Item 2.01. Completion of Acquisition or Disposition of Assets.

On March 2, 2006, Forest Oil Corporation (Forest) completed the spin-off of its offshore Gulf of Mexico operations by means of a special stock dividend, which consisted of a pro rata spin-off (the Spin-off) of all outstanding shares of Forest Energy Resources, Inc. (FERI), a total of 50,637,010 shares of common stock, to holders of record of Forest common stock, par value \$.10 per share, as of the close of business on February 21, 2006. Immediately following the Spin-off, FERI was merged with a subsidiary of Mariner Energy, Inc. (Mariner) in a stock for stock transaction (the Merger). Mariner commenced trading on the New York Stock Exchange on March 3, 2006.

The Spin-off was completed without the payment of consideration by Forest shareholders and consisted of a special stock dividend of 0.8093 shares of FERI for each outstanding share of Forest common stock. The Merger was also completed without the payment of consideration and was accomplished by the exchange of all issued and outstanding shares of FERI for shares of common stock of Mariner, with each whole share of FERI exchanged for one share of Mariner common stock. No fractional shares were issued. Instead, Forest shareholders will receive a cash distribution in lieu of any fractional shares of Mariner common stock. The exchange of FERI and Mariner shares was effected through book-entry, without the exchange of physical certificates.

The Spin-off is intended to be a tax-free transaction for federal income tax purposes. Prior to the Merger, as part of the Spin-off, FERI paid Forest an initial cash amount equal to \$176,102,000. The cash amount is subject to further adjustment.

Immediately upon completion of the Merger, approximately 58% of the Mariner common stock was held by Forest shareholders and approximately 42% of the Mariner common stock was held by the pre-Merger stockholders of Mariner. In connection with the Merger, Mariner and Forest agreed that the size of the Mariner board of directors would be increased from five members to seven members. The board will include five of the directors elected by the stockholders of Mariner prior to the completion of the Merger, including the directors elected at the annual meeting of stockholders held on March 2, 2006 at which the Merger was approved and two directors mutually agreed between Forest and Mariner. Pursuant to this agreement, the size of the Mariner board was increased to six and H. Clayton Peterson was elected to serve as a director of Mariner immediately following the Merger. On or prior to March 31, 2006, the size of the Mariner board will be increased to seven and the additional director mutually agreed by Forest and Mariner will be added. As of March 8, 2006, Forest and Mariner had not yet determined the remaining director nominee. Also, pursuant to the terms of a transition services agreement, Forest will provide FERI and Mariner with certain transition services as may be requested for a period ending on September 30, 2006. Except for the Merger transaction and transactions contemplated by the Merger and related transaction documents, Forest and Mariner have not had any material relationship.

Item 7.01. Regulation FD Disclosure.

On March 2, 2006, Forest and Mariner jointly announced the completion of the Spin-off and Merger transactions. A copy of the press release is attached to this report as Exhibit 99.1. The information furnished pursuant to Item 7.01 in this report on Form 8-K, including Exhibit 99.1, shall not be deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934, or otherwise subject to liabilities of that section.

Exhibit	Description
99.1	Forest Oil Corporation press release dated March 2, 2006, entitled Forest Oil and Mariner Energy Complete Spin-off and Merger of Forest's Offshore Gulf of Mexico Operations with Mariner.

FOREST OIL CORPORATION

Introduction to the Unaudited Pro Forma Condensed Consolidated Financial Statements

The following unaudited pro forma consolidated financial statements of Forest Oil Corporation (Forest) adjust the historical financial statements of Forest for the spin-off of Forest Energy Resources, Inc. (FERI), Forest 's wholly-owned subsidiary that held its offshore Gulf of Mexico operations, herein after referred to as the Spin-off. The Spin-off was completed on March 2, 2006 by means of a special stock dividend, which consisted of a pro rata spin-off of all outstanding shares of FERI, a total of 50,637,010 shares of common stock, to all holders of record of Forest common stock on February 21, 2006. Immediately following the Spin-off, FERI was merged with a subsidiary of Mariner Energy, Inc. in a stock for stock transaction.

The historical financial information of Forest set forth below has been derived from the historical audited and unaudited consolidated financial statements of Forest included in the Annual Report on Form 10-K for the year ended December 31, 2004 and the Quarterly Report filed on Form 10-Q for the quarter ended September 30, 2005. The unaudited pro forma consolidated balance sheet was prepared as if the transaction occurred as of September 30, 2005. The unaudited pro forma consolidated statements of income were prepared as if the transaction occurred as of January 1, 2004.

The unaudited pro forma statements presented do not purport to represent what the results of operations or financial position of Forest would actually have been had the transaction occurred on the dates noted above, or to project the results of operations or financial position of Forest for any future periods. The pro forma adjustments are based on available information and certain assumptions that management believes are reasonable. The adjustments are directly attributable to the transaction and are expected to have a continuing impact on the financial position and results of operations of Forest. In the opinion of management, all adjustments necessary to present fairly the unaudited pro forma financial information have been made.

The unaudited pro forma consolidated financial statements should be read in conjunction with Management 's Discussion and Analysis of Financial Condition and Results of Operations and the historical financial statements and related notes thereto of Forest included in the 2004 Annual Report on Form 10-K and the Quarterly Report filed on Form 10-Q for the quarter ended September 30, 2005.

(a) To eliminate the revenues and direct operating expenses of FERI.

(b) To eliminate the salaries and other direct general and administrative expenses attributable to FERI. The pro forma adjustment includes only general and administrative costs directly related to Forest's offshore Gulf of Mexico operations. Accordingly, no reductions were assumed for general corporate overhead costs, such as indirect personnel costs, professional services, cost of public ownership, insurance and accounting which Forest expects will occur subsequent to the Spin-off.

(c) To adjust depreciation and depletion to give effect to the reduction in Forest's consolidated full cost pool and a reduction in production volumes.

(d) To eliminate accretion expense attributable to asset retirement obligations associated with properties of FERI.

(e) To adjust interest expense to give effect to the repayment of a portion of Forest's outstanding credit facilities using the approximate \$200 million in proceeds received from FERI at the time of the Spin-off.

Edgar Filing: FOREST OIL CORP - Form 8-K

- (f) To adjust for the changes in the fair value of derivative instruments that did not qualify for cash flow hedge accounting treatment, but which were designated as economic hedges of FERI's oil and gas production.
- (g) To adjust income tax expense for the effects of the pro forma adjustments based on the federal statutory tax rate of 35%.
