☐ Pre-commencement communications pursuant to Rule  
13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Item 7.01 Regulation FD Disclosure

As previously disclosed, on April 13, 2016, Peabody Energy Corporation, a Delaware corporation (“Peabody Energy” or the “Company”) and a majority of the Company’s wholly owned domestic subsidiaries, as well as one international subsidiary in Gibraltar (collectively with the Company, the “Debtors”), filed voluntary petitions under Chapter 11 of Title 11 of the U.S. Code (the “Bankruptcy Code”) in the United States Bankruptcy Court for the Eastern District of Missouri (the “Bankruptcy Court”). The Debtors’ Chapter 11 cases (collectively, the “Chapter 11 Cases”) are being jointly administered under the caption In re Peabody Energy Corporation, et al., Case No. 16-42529.

On June 20, 2016, the Debtors filed their monthly operating report for the period April 13, 2016 through May 31, 2016 (the “Monthly Operating Report”) with the Bankruptcy Court. The Monthly Operating Report is attached hereto as Exhibit 99.1 and is incorporated herein by reference. This current report (including the exhibit hereto or any information included therein) shall not be deemed an admission as to the materiality of any information required to be disclosed solely by reason of Regulation FD.

Any financial information included in the Monthly Operating Report (the “financial information”) was not prepared with a view toward public disclosure or compliance with the published guidelines of the Securities and Exchange Commission or the guidelines established by the American Institute of Certified Public Accountants regarding projections or forecasts. The financial information does not purport to present the Company’s financial condition in accordance with accounting principles generally accepted in the United States. The Company’s independent accountants have not examined, compiled or otherwise applied procedures to the financial information and, accordingly, do not express an opinion or any other form of assurance with respect to the financial information. The inclusion of the financial information herein should not be regarded as an indication that the Company or their affiliates or representatives consider the financial information to be a reliable prediction of future events, and the financial information should not be relied upon as such. Neither the Company nor any of their affiliates or representatives has made or makes any representation to any person regarding the ultimate outcome of the Company’s restructuring compared to the financial information, and none of them undertakes any obligation to publicly update the projections to reflect circumstances existing after the date when the financial information was made or to reflect the occurrence of future events, even in the event that any or all of the assumptions underlying the financial information are shown to be in error.

The information contained in this Item 7.01 shall not be deemed to be “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), or otherwise subject to the liabilities of that section, and shall not be deemed to be incorporated by reference into any of the Company’s filings under the Securities Act of 1933, as amended, or the Exchange Act, whether made before or after the date hereof and regardless of any general incorporation language in such filings, except to the extent expressly set forth by specific reference in such a filing.

Financial and Operating Data

The Company cautions investors and potential investors not to place undue reliance upon the information contained in the Monthly Operating Report, which was not prepared for the purpose of providing the basis for an investment decision relating to any of the securities of the Company. The Company cannot predict what the ultimate value of any of its securities may be and it remains too early to determine whether holders of any such securities will receive any distribution in the Debtors’ reorganization. The Monthly Operating Report is limited in scope, covers a limited time period and has been prepared solely for the purpose of complying with the monthly reporting requirements of the Office of the United States Trustee of the Eastern District of Missouri and the Bankruptcy Court. The Monthly Operating Report was not audited or reviewed by independent accountants, is in a format prescribed by applicable bankruptcy laws and regulations and is subject to future adjustment and reconciliation. The Monthly Operating Report

does not include all of the information and footnotes required by GAAP. Therefore, the Monthly Operating Report does not necessarily contain all information required in filings pursuant to the Exchange Act, or may present such information differently from such requirements. There can be no assurance that, from the perspective of an investor or potential investor in the Company's securities, the Monthly Operating Report is complete. The Monthly Operating Report also contains information for periods which are shorter or otherwise different from those required in the Company's reports pursuant to the Exchange Act, and such information might not be indicative of the Company's financial condition or operating results for the period that would be reflected in the Company's financial statements or in its reports pursuant to the Exchange Act. Results set forth in the Monthly Operating Report should not be viewed as indicative of future results.

---

The unaudited statement of operations for the period from April 13, 2016 through May 31, 2016 included in the Monthly Operating Report reflects a consolidated net loss attributable to common stockholders of \$120.6 million, which includes \$79.7 million in reorganization items, net and \$58.0 million of depreciation, depletion and amortization expense. Reorganization items, net included \$76.9 million of non-cash charges, which primarily related to the termination of certain derivative contracts. The Debtor's bankruptcy filings constituted an event of default under the derivative contracts and the counterparties terminated the agreements shortly thereafter in accordance with contractual terms. The unaudited balance sheet as of May 31, 2016 included in the Monthly Operating Report reflects \$8.0 billion of Debtor liabilities classified as "subject to compromise" as a result of the Debtors' bankruptcy filings. Amounts and items within liabilities subject to compromise could change during the pendency of the Chapter 11 Cases. The balance sheet also reflects \$475.0 million of debtor-in-possession financing which was approved by the Bankruptcy Court on May 17, 2016 and was funded during the period of this Monthly Operating Report. The Company's cash and cash equivalents increased by \$641.9 million during the period April 13, 2016 through May 31, 2016, which reflects the receipt of \$475.0 million of net proceeds from the debtor-in-possession financing, \$107.2 million from the disposal of assets previously held for sale, and \$81.1 million from operating activities.

#### Cautionary Note Regarding Forward-Looking Statements

This Current Report and the related exhibits contain forward-looking statements as that term is defined in the Private Securities Litigation Reform Act of 1995. These forward-looking statements include statements that relate to the intent, beliefs, plans or expectations of Peabody Energy or its management at the time of this Current Report, as well as any estimates or projections for the outcome of events that have not yet occurred at the time of this Current Report. All statements other than statements of historical fact are forward-looking statements. Forward-looking statements include expressions such as "believe," "anticipate," "expect," "estimate," "intend," "may," "plan," "predict," "will" and similar expressions. All forward-looking statements made by Peabody Energy are predictions and not guarantees of future performance and are subject to various risks, uncertainties and factors relating to Peabody Energy's operations and business environment, and the progress of its Chapter 11 Cases, all of which are difficult to predict and many of which are beyond Peabody Energy's control, these risks, uncertainties and factors could cause Peabody Energy's actual results to differ materially from those matters expressed in or implied by these forward-looking statements. Such factors include, but are not limited to: those described under the "Risk Factors" section and elsewhere in Peabody Energy's most recently filed Annual Report on Form 10-K and subsequent filings with the Securities and Exchange Commission ("SEC"), including its Quarterly Report on Form 10-Q for the quarter ended March 31, 2016, which are available on Peabody Energy's website at [www.peabodyenergy.com](http://www.peabodyenergy.com) and on the SEC's website at [www.sec.gov](http://www.sec.gov), such as unfavorable economic, financial and business conditions; risks and uncertainties relating to the bankruptcy filing by Peabody Energy, including, but not limited to:

- Peabody Energy's ability to obtain Bankruptcy Court approval with respect to motions or other requests made to the Bankruptcy Court in the Chapter 11 Cases, including maintaining strategic control as debtor-in-possession;
- Peabody Energy's ability to negotiate, develop, confirm and consummate a plan of reorganization;
- the effects of the Chapter 11 Cases on Peabody Energy's operations, including customer, supplier, banking and other relationships and agreements, and relationships with third parties, regulatory authorities and employees;
- Bankruptcy Court rulings in the Chapter 11 Cases as well as the outcome of all other pending litigation and the outcome of the Chapter 11 Cases in general;
- the length of time that Peabody Energy will operate under Chapter 11 protection and the continued availability of operating capital during the pendency of the proceedings;
- risks associated with third-party motions in the Chapter 11 Cases, which may interfere with Peabody Energy's ability to confirm and consummate a plan of reorganization;
- the potential adverse effects of the Chapter 11 Cases on Peabody Energy's liquidity and results of operations;
- increased advisory costs to execute a plan of reorganization and increased administrative and legal costs related to the Chapter 11 Cases and other litigation and the inherent risks involved in a bankruptcy process;

- the impact of the NYSE's delisting of Peabody Energy common stock on the liquidity and market price of Peabody Energy common stock and on Peabody Energy's ability to access the public capital markets;
- ability to continue as a going concern including Peabody Energy's ability to confirm a plan of reorganization that restructures Peabody Energy's debt obligations to address Peabody Energy's liquidity issues and allow emergence from the Chapter 11 Cases;
- ability to maintain adequate debtor-in-possession financing or use cash collateral
- the potential adverse effects of the Chapter 11 Cases on Peabody Energy's liquidity, results of operations, or business prospects;
- risks associated with third-party motions in the Chapter 11 Cases, which may interfere with Peabody Energy's plan of reorganization and restructuring generally;
- the cost, availability and access to capital and financial markets, including the ability to secure new financing upon and after emerging from the Chapter 11 Cases;
- the risk that the Chapter 11 Cases will disrupt or impede Peabody Energy's international operations, including the Australian operations;

---

and other risks and uncertainties. Forward-looking statements made by Peabody Energy in this Current Report, or elsewhere, speak only as of the date on which the statements were made. New risks and uncertainties arise from time to time, and it is not possible for Peabody Energy to predict all of these events or how they may affect it or its anticipated results. Peabody Energy does not undertake any obligation to publicly update any forward-looking statements except as may be required by law. In light of these risks and uncertainties, readers should keep in mind that the events referenced by any forward-looking statements made in this Current Report and the related exhibits may not occur and should not place undue reliance on any forward-looking statements.

It is unclear at this stage of the Chapter 11 Cases if any proposed plan of reorganization would allow for distributions with respect to Peabody Energy equity or other securities. It is likely that Peabody Energy equity securities will be cancelled and extinguished upon confirmation of a proposed plan of reorganization by the Bankruptcy Court, and that the holders thereof would not be entitled to receive, and would not receive or retain, any property or interest in property on account of such equity interests. In the event of cancellation of Peabody Energy equity or other securities, amounts invested by the holders of such securities would not be recoverable and such securities would have no value. Trading prices for Peabody Energy's equity or other securities may bear little or no relationship during the pendency of the Chapter 11 Cases to the actual recovery, if any, by the holders thereof at the conclusion of the Chapter 11 Cases. Accordingly, Peabody Energy urges extreme caution with respect to existing and future investments in its equity or other securities.
