ITEM 8.01 OTHER EVENTS.

On May 7, 2008, the Wisconsin Department of Natural Resources (WDNR) issued a draft modified Wisconsin Pollutant Discharge Elimination System (WPDES) Permit for the cooling water intake system to serve the existing units at the Oak Creek Power Plant and the two new units being added as part of the Oak Creek expansion. The WDNR has proposed to modify the permit because it has concluded that the water intake system that has been built at the site is best technology available both for the existing units and for the new units. The draft modified permit is subject to a public comment period and a public informational hearing. We anticipate that the WDNR will issue a final modified permit in the summer of 2008.
