ITEM 7.01 REGULATION FD DISCLOSURE.

On July 16, 2018, the Company revised its current powerpoint on the Investor Page of our website to include an updated slide titled "Status Pennsylvania SB 799" which reads as follows:

Status Pennsylvania SB 799

- >Competitive Procurement for verified nutrient reductions
 - >Senate passed 47-2, January 31, 2018
 - >In House Environmental Resources and Energy Committee
 - Informational hearing during summer recess – prelude to committee moving legislation in the fall. Back in session September 12.
 - >102 co-sponsors (203 House members)
 - >Administration has indicated that the bill as presently drafted (with a funding source independent of existing funding) would be acceptable.
 - Bion: The legislative process is very fluid, but we believe that SB799, which combines the interests of both the fiscal conservatives and Growing Greener, has broad support as indicated by the vote coming out of the Senate, as well as the number of House co-sponsors.
