Continued)**

and non-vested benefits earned from employee service to date, based upon current services and estimated future pay increases for active employees.

On a quarterly basis, Grace analyzes pension assets and pension liabilities along with the resulting funded status and updates its estimate of these measures. Funded status is adjusted for contributions, benefit payments, actual return on assets, current discount rates, and other identifiable and material actuarial changes. A full rereasurement is performed annually.

The assumed discount rate for pension plans reflects the market rates for high quality corporate bonds currently available and is subject to change based on changes in the overall market interest rates. For the U.S. qualified pension plans, the assumed discount rate of 5.75% as of December 31, 2009 was selected by Grace, in consultation with its independent actuaries, based on a yield curve constructed from a portfolio of high quality bonds for which the timing and amount of cash outflows approximate the estimated payouts of the plan. Based on review of an updated yield curve analysis as of June 30, 2010, Grace decreased the discount rate for the U.S. qualified pension plans from 5.75% at December 31, 2009 to 5.25% at June 30, 2010 based on market rates at that time. Grace also evaluated the current discount rates for the pension plans in the United Kingdom, Germany and Canada, which combined represented approximately 90% of the benefit obligation of the non-U.S. pension plans as of December 31, 2009. Based on review of the yield curve analyses for these plans as of June 30, 2010, Grace changed the discount rate for the United Kingdom from 5.75% at December 31, 2009 to 5.25% at June 30, 2010, for Germany from 5.25% at December 31, 2009 to 4.50% at June 30, 2010, and for Canada from 6.25% at December 31, 2009 to 5.75% at June 30, 2010. The funded status as of June 30, 2010 reflects a decrease in total assets of approximately \$12 million and an increase in total liabilities of approximately \$79 million as compared to December 31, 2009, resulting from the change in discount rates (including the postretirement plan). After tax effects, total assets increased from December 31, 2009 to June 30, 2010 by approximately \$18 million, total liabilities increased by approximately \$79 million and shareholders' equity decreased by approximately \$61 million.

**Postretirement Benefits Other Than Pensions** Grace provides postretirement health care and life insurance benefits for retired employees of certain U.S. business units and certain divested business units. The postretirement medical plan provides various levels of benefits to employees hired before 1991 who retire from Grace after age 55 with at least 10 years of service. These plans are unfunded and Grace pays a portion of the costs of benefits under these plans as they are incurred. Grace applies ASC 715 to these plans which requires that the future costs of postretirement health care and life insurance benefits be accrued over the employees' years of service.

Retirees and beneficiaries covered by the postretirement medical plan are required to contribute a minimum of 40% of the calculated premium for that coverage. During 2002, per capita costs under the retiree medical plans exceeded caps on the amount Grace was required to contribute under a 1993 amendment to the plan. As a result, for 2003 and future years, retirees will bear 100% of any increase in premium costs.

For 2010 measurement purposes, per capita costs, before retiree contributions, were assumed to initially increase at a rate of 7.5%. The rate of increase is assumed to decrease gradually to 5% through 2014 and remain at that level thereafter. A one percentage point increase or decrease in assumed health care medical cost trend rates would not materially change Grace's postretirement

***Defined Contribution Retirement Plan*** Grace sponsors a defined contribution retirement plan for its employees in the United States. This plan is qualified under section 401(k) of the U.S. tax

Table of Contents**Notes to Consolidated Financial Statements (Continued)****8. Pension Plans and Other Postretirement Benefit Plans (Continued)**

code. Currently, Grace contributes an amount equal to 100% of employee contributions, up to 6% of an individual employee's salary or wages. Grace's cost related to this benefit plan for the three and six month periods ended June 30, 2010 were \$3.1 million and \$6.5 million compared with \$3.1 million and \$5.9 million for the prior year periods.

**9. Other Balance Sheet Accounts**

<b>(In millions)</b>	<b>June 30, 2010</b>	<b>December 31, 2009</b>
<b>Other Assets</b>		
Patents, licenses and other intangible assets, net	\$ 53.4	\$ 61.5
Fair value of currency forward contracts	31.9	1.3
Deferred charges	27.2	29.1
Other assets	9.0	13.1
	\$ 121.5	\$ 105.0
<b>Other Current Liabilities</b>		
Accrued compensation	\$ 66.0	\$ 101.0
Customer volume rebates	25.8	33.0
Income tax payable	21.0	23.9
Accrued Chapter 11 reorganization expenses	9.2	15.7
Accrued commissions	8.7	11.6
Deferred tax liability	8.6	6.0
Fair value of currency forward and commodity contracts	1.5	1.9
Other accrued liabilities	105.7	114.8
	\$ 246.5	\$ 307.9

Accrued compensation in the table above includes salaries and wages as well as estimated current amounts due under the annual and long-term incentive programs.

**10. Commitments and Contingent Liabilities*****Asbestos-Related Liability See Note 3***

***Environmental Remediation*** Grace is subject to loss contingencies resulting from extensive and evolving federal, state, local and foreign environmental laws and regulations relating to the generation, storage, handling, discharge and disposition of hazardous wastes and other materials. Grace accrues for anticipated costs associated with investigative and remediation efforts where an assessment has indicated that a probable liability has been incurred and the cost can be reasonably estimated. These accruals do not take into account any discounting for the time value of money.

Grace's environmental liabilities are reassessed whenever circumstances become better defined or remediation efforts and their costs can be better estimated. These liabilities are evaluated based on currently available information, including the progress of remedial investigation at each site, the current status of discussions with regulatory authorities regarding the method and extent of remediation at each site, existing technology, prior experience in contaminated site remediation and the apportionment of costs among potentially responsible parties. Grace expects that the funding of environmental remediation activities will be affected by the Chapter 11 proceedings.

Table of Contents

**Notes to Consolidated Financial Statements (Continued)**

**10. Commitments and Contingent Liabilities (Continued)**

At June 30, 2010, Grace's estimated liability for environmental investigative and remediation costs totaled \$145.4 million, as compared with \$148.4 million at December 31, 2009. The amount is based on funding and/or remediation agreements in place, including the Multi-Site Agreement described below, and Grace's best estimate of its cost for sites not subject to a formal remediation plan. Grace's estimated environmental liabilities are included in "liabilities subject to compromise" in the accompanying Consolidated Balance Sheets.

Net cash expenditures charged against previously established reserves for the six months ended June 30, 2010 and 2009 were \$3.0 million and \$3.8 million, respectively.

*Vermiculite Related Matters*

Grace's total estimated liability for asbestos remediation related to its former vermiculite operations in Libby, including the cost of remediation at vermiculite processing sites outside of Libby, at June 30, 2010 and December 31, 2009 was \$50.5 million and \$51.6 million, respectively, excluding interest where applicable and is recorded in Environmental Contingencies in the Consolidated Balance Sheets. The estimated obligation as of each date does not include the cost to remediate the Grace-owned Libby vermiculite mine, which is not currently estimable.

During 2009, Grace learned that the U.S. Environmental Protection Agency ("EPA") may reinvestigate approximately 100 former or currently operating plants at which vermiculite concentrate from the Grace-owned Libby vermiculite mine was expanded. Of these expansion plants, seven are currently owned by Grace. Grace is unable to determine the possible results of any reinvestigation and whether it may result in additional claims by EPA. The estimated obligation as of June 30, 2010 does not include any costs in respect of this reinvestigation or any additional EPA claims, which costs if any, are not currently estimable.

*Non-Vermiculite Related Matters*

At June 30, 2010 and December 31, 2009, Grace's estimated liability for remediation of sites not related to its former vermiculite mining and processing activities was \$94.9 million and \$96.8 million, respectively. This liability relates to Grace's current and former operations, including its share of liability for off-site disposal at facilities where it has been identified as a potentially responsible party. Grace's estimated liability is based upon an evaluation of claims for which sufficient information was available and the liabilities settled pursuant to the multi-site settlement agreement described below. As Grace receives new information and continues its claims evaluation process, its estimated liability may change materially.

*Multi-Site Settlement*

The EPA has filed proofs of claim with respect to potential contamination at 38 sites, including vermiculite related claims and non-vermiculite related claims. In June 2008, Grace entered into a multi-site settlement agreement (the "Multi-Site Agreement") with the U.S. Government, on behalf of EPA and other federal agencies. Under the Multi-Site Agreement, Grace has agreed to pay approximately \$44 million, which is included in the liabilities described above, to the U.S. Government and other parties in settlement of 35 of these outstanding claims and the U.S. Government has agreed not to take action against Grace under the Comprehensive Environmental Response, Compensation, and Liability Act with respect to these sites. Grace intends to separately fund or carry out remediation at two of the remaining sites. With respect to the third remaining site,

Table of Contents

**Notes to Consolidated Financial Statements (Continued)**

**10. Commitments and Contingent Liabilities (Continued)**

Libby, Montana, EPA's claims, excluding claims in respect of the Grace-owned Libby vermiculite mine, are resolved by the EPA Cost Recovery Agreement. Grace is working in cooperation with EPA to investigate the Libby vermiculite mine. The settlement amount is payable upon Grace's emergence from Chapter 11.

**Purchase Commitments** Grace engages in purchase commitments to ensure supply and to minimize the volatility of major components of direct manufacturing costs including natural gas, certain metals, asphalt, amines and other materials. Such commitments are for quantities that Grace fully expects to use in its normal operations.

**Guarantees and Indemnification Obligations** Grace is a party to many contracts containing guarantees and indemnification obligations. These contracts primarily consist of:

Product warranties with respect to certain products sold to customers in the ordinary course of business. These warranties typically provide that product will conform to specifications. Grace generally does not establish a liability for product warranty based on a percentage of sales or other formula. Grace accrues a warranty liability on a transaction-specific basis depending on the individual facts and circumstances related to each sale. Both the liability and annual expense related to product warranties are immaterial to the Consolidated Financial Statements.

Contracts entered into with customers in which Grace has agreed to indemnify such parties against damages caused by its personnel or products or resulting from its violation of applicable laws.

Licenses of intellectual property by Grace to third parties in which Grace has agreed to indemnify the licensee against third party infringement claims.

Contracts entered into with third party consultants, independent contractors, and other service providers in which Grace has agreed to indemnify such parties against certain liabilities. Based on historical experience and the likelihood that such parties will make a claim against Grace, Grace believes that such indemnification obligations are immaterial.

Contracts providing for the sale of a former business unit or product line in which Grace has agreed to indemnify the buyer against liabilities arising prior to the closing of the transaction, including environmental liabilities. These liabilities are included in "liabilities subject to compromise" in the accompanying Consolidated Balance Sheets.

Guarantees of real property lease obligations of third parties, typically arising out of (a) leases entered into by former subsidiaries of Grace, or (b) the assignment or sublease of a lease by Grace to a third party.

**Financial Assurances** Financial assurances have been established for a variety of purposes, including insurance and environmental matters, asbestos settlements and appeals, trade-related commitments and other matters. At June 30, 2010, Grace had gross financial assurances issued and outstanding of \$250.0 million, comprised of \$116.9 million of surety bonds issued by various insurance companies and \$133.1 million of standby letters of credit and other financial assurances issued by various banks. As discussed in Note 5, \$71.0 million of these financial assurances have been issued under the letter of credit facility.

Table of Contents**Notes to Consolidated Financial Statements (Continued)****10. Commitments and Contingent Liabilities (Continued)**

**Accounting for Contingencies** Although the outcome of each of the matters discussed above cannot be predicted with certainty, Grace has assessed its risk and has made accounting estimates as required under U.S. GAAP. As a result of the Filing, claims related to certain of the items discussed above will be addressed as part of Grace's Chapter 11 proceedings. Accruals recorded for such contingencies have been included in "liabilities subject to compromise" in the accompanying Consolidated Balance Sheets. The amounts of these liabilities as ultimately determined through the Chapter 11 proceedings could be materially different from amounts recorded at June 30, 2010.

**11. Restructuring Expenses**

In the second quarter of 2010, Grace took cost reduction and restructuring actions to further improve productivity. Grace accrued \$1.2 million of restructuring expenses related to Grace Construction Products during the second quarter 2010, compared to \$2.2 million (\$1.4 million in Grace Davison, \$0.6 million in Grace Construction Products, and \$0.2 million in Corporate) during the first quarter 2010. The second quarter restructuring actions consisted of an involuntary program that reduces total employment by 28 employees in North America, Europe and Asia Pacific combined. Grace expects substantially all costs related to the 2009 restructuring programs to be paid by December 31, 2010, while substantially all the 2010 restructuring related costs are expected to be paid by December 31, 2011. Additionally, Grace expects to take further restructuring charges of approximately \$5 million in the second half of 2010.

Unrealized gain on investment	0.8		0.8
Other comprehensive income (loss) attributable to W. R. Grace & Co. shareholders	\$ 34.5	\$ (5.9)	\$ 28.6

The following table presents the components of Grace's accumulated other comprehensive loss at June 30, 2010 and December 31, 2009:

<b>Components of Accumulated Other Comprehensive Loss</b> <b>(In millions)</b>	<b>June 30,</b> <b>2010</b>	<b>December 31,</b> <b>2009</b>
<b>Defined benefit pension and other postretirement plans:</b>		
Net prior service cost (net of tax)	\$ (1.8)	\$ (0.9)
Net deferred actuarial loss (net of tax)	(602.1)	(542.8)
Benefit plans, net	(603.9)	(543.7)
Hedging activities, net of tax	(0.8)	0.4
Currency translation	33.9	29.6
Unrealized loss on investment	(0.8)	(0.8)
Accumulated other comprehensive loss	\$ (571.6)	\$ (514.5)

Accumulated other comprehensive loss related to the defined benefit pension and other postretirement plans at June 30, 2010 and December 31, 2009, respectively, represents the accumulation of net actuarial losses of \$602.1 million and \$542.8 million as well as net prior service costs of \$1.8 million and \$0.9 million. These amounts are net of tax and are amortized as a component of net periodic benefit cost. For the six month periods ended June 30, 2010 and 2009, the pre-tax benefit recognized related to prior service credits was \$1.4 million and \$1.4 million, respectively, and the pre-tax expense recognized for amortization of accumulated actuarial losses was \$17.6 million and \$18.4 million, respectively. In addition, \$106.8 million and \$6.1 million of pre-tax loss was recognized for changes in funded status during the six month periods ended June 30, 2010 and 2009, respectively.

Grace is a global enterprise operating in over 40 countries with local currency generally deemed to be the functional currency for accounting purposes. The currency translation amount represents the adjustments necessary to translate the balance sheets valued in local currencies to the U.S. dollar as of the end of each period presented, and to translate revenues and expenses at average exchange rates for each period presented.

See Note 6 for a discussion of hedging activities.

Table of Contents**Notes to Consolidated Financial Statements (Continued)****14. Earnings Per Share**

The following table shows a reconciliation of the numerators and denominators used in calculating basic and diluted earnings per share.

<b>(In millions, except per share amounts)</b>	<b>Three Months Ended, June 30,</b>		<b>Six Months Ended, June 30,</b>	
	<b>2010</b>	<b>2009</b>	<b>2010</b>	<b>2009</b>
<b>Numerators</b>				
Net income (loss) attributable to W. R. Grace & Co. shareholders	\$ 51.0	\$ 19.3	\$ 107.2	\$ (19.6)
<b>Denominators</b>				
Weighted average common shares basic calculation	72.7	72.2	72.6	72.2
Dilutive effect of employee stock options	1.7	0.7	1.9	
Weighted average common shares diluted calculation	74.4	72.9	74.5	72.2
<b>Basic earnings per share</b>	<b>\$ 0.70</b>	<b>\$ 0.27</b>	<b>\$ 1.48</b>	<b>\$ (0.27)</b>
<b>Diluted earnings per share</b>	<b>\$ 0.69</b>	<b>\$ 0.26</b>	<b>\$ 1.44</b>	<b>\$ (0.27)</b>

Stock options that could potentially dilute basic earnings per share (that were excluded from the computation of diluted earnings per share because their exercise prices were greater than the average market price of the common shares) were approximately 1.4 million for the three and six months ended June 30, 2010. Stock options that could potentially dilute basic earnings per share (that were excluded from the computation of diluted earnings per share because their exercise prices were greater than the average market price of the common shares) were approximately 2.4 and 3.9 million for the three and six months ended June 30, 2009, respectively.

**15. Operating Segment Information**

Grace is a global producer of specialty chemicals and materials. It generates revenues from two operating segments: Grace Davison, which includes specialty catalysts and specialty materials used in a wide range of refining, consumer industrial, packaging and life sciences applications; and Grace Construction Products, which includes specialty construction chemicals and specialty building materials used in commercial, infrastructure, and residential construction. Intersegment sales, eliminated in consolidation, are not material. The table below presents information related to Grace's operating segments. Only those corporate expenses directly related to the operating segments are allocated for reporting purposes. All remaining corporate items are reported separately and labeled as such.

Table of Contents

## Notes to Consolidated Financial Statements (Continued)

## 15. Operating Segment Information (Continued)

## Operating Segment Data

(In millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2010	2009	2010	2009
<b>Net Sales</b>				
Grace Davison	\$ 453.9	\$ 477.9	\$ 872.2	\$ 955.8
Grace Construction Products	231.1	233.1	427.7	437.3
<b>Total</b>	<b>\$ 685.0</b>	<b>\$ 711.0</b>	<b>\$ 1,299.9</b>	<b>\$ 1,393.1</b>
<b>Adjusted EBIT</b>				
Grace Davison	\$ 106.5	\$ 81.8	\$ 194.3	\$ 121.8
Grace Construction Products	25.7	34.0	41.3	46.4
Corporate costs	(22.7)	(20.9)	(41.9)	(37.2)
Defined benefit pension expense	(18.4)	(20.5)	(38.3)	(42.4)
<b>Total</b>	<b>\$ 91.1</b>	<b>\$ 74.4</b>	<b>\$ 155.4</b>	<b>\$ 88.6</b>

Corporate costs include corporate support function costs (such as finance, legal services, human resources, communications, information technology, and incentive compensation related to corporate functions) as well as other corporate costs such as insurance premiums and professional fees.

## Reconciliation of Adjusted EBIT to Net income (loss) attributable to W. R. Grace &amp; Co. shareholders

(In millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2010	2009	2010	2009
<b>Adjusted EBIT</b>	<b>\$ 91.1</b>	<b>\$ 74.4</b>	<b>\$ 155.4</b>	<b>\$ 88.6</b>
Chapter 11- and asbestos-related costs, net of interest income	(7.8)	(23.4)	(20.4)	(71.7)
Restructuring expenses and related asset impairments	(1.2)	(5.9)	(3.4)	(25.0)
Interest expense and related financing costs	(11.0)	(9.6)	(20.9)	(18.8)
Interest income of non-Debtor subsidiaries	0.2	0.6	0.4	0.7
Benefit from (provision for) income taxes	(20.3)	(16.8)	(3.9)	6.6
<b>Net Income (loss) attributable to W.R. Grace &amp; Co. shareholders</b>	<b>\$ 51.0</b>	<b>\$ 19.3</b>	<b>\$ 107.2</b>	<b>\$ (19.6)</b>

Grace changed its segment profitability measure for its Grace Davison and Grace Construction Products segment from the previous measure based on Core EBIT to a measure which is based on Adjusted EBIT effective in the 2010 first quarter as discussed further in Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A). The impact of this change on the results presented for the two segments is to eliminate restructuring charges and gains and losses from sales of product lines as compared to segment operating income as previously reported.

As discussed in Note 16 and in the MD&A, Grace deconsolidated the ART joint venture in December 2009, thus ART sales are included in 2009 but not in 2010.

Table of Contents**Notes to Consolidated Financial Statements (Continued)****15. Operating Segment Information (Continued)**

The table below presents information related to the geographic areas in which Grace operated. Sales are attributed to geographic areas based on customer location.

**Geographic Area Data**

(In millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2010	2009	2010	2009
<b>Net Sales</b>				
United States	\$ 194.8	\$ 221.7	\$ 377.7	\$ 461.4
Canada and Puerto Rico	20.9	19.9	40.4	39.2
Total North America	\$ 215.7	\$ 241.6	\$ 418.1	\$ 500.6
Europe Middle East Africa	274.6	273.9	521.5	521.0
Asia Pacific	120.8	132.1	223.3	253.3
Latin America	73.9	63.4	137.0	118.2
<b>Total</b>	\$ 685.0	\$ 711.0	\$ 1,299.9	\$ 1,393.1

**16. Unconsolidated Affiliates**

Grace accounts for certain of its investments in unconsolidated affiliates using the equity method of accounting. Grace has a 50% ownership interest in the Advanced Refining Technologies LLC joint venture (ART). This is the Company's largest such investment accounted for using the equity method.

On November 30, 2009, Grace sold 5% of its ownership interest in ART to Chevron for \$4.0 million (the "ART Transaction"), bringing both Grace's and Chevron's ownership interests to 50%. From its inception in 2001 to the date of the ART Transaction, Grace held a 55% interest in ART, and Chevron held a 45% interest. As of December 31, 2008 and for the eleven months ended November 30, 2009 and years ended December 31, 2008 and 2007, Grace consolidated the financial position, results of operations, and cash flows of ART in its consolidated financial statements. Due to the ART Transaction, Grace reconsidered its consolidation policy with respect to ART, and determined, following the ART Transaction on November 30, 2009, that ART ceased to be a variable interest entity. Grace does not have a controlling voting interest; therefore, Grace deconsolidated ART and recorded its investment in ART using the equity method of accounting as of December 1, 2009.

Grace and ART continue to transact business on a regular basis, and maintain several agreements in order to effect such business. Since the deconsolidation on December 1, 2009, these agreements are treated as related party activities with an unconsolidated affiliate. For the quarter ended June 30, 2010, Grace sales of catalysts to ART were \$55.1 million. Charges for fixed costs, research and development and selling general and administrative services to ART were \$5.9 million. Grace and Chevron provide lines of credit in the amount of \$15.0 million each at a commitment fee of 0.1% of the credit amount. These agreements expire on March 1, 2011. No amounts were outstanding at June 30, 2010. In November 2009, ART declared a dividend of \$19.0 million, of which \$10.5 million was payable to Grace. This amount is reflected in "Other Current Assets" in the Consolidated Balance Sheets.

Table of Contents**Notes to Consolidated Financial Statements (Continued)****17. Noncontrolling Interests in Consolidated Affiliates**

Grace conducts certain business activities in various countries through joint ventures with unaffiliated third parties, the financial results of which are included in Grace's consolidated financial statements. The following tables present summary financial statistics for Grace's combined businesses subject to profit sharing with noncontrolling interests:

<b>(In millions)</b>	<b>Three Months</b>		<b>Six Months</b>	
	<b>Ended</b>		<b>Ended</b>	
	<b>June 30,</b>		<b>June 30,</b>	
	<b>2010</b>	<b>2009</b>	<b>2010</b>	<b>2009</b>
Sales	\$ 23.4	\$ 80.4	\$ 43.5	\$ 203.5
Income before taxes	0.5	8.1	1.8	8.5
Net income	0.3	8.2	1.3	8.4
Noncontrolling interests in net income		3.4	0.4	3.5
Dividends paid to noncontrolling interests				(13.7)

<b>(In millions)</b>	<b>June 30,</b>	<b>December 31,</b>
	<b>2010</b>	<b>2009</b>
Cash	\$ 12.2	\$ 10.8
Other current assets	31.7	30.5
Total assets	54.5	52.8
Total liabilities	31.3	30.0
Shareholders' equity	23.2	22.8
Noncontrolling interests in shareholders' equity	9.3	8.7

As discussed in Note 16, Grace deconsolidated the ART joint venture in December 2009. As a result, sales of consolidated affiliates decreased from 2009 to 2010.

Table of Contents

**Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

We generally refer to the quarter ended June 30, 2010 as the "second quarter", the quarter ended June 30, 2009 as the "prior year quarter", the quarter ended March 31, 2010 as the "2010 first quarter", the six months ended June 30, 2010 as the "six months" and the six months ended June 30, 2009 as the "prior year period." Our references to "emerging regions" refer to emerging and developing regions as defined by the International Monetary Fund. See Analysis of Operations for a discussion of our non-U.S. GAAP performance measures.

**Results of Operations**

***Second Quarter Performance Summary***

Following is a summary of our performance measures for the second quarter compared with the prior year quarter.

Sales in the second quarter increased 4.1% overall and 15.1% in emerging regions compared with the prior year quarter, excluding sales of the ART joint venture from both periods. Sales in emerging regions were 33.4% of total sales. As reported, sales for the second quarter were \$685.0 million compared with \$711.0 million in the prior year quarter, a 3.7% decrease. Sales for the prior year quarter include \$53.0 million of sales of the ART joint venture which was deconsolidated in December 2009. The sales increase was due to higher sales volumes (4.5%) and improved pricing (0.1%), partially offset by unfavorable currency translation (0.5%).

Gross profit percentage for the second quarter was 35.7% compared with 34.2% in the prior year quarter. The improvement in gross profit percentage was due primarily to better operating leverage, a decrease in certain raw materials and energy costs and lower factory overhead expenses. Gross profit percentage for the second quarter increased 0.9 percentage points compared with the 2010 first quarter due primarily to improved operating leverage in Grace Davison, partially offset by higher raw material costs and lower prices in Grace Construction Products.

Grace net income for the second quarter was \$51.0 million, or \$0.69 per diluted share, compared with \$19.3 million, or \$0.26 per diluted share, in the prior year quarter. Adjusted EPS was \$0.75 compared with \$0.53 in the prior year quarter.

Adjusted EBIT was \$91.1 million in the second quarter compared with \$74.4 million in the prior year quarter. The increase was due to the increase in sales volumes and the improvements in gross profit percentage from the prior year quarter. Adjusted EBIT margin was 13.3% compared with 10.5% in the prior year quarter and 10.5% in the 2010 first quarter.

Adjusted Operating Cash Flow was \$101.3 million for the second quarter, compared with \$84.1 million in the prior year quarter. The increase is due primarily to increased Adjusted EBIT and improved working capital partially offset by increased capital expenditures.

Adjusted EBIT Return On Invested Capital increased to 25.2% on a trailing four quarter basis in the second quarter from 17.9% on the same basis in the prior year quarter and 24.0% on the same basis in the 2010 first quarter.

***Summary Description of Business***

We are engaged in specialty chemicals and specialty materials businesses on a worldwide basis through two operating segments.

Table of Contents

*Grace Davison* markets its products primarily to a wide range of industrial customers, including those in the energy and refining industry, consumer, industrial and packaging industries, petro-/bio- chemical industries and the pharmaceutical and life sciences industries. Grace Davison includes the following product groups:

Refining Technologies, which includes:

Fluid catalytic cracking, or FCC, catalysts, that help to "crack" the hydrocarbon chain in distilled crude oil to produce transportation fuels, such as gasoline and diesel fuels, and other petroleum-based products; and FCC additives used to reduce sulfur in gasoline, maximize propylene production from refinery FCC units, and reduce emissions of sulfur oxides, nitrogen oxides and carbon monoxide from refinery FCC units, and

Hydroprocessing catalysts, most of which are marketed through our ART joint venture with Chevron Products Company in which we hold a 50% economic interest, that are used in process reactors to upgrade heavy oils into lighter, more useful products by removing impurities such as nitrogen, sulfur and heavy metals, allowing less expensive feedstocks to be used in the petroleum refining process (ART is not consolidated on our financial statements, so ART's sales are excluded from our sales);

Materials Technologies which includes:

Engineered materials, including silica-based and silica-alumina-based materials, used in:

Industrial applications, such as rubber and tires, precision investment casting, refractory, insulating glass windows, and drying applications, fulfilling various functions such as reinforcement, high temperature binding and moisture scavenging,

Consumer applications, as a free-flow agent, carrier or processing aid in food and personal care products; as a toothpaste abrasive; and for the processing and stabilization of edible oils and beverages,

Coatings and print media applications, consisting of functional additives that provide matting effects and corrosion protection for industrial coatings, enable enhanced media and paper quality in ink jet coatings, and act as a functional filler and retention aid in paper,

Packaging applications, including can and closure sealants used to seal and enhance the shelf life of can and bottle contents, and coatings for cans and closures that prevent metal corrosion, protect package contents from the influence of metal and ensure proper adhesion of sealing compounds and technologies designed to reduce off-taste effects and extend the shelf-life of packaged products; and

Specialty Technologies, which includes:

Polyolefin catalysts and catalyst supports that are essential components in the manufacture of polyethylene and polypropylene resins, and other chemical catalysts and process technologies used in a variety of industrial, environmental and consumer applications,

Catalysts and adsorbents for the efficient conversion of renewable feedstocks to fuels and chemicals,

Edgar Filing: W R GRACE & CO - Form 10-Q

Silica-based separation media and complementary purification products including chromatography columns and consumables used in the pharmaceutical, life science and related industries, silica excipients used in pharmaceutical formulations and CO<sub>2</sub> adsorbents used in anesthesiology and mine safety applications, and

Table of Contents

Instrumentation and reference standards used in the pharmaceutical, life science and related industries.

*Grace Construction Products, or GCP*, produces and sells specialty construction chemicals and specialty building materials, including:

Concrete admixtures and fibers used to modify the rheology, improve the durability and enhance various other properties of concrete, mortar, masonry and other cementitious construction materials;

Additives used in cement processing to improve energy efficiency in manufacturing, enhance the characteristics of finished cement and improve ease of use;

Building materials used in commercial and residential construction and renovation to protect buildings and civil engineering structures from water, vapor and air penetration; and

Fireproofing materials used to retard the spread of fire in buildings.

*Global scope*

We operate our business on a global scale with approximately 68% of our 2009 sales and 72% of our second quarter sales outside the United States. We conduct business in over 40 countries and in more than 30 currencies. We manage our operating segments on a global basis, to serve global markets. Currency fluctuations in relation to the U.S. dollar affect our reported earnings, net assets and cash flows.

*ART Deconsolidation*

On November 30, 2009, we completed the sale to Chevron Products Company of a 5% interest in ART. We deconsolidated ART's results from our consolidated financial statements on a prospective basis effective December 1, 2009. As a result, we now report our investment in ART and our portion of ART's income using the equity method of accounting. Adjusted EBIT is not affected by the deconsolidation of ART except for the effect of the reduction in Grace's ownership from 55% to 50%.

*Analysis of Operations*

Set forth in the table below are our key operating statistics with dollar and percentage changes for the second quarter compared to the prior year quarter and for the six months compared to the prior year period. Please refer to this Analysis of Operations when reviewing this Management's Discussion and Analysis of Financial Condition and Results of Operations.

We define Adjusted EBIT (a non-U.S. GAAP financial measure) to be net income adjusted for interest income and expense, income taxes, Chapter 11- and asbestos-related costs, net, restructuring expenses and related asset impairments, and gains and losses on sales of product lines and other investments.

We define Adjusted EBITDA (a non-U.S. GAAP financial measure) to be Adjusted EBIT adjusted for depreciation and amortization.

We define Adjusted Earnings Per Share (EPS) to be Diluted EPS adjusted for Chapter 11- and asbestos- related costs, net, restructuring expenses and related asset impairments, gains and losses on sales of product lines and other investments, and certain discrete tax items.

Table of Contents

We define Adjusted Operating Cash Flow (a non-U.S. GAAP financial measure) to be Adjusted EBITDA plus pension expense plus or minus the change in net working capital and specified other assets and liabilities minus capital expenditures. Adjusted Operating Cash Flow excludes the cash flow effects of income taxes, defined benefit pension arrangements, Chapter 11- and asbestos- related costs, net, and any restructuring or divestment activities.

We define Adjusted EBIT Return On Invested Capital to be Adjusted EBIT divided by the sum of net working capital, properties and equipment and certain other assets and liabilities.

We use Adjusted EBIT and Adjusted Operating Cash Flow as performance measures in significant business decisions and in determining certain incentive compensation. We use Adjusted EBIT as a performance measure because it provides improved period-to-period comparability for decision making and compensation purposes, and because it better measures the ongoing earnings results of our strategic and operating decisions by excluding the earnings effects of Chapter 11- and asbestos- related costs, net, and any restructuring or divestment activities. Similarly, we use Adjusted Operating Cash Flow as a performance measure because it provides improved period-to-period comparability for decision making and compensation purposes and because it better measures the ongoing cash flow results of our strategic and operating decisions by excluding the cash flow effects of income taxes, defined benefit pension arrangements, Chapter 11- and asbestos- related costs, net, and any restructuring or divestment activities. These excluded items are generally managed at the corporate level rather than the operating segment or business unit level or are not materially affected by day-to-day operating decisions. Adjusted Operating Cash Flow is an important performance measure for us because it measures the effectiveness of our businesses in generating cash to finance current and future growth investments, our significant underfunded pension liabilities, and our asbestos-related liabilities.

Adjusted EBIT, Adjusted EBITDA, Adjusted EPS, Adjusted Operating Cash Flow and Adjusted EBIT Return On Invested Capital do not purport to represent income or cash flow measures as defined under U.S. GAAP, and should not be used as alternatives to such measures as an indicator of our performance. These measures are provided to investors and others to improve the period-to-period comparability and peer-to-peer comparability of our financial results, and to ensure that investors understand the information we use to evaluate the performance of our businesses. We have provided in the following tables a reconciliation of these non-U.S. GAAP measures to the most directly comparable financial measure calculated and presented in accordance with U.S. GAAP.

Adjusted EBIT has material limitations as an operating performance measure because it excludes Chapter 11- and asbestos-related costs and may exclude income and expenses from restructuring and divestment activities, which historically have been material components of our net income. Adjusted EBITDA also has material limitations as an operating performance measure since it excludes the impact of depreciation and amortization expense. Our business is substantially dependent on the successful deployment of capital, and depreciation and amortization expense is a necessary element of our costs. Adjusted Operating Cash Flow also has material limitations as an operating performance measure because it excludes the cash flow effects of income taxes, defined benefit pension arrangements, Chapter 11- and asbestos- related costs and any restructuring or divestment activities, which historically have been material components of our operations. We compensate for the limitations of these measurements by using these indicators together with net income as measured under U.S. GAAP to present a complete analysis of our results of operations. Adjusted EBIT, Adjusted EBITDA and Adjusted Operating Cash Flow should be evaluated together

Table of Contents

with net income measured under U.S. GAAP for a complete understanding of our results of operations.

Note A: Grace's segment operating income includes only Grace's share of income of consolidated and unconsolidated joint ventures.

Note B: Defined benefit pension expense includes all defined benefit pension expense of Grace. Grace Davison and Grace Construction Products segment operating income and corporate costs do not include amounts for defined benefit pension expense.

Note C: Restructuring expenses represent charges related to our operating segments as follows: For the second quarter, Grace Construction Products \$1.2 million. For the six months, Grace Davison \$1.4 million, Grace Construction Products \$1.8 million, and Corporate \$0.2 million. For the prior year quarter, Grace Davison \$1.0 million, Grace Construction Products \$3.4 million, and Corporate \$1.5 million. For the prior year period, Grace Davison \$12.7 million, Grace Construction Products \$8.1 million, and Corporate \$4.2 million.

Note D: Total invested capital excludes the cash value of life insurance policies, net of policy loans of \$4.4 and \$4.2 million in other assets in 2010 and 2009, respectively.

**Grace Overview**

Following is an overview of our financial performance for the second quarter and six months compared with the corresponding prior year periods.

*Net Sales*

**Three Months Ended June 30,**  
(\$ in millions)

**Six Months Ended June 30,**  
(\$ in millions)

The following tables identify the year-over-year increase or decrease in sales attributable to changes in sales volume and/or mix, product price, and the impact of currency translation. The

Table of Contents

numbers in the prior year quarter and prior year period have been adjusted to reflect the ART deconsolidation.

**Three Months ended June 30, 2010  
as a Percentage Increase (Decrease) from  
Three Months ended June 30, 2009**

Net Sales Variance Analysis (excluding ART)	Currency			
	Volume	Price	Translation	Total
Grace Davison	7.7%	0.6%	(1.5)%	6.8%
Grace Construction Products	(1.3)%	(0.8)%	1.2%	(0.9)%
Net sales	4.5%	0.1%	(0.5)%	4.1%
<b>By Region:</b>				
North America	(4.6)%	(0.8)%	0.5%	(4.9)%
Europe Middle East Africa	5.5%	(0.9)%	(2.3)%	2.3%
Asia Pacific	10.9%	3.1%	5.4%	19.4%
Latin America	23.5%	2.4%	(6.1)%	19.8%

Sales increased 4.1% overall and 15.1% in emerging regions compared with the prior year quarter, excluding sales of the ART joint venture from both quarters. Emerging regions represented 33.4% of sales in the second quarter. As reported, sales were \$685.0 million compared with \$711.0 million in the prior year quarter, a decrease of 3.7%. Sales for the prior year quarter include \$53.0 million of sales of the ART joint venture deconsolidated in December 2009.

**Six Months ended June 30, 2010  
as a Percentage Increase (Decrease) from  
Six Months ended June 30, 2009**

Net Sales Variance Analysis (excluding ART)	Currency			
	Volume	Price	Translation	Total
Grace Davison	6.8%	0.8%	0.5%	8.1%
Grace Construction Products	(3.7)%	(0.9)%	2.4%	(2.2)%

Latin America	18.5%	4.5%	(3.8)%	19.2%

Sales increased 4.5% overall and 18.6% in emerging regions compared with the prior year period, excluding sales of the ART joint venture from both periods. Emerging regions represented 32.2% of sales for the six months. As reported, sales were \$1,299.9 million compared with \$1,393.1 million in the prior year period, a decrease of 6.7%.

Table of Contents*Adjusted EBIT*

**Three Months Ended June 30,**  
**(\$ in millions)**

**Six Months Ended June 30,**  
**(\$ in millions)**

Adjusted EBIT was \$91.1 million in the second quarter compared with \$74.4 million in the prior year quarter. The increase was primarily due to the increase in sales volumes and the improvement in gross profit percentage from the prior year quarter. Adjusted EBIT margin was 13.3% compared with 10.5% in the prior year quarter and 10.5% in the 2010 first quarter. Adjusted EBIT for the six months was \$155.4 million compared with \$88.6 million in the prior year period. The increase was due primarily to increased segment operating income and lower defined benefit pension expense partially offset by increased corporate costs. Adjusted EBIT margin for the six months was 12.0% compared with 6.4% in the prior year period.

*Adjusted EPS*

The following table reconciles our Diluted EPS (GAAP) to our Adjusted EPS (non-GAAP):

<b>Adjusted EPS (non-GAAP)</b>				\$ 0.53				\$ 0.65

*Adjusted Operating Cash Flow*

**Three Months Ended June 30,  
(\$ in millions)**

**Six Months Ended June 30,  
(\$ in millions)**

Adjusted Operating Cash Flow was \$101.3 million for the second quarter, compared with \$84.1 million in the prior year quarter. The increase is due primarily to increased Adjusted EBIT and improved working capital partially offset by increased capital expenditures. Adjusted Operating Cash Flow for the six months was \$128.5 compared with \$151.9 in the prior year period.

*Adjusted EBIT Return On Invested Capital***Trailing Four Quarters**

Adjusted EBIT Return On Invested Capital increased to 25.2% on a trailing four quarter basis from 17.9% on the same basis in the prior year quarter. We manage our operations with the objective of maximizing sales, earnings and cash flow over time. Doing so requires that we

successfully balance our growth, profitability and working capital and other investments to support sustainable, long-term financial performance. We use Adjusted EBIT Return On Invested Capital as

Table of Contents

a performance measure in evaluating operating results, in making operating and investment decisions and in balancing the growth and profitability of our operations. Generally, we favor those businesses and investments that provide the highest Adjusted EBIT Return On Invested Capital.

**Operating Segment Overview - Grace Davison**

Following is an overview of the financial performance of Grace Davison for the second quarter and six months compared with the corresponding prior year periods.

*Net Sales - Grace Davison*

**Three Months Ended June 30,  
(\$ in millions)**

**Six Months Ended June 30,  
(\$ in millions)**

Grace Davison operating segment sales are reported in the following product groups:

(In millions)	Three Months Ended June 30,				Six Months Ended June 30,			
	2010	2009	\$	%	2010	2009	\$	%
Refining Technologies	\$ 179.1	\$ 246.9	\$ (67.8)	(27.5)%	\$ 351.1	\$ 523.7	\$ (172.6)	(33.0)%
Materials Technologies	174.1	146.9	27.2	18.5%	335.1	280.9	54.2	19.3%
Specialty Technologies	100.7	84.1	16.6	19.7%	186.0	151.2	34.8	23.0%
<b>Total Grace Davison Sales</b>	<b>\$ 453.9</b>	<b>\$ 477.9</b>	<b>\$ (24.0)</b>	<b>(5.0)%</b>	<b>\$ 872.2</b>	<b>\$ 955.8</b>	<b>\$ (83.6)</b>	<b>(8.7)%</b>

Sales of Grace Davison for the second quarter were up 6.8% overall and 18.0% in emerging regions compared with the prior year quarter, excluding sales of the ART joint venture from both quarters. The increase was due to higher sales volumes (7.7%) and improved pricing (0.6%), partially offset by unfavorable currency translation (1.5%). As reported, second quarter sales decreased 5.0% from \$477.9 million in the prior year quarter.

Sales of the Grace Davison operating segment for the six months increased 8.2% compared with the prior year period, excluding sales of the ART joint venture from both periods. As reported, sales decreased 8.7% from \$955.8 million in the prior year period. Gross profit percentage for the six months was 35.6% compared with 27.4% in the prior year period.

**Refining Technologies** sales of catalysts and chemical additives used by petroleum refineries were \$179.1 million in the second quarter, a decrease of 7.6% from the prior year quarter, excluding ART sales from both quarters. Sales were unfavorably affected by lower sales volumes and unfavorable currency translation. As reported, second quarter sales decreased 27.5% from \$246.9 million in the prior year quarter.

Table of Contents

Sales for the six months were \$351.1 million, down 6.1% compared with the prior year period, excluding ART sales from both periods. Sales were unfavorably affected by lower sales volumes and currency translation. As reported, six months sales decreased 33.0% from \$523.7 million in the prior year period.

We manage our ART hydroprocessing catalysts joint venture with Chevron through our Refining Technologies product group; however, since ART is accounted for using the equity method, ART's sales are excluded from our sales.

**Materials Technologies** sales of engineered materials, coatings and sealants used in many industrial, consumer and packaging applications were \$174.1 million in the second quarter, up 18.5% from the prior year quarter. Sales were favorably affected by improved customer demand for industrial and consumer goods in all regions, partially offset by unfavorable currency translation. Sales volumes grew strongest in emerging regions where sales increased 23.3% compared with the prior year quarter.

Sales for the six months were \$335.1 million, up 19.3% compared with the prior year period. Sales were favorably affected by higher sales volumes and price. Sales volumes grew strongest in emerging regions where sales increased 26.6% compared with the prior year period.

**Specialty Technologies** sales of highly specialized catalysts, materials and equipment used in unique or proprietary applications and markets were \$100.7 million in the second quarter, up 19.7% from the prior year quarter due primarily to higher customer demand and the success of new polyolefin catalyst and discovery science products, partially offset by unfavorable currency translation. Sales in emerging regions, primarily the Middle East and China, increased 50.3% compared to the prior year quarter.

Sales for the six months were \$186.0 million, up 23.0% compared with the prior year period. Sales were favorably affected by higher customer demand for new and existing products, price, and favorable currency translation. Sales in emerging regions, primarily the Middle East and China, increased 50.6% compared to the prior year period.

*Segment Operating Income (SOI) and Margin*

**Three Months Ended June 30,  
(\$ in millions)**

**Six Months Ended June 30,  
(\$ in millions)**

Segment operating income for the second quarter was \$106.5 million compared with \$81.8 million in the prior year quarter, a 30.2% increase, driven primarily by higher sales volumes, lower fixed and variable manufacturing costs, better operational productivity and higher income from ART. Gross profit percentage for the second quarter was 36.2% compared with 32.7% in the prior year quarter and 35.0% in the 2010 first quarter. Segment operating margin for the second quarter was 23.5% compared with 17.1% in the prior year quarter and 21.0% in the 2010 first quarter.

Table of Contents

Income from ART increased from the prior year quarter on good sales volumes and a significantly improved gross profit percentage. We expect that ART sales and income will be significantly lower in the 2010 third quarter compared with the 2010 second quarter due to the uneven order pattern inherent in our hydroprocessing catalyst business.

Segment operating income of Grace Davison for the six months was \$194.3 million, an increase of 59.5% compared with the prior year period. Segment operating margin was 22.3% compared with 12.7% in the prior year period. These results were due primarily to higher sales volumes, lower fixed and variable manufacturing costs, better operational productivity and higher income from ART.

**Operating Segment Overview Grace Construction Products**

Following is an overview of the financial performance of Grace Construction Products for the second quarter and six months compared with the corresponding prior year periods.

*Net Sales Grace Construction Products*

Table of Contents

Second quarter sales for the Grace Construction Products operating segment, which includes Specialty Construction Chemicals (SCC) products and Specialty Building Materials (SBM) products used in commercial, infrastructure and residential construction, were \$231.1 million, down 0.9% from the prior year quarter. The sales decrease was due to lower sales volumes (1.3%) and prices(0.8%), partially offset by favorable currency translation (1.2%). The lower sales volumes were due primarily to lower customer demand in North America and Europe, partially offset by higher customer demand in emerging regions. Sales grew 8.1% in emerging regions compared with the prior year quarter. Second quarter sales increased 17.5% compared with the 2010 first quarter due to higher sales volume (19.2%), partially offset by unfavorable currency translation (1.7%).

Second quarter construction trends varied significantly across regions. Overall construction spending continued to grow in emerging regions including Latin America, the Middle East, India, Southeast Asia, and China. In the United States and certain countries in Europe, construction spending decreased in the second quarter. For example, preliminary industry data indicates that second quarter commercial construction starts in the U.S. were down approximately 18% from the prior year quarter. Additionally, U.S. Census Bureau data shows that total single and multi-family housing starts at the end of the second quarter decreased 6% from the prior year quarter. Despite weakness in many advanced economies, we are continuing to invest in the emerging regions through acquisitions, joint ventures and new manufacturing capacity. These investments will expand our presence and increase our ability to meet demand for our SCC and SBM products.

Sales of the Grace Construction Products operating segment for the six months were \$427.7 million, down 2.2% from the prior year period. Gross profit percentage was 34.9% compared with 35.0% in the prior year period.

**GCP Americas** sales to customers in the Americas were \$116.1 million in the second quarter, down 3.1% from the prior year quarter. Sales for the six months were \$220.3 million, down 4.9% compared with the prior year period. Sales decreased in both periods due primarily to weak customer demand in North America, partially offset by improved pricing and new customer sales in Latin America, and new product penetration in both regions.

**GCP Europe** sales to customers in Western and Eastern Europe, the Middle East, Africa and India were \$75.0 million in the second quarter, down 6.4% from the prior year quarter. Sales for the six months were \$134.3 million, down 6.1% compared with the prior year period. Sales decreased in both periods due primarily to weak customer demand in Western Europe and the Middle East.

**GCP Asia Pacific** sales to customers in Asia (excluding India), Australia and New Zealand were \$40.0 million in the second quarter, up 20.5% from the prior year quarter. Sales for the six months were \$73.1 million, up 16.6% compared with the prior year period. Sales increased in both periods due primarily to higher sales volumes to new and existing customers in emerging regions and Australia.

Table of Contents*Segment Operating Income (SOI) and Margin*

**Three Months Ended June 30,**  
**(\$ in millions)**

**Six Months Ended June 30,**  
**(\$ in millions)**

Gross profit percentage for the second quarter was 35.0% compared with 37.5% in the prior year quarter and 34.7% in the 2010 first quarter. The decrease in gross profit percentage compared with the prior year quarter is due primarily to higher raw materials and logistics costs, product mix and lower prices. Segment operating income for the second quarter was \$25.7 million compared with \$34.0 million for the prior year quarter, a 24.4% decrease. The decrease was due primarily to lower sales volumes and the decrease in gross profit percentage. Segment operating margin was 11.1% compared with 14.6% in the prior year quarter.

The 2010 first quarter to second quarter seasonal growth in sales and earnings was less than the typical historical rate in North America and Europe due primarily to weaker customer demand. As a result, we have initiated a restructuring program that is expected to decrease operating expenses to a level more appropriate to a weaker customer demand environment in these markets. We designed these actions to provide sustainable improvement in our gross profit and segment operating margins (See Note 11 for discussion of Restructuring Expenses).

We continue to invest in growth regions, such as Latin America, the Middle East, India and Asia Pacific, and in research and development to support our core product groups. As part of our emerging region growth strategy, we are starting manufacturing operations in Saudi Arabia, and expect to begin operations at four additional sites before year end.

Segment operating income for the six months was \$41.3 million, a decrease of 11.0% compared with the prior year period. Segment operating margin for the six months was 9.7% compared with 10.6% in the prior year period. The lower operating income was primarily the result of continued weak demand for construction chemicals in North America and Europe and lower gross profit percentage, partially offset by increased sales in emerging regions.

Table of Contents

*Corporate Overview*

**Three Months Ended June 30,  
(\$ in millions)**

**Six Months Ended June 30,  
(\$ in millions)**

Corporate costs include corporate support function costs (such as finance, legal services, human resources, communications, information technology and incentive compensation related to corporate functions), and other corporate costs such as insurance premiums and professional fees. Corporate costs increased by \$1.8 million in the second quarter compared with the prior year quarter and \$4.7 million for the six months compared with the prior year period.

*Pension Expense*

Defined benefit pension expense includes costs under U.S. and non-U.S. defined benefit pension plans that provide benefits to Grace Davison, Grace Construction Products, and corporate employees.

Defined benefit pension expense for the second quarter and six months was \$18.4 million and \$38.3 million compared with \$20.5 million and \$42.4 million for the prior year comparative periods. The decrease in costs was primarily due to strong pension plan asset performance in the U.S. in 2009.

Table of Contents**Chapter 11- and Asbestos- Related Activities**

The following table presents Chapter 11- and asbestos related costs:

(In millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2010	2009	2010	2009
<b>Chapter 11- and asbestos- related costs, net:</b>				
Chapter 11 expenses net of interest income	\$ 4.3	\$ 8.0	\$ 10.8	\$ 18.0
Legal defense costs		10.1		34.7
Asbestos administration costs	1.9	2.7	3.6	4.4
Provision for environmental remediation related to asbestos				2.2
D&O insurance costs related to Chapter 11	0.9	0.8	1.7	1.7
<b>Chapter 11 financing related(A):</b>				
Translation effects intercompany loans	33.0	(18.1)	54.2	(1.8)
Value of currency forward contracts intercompany loans	(32.3)	17.7	(51.5)	9.3
Certain other currency translation costs, net		2.4	1.6	4.4
COLI income net		(0.2)		(1.2)
<b>Chapter 11- and asbestos- related costs, net</b>	<b>\$ 7.8</b>	<b>\$ 23.4</b>	<b>\$ 20.4</b>	<b>\$ 71.7</b>

Note A: Due to the bankruptcy, Grace has had significant intercompany loans between its non-U.S. subsidiaries and its U.S. debtor subsidiaries that are not related to its operating activities. In addition, Grace has accumulated significant cash during its bankruptcy. The intercompany loans are expected to be paid when Grace emerges from bankruptcy, and excess cash balances are expected to be used to fund a significant portion of Grace's emergence from bankruptcy. Accordingly, income and expense items related to the intercompany loans and the cash balances are categorized as Chapter 11- and asbestos-related costs, net.

The decrease in Chapter 11- and asbestos- related costs, net, for the second quarter compared with the prior year quarter was primarily due to the conclusion of the Montana criminal proceedings in the prior year quarter and lower Chapter 11-related activity compared with the prior year quarter.

The decrease in Chapter 11- and asbestos- related costs, net, for the six months compared with the prior year period was primarily due to the conclusion of the Montana criminal proceedings in the prior year period, lower Chapter 11-related activity, and a decrease in the effects of currency translation compared with the prior year period.

**Interest Expense**

Interest expense for the second quarter and six months increased compared with the prior year comparative periods due to the compounding of interest on certain liabilities subject to compromise over the course of the Chapter 11 proceeding.

The average effective interest rates on pre-petition obligations for the six months and prior year period were 3.6% and 3.5%, respectively. Such interest will not be paid until the Joint Plan or another plan of reorganization is confirmed and becomes effective.

**Income Taxes**

The income tax provision (benefit) at the federal corporate rate of 35% for the six months and prior year period would have been \$38.9 million and \$(7.9) million, respectively. The primary differences in each period between these amounts and the recorded provision (benefit) for income

Table of Contents

taxes, \$3.9 million and \$(6.6) million, respectively, are discrete adjustments primarily related to provisions for tax contingencies, certain nondeductible expenses including chapter 11 and tax rate differences in foreign jurisdictions. During the six months, the Company recorded discrete adjustments to reduce our provision for income taxes by approximately \$31 million mainly in connection with a settlement with the Internal Revenue Service.

See Note 7 to the Consolidated Financial Statements for a further discussion of Income Taxes.

**Financial Condition, Liquidity, and Capital Resources**

Following is an analysis of our financial condition, liquidity and capital resources at June 30, 2010. For additional information regarding our Chapter 11 cases, see Note 2 to the Consolidated Financial Statements. For additional information regarding our asbestos-related litigation, see Note 3 to the Consolidated Financial Statements. For additional information regarding environmental matters, see Note 10 to the Consolidated Financial Statements.

***Funding Emergence from Chapter 11***

We filed a joint plan of reorganization with the bankruptcy court on September 19, 2008. We refer herein to this joint plan of reorganization, as subsequently amended and modified, as the Joint Plan. The Joint Plan and some of the objections thereto are described in Note 2 to the Consolidated Financial Statements. The Joint Plan includes material conditions to its confirmation and effectiveness. One of these conditions is that we obtain exit financing in an amount and on terms satisfactory to us. Based on current liquidity and our projections of 2010 cash flow, we expect to require new financing of less than \$800 million to consummate the Joint Plan. In addition, we intend to seek a \$200 million revolving credit facility in connection with our exit financing. Goldman Sachs and Deutsche Bank have been selected as our lead lenders and, in February 2010, we entered into engagement letters with these banks. The actual amount of new financing that we will need to fund the Joint Plan will generally depend on the amount of our available cash resources, including net cash flow from our operating and investing activities prior to emergence, and the final resolution costs for our outstanding claims and contingent liabilities. In preparation for emergence, in 2009, we repatriated approximately \$173 million from our non-US subsidiaries to fund payment of bankruptcy claims. In addition, our principal U.S. subsidiary holds a loan of approximately \$303.4 million from a foreign subsidiary. We expect that all or a substantial portion of this loan will be repaid at the time of emergence.

***Cash Resources and Available Credit Facilities***

At June 30, 2010, we had available liquidity of \$898.1 million, consisting of \$841.6 million in cash and cash equivalents (approximately \$624.1 million in the U.S.), and approximately \$56.5 million of available liquidity under various non-U.S. credit facilities.

On March 2, 2010, we terminated our debtor-in-possession (DIP) facility and replaced it with a \$100 million cash-collateralized letter of credit facility to support existing and new financial assurances. The terminated DIP facility also provided credit support for foreign currency and commodity derivatives. The asset backed arrangement of the DIP facility is now replaced with cash collateral accounts which secure the obligations arising from letters of credit, foreign currency and commodity transactions. At June 30, 2010, we held \$81.5 million in restricted cash and cash equivalents primarily to support this facility. At emergence, we expect to replace the cash-collateralized letter of credit facility with a revolving credit facility and to use the restricted cash to reduce our exit financing requirements.

Our non-U.S. credit facilities are extended to various subsidiaries and used by them to issue bank guarantees supporting trade activity and to provide working capital during occasional cash

Table of Contents

shortfalls. Our largest non-U.S. credit facility is in Germany and is secured by third-party accounts receivable, with availability determined on the basis of eligible outstanding receivables. There are currently no borrowings outstanding under this facility. Most of our other credit facilities are unsecured and are offered subject to annual review and renewal.

The following table summarizes our non-U.S. credit facilities as of June 30, 2010:

<b>Credit Facilities (In millions)</b>	<b>Maximum Borrowing Amount</b>	<b>Available Liquidity</b>	<b>Expiration Date</b>
<b>Country</b>			
Germany	\$ 61.7	\$ 48.1	12/31/11
Other Countries	12.9	8.4	Various through 2011
<b>Total</b>	<b>\$ 74.6</b>	<b>\$ 56.5</b>	

We believe that these funds and credit facilities will be sufficient to finance our operations and support our business strategy while we are in Chapter 11. We intend to renew our non-U.S. facilities as they expire.

***Analysis of Cash Flows***

The following table summarizes our cash flows for the six months and prior year period:

<b>(In millions)</b>	<b>Six Months Ended</b>	
	<b>June 30,</b>	
	<b>2010</b>	<b>2009</b>
Net cash provided by operating activities	\$ 83.3	\$ 118.6
Net cash provided by (used for) investing activities	(123.2)	44.6
Net cash provided by (used for) financing activities	2.7	(19.6)
Effect of currency exchange rate changes on cash and cash equivalents	(14.2)	4.0
Increase (decrease) in cash and cash equivalents	(51.4)	147.6
Cash and cash equivalents, beginning of period	893.0	460.1
Cash and cash equivalents, end of period	\$ 841.6	\$ 607.7

Net cash provided by operating activities for the six months was \$83.3 million compared with \$118.6 million for the prior year period. The change in cash provided by operating activities primarily relates to increased earnings in the current year and a decrease in restructuring charges partially offset by working capital improvements achieved in the prior year period.

Net cash used for investing activities for the six months was \$123.2 million, compared with \$44.6 million provided by investing activities for the prior year period. The use of cash for investing activities for the six months is primarily due to a transfer of \$81.5 million to restricted cash and cash equivalents related to the new letter of credit facility. Additionally, we received proceeds of \$68.8 million from termination of life insurance policies in the prior year period.

***Debt and Other Contractual Obligations***

Total debt outstanding at June 30, 2010 was \$902.4 million, including \$370.6 million of accrued interest on pre-petition debt. As a result of the Chapter 11 filing, we are now in default on \$525.8 million of pre-petition debt, which, together with accrued interest thereon, has been included in "liabilities subject to compromise" as of June 30, 2010. The automatic stay provided under the U.S. Bankruptcy Code prevents our lenders from taking any action to collect the principal amounts

Table of Contents

as well as related accrued interest. However, we will continue to accrue and report interest in accordance with the Joint Plan on such debt during the Chapter 11 proceedings unless further developments lead our management to conclude that it is probable that such interest will be compromised.

See Note 10 to the Consolidated Financial Statements for a further discussion of Financial Assurances.

**Employee Benefit Plans**

See Note 8 to the Consolidated Financial Statements for further discussion of Pension Plans and Other Postretirement Benefit Plans.

**Defined Contribution Retirement Plan**

We sponsor a defined contribution retirement plan for our employees in the United States. This plan is qualified under section 401(k) of the U.S. tax code. Currently, we contribute an amount equal to 100% of employee contributions, up to 6% of an individual employee's salary or wages. Our costs related to this benefit plan for the three and six month periods ended June 30, 2010 were \$3.1 million and \$6.5 million compared with \$3.1 million and \$5.9 million for the prior year periods.

**Defined Benefit Pension Plans**

We sponsor defined benefit pension plans for our employees in the U.S., Canada, the U.K., Australia, Germany, Italy, France, Spain, Netherlands, Japan, Philippines, South Korea, Taiwan, South Africa, Brazil and Mexico and fund government-sponsored programs in other countries where we operate. Certain of our defined benefit pension plans are advance-funded and others are pay-as-you-go. The advance-funded plans are administered by trustees who direct the management of plan assets and arrange to have obligations paid when due out of a trust. Our most significant advance-funded plans cover current and former salaried employees in the U.S. and U.K. and employees covered by collective bargaining agreements at certain of our U.S. facilities. Our U.S. advance-funded plans are qualified under the U.S. tax code.

The following table presents the funded status of our fully-funded, underfunded, and unfunded pension plans:

Funded Status of Pension Plans (In millions)	Fully Funded(1) Pension Plans		Underfunded(1) Pension Plans		Unfunded(2) Pension Plans	
	June 30	December 31	June 30	December 31	June 30	December 31
	2010	2009	2010	2009	2010	2009
Projected benefit obligation	\$ 197.1	\$ 214.2	\$ 1,104.1	\$ 1,040.4	\$ 274.2	\$ 276.5
Fair value of plan assets	224.8	250.9	661.9	668.2		
Funded status (PBO basis)	\$ 27.7	\$ 36.7	\$ (442.2)	\$ (372.2)	\$ (274.2)	\$ (276.5)

(1) Plans intended to be advance-funded.

(2) Plans intended to be pay-as-you-go.

Fully-funded plans include several advance-funded plans where the fair value of the plan assets exceeds the projected benefit obligation, or PBO. This group of plans was overfunded by \$27.7 million as of June 30, 2010, and the overfunded status is reflected as "overfunded defined benefit pension plans" in the Consolidated Balance Sheet. Underfunded plans include a group of advance-funded plans that are underfunded on a PBO basis by a total of \$442.2 million as of June 30, 2010. Additionally, we have several plans that are funded on a pay-as-you-go basis, and

Table of Contents

therefore, the entire PBO of \$274.2 million at June 30, 2010 is unfunded. The combined balance of the underfunded and unfunded plans was \$716.4 million as of June 30, 2010 and is presented as a liability on the Consolidated Balance Sheet as follows: \$12.2 million in "other current liabilities;" \$594.1 million included in "underfunded and unfunded defined benefit pension plans", of which \$442.2 million relates to underfunded plans and \$151.9 million relates to unfunded plans; and \$110.1 million in "liabilities subject to compromise."

On a quarterly basis, we analyze pension assets and pension liabilities along with the resulting funded status and update our estimate of these measures. Funded status is adjusted for contributions, benefit payments, actual return on assets, current discount rates and other identifiable and material actuarial changes.

Assets available to fund the PBO of the U.S. advance-funded plans at June 30, 2010 were approximately \$631 million, down \$27 million from December 31, 2009, primarily as a result of negative equity market returns.

The following table presents the components of cash contributions for the advance-funded and pay-as-you-go plans:

<b>Cash Contributions to Defined Benefit Pension Plans (In millions)</b>	<b>Three Months Ended June 30,</b>		<b>Six Months Ended June 30,</b>	
	<b>2010</b>	<b>2009</b>	<b>2010</b>	<b>2009</b>
U.S. advance-funded plans	\$ 9.9	\$ 8.5	\$ 18.7	\$ 16.1
U.S. pay-as-you-go plans	1.4	1.3	2.7	2.6
Non-U.S. advance-funded plans	0.5	0.6	1.9	1.8
Non-U.S. pay-as-you-go plans	1.7	2.0	3.5	3.6
<b>Total Cash Contributions</b>	<b>\$ 13.5</b>	<b>\$ 12.4</b>	<b>\$ 26.8</b>	<b>\$ 24.1</b>

We expect to fund our U.S. advance-funded plans with approximately \$46 million in 2010 based on funding requirements determined in mid-2009.

Contributions to non-U.S. pension plans are not subject to bankruptcy court approval and we intend to fund such plans based upon applicable legal requirements and actuarial and trustee recommendations. We contributed \$5.4 million to these plans during the six months.

*Postretirement Benefits Other Than Pensions*

We provide certain health care and life insurance benefits for retired employees, a large majority of whom are retirees of divested businesses. These plans are unfunded, and we pay the costs of benefits under these plans as they are incurred. Our share of benefits under this program for the second quarter and six months was \$1.6 million and \$2.2 million compared with \$2.5 million and \$3.4 million for the prior year comparative periods. We received Medicare subsidy payments of \$1.4 million during the six months compared with \$2.5 million for the prior year period. Our recorded liability for postretirement benefits of \$71.2 million at June 30, 2010 is stated at net present value discounted at 4.75%. Under our proposed Joint Plan, these benefits would continue.

*Tax Matters*

Upon emergence from Chapter 11 under our proposed Joint Plan, or another plan of reorganization that is ultimately confirmed, we expect to have substantial future tax deductions in the aggregate of approximately \$2 billion or more primarily relating to asbestos, environmental and other payments made at emergence and thereafter. We anticipate generating significant U.S. NOL carryforwards upon emergence from Chapter 11. Because we did not pay a significant amount of U.S. tax in prior years and/or have already received or applied for tax refunds from available NOL

Table of Contents

carryback years, we expect to carryforward most of the NOLs after emergence from Chapter 11. Under Federal income tax law, a corporation is generally permitted to carryforward NOLs for a 20-year period for deduction against future taxable income. The extent to which we will be able to use these deductions after emergence will depend on Section 382 of the Internal Revenue Code, which generally imposes an annual limitation on a corporation's use of its deductions when a corporation undergoes an "ownership change." An ownership change is generally defined as a cumulative change of 50 percentage points or more in the ownership of certain stockholders owning 5% or more of the outstanding Grace common stock over a three year rolling period. If we were to have a change of ownership under Section 382 of the Code, approximately \$2 billion of these future deductions could be at risk. The Bankruptcy Court has entered an order that places certain limitations on trading in Grace common stock or options convertible into Grace common stock during the course of the Chapter 11 Cases. Nevertheless, we can provide no assurance that these limitations will prevent an ownership change or that our ability to utilize NOLs will not be significantly limited as a result of the Chapter 11 Cases.

Accordingly, the proposed charter for the reorganized corporation under the Joint Plan provides that in the event there has been a 25 percentage point change of ownership in outstanding Grace stock after emergence, the Board of Directors will have the authority to impose restrictions on the transfer of Grace stock with respect to certain 5% shareholders. These transfer restrictions will generally not impose any limitations on a person or other entity that holds less than 5% of the outstanding Grace stock after emergence to either buy or sell Grace stock on the open market.

See Note 7 to the Consolidated Financial Statements and "Income Taxes" above for further discussion of our tax accounting and tax contingencies.

***Highly Inflationary Economy***

In the first quarter of 2010, Venezuela's economy was determined to be highly inflationary when the blended CPI/NCPI cumulative three-year inflation rate exceeded 100%. Beginning in the first quarter of 2010, we are accounting for the results of our Venezuela operations as highly inflationary. We have remeasured our December 31, 2009 Venezuelan balance sheet into our functional currency (USD) and any translation impact has been charged to earnings. The impact of this change was immaterial to our results of operations.

In January 2010, the Venezuelan government announced a devaluation of the bolivar in an effort to stabilize the economy. Venezuela announced that the fixed official rate would be devalued from the official exchange rate in place since 2005 of 2.15 per USD to a dual rate that sets the bolivar at 4.30 per USD for non-essential items and 2.60 per USD for food, medical supplies and machinery. We expect to primarily use the official rate of 4.30 to record our bolivar denominated transactions in 2010. We expect the overall financial impact to be mitigated by measures in place to minimize the impact to our operations and financial results. Sales in Venezuela accounted for less than 1% of our second quarter and six months sales, respectively. We will continue to monitor developments in the Venezuelan economy to determine any impact to our business activities.

***Other Contingencies***

See Note 10 to the Consolidated Financial Statements for a discussion of our other contingent matters.

**Critical Accounting Estimates**

See the "Critical Accounting Estimates" heading in Item 7 of our Form 10-K for the year ended December 31, 2009 for a discussion of our critical accounting estimates.

Table of Contents

**Recent Accounting Pronouncements**

See Note 1 of Consolidated Financial Statements for a discussion of recent accounting pronouncements and their effect on us.

***Forward Looking Statements***

This document contains, and our other public communications may contain, forward-looking statements, that is, information related to future, not past, events. Such statements generally include the words "believes," "plans," "intends," "targets," "will," "expects," "suggests," "anticipates," "continues" or similar expressions. Forward-looking statements include, without limitation, all statements regarding our Chapter 11 case; expected financial positions; results of operations; cash flows; financing plans; business strategy; budgets; capital and other expenditures; competitive positions; growth opportunities for existing products; benefits from new technology and cost reduction initiatives, plans and objectives; and markets for securities. For these statements, we claim the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995. Like other businesses, we are subject to risks and uncertainties that could cause our actual results to differ materially from our projections or that could cause other forward-looking statements to prove incorrect. Factors that could cause actual results to materially differ from those contained in the forward-looking statements include, without limitation: developments affecting our bankruptcy, proposed plan of reorganization and settlements with certain creditors, the cost and availability of raw materials and energy, developments affecting our unfunded pension obligations, risks related to foreign operations, especially in emerging regions, the effectiveness of our research and development and growth investments, our legal and environmental proceedings, costs of compliance with environmental regulation and those factors set forth in our most recent Annual Report on Form 10-K, this quarterly report on Form 10-Q and current reports on Form 8-K, which have been filed with the Securities and Exchange Commission and are readily available on the Internet at [www.sec.gov](http://www.sec.gov). Our reported results should not be considered as an indication of our future performance. Readers are cautioned not to place undue reliance on our projections and forward-looking statements, which speaks only as of the date thereof. We undertake no obligation to publicly release any revision to the projections and forward-looking statements contained in this document, or to update them to reflect events or circumstances occurring after the date of this document.

Table of Contents

**Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

With respect to information disclosed in the "Quantitative and Qualitative Disclosures About Market Risk" section of our Annual Report on Form 10-K for the year ended December 31, 2009, more recent numerical measures and other information are available in the "Financial Statements" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" sections of this Report. These more recent measures and information are incorporated herein by reference.

**Item 4. CONTROLS AND PROCEDURES**

*EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES*

As of June 30, 2010, Grace carried out an evaluation of the effectiveness of the design and operation of its disclosure controls and procedures pursuant to Rule 13a-15 under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Based upon that evaluation, Grace's Chief Executive Officer and Chief Financial Officer concluded that Grace's disclosure controls and procedures are effective to ensure that information required to be disclosed in Grace's Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that material information relating to Grace is made known to management, including Grace's Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

*CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING*

There were no changes in Grace's internal control over financial reporting during the quarter ended June 30, 2010 that have materially affected, or are reasonably likely to materially affect, Grace's internal control over financial reporting.

Table of Contents

**PART II. OTHER INFORMATION**

**Item 1. LEGAL PROCEEDINGS**

Notes 2, 3 and 10 to the interim consolidated financial statements in Part 1 of this Report are incorporated herein by reference.

**Item 1A. RISK FACTORS**

In addition to the other information set forth in this Report, you should carefully consider the risk factors discussed in the "Risk Factors" section of our Annual Report on Form 10-K for the year ended December 31, 2009, which could materially affect our business, financial condition or future results. The risks described in this Report and in our Annual Report on Form 10-K are not the only risks facing Grace. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition or future results. With respect to certain risk factors discussed in our Annual Report on Form 10-K, more recent numerical measures and other information are available in the "Financial Statements" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" sections of this Report. These more recent measures and information are incorporated herein by reference.

**Item 6. EXHIBITS**

In reviewing the agreements included as exhibits to this and other Reports filed by Grace with the Securities and Exchange Commission, please remember they are included to provide you with information regarding their terms and are not intended to provide any other factual or disclosure information about Grace or other parties to the agreements. The agreements generally contain representations and warranties by each of the parties to the applicable agreement. These representations and warranties have been made solely for the benefit of the other parties to the applicable agreement. These representations and warranties:

Are not statements of fact, but rather are used to allocate risk to one of the parties if the statements prove to be inaccurate;

May have been qualified by disclosures that were made to the other parties in connection with the negotiation of the applicable agreement, which disclosures are not necessarily reflected in the agreement;

May apply standards of materiality in a way that is different from what may be viewed as material to you or other investors;  
and

Were made only as of the date of the applicable agreement or such other date or dates as may be specified in the agreement and do not reflect more recent developments.

Accordingly, these representations and warranties may not describe the actual state of affairs as of the date they were made or at any other time. Additional information about Grace may be found elsewhere in this report and Grace's other public filings, which are available without charge through the Securities and Exchange Commission's website at <http://www.sec.gov>.

Table of Contents
