PROXY STATEMENT FOR ANNUAL MEETING OF STOCKHOLDERS

TO BE HELD NOVEMBER 13, 2009

GENERAL INFORMATION

This proxy statement ("Proxy Statement") is furnished in connection with the solicitation of proxies by the Board of Directors of Celadon Group, Inc. (the "Company") to be voted at the Annual Meeting of Stockholders of the Company (the "Annual Meeting"), which will be held on Friday, November 13, 2009 beginning at 9 a.m. local time, at our principal executive offices located at 9503 East 33rd Street, One Celadon Drive, Indianapolis, Indiana, 46235, and any adjournment thereof. **THE ENCLOSED PROXY IS SOLICITED BY OUR BOARD OF DIRECTORS.** Where specific choices are not indicated, all proxies received pursuant to this solicitation will be voted (i) FOR the election of the director nominees named below and (ii) with respect to any other matters properly brought before the Annual Meeting, in accordance with the judgment of the proxy holders. We have not received notice of other matters that properly may be presented for voting at the Annual Meeting.

This Proxy Statement, the proxy card, and our Form 10-K for the fiscal year ended June 30, 2009, was first mailed on or about September 30, 2009 to stockholders of record at the close of business on September 21, 2009 (the "Record Date"). Except to the extent it is incorporated by specific reference, the enclosed copy of our 2009 Form 10-K is not incorporated into this proxy statement and is not to be deemed a part of the proxy solicitation material.

The terms "Company," "we," "us," and "our" refer to Celadon Group, Inc. and its subsidiaries.

Voting Rights

Only stockholders of record at the close of business on the Record Date ("Stockholders") are entitled to vote, either in person or by valid proxy, at the Annual Meeting. As of the close of business on the Record Date, there were issued and outstanding 21,840,851 shares of common stock, par value \$.033 per share, entitled to cast votes on all matters subject to a vote at the Annual Meeting. The total number of issued and outstanding shares excludes approximately 1,690,287 shares of common stock underlying issued and outstanding stock options granted under our incentive stock plans and other arrangements. Stockholders are entitled to one vote for each share of common stock held of record. Holders of unexercised options or other rights to acquire common stock are not entitled to vote the underlying shares at the Annual Meeting, but holders of restricted stock are entitled to vote such shares at the Annual Meeting. We have no other class of stock outstanding. Stockholders are not entitled to cumulative voting in the election of directors.

Quorum Requirement

In order to transact business at the Annual Meeting, a quorum must be present. A quorum is present if the holders of a majority of the total number of shares of common stock issued and outstanding as of the Record Date are represented at the Annual Meeting in person or by proxy. Shares that are entitled to vote but that are not voted at the direction of the holder (called "abstentions") and shares that are not voted by a broker or other record holder due to the absence of

instructions from the beneficial owner (called "broker non-votes") will be counted for the purpose of determining whether a quorum is present.

TABLE OF CONTENTS

Required Vote

Directors are elected by an affirmative vote of a plurality of the votes cast by Stockholders entitled to vote and represented in person or by proxy at the Annual Meeting, which means the director nominees receiving the highest number of votes for their election will be elected as directors. Approval of any other matter properly submitted to Stockholders for action at the Annual Meeting requires the affirmative vote of a majority of the votes cast by Stockholders entitled to vote and represented in person or by proxy at the Annual Meeting, unless a different vote is required by law or our certificate of incorporation or bylaws. Abstentions and broker non-votes are not considered affirmative votes and thus will have no effect on the election of directors by a plurality vote, but will have the same effect as negative votes with respect to the approval of any other matter submitted to Stockholders.

Right to Attend the Meeting; Revocation of Proxy

Returning a proxy now will not interfere with a Stockholder's right to attend the Annual Meeting or to vote his or her shares personally at the Annual Meeting, if he or she wishes to do so. Stockholders who execute and return proxies may revoke them at any time before they are exercised by giving written notice of revocation to our Secretary at the address of our principal executive offices, by executing a subsequent proxy and delivering it to our Secretary at such address, or by attending the Annual Meeting and voting in person.

Costs of Solicitation

We will bear the cost of solicitation of proxies, which we expect to be nominal and will include reimbursements for the charges and expenses of brokerage firms and others for forwarding solicitation materials to beneficial owners of our outstanding common stock. Proxies will be solicited by mail and may be solicited personally by directors, officers, or our regular employees, who will not receive any additional compensation for any such services.

Form 10-K

The information included in this Proxy Statement should be reviewed in conjunction with the Consolidated Financial Statements, Notes to Consolidated Financial Statements, Reports of our Independent Registered Public Accounting Firm, and other information included in our 2009 Form 10-K that was first mailed on or about September 30, 2009, together with this Notice of Annual Meeting and Proxy Statement, to all Stockholders of record as of the Record Date.

How to Read this Proxy Statement

This Proxy Statement contains the proposals to be considered by Stockholders at the Annual Meeting, as well as important information concerning, among other things, our management and our Board of Directors; executive compensation; transactions between us and our officers, directors, and affiliates; the stock ownership of certain beneficial owners and management; the services provided to us by and fees of KPMG, LLP ("KPMG"), our independent registered public accounting firm; and instructions for stockholders who want to make proposals at the next Annual Meeting of Stockholders. **EACH STOCKHOLDER SHOULD READ THIS INFORMATION BEFORE COMPLETING AND RETURNING THE ENCLOSED PROXY CARD.**

Electronic Access to Proxy Statement and Form 10-K

This Proxy Statement and our 2009 Form 10-K may be viewed online at [www.celadontrucking.com](http://www.celadontrucking.com); provided, you may not cast any votes through our website. If you are a Stockholder, you can elect to receive future Forms 10-K and proxy statements electronically by marking the appropriate box on your proxy form. If you choose this option and

remain a stockholder at such time, you will receive a proxy form prior to the next Annual Meeting of Stockholders listing the website locations at which the Form 10-K and proxy statement can be found and your choice will remain in effect until you notify us by mail that you wish to resume mail delivery of these documents. If you hold our stock through a bank, broker, or another holder of record, refer to the information provided by that entity for instructions on how to elect this option. Opting for this option will save us the time and expense of printing and mailing these materials to you.

**Audit Committee Charter.** The Audit Committee has operated pursuant to a written charter detailing its duties since June 12, 2000. In August 2007, the charter of the Audit Committee was amended and restated to comply with Securities and Exchange Commission ("SEC") Release Nos. 33-8732A and 34-54302A. The amendment and restatement of the Audit Committee charter was not material in nature. The charter, as amended and restated, is available on the Company's website at [www.celadontrucking.com](http://www.celadontrucking.com).

**Audit Committee Report.** In performing its duties, the Audit Committee, as required by applicable SEC rules, issues a report recommending to the Board of Directors that our audited financial statements be included in the Form 10-K, and relating to certain other matters, including the independence of our public accounting firm. The Audit Committee Report shall not be deemed to be incorporated by reference into any filing made by the Company under the Securities Act of 1933, as amended ("Securities Act") or the Exchange Act, notwithstanding any general statement contained in any such filings incorporating this Proxy Statement by reference, except to the extent we incorporate such report by specific reference.

Audit Committee Report for Fiscal 2009

The primary purpose of the Audit Committee is to assist the Board of Directors in fulfilling its oversight responsibilities relating to the quality and integrity of our financial reports and financial reporting processes and financial reporting internal control systems. Management has primary responsibility for our financial statements and the overall reporting process, including maintenance of our internal control systems. We retain an independent registered public accounting firm that is responsible for conducting an independent audit of our financial statements, the effectiveness of management's assessment of internal controls over financial reporting, and the effectiveness of internal controls over financial reporting in accordance with the standards of the Public Company Accounting Oversight Board (United States), and issuing a report thereon.

In performing its duties, the Audit Committee has reviewed and discussed our financial statements, management's assessment of internal control over financial reporting, and the effectiveness of internal control over financial reporting with management and our independent registered public accounting firm and, in issuing this report, has relied upon the responses and information provided to the Audit Committee by management and the independent registered public accounting firm.

For the fiscal year ended June 30, 2009, the Audit Committee (1) reviewed and discussed the audited financial statements, management's assessment of internal control over financial reporting, and the effectiveness of internal control over financial reporting with management and KPMG, our independent registered public accounting firm for such fiscal year; (2) discussed with the independent registered public accounting firm the matters required to be discussed by the Statement on Auditing Standards No. 61, as amended (AICPA, Professional Standards, Vol. 1. AU section 380), as adopted by the Public Company Accounting Oversight Board in Rule 3200T; (3) received and discussed with the independent registered public accounting firm the written disclosures and the letter from such accounting firm required by Independence Standards Board Standard No. 1, as amended (Independence Standards Board Standard No. 1, Independence Discussions with Audit Committees), as adopted by the Public Company

Accounting Oversight Board in Rule 3600T; and (4) discussed with the independent registered public accounting firm its independence. The Audit Committee met with representatives of the independent registered public accounting firm without management or other persons present on four (4) occasions during fiscal 2009.

Based on the foregoing reviews and meetings, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in the Company's Form 10-K for the year ended June 30, 2009, for filing with the SEC.

The Compensation Committee is responsible for annually reviewing and approving annual base salary compensation for the Named Executive Officers. The Compensation Committee establishes and administers the bonus compensation program, which is re-evaluated each fiscal year, pursuant to which certain of our employees and executive officers may be eligible to receive bonuses. The Compensation Committee administers the Celadon Group, Inc. 2006 Omnibus Incentive Plan, as amended (the "Incentive Plan") and, subject to the provisions of the Incentive Plan, determines grants under the Incentive Plan for all employees, including the Named Executive Officers. The Compensation Committee also considers and if appropriate, recommends for selection, nominees for the Board of Directors. Subject to certain restrictions, when it deems appropriate, the Compensation Committee may form and delegate to subcommittees the authority to undertake any of the foregoing responsibilities.

Compensation Committee Charter. In August 2007, the charter of the Compensation Committee was amended and restated to comply with SEC Release Nos. 33-8732 and 34-54302. Compensation Committee Interlocks and Insider Participation. Messrs. Miller and Heyworth and Ms. Langham served as the Compensation Committee in fiscal 2009. During fiscal 2009, no Compensation Committee member was an officer or employee for the Company. There were no interlocking relationships between our directors and executive officers and the executive officers and directors of any other entity that might affect the compensation of our executive officers. For a description of other transactions between us and other directors and executive officers, see "Certain Relationships and Related Transactions" below.

Director Nomination Process. Director nominees are selected by the Compensation Committee. Our Board of Directors has adopted a policy of re-nominating incumbent directors who continue to satisfy the criteria for Board of Directors membership and whom the Compensation Committee believes continue to make important contributions to the Board of Directors and who consent to continue to serve on the Board of Directors.

In filling vacancies on the Board of Directors, the Compensation Committee will solicit recommendations for nominees from persons that the Compensation Committee believes are likely to be familiar with (i) our needs and (ii) qualified candidates. These persons may include members of the Board of Directors and management, advisors to us, or professional search firms.

The Compensation Committee also will consider proposed director nominees recommended by stockholders, provided that the following procedural requirements are satisfied. Director nominee recommendations should be mailed via certified mail, return receipt requested, and addressed to Director Nomination, Celadon Group, Inc., c/o Paul Will - Vice Chairman, 9503 East 33rd Street, One Celadon Drive, Indianapolis, Indiana, 46235. In order to be considered, a stockholder recommendation must: (i) be received at least 120 days prior to the anniversary of the mailing date of our proxy statement for the prior year's Annual Meeting of Stockholders (by June 2, 2010 for director candidates to be considered for nomination for election at the Annual Meeting of Stockholders following the end of fiscal year 2010), however, if the date of such Annual Meeting of Stockholders is more than thirty days before or after November 13, 2010, then the deadline for submitting any director candidates for nomination for election at such Annual Meeting of Stockholders will be a reasonable time before we begin to print or mail such proxy materials; (ii) contain sufficient background information, such as a resumé and references, to enable our Compensation Committee to make a proper judgment regarding the proposed nominee's qualifications; (iii) be accompanied by a signed consent of the proposed nominee to serve as a director, if elected, and a representation that such proposed nominee qualifies as "independent" under NASDAQ Rule 5605(a)(2) or, if the proposed nominee does not qualify, a description of the reason(s) he or she is not "independent"; (iv) state the name and address of the stockholder submitting the recommendation and the number of shares of our common stock owned of record or beneficially by such stockholder; and (v) if submitted by a beneficial stockholder, be accompanied by evidence (such as a recent brokerage statement) that the person making the recommendation beneficially owns shares of our common stock.

In evaluating potential nominees, including potential nominees properly submitted by stockholders, our Compensation Committee will review the person's judgment, integrity, independence, experience, and knowledge of the industry in

which we operate or related industries, as well as such other factors the Compensation Committee determines are relevant in light of our needs and the needs of our Board of Directors.

With regard to specific qualities and skills, our Board of Directors believes it necessary that: (i) at least a majority of the members of the Board of Directors qualify as "independent" under NASDAQ Rule 5605(a)(2); (ii) at least three members of the Board of Directors satisfy the audit committee membership criteria specified in NASDAQ Rule 5605(c)(2); and (iii) at least one member of the Board of Directors, eligible to serve on the Audit Committee, have sufficient knowledge, experience, and training concerning accounting and financial matters so as to qualify as an "audit committee financial expert" within the meaning of Item 407(d) of Regulation S-K.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Overview and Philosophy of Compensation

We believe the quality, skills, and dedication of our executive officers are critical factors affecting our long-term value and success. Our philosophy of executive compensation is to provide overall compensation levels that (i) attract and retain talented executives and motivate those executives to achieve superior results, (ii) foster employee commitment, (iii) align executives' interests with our corporate strategies, our business objectives, and the long-term interests of our stockholders, and (iv) enhance executives' incentives to increase our stock price and maximize stockholder value. In addition, we strive to ensure that our compensation, particularly salary compensation, is consistent with our constant focus on controlling costs. In many instances we build our compensation elements around long-term retention and development together with annual rewards based on specific focus areas. To this end, we have sought to provide competitive levels of compensation that integrate pay with our annual and long-term performance goals and reward above-average corporate performance.

The Compensation Committee oversees all of our executive officer compensation arrangements. The Compensation Committee has the specific responsibility to (i) review and approve corporate goals and objectives relevant to the compensation of our CEO, (ii) evaluate the performance of our CEO in light of those goals and objectives, (iii) consider factors related to our performance as a company, including accomplishment of our long-term business and financial goals, and (iv) determine and approve the compensation level of our CEO based upon such evaluation. The Compensation Committee also has the responsibility to review annually the compensation of our other executive officers and to determine whether such compensation is reasonable under existing facts and circumstances. In making such determinations, the Compensation Committee seeks to ensure that the compensation of our executive officers aligns the executives' interests with the interests of our stockholders. The Compensation Committee must also review and approve all forms of incentive compensation, including annual cash bonuses, stock option grants, restricted stock grants, and other forms of incentive compensation granted to our executive officers. The Compensation Committee takes into account the recommendations of our CEO in reviewing and approving the overall compensation of the other executive officers.

Elements of Compensation

Our compensation program for senior executive officers has three major elements: base salary, annual cash bonus, and equity compensation. Our compensation program also consists of providing our senior executive officers with specified perquisites and with employee benefits that are generally available to all of our employees.

The Compensation Committee has the responsibility to make and approve changes in the total compensation of our executive officers, including the mix of compensation elements. In making decisions regarding an executive's total compensation, the Compensation Committee considers whether the total compensation is (i) fair and reasonable to us, (ii) internally appropriate based upon our culture and the compensation of our other employees, and (iii) within a reasonable range of the compensation afforded by other opportunities. The Compensation Committee also bases its decisions regarding compensation upon its assessment of the executive's leadership, individual performance, years of experience, skill set, level of commitment and responsibility required in the position, contributions to our financial success, the creation of stockholder value, and current and past compensation. In determining the mix of compensation elements, the Compensation Committee considers the effect of each element in relation to total compensation. Consistent with our culture of cost control and our desire to reward high levels of performance, the Compensation Committee has attempted to weight overall compensation toward incentive cash and equity-based compensation. The Compensation Committee specifically considers whether each particular element provides an

appropriate incentive and reward for performance that sustains and enhances long-term stockholder value. The Compensation Committee also considers the tax consequences associated with each element of compensation, including whether the deductibility of compensation is expected to be limited under Section 162(m) of the Internal Revenue Code of 1986, as amended (the "Code"). In determining whether to increase or decrease an element of compensation, we have historically relied upon the business experience of the Compensation Committee, Compensation Committee's general understanding of compensation levels of public companies and the historical compensation levels of the executive officers, and with respect to executives other than the CEO, we consider the recommendations of the CEO. We generally do not rely on rigid formulas or short-term changes in business performance when setting compensation.

TABLE OF CONTENTS

Fiscal 2009 Compensation Program

In May 2008 the Compensation Committee undertook a substantial review and evaluation of our compensation program for senior executive officers. The four officers included in the review were Messrs. Stephen Russell, Will, Hines, and Jonathan Russell. The Compensation Committee determined that compensation decisions for years after fiscal 2008 (other than equity grants, which would be retained by the Compensation Committee) for all personnel, except the CEO, would be under the primary discretion of our CEO, subject to Compensation Committee approval.

In conducting its evaluation, the Compensation Committee relied upon its own investigation and experience and also engaged our outside securities counsel to assist with the process. The Compensation Committee's goals for the evaluation included the following:

- Obtaining comparisons of the compensation programs utilized by trucking competitors and by similarly sized companies generally.
- Establishing an overall compensation program that reflects competitive target compensation levels for our senior executive officers that can be achieved with strong performance of our company.
- Designing a compensation program intended to better align senior executive incentive compensation substantially with factors that correlate to increases in stockholder value, while also exposing senior executive officers to the risk of downside stock performance.
- Consolidating the normal executive officer review and compensation process into a comprehensive annual process following the close of each fiscal year, rather than separating decisions regarding salary, bonus, and equity compensation.
- Balancing the use of equity incentives against the dilution to stockholders in a manner that reflects customary share usage and fair value transfer.
- Adopting a program that is relatively easier to understand, administer, and account for.

In conducting its evaluation, the Compensation Committee reviewed a range of information, including, but not limited to, the following items: (i) publicly disclosed compensation information contained in the proxy statements of six primarily asset-based truckload carriers, including Knight Transportation, Inc., Covenant Transportation Group, Inc., Heartland Express, Inc., Marten Transport, Ltd., USA Truck, Inc., and P.A.M. Transportation Services, Inc.; (ii) summary compensation data for public companies across all industries with revenues of \$500 million or less, together with a regression analysis to estimate the compensation of such companies with total revenue approximating \$500 million (as reflected under the regression analysis, the "All-Industry Group"); (iii) a confidential survey of larger, high performing companies that was used as a guide for bonus targets, equity compensation vesting, and relative compensation levels among executives, rather than as a guide for absolute pay levels of our executives; and (iv) our historical compensation levels and contractual commitments. After reviewing the information, discussing the proposed program with the CEO, and considering the impact the recessionary economy and difficult operating environment had begun to have on the Company, the Compensation Committee adopted our Senior Executive Officer Compensation Program (the "Program") in August 2008.

The Program consists of three major elements: base salary, annual cash bonus linked to specific factors, and equity compensation. The Program does not include a long-term incentive plan either in addition to, or as a substitute for, equity compensation. As a general guide for total compensation, the Program most heavily utilizes compensation data for the All-Industry Group. The Compensation Committee believed that the All-Industry Group was more reflective

of the competitive environment for senior executive talent in our location. Moreover, the Compensation Committee wanted to design a compensation program that would be attractive to talented executives regardless of industry.

A more detailed description of the Program, including each element of fiscal 2009 compensation follows.

TABLE OF CONTENTS

Base Salary

We pay base salaries at levels that reward executive officers for ongoing performance and that enable us to attract, motivate, and retain highly qualified executives. Base pay is a critical element of our compensation program because it provides our executive officers with stability. Compensation stability allows our executives to focus their attention and efforts on creating stockholder value and on our other business objectives. In determining base salaries, we consider the executive's current salary and the executive's qualifications and experience, including, but not limited to, the executive's length of service with our company, the executive's industry knowledge, and the quality and effectiveness of the executive's leadership, scope of responsibilities, past performance, and future potential of providing value to our stockholders.

**Base Salary of Our CEO.** The salary of our Chairman and CEO, Stephen Russell, is generally established pursuant to an employment agreement dated January 21, 1994, as amended and extended by its terms thereafter, which provides for annual adjustments to Mr. Stephen Russell's salary in accordance with the consumer price index (the "CPI").

For fiscal 2009, based on the Compensation Committee's evaluation, it determined that our CEO's fiscal 2008 salary was likely somewhat less than the median salary of the All-Industry Group, taking into consideration the time period since the study. The Compensation Committee considered our CEO's long tenure, the change of presidents in fiscal 2008, and various other factors and increased Mr. Russell's salary to \$700,000, effective September 1, 2008. This was approximately \$15,000 higher than the CPI adjustment expected under his contract and became effective approximately four months earlier than the contractual adjustment.

**Base Salary of Our Other Named Executive Officers.** In reviewing and making decisions with respect to the base salaries of executive officers (other than our CEO) for fiscal 2009, the Compensation Committee reviewed and considered: (i) compensation information disclosed by similarly-sized publicly held truckload carriers; (ii) our financial and operating performance, as well as the role of and contribution of the particular executive with respect to such performance; and (iii) the particular executive's contributions to us unrelated to our financial performance. The Compensation Committee believes that the annual salaries of the Named Executive Officers are reasonable compared to similarly situated executives of other comparable companies, including trucking and transportation companies and other comparable companies from a variety of industries.

The Compensation Committee determined that the base salaries of our other Named Executive Officers were significantly lower than the median level of the All-Industry Group and significantly lower (as a percentage of the CEO's salary) than the Compensation Committee believed was warranted. Accordingly, the committee adopted a three-year goal of raising the salaries of Messrs. Will, Hines, and Jonathan Russell. As the first step toward this goal, the Compensation Committee approved an annual base salary increase from \$250,000 to \$300,000 for Mr. Will, from \$250,000 to \$275,000 for Mr. Hines, and from \$200,000 to \$225,000 for Mr. Jonathan Russell, each effective September 1, 2008.

Annual Cash Bonus

As part of its evaluation, the Compensation Committee reviewed the incentive targets used by other companies, many of which related to various measures of financial returns and earnings per share. The Compensation Committee also reviewed and discussed, with input from the CEO, various non-financial measures that were important to our overall performance. The Compensation Committee also reviewed information from investment banking sources concerning the correlation between certain financial measures and increases in stockholder value. Following this review, the Compensation Committee adopted a cash bonus opportunity as part of the Program, which is based on a combination of financial and non-financial targets that the Compensation Committee expects will provide an incentive to the executives to manage multiple aspects of our business, regardless of whether the operating environment makes

achievement of any of those aspects difficult. The annual cash bonus criteria and related reasons are as follows:

12

TABLE OF CONTENTS

- Return on Invested Capital/Weighted Average Cost of Capital. The Compensation Committee believes that stockholder value is more likely to increase if our return on invested capital exceeds our weighted average cost of capital over time. For fiscal 2008, our return on invested capital is estimated to have been below our weighted average cost of capital. Accordingly, the Compensation Committee adopted incentive targets for this criterion that move toward weighted average cost of capital over time. This criterion encourages management to deploy capital efficiently and return excess capital to the stockholders. It also balances incentives based purely on growth. The Compensation Committee may exercise discretion to reflect changes in the Company's use of operating leases, as opposed to balance sheet financing, that would cause significant differences in calculated Return on Invested Capital.

Return on Invested Capital	Percentage of Target Bonus
<4.6%	0%
4.6%	50%
5.4%	100%
6.3%	150%
7.1%	200%

- Earnings per share. Earnings per share growth also correlates with stockholder value, and the Compensation Committee believes that truckload carriers are judged by many investors based on increases in earnings per share. The bonus amounts are linear in between the identified Earnings Per Share targets and adjusted for the pro forma impact of any acquisitions/dispositions. Earnings Per Share is equal to diluted Earnings Per Share as reflected in the audited financial statements, excluding any gain or loss attributable to extraordinary non-cash items.

Earnings Per Share	Percentage of Target Bonus
<\$0.40	0%
\$0.40	50%
\$0.50	100%
\$0.60	150%
\$0.70	200%

- Safety. We have a strong record of safety, which has been ingrained in our culture. Safety impacts our driver recruiting, retention, and turnover, our insurance, physical damage and workers' compensation costs, and our customer service. Because this is an important aspect of our business and a somewhat controllable factor, the Compensation Committee believes this is an important bonus criterion. In light of the Company's goal to continually improve its safety performance, the Compensation Committee felt that the most direct measure is Department of Transportation ("DOT") reportable accidents per million miles, as filed each year with the Federal Highway Administration. The Compensation Committee adopted the following scale for the Safety Targets:

DOT Reportable Accidents per million miles for fiscal 2009 as a percentage of DOT Reportable Accidents per	Percentage of Target Bonus
------------------------------------------------------------------------------------------------------------	----------------------------

million miles for  
fiscal 2008

105%	0%
100%	50%
95%	100%
90%	150%
85%	200%

- Discretionary. The discretionary criterion affords the Compensation Committee the flexibility to reward our senior executive officers for contributions that may not be captured in the other criteria. It also permits the recognition of unique contributions. This can be important in times of difficult operating conditions, when superior management may mitigate risks. The size of the discretionary bonus, however, is limited to one-fourth of the overall bonus target.

TABLE OF CONTENTS

The Compensation Committee established the following criteria for attainment of the fiscal year 2009 cash bonus:

Bonus Criteria	Percentage of Bonus
Earnings Per Share	30%
Return on Invested Capital	30%
Safety	15%
Discretionary Amount	25%

For fiscal 2009, the Compensation Committee adopted the following target bonus amounts for each of the officers listed below:

Name and Position	Target Bonus as a Percentage of Salary	Target Bonus in Dollars
Stephen Russell, Chairman and CEO	65%	\$455,000
Paul Will, Vice Chairman, Executive Vice President, CFO, Treasurer, and Assistant Secretary	65%	\$195,000
Chris Hines, President and COO	65%	\$180,000
Jonathan Russell, Executive Vice President of Logistics and President TruckersB2B	65%	\$146,000

The Compensation Committee expected the target bonus amount to be in a range of 50% to 70% of base salary for each Named Executive Officer. For fiscal 2009, Named Executive Officers were targeted to receive 65% of base salary because their salaries were not fully adjusted to the median level of the All-Industry Group. For each criterion, other than the discretionary amount, the recipients could have earned between 0% and 200% of the portion of the Target Bonus Amount attributable to that criterion, depending on the level of performance. Mr. Core was not a participant in the cash bonus portion of the Program.

At the time of adoption, the Compensation Committee believed that the performance targets represented reasonable stretch goals, in that achieving 100% of the target would require exceeding the Company's results for fiscal 2008 and its internal budget for 2009. These goals were higher than they otherwise might have been because of the use of 100% restricted stock grants in the equity portion of incentive compensation.

We did not achieve the Earnings Per Share and Return on Invested Capital targets established for fiscal 2009. The Compensation Committee considered the reasons for the shortfall, which were attributable in material part to the economic recession and decreasing freight rates, which were partially offset by reductions in costs and improved efficiencies throughout the organization. The management team and Compensation Committee agreed that there would be no cash bonuses awarded for fiscal 2009.

TABLE OF CONTENTS

Equity Compensation

The Compensation Committee believes that the equity compensation component of senior executive compensation should be meaningfully aligned with increasing stockholder value, while also exposing the holder to the risk of downward stock prices and volatility. Over time, the committee expects to grant equity compensation using a target mix of approximately 70% stock options and 30% restricted stock, which is expected to translate into approximately one-half of the grant date value represented by each of stock options and restricted stock (considering stock options at their Black-Scholes value upon issuance and restricted stock at the closing stock price on the date of issuance).

Other aspects of the equity compensation portion of the Program include the following:

- A target run rate of equity grants equivalent to 1% to 2% of outstanding shares granted per year, with a fair value (considering stock options at their Black-Scholes value upon issuance and restricted stock at the closing stock price on the date of issuance) equal to approximately 1% of market capitalization annually.
- A target grant date value equal to approximately 1.0 to 1.5x base salary, with the CEO having the highest multiple of salary.
- Time vesting of restricted stock over three years.
- A two-year holding requirement for all shares obtained upon exercise of options and all vested shares of restricted stock, less any shares required for exercise prices and taxes (the resulting number being referred to as "Net Shares").

The Compensation Committee considered various alternatives, including the use of performance targets for restricted stock vesting. The Compensation Committee determined, however, that the combination of restricted stock (which provides upside potential and downside exposure) and stock options (which have value only if the stock price increases) accomplishes much the same effect without the accounting complexity of performance vesting stock.

For 2009, the Compensation Committee made an exception to its expected use of a mix of stock options and restricted stock, and granted 100% restricted stock. On August 25, 2008, after meetings of the Compensation Committee on August 6 and August 22, 2008, the Compensation Committee made restricted stock awards of 65,592, 24,363, 22,489, 19,490, and 3,500 to Messrs. Stephen Russell, Will, Hines, Jonathan Russell, and Core, respectively. The restricted stock awards vest one-third on each of the first three anniversaries of the grant date, conditioned on continued employment. The Net Shares must be held for a minimum of two years after vesting. In part because of the use of 100% restricted stock grants, the Compensation Committee granted equity compensation at the lower end of the expected range in terms of multiple of salary for each of the senior executive officers. The exception for grants of restricted stock only related to the number of shares remaining under the Incentive Plan. At the time of the grant, the Incentive Plan lacked sufficient shares to grant options and restricted stock at the target equity compensation level. In November 2008, an additional 1,000,000 shares were authorized under an amendment to the Incentive Plan.

Other Compensation

We provide our Named Executive Officers with certain other benefits that we believe are reasonable, competitive, and consistent with our overall executive compensation program. We believe that these benefits allow our executives to work more efficiently. The costs of these benefits constitute only a small percentage of each executive's total compensation. In setting the amount of these benefits, the Compensation Committee considers each executive's position and scope of responsibilities and all other elements comprising the executive's compensation. In fiscal 2009, we provided additional compensation to our Named Executive Officers of (i) company automobiles for each of

Messrs. Stephen Russell, Will, Hines, and Jonathan Russell; (ii) term life insurance for each of Messrs. Stephen Russell and Will; (iii) disability insurance for each of Messrs. Stephen Russell, Will, Hines, Jonathan Russell, and Core; and (iv) premiums and reimbursements under an executive health and disability benefit program for each of Messrs. Stephen Russell and Will. See "Summary Compensation Table" below in the "All Other Compensation" column for the aggregate dollar amount of all perquisites provided to each of our Named Executive Officers.

TABLE OF CONTENTS

During the first quarter of fiscal 2007, Messrs. Core and Jonathan Russell, as SAR grantees, each entered into an alternative fixed compensation arrangement with us whereby each of Messrs. Core and Jonathan Russell agreed to forfeit all future rights with respect to compensation from existing SAR grants in exchange for a guaranteed quarterly payment for the remainder of the underlying SAR term. This alternative arrangement was subject to continued service to us. Messrs. Core and Jonathan Russell each received their last payment on October 1, 2008. During fiscal 2009, Mr. Core received \$20,488, and Mr. Jonathan Russell received \$34,146 pursuant to this alternative arrangement.

Employee Benefits

In fiscal 2009, our Named Executive Officers participated in our employee benefit plans, including our medical, dental, and group life insurance plans, in each case on the same basis as our other employees. Additionally, in fiscal 2009, we contributed to the 401(k) Plan accounts and Excess Benefit Plan of our Named Executive Officers, which amount is included in "All Other Compensation" in the "Summary Compensation Table" below. The Excess Benefit Plan allows management or other highly compensated employees an opportunity to defer compensation on a pre-tax basis in excess of qualified retirement plan limits.

Employment Agreements

We have entered into an employment agreement with Mr. Stephen Russell, our Chairman and CEO, and a separation agreement with Mr. Will, our Vice Chairman, Executive Vice President, CFO, Assistant Secretary, and Treasurer, each as described below. The agreements with Messrs. Stephen Russell and Will reflect the fact that a significant portion of their total compensation may, at any point in time, consist of unvested stock options or restricted stock holdings and that some measure of protection against a possible, but unpredictable, action of successor corporations is desirable for both the executives and the Company. These agreements also reduce the risk that alignment between the interests of Messrs. Stephen Russell and Will will be decoupled from our stockholders' interests by a change-in-control event. The payout provisions under these agreements were established based on prevailing market practice.

The employment agreement of Mr. Stephen Russell provides that upon the occurrence of a change in control (as defined in the employment agreement) Mr. Stephen Russell may be entitled to receive certain payments and benefits from us. Specifically, if (i) at any time within two years of a change in control or within 180 days prior to a change in control, Mr. Stephen Russell's employment is terminated by us without cause or by Mr. Stephen Russell for cause or (ii) at any time during the ninety day period immediately following the date which is six months after the change in control Mr. Stephen Russell terminates his employment for any reason, Mr. Stephen Russell shall be entitled to receive from us (1) a lump sum payment in an amount equal to three times his base salary and three times the highest annual bonus paid to him within three years prior to the change in control; (2) any accrued benefits; (3) a pro-rata portion of the bonus for the fiscal year in which the change in control occurs; (4) continued medical and dental benefits for himself and eligible dependents for thirty-six months; (5) outplacement services for one year; and (6) upon the occurrence of the change in control, full and immediate vesting of all stock options and equity awards. The agreement also provides that Mr. Stephen Russell is entitled to receive a gross-up payment on any payments made to him that are subject to the excise tax imposed by Section 4999 of the Code; provided, however, that if the total payments made to Mr. Stephen Russell do not exceed 110% of the greatest amount that could be paid to him, such that the receipt of payments would not give rise to any excise tax, then no gross-up payment will be made and the payments made to Mr. Stephen Russell, in the aggregate, will be reduced to an amount that would result in no excise tax being triggered. The employment agreement also includes a two-year non-compete covenant commencing on termination of employment.

Mr. Will is party to a separation agreement with us whereby we have the right at any time, with or without prior written notice, to terminate his employment or obtain his resignation. The agreement provides that in the event of

termination of employment, Mr. Will will be entitled to receive from us: (i) one year's salary less normal withholding; (ii) a pro-rata bonus payment equal to the then current bonus formula for the time employed in the then current fiscal year up to the date of termination in that fiscal year less normal withholdings; (iii) a lump sum payment equal to twelve months of COBRA premiums for the group medical and dental plans; and (iv) a lump sum payment equal to twelve months car allowance. In addition, in such event, Mr. Will will be entitled to exercise any vested or unvested stock options he then has in accordance with the terms of the Celadon Group, Inc. 1994 Stock Option Plan, as amended and restated thereafter (the "1994 Plan"), for a period of one year from the termination of his employment.

TABLE OF CONTENTS

Currently, we do not have any other employment contracts, severance agreements, change in control agreements, non-competition agreements, separation agreements, or other arrangements with any of our other Named Executive Officers that would provide for payment or benefit to a Named Executive Officer at, following, or in connection with a change in control, a change in a Named Executive Officer's responsibilities, or a Named Executive Officer's termination of employment, including registration, severance, retirement, or constructive termination. We are evaluating entering employment and non-competition agreements with Messrs. Will, Hines, and Jonathan Russell. The Compensation Committee will continue to evaluate the Company's needs on this issue from time-to-time.

Fiscal 2010 Compensation Program

In making decisions regarding the fiscal 2010 compensation elements, the Compensation Committee determined that it would generally follow the guidelines of the Program when making fiscal 2010 compensation decisions, but would also heavily consider the recessionary economy and difficult operating environment confronting the Company.

A discussion of each element of fiscal 2010 compensation follows.

Base Salary

For fiscal 2010, we did not formally benchmark salary or total executive compensation against the executive compensation of any single company or group of companies. Historically, the Compensation Committee has, from time to time, considered the form and level of compensation disclosed by other publicly traded truckload carriers, certain other transportation companies, and companies of similar size and market capitalization. We set our base salaries at a level that allows us to pay a portion of an executive officer's total compensation in the form of incentive compensation, including annual cash bonuses, long-term incentives, and perquisites. We believe this mix of compensation helps us incentivize our executives to maximize stockholder value in the long run. We consider adjustments to base salaries annually to reflect the foregoing factors, as well as the impact of current economic and industry challenges on our Company, but do not apply a specific weighting to such factors.

As previously discussed, the base salary of the CEO has been established under an employment contract since 1994, subject to annual increases in accordance with the CPI. For fiscal 2010, Mr. Russell's salary will remain at \$700,000, and he will not receive the CPI increase. The Compensation Committee also determined that the base salaries of our other Named Executive Officers would remain unchanged for fiscal 2010 at \$300,000, \$275,000, \$225,000, and \$127,400, for Messrs. Will, Hines, Jonathan Russell, and Core, respectively. The salary freezes were due to the difficult economic conditions, operating environment, and recent results of operations.

Annual Cash Bonus

Historically, the Compensation Committee has considered whether to grant annual cash bonuses for the Named Executive Officers following the finalization of the financial statements. In consideration of the current economic recession, the Compensation Committee has determined that throughout the fiscal year it will continue to consider whether to include a cash bonus opportunity as part of the fiscal 2010 compensation program. The Compensation Committee expects that if a cash bonus opportunity is ultimately included as part of the fiscal 2010 compensation program, the four components of the opportunity will be the same as the components in fiscal 2009 (Earnings Per Share, Return on Invested Capital/Weighted Average Cost of Capital, Safety, and Discretionary Amount), although at this time, no target levels have been determined.

Equity Compensation

We generally seek to align the long-term interests of executive officers and stockholders through the use of stock-based compensation, including stock options, stock appreciation rights, and restricted stock grants. The Compensation Committee views stock-based compensation as an important part of overall executive compensation because of the emphasis on increasing stockholder value and promoting a long-term financial interest in our company. As a result of the current economic conditions and difficult operating environment, the Compensation Committee has yet to award any equity grants for fiscal 2010.

TABLE OF CONTENTS

Narrative to Director Compensation

On August 22, 2008, we adopted a new compensation program (the "Non-Employee Director Compensation Program") for our three non-employee directors, Messrs. Miller and Heyworth and Ms. Langham, effective at the 2008 Annual Meeting of Stockholders. Under the Non-Employee Director Compensation Program, target annual compensation was approximately \$110,000 per director, plus fees for committee service. For fiscal 2009, cash compensation under the Non-Employee Director Compensation Program was \$45,000, plus \$2,500 for serving on a committee, \$2,500 for serving as a committee chair, and \$5,000 for serving as lead director. There were no meeting fees. In addition, we established equity compensation of approximately \$65,000, consisting of a number of shares of restricted stock equal to \$65,000 divided by the closing stock price on the date of the grant (rounded to the nearest share). Accordingly, each of our non-employee directors received restricted stock awards in the amount of 8,844 shares of the Company's common stock on the date of the 2008 Annual Meeting of Stockholders. The restricted stock awards will vest entirely on the date of the 2009 Annual Meeting. The shares must be held for a minimum of two years following the vesting date so long as the recipient remains a director.

As a result of the current economic conditions and recent results of operations, the non-employee directors agreed to an approximately 30% (\$33,000) reduction in target annual compensation for fiscal 2010, as compared to fiscal 2009 target annual compensation, and determined that the reduction would be taken from the restricted stock grant. Accordingly, at the Annual Meeting, each of our non-employee directors will receive equity compensation of approximately \$32,000, consisting of a number of shares of restricted stock equal to \$32,000 divided by the closing stock price on the date of the grant (rounded to the nearest share).

- (2) Beneficial ownership is calculated in accordance with the rules of the SEC. A person is deemed to have "beneficial ownership" of any security that he or she has a right to acquire within sixty days following September 1, 2009. Shares of common stock underlying stock options that are currently exercisable or will be exercisable within sixty days following September 1, 2009 are deemed to be outstanding for purposes of computing the percentage ownership of the person holding such options and the percentage ownership of all executive officers and directors as a group, but are not deemed outstanding for purposes of computing the percentage ownership of any other person or entity. As a result, the denominator used in calculating beneficial ownership percentages among our stockholders and management may differ. As of September 1, 2009, our Named Executive Officers and Directors held shares of common stock underlying stock options currently exercisable or that will become exercisable within sixty days following September 1, 2009 in the following amounts: Mr. Stephen Russell – 366,767; Mr. Will – 137,391; Mr. Hines – 20,000; Mr. Jonathan Russell – 79,175; Mr. Core – 21,088; Mr. Miller – 34,875; Mr. Heyworth – 59,625 shares; and Ms. Langham – 0 shares.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Our Audit Committee has established procedures relating to the review, approval, or ratification of any transaction, or any proposed transaction, in which we were or are to be a participant and the amount involved exceeds \$120,000, and in which any "related person" (as that term is defined in Instruction 1 to Item 402(a) of Regulation S-K) had or will have a direct or indirect material interest ("Interested Transactions"). Upon review of the material facts of all Interested Transactions, the Audit Committee will either approve or disapprove the Interested Transactions, subject to certain exceptions, by taking into account, among other factors it deems appropriate, whether the terms are arms'-length and the extent of the related person's interest in the transaction. No director may participate in any discussion or approval of an Interested Transaction for which he is a related party. If an Interested Transaction will be ongoing, the Audit Committee may establish guidelines for our management to follow in its ongoing dealings with the related party and then at least annually must review and assess ongoing relationships with the related party. Although not evidenced in writing, we feel these policies and procedures best serve the Company and therefore we follow them closely. Each year our directors and officers are asked to disclose any Interested Transaction and are reminded that Interested Transactions should be brought to the Audit Committee's attention prior to consummation so any such transactions or relationships may be reviewed.

Mr. Stephen Russell is the father of Mr. Jonathan Russell, and all arrangements between the Company and Mr. Jonathan Russell are described elsewhere in this proxy statement.

See "Corporate Governance – The Board of Directors – Committees of the Board of Directors – Compensation Committee – Compensation Committee Interlocks and Insider Participation" for a description of transactions between us and members of our Compensation Committee or their affiliates.

INTEREST OF CERTAIN PERSONS IN MATTERS TO BE ACTED UPON

Other than as set forth herein, we are not aware of any substantial interest, direct or indirect, by way of beneficial ownership of securities or otherwise, of any person who has been our director or executive officer at any time since the beginning of the Company's last fiscal year or any proposed nominee for election as a director, or any associate of any of the foregoing, in any matter to be acted upon at the Annual Meeting, other than the election of directors.

## RELATIONSHIP WITH INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

We engaged KPMG as our independent registered public accounting firm during fiscal 2009 and expect to continue to engage KPMG for fiscal 2010. A representative of KPMG is expected to be present at the Annual Meeting and to be available to respond to appropriate questions, and such representative will have an opportunity to make a statement at the Annual Meeting if he or she desires to do so.

## Principal Accounting Fees and Services

KPMG billed us the following amounts for services provided in the following categories during the fiscal years ended June 30, 2009 and 2008:

	Fiscal 2009	Fiscal 2008
Audit Fees(1)	\$ 312,500	\$ 295,000
Audit-Related Fees(2)	0	0
Tax Fees(3)	0	0
All Other Fees(4)	0	0
Total	\$ 312,500	\$ 295,000

- (1) "Audit Fees" represents the aggregate fees billed for professional services rendered by KPMG for the audit of our annual financial statements and audit of internal controls and review of financial statements included in our quarterly reports on Form 10-Q, and services that are normally provided by an independent registered public accounting firm in connection with statutory or regulatory filings or engagements for that fiscal year.
- (2) "Audit-Related Fees" represents aggregate fees billed, other than Audit Fees, for assurance and related services by the principal independent registered public accounting firm that are reasonably related to the performance of the audit or review of our financial statements and internal control over financial reporting. We were not billed any Audit-Related Fees in fiscal 2009 or fiscal 2008.
- (3) "Tax Fees" represents the aggregate fees billed for professional services rendered by KPMG for tax compliance, tax advice, and tax planning. We were not billed any Tax Fees in fiscal 2009 or fiscal 2008.
- (4) "All Other Fees" represent the aggregate fees billed for products and services provided by KPMG, other than Audit Fees, Audit-Related Fees, and Tax Fees. We were not billed for any Other Fees in fiscal 2009 or fiscal 2008.

The Audit Committee maintains a policy pursuant to which it pre-approves all audit services and permitted non-audit services to be performed by the independent registered public accounting firm in order to assure that the provision of such services is compatible with maintaining the firm's independence. Under this policy, the Audit Committee pre-approves specific types of categories of engagements constituting audit, audit-related, tax, or other permissible non-audit services to be provided by the independent registered public accounting firm. Pre-approval of an engagement for a specific type or category of services generally is provided for up to one year and typically is subject to a budget comprised of a range of anticipated fee amounts for the engagement. Management and the independent registered public accounting firm are required to periodically report to the Audit Committee regarding the extent of services provided by the firm in accordance with the annual pre-approval, and the fees for the services performed to date. If management believes that a new service, or the expansion of a current service, provided by the independent registered public accounting firm is necessary or desirable then such new or expanded services are presented to the Audit Committee for its review and approval prior to the engagement of the independent registered public accounting firm to render such services. No audit-related, tax, or other non-audit services were approved by our Audit Committee pursuant to the de minimus exception to the pre-approval requirement under Rule 2-01(c)(7)(i)(C) of Regulation S-X during the fiscal year ended June 30, 2009.
