### Special Note Regarding Forward-Looking Statements

Information included in this Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended ( "Securities Act" ), and Section 21E of the Securities Exchange Act of 1934, as amended ( "Exchange Act" ). This information may involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of Appiphany Technologies Holdings Corp. (the

Company ), to be materially different from future results, performance or achievements expressed or implied by any forward-looking statements. Forward-looking statements, which involve assumptions and describe future plans, strategies and expectations of the Company, are generally identifiable by use of the words may, will, should, expect, anticipate, estimate, believe, intend, or project or the negative of these words or other variations on these words or comparable terminology. These forward-looking statements are based on assumptions that may be incorrect, and there can be no assurance that these projections included in these forward-looking statements will come to pass. Actual results of the Company could differ materially from those expressed or implied by the forward-looking statements as a result of various factors. Except as required by applicable laws, the Company has no obligation to update publicly any forward-looking statements for any reason, even if new information becomes available or other events occur in the future.

*\*Please note that throughout this Quarterly Report, except as otherwise indicated by the context, references in this report to Company , APHD , we , us and our are references to Appiphany Technologies Holdings Corp.*

**APPIPHANY TECHNOLOGIES HOLDINGS CORP.**

(A Development Stage Company)

Notes to the Condensed Consolidated Financial Statements

(Expressed in US dollars)

**1.**

**Nature of Operations and Continuance of Business**

The Company was incorporated in the State of Nevada on February 24, 2010. On May 1, 2010, the Company entered into a share exchange agreement with Appiphany Technologies Corporation ( ATC ) to acquire all of the outstanding common shares of ATC in exchange for 1,500,000 common shares of the Company. As the acquisition involved companies under common control, the acquisition was accounted for in accordance with ASC 805-50, Business Combinations Related Issues, and the consolidated financial statements reflect the accounts of the Company and ATC since inception.

*Going Concern*

These consolidated financial statements have been prepared on a going concern basis, which implies that the Company will continue to realize its assets and discharge its liabilities in the normal course of business. As at October 31, 2014, the Company has not recognized significant revenue, has a working capital deficit of \$360,004, and has an accumulated deficit of \$1,243,011. The continuation of the Company as a going concern is dependent upon the continued financial support from its management, and its ability to identify future investment opportunities and obtain the necessary debt or equity financing, and generating profitable operations from the Company's future operations. These factors raise substantial doubt regarding the Company's ability to continue as a going concern. These financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

**2.**

**Summary of Significant Accounting Policies**

a)

## Basis of Presentation

The consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States ( "US GAAP" ) and are expressed in U.S. dollars. The Company's fiscal year end is April 30.

b)

## Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The Company regularly evaluates estimates and assumptions related to the fair value and estimated useful life of long-lived assets, fair value of convertible debentures, stock-based compensation, and deferred income tax asset valuation allowances. The Company bases its estimates and assumptions on current facts, historical experience and various other factors that it believes to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and the accrual of costs and expenses that are not readily apparent from other sources. The actual results experienced by the Company may differ materially and adversely from the Company's estimates. To the extent there are material differences between the estimates and the actual results, future results of operations will be affected.

c)

## Interim Condensed Consolidated Financial Statements

These interim condensed consolidated financial statements have been prepared on the same basis as the annual financial statements and in the opinion of management, reflect all adjustments, which include only normal recurring adjustments, necessary to present fairly the Company's financial position, results of operations and cash flows for the periods shown. The results of operations for such periods are not necessarily indicative of the results expected for a full year or for any future period.

d)

## Cash and Cash Equivalents

The Company considers all highly liquid instruments with a maturity of three months or less at the time of issuance to be cash equivalents. As at October 31 and April 30, 2014, the Company had no items representing cash equivalents.

**APPIPHANY TECHNOLOGIES HOLDINGS CORP.**

(A Development Stage Company)

Notes to the Condensed Consolidated Financial Statements

(Expressed in US dollars)

**2.**

**Summary of Significant Accounting Policies (continued)**

e)

Basic and Diluted Net Loss per Share

The Company computes net loss per share in accordance with ASC 260, *Earnings per Share*. ASC 260 requires presentation of both basic and diluted earnings per share ( EPS ) on the face of the income statement. Basic EPS is computed by dividing net loss available to common shareholders (numerator) by the weighted average number of shares outstanding (denominator) during the period. Diluted EPS gives effect to all dilutive potential common shares outstanding during the period using the treasury stock method and convertible preferred stock using the if-converted method. In computing diluted EPS, the average stock price for the period is used in determining the number of shares assumed to be purchased from the exercise of stock options or warrants. Diluted EPS excludes all dilutive potential shares if their effect is anti dilutive. As of October 31, 2014, the Company had 68,937,908 (April 30, 2014 20,196,079) potentially dilutive shares outstanding.

f)

Financial Instruments

Pursuant to ASC 820, *Fair Value Measurements and Disclosures*, an entity is required to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. ASC 820 establishes a fair value hierarchy based on the level of independent, objective evidence surrounding the inputs used to measure fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. ASC 820 prioritizes the inputs into three levels that may be used to measure fair value:

*Level 1*

Level 1 applies to assets or liabilities for which there are quoted prices in active markets for identical assets or liabilities.

*Level 2*

Level 2 applies to assets or liabilities for which there are inputs other than quoted prices that are observable for the asset or liability such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in markets with insufficient volume or infrequent transactions (less active markets); or model-derived valuations in which significant inputs are observable or can be derived principally from, or corroborated by, observable market data.

*Level 3*

Level 3 applies to assets or liabilities for which there are unobservable inputs to the valuation methodology that are significant to the measurement of the fair value of the assets or liabilities.

The Company's financial instruments consist principally of cash, amounts receivable, accounts payable and accrued liabilities, accrued compensation, and amounts due to related parties. Pursuant to ASC 820, the fair value of our cash is determined based on Level 1 inputs, which consist of quoted prices in active markets for identical assets. The fair value of our derivative liability is determined to be a Level 2 input. We believe that the recorded values of all of our other financial instruments approximate their current fair values because of their nature and respective maturity dates or durations.

g)

Comprehensive Loss

ASC 220, *Comprehensive Income*, establishes standards for the reporting and display of comprehensive loss and its components in the financial statements. As at October 31 and April 30, 2014, the Company has no items that represent a comprehensive loss and, therefore, has not included a schedule of comprehensive loss in the financial statements.

**APPIPHANY TECHNOLOGIES HOLDINGS CORP.**

(A Development Stage Company)

Notes to the Condensed Consolidated Financial Statements

(Expressed in US dollars)

**2.**

**Summary of Significant Accounting Policies (continued)**

h)

Revenue Recognition

The Company recognizes revenue from online advertising. Revenue will be recognized only when the price is fixed and determinable, persuasive evidence of an arrangement exists, the service has been provided, and collectability is assured. The Company is not exposed to any credit risks as amounts are prepaid prior to performance of services.

i)

Reclassification

Certain balances in previously issued financial statements have been reclassified to be consistent with the current period presentation.

j)

Stock-based Compensation

The Company records stock-based compensation in accordance with ASC 718, *Compensation - Stock Compensation* and ASC 505, *Equity Based Payments to Non-Employees*, which requires the measurement and recognition of compensation expense based on estimated fair values for all share-based awards made to employees and directors, including stock options.

ASC 718 requires company to estimate the fair value of share-based awards on the date of grant using an option-pricing model. The Company uses the Black-Scholes option pricing model as its method of determining fair value. This model is affected by the Company's stock price as well as assumptions regarding a number of subjective variables. These subjective variables include, but are not limited to the Company's expected stock price volatility over the term of the awards, and actual and projected employee stock option exercise behaviours. The value of the portion of the award that is ultimately expected to vest is recognized as an expense in the statement of operations over the requisite service period.

All transactions in which goods or services are the consideration received for the issuance of equity instruments are accounted for based on the fair value of the consideration received or the fair value of the equity instrument issued, whichever is more reliably measurable.

k)

#### Recent Accounting Pronouncements

The Company has limited operations and is considered to be in the exploration stage. In the period ended October 31, 2014, the Company has elected to early adopt Accounting Standards Update No. 2014-10, Development Stage Entities (Topic 915): Elimination of Certain Financial Reporting Requirements. The adoption of this ASU allows the Company to remove the inception to date information and all references to exploration stage.

The Company has implemented all new accounting pronouncements that are in effect. These pronouncements did not have any material impact on the financial statements unless otherwise disclosed, and the Company does not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its financial position or results of operations.

### 3.

#### Related Party Transactions

a)

During the six months ended October 31, 2014, the Company incurred \$27,065 (2013 - \$30,000) of management fees to the former President and Director of the Company. As at October 31, 2014, the Company owed \$60,965 (April 30, 2014 - \$33,900) in accrued compensation.

b)

During the six months ended October 31, 2014, the Company incurred \$nil (2013 - \$18,000) of management fees to the former Secretary and Treasurer of the Company. As at October 31, 2014, the Company owed \$9,000 (April 30, 2014 - \$9,000) in accrued compensation.

**Common Shares (continued)**

m)

On September 12, 2014, the Company issued 5,267,606 common shares upon the conversion of \$3,740 of convertible notes payable as described in Note 5(b).

n)

On September 29, 2014, the Company issued 5,795,775 common shares upon the conversion of \$4,115 of convertible notes payable as described in Note 5(b).

o)

On October 16, 2014, the Company issued 5,714,286 common shares upon the conversion of \$4,000 of convertible notes payable as described in Note 5(b).

p)

On October 21, 2014, the Company issued 5,795,082 common shares upon the conversion of \$3,535 of convertible notes payable as described in Note 5(b).

q)

On October 21, 2014, the Company issued 75,000,000 common shares with a fair value of \$97,500 to the President and Director of the Company. Fair value was based on the closing market price on the date of Board approval.

r)

On October 30, 2014, the Company issued 4,262,295 common shares upon the conversion of \$1,840 of convertible notes payable and \$760 of accrued interest payable as described in Note 5(b).

s)

On October 30, 2014, the Company issued 10,754,098 common shares upon the conversion of \$6,560 of convertible notes payable as described in Note 5(c).

## 5.

### Convertible Debentures

a)

On May 21, 2013, the Company issued a convertible debenture, to a non-related party, for proceeds of \$32,500. Under the terms of the debenture, the amount owing is unsecured, bears interest at 8% per annum, and is due on February 28, 2014. Interest on overdue principal after default accrues at an annual rate of 22%. After 180 days or November 16, 2013, the debenture is convertible into common shares of the Company at a conversion price equal to 51% of the lowest two trading prices of the Company's common shares for the past 30 trading days prior to notice of conversion.

Due to this provision, the embedded conversion option qualifies for derivative accounting under ASC 815-15 Derivatives and Hedging. The fair value of the derivative liability resulted in a full discount to the note payable of \$32,500. The carrying value of the convertible note will be accreted over the term of the convertible note up to the value of \$32,500. During the period ended October 31, 2014, the Company issued 14,633,753 shares of common stock for the conversion of \$11,900 of the note and \$2,185 of accrued interest. As at October 31, 2014, the carrying value of the note was \$nil (April 30, 2014 - \$11,900).

b)

On September 3, 2013, the Company issued a convertible debenture, to a non-related party, for proceeds of \$19,000. Under the terms of the debenture, the amount is unsecured, bears interest at 8% per annum, and is due on June 5, 2014. Interest on overdue principal after default accrues at an annual rate of 22%. After 180 days or March 2, 2014, the debenture is convertible into common shares of the Company at a conversion price equal to 51% of the lowest two trading prices of the Company's common shares for the past 30 trading days prior to notice of conversion. On June 5, 2014, as the amount of the convertible debenture had not been repaid or converted by maturity, the Company incurred a penalty of 50% of the principal balance owing resulting in the Company recording \$9,500 which has been included in interest expense.

Due to this provision, the embedded conversion option qualifies for derivative accounting under ASC 815-15 Derivatives and Hedging . The fair value of the derivative liability resulted in a full discount to the note payable of \$19,000. The carrying value of the convertible note will be accreted over the term of the convertible note up to the value of \$19,000. During the period ended October 31, 2014, the Company issued 42,807,080 shares of common stock for the conversion of \$28,500 of the note and \$760 of accrued interest. As at October 31, 2014, the carrying value of the note was \$nil (April 30, 2014 - \$19,000).

**APPIPHANY TECHNOLOGIES HOLDINGS CORP.**

(A Development Stage Company)

Notes to the Condensed Consolidated Financial Statements

(Expressed in US dollars)

**5.**

**Convertible Debentures (continued)**

c)

On December 17, 2013, the Company issued a convertible debenture, to a non-related party, for proceeds of \$32,500. Under the terms of the debenture, the amount is unsecured, bears interest at 8% per annum, and is due on September 19, 2014. Interest on overdue principal after default accrues at an annual rate of 22%. After 180 days or June 15, 2014, the debenture is convertible into common shares of the Company at a conversion price equal to 51% of the lowest two trading prices of the Company's common shares for the past 30 trading days prior to notice of conversion. On September 19, 2014, as the amount of the convertible debenture had not been repaid or converted by maturity, the Company incurred a penalty of 50% of the principal balance owing resulting in the Company recording \$16,250 which has been included in interest expense.

Due to this provision, the embedded conversion option qualifies for derivative accounting under ASC 815-15 Derivatives and Hedging. The fair value of the derivative liability resulted in a full discount to the note payable of \$32,500. The carrying value of the convertible note will be accreted over the term of the convertible note up to the value of \$32,500. During the period ended October 31, 2014, the Company issued 10,754,098 shares of common stock for the conversion of \$6,560. As at October 31, 2014, the carrying value of the note was \$42,190 (April 30, 2014 - \$32,500).

d)

On May 21, 2014, the Company issued a convertible debenture, to a non-related party, for proceeds of \$37,500. Under the terms of the debenture, the amount is unsecured, bears interest at 8% per annum, and is due on February 23, 2015. After 180 days or November 17, 2014, the debenture is convertible into common shares of the Company at a conversion price equal to 51% of the lowest two trading prices of the Company's common shares for the past 30 trading days prior to notice of conversion.

The Company analyzed the conversion option of the Asher notes for derivative accounting consideration under ASC 815-15 Derivatives and Hedging and determined that the embedded conversion feature should be classified as a liability. However, due to the conversion option not being effective until November 17, 2014, the Company will delay measuring the derivative liability until such date.

e)

On May 23, 2014, the Company issued a convertible debenture, to a non-related party, for proceeds of \$40,000. Under the terms of the debenture, the amount is unsecured, bears interest at 8% per annum, and is due on May 23, 2015. After 180 days or November 19, 2014, the debenture is convertible into common shares of the Company at a conversion price equal to 55% of the lowest trading price of the Company's common shares for the past 15 trading days prior to notice of conversion.

The Company analyzed the conversion option of the Asher notes for derivative accounting consideration under ASC 815-15 Derivatives and Hedging and determined that the embedded conversion feature should be classified as a liability. However, due to the conversion option not being effective until November 19, 2014, the Company will delay measuring the derivative liability until such date.

6.

#### **Subsequent Events**

We have evaluated subsequent events through the date of issuance of the financial statements, and did not have any material recognizable subsequent events after October 31, 2014, excepting the following:

a)

On November 3, 2014, the Company issued 15,016,393 common shares upon the conversion of \$9,160 of convertible notes payable.

b)

On November 7, 2014, the Company issued 15,017,857 common shares upon the conversion of \$8,410 of convertible notes payable.

c)

On November 10, 2014, the Company issued 15,000,000 common shares upon the conversion of \$8,100 of convertible notes payable.

d)

On November 18, 2014, the Company issued 15,011,628 common shares upon the conversion of \$6,455 of convertible notes payable.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION OR PLAN OF OPERATION

### FORWARD-LOOKING STATEMENTS

This Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) contains forward-looking statements that involve known and unknown risks, significant uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed, or implied, by those forward-looking statements. You can identify forward-looking statements by the use of the words may, will, should, could, expects, plans, anticipates, believes, estimates, predicts, intends, potential, proposed, or continue or the negative of those terms. These statements are only predictions. In evaluating these statements, you should consider various factors which may cause our actual results to differ materially from any forward-looking statements. Although we believe that the exceptions reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. Therefore, actual results may differ materially and adversely from those expressed in any forward-looking statements. We undertake no obligation to revise or update publicly any forward-looking statements for any reason.

### RESULTS OF OPERATIONS

#### *Working Capital*

	October 31, 2014	April 30, 2014
	\$	\$
Current Assets	2,537	5,293
Current Liabilities	362,541	274,613
Working Capital (Deficit)	(360,004)	(269,320)

#### *Cash Flows*

October 31, 2014	October 31, 2013
---------------------	---------------------

	\$	\$
Cash Flows used in Operating Activities	(48,344)	(32,208)
Cash Flows from (used in) Investing Activities	—	—
Cash Flows from (used in) Financing Activities	43,150	32,100
Net increase (decrease) in Cash During Period	(5,194)	(108)

### ***Operating Revenues***

For the six months ended October 31, 2014, the Company earned revenues of \$258 compared with \$369 for the six months ended October 31, 2013.

### ***Operating Expenses and Net Loss***

For the six months ended October 31, 2014, the Company incurred operating expenses of \$183,210 compared with \$89,747 for the six months ended October 31, 2013. The increase of \$93,463 is due to an increase in management fees of \$76,565 relating to the fair value of 75,000,000 common shares issued to the new President and Director with a fair value of \$97,500 and an increase of \$41,845 in general and administrative expenses relating to an increase in day-to-day operations compared to prior year. The increases were offset by a decrease of \$20,936 in consulting fees as the Company used less consultants during the current period compared with the prior period.

For the six months ended October 31, 2014, the Company had a net loss of \$375,023 compared with a net loss of \$333,787 for the six months ended October 31, 2013. In addition to the increase in operating expenses, the Company recorded a loss on the change in fair value of the derivative liability of \$121,148, accretion and interest expense of \$68,575 relating to the Company's convertible debentures, and financing cost of \$2,348. In the prior period, the Company recorded a loss on settlement of debt of \$240,000 and interest expense of \$4,409.

### ***Liquidity and Capital Resources***

As at October 31, 2014, the Company had cash of \$8 and total assets of \$2,537 compared with cash of \$5,202 and total assets of \$5,293 as at April 30, 2014. The decrease in total assets was attributed to use of cash for operating expenses during the period.

As at October 31, 2014, the Company had total liabilities of \$362,541 compared with total liabilities of \$274,613 at April 30, 2014. The increase in total liabilities was attributed to an increase in convertible debentures of \$60,850, derivative liability of \$17,945 due to an increase in the number of common shares for potential conversion of outstanding debentures, accrued compensation of \$27,065 for unpaid management fees, and accounts payable and accrued liabilities of \$11,918 due to limited cash flow to repay outstanding obligations on a timely basis. The increases were offset by a decrease in amounts due to related parties of \$29,850 for amounts that were repaid during the period.

As at October 31, 2014, the Company had a working capital deficit of \$360,004 compared with a working capital deficit of \$269,320 as at April 30, 2014. The increase in working capital deficit was due to an increase in total liabilities due to new convertible debentures and a decrease in total assets.

### ***Cash Flow from Operating Activities***

During the period ended October 31, 2014, the Company used \$48,344 of cash for operating activities compared to the use of \$32,208 of cash for operating activities during the period ended October 31, 2012. The increase in net cash used for operating activities was due to the fact that the Company raised additional funding from issuance of convertible debentures which were used to satisfy outstanding operating obligations of the Company.

### ***Cash Flow from Financing Activities***

During the period ended October 31, 2014, the Company received \$43,150 of cash from financing activities compared to \$32,100 for the period ended October 31, 2013. During the current period, the Company received \$73,000 in proceeds from the issuance of convertible debt offset by repayments of \$29,850 to related parties.

### ***Going Concern***

We have not attained profitable operations and are dependent upon obtaining financing to pursue any extensive acquisitions and activities. For these reasons, our auditors stated in their report on our audited financial statements that they have substantial doubt that we will be able to continue as a going concern without further financing.

### ***Future Financings***

We will continue to rely on equity sales of our Common Shares in order to continue to fund our business operations. Issuances of additional shares will result in dilution to existing stockholders. There is no assurance that we will achieve any additional sales of the equity securities or arrange for debt or other financing to fund our operations and other activities.

### ***Off-Balance Sheet Arrangements***

We have no significant off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to stockholders.

### ***Critical Accounting Policies***

Our financial statements and accompanying notes have been prepared in accordance with United States generally accepted accounting principles applied on a consistent basis. The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods.

We regularly evaluate the accounting policies and estimates that we use to prepare our financial statements. A complete summary of these policies is included in the notes to our financial statements. In general, management's estimates are based on historical experience, on information from third party professionals, and on various other assumptions that are believed to be reasonable under the facts and circumstances. Actual results could differ from those estimates made by management.

#### ***Recently Issued Accounting Pronouncements***

The Company has implemented all new accounting pronouncements that are in effect. These pronouncements did not have any material impact on the financial statements unless otherwise disclosed, and the Company does not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its financial position or results of operations.

### **ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

We are a smaller reporting company as defined by Rule 12b-2 of the Securities Exchange Act of 1934 and are not required to provide the information under this item.

### **ITEM 4. CONTROLS AND PROCEDURES**

#### ***Evaluation of Disclosure Controls and Procedures***

Disclosure controls and procedures are controls and procedures that are designed to ensure that information required to be disclosed in our reports filed under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by our company in the reports that it files or submits under the Exchange Act is accumulated and communicated to our management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. Our management carried out an evaluation under the supervision and with the participation of our Principal Executive Officer and Principal Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 ("Exchange Act"). Based upon that evaluation, our Principal Executive Officer and Principal Financial Officer have concluded that our disclosure controls and procedures were not effective as of October 31, 2014, due to the material weaknesses resulting from the Board of Directors not currently having any independent members and no director qualifies as an audit committee financial expert as defined in Item

407(d)(5)(ii) of Regulation S-K, and controls were not designed and in place to ensure that all disclosures required were originally addressed in our financial statements. Please refer to our Annual Report on Form 10-K as filed with the SEC on August 8, 2013, for a complete discussion relating to the foregoing evaluation of Disclosures and Procedures.

### ***Changes in Internal Control over Financial Reporting***

Our management has also evaluated our internal control over financial reporting, and there have been no significant changes in our internal controls or in other factors that could significantly affect those controls subsequent to the date of our last evaluation.

The Company is not required by current SEC rules to include, and does not include, an auditor's attestation report. The Company's registered public accounting firm has not attested to Management's reports on the Company's internal control over financial reporting.

## **PART II. OTHER INFORMATION**

### **ITEM 1. LEGAL PROCEEDINGS.**

We know of no material, existing or pending legal proceedings against our company, nor are we involved as a plaintiff in any material proceeding or pending litigation. There are no proceedings in which our director, officer or any affiliates, or any registered or beneficial shareholder, is an adverse party or has a material interest adverse to our interest.

### **ITEM 1A. RISK FACTORS.**

We are a smaller reporting company as defined by Rule 12b-2 of the Securities Exchange Act of 1934 and are not required to provide the information under this item.

**ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.**

**1.**

**Quarterly Issuances:**

Other than as previously disclosed, we did not issue any unregistered securities during the quarter.

**2.**

**Subsequent Issuances:**

Other than as previously disclosed, we did not issue any unregistered securities subsequent to the quarter.

**ITEM 3. DEFAULTS UPON SENIOR SECURITIES.**

None.

**ITEM 4. MINE SAFETY DISCLOSURES.**

Not Applicable.

**ITEM 5. OTHER INFORMATION.**

None.

**ITEM 6. EXHIBITS**
