Text of Press Release Dated April 19, 2004

METALS USA ACHIEVES RECORD PROFIT AND 41% SALES GROWTH

April 19, 2004 HOUSTON, TEXAS Metals USA, Inc. (NASDAQ: MUSA), a leader in the metals processing and distribution industry, today announced results for its first quarter, ended March 31, 2004. Net sales for the quarter were \$319.2 million, while net income was \$18.5 million, or \$0.91 per diluted share for the quarter. For the year ago first quarter, net sales were \$226.3 million with a net loss of (\$0.2) million, or (\$0.01) per diluted share. First quarter 2004 EBITDA was \$32.0 million, compared to \$1.5 million for the same quarter of 2003. The primary driving force behind the record numbers achieved during the first quarter this year were an average increased sales price of 9%, coupled with a 34% combined increase in shipped tonnage by the Flat Rolled and Plates and Shapes Divisions when compared to the same period last year.

C. Lourenço Gonçalves, President and CEO of Metals USA commented, "We are proud of our first quarter results. We are also very pleased with the commitment of all Metals USA employees in accomplishing our results. The most important attribute of our company is the common goal shared by all employees toward building a profitable and strong company."

Mr. Gonçalves continued, "Through disciplined execution of our business plan for the Flat Rolled and Plates and Shapes Divisions, we have increased our net sales by 41% compared to the first quarter of last year. Additionally, Metals USA increased net sales revenues by 28% when compared to the fourth quarter of 2003. We not only benefited from the improving economy but we also earned new customers as they sought a reliable and proactive supplier, one which can obtain, process and deliver the metal they need in a timely fashion. Thanks to the strong relationship we have developed with the mills, Metals USA has been able to support the increased tonnage needed by our long-term and loyal customers. Additionally, we were also able to support new customers during this period of tight steel supplies, demonstrating our ability to provide quality service, and earning their loyalty."

Mr. Gonçalves added: "We truly believe that we are the middlemen between the mills and end users. Acting accordingly, our sales representatives did an excellent job informing our customers about market conditions and pricing actions taken by the mills. We are positioning Metals USA to be profitable in changing market conditions. Of course, the strategy we use may vary, as it depends on the circumstances at the time. Nevertheless, middlemen should know better than anybody else what to do at the right time. With a bigger contribution from our Building Products Division during their seasonally stronger second quarter, together with the continued solid performance from the Plates and Shapes and the Flat Rolled Divisions, second quarter should be another good quarter for Metals USA."

Edgar Filing: METALS USA INC - Form 8-K

Metals USA will host a conference call on Tuesday, April 20th at 11:00 a.m. EDT during which Lourenço Gonçalves will discuss Metals USA's first quarter 2004 results. You are invited to listen to the live audio broadcast of the conference call over the internet, accessible from the Metals USA web site: www.metalsusa.com. A replay of the call will be available until May 19, 2004 either on the Company's website or by dialing (888) 203-1112 and enter the pass code 174197.

Metals USA provides a wide range of products and services in the heavy carbon steel, flat-rolled steel, specialty metals, and building products markets. Reconciliation of EBITDA:

Edgar Filing: METALS USA INC - Form 8-K

Operating income	\$	31.7	\$	1.5	\$	4.0
Depreciation and amortization expense		0.3				0.2
EBITDA	\$	32.0	\$	1.5	\$	4.2

We believe that EBITDA is commonly used as a measure of performance for companies in our industry and are frequently used by analysts, investors, lenders and other interested parties to evaluate a company's financial performance and its ability to incur and service debt. EBITDA should not be considered as a measure of financial performance under accounting principles generally accepted in the United States. The items excluded from EBITDA are significant components in understanding and assessing financial performance. EBITDA should not be considered in isolation or as an alternative to net income, cash flows generated by operating, investing or financing activities or other financial statement data presented in the consolidated financial statements as an indicator of operating performance or as a measure of liquidity.
