ADVANCE TECHNOLOGIES, INC.  
(A Development Stage Company)  
Notes to the Consolidated Financial Statements  
June 30, 2001

GENERAL

Advance Technologies, Inc. (the Company) has elected to omit substantially all footnotes to the financial statements for the nine months ended June 30, 2001 since there have been no material changes (other than indicated in other footnotes) to the information previously reported by the Company in their Annual Report filed on Form 10-KSB for the fiscal year ended September 30, 2000.

UNAUDITED INFORMATION

The information furnished herein was taken from the books and records of the Company without audit. However, such information reflects all adjustments which are, in the opinion of management, necessary to properly reflect the results of the interim period presented. The information presented is not necessarily indicative of the results from operations expected for the full fiscal year.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS AND PLAN OF OPERATIONS

MANAGEMENT'S DISCUSSION AND ANALYSIS AND PLAN OF OPERATIONS

Plan of Operation

Our plan of operation has been strongly affected by delays in the Certification of the Enhanced Vision System by the Federal Aviation Administration. The final flight tests are scheduled to be complete by August 2001. The granting of the Supplemental Type Certification will allow our EVS to start production with initial sales in 2001.

By January 2002, we shall have sufficient visibility on sales in 2002 and beyond to make reasonable projections of our anticipated royalties from these sales. Positive cash flow should be achieved by 3rd quarter of 2002.

The certification delays have put us three years behind our original schedule. These delays have forced us to use a line of credit to meet operational expenditures as well as delaying other new product ventures.

Our current line of credit is adequate for our projected operating costs. We continue to explore other avenues of Capital infusion, but the requirement for these funds is tied to discretionary expenditures on new product and new markets.

Edgar Filing: ADVANCE TECHNOLOGIES INC - Form 10QSB

The new products and markets we have been exploring are all in Infrared Camera applications for specific applications. These applications are: Recreational Vehicle Systems, Security Systems, and Medical System Applications.

We have engaged in a strategic partnership arrangement with Telesis Technologies Inc., a Taiwanese private corporation. Our talents appear to be complementary, and we are exploring many opportunities to expand our joint participation. Currently, our partnership is limited to the Recreational Vehicle System venture.
