## ITEM 2. MANagements Discussion and Analysis of Financial Condition and Results of Operations

### Going Concern and Ability of the Company to Continue

The Company was originally incorporated as Westnet Communications Group, Inc., in the State of Nevada on October 14, 1999 for the purpose of developing and operating a special interest worldwide web site community. Prior to the full implementation of the Companys business plan, management determined that its capital resources were inadequate to succeed in its plan. By majority shareholder resolution, the Company began to investigate possibilities for investing in an existing business enterprise or forming a business combination or alliance with a Company in a similar business.

### Liquidity and Capital Resources

The Company had no income from operations in the period to which this report relates nor have we any ready sources of additional capital. Our officers and shareholders from time to time borne expenses on behalf of the Company. We expect that our current cash reserves will be adequate to sustain us for the next 12 months while we continue to search for a suitable acquisition or business combination with an operating company.

On June 28, 2000 the Company filed with the Securities and Exchange Commission a registration statement on Form SB-2 with respect to 3,500,000 shares of its common stock held by selling shareholders (the Offering). The Company will not realize any procedures from any sales of securities under the offering.

### Results of Operations

We had no business operations during the period to which this report

relates.
