MTS RECEIVES A \$150 MILLION LOAN FROM THE EBRD

Moscow, Russian Federation December 15, 2004 Mobile TeleSystems OJSC (MTS - NYSE: MBT), the largest mobile phone operator in Russia and the CIS, announces that it has received a \$150 million loan from the European Bank for Reconstruction and Development (EBRD).

The loan facility has a tenor of seven years repayable from December 15, 2005 on a biannual basis in equal installments. Interest is 3.1% over LIBOR. The proceeds of the loan will be used to finance investments by MTS in Russia's regions, with an emphasis on regions other than Moscow and St. Petersburg.

Commenting on the new credit facility, Tatiana Evtushenkova, MTS Vice President for Investment and Corporate Development, said: With this loan, the EBRD is supporting MTS effort to develop the telecommunications infrastructure in the regions of Russia where networks have not yet been established and where phones are still something of a rarity. This substantial long-term facility highlights MTS investment record and the EBRD's commitment to Russia. It also confirms the Company's strategy to increase the maturity profile of its debt and decrease its cost.
