This summary is not complete and does not contain all of the information that you should consider before deciding whether to invest in our common stock. You should carefully read this entire prospectus, including the information set forth below in the section titled "Risk Factors" and in the section titled "Risk Factors" in the documents incorporated herein by reference, including our Annual Report on Form 10-K for the year ended December 31, 2014, our Quarterly Report on Form 10-Q for the quarter ended March 30, 2015 and our Quarterly Report on Form 10-Q for the quarter ended June 30, 2015, the other information incorporated by reference in this prospectus, and the information included in any free writing prospectus that we have authorized for use in connection with this offering. Some of the statements in this prospectus constitute forward-looking statements. See the section titled "Special Note Regarding Forward-Looking Statements and Industry Data" for more information. In this prospectus "Company," "Q2," "we," "us," and "our" refer to Q2 Holdings, Inc. and its subsidiaries.

Overview

Q2 is a leading provider of secure, cloud-based virtual banking solutions. We enable regional and community financial institutions, or RCFIs, to deliver a robust suite of integrated virtual banking services and engage more effectively with their retail and commercial account holders who expect to bank anytime, anywhere and on any device. Our solutions are often the most frequent point of interaction between our RCFI customers and their account holders. As such, we purpose-built our solutions to deliver a compelling, consistent user experience across digital channels and drive the success of our customers by extending their local brands, enabling improved account holder retention and creating incremental sales opportunities.

Our founding team has provided software solutions to the RCFI market for over 20 years, and they started Q2 with the mission of using technology to help RCFIs succeed and strengthen the communities they serve. We leverage our deep domain expertise to develop highly-secure virtual banking solutions designed to help our customers compete in the complex and heavily-regulated financial services industry. We internally design and develop our solutions around a common platform that tightly integrates our solutions with each other and with our customers' internal and third-party systems. This integrated approach delivers to account holders a unified and robust virtual banking experience across online, mobile, voice and tablet channels and allows for close, lasting relationships. We designed our solutions and data center infrastructure to comply with the stringent security and technical regulations applicable to financial institutions and to safeguard our customers and their account holders.

The RCFI market consists of banks and credit unions that compete to provide financial services in the U.S. RCFIs have historically sought to differentiate themselves and build account holder loyalty by providing localized, in-branch banking services and serving as centers of commerce and influence in their communities. However, account holders increasingly engage with their financial services providers across digital channels rather than in physical branches, making it easier for account holders to access competitive financial services and harder for RCFIs to maintain account holder loyalty. Innovation in financial services technologies, the proliferation of mobile and tablet devices and evolving consumer expectations for modern and intuitive user experiences are pressuring RCFIs to deliver advanced virtual banking services to successfully compete and grow.

RCFIs, unlike larger national banks, typically operate without all of the resources and personnel required to effectively deploy, manage and enhance their own internally-developed virtual banking offerings. In addition, RCFIs are required to spend increasing amounts of time and money complying with rapidly changing federal and state rules and regulations and frequent examinations by regulatory

Table of Contents

agencies. As a result, RCFIs are challenged to satisfy account holder expectations and compete effectively in what has become a complex and dynamic environment. These challenges often cause RCFIs to rely on disparate, third-party and internally-developed point systems to deliver virtual banking services. However, many of these systems provide limited features and functionality or can be expensive and time-intensive to implement, maintain and upgrade.

Our software-as-a-service, or SaaS, delivery model is designed to scale with our customers as they add account holders on our solutions and expand the breadth of virtual banking services they offer. Our SaaS delivery model is also designed to reduce the cost and complexity of implementing, maintaining and enhancing the virtual banking services our RCFI customers provide to their account holders. RCFIs can configure our solutions to function in a manner that is consistent with their specific workflows, processes and controls and personalize the experiences they deliver to their account holders by extending the services and local character of their branches across digital channels.

We primarily sell subscriptions to our cloud-based solutions through our direct sales organization and recognize the related revenues over the terms of our customer agreements. The initial term of our customer agreements averages over five years, although it varies by customer. Our revenues increase as we add new customers and sell additional solutions to existing customers and as our customers increase the number of account holders on our solutions. We earn additional revenues based on the number of bill-pay and certain other transactions that account holders perform on our virtual banking solutions in excess of the levels included in our standard subscription fee. We support the efforts of our sales organization through a network of key referral partners.

Our RCFI customers represent less than 3% of the federally insured RCFIs in the U.S. with less than \$50 billion in assets. We believe we can capture an increasing portion of the IT spend among RCFIs as we continue to grow our customer base and introduce new solutions. As of December 31, 2014, we had 361 installed customers, compared to 334 as of December 31, 2013. As of June 30, 2015, we had approximately 5.7 million retail and commercial users registered on our solutions, compared to 4.3 million registered users and 3.9 million registered users on December 31, 2014 and June 30, 2014, respectively. As our customer base has grown, we have been able to sell our solutions into increasingly larger financial institutions. Our current RCFI customers are in 47 states.

We have achieved significant growth since our inception. We had total revenues of \$41.1 million, \$56.9 million and \$79.1 million in 2012, 2013 and 2014, respectively, and total revenues of \$40.0 million and \$50.4 million in the six months ended June 30, 2014 and 2015, respectively. We seek to deepen and grow our customer relationships by providing consistent, high-quality implementation and customer support services which we believe drives higher customer retention and incremental sales opportunities within our existing customer base.

We have invested, and intend to continue to invest, to grow our business by expanding our sales and marketing activities, developing new solutions, enhancing our existing solutions and technical infrastructure and scaling our operations. We incurred net losses of \$8.8 million, \$17.9 million and \$19.6 million in 2012, 2013 and 2014, respectively, and net losses of \$10.2 million and \$9.6 million in the six months ended June 30, 2014 and 2015, respectively.

Industry Background

RCFIs are a substantial and critical part of the economy

The U.S. financial services market is intensely competitive, and RCFIs have historically sought to differentiate themselves by obtaining deposits and making lending decisions on a local basis and providing local, personalized banking services that are responsive to the changing needs and circumstances of their communities. As a result, RCFIs often develop strong, lasting relationships with their account holders and serve as centers of commerce and influence in their communities. According

Table of Contents

to a 2014 report from the Small Business Administration, small businesses (typically those with fewer than 500 employees) generated 60% of all net new jobs in the U.S. between mid-2013 and 2014, and according to FDIC data, as of September 30, 2014, RCFIs underwrote approximately 76% of all loans to these businesses during the first nine months of 2014.

RCFIs must respond to innovations in banking

A growing number of account holders are utilizing banking services, such as paying bills, viewing balances and transactions, viewing statements and transferring money. To appeal to, better engage with and sell more products and services to these account holders, RCFIs must deliver robust virtual banking capabilities that allow account holders to seamlessly transition between physical branches and digital channels.

The proliferation of mobile and tablet devices and evolving consumer expectations for modern and intuitive user experiences increase the challenges of offering virtual banking solutions

The proliferation of smart mobile and tablet devices expands the channels through which account holders can perform virtual banking activities, decreasing the need to visit physical bank branches. The accelerating adoption of these devices and the extension of virtual banking services into these devices are making it increasingly difficult to provide a consistent, intuitive and personalized user experience and driving the need for virtual banking solutions that support new and rapidly changing mobile operating systems and device types.

Prominent consumer brands such as Amazon, Google and Netflix are continually innovating and shaping consumer expectations by delivering modern, intuitive user experiences across digital channels. As a result, RCFIs must deliver compelling user experiences to satisfy account holder expectations and increase account holder loyalty.

Security is of paramount importance in virtual banking

As the adoption and use of virtual banking services has increased, the incidence of fraud and theft in digital channels has grown substantially. Safeguarding RCFI and account holder funds and information becomes increasingly complex as virtual banking services grow and extend across new channels and devices.

Market dynamics are driving demand for third-party solutions

RCFIs, unlike larger national banks, typically operate without all of the resources and personnel required to effectively deploy, manage and enhance their own internally-developed virtual banking service offerings. In addition, RCFIs are having to commit additional time and resources to comply with rapidly changing federal and state rules and regulations and frequent regulatory examinations. These market dynamics are driving greater demand among RCFIs for modern, intuitive virtual banking solutions from leading third-party providers.

Organizations are increasingly transitioning to SaaS providers

SaaS solutions can provide a number of benefits to RCFIs, such as lower costs of ownership and operation, improved performance and integration, greater flexibility and scalability, easier deployment of upgrades and enhancements and efficient compliance with regulatory requirements.

Traditional virtual banking systems have limitations

Many traditional virtual banking systems were originally developed over a decade ago to address a single type of account holder or specific digital channel, such as voice banking. These systems can

Table of Contents

create challenges for RCFIs, such as increased implementation costs and delayed time-to-market due to the need to integrate applications and digital channels from multiple vendors and incremental time and expense to train account holders and internal personnel on the use of different point systems.

We believe innovation in financial services technologies, the proliferation of mobile and tablet devices and evolving consumer expectations for modern and intuitive user experiences, combined with the limitations of traditional systems, create a significant opportunity for a SaaS provider to address the challenges RCFIs face as they seek to increase their level of engagement with account holders across digital channels and drive account holder loyalty. We believe this opportunity creates a substantial and growing market for cloud-based virtual banking solutions that deliver modern, intuitive self-service banking capabilities with a compelling and personalized user experience across digital channels and devices, while complying with regulatory requirements and safeguarding RCFIs and their account holders from fraud and theft.

Our Solutions

We provide secure, compliant cloud-based software solutions designed to enable RCFIs to grow their account holder bases and increase their profitability and market share by leveraging the power of virtual banking. Our solutions are often the most frequent point of interaction between our RCFI customers and their account holders. As such, we purpose-built our solutions to deliver a compelling, consistent user experience across digital channels and devices, promoting account holder acquisition and retention and creating incremental sales opportunities.

Key Attributes Our virtual banking solutions include the following key attributes:

Common platform: Our solutions all operate on a common platform that supports the delivery of unified virtual banking services across online, mobile, voice and tablet channels.

Tablet-first design: We initially design the features and user experience of our solutions to be optimized for touch-based tablet devices and then extend that design to other digital channels, enabling our solutions to deliver a modern, unified user experience across digital channels.

Comprehensive view of account holders: Our cloud-based solutions and common platform provide our customers with a comprehensive view of account holder access and activity across devices and channels.

Flexible integration: We have developed a highly flexible set of integration tools, enabling the rapid integration of third-party applications and data sources.

SaaS delivery model: We developed our solutions to be cloud-based, and we host our solutions for substantially all of our RCFI customers.

Regulatory compliance: Our solutions leverage our deep domain expertise and the significant investments we have made in the design and development of our data center architecture and other technical infrastructure to meet the stringent security and technical regulations applicable to financial institutions.

Security: Our solutions provide both behavioral analytics and policy-based decision prompts to identify suspect transactions and allow RCFI administrators to analyze transaction activity.

Key Benefits We believe our solutions provide the following key benefits to our RCFI customers and their account holders:

Delivery of robust virtual banking services across digital channels: Our cloud-based solutions enable our RCFI customers to deliver robust and integrated virtual banking services to their account holders who increasingly expect and appreciate the freedom to bank anytime, anywhere and on any device.

Table of Contents

Improved and more frequent engagement with account holders: The breadth of our virtual banking solutions and quality of the user experience they provide enable our RCFI customers to increase the frequency and effectiveness of their interactions with account holders.

Drive account holder loyalty: We believe our RCFI customers are able to drive account holder loyalty by increasing their level of engagement with account holders and consolidating their virtual banking activities on a single platform across devices and digital channels.

More effective marketing of products and services: Our customers' marketing of their new and existing products and services through our solutions can be more frequent, timely and targeted than through traditional advertising.

Real-time security: Our integrated Q2 Risk & Fraud Analytics offering allows our customers to better identify suspect activities and protect against fraud and theft prior to funds leaving the financial institution by monitoring and understanding the behavior and activities of their account holders across channels. We recently acquired Centrix Solutions, Inc., or Centrix, to strengthen our security, compliance and risk management capabilities and offerings.

Lower total cost of ownership: Our SaaS delivery model can reduce the total cost of ownership of our customers by providing on a subscription basis the development, implementation, integration, maintenance, monitoring and support of our cloud-based solutions.

Facilitate regulatory compliance: Customers who use our cloud-based solutions are able to satisfy security and technical compliance obligations by relying on the security programs and regulatory certification of our data centers and other technical infrastructure.

Our Business Strengths

We believe our position as a leading provider of virtual banking solutions to our RCFI customers stems from the following strengths:

Our purpose-built solutions lead the RCFI virtual banking market: Our common platform was created to support the proliferation of mobile and tablet devices, tightly integrate with the disparate systems within RCFIs and provide a compelling, unified user experience to retail and commercial account holders using a single login anywhere, anytime and on any device.

We have a proven track record in the markets we serve: Our founders, management and employees have the deep industry-specific experience needed to drive our continued growth and expansion.

Our customer acquisition model is focused and efficient: We focus our customer acquisition efforts exclusively on the well-defined RCFI market which allows us to effectively direct our sales and marketing efforts.

We grow our customer relationships over time: We employ a structured strategy designed to inform, educate and enhance customer confidence and help our customers identify and implement additional solutions designed to benefit and grow their account holder bases.

Our revenues are highly predictable: Our long-term agreements and high customer retention, as well as the growth over time in the number of account holders using our solutions, drive the recurring nature of our revenues and provide us with significant visibility into future revenues.

Our award-winning culture drives innovation and customer success: We believe our award-winning, innovation-focused culture and the location of our operations in Austin, Texas facilitate recruiting and retaining top development, integration and design talent.

Our Growth Strategy

We are pursuing the following growth strategies:

Further penetrate our large market opportunity: Our current customers represent less than 3% of the federally-insured RCFIs in the U.S. with less than \$50 billion in assets. We intend to further penetrate our large market opportunity and increase our number of RCFI customers through investments in our sales and marketing organizations and related activities.

Grow revenues by expanding our relationships with existing customers: We believe there is significant opportunity to expand our relationships with existing customers by selling additional solutions such as mobility applications, remote check deposit, treasury management solutions and mobile bill payment and to grow our revenues as these customers increase the number of account holders on our solutions.

Continue to expand our solutions and enhance our platform: We intend to continue to invest in our software development efforts and introduce new solutions that are largely informed by and aligned with the business objectives of our existing and new customers.

Further develop our partner relationships: We plan to leverage our partner ecosystem and cultivate new partner relationships to increase the awareness of our solutions.

Selectively pursue acquisitions and strategic investments: We regularly evaluate strategic opportunities and recently completed our acquisition of Centrix. We plan on continuing to selectively pursue acquisitions of and strategic investments in businesses and technologies that will strengthen and expand the features and functionality of our solutions or provide access to new customers.

Recent Events

On July 31, 2015, we acquired Centrix, a provider of products that detect fraud, manage risk and simplify compliance for financial institutions, for \$20 million in cash. The former shareholders of Centrix also have the right to receive in the aggregate up to an additional \$9 million based upon the achievement of certain milestones and the continued employment of certain former Centrix shareholders. We believe the acquisition of Centrix provides us with the ability to deliver additional expertise and solutions that strengthen our security, compliance and risk management capabilities and offerings.

Risks Affecting Our Business

Our business is subject to a number of risks that you should understand before making an investment decision. These risks are discussed more fully in the section titled "Risk Factors" following this prospectus summary. Some of our most significant risks are:

we have experienced rapid growth in recent periods, including an increase in the size of our customers, and if we fail to manage our growth effectively, we may be unable to execute our business plan, maintain high levels of service and customer satisfaction or adequately address competitive challenges, and our financial performance may be adversely affected;

if the market for our cloud-based virtual banking solutions develops more slowly than we expect or changes in a way that we fail to anticipate, our sales would suffer and our operating results would be harmed;

our business could be adversely affected if our customers are not satisfied with our virtual banking solutions, particularly as we introduce new products and solutions, or our systems and infrastructure fail to meet their needs;

Table of Contents

our limited operating history makes it difficult to evaluate our current business and future prospects;

the markets in which we participate are intensely competitive, and pricing pressure, new technologies or other competitive dynamics could adversely affect our business and operating results;

if we are unable to effectively integrate our solutions with other systems used by our customers and prospective customers, or if there are performance issues with such third-party systems, our solutions will not operate effectively and our operations will be adversely affected;

our customers are highly regulated and subject to a number of challenges and risks, and our failure to comply with laws and regulations applicable to us as a technology provider to financial institutions and to enable our RCFI customers to comply with the laws and regulations applicable to them could adversely affect our business and results of operations, increase costs and impose constraints on the way we conduct our business;

if our or our customers' security measures are compromised or unauthorized access to customer data is otherwise obtained, our solutions may be perceived as not being secure, customers may curtail or cease their use of our solutions, our reputation may be harmed, and we may incur significant liabilities;

we may experience quarterly fluctuations in our operating results due to a number of factors, which makes our future results difficult to predict and could cause our operating results to fall below expectations or our guidance; and

we may be unable to integrate acquired businesses and technologies successfully or achieve the expected benefits of such acquisitions or investments.

Upon completion of this offering, we anticipate that our directors, executive officers and holders of more than 5% of our common stock, together with their affiliates, will beneficially own, in the aggregate, approximately 40.1% of our outstanding common stock, or 38.7% if the underwriters exercise their option to purchase additional shares in full (assuming the exercise of options for 283,849 shares of our common stock to be sold in this offering and no issuance of shares with respect to other outstanding options or restricted stock units). See "Risk Factors Insiders will continue to have substantial control over us after this offering, which may limit our stockholders' ability to influence corporate matters and delay or prevent a third party from acquiring control over us."

RISK FACTORS

An investment in our common stock involves a high degree of risk. You should carefully consider the risks and uncertainties described below and discussed under the section titled "Risk Factors" contained in the documents incorporated herein by reference, including our Annual Report on Form 10-K for the year ended December 31, 2014, our Quarterly Report on Form 10-Q for the quarter ended March 30, 2015 and our Quarterly Report on Form 10-Q for the quarter ended June 30, 2015, which are incorporated by reference in this prospectus, together with the other information in this prospectus, the information and documents incorporated by reference herein, and in any free writing prospectus that we have authorized for use in connection with this offering. Our business, prospects, financial condition or operating results could be materially adversely affected by any of these risks, which we believe are the material risks currently facing us, as well as other risks not currently known to us or that are currently considered immaterial. The trading price of our common stock could decline due to any of these risks, and you may lose all or part of your investment.

Risks related to this offering

Sales of substantial amounts of our common stock in the public markets, or the perception that they might occur, could reduce the price that our common stock might otherwise attain and may dilute your voting power and your ownership interest in us.

Sales of substantial amounts of our common stock in the public market following this offering, or the perception that such sales could occur, could adversely affect the market price of our common stock and may make it more difficult for you to sell your common stock at a time and price that you deem appropriate. Based on the number of shares outstanding as of June 30, 2015, upon the closing of this offering, we will have outstanding 38,446,268 shares of common stock (assuming the exercise of options for 283,849 shares of our common stock to be sold in this offering and no issuance of shares with respect to other outstanding options or restricted stock units). The shares of our common stock being sold in this offering may be resold immediately in the public market unless they are held by "affiliates," as that term is defined in Rule 144 of the Securities Act.

Subject to certain exceptions described under the caption "Underwriting," we, our directors and executive officers, and the selling stockholders, who together beneficially owned approximately 46.1% of our common stock as of September 8, 2015, have agreed not to offer, sell or agree to sell, directly or indirectly, any shares of common stock without the permission of J.P. Morgan Securities LLC and Stifel, Nicolaus & Company, Incorporated for a period of 90 days from the date of this prospectus. When the lock-up period expires, we, our directors and executive officers and the selling stockholders will be able to sell our shares in the public market. In addition, J.P. Morgan Securities LLC and Stifel, Nicolaus & Company, Incorporated may, in their sole discretion, release all or some portion of the shares subject to lock-up agreements prior to expiration of the lock-up period. Sales of a substantial number of such shares upon expiration, or the perception that such sales may occur, or early release, of the lock-up could cause our share price to decline or make it more difficult for you to sell your common stock at a time and price that you deem appropriate. We also may issue our shares of common stock or securities convertible into our common stock from time to time in connection with a financing, an acquisition, investments or otherwise. Any such issuance could result in substantial ownership dilution to our existing stockholders and cause the trading price of our common stock to decline.

If securities or industry analysts publish unfavorable or misleading research about our business, or cease coverage of our company, our stock price and trading volume could decline.

The trading market for our common stock depends in part on the research and reports that securities or industry analysts publish about us or our business. If one or more of the securities or

Table of Contents

industry analysts who covers us downgrades our stock or publishes unfavorable or misleading research about our business, our stock price would likely decline. If one or more of these analysts ceases coverage of our company or fails to publish reports on us regularly, we could lose visibility in the market for our stock, and demand for our stock could decrease, which could cause our stock price or trading volume to decline.

We have incurred and will continue to incur significant increased expenses and administrative burdens as a public company, which could have a material adverse effect on our operations and financial results.

We face increased legal, accounting, administrative and other costs and expenses as a public company that we did not incur as a private company prior to our initial public offering in March 2014. The Sarbanes-Oxley Act, including the requirements of Section 404, as well as rules and regulations subsequently implemented by the SEC, the Public Company Accounting Oversight Board and the New York Stock Exchange, impose additional reporting and other obligations on public companies. Compliance with public company requirements have and will increase our costs and make some activities more time-consuming. Since our initial public offering, we have created new board committees and have adopted new internal controls and disclosure controls and procedures. In addition, we have and will continue to incur additional expenses associated with our SEC reporting requirements. Furthermore, if we identify any issues in complying with those requirements (for example, if our financial systems prove inadequate or we or our auditors identify deficiencies in our internal control over financial reporting), we could incur additional costs rectifying those issues, and the existence of those issues could adversely affect us, our reputation or investor perceptions of us. It is also more expensive to maintain director and officer liability insurance as a public company. Risks associated with our status as a public company may make it more difficult for us to attract and retain qualified persons to serve on our board of directors or as executive officers. The additional reporting and other obligations imposed on us by these rules and regulations have and we expect will continue to increase our legal and financial compliance costs and the costs of our related legal, accounting and administrative activities. These costs require us to divert a significant amount of money that we could otherwise use to expand our business and achieve our strategic objectives. Proposals submitted by stockholders at our annual meeting or other advocacy efforts by stockholders and third parties may also prompt additional changes in governance and reporting requirements, which could further increase our costs.

In addition, changing laws, regulations and standards relating to corporate governance and public disclosure are creating uncertainty for public companies, increasing legal and financial compliance costs and making some activities more time consuming. These laws, regulations and standards are subject to varying interpretations, in many cases due to their lack of specificity, and, as a result, their application in practice may evolve over time as new guidance is provided by regulatory and governing bodies. This situation could result in continuing uncertainty regarding compliance matters and higher costs necessitated by ongoing revisions to disclosure and governance practices. We intend to invest resources to comply with evolving laws, regulations and standards, and this investment may result in increased general and administrative expenses and a diversion of management's time and attention from revenue-generating activities to compliance activities. If our efforts to comply with new laws, regulations and standards differ from the activities intended by regulatory or governing bodies due to ambiguities related to their application and practice, regulatory authorities may initiate investigations, inquiries, administrative proceedings or legal proceedings against us and our business may be adversely affected.

Table of Contents

Insiders will continue to have substantial control over us after this offering, which may limit our stockholders' ability to influence corporate matters and delay or prevent a third party from acquiring control over us.

Upon completion of this offering, we anticipate that our directors, executive officers and holders of more than 5% of our common stock, together with their affiliates, will beneficially own, in the aggregate, approximately 40.1% of our outstanding common stock, or 38.7% if the underwriters exercise their option to purchase additional shares in full (assuming the exercise of for 283,849 shares of our common stock options to be sold in this offering and no issuance of shares with respect to other outstanding options or restricted stock units). This significant concentration of ownership may adversely affect the trading price for our common stock because investors often perceive disadvantages in owning stock in companies with one or more large stockholders. In addition, these stockholders will be able to exercise significant influence over all matters requiring stockholder approval, including the election of directors and approval of corporate transactions, such as a merger or other sale of our company or its assets. This concentration of ownership could limit your ability to influence corporate matters and may have the effect of delaying or preventing a change in control, including a merger, consolidation or other business combination involving us, or discouraging a potential acquirer from making a tender offer or otherwise attempting to obtain control, even if that change in control would benefit our other stockholders. For information regarding the ownership of our outstanding stock by our executive officers and directors and their affiliates, please see the section titled "Principal and Selling Stockholders."

Our stock price may be volatile, and you may be unable to sell your shares at or above the offering price.

The trading price of our common stock has been and is expected to continue to be highly volatile and could be subject to wide fluctuations in response to various factors, including the risk factors described in this section of the prospectus and in the documents incorporated by reference in this prospectus, and other factors beyond our control. Factors affecting the trading price of our common stock include:

variations in our operating results or the operating results of similar companies;

announcements of technological innovations, new solutions or enhancements or strategic partnerships or agreements by us or by our competitors;

changes in the estimates of our operating results, our financial guidance or changes in recommendations by any securities analysts that follow our common stock;

the gain or loss of customers, particularly our larger customers;

adoption or modification of regulations, policies, procedures or programs applicable to our business and our customers' business;

marketing and advertising initiatives by us or our competitors;

threatened or actual litigation;

changes in our senior management;

recruitment or departure of key personnel;

market conditions in our industry, the industries of our customers and the economy as a whole;

the overall performance of the equity markets;

sales of shares of our common stock by existing stockholders;

Table of Contents

volatility in our stock price, which may lead to higher stock-based compensation expenses under applicable accounting standards; and

the market's reaction to our reduced disclosure as a result of being an emerging growth company under the JOBS Act.

In addition, the stock market in general and the market for technology companies in particular, have experienced extreme price and volume fluctuations that have often been unrelated or disproportionate to the operating performance of those companies. Broad market and industry factors may harm the market price of our common stock regardless of our actual operating performance. These fluctuations may even be more pronounced in the trading market for our stock shortly following this offering. As a result, our common stock may trade at prices significantly below the offering price, and you could lose a significant part of your investment in the event you choose to sell your shares. Some companies that have had volatile market prices for their securities have had securities class action lawsuits filed against them. If a suit were filed against us, regardless of its merits or outcome, it could result in substantial costs and divert management's attention.

Management will have broad discretion over the use of the net proceeds from the sale of shares by us and may apply the net proceeds in ways that do not improve our operating results or increase the value of your investment.

Our management will have broad discretion in the application of the net proceeds from the sale of shares by us and could spend the net proceeds in ways that do not improve our results of operations or enhance the value of our common stock. Our failure to apply these funds effectively could have a material adverse effect on our business and cause the price of our common stock to decline.

You may experience future dilution as a result of future equity offerings.

In order to raise additional capital, we may in the future offer additional shares of our common stock or other securities convertible into or exchangeable for our common stock at prices that may not be the same as the price per share in this offering. We cannot assure you that we will be able to sell shares or other securities in any other offering at a price per share that is equal to or greater than the price per share paid by investors in this offering, and investors purchasing shares or other securities in the future could have rights superior to existing stockholders, including investors who purchase shares of common stock in this offering. The price per share at which we sell additional shares of our common stock or securities convertible into common stock in future transactions may be higher or lower than the price per share in this offering.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS AND INDUSTRY DATA

This prospectus, including the sections titled "Prospectus Summary" and "Risk Factors," contains, and the documents incorporated by reference herein may contain, forward-looking statements. Forward-looking statements convey our current expectations or forecasts of future events. All statements contained in this prospectus, other than statements of historical fact or statements related to present facts or current conditions, are forward-looking. You can identify forward-looking statements by terminology such as "anticipates," "believes," "can," "continue," "could," "estimates," "expects," "intends," "may," "plans," "seeks," "should," "will," or "would" or the negative of these terms or similar expressions.

There are a number of important factors that could cause our actual results to differ materially from the results anticipated by these forward-looking statements. These important factors include those that we discuss in this prospectus in the section titled "Risk Factors" above as well as the risk factors contained in our filings with the SEC that are incorporated by reference in this prospectus. You should read these factors and the other cautionary statements made in this prospectus as being applicable to all related forward-looking statements wherever they appear in this prospectus. If one or more of these factors materialize, or if any underlying assumptions prove incorrect, our actual results, performance or achievements may vary materially from any future results, performance or achievements expressed or implied by these forward-looking statements. The forward-looking statements contained in this prospectus and the documents incorporated by reference herein are made subject to the safe harbor protection provided by the Private Securities Litigation Reform Act of 1995 and Section 27A of the Securities Act. We undertake no obligation to update publicly any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

Unless otherwise indicated, information contained in this prospectus or incorporated by reference herein concerning our industry and the markets for our solutions, including our general expectations and market position, market opportunity and market share, is based on information from various sources, surveys and forecasts, and our internal research, on assumptions that we have made, which we believe are reasonable, based on those data and other similar sources and on our knowledge of the markets for our solutions. Sources we refer to in this prospectus or the materials incorporated by reference herein include BauerFinancial, Inc., Coral Gables, Florida, Celent, Forrester Research, Inc., Gartner, Inc., International Data Corporation, Javelin Strategy & Research and Verizon Communications, Inc. The reports described in this prospectus or the materials incorporated herein by reference represent data, research opinion or viewpoints published, as part of a syndicated or other subscription service, by such publishers. These reports speak as of their original publication date (and not as of the date of this prospectus) and the opinions expressed in such reports are subject to change without notice. Our internal research has not been verified by any independent source, and we have not independently verified any third-party information and cannot assure you of its accuracy or completeness. We believe the market position, market opportunity, and market share information included in this prospectus or the materials incorporated herein by reference is generally reliable. In addition, projections, assumptions, and estimates of our future performance and the future performance of the industry in which we operate are necessarily subject to a high degree of uncertainty and risk due to a variety of factors, including those described in "Risk Factors" and elsewhere in this prospectus and in the materials incorporated herein by reference. These and other factors could cause results to differ materially from those expressed in the estimates included in this prospectus.

USE OF PROCEEDS

We estimate that the net proceeds to us from this offering will be approximately \$22.5 million, based upon an assumed offering price of \$28.27 per share (the closing price of our common stock as reported on the New York Stock Exchange on September 22, 2015), after deducting underwriting discounts and commissions and estimated offering expenses payable by us. We will not receive any proceeds from the sale of shares of common stock by the selling stockholders. The principal reasons for this offering are to increase our available cash resources, provide liquidity for our selling stockholders and increase our public float.

Although we do not have current specific plans for the net proceeds from this offering, we intend to use the net proceeds for working capital and other general corporate purposes, including financing our growth, developing new or enhanced solutions and funding capital expenditures. We may also seek to expand our business through investments in or acquisitions of other businesses, solutions, or technologies. However, we do not have agreements or commitments for any investments or acquisitions at this time.

Pending the uses mentioned above, we intend to invest the net proceeds of this offering in short-term, interest-bearing, investment-grade securities. Our management will have broad discretion in the application of the net proceeds to us from this offering, and investors will be relying on the judgment of our management regarding the application of the proceeds.

Table of Contents**CAPITALIZATION**

The following table sets forth our cash and cash equivalents and capitalization as of June 30, 2015 on:

an actual basis; and

an as adjusted basis to reflect the receipt of the estimated net proceeds from the sale and issuance by us of the shares of common stock we are offering hereby, after deducting underwriting discounts and commissions and estimated offering expenses payable by us as described in the section entitled "Use of Proceeds."

You should read this information in conjunction with the information provided in the sections entitled "Use of Proceeds" and our consolidated financial statements and related notes incorporated herein by reference.

The number of shares of common stock outstanding, as shown in the table above, is based on 37,309,010 shares of common stock outstanding as of June 30, 2015 and excludes:

5,606,127 shares issuable upon the exercise of options outstanding as of June 30, 2015, having a weighted average exercise price of \$7.55 per share;

254,390 shares of common stock subject to restricted stock units outstanding as of June 30, 2015;

2,390,156 shares, subject to increase on an annual basis, available for future issuance under our 2014 Equity Incentive Plan; and

Edgar Filing: Q2 Holdings, Inc. - Form S-3/A

800,000 shares, subject to increase on an annual basis, reserved for future issuance under our 2014 Employee Stock Purchase Plan.

The table above assumes:

the underwriters do not exercise their option to purchase up to 569,850 additional shares; and

no exercise of the outstanding options and no issuance of shares with respect to the restricted stock units, each as described above, except for the exercise of options for 283,849 shares of our common stock to be sold in this offering by the selling stockholders.

Table of Contents**DILUTION**

As of June 30, 2015, we had a net tangible book value of \$106.1 million, or \$2.84 per share of common stock. Dilution in net tangible book value per share to new investors in this offering represents the difference between the amount per share paid by purchasers of shares of common stock in this offering and the as adjusted net tangible book value per share of common stock immediately after the completion of this offering. After giving effect to the sale of the 853,409 shares of common stock offered by us in this offering at an assumed public offering price of \$28.27 per share (the closing price of our common stock as reported on the New York Stock Exchange on September 22, 2015), and the proceeds received from the 283,849 options exercised by the selling shareholders and after deducting the estimated underwriting discounts and estimated offering expenses payable by us, our as adjusted net tangible book value as of June 30, 2015 would have been \$129.4 million, or \$3.36 per share of common stock. This represents an immediate increase in net tangible book value of \$0.52 per share to existing stockholders and an immediate dilution of \$24.91 per share to new investors in our common stock. The following table illustrates this dilution on a per share basis:

Assumed public offering price per share	\$ 28.27
Historical net tangible book value per share as of June 30, 2015	\$ 2.84
Increase in net tangible book value per share attributable to new investors	\$ 0.52
As adjusted net tangible book value per share after giving effect to this offering	\$ 3.36
Dilution per share to new investors in this offering	\$ 24.91

The following table summarizes, on an as adjusted basis as of June 30, 2015 and after giving effect to the offering, based on an assumed public offering price of \$28.27 per share, the differences between existing stockholders, selling stockholders who are exercising options for 283,849 shares of our common stock to be sold in this offering and new investors with respect to the number of shares of common stock purchased from us, the total consideration paid to us and the average price per share paid.

	Shares Purchased		Total Consideration		Average Price Per Share
	Number	Percent	Amount	Percent	
(in thousands, except per share data)					
Existing stockholders	37,309	97%	\$ 182,924	88%	\$ 4.90
New investors	853	2%	\$ 24,126	12%	\$ 28.27
Selling stockholders	284	1%	\$ 774	0%	\$ 2.73
Total	38,446	100%	\$ 207,824	100%	\$ 5.41

If all our outstanding options had been exercised, as of June 30, 2015, the as adjusted net tangible book value after this offering would have been \$147.6 million, or \$3.46 per share, causing dilution to new investors of \$24.81 per share.

PRINCIPAL AND SELLING STOCKHOLDERS

The following table sets forth information as of September 8, 2015, regarding beneficial ownership for:

each stockholder, or group of affiliated stockholders, who we know beneficially owns more than 5% of the outstanding shares of our common stock;

each of our named executive officers;

each of our current directors;

all of our current directors and current executive officers as a group; and

each of the selling stockholders.

When we refer to the "selling stockholders" in this prospectus, we mean those persons identified as offering shares in the table below. The selling stockholders may be deemed to be underwriters within the meaning of the Securities Act.

Except as stated below, the address for each person listed on the table is c/o Q2 Holdings, Inc., 13785 Research Boulevard, Suite 150, Austin, Texas 78750.

We have determined beneficial ownership in accordance with SEC rules. The information does not necessarily indicate beneficial ownership for any other purpose. Except as indicated in the footnotes to this table and pursuant to state community property laws, we believe, based upon the information furnished to us, that the persons named in this table have sole voting and investment power with respect to all shares reflected as beneficially owned by them. In computing the number of shares beneficially owned by a person and the percentage ownership of that person, shares of common stock that could be issued upon the exercise of outstanding options held by that person that are currently exercisable or exercisable within 60 days of September 8, 2015 are considered outstanding. These

Table of Contents**UNDERWRITING**

We and the selling stockholders are offering the shares of common stock described in this prospectus through a number of underwriters. J.P. Morgan Securities LLC and Stifel, Nicolaus & Company, Incorporated are acting as representatives of the underwriters named below. We and the selling stockholders have entered into an underwriting agreement with the underwriters. Subject to the terms and conditions of the underwriting agreement, we and the selling stockholders have agreed to sell to the underwriters, and each underwriter has severally agreed to purchase, at the public offering price less the underwriting discounts and commissions set forth on the cover page of this prospectus, the number of shares of our common stock listed next to its name in the following table:

Name	Number of shares
J.P. Morgan Securities LLC	
Stifel, Nicolaus & Company, Incorporated	
Raymond James & Associates, Inc.	
Canaccord Genuity Inc.	
Needham & Company, LLC	
Total	3,798,996

The underwriters are committed to purchase all shares offered by us and the selling stockholders if they purchase any shares. The underwriting agreement also provides that if an underwriter defaults, the purchase commitments of non-defaulting underwriters may also be increased or the offering may be terminated.

The underwriters propose to offer the shares directly to the public at the public offering price set forth on the cover page of this prospectus and to certain dealers at that price less a concession not in excess of \$ per share. After the initial offering of the shares, the offering price and other selling terms may be changed by the underwriters. Sales of shares made outside of the U.S. may be made by affiliates of the underwriters.

We and the selling stockholders have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act of 1933.

The underwriters have an option to purchase up to 569,850 additional shares of common stock from the selling stockholders. The underwriters have 30 days from the date of this prospectus to exercise this option to purchase additional shares. If any shares are purchased with this option, the underwriters will purchase shares in approximately the same proportion as shown in the table above. If any additional shares of common stock are purchased, the underwriters will offer the additional shares on the same terms as those on which the shares are being offered.

The underwriting discounts and commissions are equal to the public offering price per share of common stock less the amount paid by the underwriters per share of common stock. The underwriting discounts and commissions are \$ per share. The following table shows the per share and total

Edgar Filing: Q2 Holdings, Inc. - Form S-3/A

underwriting discounts and commissions to be paid to the underwriters assuming both no exercise and full exercise of the underwriters' option to purchase additional shares.

	Per share		Total	
	Without option exercise	With full option exercise	Without option exercise	With full option exercise
Public Offering Price	\$	\$	\$	\$

Underwriting discounts and commissions paid by selling stockholders	\$	\$	\$	\$
Proceeds, before expenses, to us	\$	\$	\$	\$
Proceeds, before expenses, to selling stockholders	\$	\$	\$	\$

We estimate that the total expenses of this offering, including registration, filing and listing fees, printing fees and legal and accounting expenses, including selling stockholder expenses, but excluding the underwriting discounts and commissions, will be approximately \$561,267 and will be paid by us. We have agreed to reimburse the underwriters for certain reasonable expenses and application fees incurred in connection with any filing with, and clearance of this offering by, the Financial Industry Regulatory Authority Inc., or FINRA.

A prospectus in electronic format may be made available on the web sites maintained by one or more underwriters, or selling group members, if any, participating in the offering. The underwriters may agree to allocate a number of shares to the underwriters and selling group members for sale to their online brokerage account holders. Internet distributions will be allocated by the representatives to the underwriters and selling group members that may make Internet distributions on the same basis as other allocations.

We, all of our directors and executive officers and the selling stockholders have agreed that, subject to certain exceptions, without the prior written consent of J.P. Morgan Securities LLC and Stifel, Nicolaus & Company, Incorporated on behalf of the underwriters, we and they will not, for a period of 90 days after the date of this prospectus:

offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, or otherwise transfer or dispose of, directly or indirectly, any shares of common stock or any securities convertible into or exercisable or exchangeable for common stock, or publicly announce any intent to do the foregoing;

enter into any swap or other agreement that transfers, in whole or in part, any of the economic consequences of ownership of common stock or any security convertible into or exercisable or exchangeable for common stock; or

make any demand for or exercise any right with respect to the registration of any shares of common stock or any security convertible into or exercisable or exchangeable for common stock;

with respect to the first and second bullets above, whether any such transaction is to be settled by delivery of common stock or such other securities, in cash or otherwise.

The 90-day restricted period described in the preceding paragraph will be extended if, during any period that we are not an emerging growth company:

during the last 17 days of the 90-day restricted period, we issue an earnings release or material news or a material event relating to us occurs; or

Table of Contents

prior to the expiration of the 90-day restricted period, we announce that we will release earnings results during the 16-day period beginning on the last day of the 90-day restricted period;

in which case the restrictions described in the preceding paragraph will continue to apply until the expiration of the 18-day period beginning on the issuance of the earnings release or the occurrence of the material news or material event.

Our common stock is listed on the New York Stock Exchange under the symbol "QTWO."

In connection with this offering, the underwriters may engage in stabilizing transactions, which involves making bids for, or purchasing and selling shares of, common stock in the open market for the purpose of preventing or retarding a decline in the market price of the common stock while this offering is in progress. These stabilizing transactions may include making short sales of the common stock, which involves the sale by the underwriters of a greater number of shares of common stock than they are required to purchase in this offering, and purchasing shares of common stock on the open market to cover positions created by short sales. Short sales may be "covered" shorts, which are short positions in an amount not greater than the underwriters' option referred to above, or may be "naked" shorts, which are short positions in excess of that amount. The underwriters may close out any covered short position either by exercising their option, in whole or in part, or by purchasing shares in the open market. In making this determination, the underwriters will consider, among other things, the price of shares available for purchase in the open market compared to the price at which the underwriters may purchase shares through the underwriters' option. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the common stock in the open market that could adversely affect investors who purchase in this offering. To the extent that the underwriters create a naked short position, they will purchase shares in the open market to cover the position.

The underwriters have advised us that, pursuant to Regulation M of the Securities Act, they may also engage in other activities that stabilize, maintain or otherwise affect the price of the common stock, including the imposition of penalty bids. This means that if the representatives of the underwriters purchase common stock in the open market in stabilizing transactions or to cover short sales, the representatives can require the underwriters that sold those shares as part of this offering to repay the underwriting discount received by them.

These activities may have the effect of raising or maintaining the market price of the common stock or preventing or retarding a decline in the market price of the common stock, and, as a result, the price of the common stock may be higher than the price that otherwise might exist in the open market. If the underwriters commence these activities, they may discontinue them at any time. The underwriters may carry out these transactions on the New York Stock Exchange, as applicable, in the over-the-counter market or otherwise.

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. Certain of the underwriters and their affiliates may provide from time to time in the future certain commercial banking, financial advisory, investment banking and other services for us and such affiliates in the ordinary course of their business, for which they may receive customary fees and commissions. In addition, in the ordinary course of their various business activities, the underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers, and such investment and securities activities may involve our securities and/or instruments. The underwriters and their respective affiliates may also make investment recommendations and/or publish or express independent research

views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

J.P. Morgan Securities LLC and Stifel, Nicolaus & Company, Incorporated served as joint book-runners on our initial public offering in March 2014, and J.P. Morgan Securities LLC and Stifel, Nicolaus & Company, Incorporated served as joint book-runners in connection with our public offering of additional shares of our common stock in February 2015.

Selling Restrictions

Other than in the U.S., no action has been taken by us, the selling stockholders or the underwriters that would permit a public offering of the securities offered by this prospectus in any jurisdiction where action for that purpose is required. The securities offered by this prospectus may not be offered or sold, directly or indirectly, nor may this prospectus or any other offering material or advertisements in connection with the offer and sale of any such securities be distributed or published in any jurisdiction, except under circumstances that will result in compliance with the applicable rules and regulations of that jurisdiction. Persons into whose possession this prospectus comes are advised to inform themselves about and to observe any restrictions relating to the offering and the distribution of this prospectus. This prospectus does not constitute an offer to sell or a solicitation of an offer to buy any securities referred to by this prospectus in any jurisdiction in which such an offer or solicitation is unlawful.

Canada

The shares may be sold only to purchasers purchasing, or deemed to be purchasing, as principal that are accredited investors, as defined in National Instrument 45-106 Prospectus Exemptions or subsection 73.3(1) of the Securities Act (Ontario), and are permitted clients, as defined in National Instrument 31-103 Registration Requirements, Exemptions and Ongoing Registrant Obligations. Any resale of the shares must be made in accordance with an exemption from, or in a transaction not subject to, the prospectus requirements of applicable securities laws.

Securities legislation in certain provinces or territories of Canada may provide a purchaser with remedies for rescission or damages if this prospectus (including any amendment thereto) contains a misrepresentation, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province or territory for particulars of these rights or consult with a legal advisor.

Pursuant to section 3A.3 of National Instrument 33-105 Underwriting Conflicts (NI 33-105), the underwriters are not required to comply with the disclosure requirements of NI 33-105 regarding underwriter conflicts of interest in connection with this offering.

European Economic Area

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive, each, a Relevant Member State, an offer to the public of any shares which are the subject of the offering contemplated by this prospectus may not be made in that Relevant Member State except that an offer to the public in that Relevant Member State of any shares may be made at any time under the following exemptions under the Prospectus Directive, if they have been implemented in that Relevant Member State:

- (a) to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- (b) to fewer than 100 or, if the Relevant Member State has implemented the relevant provision of the PD Amending Directive, 150, natural or legal persons (other than qualified investors as defined in the Prospectus Directive) subject to obtaining the prior consent of the representatives for any such offer; or
- (c) in any other circumstances falling within Article 3(2) of the Prospectus Directive, provided that no such offer of shares shall result in a requirement for the publication by us, the selling stockholders, or any underwriter of a prospectus pursuant to Article 3 of the Prospectus Directive.

For the purposes of this provision, the expression an "offer to the public" in relation to any shares in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and any shares to be offered so as to enable an investor to decide to purchase any shares, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State and the expression "Prospectus Directive" means Directive 2003/71/EC (and any amendments thereto, including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member State) and includes any relevant implementing measure in each Relevant Member State, and the expression "2010 PD Directive" means Directive 2010/73/EU.

Hong Kong

The shares have not been offered or sold and will not be offered or sold in Hong Kong, by means of any document, other than (a) to "professional investors" as defined in the Securities and Futures Ordinance (Cap. 571) of Hong Kong and any rules made under that Ordinance; or (b) in other circumstances which do not result in the document being a "prospectus" as defined in the Companies Ordinance (Cap. 32) of Hong Kong or which do not constitute an offer to the public within the meaning of that Ordinance.

No advertisement, invitation or document, whether in Hong Kong or elsewhere, which is directed at, or the contents of which are likely to be accessed or read by, the public of Hong Kong (except if permitted to do so under the securities laws of Hong Kong) has been issued or will be issued in Hong Kong or elsewhere, other than with respect to the shares which are or are intended to be disposed of only to persons outside Hong Kong or only to "professional investors" within the meaning of the Securities and Futures Ordinance and any rules made under that Ordinance.

Japan

The shares have not been and will not be registered under the Financial Instruments and Exchange Law of Japan, or the Financial Instruments and Exchange Law. Accordingly, no resident of Japan may participate in the offering of the shares, and each underwriter has agreed that it will not offer or sell any shares, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan (which term as used herein means any person resident in Japan, including any corporation or other entity organized under the laws of Japan), or to others for re-offering or resale, directly or indirectly, in

Japan or to a resident of Japan, except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the Financial Instruments and Exchange Law and any other applicable laws, regulations and ministerial guidelines of Japan.

Singapore

The offer or invitation which is the subject of this document is only allowed to be made to the persons set out herein. Moreover, this document is not a prospectus as defined in the Securities and Futures Act (Chapter 289) of Singapore, or the SFA, and, accordingly, statutory liability under the SFA in relation to the content of the document will not apply.

As this document has not been and will not be lodged with or registered as a document by the Monetary Authority of Singapore, this document and any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the shares may not be circulated or distributed, nor may the shares be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than: (i) to an institutional investor under Section 274 of the SFA; (ii) to a relevant person, or any person pursuant to Section 275(1A) of the SFA, and in accordance with the conditions specified in Section 275 of the SFA; or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA.

Where the shares are subscribed or purchased under Section 275 of the SFA by a relevant person who is:

- (a) a corporation (which is not an accredited investor) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor; or
- (b) a trust (where the trustee is not an accredited investor) whose sole purpose is to hold investments and each beneficiary is an accredited investor, shares, debentures and units of shares and debentures of that corporation or the beneficiaries' rights and interest in that trust shall not be transferable for six months after that corporation or that trust has acquired the shares under Section 275 of the SFA except:
 - (1) to an institutional investor under Section 274 of the SFA or to a relevant person defined in Section 275(2) of the SFA, or to any person pursuant to an offer that is made on terms that such shares, debentures and units of shares and debentures of that corporation or such rights and interest in that trust are acquired at a consideration of not less than S\$200,000 (or its equivalent foreign currency) for each transaction, whether such amount is to be paid for in cash or by exchange of securities or other assets;
 - (2) where no consideration is given for the transfer; or
 - (3) by operation of law.

By accepting this document, the recipient hereof represents and warrants that he or she is entitled to receive such report in accordance with the restrictions set forth above and agrees to be bound by the limitations contained herein. Any failure to comply with these limitations may constitute a violation of law.

PART II
INFORMATION NOT REQUIRED IN PROSPECTUS

Item 14. Other Expenses of Issuance and Distribution.

The following table sets forth the fees and expenses, other than underwriting compensation, payable in connection with the registration of securities hereunder. All amounts are estimates except for the SEC registration fee, the Financial Industry Regulatory Authority, or FINRA, filing fee and the New York Stock Exchange, or NYSE, listing fee.

SEC registration fee	\$ 15,047
FINRA filing fee	19,924
NYSE additional listing fee	4,096
Blue sky fees and expenses	5,000
Transfer agent and registrar fees and expense	12,200
Accounting fees and expenses	100,000
Legal fees and expenses	350,000
Printing and engraving costs	30,000
Miscellaneous expenses	25,000
 Total	 \$ 561,267

Item 15. Indemnification of Directors and Officers.

Section 145 of the Delaware General Corporation Law authorizes a court to award, or a corporation's board of directors to grant, indemnity to directors and officers in terms sufficiently broad to permit such indemnification under certain circumstances for liabilities (including reimbursement for expenses incurred) arising under the Securities Act.

As permitted by Delaware law, our amended and restated certificate of incorporation includes a provision that eliminates the personal liability of our directors for monetary damages for breach of fiduciary duty as a director, except for liability:

for any breach of the director's duty of loyalty;

for acts or omissions not in good faith or that involve intentional misconduct or a knowing violation of law;

under section 174 of the Delaware General Corporation Law regarding unlawful dividends and stock purchases; or

for any transaction for which the director derived an improper personal benefit.

As permitted by Delaware law, our amended and restated bylaws provide that:

we are required to indemnify our directors and officers to the fullest extent permitted by Delaware law, subject to very limited exceptions;

we may indemnify our other employees and agents to the fullest extent permitted by Delaware law, subject to very limited exceptions;

we are required to advance expenses, as incurred, to our directors and officers in connection with a legal proceeding to the fullest extent permitted by Delaware law, subject to very limited exceptions;

we may advance expenses, as incurred, to our employees and agents in connection with a legal proceeding; and

the rights conferred in the bylaws are not exclusive.

We have entered into indemnity agreements with each of our current directors and officers that give these directors and officers additional contractual assurances regarding the scope of the indemnification set forth in our restated certificate of incorporation and provide additional procedural protections. At present, there is no pending litigation or proceeding involving our directors, officers or employees regarding which indemnification is sought, nor are we aware of any threatened litigation that may result in claims for indemnification.

The indemnification provisions in our amended and restated certificate of incorporation and amended and restated bylaws and the indemnity agreements entered into between us and each of our directors and officers may be sufficiently broad to permit indemnification of our directors and officers for liabilities arising under the Securities Act.

Reference is also made to the underwriting agreement, which provides for the indemnification of our directors, officers and controlling persons against certain liabilities.

Item 17. Undertakings.

The undersigned registrant hereby undertakes the following:

That, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to section 13(a) or section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.

That, insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

That:

(1) for purposes of determining any liability under the Securities Act of 1933, the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in a form of prospectus filed by the registrant pursuant to Rule 424(b) (1) or (4) or 497(h) under the Securities Act shall be deemed to be part of this registration statement as of the time it was declared effective; and

(2) for the purpose of determining any liability under the Securities Act of 1933, each post-effective amendment that contains a form of prospectus shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.
