Forward-Looking Statements

This report contains forward-looking statements (as that term is defined by the federal securities laws) about our financial condition, results of operations and business. You can find many of these statements by looking for words such as may, will, expect, anticipate, similar words used in this report.

These forward-looking statements are subject to numerous assumptions, risks and uncertainties. Because the statements are subject to risks and uncertainties, actual results may differ materially from those expressed or implied by the forward-looking statements. We caution readers not to place undue reliance on the statements, which speak only as of the date of this report.

The cautionary statements set forth above should be considered in connection with any subsequent written or oral forward-looking statements that we or persons acting on our behalf may issue. We do not undertake any obligation to review or confirm analysts' expectations or estimates or to release publicly any revisions to any forward-looking statement to reflect events or circumstances after the date of this report or to reflect the occurrence of unanticipated events.

Risks and uncertainties that could cause actual results to vary materially from those anticipated in the forward-looking statements included in this report include general economic conditions in the markets in which we operate and industry-related and other factors such as:

- Our businesses depend upon general economic conditions and we serve some customers in highly cyclical industries. As a result, we are subject to the loss of sales and margins due to an economic downturn or recession, which could negatively affect us;
- Many of the markets we serve are highly competitive, which could limit the volume of products that we sell and reduce our operating margins. We also face the risk of lower cost foreign manufacturers located in China, Southeast Asia and other regions competing in the markets for our products, and we may be adversely impacted;
- Increases in our raw material or energy costs or the loss of a substantial number of our raw material or energy suppliers could adversely affect our profitability and other financial results;
- We may be unable to successfully implement our business strategies. Our ability to realize benefits from our business strategies may be limited;
- Our products are typically highly engineered or customer-driven and, as such, we are subject to risks associated with changing technology and manufacturing techniques, which could place us at a competitive disadvantage;
- We depend on the services of key individuals and relationships, the loss of which would materially harm us;
- We have substantial debt and interest payment requirements that may restrict our future operations and impair our ability to meet our obligations;
- Restrictions in our debt instruments and accounts receivable facility limit our ability to take certain actions and breaches thereof could impair our liquidity;
- We may be unable to protect our intellectual property or face liability associated with the use of products for which intellectual property rights are claimed;
- We may incur material losses and costs as a result of product liability, recall and warranty claims that may be brought against us;

- Our business may be materially and adversely affected by compliance obligations and liabilities including environmental and other laws and regulations;
- Historically, we have grown primarily through acquisitions. If we are unable to identify attractive acquisition candidates, successfully integrate acquired operations or realize the intended benefits of our acquisitions, we may be adversely affected;
- We have significant operating lease obligations. Failure to meet those obligations could adversely affect our financial condition;
- We have significant goodwill and intangible assets. Future impairment of our goodwill and intangible assets could have a material adverse impact on our financial results;
- We may be subject to work stoppages and further unionization at our facilities or our customers or suppliers may be subjected to work stoppages, which could seriously impact the profitability of our business;
- Our healthcare costs for active employees and retirees may exceed our projections and may negatively affect our financial results;
- A growing portion of our sales may be derived from international sources, which exposes us to certain risks which may adversely affect our financial results; and
- We have not yet completed the implementation of our plans to comply with Section 404 of the Sarbanes-Oxley Act of 2002.

We disclose important factors that could cause our actual results to differ materially from our expectations under Item 2. *Management's Discussion and Analysis of Financial Condition and Results of Operations* and elsewhere in this report. These cautionary statements qualify all forward-looking statements attributed to us or persons acting on our behalf. When we indicate that an event, condition or circumstance could or would have an adverse effect on us, we mean to include effects upon our business, financial and other condition, results of operations, prospects and ability to service our debt.

TRIMAS CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

1. Basis of Presentation

TriMas Corporation ("TriMas" or the "Company"), and its consolidated subsidiaries, is a global manufacturer of products for commercial, industrial and consumer markets. During the first quarter of 2006, the Company re-aligned its operating segments and management structure to better focus its various businesses' product line offerings by industry, end customer markets and related channels of distribution. Prior period segment information has been revised to conform to the current structure and presentation.

The Company is principally engaged in five business segments with diverse products and market channels. Packaging Systems is a manufacturer and distributor of steel and plastic closure caps, drum enclosures, rings and levers, dispensing systems for industrial and consumer markets, as well as specialty laminates, jacketings and insulation tapes used with fiberglass insulation as vapor barriers in commercial and industrial construction applications. Energy Products is a manufacturer and distributor of a variety of engines and engine replacement parts for the oil and gas industry as well as metallic and non-metallic industrial gaskets and fasteners for the petroleum refining, petrochemical and other industrial markets. Industrial Specialties designs and manufactures a diverse range of industrial products for use in niche markets within the aerospace, industrial, automotive, defense, and medical equipment markets. These products include highly engineered specialty fasteners for the aerospace industry, high-pressure and low-pressure cylinders for the transportation, storage and dispensing of compressed gases, specialty fasteners for the automotive industry, specialty precision tools such as center drills, cutters, end mills, reamers, master gears, gages and punches, and specialty ordnance components and steel cartridge cases. RV & Trailer Products is a manufacturer and distributor of custom-engineered trailer products, brake control solutions, lighting accessories and roof racks for the recreational vehicle, agricultural/industrial, marine, automotive and commercial trailer markets. Recreational Accessories manufactures towing products, functional vehicle accessories and cargo management solutions including vehicle hitches and receivers, sway controls, weight distribution and fifth-wheel hitches, hitch-mounted accessories, and other accessory components which are distributed through independent installers and retail outlets.

During the fourth quarter of 2005, the Company committed to a plan to sell its industrial fasteners business. The industrial fasteners business consists of three locations: Wood Dale, Illinois, Frankfort, Indiana and Lakewood, Ohio. Our industrial fasteners business is presented as discontinued operations and assets held for sale. See Note 2, *Discontinued Operations and Assets Held for Sale*.

The accompanying consolidated financial statements include the accounts of the Company and its subsidiaries and in the opinion of management, contain all adjustments, including adjustments of a normal and recurring nature, necessary for a fair presentation of financial position and results of operations. Results of operations for interim periods are not necessarily indicative of results for the full year. The accompanying consolidated financial statements and notes thereto should be read in conjunction with the Company's 2005 Annual Report on Form 10-K.

2. Discontinued Operations and Assets Held for Sale

In the fourth quarter of 2005, the Board of Directors authorized management to move forward with its plan to sell the Company's industrial fastener business. Accordingly, our industrial fastener business is reported as discontinued operations for all periods presented. During the third quarter, the Company recorded an additional asset impairment charge of \$9.7 million, net of income tax benefit of \$6.2 million, related to the further write down of net assets of the industrial fastener business, based on a revised

TRIMAS CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(unaudited)

estimate of fair value. The reduction in estimate of fair value was evidenced by letters of interest/intent received from prospective third party purchasers which, in aggregate, indicated a fair value for the business less than its current book value. During the second quarter of 2006, the Company sold its asphalt-coated paper line of business, which was part of our Packaging Systems operating segment. Accordingly, the results of our asphalt-coated paper business are reported as discontinued operations for all periods presented. The Company recorded a loss from discontinued operations of \$10.9 million and \$1.9 million, net of income tax benefit of \$7.2 million and \$1.2 million for the three months ended September 30, 2006 and 2005, respectively, and \$16.2 million and \$3.8 million, net of income tax benefit of \$10.8 million and \$2.5 million for the nine months ended September 30, 2006 and 2005, respectively.

Results of discontinued operations are summarized as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2006	2005	2006	2005
	(dollars in thousands)			
Net sales	\$ 22,570	\$ 24,900	\$ 73,400	\$ 82,730
Loss from discontinued operations before income tax benefit	\$ (18,030)	\$ (3,100)	\$ (27,060)	\$ (6,290)
Income tax benefit	7,160	1,200	10,820	2,450
Loss from discontinued operations, net of income tax benefit	\$ (10,870)	\$ (1,900)	\$ (16,240)	\$ (3,840)

Assets and liabilities of the discontinued operations held for sale are summarized as follows:

	September 30, 2006	December 31, 2005
	(dollars in thousands)	
Receivables, net	\$ 13,040	\$ 14,500

3. Goodwill and Other Intangible Assets

Changes in the carrying amount of goodwill for the nine months ended September 30, 2006 are summarized as follows:

	Packaging Systems (dollars in thousands)	Energy Products	Industrial Specialties	RV & Trailer Products	Recreational Accessories	Total
Balance, December 31, 2005	\$ 179,350	\$ 45,200	\$ 62,720	\$ 242,720	\$ 114,790	\$ 644,780
Reversal of restructuring reserves				(60)		(60)
Foreign currency translation	4,620	200		30	1,120	5,970
Balance, September 30, 2006	\$ 183,970	\$ 45,400	\$ 62,720	\$ 242,690	\$ 115,910	\$ 650,690

The gross carrying amounts and accumulated amortization of the Company's other intangibles as of September 30, 2006 and December 31, 2005 are summarized below. The Company amortizes these assets over periods ranging from 1 to 40 years.

Intangible Category by Useful Life	As of September 30, 2006		As of December 31, 2005	
	Gross Carrying Amount (dollars in thousands)	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
Customer relationships:				
6-12 years	\$ 26,500	\$ (15,300)	\$ 26,500	\$ (13,330)
15-25 years	104,840	(27,020)	104,360	(22,660)
40 years	67,580	(9,870)	67,580	(8,600)
Total customer relationships	198,920	(52,190)	198,440	(44,590)
Technology and other:				
1-15 years	25,940	(15,590)	25,900	(13,790)
17-30 years	39,950	(10,320)	39,300	(8,950)
Total technology and other	65,890	(25,910)	65,200	(22,740)
Trademark/Trade names (indefinite life)	63,470	(4,260)	63,350	(4,440)
	\$ 328,280	\$ (82,360)	\$ 326,990	\$ (71,770)

Amortization expense related to technology and other intangibles was \$1.0 million and \$1.2 million for the three months ended September 30, 2006 and 2005, respectively, and \$3.0 million and \$3.7 million for the nine months ended September 30, 2006 and 2005, respectively. These amounts are included in cost of sales in the accompanying consolidated statement of operations. Amortization expense related to customer intangibles was \$2.4 million and \$2.5 million for the three months ended September 30, 2006 and 2005, respectively, and \$7.4 million and \$7.5 million for the nine months ended September 30, 2006 and 2005, respectively. These amounts are included in selling, general and administrative expenses in the accompanying consolidated statement of operations.

TRIMAS CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(unaudited)

4. Accounts Receivable Securitization

TriMas is party to a receivables securitization facility through TSPC, Inc. (TSPC), a wholly-owned subsidiary, to sell trade accounts receivable of substantially all of the Company's domestic business operations.

TSPC from time to time may sell an undivided fractional ownership interest in the pool of receivables up to approximately \$125.0 million to a third party multi-seller receivables funding company. The net proceeds of sales are less than the face amount of accounts receivable sold by an amount that approximates the purchaser's financing costs, which amounted to a total of \$1.1 million and \$0.8 million for the three months ended September 30, 2006 and 2005, respectively, and \$3.0 million and \$2.2 million for the nine months ended September 30, 2006 and 2005, respectively. Such amounts are included in other, net in the accompanying consolidated statement of operations. As of September 30, 2006 and December 31, 2005, the Company's funding under the facility was approximately \$32.0 million and \$37.3 million, respectively, with an additional \$22.9 million and \$16.1 million, respectively, available but not utilized. When the Company sells receivables under this arrangement, the Company retains a subordinated interest in the receivables sold. The retained interest in receivables sold is included in receivables in the accompanying balance sheet and approximated \$64.2 million and \$65.3 million at September 30, 2006 and December 31, 2005, respectively. The usage fee under the facility is 1.35%. In addition, the Company is required to pay a fee of 0.5% on the unused portion of the facility. This facility expires on December 31, 2007.

The financing costs are determined by calculating the estimated present value of the receivables sold compared to their carrying amount. The estimated present value factor is based on historical collection experience and a discount rate representing a spread over LIBOR as prescribed under the terms of the securitization agreement. As of September 30, 2006 and 2005, the financing costs were based on an average liquidation period of the portfolio of approximately 1.3 months and 1.5 months, respectively, and an average discount rate of 3.1% and 3.3%, respectively.

In the three months ended September 30, 2006 and 2005, the Company sold an undivided interest in approximately \$2.9 million and \$3.0 million, respectively, of accounts receivable under a factoring arrangement at three of its European subsidiaries. These transactions were accounted for as a sale and the receivables were sold at a discount from face value approximating 1.7% and 2.6%, respectively. Costs associated with these transactions were approximately \$0.05 and \$0.08 million, respectively, and are included in other, net in the accompanying consolidated statement of operations.

In the first nine months of 2006, the Company sold an undivided interest in approximately \$9.1 million of accounts receivable under a factoring arrangement at three of its European subsidiaries. These transactions were accounted for as a sale and the receivables were sold at a discount from face value approximating 1.9%. Costs associated with these transactions were approximately \$0.2 million and are included in other, net in the accompanying consolidated statement of operations.

In addition, in the first quarter of 2005, the Company sold an undivided interest in approximately \$17.0 million of accounts receivable of one of its businesses to a third party. The transaction was accounted for as a sale and the receivables were sold at a discount from face value approximating 1.25%. Costs associated with the transaction were approximately \$0.3 million and are included in other, net in the accompanying consolidated statement of operations.

5. Inventories

Inventories consist of the following:

	September 30, 2006	December 31, 2005
	(dollars in thousands)	
Finished goods	\$ 75,350	\$ 69,080
Work in process	23,480	19,300
Raw materials	61,130	60,070
Total inventories	\$ 159,960	\$ 148,450

6. Property and Equipment, Net

Property and equipment consists of the following:

	September 30, 2006	December 31, 2005
	(dollars in thousands)	
Land and land improvements	\$ 3,280	\$ 3,610
Buildings	45,450	44,440
Machinery and equipment	222,020	206,090
	270,750	254,140
Less: Accumulated depreciation	107,300	89,890
Property and equipment, net	\$ 163,450	\$ 164,250

Depreciation expense was \$5.6 million and \$5.7 million for the three months ended September 30, 2006 and 2005, respectively, and \$17.4 million for each of the nine month periods ended September 30, 2006 and 2005, respectively.

7. Long-term Debt

The Company's long-term debt consists of the following:

	September 30, 2006	December 31, 2005
	(dollars in thousands)	
Bank debt	\$ 263,000	\$ 260,350
Non-U.S. bank debt	22,760	30,960
9 ⁷ / ₈ % subordinated notes, due June 2012	436,490	436,370
	722,250	727,680
Less: Current maturities, long-term debt	5,550	13,820
Long-term debt	\$ 716,700	\$ 713,860

Bank Debt

During the third quarter of 2006, the Company successfully amended and restated its senior secured credit facilities which are comprised of a \$90.0 million revolving credit facility, a \$60.0 million deposit-

TRIMAS CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(unaudited)

linked supplemental revolving credit facility and a \$260.0 million term loan facility collectively, the Amended and Restated Credit Agreement or ARCA. The ARCA extended our revolving credit maturities from one and a half to five years and the term loan facility from three and a half to five and a half and seven years (depending on when our senior subordinated notes are repaid) and reduced the interest rate margins on our revolving facility from 3.5% to 2.75% per annum and on our term loan facility from 3.75% to 2.75% per annum. Including costs associated with our synthetic revolving facility, the ARCA reduced our weighted average interest rate from 9.1% to 8.1%. The ARCA allows the Company to issue letters of credit, not to exceed \$65.0 million in aggregate, against revolving credit facility commitments. At September 30, 2006 and December 31, 2005, the Company had letters of credit of approximately \$44.9 million and \$43.7 million, respectively, issued and outstanding. The effective interest rate on Credit Facility borrowings was 8.31% and 8.03% at September 30, 2006 and December 31, 2005, respectively.

In connection with the refinancing of our credit facilities, the Company incurred debt extinguishment costs of \$8.6 million, of which \$7.9 million was a non-cash charge from the write-off of debt issuance costs.

The bank debt is an obligation of subsidiaries of the Company. Although the ARCA does not restrict the Company's subsidiaries from making distributions to it in respect of its 97⁷/₈% senior subordinated notes, it does contain certain other limitations on the distribution of funds from TriMas Company LLC, the principal subsidiary, to the Company. The restricted net assets of the guarantor subsidiaries, of approximately \$777.2 million and \$757.5 million at September 30, 2006 and December 31, 2005, respectively, are presented in the financial information in Note 14 *Supplemental Guarantor Condensed Consolidating Financial Information*. The ARCA contains negative and affirmative covenants and other requirements affecting the Company and its subsidiaries, including among others: restrictions on incurrence of debt, except for permitted acquisitions and subordinated indebtedness, liens, mergers, investments, loans, advances, guarantee obligations, acquisitions, asset dispositions, sale-leaseback transactions greater than \$90.0 million if sold at fair market value, hedging agreements, dividends and other restricted junior payments, stock repurchases, transactions with affiliates, restrictive agreements and amendments to charters, by-laws, and other material documents. The ARCA also requires the Company and its subsidiaries to meet certain restrictive financial covenants and ratios computed quarterly, including a leverage ratio (total consolidated indebtedness plus outstanding amounts under the accounts receivable securitization facility over consolidated EBITDA, as defined), interest expense ratio (consolidated EBITDA, as defined, over cash interest expense, as defined) and a capital expenditures covenant. The Company was in compliance with its covenants at September 30, 2006.

Principal payments required on the ARCA term loan are: \$0.7 million due each calendar quarter through June 30, 2013, with \$242.5 million due on August 2, 2013 (which may be changed to February 2012 if the Company's senior subordinated notes are still outstanding at that time).

TRIMAS CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(unaudited)

Non-U.S. bank debt

In the United Kingdom, the Company's subsidiary is party to a revolving debt agreement which is secured by a letter of credit under the ARCA. At September 30, 2006, the balance outstanding under this arrangement was \$2.1 million at an interest rate of 5.7%.

In Italy, the Company's subsidiary is party to a loan agreement for a term of seven years, at a rate 0.75% above EURIBOR (Euro Interbank Offered Rate), and is secured by land and buildings of the subsidiary. At September 30, 2006, the balance outstanding under this agreement was \$5.8 million at an interest rate of 3.8%.

In Australia, the Company's subsidiary is party to a debt agreement which matures December 31, 2010 and is secured by substantially all the assets of the subsidiary. At September 30, 2006, the balance outstanding under this agreement was \$14.9 million at a weighted average interest rate of 6.7%.

Notes

The 9⁷/₈% senior subordinated notes due 2012 (Notes) indenture contains negative and affirmative covenants and other requirements that are comparable to those contained in the ARCA. At September 30, 2006, the Company was in compliance with all such covenant requirements.

8. Commitments and Contingencies

A civil suit was filed in the United States District Court for the Central District of California in December 1988 by the United States of America and the State of California against more than 180 defendants, including us, for alleged release into the environment of hazardous substances disposed of at the Operating Industries, Inc. site in California. This site served for many years as a depository for municipal and industrial waste. The plaintiffs have requested, among other things, that the defendants clean up the contamination at that site. Consent decrees have been entered into by the plaintiffs and a group of the defendants, including us, providing that the consenting parties perform certain remedial work at the site and reimburse the plaintiffs for certain past costs incurred by the plaintiffs at the site. We estimate that our share of the clean-up costs will not exceed \$500,000, for which we have insurance proceeds. Plaintiffs had sought other relief such as damages arising out of claims for negligence, trespass, public and private nuisance, and other causes of action, but the consent decree governs the remedy. Based upon our present knowledge and subject to future legal and factual developments, we do not believe that this matter will have a material adverse effect on our financial position, results of operations or cash flows.

TRIMAS CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(unaudited)

As of September 30, 2006, we were a party to approximately 1,704 pending cases involving an aggregate of approximately 11,119 claimants alleging personal injury from exposure to asbestos containing materials formerly used in gaskets (both encapsulated and otherwise) manufactured or distributed by certain of our subsidiaries for use primarily in the petrochemical refining and exploration industries. The following chart summarizes the number of claimants, number of claims filed, number of claims dismissed, number of claims settled, the average settlement amount per claim and the total defense costs, exclusive of amounts reimbursed under our primary insurance, at the applicable date and for the applicable periods:

	Claims pending at beginning of period	Claims filed during period	Claims dismissed during period	Claims settled during period	Average settlement amount per claim during period	Total defense costs during period
Fiscal year ended December 31, 2005	18,884	2,596	1,998	66	\$ 8,660	\$ 5,324,407
Nine months ended September 30, 2006	19,416	3,662	11,886	73	\$ 8,607	\$ 3,472,239

In addition, we acquired various companies to distribute our products that had distributed gaskets of other manufacturers prior to acquisition. We believe that many of our pending cases relate to locations at which none of our gaskets were distributed or used.

We may be subjected to significant additional asbestos-related claims in the future, the cost of settling cases in which product identification can be made may increase, and we may be subjected to further claims in respect of the former activities of our acquired gasket distributors. We note that we are unable to make a meaningful statement concerning the monetary claims made in the asbestos cases given that, among other things, claims may be initially made in some jurisdictions without specifying the amount sought or by simply stating the requisite or maximum permissible monetary relief, and may be amended to alter the amount sought. The large majority of claims do not specify the amount sought. Of the 11,119 claims pending at September 30, 2006, 123 set forth specific amounts of damages (other than those stating the statutory minimum or maximum). 93 of the 123 claims sought between \$1.0 million and \$5.0 million in total damages (which includes compensatory and punitive damages) and 30 sought between \$5.0 million and \$10.0 million in total damages (which includes compensatory and punitive damages). Solely with respect to compensatory damages, 99 of the 123 claims sought between \$50,000 and \$600,000 and 24 sought between \$1.0 million and \$5.0 million. Solely with respect to punitive damages, 93 of the 123 claims sought between \$1.0 million and \$2.5 million and 30 sought \$5.0 million. In addition, relatively few of the claims have reached the discovery stage and even fewer claims have gone past the discovery stage.

Total settlement costs (exclusive of defense costs) for all such cases, some of which were filed over 18 years ago, have been approximately \$3.7 million. All relief sought in the asbestos cases is monetary in nature. To date, approximately 50% of our costs related to settlement and defense of asbestos litigation have been covered by our primary insurance. Effective February 14, 2006, we entered into a coverage-in-place agreement with our first level excess carriers regarding the coverage to be provided to us for asbestos-related claims when the primary insurance is exhausted. The coverage-in-place agreement makes coverage available to us that might otherwise be disputed by the carriers and provides a methodology for the administration of asbestos litigation defense and indemnity payments. The coverage in place

TRIMAS CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(unaudited)

agreement allocates payment responsibility among the primary carrier, excess carriers and the Company's subsidiary.

Based on the settlements made to date and the number of claims dismissed or withdrawn for lack of product identification, we believe that the relief sought (when specified) does not bear a reasonable relationship to our potential liability. Based upon our experience to date and other available information (including the availability of excess insurance), we do not believe that these cases will have a material adverse effect on our financial position and results of operations or cash flows.

We are subject to other claims and litigation in the ordinary course of our business, but do not believe that any such claim or litigation will have a material adverse effect on our financial position and results of operations or cash flows.

9. Related Parties

Metaldyne Corporation

In connection with the June 2002 common stock issuance and related financing transactions, TriMas assumed approximately \$37.0 million of liabilities and obligations of Metaldyne, mainly comprised of contractual obligations to former TriMas employees, tax-related matters, benefit plan liabilities and reimbursements to Metaldyne for normal course payments to be made on TriMas' behalf. During the nine months ended September 30, 2006, payments made with respect to these obligations approximated \$3.0 million. The remaining assumed liabilities of approximately \$5.4 million are payable at various dates in the future and are reported as Due to Metaldyne in the accompanying consolidated balance sheet.

On August 31, 2006, Metaldyne entered into an Agreement and Plan of Merger with Asahi Tec Corporation (Asahi) pursuant to which Metaldyne will become a wholly-owned subsidiary of Asahi.

Heartland Industrial Partners

The Company is party to an advisory services agreement with Heartland Industrial Partners (Heartland) at an annual fee of \$4.0 million plus expenses. Heartland was paid \$1.0 million for each of the three month periods ended September 30, 2006 and 2005, respectively, and \$3.1 million and \$3.2 million for the nine month ended September 30, 2006 and 2005, respectively, for such fees and expenses under this agreement. Such amounts are included in selling, general and administrative expenses in the accompanying consolidated statement of operations.

Related Party Sales

The Company sold fastener products to Metaldyne in the amount of approximately \$0.1 million and \$0 million in the three month periods ended September 30, 2006 and 2005, respectively, and \$0.3 million in each of the nine month periods ended September 30, 2006 and 2005, respectively. The Company also sold fastener products to affiliates of a shareholder in the amount of approximately \$1.3 million and \$2.0 million in the three month periods ended September 30, 2006 and 2005, respectively, and approximately \$4.9 million and \$6.0 million in the nine month periods ended September 30, 2006 and 2005, respectively. These amounts are included in results of discontinued operations. See Note 2 *Discontinued Operations and Assets Held for Sale*.

TRIMAS CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(unaudited)

Collins & Aikman

In May 2005, Collins & Aikman filed a voluntary petition for reorganization under Chapter 11 of the U.S. Bankruptcy Code. At that time Collins & Aikman owed the Company \$1.3 million, which was fully reserved, and subsequently written off. As of September 30, 2006, Collins & Aikman's receivable balance of approximately \$0.2 million was current and collectible.

10. Segment Information

TriMas's reportable operating segments are business units that provide unique products and services. Each operating segment is separately managed, requires different technology and marketing strategies and has separate financial information evaluated regularly by the Company's chief operating decision maker in determining resource allocation and assessing performance. During the first quarter of 2006, the Company re-aligned its operating segments and management structure to better focus its various businesses' product line offerings by industry, end customer markets, and related channels of distribution. Prior period segment information has been revised to conform to the current structure and presentation. TriMas has five operating segments involved in the manufacture and sale of products described below. Within these operating segments, there are no individual products or product families for which reported revenues accounted for more than 10% of the Company's consolidated revenues.

Packaging Systems Steel and plastic closure caps, drum enclosures, rings and levers, and dispensing systems for industrial and consumer markets, as well as flame-retardant facings, jacketings and insulation tapes used with fiberglass insulation as vapor barriers in commercial, industrial, and residential construction applications.

Energy Products Engines and engine replacement parts for the oil and gas industry as well as metallic and non-metallic industrial gaskets and fasteners for the petroleum refining, petrochemical and other industrial markets.

Industrial Specialties A diverse range of industrial products for use in niche markets within the aerospace, industrial, automotive, defense, and medical equipment markets. Its products include highly engineered specialty fasteners for the aerospace industry, high-pressure and low-pressure cylinders for the transportation, storage and dispensing of compressed gases, specialty fasteners for the automotive industry, specialty precision tools such as center drills, cutters, end mills, reamers, master gears, gages and punches, and specialty ordnance components and steel cartridge cases.

RV & Trailer Products Custom-engineered trailer products including trailer couplers, winches, jacks, trailer brakes and brake control solutions, lighting accessories and roof racks for the recreational vehicle, agricultural/utility, marine, automotive and commercial trailer markets.

Recreational Accessories Towing products, functional vehicle accessories and cargo management solutions including vehicle hitches and receivers, sway controls, weight distribution and fifth-wheel hitches, hitch-mounted accessories, and other accessory components.

The Company's management uses Adjusted Earnings Before Interest, Taxes, Depreciation and Amortization (Adjusted EBITDA) as a primary indicator of financial operating performance and as a measure of cash generating capability. Adjusted EBITDA is defined as net income (loss) before

TRIMAS CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(unaudited)

cumulative effect of accounting change, interest, taxes, depreciation, amortization, non-cash asset and goodwill impairment write-offs, and non-cash losses on sale-leaseback of property and equipment.

TRIMAS CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(unaudited)

- (1) Includes add-back of income tax benefit of \$5.3 million and \$1.2 million for the three months ended September 30, 2006 and 2005, respectively, and \$8.9 million and \$2.5 million recorded in the nine months ended September 30, 2006 and 2005, respectively, related to discontinued operations. See Note 2 *Discontinued Operations Assets Held for Sale*.
- (2) Asset impairment charge related to discontinued operations for the three and nine months ended September 30, 2006.
- (3) Includes depreciation and amortization related to discontinued operations in the amounts of \$0 and \$0.9 million for the three months ended September 30, 2006 and 2005, respectively, and \$0 million and \$2.8 million for the nine months ended September 30, 2006 and 2005, respectively.

11. Stock Options and Awards

The TriMas Corporation 2002 Long Term Equity Incentive Plan (the Plan), provides for the issuance of equity-based incentives in various forms, of which a total of 2,222,000 stock options have been approved for issuance under the Plan. As of September 30, 2006, the Company has 1,993,091 stock options outstanding, each of which may be used to purchase one share of the Company's common stock. The options have a 10-year life and the exercise prices range from \$20 to \$23. Eighty percent of the options vest ratably over three years from the date of grant, while the remaining twenty percent vest after seven years from the date of grant or on an accelerated basis over three years based upon achievement of specified performance targets, as defined in the Plan. The options become exercisable upon the later of: (1) the normal vesting schedule as described above, or (2) upon the occurrence of a qualified public equity offering as defined in the Plan, one half of the vested options become exercisable 180 days following such public equity offering, and the other one half of vested options become exercisable on the first anniversary following consummation of such public offering.

The Company has adopted Statement of Financial Accounting Standards No. 123R (SFAS No. 123R), *Share-Based Payment*, using the Modified Prospective Application (MPA) method, which requires all share-based payments to employees, including grants of employee stock options, to be recognized in the financial statements based on their fair values. The MPA method requires the Company to record expense for unvested stock options that were valued at fair value and awarded prior to January 1, 2006, and does not require restatement of prior-year information. Prior to adoption of SFAS No. 123R, the Company accounted for stock-based employee compensation using the intrinsic value method under Accounting Principles Board No. 25, *Accounting for Stock Issued to Employees*.

The Company recognized stock-based compensation expense of \$0.4 million and \$0.1 million for the three months ended September 30, 2006 and 2005, respectively, and \$1.3 million and \$0.5 million for the nine months ended September 30, 2006 and 2005, respectively. The stock-based compensation expense is included in selling, general and administrative expenses in the accompanying statements of operations. Beginning in January 2005, the Company began using the fair value method to value options granted. None of these options vested during the three month periods ended September 30, 2006 and 2005, while the fair value of options which vested during the nine months ended September 30, 2006 and 2005, was \$0.4 million and \$0 respectively. As of September 30, 2006, the Company had \$1.7 million of unrecognized compensation cost related to stock options that is expected to be recorded over a weighted average period of 1.6 years.

TRIMAS CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(unaudited)

The fair values of options granted in 2006 and 2005 under the Plan were estimated using the Black-Scholes option pricing model using the following weighted average assumptions: expected life of 6 years, risk-free interest rate of 4%, and expected volatility of 30%. During the first nine months of 2006, 58,490 options were issued by the Company. The weighted average fair value of stock options at the date of grant during the nine month period ended September 30, 2006 was \$3.34.

Information related to stock options at September 30, 2006, is as follows:

	Number of Options	Weighted Average Option Price	Average Remaining Contractual Life	Aggregate Intrinsic Value
Outstanding at January 1, 2006 .	1,946,123	\$ 20.81		
Granted	58,490	23.00		
Exercised				
Cancelled	(11,522)	20.38		
Outstanding at September 30, 2006	1,993,091	\$ 20.88	6.7	
Exercisable at September 30, 2006				

The following table illustrates the pro forma effect of adopting the fair value recognition provisions of SFAS No. 123R on income from continuing operations and earnings per share for the three and nine months ended September 30, 2005:

	Three Months Ended September 30, 2005 (amounts in thousands, except for per share amounts)	Nine Months Ended September 30, 2005
Income from continuing operations	\$ 2,130	\$ 10,630
Plus: Stock-based employee compensation expense included in reported net income, net of related tax effects	50	150
Less: Total stock-based employee compensation expense determined under fair-value method for all awards, net of related tax effects	(110)	(310)
Pro-forma income from continuing operations.	\$ 2,070	\$ 10,470
Earnings per share basic:		
Continuing operations, pro-forma	\$ 0.11	\$ 0.53
Weighted average shares	20,010	20,010
Earnings per share diluted:		
Continuing operations, pro forma	\$ 0.10	\$ 0.51
Weighted average shares	20,760	20,760

12. Earnings per Share

The Company reports earnings per share in accordance with FASB Statement of Financial Standards No. 128 (SFAS No. 128), *Earnings per Share*. Basic and diluted earnings per share amounts were computed using weighted average shares outstanding for the three and nine months ended September 30,

TRIMAS CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(unaudited)

2006 and 2005, respectively, and considers an outstanding warrant to purchase 750,000 shares of common stock at par value of \$.01 per share, which was exercised on September 15, 2006. The warrant was exercised using a cashless exercise provision, which increased the outstanding number of shares of common stock by 749,500. Options to purchase approximately 1,993,091 and 1,714,614 shares of common stock were outstanding at September 30, 2006 and 2005, respectively, but were excluded from the computation of net income per share because to do so would have been anti-dilutive for the periods presented.

13. Defined Benefit Plans

Net periodic pension and postretirement benefit costs for TriMas defined benefit pension plans and postretirement benefit plans, covering foreign employees, union hourly employees and certain salaried employees include the following components for the three and nine months ended September 30, 2006 and 2005:

	Pension Plans		Nine Months	
	Three Months		Ended	
	Ended		September 30,	
	September 30,		September 30,	
	2006	2005	2006	2005
	(dollars in thousands)			
Service costs	\$ 160	\$ 150	\$ 470	\$ 450
Interest costs	400	420	1,190	1,260
Expected return on plan assets	(460)	(460)	(1,380)	(1,380)
Amortization of prior service cost			10	
Amortization of net loss	130	90	390	270
Net periodic benefit cost	\$ 230	\$ 200	\$ 680	\$ 600

	Other Postretirement Benefits			
	Three Months		Nine Months	
	Ended		Ended	
	September 30,		September 30,	
	2006	2005	2006	2005
	(dollars in thousands)			
Service costs	\$ 20	\$ 20	\$ 70	\$ 60
Interest costs	80	90	330	270
Amortization of net loss	30	20	80	60
Net periodic benefit cost	\$ 130	\$ 130	\$ 480	\$ 390

The Company expects to contribute approximately \$2.3 million to its defined benefit pension plans in 2006. During the three and nine month periods ending September 30, 2006 the Company contributed approximately \$0.8 million and \$1.9 million, respectively.

14. Supplemental Guarantor Condensed Consolidating Financial Information

Under an indenture dated September 6, 2002, TriMas Corporation (Parent), issued 97 $\frac{7}{8}$ % Senior Subordinated Notes due 2012 in a total principal amount of \$437.8 million (face value). These Notes are guaranteed by substantially all of the Company's domestic subsidiaries (Guarantor Subsidiaries). All of the Guarantor Subsidiaries are 100% owned by the Parent and their guarantee is full, unconditional, joint and several. The Company's non-domestic subsidiaries and TSPC, Inc. have not guaranteed the Notes

TRIMAS CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(unaudited)

(Non-Guarantor Subsidiaries). The Guarantor Subsidiaries have also guaranteed amounts outstanding under the Company's Credit Facility.

The accompanying supplemental guarantor condensed, consolidating financial information is presented using the equity method of accounting for all periods presented. Under this method, investments in subsidiaries are recorded at cost and adjusted for the Company's share in the subsidiaries' cumulative results of operations, capital contributions and distributions and other changes in equity. Elimination entries relate primarily to the elimination of investments in subsidiaries and associated intercompany balances and transactions.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition contains forward-looking statements regarding industry outlook and our expectations regarding the performance of our business. These forward-looking statements are subject to numerous risks and uncertainties, including, but not limited to, the risks and uncertainties described under the heading "Forward Looking Statements," at the beginning of this report. Our actual results may differ materially from those contained in or implied by any forward-looking statements. You should read the following discussion together with the Company's reports on file with the Securities and Exchange Commission.

Introduction

We are an industrial manufacturer of highly engineered products serving niche markets in a diverse range of commercial, industrial and consumer applications. During the first quarter of 2006, we realigned our operating segments and management structure to better focus our various businesses' product line offerings by industry, end customer markets and related channels of distribution. We currently have five operating segments: Packaging Systems, Energy Products, Industrial Specialties, RV & Trailer Products and Recreational Accessories. In reviewing our financial results, consideration should be given to certain critical events, particularly our separation from Metaldyne in June 2002, and subsequent acquisitions and recent consolidation, integration and restructuring efforts.

Key Factors and Risks Affecting our Reported Results. Critical factors affecting our ability to succeed include: our ability to successfully pursue organic growth through product development, cross-selling and extending product-line offerings, our ability to quickly and cost-effectively introduce new products; our ability to acquire and integrate companies or products that will supplement existing product lines, add new distribution channels, expand our geographic coverage or enable us to better absorb overhead costs; our ability to manage our cost structure more efficiently through improved supply base management, internal sourcing and/or purchasing of materials, selective outsourcing and/or purchasing of support functions, working capital management, and greater leverage of our administrative and overhead functions. If we are unable to do any of the foregoing successfully, our financial condition and results of operations could be materially and adversely impacted.

Our businesses and results of operations depend upon general economic conditions and we serve some customers in highly cyclical industries that are highly competitive and themselves adversely impacted by unfavorable economic conditions. There is some seasonality in the business of our Recreational Accessories and RV & Trailer Products operating segments as well. Sales of towing and trailering products within these business segments are generally stronger in the second and third quarters, as trailer original equipment manufacturers (OEMs), distributors and retailers acquire product for the selling season. No other operating segment experiences significant seasonal fluctuation in its business. We do not consider sales order backlog to be a material factor in our business. A growing portion of our sales may be derived from international sources, which exposes us to certain risks, including currency risks. The demand for some of our products, particularly in the Recreational Accessories and RV & Trailer Products segments, is influenced by consumer sentiment, which could be negatively impacted by increased costs to consumers as a result of higher interest rates and energy costs, among other things.

We are sensitive to price movements in our raw materials supply base. Our largest material purchases are for steel, copper, aluminum, polyethylene and other resins and energy. We have experienced increasing costs of steel and resin and have worked with our suppliers to manage cost pressures and disruptions in supply. We have also initiated pricing programs to pass increased steel, copper, aluminum and resin costs to customers. Although we have experienced delays in our ability to implement price increases, we generally recover such increased costs. Although disruptions in the supply of steel abated in 2005, we may experience disruptions in supply in the future and we may not be able to pass along higher costs associated

with such disruptions to our customers in the form of price increases. We will continue to take actions as necessary to manage risks associated with increasing steel or other raw material costs however; such increased costs may adversely impact our earnings.

The Company reports shipping and handling expenses associated with Recreational Accessories sales distribution network as an element of selling, general and administrative expenses in its consolidated statement of operations. As such, gross margins for the Recreational Accessories segment may not be comparable to other companies which include all costs related to their distribution network in cost of sales.

We have substantial debt, interest and lease payment requirements that may restrict our future operations and impair our ability to meet our obligations and, in a rising interest rate environment, our performance may be adversely affected by our degree of leverage.

Key Indicators of Performance. In evaluating our business, our management considers Adjusted EBITDA as a key indicator of financial operating performance and as a measure of cash generating capability. We define Adjusted EBITDA as net income (loss) before cumulative effect of accounting change, interest, taxes, depreciation, amortization, non-cash asset and goodwill impairment charges and write-offs, and non-cash losses on sale-leaseback of property and equipment. In evaluating Adjusted EBITDA, our management deems it important to consider the quality of our underlying earnings by separately identifying certain costs undertaken to improve our results, such as costs related to consolidating facilities and businesses in an effort to eliminate duplicative costs or achieve efficiencies, costs related to integrating acquisitions and restructuring costs related to expense reduction efforts. Although we may undertake new consolidation, restructuring and integration efforts in the future as a result of our acquisition activity, our management separately considers these costs in evaluating underlying business performance. Caution must be exercised in considering these items as they include substantially (but not necessarily entirely) cash costs and there can be no assurance that we will ultimately realize the benefits of these efforts. Moreover, even if the anticipated benefits are realized, they may be offset by other business performance or general economic issues.

Management believes that consideration of Adjusted EBITDA together with a careful review of our results reported under GAAP is the best way to analyze our ability to service and/or incur indebtedness, as we are a highly leveraged company. We use Adjusted EBITDA as a key performance measure because we believe it facilitates operating performance comparisons from period to period and company to company by excluding potential differences caused by variations in capital structures (affecting interest expense), tax positions (such as the impact on periods or companies of changes in effective tax rates or net operating losses), and the impact of purchase accounting and FASB Statement of Financial Accounting Standards No. 142 (SFAS No. 142), *Goodwill and Other Intangible Assets*. (affecting depreciation and amortization expense). Because Adjusted EBITDA facilitates internal comparisons of our historical operating performance on a more consistent basis, we also use Adjusted EBITDA for business planning purposes, to incent and compensate our management personnel, in measuring our performance relative to that of our competitors and in evaluating acquisition opportunities.

In addition, we believe Adjusted EBITDA and similar measures are widely used by investors, securities analysts, ratings agencies and other interested parties as a measure of financial performance and debt-service capabilities. Our use of Adjusted EBITDA has limitations as an analytical tool, and you should not consider it in isolation or as a substitute for analysis of our results as reported under GAAP. Some of these limitations are:

- it does not reflect our cash expenditures for capital equipment or other contractual commitments;
- although depreciation, amortization and asset impairment charges and write-offs are non-cash charges, the assets being depreciated, amortized or written off may have to be replaced in the

future, and Adjusted EBITDA does not reflect cash capital expenditure requirements for such replacements;

- it does not reflect changes in, or cash requirements for, our working capital needs;
- it does not reflect the significant interest expense or the cash requirements necessary to service interest or principal payments on our indebtedness;
- it does not reflect certain tax payments that may represent a reduction in cash available to us;
- it includes amounts resulting from matters we consider not to be indicative of underlying performance of our fundamental business operations, as discussed in Management's Discussion and Analysis of Financial Condition and Results of Operations, and;
- other companies, including companies in our industry, may calculate these measures differently and as the number of differences in the way two different companies calculate these measures increases, the degree of their usefulness as a comparative measure correspondingly decreases.

Because of these limitations, Adjusted EBITDA should not be considered as a measure of discretionary cash available to us to invest in the growth of our business. We compensate for these limitations by relying primarily on our GAAP results and using Adjusted EBITDA only supplementally. We carefully review our operating profit margins (operating profit as a percentage of net sales) at a segment level, which are discussed in detail in our year-to-year comparison of operating results.

The following is a reconciliation of our Adjusted EBITDA to net income (loss) and cash flows from operating activities for the three and nine months ended September 30, 2006 and 2005:

Net change in working capital	11,470	11,740	(20,620)	(27,000)
Cash flows provided by operating activities	\$ 9,120	\$ 5,530	\$ 26,460	\$ 19,750

(1) Includes add-back of income tax benefit of \$7.2 million and \$1.2 million for the three months ended September 30, 2006 and 2005, respectively, and \$10.8 million and \$2.5 million for the nine months ended September 30, 2006 and 2005, respectively, related to discontinued operations. See Note 2 Discontinued Operations Assets Held for Sale.

(2) Asset impairment charge related to discontinued operations for the three and nine months ended September 30, 2006.

(3) Includes depreciation and amortization related to discontinued operations in the amounts of \$0 and \$0.9 million for the three months ended September 30, 2006 and 2005, respectively, and \$0 million and \$2.8 million for the nine months ended September 30, 2006 and 2005, respectively.

The following details certain items relating to our consolidation, restructuring and integration efforts that are included in the determination of net income (loss) under GAAP and are not added back to net income (loss) in determining Adjusted EBITDA, but that we would consider in evaluating the quality of our Adjusted EBITDA:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2006	2005	2006	2005
	(dollars in thousands)			
Facility and business consolidation costs(a)	\$ 130	\$ 60	\$ 170	\$ 60
Business unit restructuring costs(b)	80	390	260	1,050
Acquisition integration costs(c)	220	10	710	910
	\$ 430	\$ 460	\$ 1,140	\$ 2,020

(a) Includes employee training, severance and relocation costs, equipment move and plant rearrangement costs associated with facility and business consolidations.

(b) Principally employee severance costs associated with business unit restructuring and other cost reduction activities.

(c) Includes equipment move and other facility closure costs, excess and obsolete inventory reserve charges related to brand rationalization, employee training, and other organization costs associated with the integration of acquired operations.

Segment Information and Supplemental Analysis

The following table summarizes financial information of continuing operations for our five business segments for the three months ended September 30, 2006 and 2005:

	Three Months Ended September 30,			As a Percentage of Net Sales
	2006 (dollars in thousands)	As a Percentage of Net Sales	2005	
Net Sales:				
Packaging Systems	\$ 53,410	21.9 %	\$ 48,570	19.8 %

Results of Operations

The principal factors impacting us during the three and nine months ended September 30, 2006 compared with the three and nine months ended September 30, 2005, were:

- continued economic expansion and a strong industrial economy which impacted end user demand across our Packaging Systems, Energy Products and Industrial Specialties business segments;
- the impact of significant competitive pricing pressures within the retail market channels of our Recreational Accessories business segment and our RV & Trailer Products segment, and reduced demand for trailering components within our RV & Trailer Products segment; and,
- the impact of varying raw material costs and availability of some commodities, between years and across segments notably certain types of steel, aluminum, copper, and polyethylene and polypropylene resins.

Three Months Ended September 30, 2006 Compared with Three Months Ended September 30, 2005

Overall, net sales decreased \$1.5 million, or approximately 0.6%, for the three months ended September 30, 2006 as compared with the three months ended September 30, 2005. Net sales in the three months ended September 30, 2006 were approximately \$1.2 million greater versus the three months ended September 30, 2005 due to currency exchange as our reported results in U.S. dollars were positively impacted as a result of stronger foreign currencies. Packaging Systems net sales increased \$4.8 million, or approximately 9.9%, to \$53.4 million for the three months ended September 30, 2006, from \$48.6 million for the three months ended September 30, 2005, as sales of core industrial closure products and specialty dispensing products increased 10.8%, while sales of specialty tapes, laminates and insulation products improved 8.4%. Net sales within Energy Products increased \$8.1 million, or approximately 26.6%, to \$38.5 million for the three months ended September 30, 2006 from \$30.4 million for the three months ended September 30, 2005, as businesses in this segment benefited from extensive oil and gas drilling activity in North America and high levels of turnaround activity at petroleum refineries and petrochemical facilities. Net sales within Industrial Specialties increased \$4.2 million, or approximately 10.4%, to \$44.6 million for the three months ended September 30, 2006 from \$40.4 million for the three months ended September 30, 2005, due to continued strong demand in all businesses in this segment, most notably within our industrial cylinder business. Net sales within RV & Trailer Products decreased \$9.7 million or approximately 18.3%, to \$43.3 million for the three months ended September 30, 2006 from \$53.0 million for the three months ended September 30, 2005. This segment experienced reduced sales across all market channels, due principally to soft market demand and market pricing pressures as a result of increased foreign competition. Recreational Accessories net sales decreased \$8.8 million to \$64.8 million for the three months ended September 30, 2006 from \$73.6 million in the three months ended September 30, 2005 primarily as a result of reduced consumer demand across all market channels.

Gross profit margin (gross profit as a percentage of sales) approximated 27.4% and 24.4% for the three months ended September 30, 2006 and 2005, respectively. Packaging Systems gross profit margin increased 210 basis points to approximately 30.8% for the three months ended September 30, 2006, from 28.7% for the three months ended September 30, 2005, as this segment's margin benefited primarily from higher sales volumes between years and improved material margins. Energy Products gross profit margin increased to 28.8% for the three months ended September 30, 2006 compared to 25.3% for the three months ended September 30, 2005 as this segment's margin benefited primarily from higher sales volumes between years. Gross profit margin within Industrial Specialties decreased slightly to 29.9% for the three months ended September 30, 2006 from 30.4% in the three months ended September 30, 2005 due principally to a less favorable products sales mix. RV & Trailer Products gross profit margin decreased to 18.5% for the three months ended September 30, 2006 from 22.7% for the three months ended September 30, 2005, due to competitive market pricing pressures and a less favorable product sales mix.

Recreational Accessories gross profit margin increased to 27.8% for the three months ended September 30, 2006 from 18.3% for the three months ended September 30, 2005, due primarily to improved material margins as a result of sourcing initiatives, pricing actions, and net favorable material usage variances at our Goshen, Indiana manufacturing facility.

Operating profit margin (operating profit as a percentage of sales) approximated 10.8% and 8.6% for the three months ended September 30, 2006 and 2005, respectively, and operating profit increased \$5.3 million, or 25.1%, to \$26.4 million for the quarter ended September 30, 2006, from \$21.1 million for the quarter ended September 30, 2005. Packaging Systems operating profit margin was 19.2% and 16.2% in the three months ended September 30, 2006 and 2005, respectively. Operating profit increased \$2.4 million, or approximately 30.5%, for the three months ended September 30, 2006 as compared with the three months ended September 30, 2005, due to margin earned on higher sales levels between years and improved material margin as a result of moderating raw material costs. Energy Products operating profit margin was 15.1% and 9.2% for the three months ended September 30, 2006 and 2005, respectively. Operating profit increased \$3.0 million, or approximately 107.5%, for the three months ended September 30, 2006 as compared with the three months ended September 30, 2005, due primarily to margin earned on increased sales levels between years and lower selling, general and administrative spending as a percentage of sales. Industrial Specialties operating profit margin was 22.2% and 20.7% for the three months ended September 30, 2006 and 2005, respectively. Operating profit increased \$1.5 million, or approximately 17.9%, for the three months ended September 30, 2006 as compared with the three months ended September 30, 2005, due to margin on higher sales levels between years and a gain on sale of property rights in the third quarter 2006. RV & Trailer Products operating profit margin declined to 6.8% from 12.5% for the three months ended September 30, 2006 and 2005, respectively. Operating profit decreased \$3.7 million in the three months ended September 30, 2006, as compared with the three months ended September 30, 2005, due primarily to the sales volume decline between years and the impact of a less favorable product sales mix in our electrical products and Australian businesses. Recreational Accessories operating profit margin was 6.5% and 1.8% in the three months ended September 30, 2006 and 2005, respectively. Operating profit increased \$2.9 million in the three months ended September 30, 2006 compared with the three months ended September 30, 2005, due to improved material margins and improved productivity, offset in part by higher distribution costs at our South Bend facility and increased advertising and promotion expenses necessary to support our retail channel sales activity.

Adjusted EBITDA margin (Adjusted EBITDA as a percentage of sales) approximated 14.0% and 11.8% for the three months ended September 30, 2006 and 2005, respectively. Adjusted EBITDA increased \$5.3 million for the three months ended September 30, 2006, as compared to the three months ended September 30, 2005, consistent with the improvement in operating profit between years.

Packaging Systems. Net sales increased \$4.8 million, or 9.9%, to \$53.4 million for the quarter ended September 30, 2006, as compared to \$48.6 million for the quarter ended September 30, 2005. Net sales in the three months ended September 30, 2006 were positively impacted approximately \$0.6 million due to currency exchange as our reported results in U.S. dollars were higher due to a stronger euro. Overall, the \$4.8 million improvement in sales is a result of increasing demand for our specialty dispensing products and strong demand for products in the general industrial, commercial construction and metal building markets due to overall economic expansion and new products. Of the increase in sales, approximately \$1.1 million was due to increased sales of specialty tapes, laminates and insulation products, \$2.1 million was due to increased sales of industrial closures, rings and levers, and \$1.6 million was due to higher sales of new consumer-oriented specialty dispensing products.

Packaging Systems gross profit increased approximately \$2.5 million to \$16.5 million, or 30.8% of sales, for the three months ended September 30, 2006, as compared to \$14.0 million, or 28.7% of sales, for the three months ended September 30, 2005. The increase in gross profit between years is due primarily to

\$1.4 million sales level increase between years, \$0.7 million is attributed to improved material margin as a result of moderating raw material costs and \$0.2 million is due to lower fixed overhead spending.

Packaging Systems selling, general and administrative costs increased approximately \$0.3 million to \$6.2 million, or 11.6% of sales, for the three months ended September 30, 2006 as compared to \$5.9 million, or 12.3% of sales, for the three months ended September 30, 2005, as this segment achieved higher sales levels without a proportionate increase in selling and administrative costs.

Packaging Systems operating profit increased \$2.4 million to \$10.3 million, or 19.2% of sales, for the three months ended September 30, 2006, as compared to \$7.9 million, or 16.2% of sales, for the three months ended September 30, 2005, due primarily to higher sales levels between years, improved material margin as a result of moderating raw material costs, and lower selling and administrative costs as a percentage of sales.

Packaging Systems Adjusted EBITDA increased \$2.8 million to \$13.4 million, or 25.0% of sales, for the three months ended September 30, 2006 from \$10.6 million, or 21.9% of sales, for the three months ended September 30, 2005, consistent with the improvement in operating profit between years.

Energy Products. Net sales increased \$8.1 million, or 26.6%, to \$38.5 million for the three months ended September 30, 2006 from \$30.4 million for the three months ended September 30, 2005. Of this amount, \$1.9 million represents increased demand from existing customers for slow speed engine products as a result of continued favorable market conditions for oil and gas producers in the United States and Canada and \$1.6 million represents market share gains due to extended product line offerings for various engine models, principally in Canada, and expanded replacement parts offerings for Waukesha engines. An additional \$1.1 million of the sales increase is the result of further organic growth throughout Arrow Engine's other distribution channels as a result of overall positive economic industry conditions. Within our specialty gasket business, sales increased \$3.3 million as a result of increased demand from existing customers due to continued high turnaround activity at petrochemical refineries while international sales, principally in Latin America, the Far East and Europe, increased approximately \$0.1 million in the three months ended September 30, 2006 compared to the three months ended September 30, 2005.

Gross profit within Energy Products increased \$3.4 million to \$11.1 million, or 28.8% of sales, for the three months ended September 30, 2006, as compared to \$7.7 million, or 25.3% of sales, for the three months ended September 30, 2005. Of the increase in gross profit between years, approximately \$2.0 million is due to the sales level increase between years and \$0.5 million is due to the result of on-going efforts to source certain products to suppliers in low cost manufacturing environments. The remaining improvement is due to better absorption of fixed operating costs given increased sales levels in the three months ended September 30, 2006 compared to the three months ended September 30, 2005.

Selling, general and administrative expenses increased \$0.4 million to \$5.3 million, or 13.7% of sales, for the three months ended September 30, 2006, as compared to \$4.9 million, or 16.2% of sales, for the three months ended September 30, 2005. Energy Products achieved much higher sales levels without a proportionate increase in selling and administrative costs due to the relatively fixed-cost nature of this segment's existing distribution network.

Operating profit within Energy Products increased \$3.0 million to \$5.8 million, or 15.1% of sales, in the three months ended September 30, 2006 from \$2.8 million, or 9.2% of sales, in the three months ended September 30, 2005, due primarily to higher sales levels between years and better absorption of fixed operating costs and lower selling costs as a percentage of sales due to the relatively fixed-cost nature of this segment's existing distribution network.

Energy Products Adjusted EBITDA increased \$2.9 million to \$6.3 million, or 16.4% of sales, for the three months ended September 30, 2006 from \$3.4 million or 11.2% of sales for the three months ended September 30, 2005, consistent with the improvement in operating profit between years.

Industrial Specialties. Net sales during the three months ended September 30, 2006, increased \$4.2 million, or approximately 10.4%, to \$44.6 million from \$40.4 million in the three months ended September 30, 2005. Net sales in the three months ended September 30, 2006, increased 17.1% in our industrial cylinders business, 34.2% in our defense business due to the timing of shell casing deliveries to the U.S. military, and 2.4% in our precision cutting tools business as compared to the three months ended September 30, 2005. However, sales within our aerospace fastener business were approximately flat in the three months ended September 30, 2006 and 2005, respectively, due to the impact of an eight day labor strike that occurred in July 2006 in connection with the signing of a new three year collective bargaining agreement. Sales within our specialty automotive fittings business declined approximately 2.3% in the third quarter 2006 compared to third quarter 2005 due to softening market demand.

Gross profit within Industrial Specialties increased \$1.0 million to \$13.3 million, or 29.9% of sales, for the three months ended September 30, 2006, as compared to \$12.3 million, or 30.4% of sales, for the three months ended September 30, 2005. Gross profit margin declined slightly in the third quarter 2006 compared to the third quarter 2005 due to less favorable product mix as a result of proportionately lower sales of higher margin aerospace fasteners.

Selling, general and administrative expenses increased \$0.1 million to \$4.0 million, or 9.0% of sales, in the three months ended September 30, 2006 as compared to \$3.9 million, or 9.7% of sales, in the three months ended September 30, 2005, as this segment achieved higher sales without a proportionate increase in selling and administrative costs.

Operating profit for the three months ended September 30, 2006 increased \$1.5 million to \$9.9 million, or 22.2% of sales, as compared to \$8.4 million, or 20.7% of sales, for the three months ended September 30, 2005, due primarily to higher sales levels between years, better absorption of fixed operating costs, and the impact of a \$0.6 million gain on sale of property rights at one of NI Industries' operating locations.

Industrial Specialties' Adjusted EBITDA increased \$1.3 million to \$11.1 million, or 25.0% of sales, for the three months ended September 30, 2006 from \$9.8 million, or 24.3% of sales, for the three months ended September 30, 2005, consistent with the improvement in operating profit between years.

RV & Trailer Products. Net sales decreased \$9.7 million to \$43.3 million for the three months ended September 30, 2006 compared to \$53.0 million for the three months ended September 30, 2005. The decline in sales between years is attributed to lower sales across all market channels due to soft market demand and market pricing pressure as a result of increased foreign competition.

RV & Trailer Products' gross profit decreased \$4.0 million to \$8.0 million, or 18.5% of sales, for the three months ended September 30, 2006 from approximately \$12.0 million, or 22.7% of sales, in the three months ended September 30, 2005. Of the decline in gross profit between years, \$3.4 million is attributed to the decline in sales and approximately \$0.7 million is due to lower material margins resulting from commodity cost increases and competitive pricing pressures and a less favorable sales mix.

RV & Trailer Products' selling, general and administrative expenses were approximately flat at \$5.0 million and \$5.2 million for the three months ended September 30, 2006 and 2005, respectively. Selling, general and administrative expense as a percent of sales were 11.5% and 9.8% in the three months ended September 30, 2006 and 2005, respectively.

RV & Trailer Products' operating profit declined \$3.7 million, to approximately \$2.9 million, or 6.8% of sales, in the three months ended September 30, 2006 from \$6.6 million, or 12.5% of net sales, in the three months ended September 30, 2005. The decline in operating profit between years is primarily due to the sales volume decline, lower material margins as a result of commodity cost increases and competitive pricing pressures, and the impact of a less favorable product sales.

RV & Trailer Products Adjusted EBITDA decreased \$3.9 million to \$4.5 million, or 10.4% of sales, for the three months ended September 30, 2006 from \$8.4 million, or 15.9% of sales, for the three months ended September 30, 2005, consistent with the decline in operating profit between years.

Recreational Accessories. Recreational Accessories net sales decreased \$8.9 million to \$64.8 million for the three months ended September 30, 2006 from \$73.7 million in the three months ended September 30, 2005. Net sales in the three months ended September 30, 2006 were positively impacted by approximately \$0.6 million due to currency exchange as our reported results in U.S. dollars were higher due to a stronger Canadian dollar. The decline in sales between years is primarily a result of reduced consumer demand due to record high gasoline prices and a continued high interest rate environment.

Recreational Accessories gross profit margin increased to 27.8% for the three months ended September 30, 2006 from 18.3% for the three months ended September 30, 2005. The net change in gross profit between years of \$4.5 million is primarily attributed to material margin improvement in our retail sales channel of \$2.3 million as a result of sourcing initiatives, \$0.9 million in savings as a result of the decision to purchase certain products which were previously manufactured, and material margin improvements of \$2.5 million in our towing products business due to pricing actions and net favorable material usage variances at our Goshen, Indiana manufacturing facility. We also incurred \$0.8 million in reduced freight and variable manufacturing expense as a result of efficiencies achieved at our distribution centers in same site and complete shipment fill rates (i.e. less partial shipments). These improvements were offset by \$2.1 million in lower gross profit attributed to the decline in sales between years.

Recreational Accessories selling, general and administrative expenses increased approximately \$1.6 million to \$13.7 million, or 21.3% of sales, for the three months ended September 30, 2006 from \$12.1 million, or 16.5% of sales, in the three months ended September 30, 2005. The increase between years is due to increased distribution costs from our South Bend facility associated, in part, with the closure of our Sheffield operations and increased advertising and promotion expenses necessary to support our retail channel sales activity.

Recreational Accessories operating profit increased \$2.9 million to approximately \$4.2 million, or 6.5% of sales, in the three months ended September 30, 2006 from \$1.3 million, or 1.8% of sales, in the three months ended September 30, 2005. The improvement in operating profit between years is the result of increased material margins and improved productivity, offset in part by higher selling, general and administrative expenses due principally to higher distribution costs at our South Bend facility and increased advertising and promotion expenses necessary to support our retail channel sales activity.

Recreational Accessories Adjusted EBITDA increased \$2.7 million to \$6.5 million, or 10.1% of sales, for the three months ended September 30, 2006 from \$3.8 million, or 5.2% of sales, for the three months ended September 30, 2005 consistent with the improvement in operating profit between years.

Corporate Expenses and Management Fees. Corporate expenses and management fees included in operating profit and Adjusted EBITDA consist of the following:

	Three Months Ended September 30, 2006 2005 (in millions)	
-		
Corporate operating expenses	\$ 2.3	\$ 2.9
Employee costs and related benefits	3.4	2.0
Management fees and expenses	1.0	1.0
Corporate expenses and management fees operating profit	\$ 6.7	\$ 5.9
Receivables sales and securitization expenses	1.2	1.6
Depreciation	(0.1)	(0.1)
Other, net	(0.2)	(0.3)
Corporate expenses and management fees Adjusted EBITDA	\$ 7.6	\$ 7.1

Corporate expenses and management fees increased approximately \$0.8 million to \$6.7 million for the three months ended September 30, 2006 from \$5.9 million for the three months ended September 30, 2005. The increase between years is primarily attributed to increased employee compensation costs of \$1.4 million, consisting of higher payroll costs, increased incentive compensation expense and higher stock compensation expense as a result of implementation of SFAS No. 123R, *Accounting for Stock-Based Compensation*. These increases were offset in part principally by lower corporate operating expenses due to decreased legal, tax and audit expense of \$0.5 million.

Interest Expense. Interest expense increased approximately \$0.6 million to \$19.4 million for the three months ended September 30, 2006 as compared to \$18.8 million for the three months ended September 30, 2005. The increase is primarily the result of an increase in our weighted average interest rate on variable rate borrowings to approximately 8.31% during the third quarter 2006 from approximately 6.92% during the third quarter 2005, offset in part by a reduction in weighted average variable rate borrowings to approximately \$328.1 million in third quarter 2006 from approximately \$354.2 million during the three months ended September 30, 2005.

In connection with the refinancing of our credit facilities, the Company incurred debt extinguishment costs of \$8.6 million, of which \$7.9 million was a non-cash charge from the write-off of debt issuance costs.

Other Expense, Net. Other expense, net decreased approximately \$0.4 million to \$1.2 million for the three months ended September 30, 2006 from \$1.6 million for the three months ended September 30, 2005. In the three months ended September 30, 2006, we incurred approximately \$1.2 million of expense in connection with use of our receivables securitization facility and sales of receivables to fund working capital needs. In the three months ended September 30, 2005, we incurred \$1.6 million of expense in connection with use of our receivables securitization facility and sales of receivables to fund working capital needs, including \$0.6 million related to the renewal of our receivables securitization facility in July 2005.

Income Taxes. The effective income tax rate for the three months ended September 30, 2006 and 2005 was 33% and 223%, respectively. During third quarter 2005, the Company's estimate of its full year effective tax rate decreased from 36.7% to 24.6% and the impact of this change was recorded in the three months ended September 30, 2005. In the quarter ended September 30, 2006, the Company reported foreign pre-tax income from continuing operations of approximately \$6.2 million and domestic pre-tax loss of approximately \$9.0 million. The domestic pre-tax loss included approximately \$18.9 million of interest expense incurred on debt that is the obligation of U.S.-domiciled companies. In the quarter ended September 30, 2005, the Company reported foreign pre-tax income from continuing operations of

approximately \$4.8 million and domestic pre-tax loss of approximately \$4.1 million. The domestic pre-tax income included approximately \$18.8 million of interest expense incurred on debt that is the obligation of U.S.-domiciled companies.

Discontinued Operations. In fourth quarter 2005, the Board of Directors authorized management to move forward with its plan to sell our industrial fasteners operations, which consists of operations located in Frankfort, Indiana; Wood Dale, Illinois; and Lakewood, Ohio. During the second quarter of 2006, the Company sold its asphalt-coated paper line of business, which was part of the Packaging Systems operating segment. In the three months ended September 30, 2006, the loss from discontinued operations, net of income tax benefit, was \$10.9 million compared to a loss from discontinued operations, net of income tax benefit, of \$1.9 million in the three months ended September 30, 2005. See Note 2, Discontinued Operations and Assets Held for Sale, to our consolidated financial statements included in Part I, Item 1 of this report on Form 10-Q.

Nine Months Ended September 30, 2006 Compared with Nine Months Ended September 30, 2005

Net sales increased \$21.7 million, or approximately 2.8%, for the nine months ended September 30, 2006 as compared with the nine months ended September 30, 2005. Net sales in the nine months ended September 30, 2006 were approximately \$1.4 million greater than net sales in the nine months ended September 30, 2005 due to currency exchange, as our reported results in U.S. dollars were positively impacted by stronger foreign currencies. Packaging Systems net sales increased \$12.8 million to \$158.4 million from \$145.6 million, or approximately 8.8%, for the nine months ended September 30, 2006 as compared with the nine months ended September 30, 2005. Sales of core industrial closure products and specialty dispensing products increased 8.7% while sales of specialty tapes, laminates and insulation products improved 9.0%. Net sales within Energy Products increased \$21.9 million, or 23.0%, to \$117.2 million in the nine months ended September 30, 2006 from \$95.3 million in the nine months ended September 30, 2005, as businesses in this segment benefited from extensive oil and gas drilling activity in North America and continued high levels of turnaround activity at petroleum refineries and petrochemical facilities. Net sales within our Industrial Specialties segment increased \$11.1 million, or approximately 8.9%, to \$136.1 million for the nine months ended September 30, 2006 from \$125.0 million in the nine months ended September 30, 2005, due to continued strong demand across all businesses in this segment, but most notably within our aerospace fasteners and industrial cylinders businesses. Net sales within RV & Trailer Products decreased \$10.5 million to \$150.7 million in the nine months ended September 30, 2006 compared to \$161.2 million in the nine months ended September 30, 2005. As compared to nine months ended September 30, 2005, sales within RV & Trailer Products for the nine months ended September 30, 2006, decreased across most market channels due to soft market demand and market pricing pressure as a result of increased foreign competition. Recreational Accessories net sales decreased \$13.6 million to \$234.9 million in the nine months ended September 30, 2006 from \$248.5 million in the nine months ended September 30, 2005 principally as a result of reduced sales activity in our towing products business early order program and reduced demand across all market channels due to high gasoline prices and a continued high interest rate environment.

Gross profit margin (gross profit as a percentage of sales) approximated 27.0% and 25.0% for the nine months ended September 30, 2006 and 2005, respectively. Packaging Systems gross profit margin increased slightly to approximately 29.8% for the nine months ended September 30, 2006 from 29.3% for the nine months ended September 30, 2005. Energy Products gross profit margin increased to 29.3% in the nine months ended September 30, 2006 compared to 27.1% for the nine months ended September 30, 2005 as this segment's margin benefited primarily from higher sales volumes between years. Gross profit margin within our Industrial Specialties segment increased in the nine months ended September 30, 2006 to 29.4% compared to 28.5% in the nine months ended September 30, 2005 due generally to higher sales volumes and proportionately greater sales of higher margin aerospace fasteners between years. RV &

Trailer Products gross profit margin decreased slightly to 21.8% and 23.4% for the nine months ended September 30, 2006 and 2005, respectively, due primarily to reduced sales levels, lower material margins due to commodity cost increases and competitive pricing pressures and a less favorable product sales mix between years. Recreational Accessories gross profit margin increased to 26.0% in the nine months ended September 30, 2006 from 20.7% in the nine months ended September 30, 2005. The increase is due primarily to improved material margin as a result of sourcing initiatives, pricing actions, and manufacturing efficiency and material management improvement initiatives.

Operating profit margin (operating profit as a percentage of sales) approximated 10.9% and 9.7% for the nine months ended September 30, 2006 and 2005, respectively, and operating profit increased \$11.9 million, or 15.8%, to \$87.2 million for the nine months ended September 30, 2006, from \$75.3 million for the nine months ended September 30, 2005. Packaging Systems operating profit margin was 18.2% and 16.9% for the nine months ended September 30, 2006 and 2005, respectively. Operating profit increased \$4.3 million for the nine months ended September 30, 2006 as compared with the nine months ended September 30, 2005 due to margin earned on increased sales levels between years, improved material margins a result of moderating raw material costs and reduced spending on selling, general and administrative activities between years as a percentage of sales. Energy Products operating profit margin was 14.7% and 11.9% for the nine months ended September 30, 2006 and 2005, respectively. Operating profit improved \$6.0 million in the nine months ended September 30, 2006 compared to the nine months ended September 30, 2005 as increases in margin earned due to higher sales levels and better absorption of fixed operating costs were partially offset by higher selling, general and administrative expenses, which principally increased due to higher asbestos litigation defense costs. Industrial Specialties operating profit margin was 20.7% and 19.6% for the nine months ended September 30, 2006 and 2005, respectively. Operating profit increased \$3.7 million in the nine months ended September 30, 2006 compared to the nine months ended September 30, 2005 due to increased sales levels in four of the five businesses in this segment, improved material margin, and more favorable product mix, which were partially offset by higher selling, general and administrative expenses, which principally increased due to higher employee related compensation and benefit costs. RV & Trailer Products operating profit margin was 11.7% and 13.6% for the nine months ended September 30, 2006 and 2005, respectively. Operating profit declined \$4.3 million in the nine months ended September 30, 2006 compared to the nine months ended September 30, 2005 due primarily to the decline in sales levels, the impact of lower material margins due to commodity cost increases and competitive pricing pressures and a less favorable product sales mix between years. Recreational Accessories operating profit margin was 6.4% and 3.5% in the nine months ended September 30, 2006 and 2005, respectively. Operating profit increased \$6.3 million to \$15.1 million for the nine months ended September 30, 2006 as compared to \$8.8 million for the nine months ended September 30, 2005 due primarily to increased material margins and improved productivity, offset in part by higher selling, general and administrative expenses due to increased promotional spending to support greater retail channel sales activity and an increase in distribution costs from our South Bend facility associated, in part, with the closure of our Sheffield operations.

Adjusted EBITDA margin (Adjusted EBITDA as a percentage of sales) approximated 14.1% and 12.7% for the nine months ended September 30, 2006 and 2005, respectively. The increase or decrease in Adjusted EBITDA margin by segment was consistent with the increase or decrease in operating profit margin by segment, with the exception of Packaging Systems. The Adjusted EBITDA margin for Packaging Systems improved to 24.2% for the nine months ended September 30, 2006 from 21.6% for the nine months ended September 30, 2005. The improvement in Adjusted EBITDA margin between periods resulted principally from \$1.9 million in net losses on transactions denominated in foreign currencies for the nine months ended September 30, 2005, that did not recur in 2006.

Packaging Systems. Net sales increased \$12.8 million, or approximately 8.8%, to \$158.4 million for the nine months ended September 30, 2006 compared to \$145.6 million for the nine months ended

September 30, 2005. Net sales in the nine months ended September 30, 2006 were negatively impacted by approximately \$0.5 million, as compared to net sales in the nine months ended September 30, 2005, due to currency exchange as our reported results in U.S. dollars were reduced by a weaker euro. Overall, the \$12.8 million increase in sales is a result of strong demand for our products in the general industrial, commercial construction and metal building markets due to overall economic expansion and new products. Of the increase in sales, approximately \$3.8 million was due to increased sales of specialty tapes, laminates and insulation products, \$5.4 million was due to increased sales of industrial closures, rings and levers, and \$3.6 million was due to increased sales of new consumer-oriented specialty dispensing products.

Packaging Systems gross profit increased approximately \$4.6 million to \$47.2 million, or 29.8% of sales, for the nine months ended September 30, 2006, from \$42.6 million, or 29.3% of sales, for the nine months ended September 30, 2005. Of the increase in gross profit between years, \$3.8 million is attributed to the sales level increase between years and approximately \$1.9 million is attributed to improved material margin, as a result of moderating raw material costs, offset in part by approximately \$1.2 million in higher period operating costs in support of the increased sales levels.

Packaging Systems selling, general and administrative costs increased approximately \$0.4 million to \$18.3 million, or 11.6% of sales, during the nine months ended September 30, 2006 as compared to \$17.9 million, or 12.3% of sales, in the nine months ended September 30, 2005. Overall, selling, general and administrative expenses increased approximately \$0.8 million in the nine months ended September 30, 2006, which was offset in part by \$0.4 million of expense incurred in the nine months ended September 30, 2005 related to completion of Compac s facilities consolidation, which did not recur in 2006.

Packaging Systems operating profit increased \$4.3 million to \$28.9 million, or 18.2% of sales, during the nine months ended September 30, 2006 from \$24.6 million, or 16.9% of sales, in the nine months ended September 30, 2005, due primarily to higher sales levels, improved material margin as a result of moderating raw material costs, and lower selling and administrative costs as a percentage of sales between years.

Packaging Systems Adjusted EBITDA increased \$7.0 million to \$38.4 million, or 24.2% of sales, for the nine months ended September 30, 2006 from \$31.4 million, or 21.6% of sales, for the nine months ended September 30, 2005. Of this amount, approximately \$1.9 million was due to net losses on transactions denominated in foreign currencies in the nine months September 30, 2005 compared to a \$0.2 million gain on such similar transactions for the nine months ended September 30, 2006. Otherwise, the improvement in Adjusted EBITDA was consistent with the improvement in operating profit.

Energy Products. Net sales increased \$21.9 million, or 23.0%, to \$117.2 million for the nine months ended September 30, 2006 from \$95.3 million for the nine months ended September 30, 2005. Of this amount, \$5.0 million represents increased demand from existing customers for slow speed engine products as a result of continued favorable market conditions for oil and gas producers in the United States and Canada, and \$4.2 million represents market share gains due to extended product line offerings for various engine models, principally in Canada, and expanded replacement parts offerings, mainly for the Waukesha and CAT engine lines. An additional \$3.1 million of the sales increase is the result of further organic growth throughout Arrow Engine s other distribution channels, due to overall positive economic industry conditions. Within our specialty gasket business, sales increased \$7.9 million as a result of increased demand from existing customers due to continued high levels of turnaround activity at petrochemical refineries, and \$1.7 million due to increased international sales, principally in Latin America, the Far East and Europe.

Gross profit within Energy Products increased \$8.5 million to \$34.3 million, or 29.3% of sales, for the nine months ended September 30, 2006, from \$25.8 million, or 27.1% of sales, for the nine months ended September 30, 2005. Of the increase in gross profit between years, \$5.9 million is attributed to the sales level increase between years and \$0.8 million is the result of on-going efforts to source certain products to

suppliers in low cost manufacturing countries. The remaining improvement is due to better absorption of fixed overhead costs, given the increased sales volumes in the first nine months of 2006 compared to the first nine months of 2005.

Selling, general and administrative expenses in the nine months ended September 30, 2006 increased \$2.3 million to \$16.8 million, or 14.4% of sales, from \$14.5 million, or 15.3% of sales, for the nine months ended September 30, 2005. Of the increase between years, \$0.9 million is due to increased asbestos litigation defense costs in our specialty gasket business, while other selling, general and administrative expenses within this segment increased a net \$1.4 million compared to the same period a year ago, as Energy Products achieved increased sales levels without a proportionate increase in selling, general and administrative costs due to the relatively fixed-cost nature of this segment's existing distribution network, particularly with respect to sales of specialty gaskets.

Operating profit within Energy Products improved \$6.0 million to \$17.3 million, or 14.7% of sales, for the nine months ended September 30, 2006 from \$11.3 million, or 11.9% of sales, for the nine months ended September 30, 2005, due primarily to higher sales levels and better absorption of fixed operating costs between years, and lower selling costs as a percentage of sales between years, due to the relatively fixed-cost nature of this segment's existing distribution network.

Energy Products Adjusted EBITDA increased \$5.8 million to \$19.0 million, or 16.2% of sales, for the nine months ended September 30, 2006 from \$13.2 million, or 13.8% of sales, for the nine months ended September 30, 2005, consistent with the improvement in operating profit between years.

Industrial Specialties. Net sales during the nine months ended September 30, 2006 increased \$11.1 million, or approximately 8.9%, to \$136.1 million from \$125.0 million in the nine months ended September 30, 2005. The increase in sales is a result of strong demand for our products in the general industrial, aerospace and automotive markets due to market share gains, new products, and economic expansion. Notably, our aerospace fastener business continues to experience strong market demand, with a sales increase of approximately 11.1% in the nine months ended September 30, 2006 as compared to the nine months ended September 30, 2005, due to continued strong commercial and business jet build rates. As compared to the same period in 2005, sales within our industrial cylinders business increased 12.2%, sales of specialty automotive fittings improved 9.0% and sales of precision cutting tools improved 8.9%, while sales within our defense business were approximately flat for the nine months ended September 30, 2006. We estimate that steel cost increases recovered from customers via pricing during the nine months ended September 30, 2006, principally within our industrial cylinder and precision tool businesses, were comparable to the same period a year ago.

Gross profit within Industrial Specialties increased \$4.3 million to \$40.0 million, or 29.4% of sales, in the nine months ended September 30, 2006, as compared to \$35.7 million, or 28.5% of sales, in the nine months ended September 30, 2005. Of the increase in gross profit, approximately \$3.1 million is attributed to the sales level increase between years and \$1.4 million is due to improved material margins, partially offset by manufacturing overhead costs in support of higher levels of sales.

Selling, general and administrative expenses increased \$1.2 million to \$12.3 million, or 9.0% of sales, in the nine months ended September 30, 2006 as compared to \$11.1 million, or 8.9% of sales, in the nine months ended September 30, 2005, due primarily to increases in employee compensation as well as slightly higher sales related expenses.

Operating profit increased \$3.7 million to \$28.2 million, or 20.7% of sales, for the nine months ended September 30, 2006, as compared to \$24.5 million, or 19.6% of sales, for the nine months ended September 30, 2005, due primarily to increased sales levels in four of the five businesses in this segment and improved material margins, which were offset in part by higher selling, general and administrative spending.

Edgar Filing: TRIMAS CORP - Form 10-Q

Industrial Specialties Adjusted EBITDA increased \$3.7 million to \$32.1 million, or 23.6% of sales, for the nine months ended September 30, 2006 from \$28.4 million, or 22.7% of sales, for the nine months ended September 30, 2005, consistent with the improvement in operating profit between years.

RV & Trailer Products. Net sales decreased \$10.5 million to \$150.7 million for the nine months ended September 30, 2006 from \$161.2 million for the nine months ended September 30, 2005. Net sales in the nine months ended September 30, 2006 were negatively impacted by approximately \$1.1 million versus the nine months ended September 30, 2005 due to currency exchange, as our reported results in U.S. dollars were reduced as a result of a weaker Australian dollar. As compared to the same period in the prior year, sales were lower across most market channels due to soft market demand and market pricing pressures as a result of increased foreign competition.

RV & Trailer Products gross profit decreased \$4.8 million to \$32.9 million, or 21.8% of sales, for the nine months ended September 30, 2006 from approximately \$37.7 million, or 23.4% of sales, in the nine months ended September 30, 2005. Compared to the same period in 2005, \$3.6 million of the decline in gross profit is due to reduced sales levels between years, \$2.4 million is attributed to lower material margins as a result of commodity cost increases and competitive pricing pressures and less favorable product mix, and \$0.4 million is due to higher fixed manufacturing expense as a result of the startup of our new Thailand manufacturing facility. These amounts were offset by approximately \$1.4 million in reduced variable manufacturing spending associated with cost reduction initiatives implemented in 2005.

RV & Trailer Products selling, general and administrative expenses were approximately the same at \$15.2 million for the nine months ended September 30, 2006 and 2005. Selling, general and administrative expenses as a percent of sales were 10.1% and 9.4% in the nine months ended September 30, 2006 and 2005, respectively.

RV & Trailer Products operating profit declined \$4.3 million to approximately \$17.6 million, or 11.7% of sales, in the nine months ended September 30, 2006 from \$21.9 million, or 13.6% of sales, in the nine months ended September 30, 2005. For the nine months ended September 30, 2006, the decrease in operating profit is primarily attributed to the aforementioned decline in sales, lower material margins as a result of commodity cost increases and competitive pricing pressures, and a less favorable product sales mix as compared to the same period a year ago.

RV & Trailer Products Adjusted EBITDA decreased \$4.5 million to \$22.9 million, or 15.2% of sales, for the nine months ended September 30, 2006 from \$27.4 million, or 17.0% of sales, for the nine months ended September 30, 2005, consistent with the decline in operating profit between years.

Recreational Accessories. Recreational Accessories sales decreased \$13.6 million to \$234.9 million in the nine months ended September 30, 2006 from \$248.5 million in the nine months ended September 30, 2005. Sales in the nine months ended September 30, 2006 were positively impacted by approximately \$2.6 million due to currency exchange as our reported results in U.S. dollars were higher due to a stronger Canadian dollar. The net decrease in sales between years was principally the result of reduced consumer demand due to high gasoline prices and a continued high interest rate environment.

Recreational Accessories gross profit increased \$9.6 million to \$60.9 million, or 26.0% of sales, for the nine months ended September 30, 2006 from approximately \$51.3 million, or 20.7% of sales, in the nine months ended September 30, 2005. Of this increase in gross profit, \$3.5 million is attributed to material margin improvements in our retail sales channel as a result of sourcing initiatives, \$4.2 million is attributed to savings as a result of the decision to purchase certain products that were previously manufactured, and \$3.5 million is attributed to material margin improvements in our towing products business due to pricing actions and net favorable material usage variances at our Goshen, Indiana manufacturing facility, resulting from manufacturing efficiency and material management improvement initiatives. Gross margin was also favorably impacted by savings associated with cost reduction initiatives

implemented at our Goshen, Indiana manufacturing facility in 2005, which essentially offset increased costs associated with employee benefits, transportation and energy. These improvements were offset by \$3.6 million in lower gross profit attributed to the decline in sales between years.

Recreational Accessories selling, general and administrative expenses increased approximately \$3.3 million to \$45.9 million, or 19.6% of sales, during the nine months ended September 30, 2006 from \$42.6 million, or 17.2% of sales, in the nine months ended September 30, 2005. The increase in selling and administrative expenses between years is due to increased advertising and promotion expenses necessary to support our retail channel sales activity, costs associated with the closure of our Sheffield operations, and increased distribution costs from our South Bend facility associated, in part, with the exit from our Sheffield operations.

Recreational Accessories operating profit increased \$6.3 million to approximately \$15.1 million, or 6.4% of sales, in the nine months ended September 30, 2006 from \$8.8 million, or 3.5% of sales, in the nine months ended September 30, 2005. The improvement in operating profit between years is the result of higher gross profit due principally to increased material margins and improved productivity, which were offset in part by increased promotion costs in our retail channel, costs associated with closure of our Sheffield operations, and increased distribution costs from our South Bend distribution facility.

Recreational Accessories Adjusted EBITDA increased \$5.9 million to \$22.4 million, or 9.6% of sales, for the nine months ended September 30, 2006 from \$16.5 million, or 6.7% of sales, for the nine months ended September 30, 2005 consistent with the improvement in operating profit between years.

Corporate Expenses and Management Fees. Corporate expenses and management fees included in operating profit and Adjusted EBITDA consist of the following:

	Nine Months Ended September 30,	
	2006	2005
	(in millions)	
Corporate operating expenses	\$ 8.8	\$ 7.8
Employee costs and related benefits	8.0	4.9
Management fees and expenses	3.1	3.1
Corporate expenses and management fees operating profit	\$ 19.9	\$ 15.8
Receivables sales and securitization expenses	3.5	3.3
Depreciation	(0.2)	(0.2)
Other, net	(0.4)	(0.4)
Corporate expenses and management fees Adjusted EBITDA	\$ 22.8	\$ 18.5

Corporate expenses and management fees increased approximately \$4.1 million to \$19.9 million for the nine months ended September 30, 2006 from \$15.8 million for the nine months ended September 30, 2005. The increase between years is the result of increased employee compensation costs of \$3.1 million due primarily to increased incentive compensation expense and stock compensation expense as a result of implementation of SFAS No. 123R, Accounting for Stock-Based Compensation, increased tax, legal and audit expense of \$0.3 million, and other increases in corporate operating expenses of approximately \$0.7 million.

Interest Expense. Interest expense increased approximately \$3.5 million to \$59.3 million for the nine months ended September 30, 2006 from \$55.8 million for the nine months ended September 30, 2005. The increase is primarily the result of an increase in our weighted average interest rate on variable rate borrowings to approximately 8.3% for the nine months ended September 30, 2006 from approximately 6.6% for the nine months ended September 30, 2005, which were offset in part by a reduction in weighted average variable rate borrowings to approximately \$331.7 million in the first nine months of 2006 from approximately \$365.4 million in the first nine months of 2005.

In connection with the refinancing of our credit facilities, the Company incurred debt extinguishment costs of \$8.6 million, of which \$7.9 million was a non-cash charge from the write-off of debt issuance costs.

Other Expense, Net. Other expense, net decreased approximately \$2.4 million to \$3.1 million for the nine months ended September 30, 2006 from \$5.5 million for the nine months ended September 30, 2005. In the nine months ended September 30, 2006, we incurred approximately \$3.5 million of expense in connection with the use of our receivables securitization facility and sales of receivables to fund working capital needs. In the nine months ended September 30, 2005, we incurred \$3.3 million of expense in connection with the use of our receivables securitization facility and sales of receivables to fund working capital needs, including \$0.6 million related to the renewal of our receivables securitization facility in July 2005. We also incurred \$2.5 million of net losses on transactions denominated in foreign currencies other than the local currency of the subsidiary that is a party to the transaction.

Income Taxes. The effective income tax rate for the nine months ended September 30, 2006 and 2005 was 36% and 25%, respectively. The increase in the effective rate in the quarter ended September 30, 2006 compared to the same period a year ago is primarily related to a shift in pre-tax income from lower-taxed jurisdictions to higher-taxed jurisdictions. In addition, the Company recorded a tax benefit of \$0.5 million during the nine months ended September 30, 2006 in accordance with SFAS 109 due to the change in the Texas tax law signed into effect on May 19, 2006. In the nine months ended September 30, 2006, the Company reported domestic and foreign pre-tax income from continuing operations of approximately \$2.8 million and \$13.4 million, respectively. The domestic pre-tax income included approximately \$57.8 million of interest expense incurred on debt that is the obligation of U.S.-domiciled companies. In the nine months ended September 30, 2005, the Company reported domestic and foreign pre-tax income from continuing operations of approximately \$5.4 million and \$8.7 million, respectively. The domestic pre-tax income included approximately \$55.8 million of interest expense incurred on debt that is the obligation of U.S.-domiciled companies.

Discontinued Operations. In fourth quarter 2005, the Board of Directors authorized management to move forward with its plan to sell our industrial fasteners operations, which consists of operations located in Frankfort, Indiana; Wood Dale, Illinois; and Lakewood, Ohio. During the second quarter of 2006, the Company sold its asphalt-coated paper line of business, which was part of our Packaging Systems operating segment. In the nine months ended September 30, 2006, the loss from discontinued operations, net of income tax benefit, was \$16.2 million compared to a loss from discontinued operations, net of income tax benefit, of \$3.8 million in the nine months ended September 30, 2005. See Note 2, Discontinued Operations and Assets Held for Sale, to our consolidated financial statements included in Part I, Item 1 of this report on Form 10-Q.

Liquidity and Capital Resources

Cash Flows

Cash provided by operating activities for the nine months ended September 30, 2006 was approximately \$26.5 million as compared to cash provided by operations of \$19.8 million for the nine months ended September 30, 2005. The improvement between years is primarily the result of improved working capital management during the first three quarters of 2006, principally lower levels of receivables due to improved collections and higher levels of accounts payable and accrued liabilities, offset by slightly higher inventory levels at September 30, 2006.

Net cash used for investing activities for the nine months ended September 30, 2006 was approximately \$18.6 million as compared to \$11.5 million for the nine months ended September 30, 2005. During the first nine months of 2006, capital expenditures were \$4.6 million greater than the same period a year ago, of which \$3.1 million related to the re-acquisition of equipment subject to an operating lease. We also generated net proceeds from the sale of fixed assets of approximately \$1.0 million during the first three quarters of 2006 compared to \$3.5 million in the year ago period.

Net cash used for financing activities was \$7.7 million and \$9.1 million for the nine months ended September 30, 2006 and 2005, respectively. In the nine months ended September 30, 2006, we paid down our debt a net \$5.5 million and paid \$2.2 million in costs and other expenses in connection with the refinancing of our credit facilities as described below. In the nine months ended September 30, 2005, \$9.1 million was utilized to pay down debt.

Our Debt and Other Commitments

On August 2, 2006, we amended and restated our senior secured credit facilities which are comprised of a \$90.0 million revolving credit facility, a \$60.0 million deposit-linked supplemental revolving credit facility and a \$260.0 million term loan facility of which \$260.0 million was outstanding at September 30, 2006. The amended and restated credit facilities extended our revolving credit maturities from one and a half years to five years and the term loan facility from three and a half years to between five and a half and seven years (depending on when our senior subordinated notes are repaid) and reduced the interest rate margins on our revolving facility from 3.5% to 2.75% per annum and on our term loan facility from 3.75% to 2.75% per annum. The amended and restated credit facilities reduced our weighted average interest rate on our variable rate borrowings from 9.1% to 8.1% per annum as of the date of the refinancing. Under the amended and restated credit facilities, up to \$90.0 million in the aggregate of our revolving credit facility is available to be used for one or more permitted acquisitions subject to certain conditions and other outstanding borrowings and issued letters of credit. Our amended and restated credit facilities also provide for an uncommitted \$100.0 million incremental term loan facility that, subject to certain conditions, is available to fund one or more permitted acquisitions or to repay a portion of our senior subordinated notes. In connection with the refinancing of our credit facilities, the Company recorded a charge for debt extinguishment costs of \$8.6 million, of which \$7.9 million was a non-cash charge related to the write-off of debt issuance costs.

Amounts drawn under our revolving credit facilities fluctuate daily based upon our working capital and other ordinary course needs. Availability under our revolving credit facilities depends upon, among other things, compliance with our credit agreement's financial covenants. Our credit facilities contain negative and affirmative covenants and other requirements affecting us and our subsidiaries, including among others: restrictions on incurrence of debt (except for permitted acquisitions and subordinated indebtedness), liens, mergers, investments, loans, advances, guarantee obligations, acquisitions, asset dispositions, sale-leaseback transactions, hedging agreements, dividends and other restricted junior payments, stock repurchases, transactions with affiliates, restrictive agreements and amendments to charters, by-laws, and other material documents. The terms of our credit agreement require us and our subsidiaries to meet certain restrictive financial covenants and ratios computed quarterly, including a leverage ratio (total consolidated indebtedness plus outstanding amounts under the accounts receivable securitization facility over consolidated EBITDA, as defined), interest expense ratio (consolidated EBITDA, as defined, over cash interest expense, as defined) and a capital expenditures covenant. The most restrictive of these financial covenants and ratios is the leverage ratio. Our permitted leverage ratio under our amended and restated credit agreement is 5.75 to 1.00 for April 1, 2006 to December 31, 2006, 5.65 to 1.00 for January 1, 2007 to June 30, 2007, 5.50 to 1.00 for July 1, 2007 to September 30, 2007, 5.25 to 1.00 for October 1, 2007 to June 30, 2008, 5.00 to 1.00 for July 1, 2008 to June 30, 2009, 4.75 to 1.00 for July 1, 2009 to September 30, 2009, 4.50 to 1.00 for October 1, 2009 to June 30, 2010, 4.25 to 1.00 for July 1, 2010 to September 30, 2011 and 4.00 to 1.00 from October 1, 2011 and thereafter. Our actual leverage ratio was 5.11 to 1.00 at September 30, 2006 and we were in compliance with our covenants as of that date.

The following is the reconciliation of net income (loss), which is a GAAP measure of our operating results, to Consolidated Bank EBITDA, as defined in our credit agreement as in effect on September 30, 2006 for the twelve month period ended September 30, 2006.

Edgar Filing: TRIMAS CORP - Form 10-Q

	Year Ended December 31, 2005 (dollars in thousands)	Less: Nine Months Ended September 30, 2005	Add: Nine Months Ended September 30, 2006	Twelve Months Ended September 30, 2006
Net income (loss), as reported	\$ (45,880)	\$ 6,790	\$ (5,880)	\$ (58,550)
Bank stipulated adjustments:				
Interest expense, net (as defined)	75,510	55,790	59,320	79,040
Income tax expense (benefit)(1)	(30,830)	1,020	(5,020)	(36,870)
Depreciation and amortization	41,140	31,400	27,960	37,700
Extraordinary non-cash charges(2)	73,220		15,850	89,070
Heartland monitoring fee and expenses(3)	4,210	3,140	3,050	4,120
Interest equivalent costs(4)	4,240	2,740	3,710	5,210
Non-cash expenses related to stock option grants(5)	310	240	1,270	1,340
Non-recurring expenses in connection with acquisition integration(6)	2,180	1,800	710	1,090
Other non-cash expenses or losses	12,660	9,240	1,700	5,120
Non-recurring expenses or costs for cost savings projects(7)	5,740	4,750	640	1,630
Discontinued operations(8)	8,800	6,290	7,490 (9)	10,000
Debt extinguishment costs(10)			8,610	8,610
Consolidated Bank EBITDA, as defined	\$ 151,300	\$ 123,200	\$ 119,410	\$ 147,510

	September 30, 2006 (dollars in thousands)
Total long-term debt	\$ 722,250
Aggregate funding under the receivables securitization facility	32,000
Total Consolidated Indebtedness, as defined	\$ 754,250
Consolidated Bank EBITDA, as defined	147,510
Actual leverage ratio	5.11 x
Covenant requirement	5.75 x

(1) Amount includes tax benefits associated with discontinued operations and cumulative effect of accounting change.

(2) Non-cash charges associated with asset impairments.

(3) Represents management fees and expenses paid pursuant to the Heartland Advisory Agreement.

(4) Interest-equivalent costs associated with the Company's receivables securitization facility.

(5) Non-cash expenses resulting from the grant of stock options.

(6) Non-recurring costs and expenses due to the integration of any business acquired not to exceed \$15,000,000 in aggregate.

(7) Non-recurring costs and expenses relating to cost savings projects, including restructuring and severance expenses, not to exceed \$25,000,000 in the aggregate; and non-recurring expenses or similar costs incurred relating to the completion of cost savings initiatives, including production sourcing initiatives, not to exceed \$5,000,000 in the aggregate.

(8) EBITDA from discontinued operations, not to exceed \$10,000,000 in any twelve month period.

49

(9) Actual amount reported for nine months ended September 30, 2006 was \$11,210,000 which is net of an asset impairment charge of \$15,850,000 included in extraordinary non-cash charges, as described in Note 2, Discontinued Operations and Assets Held for Sale.

(10) Write-off of debt issue costs in connection with refinancing of our senior credit facilities.

Three of our international businesses are also parties to loan agreements with banks, denominated in their local currencies. In the United Kingdom, we are party to a revolving debt agreement with a bank in the amount of £3.9 million (approximately \$2.1 million outstanding at September 30, 2006) which is secured by a letter of credit under our credit facilities. In Italy, we are party to a 5.0 million note agreement with a bank (approximately \$5.8 million outstanding at September 30, 2006) with a term of seven years, which expires December 12, 2012 and is secured by land and buildings of our local business unit. In Australia, we are party to a debt agreement with a bank in the amount of \$25 million Australian dollars (approximately \$14.9 million outstanding at September 30, 2006) for a term of five years which expires December 31, 2010. Borrowings under this arrangement are secured by substantially all the assets of the local business which is also subject to financial ratio and reporting covenants. Financial ratio covenants include: capital adequacy ratio (tangible net worth over total tangible assets), interest coverage ratio (EBIT over gross interest cost). In addition to the financial ratio covenants there are other financial restrictions such as: restrictions on dividend payments, U.S. parent loan repayments, negative pledge and undertakings with respect to related entities. As of September 30, 2006, total borrowings in the amount of \$22.8 million were outstanding under these arrangements.

Another important source of liquidity is our \$125.0 million accounts receivable securitization facility, under which we have the ability to sell eligible accounts receivable to a third-party multi-seller receivables funding company. At September 30, 2006, we had \$32.0 million utilized under our accounts receivable facility and \$22.9 million of available funding based on eligible receivables and after consideration of leverage restrictions. At September 30, 2006, we also had \$3.0 million outstanding under our revolving credit facility and had an additional \$93.9 million potentially available after giving effect to approximately \$44.9 million of letters of credit issued to support our ordinary course needs and after consideration of leverage restrictions. At September 30, 2006, we had aggregate available funding under our accounts receivable facility and our revolving credit facility of \$93.9 million after consideration of the aforementioned leverage restrictions. The letters of credit are used for a variety of purposes, including to support certain operating lease agreements, vendor payment terms and other subsidiary operating activities, and to meet various states requirements to self-insure workers compensation claims, including incurred but not reported claims.

We also have \$437.8 million (face value) 9⁷/₈% senior subordinated notes which are due in 2012.

Principal payments required under our amended and restated credit facility term loan are: \$0.7 million due each calendar quarter beginning December 31, 2006 through June 30, 2013, and \$242.5 million due on August 2, 2013.

Our amended and restated credit facility is guaranteed on a senior secured basis by us and all of our domestic subsidiaries, other than our special purpose receivables subsidiary, on a joint and several basis. In addition, our obligations and the guarantees thereof are secured by substantially all the assets of us and the guarantors.

Our exposure to interest rate risk results from the variable rates under our credit facility. Borrowings under the credit facility bear interest, at various rates, as more fully described in Note 7, Long-term Debt, to the accompanying consolidated financial statements as of September 30, 2006. Based on amounts outstanding at September 30, 2006, a 1% increase or decrease in the per annum interest rate for borrowings under our revolving credit facilities would change our interest expense by approximately \$2.9 million annually.

We have other cash commitments related to leases. We account for these lease transactions as operating leases and annual rent expense related thereto approximates \$16.1 million. We expect to continue to utilize leasing as a financing strategy in the future to meet capital expenditure needs and to reduce debt levels.

We conduct business in several locations throughout the world and are subject to market risk due to changes in the value of foreign currencies. We do not currently use derivative financial instruments to manage these risks. The functional currencies of our foreign subsidiaries are the local currency in the country of domicile. We manage these operating activities at the local level and revenues and costs are generally denominated in local currencies; however, results of operations and assets and liabilities reported in U.S. dollars will fluctuate with changes in exchange rates between such local currencies and the U.S. dollar.

As a result of the financing transactions entered into on June 6, 2002, the additional issuance of \$85.0 million aggregate principal amount of senior subordinated notes, and acquisitions, we are highly leveraged. In addition to normal capital expenditures, we may incur significant amounts of additional debt and further burden cash flow in pursuit of our internal growth and acquisition strategies.

We believe that our liquidity and capital resources, including anticipated cash flows from operations, will be sufficient to meet our debt service, capital expenditure and other short-term and long-term obligation needs for the foreseeable future, but we are subject to unforeseeable events and risks.

Credit Rating

We and certain of our outstanding debt obligations are rated by Standard & Poor's and Moody's. As of June 30, 2006, Standard & Poor's assigned our credit facilities, corporate credit and senior subordinated notes ratings of B+, B and CCC+ respectively, each with a stable outlook. As of June 30, 2006, Moody's assigned our credit facilities, corporate credit and senior subordinated notes ratings of B1, B2 and Caa1 respectively, each with a stable outlook. On September 27, 2006, Moody's upgraded the ratings on our credit facilities and senior subordinated notes from B1 to Ba2 and Caa1 to B3, respectively. This upgrade occurred in connection with Moody's changing the ratings on a number of high yield issues in the industrials and aerospace/defense sectors, as a result of the introduction of new rating methodology. If our credit ratings were to decline, our ability to access certain financial markets may become limited, the perception of us in the view of our customers, suppliers and security holders may worsen and as a result, we may be adversely affected. If, in connection with the consummation of any offering of our equity securities and the use of proceeds therefrom, the ratings assigned to our credit facilities by Standard & Poor's remains at B+(stable) or better and the ratings assigned to our credit facilities by Moody's remains at B1 (stable) or better, the applicable margin on all loans under our amended and restated credit agreement will be reduced by 0.5% per annum.

Off-Balance Sheet Arrangements

We are party to an agreement to sell, on an ongoing basis, the trade accounts receivable of certain business operations to a wholly-owned, bankruptcy-remote, special purpose subsidiary, TSPC, Inc. ("TSPC"). TSPC, subject to certain conditions, may from time to time sell an undivided fractional ownership interest in the pool of domestic receivables, up to approximately \$125.0 million, to a third party multi-seller receivables funding company, or conduit. The proceeds of the sale are less than the face amount of accounts receivable sold by an amount that approximates the purchaser's financing costs. Upon sale of receivables, our subsidiaries that originated the receivables retain a subordinated interest. Under the terms of the agreement, new receivables can be added to the pool as collections reduce receivables previously sold. The facility is an important source of liquidity. At September 30, 2006, we had \$32.0 million utilized and \$22.9 million available under this facility based on eligible receivables and after consideration of leverage restrictions.

The facility is subject to customary termination events, including, but not limited to, breach of representations or warranties, the existence of any event that materially adversely affects the collectibility of receivables or performance by a seller and certain events of bankruptcy or insolvency. The facility

expires on December 31, 2007. In future periods, if we are unable to renew or replace this facility, it could materially and adversely affect our liquidity.

Unresolved SEC Staff Comments

The Company has received comment letters from the Staff of the Securities and Exchange Commission (SEC) in connection with the Staff's review of our Registration Statement on Form S-1 (File No. 333-136263) and subsequent amendments No. 1 and No. 2 thereto. The Company has responded to and addressed such comments. However, there remains an unresolved matter with respect to the Company's accounting for customer intangibles. The Staff has questioned the Company's use of the straight-line method of amortization versus an accelerated method with respect to customer intangible assets recorded and requested additional data in support of the amortization method used. The Staff has also questioned and requested that the Company provide additional quantitative and qualitative analyses in support of the process by which useful lives of 25 and 40 years were originally assigned to certain of its customer relationship intangibles. The Company has responded to the Staff's questions on these matters, and provided supplemental analyses and supporting information as requested by the Staff. As of the date of the filing of this Form 10-Q, the Staff continues to review the Company's responses and, therefore, the Staff's comments with respect to these matters remain unresolved. The Company will continue to respond to any additional comment letters that it receives from the Staff.

Impact of New Accounting Standards

In June 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48, (FIN 48) *Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109*. FIN 48 clarifies the accounting for uncertainty in income taxes by prescribing a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, and disclosure. FIN 48 is effective for fiscal years beginning after December 15, 2006. We are currently evaluating the impact, if any, that FIN 48 will have on our consolidated financial position, results of operations and cash flows.

In September 2006, the FASB issued Statement of Financial Standards No. 157 (SFAS No. 157), *Fair Value Measurements*. This new standard establishes a framework for measuring the fair value of assets and liabilities. This framework is intended to provide increased consistency in how fair value determinations are made under various existing accounting standards which permit, or in some cases require, estimates of fair market value. SFAS No. 157 also expands financial statement disclosure requirements about a company's use of fair value measurements, including the effect of such measures on earnings. SFAS No. 157 is effective for fiscal years beginning after December 15, 2007. We are currently evaluating the impact, if any, that SFAS No. 157 will have on our consolidated financial position, results of operations and cash flows.

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 158 (SFAS No. 158), *Employer's Accounting for Defined Benefit Pension and Other Postretirement Plans - and amendment of FASB Statements No. 87, 88, 106, and 132(R)*. SFAS No. 158 requires an employer to recognize the overfunded or underfunded status of its defined benefit postretirement plan (other than a multiemployer plan) as an asset or liability in its balance sheet and to recognize changes in that funded status in the year in which the changes occur through comprehensive income. SFAS No. 158 also requires the measurement of defined benefit plans assets and obligations as of the employer's fiscal year end balance sheet (with limited exceptions). Under SFAS No. 158, the Company will be required to recognize the funded status of its defined benefit plans and to provide the required disclosures for fiscal years ending after December 15, 2006. We expect adoption of SFAS No. 158 will result in a reduction in comprehensive income and are currently evaluating the amount by which shareholders' equity may be reduced and other impacts, if any, that SFAS No. 158 will have on our consolidated financial position, results of operations and cash flows.

Critical Accounting Policies

The following discussion of accounting policies is intended to supplement the accounting policies presented in Note 3 to our 2005 audited financial statements included in our annual report filed on Form 10-K. Certain of our accounting policies require the application of significant judgment by management in selecting the appropriate assumptions for calculating financial estimates. By their nature, these judgments are subject to an inherent degree of uncertainty. These judgments are based on our historical experience, our evaluation of business and macroeconomic trends, and information from other outside sources, as appropriate.

Accounting Basis for Transactions. Prior to June 6, 2002, we were owned by Metaldyne. On November 28, 2000, Metaldyne was acquired by an investor group led by Heartland. On June 6, 2002, Metaldyne issued approximately 66% of our fully diluted common stock to an investor group led by Heartland. As a result of the transactions, we did not establish a new basis of accounting as Heartland is the controlling shareholder for both us and Metaldyne and the transactions were accounted for as a reorganization of entities under common control.

Receivables. Receivables are presented net of allowances for doubtful accounts of approximately \$5.8 million at September 30, 2006. We monitor our exposure for credit losses and maintain adequate allowances for doubtful accounts. We determine these allowances based on historical write-off experience and/or specific customer circumstances and provide such allowances when amounts are reasonably estimable and it is probable a loss has been incurred. We do not have concentrations of accounts receivable with a single customer or group of customers and do not believe that significant credit risk exists due to our diverse customer base. Trade accounts receivable of substantially all domestic business operations may be sold, on an ongoing basis, to TSPC.

Depreciation and Amortization. Depreciation is computed principally using the straight-line method over the estimated useful lives of the assets. Annual depreciation rates are as follows: buildings and buildings/land improvements, 10 to 40 years, and machinery and equipment, 3 to 15 years. Capitalized debt issuance costs are amortized over the underlying terms of the related debt securities. Customer relationship intangibles are amortized over periods ranging from 6 to 40 years, while technology and other intangibles are amortized over periods ranging from 1 to 30 years. As of January 1, 2004, trademarks and trade names are classified as indefinite-lived intangibles and we have ceased amortization.

Impairment of Long-Lived Assets. In accordance with Statement of Financial Accounting Standards No. 144, (SFAS No. 144), *Accounting for the Impairment or Disposal of Long-Lived Assets*, the Company periodically reviews the financial performance of each business unit for indicators of impairment. An impairment loss is recognized when the carrying value of a long-lived asset exceeds its fair value.

Goodwill and Other Intangibles. We test goodwill and indefinite-lived intangible assets for impairment on an annual basis, unless a change in business conditions occurs which requires a more frequent evaluation. In assessing the recoverability of goodwill and indefinite-lived intangible assets, we estimate the fair value of each reporting unit using the present value of expected future cash flows and other valuation measures. We then compare this estimated fair value with the net asset carrying value. If carrying value exceeds fair value, then a possible impairment of goodwill exists and further evaluation is performed. Goodwill is evaluated for impairment annually as of December 31 using management's operating budget and five-year forecast to estimate expected future cash flows. However, projecting discounted future cash flows requires us to make significant estimates regarding future revenues and expenses, projected capital expenditures, changes in working capital and the appropriate discount rate.

At December 31, 2005, fair value was determined based upon the discounted cash flows of our reporting units discounted at our weighted average cost of capital of 10.0% and residual growth rates ranging from 3% to 4%. Our estimates of future cash flows will be affected by future operating

performance, as well as general economic conditions, costs of raw materials, and other factors which are beyond the Company's control. Of our reporting units, Recreational Accessories and RV & Trailer Products are most sensitive to and likely to be impacted by an adverse change in assumptions. Considerable judgment is involved in making these determinations, and the use of different assumptions could result in significantly different results. For example, an approximate 50 basis point change in the discount rates or an approximate 5% reduction in estimated cash flows would result in a further goodwill impairment analysis as required by SFAS No. 142, *Goodwill and Other Intangible Assets*. While we believe our judgments and estimates are reasonable and appropriate, if actual results differ significantly from our current estimates, we could experience an impairment of goodwill and other indefinite-lived intangibles that may be required to be recorded in future periods.

We review definite-lived intangible assets on a quarterly basis, or more frequently if events or changes in circumstances indicate that their carrying amounts may not be recoverable. The factors considered by management in performing these assessments include current operating results, business prospects, customer retention, market trends, potential product obsolescence, competitive activities and other economic factors. Future changes in our business or the markets for our products could result in impairments of other intangible assets that might be required to be recorded in future periods.

Pension and Postretirement Benefits Other than Pensions. We account for pension benefits and postretirement benefits other than pensions in accordance with the requirements of FASB Statement of Financial Accounting Standards No. 87 (SFAS No. 87), *Employer's Accounting for Pensions*, No. 88 (SFAS No. 88), *Employer's Accounting for Settlements and Curtailments of Defined Benefit Plans and for Terminated Benefits*, No. 106 (SFAS No. 106), *Employer's Accounting for Postretirement Benefits Other Than Pension*, No. 132 (SFAS No. 132), *Employer's Disclosures about Pensions and Other Postretirement Benefits an amendment of FASB Statements Nos. 87, 88, and 106*. Annual net periodic expense and accrued benefit obligations recorded with respect to our defined benefit plans are determined on an actuarial basis. We, together with our third-party actuaries, determine assumptions used in the actuarial calculations which impact reported plan obligations and expense. Annually, we and our actuaries review the actual experience compared to the most significant assumptions used and make adjustments to the assumptions, if warranted. The healthcare trend rates are reviewed with the actuaries based upon the results of their review of claims experience. Discount rates are based upon an expected benefit payments duration analysis and the equivalent average yield rate for high-quality fixed-income investments. Pension benefits are funded through deposits with trustees and the expected long-term rate of return on fund assets is based upon actual historical returns modified for known changes in the market and any expected change in investment policy. Postretirement benefits are not funded and our policy is to pay these benefits as they become due. Certain accounting guidance, including the guidance applicable to pensions, does not require immediate recognition of the effects of a deviation between actual and assumed experience or the revision of an estimate. This approach allows the favorable and unfavorable effects that fall within an acceptable range to be netted.

Income Taxes. Income taxes are accounted for using the provisions of FASB Statement of Financial Accounting Standards No. 109, (SFAS No. 109), *Accounting for Income Taxes*. Deferred income taxes are provided at currently enacted income tax rates for the difference between the financial statement and income tax basis of assets and liabilities and carry-forward items. The effective tax rate and the tax bases of assets and liabilities reflect management's estimates based on then-current facts. On an ongoing basis, we review the need for and adequacy of valuation allowances if it is more likely than not that the benefit from a deferred tax asset will not be realized. We believe the current assumptions and other considerations used to estimate the current year effective tax rate and deferred tax positions are appropriate. However, actual outcomes may differ from our current estimates and assumptions.

Other Loss Reserves. We have other loss exposures related to environmental claims, asbestos claims and litigation. Establishing loss reserves for these matters requires the use of estimates and judgment in

regard to risk exposure and ultimate liability. We are generally self-insured for losses and liabilities related principally to workers' compensation, health and welfare claims and comprehensive general, product and vehicle liability. Generally, we are responsible for up to \$0.5 million per occurrence under our retention program for workers' compensation, between \$0.3 million and \$2.0 million per occurrence under our retention programs for comprehensive general, product and vehicle liability, and have a \$0.3 million per occurrence stop-loss limit with respect to our self-insured group medical plan. We accrue loss reserves up to our retention amounts based upon our estimates of the ultimate liability for claims incurred, including an estimate of related litigation defense costs, and an estimate of claims incurred but not reported using actuarial assumptions about future events. We accrue for such items in accordance with FASB Statement of Financial Accounting Standards No. 5, (SFAS No. 5), *Accounting for Contingencies* when such amounts are reasonably estimable and probable. We utilize known facts and historical trends, as well as actuarial valuations in determining estimated required reserves. Changes in assumptions for factors such as medical costs and actual experience could cause these estimates to change significantly.

55

Item 3. Quantitative and Qualitative Disclosures About Market Risk

In the normal course of business, we are exposed to market risk associated with fluctuations in foreign currency exchange rates. We are also subject to interest risk as it relates to long-term debt. See Item 2, *Management's Discussion and Analysis of Financial Condition and Results of Operations* for details about our primary market risks, and the objectives and strategies used to manage these risks. Also see Note 7, *Long-term Debt*, in the notes to the consolidated financial statements for additional information.

Item 4. Controls and Procedures

Evaluation of disclosure controls and procedures

(a) As of September 30, 2006, an evaluation was carried out by management, with the participation of our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures (as such term is defined in Rule 13a-15 (e) and Rule 15d-15 (e) of the Securities Exchange Act of 1934, (the Exchange Act)) pursuant to Rule 13a-15 of the Exchange Act. Our disclosure controls and procedures are designed only to provide reasonable assurance that they will meet their objectives. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that as of September 30, 2006, the Company's disclosure controls and procedures are effective to provide reasonable assurance that they will meet their objectives.

Changes in disclosure controls and procedures

As more fully described in its Form 10-K for the annual period ended December 31, 2005, the Company, together with its auditors, identified a material weakness in internal control over financial reporting at our industrial fasteners business related to proper accounting and reporting of inventory valuation and accounts receivable reserve accounts. Due to the control deficiencies described therein, the Company implemented the actions listed below during the nine months ended September 30, 2006 to strengthen its disclosure controls and procedures at its industrial fasteners business:

- Hired a new controller in the first quarter of 2006 and temporarily assigned one financial group controller and provided other supplemental resources, as needed, to assist with monthly recurring accounting and control activities while the new controller transitions into his responsibilities;
- Developed and implemented revised processes with respect to the accounting, analysis and reporting of inventory balances, including valuation reserves;
- In the first quarter of 2006, implemented a revised process to timely review past due accounts receivable for purposes of analyzing collectibility and to document and support accounts receivable reserves required in connection with the month-end closing process.

As of September 30, 2006, these remedial actions have been completed. As more fully discussed in Note 2 *Discontinued Operations and Assets Held for Sale*, the Company's industrial fasteners business is reported as discontinued operations.

Part II. Other Information
TriMas Corporation

Item 1. Legal Proceedings

A civil suit was filed in the United States District Court for the Central District of California in December 1988 by the United States of America and the State of California against more than 180 defendants, including us, for alleged release into the environment of hazardous substances disposed of at the Operating Industries, Inc. site in California. This site served for many years as a depository for municipal and industrial waste. The plaintiffs have requested, among other things, that the defendants

clean up the contamination at that site. Consent decrees have been entered into by the plaintiffs and a group of the defendants, including us, providing that the consenting parties perform certain remedial work at the site and reimburse the plaintiffs for certain past costs incurred by the plaintiffs at the site. We estimate that our share of the clean-up costs will not exceed \$500,000, for which we have insurance proceeds. Plaintiffs had sought other relief such as damages arising out of claims for negligence, trespass, public and private nuisance, and other causes of action, but the consent decree governs the remedy. Based upon our present knowledge and subject to future legal and factual developments, we do not believe that this matter will have a material adverse effect on our financial position, results of operations or cash flows.

As of September 30, 2006, we were a party to approximately 1,704 pending cases involving an aggregate of approximately 11,119 claimants alleging personal injury from exposure to asbestos containing materials formerly used in gaskets (both encapsulated and otherwise) manufactured or distributed by certain of our subsidiaries for use primarily in the petrochemical refining and exploration industries. The following chart summarizes the number of claimants, number of claims filed, number of claims dismissed, number of claims settled, the average settlement amount per claim and the total defense costs, exclusive of amounts reimbursed under our primary insurance, at the applicable date and for the applicable periods:

	Claims pending at beginning of period	Claims filed during period	Claims dismissed during period	Claims settled during period	Average settlement amount per claim during period	Total defense costs during period
Fiscal year ended December 31, 2005	18,884	2,596	1,998	66	\$ 8,660	\$ 5,324,407
Nine months ended September 30, 2006	19,416	3,662	11,886	73	\$ 8,607	\$ 3,472,239

In addition, we acquired various companies to distribute our products that had distributed gaskets of other manufacturers prior to acquisition. We believe that many of our pending cases relate to locations at which none of our gaskets were distributed or used.

We may be subjected to significant additional asbestos-related claims in the future, the cost of settling cases in which product identification can be made may increase, and we may be subjected to further claims in respect of the former activities of our acquired gasket distributors. We note that we are unable to make a meaningful statement concerning the monetary claims made in the asbestos cases given that, among other things, claims may be initially made in some jurisdictions without specifying the amount sought or by simply stating the requisite or maximum permissible monetary relief, and may be amended to alter the amount sought. The large majority of claims do not specify the amount sought. Of the 11,119 claims pending at September 30, 2006, 123 set forth specific amounts of damages (other than those stating the statutory minimum or maximum). 93 of the 123 claims sought between \$1.0 million and \$5.0 million in total damages (which includes compensatory and punitive damages) and 30 sought between \$5.0 million and \$10.0 million in total damages (which includes compensatory and punitive damages). Solely with respect to compensatory damages, 99 of the 123 claims sought between \$50,000 and \$600,000 and 24 sought between \$1.0 million and \$5.0 million. Solely with respect to punitive damages, 93 of the 123 claims sought between \$1.0 million and \$2.5 million and 30 sought \$5.0 million. In addition, relatively few of the claims have reached the discovery stage and even fewer claims have gone past the discovery stage.

Total settlement costs (exclusive of defense costs) for all such cases, some of which were filed over 18 years ago, have been approximately \$3.7 million. All relief sought in the asbestos cases is monetary in nature. To date, approximately 50% of our costs related to settlement and defense of asbestos litigation have been covered by our primary insurance. Effective February 14, 2006, we entered into a coverage-in-place agreement with our first level excess carriers regarding the coverage to be provided to us for asbestos-related claims when the primary insurance is exhausted. The coverage-in-place agreement makes

coverage available to us that might otherwise be disputed by the carriers and provides a methodology for the administration of asbestos litigation defense and indemnity payments. The coverage in place agreement allocates payment responsibility among the primary carrier, excess carriers and the Company's subsidiary.

Based on the settlements made to date and the number of claims dismissed or withdrawn for lack of product identification, we believe that the relief sought (when specified) does not bear a reasonable relationship to our potential liability. Based upon our experience to date and other available information (including the availability of excess insurance), we do not believe that these cases will have a material adverse effect on our financial position and results of operations or cash flows.

We are subject to other claims and litigation in the ordinary course of our business, but do not believe that any such claim or litigation will have a material adverse effect on our financial position and results of operations or cash flows.

Item 1A. Risk Factors

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part 1, Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2005, which could materially affect our business, financial condition or future results. The risks described in our Annual Report on Form 10-K are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deemed to be immaterial also may materially adversely affect our business, financial position and results of operations or cash flows.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

None of our securities, which are not registered under the Securities Act, have been issued or sold by us during the period covered by this report.

Item 3. Defaults Upon Senior Securities

Not applicable.

Item 4. Submission of Matters to a Vote of Security Holders

Not applicable.

Item 5. Other Information

Not applicable.

Item 6. Exhibits.

Exhibits Index:

- 3.1(b) Amended and Restated Certificate of Incorporation of TriMas Corporation.
- 3.2(b) Amended and Restated By-laws of TriMas Corporation.
- 4.1(b) Indenture relating to the 97 $\frac{7}{8}$ % senior subordinated notes, dated as of June 6, 2002, by and among TriMas Corporation, each of the Guarantors named therein and The Bank of New York as trustee.
- 4.2(b) Form of note (included in Exhibit 4.1(b)).
- 4.3(b) Registration Rights Agreement relating to the 97 $\frac{7}{8}$ % senior subordinated notes issued June 6, 2002 dated as of June 6, 2002 by and among TriMas Corporation and the parties named therein.

Edgar Filing: TRIMAS CORP - Form 10-Q

- 4.4(b)* Registration Rights Agreement relating to the 97/8% senior subordinated notes issued December 10, 2002 dated as of December 10, 2002 by and among TriMas Corporation and the parties named therein.
- 4.5(d) Supplemental Indenture dated as of March 4, 2003.
- 4.6(e) Supplemental Indenture No. 2 dated as of May 9, 2003.
- 4.7(f) Supplemental Indenture No. 3 dated as of August 6, 2003.
- 10.1(b) Stock Purchase Agreement dated as of May 17, 2002 by and among Heartland Industrial Partners, L.P., TriMas Corporation and Metaldyne Corporation.
- 10.2(b) Amended and Restated Shareholders Agreement, dated as of July 19, 2002 by and among TriMas Corporation and Metaldyne Corporation.
- 10.3(l) Amendment No. 1 to Amended and Restated Shareholders Agreement dated as of August 31, 2006.
- 10.4(k) Credit Agreement dated as of June 6, 2002, as amended and restated as of August 2, 2006 among TriMas Company LLC, JPMorgan Chase Bank, N.A., as Administrative Agent and Collateral Agent, and Comerica Bank, as Syndication Agent.
- 10.5(b) Receivables Purchase Agreement, dated as of June 6, 2002, by and among TriMas Corporation, the Sellers party thereto and TSPC, Inc., as Purchaser.
- 10.6(b) Receivables Transfer Agreement, dated as of June 6, 2002, by and among TSPC, Inc., as Transferor, TriMas Corporation, individually, as Collection Agent, TriMas Company LLC, individually as Guarantor, the CP Conduit Purchasers, Committed Purchasers and Funding Agents party thereto, and JPMorgan Chase Bank as Administrative Agent.
- 10.7(g) Amendment dated as of June 3, 2005, to Receivables Transfer Agreement.
- 10.8(h) Amendment dated as of July 5, 2005, to Receivables Transfer Agreement.
- 10.9(h) TriMas Receivables Facility Amended and Restated Fee Letter dated July 1, 2005.
- 10.10(b) Corporate Services Agreement, dated as of June 6, 2002, between Metaldyne Corporation and TriMas Corporation.
- 10.11(b) Lease Assignment and Assumption Agreement, dated as of June 21, 2002, by and among Heartland Industrial Group, L.L.C., TriMas Company LLC and the Guarantors named therein.
- 10.12(b)** TriMas Corporation 2002 Long Term Equity Incentive Plan.
- 10.13(b) Stock Purchase Agreement by and among 2000 Riverside Capital Appreciation Fund, L.P., the other Stockholders of HammerBlow Acquisition Corp. listed on Exhibit A thereto and TriMas Company LLC dated as of January 27, 2003.
- 10.14(c) Stock Purchase Agreement by and Among TriMas Company LLC and The Shareholders and Option Holders of Highland Group Corporation and FNL Management Corporation dated February 21, 2003.
- 10.15(d) Form of Employment Agreement between TriMas Corporation and Grant H. Beard.
- 10.16 (i) Form of Employment Agreement between TriMas Corporation and Lynn Brooks.
- 10.17(d)* Form of Employment Agreement between TriMas Corporation and E.R. Skip Autry.
- 10.18 (i) Employment Agreement between TriMas Corporation and Joshua Sherbin.
- 10.19 (i) Employment Agreement between TriMas Corporation and Edward Schwartz.
- 10.20 (e) Asset Purchase Agreement among TriMas Corporation, Metaldyne Corporation and Metaldyne Company LLC dated May 9, 2003.
- 10.21(e) Form of Sublease Agreement (included as Exhibit A in Exhibit 10.24).
- 10.22(f) Form of Stock Option Agreement.
- 10.23(a)* Annual Value Creation Program.
- 10.24(a)* Form of Indemnification Agreement.
- 10.25(j) Separation and Consulting Agreement dated as of May 20, 2005.
