## CEO S STATEMENT

Commenting on the second quarter 2006 results, Frans Koffrie, Buhrmann President and CEO, said: It is encouraging that we have been able to grow sales in all Divisions and improve our net result strongly in a quarter of such significant change. This was an important and positive quarter for Office Products North America. We were able to grow sales by $5 \%$ organically even though our focus was primarily on streamlining our organisational structure. While disruption was held to a minimum, there certainly was an impact on the sales performance in the quarter. Now that this restructuring is complete we believe that resultant cost efficiencies and the new organisational structure will generate increasing top and bottom line benefits in upcoming quarters.

> ASAP Software and Graphic Systems delivered particularly strong performances while in Europe our strong market position resulted in $8 \%$ organic growth and a positive operating result. Office Products Australia grew its sales $1 \%$ organically, impacted by declining sales in the low-margin IT solutions business. To address changing market circumstances we are realigning our sales and marketing process to enhance its performance.

[^0](1) As of 1 January 2006 items with an exceptional or incidental character will be separately reported as special items and explained in our commentaries.

## Edgar Filing: BUHRMANN NV - Form 6-K

## SECOND QUARTER FINANCIAL PERFORMANCE

Net sales improved by $7.2 \%$ to EUR 1,587 million, an increase of $6.7 \%$ at constant rates. Organic sales were up 9\%. Total Group gross contribution grew $5.6 \%$ at constant rates to EUR 461.3 million. Gross contribution was driven by increased sales, our private branded product range, improved merchandising and global sourcing. This also helped to offset margin pressures in the large account segment and a faster growth of lower margin product categories.

Excluding special items, operating result increased to EUR 70.5 million, an improvement of $13.4 \%$ at constant rates. Operating result including special items increased to EUR 64.5 million, up $16.0 \%$ at constant rates.

In the second quarter, total special items were EUR 2.4 million negative, net of tax. In North America charges of EUR 6.0 million (EUR 3.4 million, net of tax) were incurred for the streamlining of the organisational structure and the centralisation of back office functions. Under other financial results, a provision for a previous divestment of EUR 1.0 million was released.

Net result rose $40.4 \%$ to EUR 25.0 million. Excluding special items and fair value changes, net result improved $10.7 \%$ to EUR 30.0 million. EPS improved to EUR 0.14 versus EUR 0.10 a year ago. Excluding special items and fair value changes, EPS was EUR 0.17 (Q2 2005: EUR 0.15).

Return on capital employed (before goodwill and special items) was 31.8\% (Q2 2005: 30.3\%). Including goodwill and special items, return on capital employed was $11.1 \%$ (Q2 2005: 9.9\%).

## ADDITIONAL FINANCIAL INFORMATION

For the full year 2006 we project cash interest expenses (i.e. including dividends on Preference Shares A) of approximately EUR 80 million. Capital expenditure is targeted to be about EUR 80 million with depreciation at about EUR 100 million. The full year 2006 cash outflow reported under Other operational payments (from current provisions for restructuring) is expected to be between EUR 30 and 40 million.

Cash tax payments are estimated to be around EUR 35 million while the effective tax rate excluding any special items, fair value effects and dividend on Preference Shares A is expected to be approximately $25 \%$ in 2006.

(1) Average Capital Employed excludes goodwill.
(2) Excluding special items (see also the remarks under Basis of Presentation).

During a quarter of significant organisational change, Office Products North America delivered 5\% organic sales growth and 10.7\% operating result growth at constant rates, excluding special items. All regions and product lines contributed positively. We are encouraged by this performance in a quarter in which our focus was primarily on centralising back office functions and implementing a new streamlined organisational structure. While disruption was held to a minimum, there certainly was an impact on the sales performance in the second quarter.

The streamlining of the organisational structure in North America has been completed and the centralisation of back office functions is firmly on schedule. Several new executives were appointed, including the newly created function of Chief Operating Officer. The newly formed leadership team is structured around product lines and customer segments.

Now that the new organisation is in place we believe the resultant cost efficiencies and the new product line and customer focused structure will generate increasing top and bottom line benefits in upcoming quarters. The underlying growth in the office products market remained solid.

Our sales performance was primarily driven by our large account business and strong growth in facilities supplies. We are seeing the benefits of recent acquisitions, including Coastwide Laboratories, a distributor specialised in cleaning products we acquired last May. Promotional marketing and document and print management both had satisfactory results in the quarter. Furniture sales were lower than expected. Mid-market had another quarter of improving sales growth and we are increasingly confident in the new mid-market approach which is being incorporated in the new organisational structure.

In order to expand penetration in the Canadian mid-market, Corporate Express in mid July acquired Southern Stationers, a small supplier of office products and furniture with annualised sales of CAD 5 million.

There have been three price increases for office paper this year which negatively impacted our gross contribution. We have been successful in passing these on to a large extent and are confident that a substantial portion of these increases will be absorbed by the market.

## Edgar Filing: BUHRMANN NV - Form 6-K

Our private brands programme now represents $27 \%$ of office and computer supplies sales, compared to $24 \%$ a year ago. During 2006 some 300 products will be added resulting in a line-up of over 2,400 private brand products. This will include a new range of writing instruments and the roll-out of Coastwide Laboratories environmentally sound cleaning products. We are expanding our highly successful dated goods product line launched in 2005.

Gross contribution amounted to EUR 265.9 million, up $3.8 \%$ at constant rates. Gross contribution as a percentage of sales saw a decline to $33.5 \%$ due to the impact of re-tendering and new contract wins and paper price increases. These were offset to a large extent by the success of our private brands and preferred supplier initiatives.

Excluding special items, operating result improved to EUR 39.3 million, an increase of $10.7 \%$ at constant rates. This represents an operating result margin of $5.0 \%$ (Q2 2005: 4.7\%). Operating result, including special items was EUR 33.3 million, a decrease of $8.0 \%$ at constant rates.

## OFFICE PRODUCTS EUROPE

| Amounts in EUR million | Q2 2006 | Q2 2005 | $\Delta$ in EUR | $\Delta$ at constant rates |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Net sales | 243.9 | 231.3 | 5.5 | \% 5.8 | \% |
| Organic growth | 8 | \% 5 | \% |  |  |
| Gross contribution | 79.8 | 76.4 | 4.5 | \% 4.8 | \% |
| Operating result | 1.4 | (7.4 | ) $\mathrm{n} / \mathrm{a}$ | $\mathrm{n} / \mathrm{a}$ |  |
| Average Capital Employed(1) | 136.6 | 121.8 | 12.1 | \% 12.4 | \% |
| Ratios |  |  |  |  |  |
| Gross contribution / net sales | 32.7 | \% 33.0 | \% |  |  |

| Operating result / Average Capital Employed | 4.1 | \% (1.1 | )\% |  |  |

## (1) Average Capital Employed excludes goodwill.

Helped by gradually improving European market conditions, Office Products Europe continued its upward trend with organic sales up $8 \%$ and operating result turning positive. All operating companies, except for Veenman Germany, contributed to the sales growth. This growth was mainly driven by the large account business while a satisfactory mid-market performance was realised. All product categories showed solid growth, particularly facility supplies.

The German market remains competitive and shows some signs of deflationary pricing. We continue to gain market share, resulting in high-single digit organic growth. Delivery to German customers from our Benelux distribution centre continued to perform to our expectations. The United Kingdom maintained its sales momentum and improved profitability. The Benelux operations grew sales against the background of improving market conditions.

Veenman Netherlands had a good quarter with increased sales and profits. Veenman Germany sales declined as a result of a plan to reduce geographical coverage, which was completed in the first quarter. Although still loss making, overall improvements as a result of its restructuring are expected in the near term.

## Edgar Filing: BUHRMANN NV - Form 6-K

The acquisition of Spanish company Ofiexpress proved to be a welcome extension to our European network. The integration is progressing well. Our ability to service international customers on a Pan-European scale is further strengthened by partnering with Turkish Aktuel Officeware. Corporate Express now covers 26 European countries.

Gross contribution grew by $4.8 \%$ at constant rates to EUR 79.8 million while gross contribution as a percentage of sales decreased slightly to $32.7 \%$. Margin improvement actions partly offset the costs attached to acquiring new customers, comparatively strong growth in lower gross contribution margin Germany and increased sales in lower margin computer supplies.

The merchandising activities are progressing well. Full benefits are expected for 2007 following the issue of our new catalogues. Sales of private brands now accounts for $22 \%$ of office supplies and computer supplies sales.

Good cost control more than offset some cost increases related to a further centralisation of European functions. Operating result improved to EUR 1.4 million from a loss of EUR 7.4 million loss last year, which included special items of EUR 7.0 million.

## OFFICE PRODUCTS AUSTRALIA

|  |  |  |  | $\Delta$ at constant |  |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| rates |  |  |  |  |  |$]$

## (1) Average Capital Employed excludes goodwill.

In the second quarter Office Product Australia delivered 1\% organic sales growth, impacted by declining sales in low-margin IT solutions business. To address changing market circumstances we are realigning our sales and marketing process to enhance its performance.

Good sales growth was achieved in furniture, facility and breakroom supplies and promotional marketing products due to the continued roll-out of its single source supplier model. In the first half, three office products acquisitions have been completed (annual sales of AUD 28 million).

Gross contribution was up $6.2 \%$ at constant rates to EUR 57.8 million. Gross contribution as percentage of sales increased to $31.5 \%$, helped by merchandising initiatives, private brands and decreased sales of low-margin IT solutions business. Private brands grew to $31 \%$ of like products sold. We expect to increase this range by a further 700 items in the coming period.

6

Edgar Filing: BUHRMANN NV - Form 6-K

Operating result was EUR 16.2 million, a decline of $1.2 \%$ at constant rates. Via Project OneSource duplicate legacy cost structure of the business is being addressed. A revised management structure shifting our matrix-based business from geographic to functional lines has been implemented, which will accelerate the planned cost reductions. A number of remaining OneSource initiatives are underway and we expect further costs relating to these as net savings flow through in future periods.

## ASAP SOFTWARE

| Amounts in EUR million | Q2 2006 | Q2 2005 | $\Delta$ in EUR | $\Delta$ at constant rates |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Net sales | 253.5 | 221.7 | 14.3 | \% 12.6 | \% |
| Organic growth | 23 | \% 1 | \% |  |  |
| Gross contribution | 25.8 | 21.7 | 19.2 | \% 17.7 | \% |
| Operating result | 11.2 | 10.3 | 8.3 | \% 6.3 | \% |
| Average Capital Employed(1) | 27.7 | 3.7 | n/a | n/a |  |
| Ratios |  |  |  |  |  |
| Gross contribution / net sales | 10.2 | \% 9.8 | \% |  |  |
| Operating result / net sales | 4.4 | \% 4.6 | \% |  |  |
| Operating result / Average Capital Employed | 160.9 | \% n/a |  |  |  |

## (1) Average Capital Employed excludes goodwill.

In the second quarter ASAP Software maintained its sales momentum with an organic growth of $23 \%$. All regions and product lines realised double-digit sales growth. We are encouraged to see the investments in penetrating the small and medium-sized business and in developing the higher margin IT services business are contributing to the positive sales trend.

Organic sales growth is adjusted for the effect of the ongoing shift from invoiced sales to a commission-based agency model. The agency model has no effect on the profitability in absolute terms of the business.

Gross contribution increased to EUR 25.8 million, up $17.7 \%$ at constant rates. The strong business performance enabled ASAP Software to continue to invest in future growth. Operating result improved $6.3 \%$ at constant rates to EUR 11.2 million. On our current assumptions, we expect that 2006 operating result to be around the same level as 2005.

## GRAPHIC SYSTEMS

| Amounts in EUR million | Q2 2006 | Q2 2005 | $\Delta$ in EUR |  |
| :---: | :---: | :---: | :---: | :---: |
| Net sales | 112.6 | 99.5 | 13.2 | \% |
| Organic growth | 15 | \% 2 | \% |  |
| Gross contribution | 32.0 | 28.3 | 13.0 | \% |
| Operating result | 5.0 | 1.9 | 160.1 | \% |
| Average Capital Employed(1) | 94.4 | 102.5 | (7.9 | )\% |
| Ratios |  |  |  |  |
| Gross contribution / net sales | 28.4 | \% 28.5 | \% |  |
| Operating result / net sales | 4.4 | \% 1.9 | \% |  |
| Operating result / Average Capital Employed | 21.1 | \% 7.5 | \% |  |

(1) Average Capital Employed excludes goodwill.

## Edgar Filing: BUHRMANN NV - Form 6-K

Graphic Systems produced a solid quarter with sales up 13\% to EUR 113 million and a strong improvement of its operating result to EUR 5.0 million. The improvement in sales is visible across the board. Order intake was healthy and the order portfolio remains well filled. Assuming timely delivery of machinery by Heidelberg, we expect operating profit for the full year 2006 to be significantly higher than last year.

Market conditions in the graphics industry continue to improve gradually, although at a lower pace compared to previous cyclical recoveries. The willingness by printers to invest differs per country with Italy and Belgium performing strongly.

Triple S sales an integrated offering of services, supplies and spare parts represented $36 \%$ of total divisional sales. Gross contribution rose $13 \%$ to EUR 32.0 million. The Division s operational costs and average capital employed were well managed.

## CORPORATE

Under Corporate , operating costs for Holdings as well as the net surplus of the funding side of our defined benefit pension plans relating to inactive members amounted to EUR 2.5 million negative (Q2 2005: EUR 1.8 million negative)

Total operating costs were EUR 7.1 million (Q2 2005: 6.0 million), which includes costs attached to the implementation of Sarbanes-Oxley. A net contribution of EUR 4.6 million (Q2 2005: EUR 4.2 million) was recorded for the expected return on plan assets and interest on the pension obligations, due to the surplus status of our Dutch pension fund (Per 30 June 2006 coverage ratio: approximately $148 \%$ ).

For the full year 2006 we expect to record a net contribution of approximately EUR 18 million for the expected return on plan assets and interest on the pension obligations. The operating costs for Holdings are expected to be about EUR 29 million.

## TAXES AND FAIR VALUE CHANGES

Taxes amounted to EUR 10.4 million (Q2 2005: EUR 10.1 million). The tax effect on special items amounted to EUR 2.6 million positive. Underlying taxes amounted to EUR 12.8 million, excluding fair value effects, special items and dividend on Preference Shares A, reflecting an effective tax rate of $25.2 \%$.

The total impact of fair value adjustments, net of tax, was EUR 2.6 million negative in this quarter (Q2 2005: EUR 7.0 million negative).

## SPECIAL ITEMS

In the second quarter, operating result included special items of EUR 6.0 million negative (EUR 3.4 million negative, net of tax).
For streamlining of the organisational structure in North America and centralising of back office functions, a total of USD 8.0 million (EUR 6.0 million) in special items was incurred for the second quarter. This consists of USD 5.4 million for the centralisation of back office functions and USD 2.6 million for the streamlining of the organisational structure. In the remainder of 2006 total costs of USD 19 million are expected to be incurred and an additional USD 10 million in 2007.

## Edgar Filing: BUHRMANN NV - Form 6-K

The combined savings are estimated to reach a run rate of USD 47 million of which USD 17 million relates to centralisation of back office functions and USD 30 million to the streamlining of the organisational structure. Savings realised in the second quarter were USD 3 million, with USD 20 million expected for full 2006.

Under other financial results a provision for a previous divestment of EUR 1.0 million was released.

## CASH FLOW, NET DEBT, FINANCING AND FINANCIAL COSTS

Cash flow available for financing activities (excluding interest paid and dividend on preference shares) was EUR 21.1 million positive in the second quarter after spending EUR 26 million on acquisitions. Average working capital as a percentage of sales (on a four-quarter rolling average) was $8.7 \%$ (Q1 2006: 8.5\%).

Net interest-bearing debt decreased to EUR 1,143 million at the end of the second quarter versus EUR 1,161 million at 31 March 2006. The translation effect related to the depreciation of the US dollar versus the euro reduced net interest-bearing debt by EUR 36 million in the second quarter 2006.

The leverage ratio (net interest-bearing debt excluding Preference Shares A and financing fees / EBITDA) decreased to 3.0 times versus 3.2 times the previous quarter.

For the quarter net financing costs, excluding special items and fair value changes, were EUR 22.5 million (Q2 2005: EUR 19.6 million). EUR 2.8 million of these costs related to the dividend on preference shares (Q2 2005: EUR 2.8). Cash interest was EUR 17.5 million (Q2 2005: EUR 15.0 million) and non-cash interest amounted to EUR 2.2 million (Q2 2005: EUR 1.7 million).

Edgar Filing: BUHRMANN NV - Form 6-K

## Safe Harbour Statement

Statements included in this press release, which are not historical facts are forward-looking statements made pursuant to the safe harbour provisions of the Private Securities Litigation Reform Act of 1995 and the Securities Exchange Act of 1934. Such forward-looking statements are made based upon management s expectations and beliefs concerning future events impacting Buhrmann and therefore involve a number of uncertainties and risks, including, but not limited to industry conditions, changes in product supply, pricing and customer demand, competition, risks in integrating new businesses, currency fluctuations, and the other risks described from time to time in the Company sfilings with the US Securities and Exchange Commission, including the Company s Annual Report on Form 20-F filed with the Securities and Exchange Commission on March 7, 2006. As a result, the actual results of operations or financial conditions of the Company could differ materially from those expressed or implied in such forward-looking statements. Shareholders and other readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date on which they are made. The Company undertakes no obligation to update publicly or revise any forward-looking statements.

## Basis of Presentation

- The financial information presented is unaudited.
- Details of our IFRS-based accounting principles are included in the Annual Report 2005, which is available on our website, www.buhrmann.com
- Neither depreciation nor amortisation is allocated to Purchase value trade goods sold .
- Changes in the fair value relate mostly to exchange results due to translation of long-term internal and external borrowings.
- During the course of a year, certain events take place that may be infrequent or of a size (such as restructuring, refinancing activities, impairments) that reporting the impact on the financial performance separately as special items provides the opportunity to give a more operationally oriented view on the (underlying) results of the business.
- Non-GAAP measures: figures are also presented excluding changes in fair values and excluding special items. Buhrmann regards these figures as key performance indicators increasing the transparency of the reporting.
- Organic growth rates exclude all factors that disturb a like-for-like comparison, such as: currency exchange rate movements, acquisitions, divestments, variations in the number of working days, the change to a commission-based model at our ASAP Software subsidiary.
- Non-GAAP measures: Figures are often presented before special items and changes in fair value. Buhrmann regards these figures as key performance indicators increasing the transparency of the reporting.
