

W R GRACE & CO
Form 10-K
February 29, 2008

**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION**
WASHINGTON, D.C. 20549

FORM 10-K

**ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934**

For the fiscal year ended December 31, 2007

Commission file number 1-13953

W. R. GRACE & CO.

Incorporated under the Laws of the
State of Delaware

I.R.S. Employer Identification No.
65-0773649

**7500 Grace Drive, Columbia, Maryland 21044-4098
410/531-4000**

Securities registered pursuant to Section 12(b) of the Exchange Act:

Title of each class	Name of each exchange on which registered
Common Stock, \$.01 par value	New York Stock Exchange, Inc.
Preferred Stock Purchase Rights	

Securities registered pursuant to Section 12(g) of the Exchange Act:

None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Edgar Filing: W R GRACE & CO - Form 10-K

Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Exchange Act.

Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulations S-K is not contained herein and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer
Non-accelerated filer Smaller Reporting Company
(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

The aggregate market value of W. R. Grace & Co. voting and non-voting common equity held by non-affiliates as of June 29, 2007 (the last business day of the registrant's most recently completed second fiscal quarter) based on the closing sale price of \$24.49 as reported on the New York Stock Exchange was \$1,479,598,934*

At January 31, 2008, 71,635,601 shares of W. R. Grace & Co. Common Stock, \$.01 par value, were outstanding.

DOCUMENTS INCORPORATED BY REFERENCE

None.

** Excludes 11,219,148 shares of outstanding W. R. Grace & Co. (Grace) Common Stock held by directors and executive officers and stockholders, whose beneficial ownership exceeds 10% of the outstanding shares of Grace Common Stock. Exclusion of shares held by any person should not be construed to indicate that such person possesses the power, direct or indirect, to direct or cause the direction of the management or policies of Grace, or that such person is controlled by or under common control with Grace.*

PART I

Item 1. BUSINESS

BUSINESS OVERVIEW

W. R. Grace and Co. is engaged in the production and sale of specialty chemicals and specialty materials on a global basis through its two operating segments, Grace Davison and Grace Construction Products. We entered the specialty chemicals industry in 1954, when we acquired both the Dewey and Almy Chemical Company and the Davison Chemical Company. During the 1980s and 1990s, we divested a substantial number of businesses that were not consistent with our business strategy. Grace is the successor to a company that originated in 1854 and originally became a public company in 1953.

Grace, along with 61 of its United States subsidiaries and affiliates, has filed voluntary petitions for reorganization under Chapter 11 of the United States Bankruptcy Code and, since 2001, has been subject to the jurisdiction of the United States Bankruptcy Court for the District of Delaware.

In the fourth quarter of 2007, we realigned our reportable operating segments to reflect the transfer of our packaging technologies product line to the Grace Davison operating segment. Our previous Grace Performance Chemicals operating segment has been renamed Grace Construction Products as a result of the transfer. All segment information contained herein has been retrospectively restated to reflect this realignment.

Grace Davison markets its products to a wide range of industrial customers, including those in the energy and refining industry, consumer, industrial and packaging industries, petro-/bio- chemical industry and the pharmaceutical and life sciences industry. Grace Davison includes the following product groups:

- Refining Technologies, which includes:
 - fluid catalytic cracking, or FCC, catalysts, that help to crack the hydrocarbon chain in distilled crude oil to produce transportation fuels, such as gasoline and diesel fuels, and other petroleum-based products; and FCC additives used to reduce sulfur in gasoline, maximize propylene production from refinery FCC units, and reduce emissions of sulfur oxides, nitrogen oxides and carbon monoxide from refinery FCC units, and
 - hydroprocessing catalysts, marketed through our Advanced Refining Technologies, LLC joint venture with Chevron Products Company, in which Grace holds a 55% economic interest, that are used in process reactors to upgrade heavy oils into lighter, more useful products by removing impurities such as nitrogen, sulfur and heavy metals, allowing less expensive feedstocks to be used in the petroleum refining process;

Edgar Filing: W R GRACE & CO - Form 10-K

- Materials Technologies which includes:
 - silica-based and silica-alumina-based engineered materials used in:
 - industrial applications, such as rubber and tires, plastics, precision investment casting, refractory, insulating glass windows, and drying applications, fulfilling various functions such as reinforcement, high temperature binding and moisture scavenging,
 - consumer applications, as a free-flow, carrier or processing aid in food and personal care products; as a toothpaste abrasive; and for the processing and stabilization of edible oils and beverages, and
 - coatings and print media applications consisting of functional additives that: provide matting effects and corrosion protection for industrial coatings; enable enhanced media and paper quality in ink jet coatings; and act as a functional filler and retention aid in paper, and
 - sealants and coatings used in rigid food and beverage packaging, including can and closure sealants used to seal and enhance the shelf life of can and bottle contents, and coatings for cans and closures that prevent metal corrosion, protect package contents from the influence of metal and ensure proper adhesion of sealing compounds and technologies designed to reduce off-taste effects and extend the shelf-life of packaged products; and
 - Specialty Technologies, which includes:
 - polyolefin catalysts and catalyst supports that are essential components in the manufacture of polyethylene and polypropylene resins, and other chemical catalysts used in a variety of industrial, environmental and consumer applications, and
 - silica-based materials and chromatography columns, instruments, consumables and accessories used in analytical chemistry applications and life sciences.

Grace Davison accounted for approximately 64% of our 2007 sales.

Grace Construction Products, or GCP, produces and sells specialty construction chemicals and materials, including:

Edgar Filing: W R GRACE & CO - Form 10-K

- concrete admixtures and fibers used to improve the durability and working properties of concrete;

Edgar Filing: W R GRACE & CO - Form 10-K

- additives used in cement processing to improve energy efficiency, enhance the characteristics of finished cement and improve ease of use;
- building materials used in commercial and residential construction and renovation to protect buildings from water, vapor and air penetration; and
- fireproofing materials used to protect buildings in the event of fire.

Grace Construction Products accounted for approximately 36% of our 2007 sales.

Our principal executive offices are located at 7500 Grace Drive, Columbia, Maryland 21044, telephone (410) 531-4000. As of December 31, 2007, we had approximately 6,500 full-time employees worldwide.

Our strategy is to seek increased enterprise value by profitably growing our specialty chemicals and materials businesses in the global marketplace and achieving high levels of efficiency. To achieve these objectives, we plan to:

- invest in research and development activities, with the goals of introducing new high-performance, technically differentiated products and services while continuing to enhance manufacturing processes and operations;
- expand sales and manufacturing into geographic areas with emerging market economies, including China, India, Eastern Europe, Latin America, South America, Africa and the Middle East;
- pursue selected acquisitions and alliances that complement our current product offerings or provide opportunities for faster penetration of desirable market or geographic segments; and
- continue our commitment to process and productivity improvements and cost-management, such as rigorous controls on working capital and capital spending, integration of functional support services worldwide, and programs for supply chain management, which include both procurement and materials management.

CHAPTER 11 FILING

Edgar Filing: W R GRACE & CO - Form 10-K

On April 2, 2001, Grace, along with 61 of our United States subsidiaries and affiliates, filed voluntary petitions for reorganization under Chapter 11 of the United States Bankruptcy Code in the United States Bankruptcy Court for the District of Delaware. The cases are being jointly administered under case number 01-01139. Our non-U.S. subsidiaries and certain of our U.S. subsidiaries were not included in the bankruptcy filing.

Background of Chapter 11

A bankruptcy filing under Chapter 11 of the United States Bankruptcy Code is generally a voluntary action taken by a debtor to resolve financial problems such as major liabilities. Chapter 11 gives a debtor the chance to restructure its finances so that it may continue to operate, provide its employees with jobs and pay its creditors. Chapter 11 can be used by debtors that are faced with large numbers of product liability lawsuits in multiple jurisdictions to provide a practical way to address the potential liabilities under the supervision of one court. A Chapter 11 filing generally stops all lawsuits against a debtor and prevents creditors from taking action to enforce claims or collect any monies or property that might be owed at the time of filing.

Chapter 11 permits a debtor to define and resolve its liabilities under a court-supervised process generally referred to as a reorganization. Unlike a Chapter 7, or liquidation bankruptcy, which results in the sale or distribution of all of the assets of a business, Chapter 11 reorganization permits a debtor to continue its normal business operations. Existing management may continue to manage the debtor's operations during the reorganization. As a debtor-in-possession, a debtor is able to do business with suppliers and customers in a routine manner. Certain other activities, including transactions outside the ordinary course of business, generally require specific approval of the bankruptcy court.

After a debtor files Chapter 11, one or more official committees that represent the interests of general unsecured creditors, other creditors and stockholders may be appointed. Normally these committees and their respective advisors are actively involved in the process to monitor the bankruptcy and protect the interests of their respective constituencies. The fees and expenses of these committees and advisors are paid by the debtor.

The Chapter 11 process generally ends when the bankruptcy court approves a plan of reorganization for the debtor. In cases similar to ours with complex asbestos liabilities, debtors have taken several years to complete the Chapter 11 process.

Grace Chapter 11 Filing

We voluntarily entered Chapter 11 to resolve comprehensively the nearly 130,000 asbestos personal injury and property damage claims against us, as well as any future demands which may be asserted. These claims and demands relate to past products and processes that involved asbestos, a mineral formerly used widely for many decades in building and other commercial products. Prior to 2000, we were able to resolve asbestos-related claims through direct negotiations and litigation, paying over \$2 billion in claims and legal costs over a 20-year period. In most of the personal injury lawsuits, we are one of many defendants. In 2000 and the first quarter of 2001, the litigation environment changed with an unexpected 81% increase in personal injury claims filed against us, which we believe was caused by a surge in unmeritorious claims. We also became a defendant in class action lawsuits alleging damages from Zonolite Attic Insulation[®], or ZAI, a former attic insulation product. Trends in claims filing and

settlement demands showed no sign of returning to historic levels and these unfavorable trends were exacerbated by the bankruptcy filings of several of our co-defendants in asbestos personal injury litigation. These trends greatly increased the risk that we would not be able to resolve our pending and future asbestos-related claims under the state court system.

After a thorough review of these developments, our Board of Directors concluded that a federal court-supervised bankruptcy process provided the best forum available to achieve fairness in resolving these claims and demands. On April 2, 2001, we, along with 61 United States subsidiaries and affiliates, filed voluntary petitions for reorganization under Chapter 11 of the United States Bankruptcy Code in the United States Bankruptcy Court for the District of Delaware. Since that time, we have been subject to the jurisdiction of the Bankruptcy Court.

We are currently operating as a debtor-in-possession under court protection from creditors and claimants. We believe that our bankruptcy filing will permit a comprehensive resolution of the claims against us while preserving the inherent value of our businesses. As a consequence of our bankruptcy filing, pending litigation against us is generally stayed (subject to certain exceptions in the case of governmental authorities), and no party may take any action to realize its pre-petition claims except pursuant to an order of the Bankruptcy Court. Since our bankruptcy filing, the Bankruptcy Court has approved all motions necessary for us to conduct normal business activities.

Four committees have been appointed in the bankruptcy cases, two representing asbestos claimants, a third representing other unsecured creditors and a fourth representing shareholders. These committees, and a legal representative of future asbestos claimants, have the right to be heard on all matters that come before the Bankruptcy Court and are playing important roles in the bankruptcy cases. We are required to bear certain costs of the committees and of the future asbestos claimants' representative, including those of their counsel and financial advisors.

See disclosure in this Report in Item 3 (Legal Proceedings) and Item 7 (Management's Discussion and Analysis of Financial Condition and Results of Operations) for a description of our proposed plan of reorganization, proforma financial effects of our proposed plan, and the status of our current Chapter 11 proceedings.

PRODUCTS AND MARKETS

Specialty Chemicals and Specialty Materials Industry Overview

Specialty chemicals and specialty materials are high-value-added products used as catalysts, intermediates, components, protectants or additives in a wide variety of products and applications. They are generally produced in relatively small volumes (compared with commodity chemicals) and must satisfy well-defined performance requirements and specifications. Specialty chemicals and specialty materials are often critical components of end products, or catalysts for the production of end products and

components used in end products; consequently, they are tailored to meet customer needs, which generally results in a close relationship between the producer and the customer.

We focus our business on the following, which we believe are important competitive factors in the specialty chemicals and specialty materials industry:

- value-added products and services, sold at competitive prices;
- customer service, including rapid response to changing customer needs;
- technological leadership (resulting from investment in research and development and technical customer service); and
- reliability of product and supply.

We believe that our focus on these competitive factors enables us to deliver increased value to customers and competitive operating margins notwithstanding the increased customer service and research and development costs that this focus entails.

Grace Davison Operating Segment

Grace Davison principally applies silica, alumina, zeolite and rubber and lattice technology in the design and manufacture of products to create significant value for our diverse customer base. Our customers include major oil refiners, plastics and chemical manufacturers, users of product packaging, consumer product manufacturers and pharmaceutical companies. We believe that our technological expertise provides a competitive advantage, allowing us to quickly design products and materials that help our customers create value in their markets.

The following table sets forth Grace Davison sales of similar products based on end-use markets as a percentage of Grace total revenue.

	2007		2006		2005

Refining Technologies

FCC Catalysts

We are a global leader in developing and manufacturing FCC catalysts and additives that enable petroleum refiners to increase profits by improving product yields and quality. Our FCC products also enable refiners to reduce emissions from their FCC units and reduce sulfur content in the gasoline that fuel refiners produce.

Oil refining is a highly specialized discipline, and FCC catalysts must be tailored to meet local variations in crude oil and a refinery's product mix. We work regularly with customers to help them find the most appropriate catalyst formulations for their changing needs. We are dependent on the economics of the petroleum industry, specifically, the impacts of demand for transportation fuels and petrochemical products and crude oil supply, which affect the extent to which our customers utilize the available capacity of their FCC units. In general, as a refinery utilizes more of its capacity, it needs a disproportionately greater amount of FCC catalyst.

Refinery feedstocks vary in quality from sweet to heavy crude oil. Sweet crude feedstocks are more expensive than heavy crude and yield a greater proportion of high-value petroleum products. They also yield a lower proportion of residual oil, or resid, which is generally the lowest-value feedstock contained in crude oil. Although feedstocks with high resid content are less expensive than higher quality feedstocks, the processing of high resid feedstocks is more difficult because of their relatively high metals, nitrogen and sulfur contamination and higher boiling points. Due to increased prices for crude oil, refiners have increased their efforts to maximize the yield from resid feedstocks. We have designed our MIDAS®, IMPACT®, NEKTOR®, and NOMUS® product portfolios to enable our customers to increase the efficiency and yield of resid refining.

Many U.S. petroleum refiners have entered into consent decrees with the U.S. Environmental Protection Agency under which the refiners have agreed to reduce emissions of nitrogen oxides and sulfur oxides. The European Union has also imposed

requirements on refineries with respect to nitrogen oxides and sulfur oxides emissions. FCC units are generally the largest emitters of these pollutants in a refinery. Our additives are designed to assist refineries in meeting their obligations to reduce these pollutants. Our Super DESOX® additive reduces sulfur oxides emissions from commercial FCC units. Our XNOx® and DENOX® additives are designed to achieve reductions in nitrogen oxides emissions comparable to those obtained from the capital-intensive alternatives available to a refinery.

Economic growth in emerging countries has increased the demand for plastics. As a result, our refinery customers have sought increased profits in the petrochemical market by increasing the yield of propylene from their FCC units. Our zeolite-based technology, including our Olefins-Max® and OlefinsUltra® products, is designed to maximize the propylene output of FCC units.

In recent years, many countries and regions, including the U.S., European Union and China have imposed or increased the regulatory limitations on the sulfur content of gasoline and diesel fuel. We have developed a portfolio of products designed to assist refiners in meeting their gasoline sulfur reduction targets including our D-PriSM® and GSR®-5 additives and our SuRCA® and Neptune catalyst families.

Competition in the FCC catalyst and additives markets is based on technology, product performance, customer service and price. Our principal FCC catalyst competitors are BASF and Albemarle, which, with Intercat, are also principal competitors in the FCC additives market. We also have multiple regional competitors in the markets for FCC catalysts and additives.

Hydroprocessing Catalysts

We market hydroprocessing catalysts through Advanced Refining Technologies, LLC, or ART, our joint venture with Chevron Products Company. We established ART to combine our technology with that of Chevron and to develop, market and sell hydroprocessing catalysts to customers in the petroleum refining industry worldwide.

As discussed above, we are dependent on the economics of the petroleum industry. The increase in prices for crude oil has increased the value of refinery feedstocks that have high resid content. We are a leading supplier of hydroprocessing catalysts, including fixed-bed, on-stream catalyst replacement (OCR®) and ebullating bed products, designed for processing these feedstocks.

We also offer a full line of catalysts used in processing ultra-low sulfur content gasoline and diesel fuel, including our SmART Catalyst System® and ApART catalyst system, that are customized for individual refiners. These products are designed to help refiners meet their obligations to reduce sulfur content in their products.

Competition in the hydroprocessing catalyst industry is based on technology, product performance, customer service and price. Albemarle and Criterion are our leading global competitors in hydroprocessing catalysts. We also have multiple regional competitors.

Materials Technologies

We market silica-based and silica alumina-based functional additives and process aids, such as silica gel, colloidal silica, zeolitic adsorbents, precipitated silica and silica-aluminas, for a wide variety of uses, and formulations used in food and beverage packaging, such as closure sealants and can coatings and sealants, as follows:

Application	Use	Key Brands
Industrial	Reinforcing agents for rubber and tires	PERKASIL®
	Inorganic binders and surface smoothening aids for precision investment casting and refractory applications	LUDOX®
	Adsorbents for dual pane windows and industrial applications, desiccant granules, beads, powders and bags and polyurethane moisture scavengers	PHONOSORB®, PHONOSORB MTX®, SYLOBEAD®, SYLOSIV®
	Chemical metal polishing aids and formulations for CMP/electronics applications	SAFETYSORB® LUDOX®, Poli Edge®
Consumer	Toothpaste abrasives and thickening agents, free-flow agents, anticaking agents, tableting aids, cosmetic additives and flavor carriers	SYLODENT®, SYLOID FP , SYLOBLANC®, ELFADENT®, SYLOID®, SYLOSIV®
	Edible oil refining agents, beer stabilizers and clarification aids for beer, juices and other beverages	DARACLAR®, TriSyl®
Coatings & Print Media	Matting agents, anticorrosion pigments, TiO ₂ extenders and moisture scavengers for paints and lacquers	SYLOID®, SHIELDEX®, SYLOSIV®, SYLOWHITE
	Additives and formulations for matte, semi-glossy and glossy ink receptive coatings on high performance ink jet papers, photo paper, and commercial wide-format print media	SYLOJET®, DURAFILL®, LUDOX®
	Paper retention aids, functional fillers, paper frictionizers	DURAFILL®, LUDOX®
Packaging	Can sealants for rigid containers, that ensure a hermetic seal between the lid and the body of beverage, food, aerosol and other cans	DAREX®, Sistiaga
	Sealants for metal and plastic bottle closures that are used on pry-off and twist-off metal crowns, as well as roll-on pilfer-proof and plastic closures to seal and enhance the shelf life of glass and plastic bottles and jars used in beverage and food applications	DAREX®, DARAFORM®, DARASEAL®, DARABLEND®, Sincera®, Celox

Edgar Filing: W R GRACE & CO - Form 10-K

Coatings for metal packaging that are used in the manufacture of cans and closures to protect the metal against corrosion, protect the contents against the influences of metal, ensure proper adhesion of sealing compounds to metal surfaces, and provide base coats for inks and for decorative purposes

DAREX®, Apperta®

Our products are integrated into our customers' manufacturing processes and, when combined with our technical support, can increase the efficiency of such processes. By working closely with our customers, we help them to react quickly to the changing

needs of their customers. Changing end-customer needs have included higher-resolution ink jet prints, improved scratch resistance of floor and furniture coatings, less abrasive, high cleaning toothpastes and technologies that are friendly to the environment such as water-based coatings, green tires with less friction resistance, bio-fuel processing and non-toxic anticorrosive pigments.

We seek to grow our packaging products by continually developing and introducing new products to meet packager and brand owner needs and by focusing on high-growth markets, such as plastic packaging; growth geographies; and active packaging materials, such as oxygen scavenging sealants. Our development programs are aligned to the industry trends of flexible and lighter weight packaging, lower energy consumption, personal convenience, and highly individualized packaging. We also attempt to maintain expertise in regulatory awareness and compliance in order to anticipate and respond to new food grade packaging concerns and regulations.

Our Materials Technologies product group is global, with more than 50% of our sales outside of the U.S. Our major competitors include INEOS, Degussa, UOP, Altana, PPG, Akzo Nobel and Valspar who, in each case, also sell their products on a worldwide basis. Competition is generally based on product performance and reliability, as well as additional value added features to address the needs of our customers, end-users and brand owners.

Specialty Technologies

Specialty Catalysts and Processing Technologies

We are a leading provider of catalyst systems and catalyst supports to the polyolefins industry for a variety of polyethylene and polypropylene process technologies. These types of catalysts are used for the manufacture of polyethylene and polypropylene resins used in products such as plastic film, high-performance plastic pipe and household containers. We use a combination of proprietary catalyst and support technology, as well as technology licensed from third parties, to provide unique catalyst-based solutions to industry, and to provide a broad technology portfolio for enhancing collaboration opportunities with technology leaders.

Our Magnapore® polymerization catalyst is used to produce high performance polyethylene in the slurry loop process for pipe and film applications. Polytrak®, our newest family of products for the polypropylene market, is designed to achieve improved polymer performance, particularly for impact-resistant applications such as automobile bumpers.

We also develop and market catalysts and adsorbents for enhanced biofuel production and chromatography-based analytical tools for biofuel quality control including our EnSieve® desiccants for ethanol dehydration, EnPure® adsorbents for biodiesel purification and EnSight® analyzers for process monitoring and quality control.

Our Davicat® customized products offer a wide range of chemical and physical properties based on our material science technology for supported catalysts and biotechnology applications such as nylon and artificial sweeteners. Our Raney® products are used for the synthesis of organic compounds for the fibers, pharmaceuticals, plastics, perfumes, soaps, color couplers and petroleum industries.

Our Sylobloc® silica gel antiblock and processing aids for producers and processors of plastic film prevent layers of polymer film from sticking together and provide an improved surface structure which results in improved scratch-resistance.

Our Sylobead® process adsorbents are used in petrochemical/natural gas processes for such applications as ethylene-cracked-gas-drying, natural gas drying and sulfur removal.

The specialty catalyst industry is technology-intensive and suppliers must provide products formulated to meet customer specifications. There are many manufacturers of polyolefin and other specialty catalysts, and most sell their products worldwide.

Discovery Sciences

We market an array of products for the life science, pharmaceutical, environmental, anesthesiology, biofuels, plastic and polymer, chemical, petrochemical, food and beverage, forensic, educational, neutraceutical and biotechnology industries including:

Products

Key Brands

Liquid and gas chromatography columns, detectors and other chromatography instruments including pumps, gas generators, auto samplers, flow meters, and gas chromatography instruments

Vydac®, Alltech®, Jones Chromatography, Flexit, Grom and MODcol®

Chromatography consumables and accessories including solid phase extraction (SPE) cartridges, vials, syringes, standards, and thin layer chromatography (TLC) plates

Silica used by drug companies for pharmaceutical applications

Davisil®, Vydac®

CO₂ adsorbents for medical, marine, industrial and rescue applications

Sodasorb®

Our chromatography tools are used in a wide range of analytical chemistry applications, including drug discovery and purification for the pharmaceutical and biotechnology industries, environmental analysis, forensics, petrochemical analysis, food, cosmetics, vitamins and biofuels. We also market chromatography consumables, analytical and preparative columns packed with our silica, and bulk silica that customers can pack in their own production columns. We can modify the base silica and surface chemistry for analytical, preparative and process scale customers, allowing us to enhance our products for unique applications.

Our Discovery Sciences products compete on the basis of product quality, distinct technology and customer support. The market for these products is highly fragmented with a large number of companies that sell their products on a global and regional basis, although a number of companies, such as Waters Corporation and Agilent

Technologies, have a substantial global position and a relatively large installed customer base. We have developed this product group over the past few years, primarily through acquisitions of companies with substantial experience in this industry.

Manufacturing

Our Grace Davison products are manufactured by a network of globally-coordinated plants that are positioned to service our customers regionally. Our integrated planning organization is responsible for the effective utilization of our manufacturing capabilities. Our Discovery Sciences product line has its own integrated planning organization. Our packaging products are manufactured in both large facilities to permit economies of scale and a network of smaller operations that enable customization to local market conditions.

Marketing/Sales

We use a global organization of technical professionals with extensive experience in refining processes, catalyst development, and catalyst applications to market our Refining Technologies catalysts and additives. These professionals work to tailor our technology to the needs of each specific customer. We generally negotiate prices for our refining catalysts because our formulations are specific to the needs of each customer and each customer receives special attention and technical service. Due to the current demand for hydroprocessing catalysts, we generally sell these products through long-term supply agreements with our geographically diverse customer base.

We use country-based direct sales forces that are dedicated to each product line and backed by application-specific technical customer service teams to market our Materials Technologies and Discovery Sciences products. Our sales force seeks to develop long-term relationships with our customers and focuses on consultative sales, technical support and key account growth programs. To ensure full geographic coverage, our direct sales organization is further supplemented, especially with respect to our Discovery Sciences products, by a network of agents and distributors.

We use a global direct sales force for our Specialty Catalysts and Processing Technologies products that seeks to maintain close working relationships with our customers. These relationships enable us to cooperate with major polyolefin resin producers to develop

catalyst technologies that complement their process developments. We have geographically distributed our sales and technical service professionals to make them responsive to the needs of our geographically diverse customers. We typically negotiate prices on an annual basis; however, we also operate under long-term contracts with built-in pricing mechanisms for certain customers.

Our marketing and research and development functions operate globally. We offer web-based support, including technical service, literature access, customer feedback tools, and process design formulas to assist our customers in determining their needs for our products.

Seasonality does not have a significant overall effect on our Grace Davison operating segment. However, sales of FCC catalysts tend to be lower in the first quarter prior to the shift in production by refineries from home heating oil for the winter season to gasoline production for the summer season. FCC catalysts and ebullating-bed hydroprocessing catalysts are consumed at a relatively steady rate and are replaced regularly. Fixed-bed hydroprocessing catalysts are consumed over a period of years and are replaced in bulk in an irregular pattern. Since our customers periodically shut down their refining processes to replace fixed-bed hydroprocessing catalysts in bulk, our hydroprocessing catalyst sales to any customer can vary substantially over the course of a year and between years based on that customer's catalyst replacement schedule. Our packaging products are affected by seasonal and weather-related factors such as the consumption of beverages and the size and quality of food crops. These impacts are softened by the global nature of this product line.

Raw Materials

The principal raw materials for Grace Davison products include caustic, alumina, rare earths, nickel, aluminum, cobalt, kaolin, molybdenum, sodium aluminate, sodium silicate, resins, rubber and lattices (including certain food-grade raw materials). Multiple suppliers are generally available for each of these materials; however some of our raw materials are provided by single sources of supply. We seek to mitigate the risk of using single source suppliers by identifying and qualifying alternative suppliers or, for unique materials, by using alternative formulations from other suppliers or by passing price increases on to customers. In some instances, we produce our own raw materials and intermediates.

Some raw materials are also subject to pricing pressures, particularly metals and petroleum-based specialty and commodity materials such as resins and solvents. As in many chemical businesses, we consume significant quantities of natural gas in the production of Grace Davison products. World events and other economic factors have caused volatility in the price of natural gas. Increases in the cost of natural gas and other important raw materials can negatively impact our operating margins. Since we manufacture a substantial portion of our packaging products in developing countries using raw materials from suppliers in the U.S., Europe and other developed economies, currency revaluations versus the U.S. dollar and Euro in developing countries may adversely affect our raw material costs and the prices we may charge for our products.

Grace Construction Products Operating Segment

Our GCP products include specialty construction chemicals and materials. We entered this business in 1954, with our acquisition of the Dewey and Almy Chemical Company.

The following table sets forth GCP sales of similar products based on end-use markets as a percentage of Grace total revenue.

<i>(In millions)</i>	2007		2006		2005	
	Sales	% of Grace Revenue	Sales	% of Grace Revenue	Sales	% of Grace Revenue
Construction Chemicals*	\$ 744.3	23.9%	\$ 694.0	24.5%	\$ 608.0	23.7%
Building Materials**	361.7	11.6%	335.2	11.9%	298.3	11.6%
Total GCP Revenue	\$ 1,106.0	35.5%	\$ 1,029.2	36.4%	\$ 906.3	35.3%

* Includes Concrete and Cement products.

** Includes Fireproofing, Building Envelope and Vermiculite products.

The following table sets forth GCP sales by region as a percentage of GCP total revenue.

<i>(In millions)</i>	2007		2006		2005	
	Sales	% of GCP Revenue	Sales	% of GCP Revenue	Sales	% of GCP Revenue
North America	\$ 536.5	48.5%	\$ 558.9	54.3%	\$ 500.1	55.2%
Europe Africa*	380.1	34.4%	309.9	30.1%	268.7	29.6%
Asia Pacific	139.8	12.6%	118.8	11.5%	105.7	11.7%
Latin America	49.6	4.5%	41.6	4.1%	31.8	3.5%
Total GCP Revenue	\$ 1,106.0	100%	\$ 1,029.2	100%	\$ 906.3	100%

* Includes the Middle East.

Edgar Filing: W R GRACE & CO - Form 10-K

We are a supplier to the nonresidential (commercial and infrastructure) construction industry, and to a lesser extent, the residential construction and repair and restoration industries. The following table shows our principal specialty construction chemicals and materials products:

Products	Uses	Customers	Key Brands
Concrete admixtures	Concrete admixtures and polymeric fibers are used to reduce the production and in-place costs of concrete, and improve the life cycle cost of the structure.	Ready-mix and precast concrete producers, engineers and specifiers	ADVA®, STRUX®, PolarSet®, Eclipse®
Additives for cement processing	Cement additives added to the grinding stage of the cement manufacturing process improve the energy efficiency of the plant and enhance the performance of the finished cement. Chromium reducing additives to help cement manufacturers in Europe meet environmental regulations.	Cement manufacturers	CBA®, Synchro®, HEA2®, TDA®
Products for architectural concrete	Products for architectural concrete include surface retarders, coatings, pigments and release agents used by concrete producers and contractors to enhance the surface appearance and aesthetics of concrete.	Precast concrete producers and architects	Pieri®
Admixtures for masonry concrete	Products for masonry concrete are used by block and paver producers for process efficiency and to improve the appearance, durability and water resistance of finished concrete masonry units.	Masonry block manufacturers	Dry-Block®, Optec®, Quantec®
Specialty vermiculite products	Specialty vermiculite products are used in a wide range of applications making use of vermiculite's insulating properties and its ability to absorb nutrients, primarily in the horticultural, construction, and automotive industries.	Manufacturers of a variety of products, including potting soils, animal feeds, brakes, clutches and fire-rated products	MicroLite®, Verxite™, FRSV™
Structural waterproofing, vapor and air barrier systems	Structural waterproofing and air barrier systems prevent water, vapor and/or air infiltration in commercial structures. Products include self-adhered sheet and liquid membranes, joint sealing materials, drainage composites and waterstops.	Architects and structural engineers; specialty waterproofing and general contractors; specialty waterproofing distributors	Bituthene®, Procor®, Preprufe®, Perm-A-Barrier®, Adprufe®
Residential building materials	Specialty roofing membranes and flexible flashings for windows, doors, decks and detail areas. Products include fully-adhered roofing underlayments, synthetic underlayments and self-adhered flashing.	Roofing contractors, home builders and remodelers; specialty roofing distributors, lumberyards and home centers; homeowners; architects and specifiers	Ice & Water Shield®, Tri-Flex 30®, Vycor®
Fire protection and firestop products	Fire protection products are spray-applied to the structural steel frame, encasing and insulating the steel and protecting the building in the event of fire. Firestop products and systems compartmentalize and contain fire and smoke within a building.	Local contractors and specialty subcontractors and applicators; building materials distributors; industrial manufacturers; architects and structural engineers	Monokote®, FlameSafe®

Our GCP operating segment is organized into geographic regions and most product lines, with certain regional variations, are offered in each region. GCP manages its business under a geographic organizational structure that focuses on the following regions:

- **Americas** including North, Central and South America;
- **Europe** including Eastern and Western Europe, the Middle East, Africa and India; and
- **Asia** including China, Japan, South Korea, South Asia (excluding India), Pacific Rim countries, Australia and New Zealand.

In view of this diversity of customers and customer concerns, and because construction chemicals and building materials require intensive sales and customer service efforts, we maintain a direct sales and technical support team with sales personnel based in more than 35 countries worldwide. This sales and support team sells products under global contracts, under U.S. or regional contracts, and on a job-by-job basis. We also use distributors in both domestic and overseas markets. We compete globally with several large construction materials suppliers, and regionally and locally with numerous smaller competitors. In recent years, the cement and concrete industry has experienced some consolidation, thereby increasing the importance of servicing global customers. For some customer groups, such as producers and contractors, operational efficiency and total applied cost are key factors in making purchasing decisions, while for others, such as architects and engineers, product performance and design versatility are more important.

Competition for our construction products is based on product performance, technical support and service, and brand name recognition in the construction industry. Our major global competitors are BASF and Sika.

We seek to improve our products, adapt them for new applications and add new products through our innovation growth processes that focus on understanding the needs of the customer, key performance indicators, and marketing research and development. We also seek to extend our product portfolio and geographic reach through acquisitions.

In addition to new product introductions, product enhancements and acquisitions, we look for growth opportunities in developing countries where increasing construction activity, improvement in building codes, and sophistication of construction practices can accelerate demand for our construction products. We continue to expand our commercial and manufacturing capabilities in these geographic areas.

The key raw materials used in our specialty construction products are obtained from a variety of suppliers, including commodity chemical producers, petroleum companies and paper manufacturers. The majority of our raw materials are olefins and organic chemicals; we also make significant purchases of inorganic materials such as gypsum, as well as specialty materials including specialty films, papers, membranes and fibers. In most instances, these materials are available from multiple sources. Global supply and demand factors, currency revaluations against the U.S. dollar and petroleum prices significantly impacted the price and availability of key raw materials in recent years.

The construction business is cyclical in response to economic conditions and construction demand. The construction business is also seasonal and dependent on favorable weather conditions, with a decrease in construction activity during the winter months. Demand for our specialty construction products is primarily impacted by global non-residential construction activity and U.S. residential construction activity. We seek to increase profitability and minimize the impact of cyclical downturns in regional economies by introducing technically advanced high-performance products and expanding geographically. Although in recent years these strategies have been successful in reducing the impact of cyclicity in our markets, a decline in U.S. residential construction activity in late 2006 and 2007 has had a negative impact on our North American sales.

FINANCIAL INFORMATION ABOUT INDUSTRY SEGMENTS AND GEOGRAPHIC AREAS

Disclosure of financial information about industry segments and geographic areas for 2007, 2006 and 2005 is provided in this Report in Item 8 (Financial Statements and Supplementary Data) in the Financial Supplement under Note 20 (Operating Segment Information) to the Consolidated Financial Statements which disclosure is incorporated herein by reference. Disclosure of risks attendant to our foreign operations is provided in this Report in Item 1A (Risk Factors).

INTELLECTUAL PROPERTY; RESEARCH ACTIVITIES

Competition in our industry is often based on technological superiority and innovation. Our ability to maintain our margins and effectively compete with other suppliers depends on our ability to introduce new products based on innovative technology, as well as our ability to obtain patent or other intellectual property protection. Our research and development programs emphasize development of new products and processes, improvement of existing products and processes and application of existing products and processes to new industries and uses. We conduct research in all regions, with North America and Europe accounting for the most activity.

Numerous patents and patent applications protect our products, processes and manufacturing equipment. We also benefit from trade secrets, including know-how and other proprietary information relating to many of our products and processing technologies. There can be no assurance, however, that our patents, patent applications and precautions to protect trade secrets and know-how will provide sufficient protection for our intellectual property. In addition, other companies may independently develop systems or processes that circumvent our patents or acquire patent rights applicable to our business.

Research and development expenses relating to continuing operations amounted to \$80 million in 2007, \$66 million in 2006 and \$64 million in 2005. These amounts include depreciation and amortization expenses related to research and development and expenses incurred in funding external research projects. The amount of research and development expenses relating to government- and customer-sponsored projects (rather than projects that we sponsor) was not material during these periods.

ENVIRONMENTAL, HEALTH AND SAFETY MATTERS

We are subject, along with other manufacturers of specialty chemicals, to stringent regulations under numerous U.S. federal, state and local and foreign environmental, health and safety laws and regulations relating to the generation, storage, handling, discharge, disposition and stewardship of hazardous wastes and other materials. Environmental laws require that certain responsible parties, as defined in the relevant statute, fund remediation actions regardless of legality of original disposal or ownership of a disposal site. We are involved in remediation actions to address hazardous wastes or other materials as required by U.S. federal, state and local and foreign laws. During the Chapter 11 proceeding, we generally are not participating in the funding of investigation and remediation at sites that we do not own. Our ultimate liability with respect to many of these sites will be determined as part of the Chapter 11 proceeding.

We have expended substantial funds to comply with environmental laws and regulations and expect to continue to do so in the future. The following table sets forth our expenditures in the past three years, and our estimated expenditures in 2008 and 2009, for (i) the operation and maintenance of manufacturing facilities and the disposal of wastes; (ii) capital expenditures for environmental control facilities; and (iii) site remediation:

Year	Operation of Facilities	Capital Expenditures	Site Remediation
	and Waste Disposal		
	(in \$ millions)	(in \$ millions)	(in \$ millions)
2005	\$51	\$9	\$28
2006	\$59	\$8	\$11
2007	\$62	\$9	\$9
2008	\$63	\$8	\$8
2009	\$69	\$10	\$4

* For 2008 and 2009, amounts are current estimates of ongoing site remediation costs and exclude payments of claims in our Chapter 11 proceeding.

See Part I, Item 3 of this 10-K for additional information about our environmental remediation activities.

We continuously seek to improve our environmental, health and safety performance. To the extent applicable, we extend the basic elements of the American Chemistry Council's Responsible Care® program to all our locations worldwide, embracing specific performance objectives in the key areas of management systems, product stewardship, employee health and safety, community awareness and emergency response, distribution, process safety and pollution prevention. In addition, we have implemented key elements of the new Responsible Care® Security Code for our operations and systems. We have completed a review of our existing security (including cyber-security) vulnerability and have taken actions to enhance our security systems and protect our assets.

EMPLOYEE RELATIONS

As of December 31, 2007, we employed approximately 6,500 persons, of whom approximately 3,050 were employed in the United States. Of our total employees, approximately 3,850 work in Grace Davison facilities, approximately 1,850 work in Grace Construction Products facilities, and approximately 800 are dedicated to corporate activities and/or are shared through globally managed professional groups such as financial and legal services, human resources, information technology, supply chain and environmental health and safety.

Approximately 900 of our manufacturing employees in the United States are represented for collective bargaining purposes by nine different local collective bargaining groups. We have operated without a labor work stoppage for more than 10 years.

We have works councils representing the majority of our European sites serving approximately 2,050 employees.

RISK MANAGEMENT

We have programs in place to address the following significant risks to Grace

- **Disasters** We have disaster recovery plans in effect at key sites, and we have built a certain amount of redundancy into our production plants where feasible. We also have a formalized risk management program, which includes several types and layers of insurance. We are advised by risk management professionals and brokers who are familiar with recent trends in the insurance markets worldwide. The level of insurance carried, and other related aspects such as deductibles, self-insurance levels, etc. are monitored by management on a regular basis.
- **Environmental** We are committed to the health and safety of all employees and to protecting the environment from damage through the use or production of our products. Our Environmental Health and Safety (EH&S) organization is global in scope and is charged with assuring that we live up to our commitments in this area. The group performs EH&S audits of our facilities and regularly monitors local laws and regulations. Where appropriate, we use outside consultants and experts to augment our in-house staff. We continue to implement our EHS management system in our facilities worldwide. Our EHS management system is designed to enable us to apply best practices and continual improvement principles across our business.
- **Ethics and Fraud** We insist that our employees maintain the highest standards of ethical behavior. We have preventative and investigatory programs in place to maintain these standards, as follows:
 - We have established online ethics and compliance training programs in several languages.
 - All U.S. employees and key employees outside the U.S. must sign an annual ethics statement in which they renew their commitment to operate ethically and according to the Grace code of conduct. They must also report any actual or potential conflicts of interest for evaluation by management and, if necessary, remediation.
 - We have an anonymous telephone line to report fraudulent or unethical behavior to our Chief Ethics Officer. The direct line is available to all employees worldwide where local law allows such a facility. Any allegation of fraud is required to be reported to the Audit Committee.
 - Our Internal Audit Department is independent of management and reports functionally to the Chairman of the Audit Committee of the Board of Directors.

The department conducts investigations in collaboration with the Chief Ethics Officer when alleged frauds have accounting, financial reporting or fiscal aspects.

- We provide training to financial personnel in key positions covering topics such as the U.S. Foreign Corrupt Practices Act, the Sarbanes Oxley Act of 2002, and other laws and regulations relating to ethical or legal matters.

AVAILABILITY OF REPORTS AND OTHER DOCUMENTS

We maintain an Internet website at www.grace.com. Our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to those reports, filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended, are available, free of charge, on our website as soon as reasonably practicable after such reports are electronically filed with, or furnished to, the Securities and Exchange Commission. These reports may be accessed through our website's investor information page.

In addition, the charters for the Audit, Compensation, Nominating and Governance, and Corporate Responsibility Committees of our Board of Directors, our corporate governance guidelines and code of ethics are available, free of charge, on our website at www.grace.com/About/Leadership/Governance/. Printed copies of the charters, governance guidelines and code of ethics may be obtained free of charge by contacting Grace Shareholder Services at 410-531-4167.

The information on our website is not, and shall not be deemed to be, a part of this report or incorporated into any other filings we make with the Securities and Exchange Commission.

On March 29, 2007, our Chief Executive Officer submitted a certification to the New York Stock Exchange that, as of such date, he was not aware of any violation by Grace of the New York Stock Exchange corporate governance listing standards. Our Chief Executive Officer and Chief Financial Officer have submitted certifications to the SEC pursuant to the Sarbanes Oxley Act of 2002 as exhibits to this Report.

EXECUTIVE OFFICERS

See Part III, Item 10 of this Report for information about our Executive Officers.

Item 1A. RISK FACTORS

This Report, including the Financial Supplement, contains, and our other public communications may contain, projections or other forward-looking information, that is, information related to future, not past, events. Such information generally includes the words believes, plans, intends, targets, will, expects, anticipates, or similar expressions and includes all statements regarding our Chapter 11 proceeding (including the pro forma financial statements included in Management's Discussion and Analysis of Financial Condition and Results of Operations), expected financial position, results of operations, cash flows, financing plans, business strategy, budgets, capital and other expenditures, competitive positions, growth opportunities for existing products, benefits from new technology and cost reduction initiatives, plans and objectives of management and markets for securities. For these statements, we claim the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995. Like other businesses, we are subject to risks and uncertainties that could cause our actual results to differ materially from our projections or that could cause other forward-looking information to prove incorrect. Factors that could cause actual events to materially differ from those contained in the forward-looking statements include those factors set forth below and elsewhere in this Annual Report on Form 10-K. Further, our reported results should not be considered as an indication of our future performance. Readers are cautioned not to place undue reliance on our projections and forward-looking information, which speak only as of the date thereof. We undertake no obligation to publicly release any revisions to the projections and forward-looking information contained in this document, or to update them to reflect events or circumstances occurring after the date of this document.

In addition to general economic, business and market conditions, we are subject to other risks and uncertainties, including, without limitation, the following:

COMPANY RISKS

The outcome of our Chapter 11 cases could result in the substantial dilution or cancellation of Grace's currently outstanding common stock.

The outcome of our Chapter 11 cases depends primarily upon the resolution of our asbestos-related and other contingent liabilities. The Bankruptcy Court has agreed to a process for estimating our asbestos-related liabilities, which estimate would form the basis for a plan of reorganization that we expect would provide for the funding of a trust to which all pending and future asbestos-related claims would be channeled. If the amount of asbestos-related liabilities, as determined through estimation or otherwise, and other liabilities exceeds assets available for funding, then we likely would issue additional shares of Grace common stock to satisfy such liabilities. The number of shares to be issued could substantially dilute the interests of current shareholders or result in a recapitalization of Grace that would cancel the shares of current shareholders and issue new shares to asbestos and other creditors. Because of this risk of

substantial dilution or cancellation, the value of Grace common stock is highly speculative and any investment in Grace common stock poses a high degree of risk.

Our proposed plan of reorganization provides for substantial dilution of the ownership interests of holders of currently outstanding Grace common stock. An alternative plan that has been filed with the bankruptcy court provides for cancellation of these ownership interests with the result that outstanding Grace common stock would likely become worthless.

Our proposed plan of reorganization provides that the interests of current holders of Grace common stock would be subject to substantial dilution by additional Grace securities that may be issued under the plan. The proforma financial information included under the caption Management's Discussion and Analysis of Financial Condition and Results of Operations Proforma Financial Information reflects the accounting effects of our proposed plan as if it were in effect on the dates and for the periods set forth therein. If our plan is not confirmed or, if confirmed, if its provisions are materially different from those proposed, the proforma financial information will change. Our plan is subject to the fulfillment of numerous conditions, including a determination by the bankruptcy court that the maximum amount that we and other parties would be required to contribute to a trust for the benefit of asbestos personal injury and property damage claimants does not exceed \$1,613 million, and that assets from settlement agreements with Cryovac, Inc. and Fresenius Medical Care Holdings, Inc. would be available to fund our liabilities.

On November 5, 2007, the committee representing asbestos personal injury claimants and the legal representative of future asbestos claimants filed an alternative plan of reorganization with the bankruptcy court that provides for the cancellation of *the ownership interests of holders of currently outstanding Grace common stock*. This plan is subject to the fulfillment of numerous conditions, including a determination by the bankruptcy court that the value of all pending and future asbestos-related personal injury claims is at least \$4.0 billion, and assumes that assets from settlement agreements with Cryovac, Inc. and Fresenius Medical Care Holdings, Inc. would be available to fund our liabilities. No documents supporting this plan have been filed and the plan was not accompanied by a disclosure statement or other information that would permit a comprehensive analysis of its financial implications. Proforma financial information is not available with respect to this plan.

Neither plan of reorganization may be ultimately approved by the bankruptcy court and other interested parties. No party currently has exclusive rights to propose a plan of reorganization and solicit votes thereon, so any party-in-interest can propose a competing plan of reorganization at any time. Further, the proponents of the filed plans of reorganization are free to amend their respective plans at any time. As a result, a plan of reorganization that is materially different from the two that have been filed may ultimately be approved and, under the ultimate plan of reorganization, the interests of the holders of Grace common stock may be substantially diluted or cancelled. As a result, the value of Grace common stock is highly speculative and any investment in Grace common stock poses a high degree of risk.

The bankruptcy process may disrupt our business.

We have attempted to minimize the adverse effect of our Chapter 11 reorganization on our relationships with our employees, suppliers, customers and other parties. Nonetheless, as our reorganization becomes more protracted, our relationships with our customers, suppliers and employees may be adversely impacted and our operations could be materially and adversely affected. In addition, the continuation of our reorganization could negatively affect our ability to attract new employees and retain existing high performing employees.

Chapter 11 limits the flexibility of our management team in running our business.

While we operate our businesses as debtor-in-possession under supervision by the bankruptcy court, we are required to obtain the approval of the bankruptcy court prior to engaging in activities or transactions outside the ordinary course of business. For example, our strategic plan includes the acquisition of businesses in the specialty chemicals industry. Such acquisitions generally require bankruptcy court approval. Bankruptcy court approval of non-ordinary course activities entails preparation and filing of appropriate motions with the bankruptcy court, negotiation with the various creditors' committees and other parties in interest and one or more hearings. The various creditors' committees and other parties in interest may be heard at any bankruptcy court hearing and may raise objections with respect to these motions. This process delays major decisions and limits our ability to respond quickly to opportunities and events in the marketplace. Furthermore, in the event the bankruptcy court does not approve a proposed activity or transaction, we would be prevented from engaging in activities and transactions that we believe are beneficial to Grace.

We may not be able to collect all asbestos-related insurance payments that may be due to us.

We have insurance coverage for a portion of the asbestos-related claims against us. We estimate that, assuming an ultimate payout of asbestos-related claims equal to the \$1,700 million of asbestos-related liabilities recorded on our balance sheet, we should be entitled to approximately \$500 million of insurance recovery. Accordingly, our December 31, 2007 balance sheet includes a long-term asset for estimated asbestos-related insurance of \$500 million. Although this amount pertains only to insurance carriers with which we have asbestos settlement agreements, and/or which are currently solvent, we cannot be sure that all these amounts will be collected. We have entered into a settlement agreement with an underwriter of a portion of our excess insurance coverage. The insurer funded an escrow account for the benefit of the holders of claims that currently holds approximately \$94.8 million, including interest earned on the account. The settlement agreement provides that unless we confirm a plan of reorganization by December 31, 2008, at the option of the insurer, the escrow amount with interest must be returned to the insurer. The timing and amount of future payments from our insurers depends on their continued solvency and the resolution of disputes regarding coverage under the insurance policies as well as the nature and

timing of actual claims paid. Because of the significance of our future asbestos-related payments, the receipt of timely and complete payments from our insurers will be important to the success of our reorganization.

Grace is currently under criminal indictment in connection with our former vermiculite mining and processing activities in Libby, Montana.

Along with seven former senior level employees (one of whom is now deceased), Grace has been indicted in connection with our former vermiculite mining and processing activities in Libby, Montana. The indictment accuses Grace and the co-defendants of conspiracy to violate environmental laws and obstruct federal agency proceedings, violations of the federal Clean Air Act, and obstruction of justice.

The case is currently stayed pending the resolution of an expected appeal by Grace to the U.S. Supreme Court of certain pre-trial rulings in favor of Grace that were reversed by the Ninth Circuit Court of Appeals. According to the U.S. Department of Justice, Grace could be subject to fines in an amount equal to twice the after-tax profit earned from our Libby operations or twice the alleged loss suffered by Libby victims, plus additional amounts for restitution to victims. The indictment alleges that our after-tax profits were \$140 million. Grace has categorically denied any criminal wrongdoing and intends to vigorously defend itself at trial. We are unable to assess whether the indictment or any conviction will have a material adverse effect on our results of operations or financial condition or affect our bankruptcy proceedings. However, we expect that legal fees for Grace's defense and that of our current and former employees could range from \$3 million to \$4 million per quarter while the appeal is pending.

We are subject to environmental clean-up fines, penalties and damage claims that have been and continue to be costly.

Grace is subject to lawsuits and regulatory actions, in connection with current and former operations, for breaches of environmental laws that seek clean-up or other remedies. For example, a federal court has ruled that Grace is responsible for reimbursing the government for \$54.5 million (plus interest) in costs expended through December 2001 and for all appropriate future clean-up costs with respect to our former vermiculite mining and processing activities in Libby, Montana. The State of New Jersey is seeking civil penalties for alleged misrepresentations and false statements made in an official filing in connection with the closing of a former plant in New Jersey. Grace is also subject to other lawsuits and investigations by public and private parties under various environmental laws in connection with our current and former operations in various states, including with respect to off-site disposal at facilities where Grace has been identified as a potentially responsible party under the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended, commonly referred to as CERCLA.

We have established accounting accruals for all environmental matters for which sufficient information is available. As we receive new information, our estimated liability may change materially. We do not have sufficient information to accrue for all of Grace's

environmental risks, and we cannot be sure that our actual costs will be equal to or less than our current estimates and accruals. Furthermore, it is reasonably possible that costs associated with those environmental matters for which we have established accruals may exceed our current accruals by material amounts. Some or all of our liability in connection with alleged violations of environmental laws may not be discharged upon confirmation of our proposed plan of reorganization.

Our capital resources are limited and we have limited access to additional financing.

In addition to the cash requirements necessary to fund our ongoing operations, we currently are incurring, and anticipate that we will continue to incur significant, professional fees and other restructuring costs in connection with the Chapter 11 proceedings. We are currently funding our operations with cash flow from operations and a debtor-in-possession (DIP) loan facility, which expires on April 1, 2008, in the aggregate amount of \$250 million, and with a borrowing availability as of December 31, 2007 of \$178.5 million. We have requested a two-year extension of this DIP facility from the lenders and a hearing before the Bankruptcy Court with respect to the extension is scheduled for March 17, 2008. Based on our current and anticipated level of operations, we believe that our cash and short term investments and cash flow from operations are adequate to meet our current and anticipated cash requirements during the Chapter 11 proceedings. If such amounts are not sufficient to fund operations until a plan of reorganization is confirmed by the Bankruptcy Court, we may be required to reduce planned capital expenditures or seek additional financing. Further, our proposed plan of reorganization requires, and any plan of reorganization that is ultimately confirmed is likely to require, Grace to borrow funds for the payment of certain claims in cash. We can provide no assurance that additional financing for current operations or for payment of claims under a plan of reorganization will be available or, if available, offered on acceptable terms. As a result of the uncertainty surrounding our current circumstances, we cannot determine our long-term liquidity requirements or the adequacy of our capital resources until a plan of reorganization is confirmed by the Bankruptcy Court.

We have unfunded and underfunded pension plan liabilities which will likely require us to use current and future operating cash flow to fund the shortfall. We have no assurance that we will generate sufficient cash flow to satisfy these obligations.

We maintain U.S. and non-U.S. defined benefit pension plans covering employees who meet age and service requirements. Our net pension liability and cost is materially

affected by the discount rate used to measure pension obligations, the longevity and actuarial profile of our workforce, the level of plan assets available to fund those obligations and the expected long-term rate of return on plan assets. Significant changes in investment performance or a change in the portfolio mix of invested assets can result in corresponding increases and decreases in the valuation of plan assets, particularly equity securities, or in a change in the expected rate of return on plan assets. A change in the discount rate would result in a significant increase or decrease in the valuation of pension obligations, affecting the reported funded status of our pension plans as well as the net periodic pension cost in the following years. Similarly, changes in the expected return on plan assets can result in significant changes in the net periodic pension cost in the following years.

The international scope of our operations subjects us to the risks of doing business in foreign countries, which could adversely affect our business, financial condition and results of operations.

We conduct a substantial portion of our business outside of the United States, with approximately 67% of our 2007 sales to non-U.S. customers. We currently have many production facilities, research and development facilities and administrative and sales offices located outside North America, including facilities and offices located in Europe, Latin America, Africa and Asia. We expect sales from international markets to continue to represent a significant portion of our revenue. Accordingly, our business is subject to risks related to the differing legal, political, social and regulatory requirements and economic conditions of many jurisdictions. Risks inherent in international operations include the following:

- agreements may be more difficult to enforce and receivables more difficult to collect;

- foreign countries may impose additional withholding taxes or adopt other restrictions on foreign trade or investment, including currency exchange controls;

- we may have difficulty transferring our profits or capital from foreign operations to the United States or other countries where such funds could be more profitably deployed;

- foreign governments may nationalize private enterprises;

- we may experience unexpected adverse changes in export duties, quotas and tariffs and difficulties in obtaining export licenses;

- intellectual property rights may be more difficult to enforce;

- our business and profitability in a particular country could be affected by political or economic repercussions on a domestic, country specific or global level from terrorist activities and the response to such activities; and

- we may be affected by unexpected adverse changes in foreign laws or regulatory requirements.

In addition, certain of our operations are in high-risk regions of the world such as the Middle East and portions of Asia, Africa and Latin America. Unanticipated events, such as geopolitical changes, could adversely affect these operations. Our success as a global business will depend, in part, upon our ability to succeed in differing legal,

regulatory, economic, social and political conditions by developing, implementing and maintaining policies and strategies that are effective in each location where we do business.

We are exposed to currency exchange rate fluctuations that could impact our profitability.

We are exposed to currency exchange rate risk through our non-U.S. operations. As we conduct a significant portion of our operations outside the United States, fluctuations in currencies of other countries, especially the Euro, may materially affect our operating results. For example, changes in currency exchange rates may affect the relative prices at which we and our competitors sell products in the same market and the cost of materials used in our operations. A substantial portion of our net sales and assets are denominated in currencies other than the U.S. dollar. During times of a strengthening U.S. dollar, at a constant level of business, our reported international sales, earnings, assets and liabilities will be reduced because the foreign currency will translate into fewer U.S. dollars.

In addition to currency translation risks, we incur a currency transaction risk whenever one of our operating subsidiaries enters into either a purchase or a sales transaction using a currency different from the operating subsidiary's functional currency. Given the volatility of exchange rates, we may not be able to manage our currency transaction and/or translation risks effectively, or volatility in currency exchange rates may expose our financial condition or results of operations to a significant additional risk.

Our ability to use future net operating loss carryovers to reduce future tax payments may be limited if there is a change in ownership of Grace or if Grace does not generate sufficient U.S. taxable income.

Our ability to utilize future net operating loss carryovers may be limited by Section 382 of the Internal Revenue Code of 1986, as amended, if we undergo an ownership change as a result of future changes in the ownership of outstanding Grace common stock. In addition, our ability to utilize NOLs is dependant on our ability to generate sufficient future taxable income in the U.S.

We may be subject to claims of infringement of the intellectual property rights of others, which could hurt our business.

From time to time, we face infringement claims from our competitors or others alleging that our processes or products infringe on their proprietary technologies. Any claims that our products or processes infringe the intellectual property rights of others, regardless of the merit or resolution of the claims, could cause us to incur significant costs in responding to, defending and resolving the claims, and may divert the efforts and attention of our management and technical personnel from our business. If we are found to be infringing on the proprietary technology of others, we may be liable for damages, and we may be required to change our processes, redesign our products, pay others to use the technology or stop using the technology or producing the

infringing product. Even if we ultimately prevail, the existence of the lawsuit could prompt our customers to switch to products that are not the subject of infringement suits.

While Grace is in bankruptcy, we are not permitted to pay dividends on Grace common stock.

We are not permitted to pay dividends on Grace common stock while we are in bankruptcy. Following emergence from bankruptcy, we may be subject to covenants in connection with our financing arrangements that limit or prevent us from paying dividends for the foreseeable future. Furthermore, it is likely that following our emergence from bankruptcy, our board of directors will decide to reinvest our operating cash flow in our business rather than paying dividends. Accordingly, for the foreseeable future, investors in Grace common stock, in all likelihood, will obtain an economic benefit from their shares only by selling them.

INDUSTRY RISKS

Prices for raw materials and energy are volatile; we may not be able to pass through increases in costs and expenses for raw materials and energy which may hurt our profitability.

We use metals, significant amounts of natural gas and petroleum-based materials, including both specialty and commodity materials such as resins and solvents, in the manufacture of our products. We purchase metals, natural gas and petroleum-based products from third-parties and prices have increased dramatically in recent years. To the extent this trend continues and we are unable to pass through these price increases to our customers, our operating profit and results of operations may decline.

A substantial portion of our raw materials are commodities whose prices fluctuate as market supply/demand fundamentals change.

We attempt to manage exposure to price volatility of major commodities through:

- long-term supply contracts;
- contracts with customers that permit adjustments for changes in prices of commodity-based materials and energy;
- forward buying programs that layer in our expected requirements systematically over time; and

- limited use of contracts and financial instruments.

Although we regularly assess our exposure to raw material price volatility, we cannot always predict the prospects of volatility and we cannot always cover the risk in a cost effective manner.

We have a policy of maintaining, when available, multiple sources of supply for raw materials. However, some of our raw materials are provided by single sources of

supply. We may not be able to obtain sufficient raw materials due to unforeseen developments that would cause an interruption in supply. Even if we have multiple sources of supply for raw materials, these sources may not make up for the loss of a major supplier.

We spend large amounts of money for environmental compliance in connection with our current and former operations.

As a manufacturer of specialty chemicals and materials, we are subject to stringent regulations under numerous U.S. federal, state, local and foreign environmental, health and safety laws and regulations relating to the generation, storage, handling, discharge, disposition and stewardship of hazardous wastes and other materials. We have expended substantial funds to comply with such laws and regulations. Legislative, regulatory and economic uncertainties make it difficult for us to project future spending for these purposes, and if there is an acceleration in new regulatory requirements, we may be required to expend substantial additional funds to remain in compliance.

The length and depth of product and industry business cycles in our markets, particularly in the construction and petroleum refining industries, may result in periods of reduced sales, operating margins and operating losses.

Our GCP operating segment and the refining products portion of our Grace Davison operating segment are sensitive to the cyclical nature of their respective industries. Our hydroprocessing catalyst product line and other hydroprocessing catalyst suppliers have experienced alternating periods of inadequate capacity and excess capacity for their products. Periods of inadequate capacity, including some due to raw material shortages, have usually resulted in increased selling prices and operating margins. This has often been followed by periods of capacity additions, which have resulted in declining capacity utilization rates, selling prices and operating margins.

Some of our employees are unionized, represented by workers' councils or employed subject to local laws that are less favorable to employers than the laws of the United States.

As of December 31, 2007, we had approximately 6,500 employees worldwide. Approximately 29% of our 3,150 U.S. employees is unionized. In addition, a large number of our employees are employed in countries in which employment laws provide greater bargaining or other rights to employees than the laws of the United States. Such employment rights require us to work collaboratively with the legal representatives of the employees to effect any changes to labor arrangements. For example, most of our employees in Europe are represented by workers' councils that have co-determination rights on any changes in conditions of employment, including salaries and benefits and staff changes, and may impede efforts to restructure our workforce. Although we believe that we have a good working relationship with our employees, a strike, work stoppage or slowdown by our employees or significant dispute with our employees could result in a significant disruption of our operations or higher ongoing labor costs.

We work with dangerous materials that can injure our employees, damage our facilities and disrupt our operations.

Some of our operations involve the handling of hazardous materials that may pose the risk of fire, explosion, or the release of hazardous substances. Such events could result from terrorist attacks, natural disasters, or operational failures, and might cause injury or loss of life to our employees and others, environmental contamination, and property damage. These events might cause a temporary shutdown of an affected plant, or portion thereof, and we could be subject to penalties or claims as a result. A disruption of our operations caused by these or other events could have a material adverse effect on our results of operations.

Item 1B. UNRESOLVED STAFF COMMENTS

None.

Item 2. PROPERTIES

We operate manufacturing and other types of plants and facilities (including office, warehouse, and other service facilities) throughout the world. Some of these plants and facilities are shared by both of our operating segments. We own all of our major manufacturing facilities. Substantially all of our U.S. properties are subject to security interests under our debtor-in-possession borrowing facility. We consider our major operating properties to be in good operating condition and suitable for their current use. We believe that, after taking planned expansion into account, the productive capacity of our plants and other facilities is generally adequate for current operations and foreseeable growth.

Our Grace Davison operating segment operates out of 40 facilities in the following regions:

Region	Number of Facilities
North America	15
Europe	12
Latin America	2
Asia Pacific	11

Our largest Grace Davison facilities are located in Baltimore, Maryland; Lake Charles, Louisiana; and Worms, Germany. Our Grace Davison operating segment also operates sales offices and warehouses in various regions.

Our Grace Construction Products operating segment operates out of 55 facilities in the following regions:

Region	Number of Facilities
North America	23
Europe	13
Latin America	3
Asia Pacific	16

Our largest GCP facilities are located in Cambridge, Massachusetts; Chicago, Illinois; and Slough, England. Because of the nature of our GCP products, GCP requires a greater number of facilities to service our customers than Grace Davison. Also, these facilities are generally smaller and less capital intensive than our Grace Davison facilities. For information on our net properties and equipment by region and country, see disclosure set forth in Item 8 (Financial Statements and Supplementary Data) in the Financial Supplement under Note 20 (Operating Segment Information) to our Consolidated Financial Statements which disclosure is incorporated herein by reference.

Item 3. LEGAL PROCEEDINGS

CHAPTER 11 PROCEEDINGS

Disclosure provided in this Report in Item 1 (Business) under the caption Chapter 11 Filing and in Item 8 (Financial Statements and Supplementary Data) in the Financial Supplement under Note 1 (Basis of Presentation and Summary of Significant Accounting and Financial Reporting Policies), under the caption Voluntary Bankruptcy Filing, and Note 2 (Chapter 11 Related Information) to the Consolidated Financial Statements is incorporated herein by reference.

ASBESTOS LITIGATION

Disclosure provided in this Report in Item 8 (Financial Statements and Supplementary Data) in the Financial Supplement under Note 2 (Chapter 11 Related Information) and Note 3 (Asbestos-Related Litigation) to the Consolidated Financial Statements is incorporated herein by reference.

ENVIRONMENTAL INVESTIGATIONS, CLAIMS AND CIVIL PROCEEDINGS

Disclosure provided in this Report in Item 1 (Business) under the caption Environmental, Health and Safety Matters and Item 8 (Financial Statements and Supplementary Data) in the Financial Supplement under Note 15 (Commitments and Contingent Liabilities), under the caption Environmental Remediation, to the Consolidated Financial Statements is incorporated herein by reference.

The EPA also has compiled for investigation a list of 245 facilities that at one time used, stored, or expanded vermiculite concentrate that originated from the Libby vermiculite mine. Included in this list are 50 vermiculite expansion plants that Grace currently operates or formerly operated. The EPA has listed 17 of these 50 sites as requiring additional action. Grace has conducted corrective actions or investigations at six of these sites. The EPA filed proofs of claims for 9 of these sites (not including Minneapolis, MN and Libby, MT), and for three other sites never owned or operated by Grace.

In addition, another governmental agency commenced a separate investigation at 28 of the 245 facilities, 23 of which Grace currently operates or formerly operated. During 2006 and 2007, health screenings for current and former Grace employees and their household contacts commenced at four of these locations at a cost of approximately \$3.4 million (including indirect costs). Grace's December 31, 2007 recorded environmental liability included this amount. Grace does not have sufficient information to determine whether this separate investigation is likely to result in any additional liability.

In February 2000, a purported class action lawsuit was filed in the U.S. District Court for Montana, Missoula Division (*Tennison, et al. v. W. R. Grace & Co., et al.*) against Grace on behalf of all owners of improved private real property situated within 12 miles of Libby, Montana. The action alleges that the class members have suffered harm in the form of environmental contamination and loss of property rights resulting from Grace's former vermiculite mining and processing operations. The complaint seeks remediation, property damages, and punitive damages. This case has been stayed as a result of the Chapter 11 filing. However, as described in this Report in Item 8 (Financial Statements and Supplementary Data) under Note 15 (Commitments and Contingent Liabilities) under the caption "Vermiculite Related Matters - EPA Cost Recovery Claim", the EPA has been conducting remediation activities in and around Libby, which include the remediation of private real property.

In October 2000, a purported class action lawsuit was filed in the U.S. District Court for the District of Minnesota, 4th Division (*Chase v. W. R. Grace & Co.-Conn.*) alleging loss of property values in the vicinity of the former Grace plant in Minneapolis, Minnesota that processed vermiculite from the Libby mine. This case has been stayed as a result of the Chapter 11 filing.

The EPA has completed a program for removing suspected vermiculite processing by-products from the former Minneapolis vermiculite expansion plant, from the yards and driveways of properties near the former plant, and from a municipal park. The Multi-Site Settlement Agreement, discussed below, includes all work completed by EPA in the Minneapolis area involving these properties.

The EPA has designated Grace (together, in most cases, with many other companies) as a potentially responsible party, or PRP, with respect to paying the costs of investigating and remediating pollution at various sites. As of December 31, 2007, proceedings were pending with respect to approximately 20 sites as to which Grace has

been designated a PRP by the EPA. U.S. law provides that all PRPs for a site may be held jointly and severally liable for the costs of investigating and remediating the site. Grace is also conducting investigatory and remediation activities at sites under the jurisdiction of state and/or local authorities. During the Chapter 11 proceeding, Grace has not been participating (except in a limited number of special cases) in the joint funding of investigation and remediation at non-owned sites where Grace is a PRP.

During the last quarter of 2007, Grace filed a motion with the Bankruptcy Court for approval of a Multi-Site Settlement Agreement that Grace has executed with the U.S. Government, on behalf of EPA and other federal agencies, with respect to 38 sites. Under this agreement, Grace would pay approximately \$44 million to the U.S. Government and other parties in settlement of 35 of these sites. In return, the U.S. Government would agree not to take action against Grace under the Comprehensive Environmental Response, Compensation, and Liability Act with respect to such sites. Grace intends to separately fund or carry out remediation at the three remaining sites, including remediation relating to Grace's former vermiculite mining site in Libby, Montana.

MONTANA CRIMINAL PROCEEDING

Disclosure provided in this Report in Item 8 (Financial Statements and Supplementary Data) in the Financial Supplement under Note 15 (Commitments and Contingent Liabilities), under the caption "Vermiculite Related Matters - Montana Criminal Proceeding," to the Consolidated Financial Statements is incorporated herein by reference.

LITIGATION RELATED TO FORMER PACKAGING AND MEDICAL CARE BUSINESSES

Disclosure provided in this Report in Item 8 (Financial Statements and Supplementary Data) in the Financial Supplement under Note 2 (Chapter 11 - Related Information), under the caption "Litigation Proceedings in Bankruptcy Court," to the Consolidated Financial Statements is incorporated herein by reference.

TAX CLAIMS

Disclosure provided in this Report in Item 8 (Financial Statements and Supplementary Data) in the Financial Supplement under Note 4 (Income Taxes) to the Consolidated Financial Statements is incorporated herein by reference.

ERISA LAWSUITS

In June 2004, a purported class action complaint (*Evans v. Akers et al.*) was filed in U.S. District Court for the District of Massachusetts against the Board of Directors, certain current and former Grace officers and employees, and others, relating to the Grace 401(k) Savings and Investment Plan, also known as the S&I Plan. The *Evans* complaint alleges that the decline in the price of Grace common stock from July 1999

through February 2004 resulted in significant losses to S&I Plan participants. The *Evans* complaint further alleges that the defendants breached their fiduciary duties under the Employee Retirement Income Security Act of 1974, as amended, or ERISA, by failing to sell or take other appropriate action with regard to Grace common stock held by the S&I Plan during that period, and by failing to disclose to S&I Plan participants the risk of investing in Grace common stock. The *Evans* complaint seeks compensatory damages for the S&I Plan from the defendants.

In October 2004, a purported class action complaint (*Bunch et al. v. W. R. Grace & Co. et al.*), also related to the S&I Plan, was filed in the U.S. District Court for the Eastern District of Kentucky against Grace, the Grace Investment and Benefits Committee, the Board of Directors, certain current and former Grace officers and employees, and others. The complaint alleges that Grace and its investment advisors breached fiduciary duties under ERISA by selling Grace common stock from the S&I Plan at a distressed price. The complaint further alleges that Grace breached fiduciary duties under ERISA by hiring State Street Bank and Trust Company, the investment manager for the S&I Plan that Grace retained in December 2003, to rapidly liquidate all of the employees' Grace common stock investment at an artificially low sales price.

In 2005, the Kentucky District Court transferred the *Bunch* action to the Massachusetts District Court and that court consolidated into one case both the *Bunch* action and the *Evans* action.

In December 2006, the Massachusetts District Court dismissed the *Evans* claims, on grounds that the *Evans* plaintiffs lacked standing to bring suit. The *Evans* plaintiffs petitioned the U.S. Court of Appeals for the First Circuit to reverse the District Court's dismissal of their claims and on February 7, 2008, the First Circuit heard oral argument regarding their appeal.

On January 30, 2008, the court ruled in favor of the defendants on the *Bunch* action, holding that State Street and Grace did not breach their fiduciary duties under ERISA. On February 13, 2008, the *Bunch* plaintiffs appealed the Massachusetts District Court's decision to the First Circuit. That appeal is pending.

On February 6, 2008, a purported class action complaint (*Siamis v Akers et al.*) was filed in the Massachusetts District Court by the plaintiff's counsel in the *Evans* action but with a different plaintiff. The *Siamis* complaint asserts the same claims previously asserted in the *Evans* complaint.

Grace expects that it would have an obligation to indemnify the other defendants for any liability resulting from this litigation. Grace has \$50 million of employers' fiduciary liability insurance coverage that Grace believes would be available to pay liabilities arising out of these lawsuits. Since all Grace employees who had interests in the S&I Plan during the relevant periods are members of the purported class and Messrs. Corcoran, McGowan, Norris, Poling, Shelnitz and Tarola had interests in the S&I Plan during these periods, they have interests in this litigation that may be adverse to Grace.

OTHER CLAIMS RECEIVED PRIOR TO THE CHAPTER 11 BAR DATE

Edgar Filing: W R GRACE & CO - Form 10-K

Disclosure provided in this Report in Item 8 (Financial Statements and Supplementary Data) in the Financial Supplement under Note 2 (Chapter 11 Related Information) under the caption Claims Filings to the Consolidated Financial Statements is incorporated herein by reference.

Item 4. **SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS**

This Item is inapplicable, as no matters were submitted to a vote of our security holders during the fourth quarter of 2007.

PART II

Item 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED SHAREHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Except as provided below, the disclosure required by this Item appears in the Financial Supplement, under the heading "Selected Financial Data" opposite the caption "Other Statistics - Common shareholders of record," and in this Report in Item 8 (Financial Statements and Supplementary Data) in the Financial Supplement in Note 16 (Shareholders' Equity (Deficit)) and Note 22 (Quarterly Summary and Statistical Information (Unaudited)), opposite the caption "Market price of common stock," to the Consolidated Financial Statements and is incorporated herein by reference.

On March 31, 1998, we paid a dividend of one Preferred Stock Purchase Right on each share of Grace common stock. Subject to our prior redemption for \$.01 per right, rights will become exercisable on the earlier of:

- 10 days after an acquiring person, comprised of an individual or group, has acquired beneficial ownership of 20% or more of the outstanding Grace common stock or
- 10 business days (or a later date fixed by the Board of Directors) after an acquiring person commences (or announces the intention to commence) a tender offer or exchange offer for beneficial ownership of 20% or more of the outstanding Grace common stock.

Until these events occur, the rights will automatically trade with the Grace common stock, and separate certificates for the rights will not be distributed. The rights do not have voting or dividend rights.

Generally, each right not owned by an acquiring person:

- will initially entitle the holder to buy from Grace one hundredth of a share of the Grace Junior Participating Preferred Stock, at an exercise price of \$100, subject to adjustment;
- will entitle such holder to receive upon exercise, in lieu of shares of Grace junior preferred stock, that number of shares of Grace common stock having a market value of two times the exercise price of the right; and
- may be exchanged by Grace for one share of Grace common stock or one hundredth of a share of Grace junior preferred stock, subject to adjustment.

Edgar Filing: W R GRACE & CO - Form 10-K

Generally, if there is an acquiring person and we are acquired, each right not owned by an acquiring person will entitle the holder to buy a number of shares of common stock of the acquiring company having a market value equal to twice the exercise price of the right.

Each share of Grace junior preferred stock will be entitled to a minimum preferential quarterly dividend payment of \$1.00 per share but will be entitled to an aggregate

dividend equal to 100 times the dividend declared per share of Grace common stock whenever such dividend is declared. In the event of liquidation, holders of Grace junior preferred stock will be entitled to a minimum preferential liquidation payment of \$100 per share but will be entitled to an aggregate payment equal to 100 times the payment made per share of Grace common stock. Each share of Grace junior preferred stock will have 100 votes, voting together with the Grace common stock. Finally, in the event of any business combination, each share of Grace junior preferred stock will be entitled to receive an amount equal to 100 times the amount received per share of Grace common stock. These rights are protected by customary antidilution provisions.

The terms of the rights may be amended by the Board of Directors without the consent of the holders of the rights. The rights, which will remain outstanding under the proposed plan of reorganization, are currently scheduled to expire on March 31, 2008. Prior to expiration of the rights, Grace intends to amend the terms of the rights to extend the expiration date of the rights to March 31, 2018.

This summary of the rights does not purport to be complete and is qualified in its entirety by reference to the Rights Agreement, which has been filed with the SEC.

Item 6. SELECTED FINANCIAL DATA

The disclosure required by this Item appears in the Financial Supplement under the heading Selected Financial Data which disclosure is incorporated herein by reference.

Item 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The disclosure required by this Item appears in the Financial Supplement under the heading Management's Discussion and Analysis of Financial Condition and Results of Operations which disclosure is incorporated herein by reference.

Item 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The disclosure required by this Item appears in the Financial Supplement under the heading Management's Discussion and Analysis of Financial Condition and Results of Operations Market Risk which disclosure is incorporated herein by reference.

Item 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The disclosure required by this Item appears in the Financial Supplement which disclosure is incorporated herein by reference.

Item 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

Item 9A. CONTROLS AND PROCEDURES

Except as provided below, the disclosure required by this Item appears in the Financial Supplement under the heading "Management's Report on Financial Information and Internal Controls" which disclosure is incorporated herein by reference.

There was no change in Grace's internal control over financial reporting during the quarter ended December 31, 2007 that has materially affected, or is reasonably likely to materially affect, Grace's internal control over financial reporting.

Item 9B. OTHER INFORMATION

None.

PART III**Item 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE**

Our current directors and executive officers are listed below. Our Certificate of Incorporation provides for the division of the Board of Directors into three classes, each to serve for a three-year term or until their respective successors are elected. In view of the Chapter 11 filing, the directors are continuing to serve beyond the expiration of their respective terms. Executive officers are elected to serve until the next annual meeting of the Board of Directors or until their respective successors are elected.

Name and Age	Office	First Elected
John F. Akers (73)	Class II Director	5/09/97
H. Furlong Baldwin (76)	Class I Director	1/16/02
Ronald C. Cambre (69)	Class III Director	9/01/98
Alfred E. Festa (48)	Class II Director	9/08/04
	Chairman of the Board	1/1/08
	President and Chief Executive Officer	6/01/05
Marye Anne Fox (60)	Class I Director	5/10/96
John J. Murphy (76)	Class II Director	5/09/97
Paul J. Norris (60)	Class III Director	1/01/99
Christopher J. Steffen (66)	Class I Director	11/01/06
Mark E. Tomkins (52)	Class III Director	9/06/06
Thomas A. Vanderslice (76)	Class I Director and Lead Independent Director	5/10/96
D. Andrew Bonham (47)	Vice President & President, Grace Construction Products	9/11/07
William M. Corcoran (58)	Vice President, Public and Regulatory Affairs	6/01/99
W. Brian McGowan (58)	Senior Vice President, Administration	7/09/98
Gregory E. Poling (52)	Vice President & President, Grace Davison	3/03/05
Mark A. Shelnitz (49)	Vice President, General Counsel & Secretary	4/27/05
Robert M. Tarola (57)	Senior Vice President & Chief Financial Officer	5/11/99

Mr. Akers served as Chairman of the Board and Chief Executive Officer of International Business Machines Corporation from 1985 until his retirement in 1993. He is also a director of Lehman Brothers Holdings, Inc.

Mr. Baldwin served as a director of Mercantile Bankshares Corporation from 1970 to 2003, as Chairman of the Board from 1984 to 2003 and as President and Chief Executive Officer from 1976 to 2001. Mr. Baldwin is Chairman of NASDAQ Stock Market, Inc., and is a director of Platinum Underwriters Holdings, Ltd. and Allegheny Energy Inc.

Mr. Cambre is retired Chairman of the Board and CEO of Newmont Mining Corporation. He joined Newmont as Vice Chairman and CEO in 1993 and retired as CEO in 2000 and as Chairman in 2001. He is also a director of Cleveland-Cliffs Inc. and McDermott International, Inc.

Mr. Festa joined Grace in 2003 and served as President and Chief Operating Officer until he became Chief Executive Officer in 2005 and Chairman in January 2008. Prior to joining Grace, Mr. Festa was a partner of Morgenthaler Private Equity Partners, a venture capital and buyout firm from 2002 to 2003. From 2000 to 2002, he was with ICG Commerce, Inc., a private company providing on-line procurement services, where he last served as President and Chief Executive Officer. For two years prior to that, he served as Vice President and General Manager of AlliedSignal's performance fibers business.

Dr. Fox has been Chancellor of the University of California San Diego and Distinguished Professor of Chemistry at that institution since 2004. She was Chancellor of North Carolina State University from 1998 to 2004. She is also a director of Boston Scientific Corporation and Red Hat, Inc.

Mr. Murphy served as Chairman of the Board of Dresser Industries, Inc., a supplier of products and technical services to the energy industry, until 1996. From 1997 to 2000, he was a Managing Director of SMG Management L.L.C., a privately owned investment group. Mr. Murphy is also a director of Coastal Energy Company.

Mr. Norris was actively engaged in Grace's business from 1998 until his retirement as Chief Executive Officer in 2005. Since his retirement, Mr. Norris has provided consulting services to Grace. He is also a director of FMC Corporation and Sealy Corp. He performs advisory services for Kohlberg Kravis Roberts & Co., currently the majority shareholder of Sealy Corp.

Mr. Steffen most recently served as Vice Chairman of Citicorp and its principal subsidiary, Citibank N.A. Since his retirement in 1996, he has been a consultant to a number of companies and public accounting firms and served on committees advising the Financial Accounting Standards Board. Mr. Steffen is also a director of Accelrys, Inc., ViaSystems, Inc. and several private companies in which he has an ownership stake.

Mr. Tomkins is currently serving as interim CFO for Renewable Chemicals Corporation, a privately held manufacturer of bio intermediates for replacement of petroleum products in certain chemical compounds. He served as Senior Vice President and Chief Financial Officer of Innovene, a petrochemical and oil refining

company that is now part of the INEOS Group, from 2005 until January 2006. He served as CFO of Vulcan Materials Company from 2001 to 2005. Mr. Tomkins is a member of the Board of Directors of CVR Energy, Inc., a publicly held oil refining company.

Mr. Vanderslice served as Chairman and Chief Executive Officer of M/A-COM, Inc., a designer and manufacturer of radio frequency and microwave components, devices and subsystems for commercial and defense applications, from 1989 until 1995. He is currently a private investor. As Lead Independent Director, Mr. Vanderslice presides at all executive sessions of the Board.

Messrs. Corcoran, McGowan, Poling, Shelnitz and Tarola have been actively engaged in Grace's business for the past five years. Mr. Tarola is a director of 14 registered mutual funds sponsored by Legg Mason, Inc. Mr. Poling is a director of Foamex International, Inc.

Mr. Bonham joined Grace in 2005 as vice president and general manager of Grace Construction Products' European operations. Prior to joining Grace, he was president and general manager, from 2004 to 2005, and vice president and general manager, from 2002 to 2004, of Invensys Controls Americas. Before joining Invensys Controls, he held positions of increasing responsibility at General Electric and Honeywell.

Audit Committee

We have a standing Audit Committee established in accordance with the provisions of the Securities Exchange Act of 1934, as amended. The Committee members are John F. Akers, H. Furlong Baldwin, Ronald C. Cambre, Marye Anne Fox, John J. Murphy, Christopher J. Steffen, Mark E. Tomkins and Thomas A. Vanderslice, each of whom meets the independence standards of the SEC and New York Stock Exchange. Mr. Murphy serves as Chair of the Audit Committee. The Board of Directors has determined that all Audit Committee members are audit committee financial experts as defined by SEC regulations. A complete description of the responsibilities of the Audit Committee is set forth in the Grace Audit Committee Charter which is available on the Internet at www.grace.com/About/Leadership/Governance/.

Other Committees

We have standing Nominating and Governance, Compensation and Corporate Responsibility Committees. The members of each of these committees are John F. Akers, H. Furlong Baldwin, Ronald C. Cambre, Marye Anne Fox, John J. Murphy, Christopher J. Steffen, Mark E. Tomkins and Thomas A. Vanderslice, each of whom meets the independence standards of the New York Stock Exchange. Mr. Vanderslice serves as Chair of the Nominating and Governance Committee, Mr. Akers serves as Chair of the Compensation Committee and Dr. Fox serves as Chair of the Corporate Responsibility Committee. A complete description of the responsibilities of the Board committees is set forth in their respective committee charters which are available on the Internet at www.grace.com/About/Leadership/Governance/.

Section 16(a) Beneficial Ownership Reporting Compliance

Under Section 16 of the Securities Exchange Act of 1934, as amended, our directors, certain of our officers, and beneficial owners of more than 10% of the outstanding Grace common stock are required to file reports with the SEC concerning their ownership of and transactions in Grace common stock or other Grace securities; these persons are also required to furnish us with copies of these reports. Based upon the reports and related information furnished to us, we believe that all such filing requirements were complied with in a timely manner during and with respect to 2007.

Code of Ethics for Principal Officers

The Board of Directors and the Audit Committee have adopted Business Ethics and Conflicts of Interest policies, which apply to all of our directors, officers, and employees, including our principal officers. These policies are accessible through our Internet website, www.grace.com/About/Leadership/Governance/, and are available in hard copy, free of charge, by contacting Grace Shareholder Services at 410-531-4167. We granted no waivers to these policies during 2007. We intend to promptly post on our website any amendments or waivers to these policies affecting any principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions.

Item 11. EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Overview

The Board of Directors has designated seven Grace officers (including the executive officers named in the Summary Compensation Table) as executive officers. The executive officers include the Chief Executive Officer (CEO), Chief Financial Officer and vice presidents who are in charge of operating segments or principal functions or who have policy-making authority for Grace. The Board of Directors has delegated authority for administering the compensation program for executive officers and other members of senior management to the Compensation Committee. The Board has appointed all of the independent members of the Board to serve as members of the Compensation Committee.

A complete description of the responsibilities of the Compensation Committee is set forth in the Grace Compensation Committee Charter which is available on the Internet at www.grace.com/About/Leadership/Governance/. The Compensation Committee and the Board review and revise the charter as necessary. In this Compensation Discussion and Analysis, unless the context otherwise requires, the terms we, our and the committee refer to the Compensation Committee.

We, the committee, are responsible for reviewing and approving all executive officers' compensation, including:

- base salary;
- annual incentive compensation;
- long-term incentive compensation;
- employment agreements;
- severance arrangements;
- change-in-control agreements; and
- any special or supplemental benefits.

We also review and approve all corporate goals and objectives used in determining the compensation of each executive officer. We evaluate each executive officer's performance in light of those goals and objectives and we approve each executive officer's compensation based on this evaluation. In determining the long-term incentive component of an executive officer's compensation, we consider the value of similar incentive awards to executive officers with similar titles at comparable companies and the awards given to the executive officer in previous years. We also approve the annual and long-term incentive programs applicable to other salaried personnel in which the executive officers participate.

We receive advice and legal and administrative assistance from the Grace human resources department and legal services group in meeting our responsibilities. We also have authority to retain advisors from outside of Grace. During 2007, we used the services of Watson Wyatt Worldwide, a human resources consulting firm, and we expect to continue working with Watson Wyatt during 2008. We instructed Watson Wyatt to compile competitive compensation data and, based upon such data, to recommend ranges of annual and long-term compensation that are consistent with our compensation philosophy and objectives as discussed below. We also asked Watson Wyatt to provide suggestions and alternatives regarding the form of various elements of executive compensation. We expect Watson Wyatt and Grace executive officers, including the CEO, General Counsel and Senior Vice President of Administration, and their respective subordinates, to meet, exchange information and otherwise cooperate in the performance of their respective duties outside committee meetings. Watson Wyatt also provides consulting services to Grace in connection with its employee benefit plans.

Executive Compensation Philosophy and Objectives

General

The key objective of the Grace executive compensation program is to enable Grace to compete effectively with other firms in attracting, motivating and retaining the executives that Grace needs to ensure its future growth and business success. We intend the incentive compensation portion of the program to align closely the financial interests of Grace executives with those of Grace's stakeholders (including creditors, security holders and others with an interest in the Chapter 11 proceedings). Because senior

executives have a substantial ability to influence business success, we believe that the portion of compensation that is at-risk based on corporate performance should increase as the level of responsibility of the executive increases. We also expect the executive compensation programs to be consistent with a culture of ethical conduct, personal integrity and compliance with Grace policies and applicable law. We require executives to set an example for employees and other Grace business associates in emphasizing the Grace Core Values in their daily business conduct. The Grace Core Values consist of a commitment to teamwork, performance, integrity, speed and innovation, and are the foundation of the Grace corporate culture.

The program is designed to reward executives for the achievement of corporate goals and objectives, taking into account both individual performance and contributions to the success of the overall management team. The individual performance evaluation is based on our assessment of an executive officer's leadership, technical skill, management and operational performance, and potential to contribute to Grace's future success. In evaluating executive officers other than the CEO, we receive substantial input from the CEO. The CEO proposes compensation levels for the other executive officers and, although not a member of the committee, attends our meetings and participates in our deliberations regarding compensation levels for the other executive officers, but is excused from deliberations regarding his own compensation and executive sessions. Although we have not received such a request, at the request of the CEO, we would very likely hold a special meeting of the committee.

Once we have completed an evaluation of an executive's overall performance, we review the executive's existing compensation and compensation potentially payable to the executive. An executive's outstanding equity-based awards are not considered in setting future compensation. We then consult with Watson Wyatt for an assessment of the competitiveness of Grace executive officer compensation relative to certain benchmark companies in the chemicals, materials and specialty chemicals industry, that we deem our peer group and relative to certain broad industry data. We selected the benchmark companies as our peer group based upon our judgment regarding the likelihood that they would compete with us for executive talent and the availability of public information regarding their compensation practices. We periodically review the composition of the peer group to ensure that it remains relevant. For 2007, the peer group consisted of:

Albemarle	Hercules
Cabot	International Flavors & Fragrances
Eastman Chemical	PPG Industries
EcoLab	Rohm & Haas
Fuller (H.B.)	Sigma-Aldrich

The broad industry data that we generally review is included in studies produced by Mercer, Towers Perrin, Hewitt and Watson Wyatt for any given compensation year. The chemicals and non-durable goods sections of such surveys were used, in each case, appropriately scoped to reflect Grace's revenues. This data is used as a secondary reference for executive officer compensation, largely as a check on the peer group levels, as well as to determine if there are any identifiable non-industry trends in compensation.

We intend that the annual compensation paid to Grace executives (consisting of salary plus annual incentive compensation) fall within a range that approximates the 50th percentile, and that long-term incentive compensation fall within a range that approximates the 60th percentile, of the practices of the peer group companies and broad industry data when performance objectives are achieved. We selected these percentile targets because they are generally consistent with the historical practices of the peer group. In applying these targets, we do not base our decision on a mathematical analysis of the available data; rather, we use our judgment after considering all available information. If performance objectives are exceeded, we believe that incentive compensation should be above these levels, and when performance objectives are not achieved, incentive compensation should be below these levels. The bias toward incentive compensation reflected in these percentages is in keeping with our intention to align executive and stakeholder interests.

Since Grace's Chapter 11 filing, we have not included Grace common stock and stock options in the executive compensation program. Accordingly, Grace incentive compensation programs are currently 100% cash-based, although equity incentives awarded prior to 2002 remain outstanding. We have requested that the Corporate Secretary inform the committee if an executive officer wishes to enter into any transaction involving Grace equity securities. Following Grace's emergence from Chapter 11, we will consider including equity incentives in the executive compensation program.

We believe that income before interest and taxes is generally the best indicator of the performance of the Grace business for incentive compensation purposes. Income before interest and taxes includes the factors that the executive team generally has the ability to affect and excludes the cost of capital and tax rates that we believe are generally unrelated to business performance or management control. However, this income measure is significantly affected by other factors that Grace executives are generally unable to influence such as the substantial costs of the Chapter 11 proceedings, legacy liabilities, income from insurance settlements and pension income and expense. As a result, our performance metric for incentive compensation purposes is pre-tax income from core operations (calculated as described in Management's Discussion and Analysis of Financial Condition and Results of Operations Summary Financial Information and Metrics in the financial supplement) adjusted to eliminate the effect of: certain unusual or one-time events; changes in pension expense (related to core operations) and Long Term Incentive Program, or LTIP, expense from year to year; and, for the LTIP, the effect of major acquisitions or divestments. We generally refer to this performance metric as pre-tax income from core operations as adjusted. Grace core operations are comprised of the financial results of Grace Davison, Grace Construction Products, and the costs of corporate activities that directly or indirectly support their business operations. Excluded from pre-tax income from core operations and pre-tax income from core operations as adjusted are all other events and transactions not directly related to the generation of operating revenue or the support of our core operations.

Chief Executive Officer

Our process for determining the compensation of the CEO is similar to the process we apply to other executive officers. We review and approve corporate goals and objectives used in determining the compensation of the CEO. We evaluate the CEO's performance in light of those goals and objectives and have sole authority to determine the CEO's compensation based on this evaluation subject to the terms of his employment agreement, that are discussed below in this Compensation Discussion and Analysis and under the Summary Compensation Table and Potential Payments Upon Termination or Change-In-Control Table. The CEO plays no part in our deliberations or approval of his compensation.

We believe the CEO's compensation should be substantially higher than the compensation of other executive officers because the CEO is uniquely positioned to influence all aspects of Grace's operations and performance and the resulting return to our stakeholders. In addition, we believe there exists a robust competition for effective CEO talent among companies the size of Grace and, in this environment, a competitive compensation package is essential for retention. Our view is consistent with the practices of the peer group companies and the broad industry data that we have reviewed.

Base Salary

To ensure comparability with other companies, as well as consistency and uniformity within Grace, all management positions have been assigned to salary ranges based upon broad industry data. Individual salaries and salary increases for executive officers are set within the salary ranges based on the median annual base salaries paid to individuals who hold comparable positions at the peer group companies, salary levels of peers and subordinates within Grace, individual performance and the amount budgeted for salary increases. Although these factors apply to Mr. Festa his base salary is also subject to the terms of his employment agreement. Grace executives are generally eligible for annual salary reviews.

For 2007, Grace established a guideline for base salary merit increases applicable to all Grace U.S. salaried employees of 3.7%. Grace determined the amount of the guideline based on a review of projected wage increases in the U.S. chemical industry and certain additional data applicable to the geographic regions in which Grace has its major operations. Base salary merit increases for the Grace executive officers listed below in the Summary Compensation Table, referred to herein as named executive officers, other than Mr. Festa, were generally in line with those of other salaried employees, ranging from 3.3% to 8.7%. We increased Mr. Festa's base salary by 11.1% to reflect our view of his individual contribution to the performance of Grace during 2006 and 2007.

Annual Incentive Compensation

The Annual Incentive Compensation Program, or AICP, is a cash-based pay-for-performance incentive program. Its purpose is to motivate and reward executive officers, and other upper- and middle-level employees, for their contributions to Grace

performance and align their financial interests with those of Grace stakeholders by making a significant portion of their annual compensation variable and dependent upon Grace's annual financial performance. The amount of an individual incentive award payment under the AICP is based upon:

- the individual's annual incentive target amount;
- the change in Grace pre-tax earnings from core operations as adjusted; and
- the individual's personal performance.

The AICP targets for the named executive officers (other than Mr. Festa) for 2007 range from 65% to 80% of base salary and actual awards may range from \$-0- to an amount equal to twice the target amount, based on business and individual performance. The AICP targets for executive officers are generally set within the target range based on the median annual bonus paid to individuals who hold comparable positions at the peer group companies. Although these factors also apply to Mr. Festa, his AICP target is also subject to the terms of his employment agreement, which requires a minimum AICP target of 100% of base salary. For 2007, Mr. Festa's AICP target is 100% of base salary.

For 2007, the target performance objective was an 8% increase, and the maximum compensable performance objective was a 35% increase, in pre-tax earnings from core operations as adjusted over pre-tax earnings from core operations for 2006. The target performance objective reflects our collective view of good performance by Grace based upon Grace's historical performance and the long-term historical performance of the peer group. Generally, no awards are earned for any year if pre-tax earnings from core operations as adjusted is less than 80% of the prior year's pre-tax earnings from core operations; provided however, that we have discretion to establish or increase the size of the incentive pool even if performance measures are not achieved. We usually make AICP awards during the first quarter for the current compensation year.

Based on 2007 operating performance, the aggregate AICP incentive pool was established at 127.0% of the targeted awards. Mr. Festa's 2007 AICP award payment (159% of his target award) reflects his individual contribution to the performance of Grace for the year in the judgment of the committee. Mr. Tarola's 2007 AICP award payment was generally in line with the incentive pool. Mr. Poling's 2007 AICP award payment (155% of his target award) reflects the increased responsibility he assumed during the year with the transfer of the Darex product line to Grace Davison as well as his individual contribution to the performance of Grace for the year in the judgment of the committee. Mr. Bonham's 2007 AICP award payment (176% of his target award) reflects the increased responsibility he assumed as a result of his promotion to President, Grace Construction Products as well as his individual contribution to the performance of Grace for the year in the judgment of the committee. Mr. Shelnitz's 2007 AICP award payment (153% of his target award) reflects the committee's view of his individual performance within the context of Grace's challenging legal environment.

Long-Term Incentive Compensation

The LTIPs are cash-based incentive programs. Their purpose is to motivate and reward approximately 225 upper-level Grace employees, including the executive officers, for their contributions to Grace performance over a multi-year period and align their financial interests with those of Grace stakeholders by making a significant portion of their total compensation variable and dependent upon Grace's sustained financial

Edgar Filing: W R GRACE & CO - Form 10-K

performance. The LTIP target opportunities for these employees are based on the 60th percentile of long-term compensation opportunities of individuals who hold comparable positions at the peer group companies (in the case of the executive officers) and broad industry data for other participants. Due to our Chapter 11

status, we view the cash-based LTIP as a substitute for the equity incentive programs that other public companies generally make available to their senior executives.

The Bankruptcy Court has approved the LTIPs for each of the 2005-2007, 2006-2008 and 2007-2009 performance periods. Awards under these LTIPs are payable 100% in cash, based on the extent to which Grace achieves certain performance targets. These LTIP payouts are based on the compound annual growth in our pre-tax income from core operations as adjusted over the performance period using results for the year prior to the first year of the performance period as the baseline. We generally refer to this growth objective as a CAGR. For these LTIPs, the CAGR objective is 6% and the maximum compensable CAGR objective is 25%. The CAGR objective reflects our collective view of good performance by Grace based upon Grace's historical performance and the long-term historical performance of the peer group. The LTIP target is lower than the AICP target because the LTIPs are designed to incentivize sustained growth over a long-term period, which we believe is generally more difficult to achieve than annual performance targets. The LTIP award payouts may range from \$-0- to an amount equal to twice the target amount, based on Grace's operating performance. No award payouts are earned under these LTIPs if the CAGR for the performance period is zero or negative.

During 2007, we reviewed the LTIP awards for our named executive officers, other than Mr. Festa, and determined that the outstanding LTIP awards for previous years were significantly below the 60th percentile of the practices of the peer group companies and broad industry data. In order to more closely align the long-term compensation of the named executive officers with the long-term compensation of similar executives at the peer group companies and broad industry data, we made additional awards to the named executive officers, other than Mr. Festa, under the 2005 and 2006 LTIPs.

We believe that the LTIP awards encourage executive retention because the right to any pending payment under an LTIP is generally subject to forfeiture if the executive ceases employment with us prior to age 62. We generally grant LTIP awards during the first year of the performance period.

Pension Plan/Supplemental Executive Retirement Plan

As described below under Pension Benefits, payments under Grace's tax-qualified pension plan are calculated using annual compensation, including base salary and AICP awards, and years of credited Grace service. We believe that retirement compensation that increases with increases in years of service and annual compensation is an effective recruiting and retention tool for our employees, including our executive officers. For 2007, federal income tax law limits to \$225,000 the annual compensation on which benefits under the tax-qualified pension plan may be based. As a result, we have implemented a Supplemental Executive Retirement Plan, generally referred to as a SERP, that currently applies to approximately 70 upper-level employees, including the executive officers, whose annual compensation exceeds that amount, under which each such employee will receive the full pension to which that employee would be entitled in the absence of the limitations described above and other limitations imposed under federal income tax law. The SERP is unfunded and is not qualified for tax purposes.

Savings and Investment Plan/Replacement Payment Program

We generally offer a tax-qualified 401(k)-type Savings and Investment Plan, or S&I Plan, to employees under which they may save a portion of their annual compensation in investment accounts on a pre- or post- tax basis. Grace currently matches 100% of employee savings under the plan up to six percent of the employee's base salary and annual incentive compensation. We believe that a 401(k)-type plan with a substantial company match that increases (in dollar amount, not percentage of compensation) with the level of participation in the plan and increases in the employee's annual compensation is an effective recruiting and retention tool for our employees, including our executive officers. For 2007, federal income tax law limits the total contributions, which include an employee's contribution plus the employer's matching contributions, that can be made to an employee's 401(k) plan account to \$45,000 and qualifying annual compensation for 401(k) plan purposes to \$225,000. As a result, we have implemented an S&I Plan Replacement Payment Program that currently applies to approximately 75 of our employees, including our executive officers, whose annual compensation exceeds \$225,000 under which each such employee will receive the full Grace matching payments to which that employee would be entitled in the absence of the limitations described above and other limitations imposed under federal income tax law.

Executive Personal Benefits

We believe that executives generally should not be treated differently than the general employee population when it comes to personal benefits and therefore, we have limited executive personal benefits. During 2007, these personal benefits for the named executive officers were generally limited to financial counseling and tax preparation services limited to no more than \$10,000 for Mr. Festa and \$4,000 for the other named executive officers. We eliminated this personal benefit during 2007. Mr. Festa has access to corporate aircraft at Grace expense for reasonable personal travel. Due to his overseas assignment in Belgium, Mr. Bonham receives certain expatriate benefits that are generally available to Grace executives that are U.S. citizens stationed abroad. We intend that these benefits compensate Grace's expatriate executives for the additional economic costs they face as a result of their foreign service including housing costs, higher cost of living, family leave in the U.S., local transportation expenses, children's tuition, foreign income taxes and increases in U.S. taxes caused by such benefits.

Change-In-Control Severance Agreements

As described below under Change-In-Control Severance Agreements, Grace has entered into change-in-control severance agreements with each of the named executive officers. The provisions in these agreements are based on competitive practice and are designed to ensure that the executive officers' interests remain aligned with the interests of the Grace stakeholders if a potential change in control occurs. Payments under these agreements are triggered by the involuntary termination of the executive officer's employment without cause (including constructive termination)

caused by a material reduction in his or her authority or responsibility or by certain other circumstances) following a change in control. A change in control situation often undermines an executive officer's job security, and it is to Grace's and its stakeholders' benefit to encourage the Grace executive officers to seek out beneficial transactions and to remain employed through the closing of any transaction, even though their future employment at Grace may be uncertain. The change-in-control severance agreements are designed to reinforce and encourage the continued attention and dedication of the executive officers to their assigned duties without distraction in the face of potentially adverse circumstances arising from the possibility of a change in control of Grace. Certain terms of these agreements are described below under the Potential Payments Upon Termination or Change-In-Control Table.

Severance Arrangements

As described below under Severance Arrangements, we have entered into severance agreements with each of the named executive officers, other than Mr. Festa, whose severance arrangements are included in his employment agreement, and Mr. Bonham, whose severance arrangements were established by committee approval. Payments under these arrangements are triggered by involuntary termination of employment under most circumstances. The Grace severance arrangements are designed to encourage and reinforce the continued attention and dedication of our executive officers to their assigned duties without undue concern regarding their job security. Certain terms of these agreements are described below under the Potential Payments Upon Termination or Change-In-Control Table.

Executive Salary Protection Plan

As described below under Executive Salary Protection Plan, our Executive Salary Protection Plan provides payments to our named executive officers, or their respective beneficiaries, in the event of their disability or death prior to age 70 while employed by Grace. The plan is designed to encourage the continued attention and dedication of our executive officers to their assigned duties without undue concern regarding their ability to earn a living and support their families in the event of death or disability. Certain terms of this plan are described below under the Potential Payments Upon Termination or Change-In-Control Table.

Employment Agreements

Grace has entered into an employment agreement with Mr. Festa pursuant to which he serves as CEO of Grace. Certain terms of this employment agreement are described below under the Summary Compensation Table and Potential Payments Upon Termination or Change-In-Control Table. This agreement was approved by the Bankruptcy Court and was designed to encourage Mr. Festa to accept his appointment as CEO of Grace, remain with Grace and work diligently in pursuit of corporate objectives. Mr. Festa's employment agreement includes a minimum salary and AICP target that were negotiated with Mr. Festa and are based on his business experience, his past performance as Chief Operating Officer of Grace and a competitive analysis of

the base salary and annual bonus paid to CEOs at the peer group companies. The agreement also provides for retention payments that are designed to encourage Mr. Festa to make a long-term commitment to Grace through the uncertainty of the Chapter 11 process in lieu of other opportunities that may be available to him, and severance payments that are designed to encourage and reinforce Mr. Festa's continued attention and dedication to his assigned duties without undue concern regarding his job security.

Grace has also entered into an employment agreement with Mr. Tarola. Certain terms of this employment agreement are described below under the Summary Compensation Table and Pension Benefits Table. This agreement includes currently effective provisions regarding severance payments and enhanced pension payments. This agreement was negotiated on an arms-length basis prior to the time Mr. Tarola joined Grace. The payments required by this agreement were designed to encourage Mr. Tarola to join and remain with Grace in lieu of other employment opportunities available to him.

Deductibility of Executive Compensation

Under the Omnibus Budget Reconciliation Act of 1993, provisions were added to the Internal Revenue Code of 1986, as amended, under Section 162(m) that limit the tax deduction for compensation expense in excess of \$1 million paid to executive officers unless such compensation is performance-based and satisfies certain other conditions. We believe that compensation payable to executive officers should generally meet the conditions required for full deductibility under Section 162(m). Tax deductibility is one criterion we consider when establishing compensation programs. The AICP and LTIPs are structured with the intention that the compensation payable thereunder, with the exception of any discretionary AICP payments or other non-performance-based payments, will qualify as deductible performance-based compensation. While we believe that it is important to preserve the ability to structure compensation programs to meet a variety of corporate objectives even if the compensation is not deductible, due to our focus on performance-based compensation plans, we expect that the vast majority of compensation paid to the named executive officers will be tax deductible.

Compensation Committee Report

We, the undersigned members of the Compensation Committee of the Board of Directors of Grace, have reviewed Grace's Compensation Discussion and Analysis for 2007 and have discussed it with Grace management. Based on our review and this discussion, we recommend to the Board that the Compensation Discussion and Analysis be included in Grace's Annual Report on Form 10-K.

Summary Compensation Table

The following table sets forth the compensation we paid for services rendered during the fiscal year ended December 31, 2007 to our Chief Executive Officer, our Chief Financial Officer and each of our other three most highly compensated executive officers who were executive officers as of December 31, 2007, determined by reference to total compensation (reduced by the amount set forth in the table below under the caption "Change in Pension Value and Nonqualified Deferred Compensation Earnings") earned by such individuals for the 2007 fiscal year.

Name and Principal Position	Year	Salary (\$)	Stock Awards (\$)	Option Awards (\$)	Non-Equity Incentive Plan Compensation (\$)		Change in Pension Value and Nonqualified Deferred Compensation Earnings (b) (\$)	All Other Compensation(c) (\$)	Total (\$)
					AICP	LTIP (a)			
A. E. Festa President & Chief Executive Officer	2007	862,500	-0-	-0-	1,375,000	2,399,800	326,000	916,470	5,879,770
	2006	789,167	-0-	-0-	1,250,000	1,502,233	56,000	244,525	3,841,925
R. M. Tarola Senior Vice President & Chief Financial Officer	2007	439,333	-0-	-0-	440,000	611,833	682,000	58,594	2,231,760
	2006	426,667	-0-	-0-	460,000	769,500	295,000	101,284	2,052,451
G. E. Poling Vice President	2007	412,667	-0-	-0-	500,000	743,333	560,000	53,342	2,269,342
	2006	385,000	-0-	-0-	460,000	771,667	158,000	77,407	1,852,074
D. A. Bonham Vice President	2007	311,667	-0-	-0-	360,000	301,765	33,000	488,537	1,494,969
M. A. Shelnitz Vice President, Secretary and General Counsel	2007	336,000	-0-	-0-	335,000	453,167	237,000	39,957	1,401,124

- (a) 2007 amount consists of the following payments that we expect to make in March 2008 pursuant to the 2005-2007 and 2006-2008 Long-Term Incentive Programs, or LTIPs, as follows:

Name	Final Payment 2005-2007 LTIP	Initial Payment 2006-2008 LTIP \$	Total \$
A. E. Festa	1,836,467	563,333	2,399,800
R. M. Tarola	461,833	150,000	611,833
G. E. Poling	543,333	200,000	743,333
D. A. Bonham	201,765	100,000	301,765
M. A. Shelnitz	353,167	100,000	453,167

- (b) 2007 amount consists of the aggregate change in the actuarial present value of the individual's accumulated benefit under the Grace Pension Plan, the Grace Supplemental Executive Retirement Plan and, in the case of Mr. Tarola supplemental benefits pursuant to the terms of his employment agreement, from December 31, 2006 to December 31, 2007 assuming a 6.25% discount rate and retirement at age 62 with benefits payable on a straight life annuity basis and other assumptions used for financial reporting purposes under generally accepted accounting principles as described in this Report in Item 8 (Financial Statements and Supplementary Data) in the Financial Supplement under Note 19 (Pension Plans and Other Postretirement Benefits Plans) to the Consolidated Financial Statements. The 2007 amount reflects changes from the method used in prior years to calculate pension values including our revised data collection procedures.
- (c) 2007 amount consists of the following:
- (i) retention payment of \$750,000 pursuant to Mr. Festa's employment agreement;
 - (ii) our aggregate incremental cost of providing personal benefits if the aggregate amount of personal benefits provided to the individual equals or exceeds \$10,000. Except as specified below, these personal benefits are limited to financial counseling and tax preparation services. The following additional personal benefits exceed the greater of \$25,000 or 10% of the total amount of personal benefits for that individual and we are required to separately report them under SEC rules:
 - (A) for Mr. Festa, \$33,873 for personal use of Grace-provided aircraft, and
 - (B) for Mr. Bonham, certain expatriate benefits related to his overseas assignment in Belgium that are generally available to Grace executives that are U.S. citizens stationed abroad including, bank fees, U.S. housing maintenance, local transportation expenses, estimated gross up for U.S. income taxes resulting from Grace expatriate benefits \$172,400, travel allowance related to family leave in the U.S. \$27,851, and the following items paid in Euros and converted at exchange rates prevailing at the time such amounts were paid: foreign tax payments \$28,349, cost of living allowance \$61,976, overseas housing allowance \$95,667, and children's tuition reimbursement \$37,106;
 - (iii) our contributions to the Savings and Investment Plan, or S&I Plan, as follows: Mr. Festa \$13,500, Mr. Tarola \$13,500, Mr. Poling \$12,525, Mr. Bonham \$13,500 and Mr. Shelnitz \$13,500;
 - (iv) payments pursuant to the S&I Plan Replacement Payment Program to persons whose personal and/or Grace contributions to the S&I Plan would be subject to limitations under federal income tax law, as follows: Mr. Festa \$113,250, Mr. Tarola \$40,460, Mr. Poling \$38,860, Mr. Bonham \$23,500 and Mr. Shelnitz \$25,260;
 - (v) the value of Grace-provided personal liability insurance, as follows: Mr. Festa \$1,200, Mr. Tarola \$900, Mr. Poling \$600, Mr. Bonham \$200 and Mr. Shelnitz \$600; and

- (vi) the value of Grace-provided life insurance, as follows: Mr. Festa \$2,097, Mr. Tarola \$3,734, Mr. Poling \$1,357, Mr. Bonham \$224 and Mr. Shelnitz \$597.

CEO Employment Agreement

Grace has entered into an employment agreement with Mr. Festa pursuant to which he serves as CEO of Grace. Under this employment agreement, Mr. Festa is entitled to an initial base annual salary of \$760,000. His targeted award under the AICP for 2005 and each calendar year thereafter is 100% of his base salary earned during the applicable year (or greater, as determined by the Board). Under the Agreement, Mr. Festa may also participate in the LTIPs. Mr. Festa's agreement also provides for retention payments, which will generally be triggered by Mr. Festa remaining employed by Grace through a specified period, and certain payments in the event that Mr. Festa's employment is involuntarily terminated. These retention and severance payments are discussed below under the Potential Payments Upon Termination or Change-In-Control Table.

CFO Employment Agreement

Grace has also entered into an employment agreement with Mr. Tarola. This agreement includes currently effective provisions regarding severance payments and enhanced pension payments. Other terms of this agreement are discussed below under the Pension Benefits Table.

Grants of Plan-Based Awards in 2007

The following table provides information regarding grants under our Annual Incentive Compensation Program, or AICP, and Long Term Incentive Program, or LTIP, to the executive officers named in the Summary Compensation Table during 2007.

Name	Plan	Estimated Future Payouts Under Non-Equity Incentive Plan Awards (1)		
		Threshold (\$)	Target (\$) (2)	Maximum (\$) (2)
A. E. Festa	2007 AICP	215,625	862,500	1,725,000
	2007-2009 LTIP	-0-	1,690,000	3,380,000
	2006-2008 LTIP (3)	-0-	-0-	-0-
R. M. Tarola	2007 AICP	85,670	342,680	685,359
	2007-2009 LTIP	-0-	500,000	1,000,000
	2006-2008 LTIP (3)	-0-	100,000	200,000
G. E. Poling	2007 AICP	80,467	321,866	643,732
	2007-2009 LTIP	-0-	650,000	1,300,000
	2006-2008 LTIP (3)	-0-	200,000	400,000
D. A. Bonham	2007 AICP	51,250	205,000	410,000
	2007-2009 LTIP	-0-	500,000	1,000,000
	2006-2008 LTIP (3)	-0-	185,000	370,000
M. A. Shelnitz	2007 AICP	54,600	218,400	436,800
	2007-2009 LTIP	-0-	325,000	650,000
	2006-2008 LTIP (3)	-0-	50,000	100,000

- (1) Actual payments pursuant to the 2007 AICP, final payments pursuant to the 2005-2007 LTIP and initial payments pursuant to the 2006-2008 LTIP that we expect to pay in March 2008 have been determined and are reflected in the Summary Compensation Table.
- (2) For AICP, amounts are based upon base salary actually paid during 2007.
- (3) Including these grants, the following executive officers hold aggregate outstanding awards under the 2006-2008 Long Term Incentive Program with target payouts and maximum payouts as follows: Mr. Festa \$1,690,000 and \$3,380,000; Mr. Tarola \$450,000 and \$900,000; Mr. Poling \$600,000 and \$1,200,000; Mr. Bonham \$300,000 and \$600,000; and Mr. Shelnitz \$300,000 and \$600,000. The initial payments pursuant to these awards, that we expect to pay in March 2008, have been determined and are reflected above in the Summary Compensation Table

Annual Incentive Compensation Program (AICP)

Our Annual Incentive Compensation Program, or AICP, is a cash-based pay-for-performance incentive program. Awards under the AICP are allocated from the corporate incentive pool that is determined by the extent to which business performance objectives are achieved. In order to generate an incentive pool amount sufficient to pay all participants their target award, our pre-tax income from core operations as adjusted must be 8% higher than the prior year's pre-tax income from core operations. If our pre-tax income from core operations as adjusted is greater than or

equal to 35% higher than the prior year's pre-tax income from core operations, the incentive pool is funded in an amount sufficient to pay all participants two times their target award. If our pre-tax income from

core operations as adjusted is 80% of the prior year's pre-tax income from core operations, the incentive pool is funded in an amount sufficient to pay all participants 25% of their target award. Generally, no awards are earned if pre-tax income from core operations as adjusted is less than 80% of the prior year's pre-tax income from core operations. The Compensation Committee has discretion to establish or increase the size of the incentive pool even if performance measures are not achieved. Once the incentive pool is established, an executive officer's award payment is determined based on the individual's target award, performance and other factors determined by the Compensation Committee.

In order to receive an AICP award payment for a specific calendar year, employees generally must be actively employed by Grace through the payout date, which is typically in March of the following year. In the discretion of the Compensation Committee, an employee whose employment terminates prior to the payout date may receive an AICP award payment if the employee has more than three months' service under the AICP and employment terminates for any of the following reasons: retirement under a Grace retirement plan; death; disability; divestment; or other termination of employment by Grace that is not for cause. If an employee whose employment terminates prior to the end of the year receives an AICP award payment, the amount of the AICP award payment will generally be prorated for the period of the employee's service during the year. See Potential Payments Upon Termination or Change-In-Control Contractual Termination Provisions for a description of the circumstances under which AICP payments would be made to Mr. Festa in the event his employment with Grace is terminated.

Long-Term Incentive Program (LTIP)

Our long-term incentive programs are multi-year, cash-based, pay-for-performance incentive programs. Awards under the LTIPs are payable 100% in cash, based on the extent to which we achieve a specified compound annual growth in our pre-tax income from core operations as adjusted over the three-year performance period using results for the year prior to the first year of the performance period as the baseline. We generally refer to this growth objective as a CAGR. In order to earn the target award, our CAGR must be 6% and, to earn the maximum of two times the target award, our CAGR must be 25%. No awards are earned if the CAGR is zero or negative.

LTIP Compound Annual Growth Rate (CAGR) as of December 31, 2007

	LTIP	CAGR
2005-2007 LTIP (full 3-year period)		14.04%
2006-2008 LTIP (partial 2-year period)		15.40%

Edgar Filing: W R GRACE & CO - Form 10-K

Employees who become entitled to award payments under an LTIP are paid in two installments: one in March of the third year of the performance period (as partial payment based on the first two years of the performance period but limited to 50% of the LTIP target for those two years); and the other in March of the year following the performance period (as final payment based on the complete three-year performance period but offset by the prior partial payment).

Based on 2005-2007 operating performance, final payments under the 2005 LTIP are calculated based upon 142% of the target for each participant. Based on 2006-2008 operating performance, partial payments under the 2006 LTIP are calculated based upon 149% of the target for each participant but limited to 50% of the target amount for those two years.

In order to receive an LTIP award payment, employees generally must be actively employed by Grace through the payout date, which is in March following the second and third years of the LTIP performance period. An employee whose employment terminates prior to the payout date will forfeit any unpaid LTIP award payment if employment terminates for any of the following reasons:

- voluntary termination without the consent of the Compensation Committee;
- retirement under a Grace retirement plan prior to age 62 without the consent of the Compensation Committee; or
- termination for cause.

An employee whose employment terminates prior to the payout date will receive an LTIP award payment if employment terminates for any of the following reasons:

- retirement under a Grace retirement plan either at or after age 62;
- death or disability; or
- involuntary termination after a change in control of Grace (as defined in the LTIP).

See Potential Payments Upon Termination or Change-In-Control Contractual Termination Provisions for a description of the circumstances under which LTIP payments, as described below, would be made to Mr. Festa in the event his employment with Grace is terminated.

Edgar Filing: W R GRACE & CO - Form 10-K

If an employee whose employment terminates prior to the end of an LTIP performance period receives an LTIP award payment for that performance period, the amount of the LTIP award payment will be prorated for the period of

the employee's service during the performance period. Assuming the employment of the executive officers named in the Summary Compensation Table was terminated as of December 31, 2007 and the 2006 and 2007 LTIPs pay out at the target amounts, under any of the above-listed circumstances, the executive officers would be eligible for payments under their outstanding LTIPs as follows:

Name	2005-2007 LTIP \$	2006-2008 LTIP \$	2007-2009 LTIP \$
A. E. Festa	1,836,467	1,126,666	563,333
R. M. Tarola	461,833	300,000	166,667
G. E. Poling	543,333	400,000	216,667
D. A. Bonham	201,765	200,000	166,667
M. A. Shelnitz	353,167	200,000	108,332

In the discretion of the Compensation Committee, an employee whose employment terminates for a reason that is not described above (i.e. involuntary termination not for cause or transfer to the buyer of a Grace business unit) prior to the payout date may receive an LTIP award payment.

Stock Options Granted in 2007

We granted no stock options or other equity awards to the executive officers named in the Summary Compensation Table during 2007.

Outstanding Equity Awards at Fiscal Year-End

The following table provides information regarding outstanding stock options held by the executive officers named in the Summary Compensation Table as of December 31, 2007. All of these stock options were granted prior to 2002.

* Exercised options had an expiration date of March 4, 2007.

Pension Benefits

The following table provides information regarding benefits under our Retirement Plan for Salaried Employees, or Pension Plan, our Supplemental Executive Retirement Plan, or SERP, and any supplemental pension arrangements under employment agreements for the executive officers named in the Summary Compensation Table.

Name	Plan Name	Number of Years Credited Service (years)	Present Value of Accumulated Benefit (1) (\$)	Payments During Last Fiscal Year (\$)
A. E. Festa	Pension Plan	4.08	59,000	-0-
	SERP	4.08	408,000	-0-
R. M. Tarola	Pension Plan	8.58	218,000	-0-
	SERP	8.58	682,000	-0-
	Supplemental (2)	8.58	924,000	-0-
G. E. Poling	Pension Plan	28.42	504,000	-0-
	SERP	28.42	1,120,000	-0-
D. A. Bonham	Pension Plan	2.25	30,000	-0-
	SERP	2.25	39,000	-0-
M. A. Shelnitz	Pension Plan	24.17	382,000	-0-
	SERP	24.17	583,000	-0-

- (1) The amounts shown comprise the actuarial present value of the executive's accumulated benefit under the Pension Plan, SERP and, in the case of Mr. Tarola, supplemental pension arrangements, as of December 31, 2007, assuming a 6.25% discount rate and retirement at age 62 with benefits payable on a straight life annuity basis and other assumptions used for financial reporting purposes under generally accepted accounting principles as described in this Report in Item 8 (Financial Statements and Supplementary Data) in the Financial Supplement under Note 19 (Pension Plans and Other Postretirement Benefits Plans) to the Consolidated Financial Statements. The Pension Plan, SERP and supplemental arrangements provide for a reduction in pension payments to employees that opt for early retirement ranging from a 17% reduction for retirement at age 55 to no reduction for retirement at age 62. Mr. Tarola is eligible for early retirement under the Pension Plan, SERP and his supplemental arrangements.
- (2) Under his employment agreement, Mr. Tarola is entitled to a supplemental pension benefit calculated by applying the benefit formula of the Pension Plan and SERP to additional years of credited service. Mr. Tarola will be credited with one additional year of credited service (up to a maximum of 10 additional years of credited service) for each year of credited service under those plans that he actually earns during his period of employment with Grace.

Retirement Plan for Salaried Employees

Full-time salaried employees who are 21 or older and who have one or more years of service are eligible to participate in our Retirement Plan for Salaried Employees, or Pension Plan. Under this basic retirement plan, pension benefits are based upon (a) the employee's average annual compensation for the 60 consecutive months in which his or her compensation is highest during the last 180 months of continuous participation, and (b) the number of years of the employee's credited Grace service. The normal retirement age under the Pension Plan is 62, but participants may elect reduced payments upon early retirement beginning at age 55. For purposes of the Pension Plan, compensation generally includes base salary and AICP awards; however, for 2007, federal income tax law limits to \$225,000 the annual compensation on which benefits under the Pension Plan may be based.

Supplemental Executive Retirement Plan

We also have a Supplemental Executive Retirement Plan, or SERP, under which an employee will receive the full pension to which he or she would be entitled in the absence of the limitations described above and other limitations imposed under federal income tax law. In addition, the SERP recognizes deferred base salary, deferred annual incentive compensation awards and, in some cases, periods of employment during which an employee was ineligible to participate in the basic retirement plan. Commencing in 2001, we no longer permit deferrals of base salary or incentive compensation.

Supplemental Pension Arrangement

Mr. Tarola had an employment agreement that expired on November 10, 2002. Mr. Tarola's supplemental pension benefit that is described in the table above is provided pursuant to the terms of this agreement that survived the expiration date. The supplemental pension benefit will be paid to Mr. Tarola from our general assets. The foregoing description of Mr. Tarola's supplemental pension arrangement does not purport to be complete and is qualified in its entirety by reference to the agreement, which has been filed with the SEC.

Potential Payments Upon Termination or Change-In-Control

The following table sets forth potential payments to executive officers named in the Summary Compensation Table in the event of the listed events calculated under the assumption that employment terminated on the last business day of 2007. The following table does not include payments pursuant to contracts, agreements, plans and arrangements that do not discriminate in scope, terms or operation, in favor of executive officers and that are available generally to all salaried employees. The value of payments to be made following termination of employment of the executive officers named in the Summary Compensation Table pursuant to the Grace SERP and supplemental pension benefits are described above under the caption Pension

Benefits and payments that are required to be made following termination of employment under designated circumstances pursuant to the Grace LTIPs are described above under the caption Grants of Plan-Based Awards Long Term Incentive Program (LTIP).

	Involuntary Termination Without Cause	Involuntary Termination Without Cause Following Change-in- Control	Death	Disability
	(a)	(c) (d)	(e)	(f)
	(\$)	(\$)	(\$)	(\$)
A. E. Festa	3,150,000(b)	5,400,000(b)	900,000(b)	390,000(b)
R. M. Tarola	888,000	2,370,960	444,000	118,400
G. E. Poling	848,000	2,289,600	424,000	84,800
D. A. Bonham	540,000	1,890,000	360,000	132,000
M. A. Shelnitz	688,000	1,702,800	344,000	68,800

- (a) Consists of minimum severance payment pursuant to his employment agreement, in the case of Mr. Festa, or severance agreements in the case of the other executive officers.
- (b) In addition, if Mr. Festa's termination (without cause), death or disability occurs after Grace's emergence from Chapter 11, but prior to Mr. Festa's receipt of the retention bonus of \$1 million, then such amount shall be paid to him, or to his survivors, in the case of his death.
- (c) Change-in-Control is described below under Change-In-Control Severance Agreements.
- (e) Consists of the sum of payments under the Grace Executive Salary Protection Plan during the first year following death. During subsequent years after death until the specified termination year (reflecting the executive officer's age as of December 31, 2007), the sum of payments each year would be as follows: Mr. Festa \$450,000, 2017, Mr. Tarola \$222,000, 2015, Mr. Poling \$212,000, 2017, Mr. Bonham \$180,000, 2017 and Mr. Shelnitz \$172,000, 2017.
- (f) Consists of the sum of payments under the Grace Executive Salary Protection Plan during the first year following disability, assuming the executive officer remains disabled for at least 12 consecutive months. Amounts reflect the offset of expected payments under Grace's long-term and short-term disability programs that are based, in part, on the duration of the executive officer's employment. During subsequent years after disability, the sum of payments each year to Mr. Festa would be \$180,000 until the earlier of the month he was no longer deemed disabled or until he attained age 65 in 2024. Due to the offset of expected payments under Grace's long-term and short-term disability programs, the other executive officers would not receive any additional payments under the plan after the first year of disability.

Contractual Termination Provisions

In 2005, the Compensation Committee and the Bankruptcy Court approved the terms of an employment agreement, dated January 19, 2005, pursuant to which Mr. Festa assumed the position of Chief Executive Officer of Grace on June 1, 2005. The term of this agreement is four years, ending on May 31, 2009. Under the terms of this agreement, Mr. Festa will not be entitled to any unpaid award under the AICP or any LTIP if his employment with Grace terminates prior to the date that the award is paid to active Grace employees, except that Mr. Festa would be entitled to a pro-rated portion of such an unpaid award in the event that we terminate his employment without cause, he terminates his employment as a result of constructive discharge, or his employment terminates as a result of his death or disability before the applicable payment date. Assuming Mr. Festa's employment was terminated as of December 31, 2007 under any of the above listed circumstances, Mr. Festa would be eligible to receive an AICP in the amount of his 2007 AICP payment as described above under "Summary Compensation Table" and LTIP payments as described above under the caption "Grants of Plan-Based Awards in 2007 Long Term Incentive Programs (LTIPs)". Also, under the terms of the agreement, if we terminate Mr. Festa's employment without cause, or he terminates his employment as a result of constructive discharge, prior to the expiration of the agreement, he would be entitled to a severance payment equal to two times a dollar amount equal to 175% of his annual base salary at the time of his termination. Mr. Festa's agreement also provides that he will be entitled to a Chapter 11 retention bonus of \$1,750,000, payable in two installments. The first installment, in the amount of \$750,000 was paid during 2007 and the second installment in the amount of \$1 million is due November 13, 2008. Mr. Festa will not be entitled to the second installment of the retention bonus if his employment is terminated prior to November 13, 2008, except in the case where his termination occurs after we emerge from Chapter 11 and is the result of (i) his resignation as a result of constructive discharge, (ii) termination by us not for cause, or (iii) his death or disability, in which case he would receive the second installment in addition to any severance payments to which he is otherwise entitled. The foregoing description of Mr. Festa's employment agreement does not purport to be complete and is qualified in its entirety by reference to the agreement, which has been filed with the SEC.

Other Termination Or Change-In-Control Provisions

Change-In-Control Severance Agreements. We have entered into severance agreements with all of our executive officers, which renew automatically unless the Board elects not to renew them. These agreements generally provide that in the event of the involuntary termination of the individual's employment without cause (including constructive termination caused by a material reduction in his or her authority or responsibility or by certain other circumstances) following a change in control, he or she will generally receive a severance payment equal to three times the sum of his or her annual base salary plus target annual incentive compensation, subject to reduction,

pro rata in the case of an executive officer who is within 36 months of normal retirement age (65) or, under certain circumstances, to minimize the effect of certain excise taxes if applicable. For purposes of the severance agreements, "change in control" means the acquisition of 20% or more of the outstanding Grace Common Stock (but not if such acquisition is the result of the sale of Common Stock by Grace that has been approved by the Board), the failure of Board-nominated directors to constitute a majority of any class of the Board of Directors, the occurrence of a transaction in which the Grace shareholders immediately preceding such transaction do not own more than 50% of the combined voting power of the entity resulting from such transaction, or the liquidation or dissolution of Grace. As a result of Grace's Chapter 11 filing, the following events will not constitute a "change in control": (i) the acquisition of Grace Common Stock by a trust established for purposes of administering asbestos-related claims pursuant to a plan of reorganization, and (ii) a corporate transaction pursuant to Section 363 of the U.S. Bankruptcy Code or a plan of reorganization. This description of the severance agreements does not purport to be complete and is qualified in its entirety by reference to the form of such agreement, which has been filed with the SEC.

Severance Arrangements. We have entered into severance agreements that establish severance arrangements with each of the named executive officers, other than Mr. Festa, whose severance arrangements are covered by his employment agreement, and Mr. Bonham, whose severance arrangements were established by Compensation Committee approval. Under the terms of the severance arrangements applicable to the named executive officers, other than Mr. Festa, in the event of the involuntary termination of the executive officer's employment under circumstances that would qualify the executive officer for severance pay under the severance plan that generally covers our salaried employees, the executive officer would be entitled to severance pay equal to two times his or her annual base salary or, in the case of Mr. Bonham, one and one-half times his annual base salary. Other than with respect to the amount of severance, Mr. Bonham's severance arrangements are the same as for the other named executive officers, other than Mr. Festa. With respect to any executive officer who has another agreement regarding the payment of severance upon termination of employment, if such executive officer becomes entitled to severance under both the terms of the severance agreement and the other agreement, then the executive officer would only receive severance pay under the severance agreement, unless the other agreement provides for a greater amount of severance pay (in which case, the executive officer would only receive severance pay under the other agreement). This description of the severance arrangements does not purport to be complete and is qualified in its entirety by reference to the form of executive severance agreement and the Grace Severance Pay Plan for Salaried Employees, each of which has been filed with the SEC.

Executive Salary Protection Plan. All executive officers participate in the Executive Salary Protection Plan which provides that, in the event of a participant's disability or death prior to age 70, we will continue to pay all or a portion of base salary to the participant or a beneficiary for a period based on the participant's age at the time of disability or death. Payments under the plan may not exceed 100% of base salary for the first year and 60% thereafter in the case of disability (50% in the case of death). Any

payment under the plan as a result of disability would be reduced by the amount of disability income received under Grace's long-term and short-term disability plans that are generally applicable to U.S. salaried employees. This description of the plan does not purport to be complete and is qualified in its entirety by reference to the text of the Executive Salary Protection Plan, as amended, which is filed with the SEC.

Director Compensation

Under the compensation program for nonemployee directors in effect during 2007, each nonemployee director received an annual retainer of \$75,000 in cash, 50% of which was paid in January and 50% of which was paid in December. In addition, directors received \$6,000 (\$7,000 for directors holding a committee chair and \$9,000 for the lead independent director) in cash for each meeting date in respect of the Board meeting and all committee meetings held on that date. We reimburse directors for expenses they incur in attending Board and committee meetings and other activities incidental to their service as directors. Our directors, and all Grace employees, are entitled to participate in the Grace Foundation's Matching Grants Program. We also maintain business travel accident insurance coverage for our directors. Mr. Festa's compensation is described above in the Summary Compensation Table. Mr. Festa receives no additional compensation for serving as a member of the Board of Directors.

The following table sets forth amounts paid by Grace to our nonemployee directors in connection with their services to Grace during 2007.

Name	Fees Earned or Paid in Cash (\$) ^(a)	Stock Awards (\$)	Option Awards (\$)	Non-Equity Incentive Plan Compensation (\$)	Change in Pension Value and Nonqualified Deferred Compensation Earnings (\$)	All Other Compensation (\$)	Total (\$)

Christopher J. Steffen	111,000	-0-	-0-	-0-	-0-	-0-	111,000
Mark E. Tomkins	111,000	-0-	-0-	-0-	-0-	-0-	111,000
Thomas A. Vanderslice	120,000	-0-	-0-(c)	-0-	-0-	-0-	120,000

-
- (a) Amount consists of annual retainer in the amount of \$75,000, meeting fees in the amount of \$36,000, other than Mr. Vanderslice who was paid \$30,000 and additional payments to: Mr. Akers for serving as Chair of the Compensation Committee in the amount of \$6,000; Dr. Fox for serving as Chair of the Corporate Responsibility Committee in the amount of \$6,000; Mr. Murphy for serving as Chair of the Audit Committee in the amount of \$6,000; and Mr. Vanderslice for serving as Chair of the Nominating and Governance Committee and Lead Independent Director in the amount of \$15,000.
 - (b) Consists of charitable contributions paid to academic institutions at the request of the director pursuant to the Grace Foundation's Matching Grants Program. Grace also paid an aggregate of \$350 in premiums for business travel accident insurance coverage for all directors during 2007.
 - (c) The following directors hold options to purchase shares of Grace common stock all of which are currently vested and exercisable in the following amounts: Mr. Akers 74,535, Mr. Murphy 15,528 and Mr. Vanderslice 69,876.
 - (d) Consists of payments to Mr. Norris pursuant to his consulting agreement.

The compensation program for nonemployee directors has been revised for 2008 such that each nonemployee director receives an annual retainer of \$105,000 in cash, 50% of which is paid in January and 50% of which is paid in December. In addition, directors receive \$6,000 (\$8,000 for directors holding a committee chair, \$9,000 for the chair of the Audit Committee and \$11,000 for the lead independent director) in cash for each meeting date in respect of the Board meeting and all committee meetings held on that date.

Norris Consulting Agreement

The Compensation Committee and the Bankruptcy Court have approved a consulting agreement between Grace and Mr. Norris dated January 19, 2005, under which Mr. Norris monitors our Chapter 11 proceedings and provides consulting services and advice to our CEO, certain of our employees and the Board of Directors, regarding those proceedings and other matters. Under this agreement, Mr. Norris performs services as an independent contractor, and retains no authority to enter into agreements on our behalf and has no management or supervisory authority over our officers or employees. Under his agreement, Mr. Norris is entitled to a monthly retainer equal to \$35,416.67 (i.e., \$425,000 per year), provided that the retainer is subject to adjustment downward if Mr. Norris' services under the agreement are required for less than one-half of a regular 40-hour work week. Based on the amount of time Mr. Norris is currently devoting to his duties under the agreement, his monthly retainer has been adjusted to \$10,625 (\$127,500 per year). We anticipate that Mr. Norris will continue to provide services under the agreement until we emerge from Chapter 11. Mr. Norris' consulting agreement may be terminated by the Board of Directors or Mr. Norris at any time upon 30 days' written notice, without the obligation to make any post-termination payments, and in any event, the agreement will terminate 90 days after we emerge from Chapter 11. During the period of the agreement, Mr. Norris has access to office space and administrative services at our Columbia, Maryland headquarters. In addition, during this period and so long as he remains a director, Mr. Norris is eligible to receive the

same compensation payable to our other nonemployee directors. The foregoing description of Mr. Norris' consulting agreement does not purport to be complete and is qualified in its entirety by reference to the agreement that has been filed with the SEC.

Compensation Committee Interlocks And Insider Participation

During 2007, the Compensation Committee of the Board was comprised of Messrs. Akers (Chair), Baldwin, Cambre, Murphy, Vanderslice, Tomkins and Steffen and Dr. Fox. None of our executive officers serves or in the past has served as a member of the board of directors or compensation committee of any entity that has one or more of its executive officers serving on our Board of Directors or our Compensation Committee. None of these persons is our current or former officer or employee, nor did we have any reportable transactions with any of these persons.

Item 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

SECURITY OWNERSHIP

The following table sets forth the amount of Grace common stock beneficially owned, directly or indirectly, as of January 31, 2008 by:

- each person that we know is the beneficial owner of more than 5% of the outstanding shares of Grace common stock
- each current director
- each of the individuals named in the Summary Compensation Table set forth in Item 11 above
- all directors and all executive officers as a group

- (1) The address of each of our directors and executive officers is c/o Secretary, W. R. Grace & Co., 7500 Grace Drive, Columbia, MD 21044.
- (2) The ownership information set forth is based in its entirety on material contained in a Form 4 report dated September 10, 2001 filed with the SEC.
- (3) The ownership information set forth above is based in its entirety on material contained in a Schedule 13G/A filed February 13, 2008 with the SEC. The number of shares beneficially owned includes shares owned by the following investment funds and managed accounts: Citadel Derivatives Group LLC and Citadel Equity Fund Ltd.

EQUITY COMPENSATION PLAN INFORMATION

The following table sets forth information as of December 31, 2007 with respect to our compensation plans under which shares of Grace common stock are authorized for issuance upon the exercise of options, warrants or other rights. The only such compensation plans in effect are stock incentive plans providing for the issuance of stock options and restricted stock.

Plan category	Number of securities to be issued upon exercise of outstanding options	Weighted-average exercise price of outstanding options (\$)	Number of securities remaining available for future issuance under equity compensation plans (excluding securities to be issued upon exercise of outstanding options)
Equity compensation plans approved by security holders	1,868,963	\$ 13.33	4,761,457

Item 13. CERTAIN RELATIONSHIPS, RELATED TRANSACTIONS AND DIRECTOR INDEPENDENCE

BOARD INDEPENDENCE

The Board has determined that all directors, other than Mr. Festa (who is also Chief Executive Officer) and Mr. Norris (who was Chief Executive Officer until June 1, 2005 and is currently a consultant to Grace) are independent under New York Stock Exchange rules because none of such directors has any direct or indirect material relationship with Grace or our affiliates, other than through his or her service as a director and as an owner of less than 1% of Grace common stock. This determination was based on a number of factors, principal among them were the following:

- none of these directors, nor any member of their immediate families is (or at any time during the last three years was) a Grace executive officer or employee and none of these directors is an employee, and no member of their immediate families is an executive officer of any other entity with whom we do any material amount of business;

- none of these directors or any member of their immediate families has, during the last three years, received any compensation from Grace (other than Board retainer and meeting fees); and
- none of these directors serve, or within the last three years served, as an executive officer, director, trustee or fiduciary of any charitable organization to which we made any material donation.

Only independent directors serve on our Audit, Nominating and Governance, Compensation and Corporate Responsibility Committees. Mr. Vanderslice has been appointed Lead Independent Director and, in this capacity, presides at executive sessions of independent directors. Interested parties may communicate with Mr. Vanderslice by writing him at the following address: Thomas A. Vanderslice Lead Independent Director, c/o W. R. Grace & Co., 7500 Grace Drive, Columbia, Maryland 21044.

REVIEW, APPROVAL OR RATIFICATION OF TRANSACTIONS WITH RELATED PARTIES

The Board recognizes that transactions involving related persons in which Grace is a participant can present conflicts of interest, or the appearance thereof, so the Board has adopted a written policy as part of the Grace Corporate Governance Principles (which are available on our website at www.grace.com/About/Leadership/Governance/) with respect to related person transactions. The policy applies to transactions involving related persons that are required to be disclosed pursuant to SEC regulations, which are generally transactions in which:

- Grace is a participant;
- the amount involved exceeds \$120,000; and
- any related person, such as a Grace executive officer, director, director nominee, 5% stockholder or any of their respective family members, has a direct or indirect material interest.

Each such related person transaction shall be reviewed, determined to be in, or not inconsistent with, the best interests of Grace and its stockholders and approved or ratified by:

- the disinterested members of the Audit Committee, if the disinterested members of the Audit Committee constitute a majority of the members of the Audit Committee; or
- the disinterested members of the Board.

In the event a related person transaction is entered into without prior approval and, after review by the Audit Committee or the Board, as the case may be, the transaction is not ratified, we will make all reasonable efforts to cancel the transaction.

Item 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

The Audit Committee of the Board of Directors selected PricewaterhouseCoopers LLP, or PwC, to act as our principal independent accountants for 2007. The following table sets forth the fees that we incurred for the services of PwC for the fiscal years ended December 31, 2007 and 2006:

	2007		2006
Audit Fees	4,666,400	\$	4,484,600
Audit-Related Fees	244,400		239,200
Tax Fees	20,000		7,900
All Other Fees	0		26,300
Total Fees	4,930,800	\$	4,758,000

Audit Services consisted of the audit of our Consolidated Financial Statements and our internal controls over financial reporting (as required under Section 404 of the Sarbanes-Oxley Act of 2002), the review of our consolidated quarterly financial statements and statutory audits of certain of Grace's non-U.S. subsidiaries and affiliates.

Audit-Related Services primarily consisted of (1) an audit of the financial statements of Advanced Refining Technologies, LLC (a joint venture with Chevron Products Company), (2) an audit of Grace's 401(k) plan, and (3) audits of subsidiary benefit plans as required.

Tax Services consisted of tax advice and compliance for non-U.S. subsidiaries, including preparation of tax returns, and advice relating to Grace's transfer pricing policies.

The Audit Committee has adopted a preapproval policy that requires the Audit Committee to specifically preapprove the annual engagement of the independent accountants for the audit of our Consolidated Financial Statements and internal controls. The policy also provides for general preapproval of certain audit-related, tax and other services provided by the independent accountants. Any other services must be specifically preapproved by the Audit Committee. However, the Chair of the Audit Committee has the authority to preapprove services requiring immediate engagement between scheduled meetings of the Audit Committee. The Chair must report any such preapproval decisions to the full Audit Committee at its next scheduled meeting. During 2007, no audit-related, tax, or other services were performed by PwC without specific or general approval as described above.

PART IV

Item 15. EXHIBITS AND FINANCIAL STATEMENT SCHEDULES

Financial Statements and Schedules. The required information is set forth in the Financial Supplement under the heading Index to Consolidated Financial Statements and Financial Statement Schedule and Exhibit which is incorporated herein by reference.

Exhibits. The exhibits to this Report are listed below. Other than exhibits that are filed herewith, all exhibits listed below are incorporated by reference. Exhibits indicated by an asterisk (*) are the management contracts and compensatory plans, contracts or arrangements required to be filed as exhibits to this Report.

For purposes of describing these exhibits, Old Grace means W. R. Grace & Co., a Delaware corporation (subsequently renamed Sealed Air Corporation), a predecessor to the Company, and Grace New York means W. R. Grace & Co., a New York corporation (subsequently renamed Fresenius Medical Care Holdings, Inc.), a predecessor to Old Grace.

EXHIBIT NO.	EXHIBIT	WHERE LOCATED
2.1	Form of Distribution Agreement, by and among Old Grace, W. R. Grace & Co.-Conn. and Grace Specialty Chemicals, Inc. (now named W. R. Grace & Co.)	Annex B to the Joint Proxy Statement/Prospectus dated February 13, 1998 of Old Grace and Sealed Air Corporation included in Form S-4 (filed 2/13/98)
2.2	Proposed Amended Joint Plan of Reorganization of W. R. Grace & Co. and its debtor subsidiaries dated January 13, 2005	Exhibit 2.2 to Form 10-K (filed 3/7/05)
3.1	Restated Certificate of Incorporation of W. R. Grace & Co.	Exhibit 3.1 to Form 8-K (filed 4/8/98)
3.2	Amended and Restated By-laws of W. R. Grace & Co.	Exhibit 3.1 to Form 8-K (filed 9/17/07)
4.1	Rights Agreement dated as of March 31, 1998 between W. R. Grace & Co. and The Chase Manhattan Bank, as Rights Agent	Exhibit 4.1 to Form 8-K (filed 4/8/98)
4.2	Credit Agreement dated as of May 14, 1998, among W. R. Grace & Co.-Conn., W. R. Grace & Co., the several banks parties thereto; the co-agents signatories thereto; The Chase Manhattan Bank, as administrative agent for such banks; and Chase Securities Inc., as arranger	Exhibit 4.1 to Form 10-Q (filed 8/14/98)

Edgar Filing: W R GRACE & CO - Form 10-K

The financial data listed above appearing in this Financial Supplement are incorporated by reference herein. The Financial Statement Schedule should be read in conjunction with the Consolidated Financial Statements and Notes thereto. Financial statements of less than majority-owned persons and other persons accounted for by the equity method have been omitted as provided in Rule 3-09 of the United States Securities and Exchange Commission's (SEC) Regulation S-X. Financial Statement Schedules not included have been omitted because they are not applicable or the required information is shown in the Consolidated Financial Statements or Notes thereto.

Management's Report on Financial Information and Internal Controls

Responsibility For Financial Information We are responsible for the preparation, accuracy, integrity and objectivity of the Consolidated Financial Statements and the other financial information included in this report. Such information has been prepared in conformity with accounting principles generally accepted in the United States of America and accordingly, includes certain amounts that represent management's best estimates and judgments. Actual amounts could differ from those estimates.

Responsibility for Internal Controls We are also responsible for establishing and maintaining adequate internal controls over financial reporting. These internal controls consist of policies and procedures that are designed to assess and monitor the effectiveness of the control environment including: risk identification, governance structure, delegations of authority, information flow, communications and control activities. A chartered Disclosure Committee oversees Grace's public financial reporting process and key managers are required to confirm their compliance with Grace's policies and internal controls quarterly. While no system of internal controls can ensure elimination of all errors and irregularities, Grace's internal controls, which are reviewed and modified in response to changing conditions, have been designed to provide reasonable assurance that assets are safeguarded, policies and procedures are followed, transactions are properly executed and reported, and appropriate disclosures are made. The concept of reasonable assurance is based on the recognition that there are limitations in all systems of internal control and that the costs of such systems should be balanced with their benefits. The Audit Committee of the Board of Directors, which is comprised solely of independent directors, meets regularly with Grace's senior financial management, internal auditors and independent registered public accounting firm to review audit plans and results, as well as the actions taken by management in discharging its responsibilities for accounting, financial reporting and internal controls. The Audit Committee is responsible for the selection and compensation of the independent registered public accounting firm. Grace's financial management, internal auditors and independent registered public accounting firm have direct and confidential access to the Audit Committee at all times.

Report On Internal Control Over Financial Reporting We and our management have evaluated Grace's internal control over financial reporting as of December 31, 2007. This evaluation was based on criteria for effective internal control over financial reporting set forth in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation, we and our management have concluded that Grace's internal control over financial reporting is effective as of December 31, 2007. Grace's independent registered public accounting firm that audited our financial statements included in Item 15 has also audited the effectiveness of Grace's internal control over financial reporting as of December 31, 2007, as stated in their report, which appears on the following page.

Report On Disclosure Controls And Procedures As of December 31, 2007, we carried out an evaluation of the effectiveness of the design and operation of Grace's disclosure controls and procedures pursuant to Rule 13a-15 under the Securities Exchange Act of 1934, as amended (the Exchange Act). Based upon that evaluation, we concluded that Grace's disclosure controls and procedures are effective in ensuring that information required to be disclosed in Grace's periodic filings under the Exchange Act is accumulated and communicated to us to allow timely decisions regarding required disclosures, and such information is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

Report of Independent Registered Public Accounting Firm

To the Shareholders and Board of Directors of W. R. Grace & Co.:

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of W. R. Grace & Co. and its subsidiaries (the "Company") at December 31, 2007 and December 31, 2006, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2007 in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statement schedule presents fairly, in all material respects, the information set forth therein when read in conjunction with the related consolidated financial statements. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2007 based on criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for these financial statements and financial statement schedule, for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express opinions on these financial statements, on the financial statement schedule, and on the Company's internal control over financial reporting based on our integrated audits. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 1 to the consolidated financial statements, on April 2, 2001, the Company and substantially all of its domestic subsidiaries voluntarily filed for protection under Chapter 11 of the United States Bankruptcy Code, which raises substantial doubt about the Company's ability to continue as a going concern in its present form. Management's intentions with respect to this matter are described in Note 2. The accompanying consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

As discussed in Note 4 to the consolidated financial statements, the Company changed the manner in which it accounts for income tax uncertainties effective January 1, 2007 to comply with a recently issued financial accounting standard. As discussed in Note 19 to the consolidated financial statements, the Company changed the manner in which it accounts for defined benefit pension and other postretirement plans effective December 31, 2006 to comply with a recently issued financial accounting standard.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Notes to Consolidated Financial Statements

1. Basis of Presentation and Summary of Significant Accounting and Financial Reporting Policies

W. R. Grace & Co., through its subsidiaries, is engaged in specialty chemicals and specialty materials businesses on a worldwide basis. W. R. Grace & Co. conducts substantially all of its business through a direct, wholly-owned subsidiary, W. R. Grace & Co.-Conn. (Grace-Conn.). Grace-Conn. owns substantially all of the assets, properties and rights of W. R. Grace & Co. on a consolidated basis, either directly or through subsidiaries.

As used in these notes, the term Company refers to W. R. Grace & Co. The term Grace refers to the Company and/or one or more of its subsidiaries and, in certain cases, their respective predecessors.

Voluntary Bankruptcy Filing During 2000 and the first quarter of 2001, Grace experienced several adverse developments in its asbestos-related litigation, including: a significant increase in personal injury claims, higher than expected costs to resolve personal injury and certain property damage claims, and class action lawsuits alleging damages from Zonolite Attic Insulation (ZAI), a former Grace attic insulation product.

After a thorough review of these developments, Grace's Board of Directors concluded that a federal court-supervised bankruptcy process provided the best forum available to achieve fairness in resolving these claims and on April 2, 2001 (the Filing Date), Grace and 61 of its United States subsidiaries and affiliates, including Grace-Conn. (collectively, the Debtors), filed voluntary petitions for reorganization (the Filing) under Chapter 11 of the United States Bankruptcy Code in the United States Bankruptcy Court for the District of Delaware (the Bankruptcy Court). The cases were consolidated and are being jointly administered under case number 01-01139 (the Chapter 11 Cases). Grace's non-U.S. subsidiaries and certain of its U.S. subsidiaries were not included in the Filing.

Under Chapter 11, the Debtors have continued to operate their businesses as debtors-in-possession under court protection from creditors and claimants, while using the Chapter 11 process to develop and implement a plan for addressing the asbestos-related claims. Since the Filing, all motions necessary to conduct normal business activities have been approved by the Bankruptcy Court. (See Note 2 for Chapter 11-Related Information.)

Principles of Consolidation The Consolidated Financial Statements include the accounts of Grace and entities as to which Grace exercises control over operating and financial policies. Grace consolidates the activities of variable interest entities in circumstances where management determines that Grace is the primary beneficiary of the variable interest entity. Intercompany transactions and balances are eliminated in consolidation. Investments in affiliated companies in which Grace can significantly influence operating and financial policies are accounted for under the equity method, unless Grace's investment is deemed to be temporary, in which case the investment is accounted for under the cost method.

Operating Segments Grace reports financial results of each of its operating segments that engage in business activities that generate revenues and expenses, and whose operating results are regularly reviewed by Grace's Chief Executive Officer. Grace reports two operating segments: Grace Davison, which includes specialty catalysts and materials used in a wide range of energy, refining, consumer, industrial, packaging and life

Edgar Filing: W R GRACE & CO - Form 10-K

sciences applications; and Grace Construction Products, which includes specialty chemicals and materials used in commercial, infrastructure and residential construction. In the fourth quarter of 2007, Grace completed the transfer of its packaging technologies product group to the Grace Davison segment in an effort to capture operating synergies. All segment information herein has been retrospectively restated to reflect this realignment of the packaging technologies product group. The former Grace Performance Chemicals segment has been renamed Grace Construction Products as a result of the transfer.

Minority Interest in Consolidated Entities Grace conducts certain of its business through joint ventures with unaffiliated third parties that require profit sharing. For joint ventures in which Grace has a controlling financial interest, Grace consolidates the results of such joint ventures in the Consolidated Financial Statements. Grace recognizes a liability for cumulative amounts due to

F-10

the third parties based on the financial results of the joint ventures, and deducts the annual amount of profit sharing in the measurement of its consolidated net income.

Reclassifications Certain amounts in prior years Consolidated Financial Statements have been reclassified to conform to the 2007 presentation. Such reclassifications have not materially affected previously reported amounts in the Consolidated Financial Statements, other than the reclassifications due to the realignment of Grace's operating segments discussed above.

Use of Estimates The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Consolidated Financial Statements, and the reported amounts of revenues and expenses for the periods presented. Actual amounts could differ from those estimates, and the differences could be material. Changes in estimates are recorded in the period identified. Grace's accounting measurements that are most affected by management's estimates of future events are:

- Contingent liabilities, which depend on an assessment of the probability of loss and an estimate of ultimate resolution cost, such as asbestos-related matters (see Notes 2 and 3), environmental remediation (see Note 15), income taxes (see Note 4), and litigation (see Note 15);
- Pension and postretirement liabilities that depend on assumptions regarding participant life spans, future inflation, discount rates and total returns on invested funds (see Note 19); and
- Realization values of net deferred tax assets and insurance receivables, which depend on projections of future income and cash flows and assessments of insurance coverage and insurer solvency.

The accuracy of management's estimates may be materially affected by the uncertainties arising under Grace's Chapter 11 proceeding.

Revenue Recognition Grace recognizes revenue when all of the following criteria are satisfied: risk of loss and title transfer to the customer; the price is fixed and determinable; and collectibility is reasonably assured. Certain customer arrangements include conditions for volume rebates. Grace accrues a rebate allowance and reduces recorded sales for anticipated selling price adjustments at the time of sale. Grace regularly reviews rebate accruals based on actual and anticipated sales patterns.

Cash Equivalents Cash equivalents consist of liquid instruments and investments with maturities of three months or less when purchased. The recorded amounts approximate fair value.

Investment Securities Investment securities consist of direct and indirect investments in debt securities and are classified as available-for-sale securities. These investments are reported at fair value as determined by independent pricing sources and/or professional market participants, with temporary unrealized gains and losses included in other comprehensive income. Losses that are deemed to be other than temporary are considered impairments and are recorded in earnings.

Inventories Inventories are stated at the lower of cost or market. The methods used to determine cost include first-in/first-out, or FIFO and, for substantially all U.S. inventories, last-in/first-out, or LIFO. Market values for raw materials are based on current cost and, for other inventory classifications, net realizable value. Inventories are evaluated regularly for salability, and slow moving and/or obsolete items are adjusted to expected salable value. Inventory values include direct and certain indirect costs of materials and production. Abnormal costs of production are expensed as incurred.

Properties and Equipment Properties and equipment are stated at cost. Depreciation of properties and equipment is generally computed using the straight-line method over the estimated useful life of the asset. Estimated useful lives range from 20 to 40 years for buildings, 3 to 7 years for information technology equipment, 3 to 10 years for machinery and equipment and 5 to 10 years for furniture and fixtures. Interest is capitalized in connection with major project expenditures. Fully depreciated assets are retained in properties and equipment and related accumulated depreciation accounts until they are removed from service. In the case of disposals,

assets and related accumulated depreciation are removed from the accounts and the net amount, less any proceeds from disposal, is charged or credited to operations. Obligations for costs associated with asset retirements, such as requirements to restore a site to its original condition, are accrued at net present value and amortized along with the related asset. Grace reviews long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be fully recoverable.

Goodwill Goodwill arises from certain purchase business combinations. Grace reviews its goodwill for impairment on an annual basis and whenever events or changes in circumstances indicate that the carrying amount may not be fully recoverable. Recoverability is assessed at the reporting unit level most directly associated with the business combination that generated the goodwill.

Income Taxes Deferred tax assets and liabilities are recognized with respect to the expected future tax consequences of events that have been recorded in the Consolidated Financial Statements and tax returns. If it is more likely than not that all or a portion of deferred tax assets will not be realized, a valuation allowance is provided against such deferred tax assets. The assessment of realization of deferred tax assets is performed annually under scenarios of future taxable income and tax planning alternatives that are considered reasonable in the circumstances.

Tax benefits from an uncertain tax position are recognized only if it is more likely than not that the tax position will be sustained upon examination by the taxing authorities, based on the technical merits of the position. Tax benefits recognized in the financial statements from such a position are measured based on the largest benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement.

Foreign Currency Translation Assets and liabilities of foreign subsidiaries (other than those located in countries with highly inflationary economies) are translated into U.S. dollars at current exchange rates, while revenues, costs and expenses are translated at average exchange rates during each reporting period. The resulting translation adjustments are included in the accumulated other comprehensive income (loss) caption of the Consolidated Balance Sheets. The financial statements of subsidiaries located in countries with highly inflationary economies, if any, are remeasured as if the functional currency were the U.S. dollar; the remeasurement creates translation adjustments that are reflected in net income in the Consolidated Statements of Operations.

Financial Instruments Grace periodically enters into commodity forward, swap and/or option contracts, and foreign exchange forward and/or option contracts to manage exposure to fluctuations in commodity prices and foreign currency exchange rates. Grace does not hold or issue derivative financial instruments for trading purposes. Derivative instruments are recorded in the Consolidated Balance Sheets as either assets or liabilities at their fair value. For derivative instruments designated as fair value hedges, changes in the fair values of the derivative instruments closely offset changes in the fair values of the hedged items in other income (expense) in the Consolidated Statements of Operations. For derivative instruments designated as cash flow hedges, the effective portion of any hedge is reported as accumulated other comprehensive income (loss) in the Consolidated Balance Sheets until it is cleared to earnings during the same period in which the hedged item affects earnings. The ineffective portion of all hedges, and changes in the fair values of derivative instruments that are not designated as hedges, are recorded in current period earnings. Cash flows from derivative instruments are reported in the same category as the cash flows from the items being hedged.

Effect of New Accounting Standards In February 2007, the Financial Accounting Standards Board (FASB) issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities. SFAS No. 159 permits entities to measure many financial instruments and certain other items at fair value. SFAS No. 159 is effective for the first quarter of 2008. Grace has determined at this time that it will not elect to measure eligible

financial assets and liabilities at fair value that are not currently required to be so measured.

In November 2006, the FASB Emerging Issues Task Force (EITF) promulgated Issue No. 06-10, Accounting for Deferred Compensation and Postretirement Benefit Aspects of Collateral Assignment Split-Dollar Life Insurance Arrangement. This Issue specifies that if a company provides a benefit to an employee under a collateral assignment split-dollar life insurance arrangement that extends to postretirement periods or provides an employee with a death benefit, it would have to recognize a liability and related compensation costs. Grace will adopt EITF 06-10 in the first quarter of 2008, and expects that it will have no impact to the Consolidated Financial Statements.

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements. SFAS No. 157 defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. Grace will adopt SFAS No. 157 effective in the first quarter of 2008. The adoption of SFAS 157 is not expected to have a material impact on Grace's Consolidated Financial Statements.

In December 2007, the FASB issued SFAS No. 141(R), Business Combinations. SFAS No. 141(R) will require the acquirer in a business combination to recognize the assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree at the acquisition date, measured at their fair values as of that date, with acquisition-related costs recognized separately from the acquisition. SFAS No. 141(R) applies prospectively to business combinations occurring on or after the beginning of the first annual reporting period beginning on or after December 15, 2008.

In December 2007, the FASB issued SFAS No. 160, Noncontrolling Interests in Consolidated Financial Statements. SFAS No. 160 establishes new accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. SFAS No. 160 is effective for fiscal years beginning on or after December 15, 2008.

2. Chapter 11-Related Information

Official Parties to Grace's Chapter 11 Proceedings Three creditors' committees, two representing asbestos claimants, the Official Committee of Asbestos Personal Injury Claimants (the PI Committee) and the Official Committee of Asbestos Property Damage Claimants (the PD Committee) and a third representing other general unsecured creditors, and a committee representing shareholders, have been appointed in the Chapter 11 Cases. These committees, and a legal representative of future asbestos claimants (the FCR), have the right to be heard on all matters that come before the Bankruptcy Court and have important roles in the Chapter 11 Cases. The Debtors are required to bear certain costs and expenses of the committees and of the FCR, including those of their counsel and financial advisors.

Plans of Reorganization On November 13, 2004, Grace filed a plan of reorganization, as well as several associated documents, including a disclosure statement, trust distribution procedures, exhibits and other supporting documents, with the Bankruptcy Court. On January 13, 2005, Grace filed an amended plan of reorganization (the Debtors Plan) and related documents to address certain objections of creditors and other interested parties. The Debtors Plan is supported by committees representing general unsecured creditors and shareholders, but is not supported by the PI Committee, the PD Committee or the FCR.

On July 26, 2007, the Bankruptcy Court terminated Grace's exclusive rights to propose a plan of reorganization and solicit votes thereon. As a result of the termination of these rights, any party-in-interest can propose a competing plan of reorganization.

Edgar Filing: W R GRACE & CO - Form 10-K

On November 5, 2007, the PI Committee and the FCR filed a proposed plan of reorganization (the PI Plan , and with the Debtors Plan, the Plans) with the Bankruptcy Court. Copies of the Plans are available from the Bankruptcy Court. The filing did not include a disclosure statement, trust distribution procedures, exhibits or other supporting documents.

A plan of reorganization, including either of the Plans and any other plan of reorganization that may be filed in the future by a party-in-interest, will become effective only after a vote of eligible creditors and with the approval of the Bankruptcy Court and the U.S. District Court for the District of Delaware. Votes on a plan of reorganization may not be solicited until the Bankruptcy Court approves the related disclosure statement. The Bankruptcy Court has currently deferred

F-13

consideration of the Debtors Plan disclosure statement and the Debtors Plan until after completion of hearings on the estimation of the amount of Grace's asbestos-related liability. The PI Committee has not filed a disclosure statement for the PI Plan.

The Bankruptcy Court has entered separate case management orders for estimating liability for pending and future personal injury claims and adjudicating pending property damage claims, excluding ZAI claims. A trial for estimating liability for personal injury claims began in January 2008.

Each of the Plans assumes that Cryovac, Inc., a wholly owned subsidiary of Sealed Air (Cryovac), will pay \$512.5 million in cash (plus interest at 5.5% compounded annually from December 21, 2002) and will issue 18 million shares (reflecting a two-for-one stock split) of common stock of Sealed Air Corporation (Sealed Air) to the asbestos trust established under such Plan pursuant to the terms of a settlement agreement resolving asbestos-related, successor liability and fraudulent transfer claims against Sealed Air and Cryovac, as further described below (the Sealed Air Settlement). The value of the Sealed Air Settlement changes daily with the accrual of interest and the trading value of Sealed Air common stock. The Sealed Air Settlement has been approved by the Bankruptcy Court, but remains subject to the fulfillment of specified conditions.

The Debtors Plan and the PI Plan are designed to address all pending and future asbestos-related claims and all other pre-petition claims as outlined respectively, therein. However, it is possible that neither of the Plans will be approved by the Bankruptcy Court and other interested parties. Further, the proponents of the Plans are free to amend their respective plans of reorganization at any time. As a result, a plan of reorganization that is materially different from the Debtors Plan and the PI Plan may ultimately be approved. Under the ultimate plan of reorganization, the interests of the holders of Grace common stock could be substantially diluted or cancelled and the value of non-asbestos claims could be materially different from that reflected in Grace's balance sheet. The value of Grace common stock and the extent of any recovery by non-asbestos-related creditors will depend principally on the amount of Grace's asbestos-related liability under a confirmed plan of reorganization.

Debtors Plan of Reorganization Under the terms of the Debtors Plan, claims will be satisfied under the Chapter 11 Cases as follows:

Asbestos-Related Claims and Costs

Under the Debtors Plan, a trust would be established under Section 524(g) of the Bankruptcy Code to which all pending and future asbestos-related claims would be channeled for resolution. The Debtors Plan contemplates that the Bankruptcy Court will conduct hearings to determine, among other things, the amount that would need to be paid into the asbestos trust on the effective date of the Debtors Plan to satisfy Grace's asbestos-related liabilities and trust administration costs and expenses over time. The asbestos trust would utilize specified trust distribution procedures to satisfy the following allowed asbestos-related claims and costs:

- **PI-SE** claims Personal Injury-Symptomatic Eligible claims in order to qualify for this class, claims would have to meet specified exposure and medical criteria and claimants would have to prove that their health is impaired due to meaningful exposure to asbestos-containing products formerly manufactured by Grace;

Edgar Filing: W R GRACE & CO - Form 10-K

- **PI-AO** claims Personal Injury-Asymptomatic and Other claims this class would contain all asbestos-related personal injury claims against Grace that did not meet the specific requirements to be PI-SE Claims, but did meet certain other specified exposure and medical criteria;
- **PD** claims Property Damage, including ZAI, claims in order to qualify for this class, claimants would have to prove Grace liability for loss of property value or remediation costs related to products formerly manufactured by Grace that claimants allege contained asbestos; and
- Trust administration costs and legal expenses.

The claims arising from such proceedings would be subject to this classification process as part of the Debtors Plan.

Under the Debtors Plan, asbestos personal injury claimants, including both PI-SE and PI-AO claims, would have the option either to litigate their claims

F-14

against the trust in federal court in Delaware or, if they meet specified eligibility criteria, accept a settlement amount based on the severity of their condition. Under the Debtors Plan, PD claimants would be required to present allowed claims to the trust or litigate their claims against the trust in federal court in Delaware. The Debtors Plan provides that, as a condition precedent to confirmation, the maximum estimated aggregate funding amount for all asbestos-related liabilities (PI-SE, PI-AO and PD including ZAI) and trust administration costs and expenses as determined by the Bankruptcy Court cannot exceed \$1,613 million, which Grace believes would fund over \$2 billion in claims, costs and expenses over time.

PI-SE claims, PD claims and related trust administration costs and expenses would be funded with (1) a payment by Cryovac of \$512.5 million in cash (plus interest at 5.5% compounded annually from December 21, 2002) and 18 million shares of Sealed Air common stock pursuant to the Sealed Air Settlement and (2) Grace common stock. The number of shares of Grace common stock required to satisfy these claims will depend on the price of Grace common stock on the effective date of the Debtors Plan, liability measures approved by the Bankruptcy Court, and the value of the Sealed Air Settlement.

PI-AO claims would be funded with warrants exercisable for that number of shares of Grace common stock which, when added to the shares issued directly to the trust on the effective date of the Debtors Plan, would represent 50.1% of Grace's voting securities. If the common stock issuable upon exercise of the warrants is insufficient to pay all PI-AO claims (the liability for which is uncapped under the Debtors Plan), then Grace would pay any additional liabilities in cash.

Under the Debtors Plan, the amounts to fund PI-SE claims, PD claims and trust administration costs and expenses would be capped at the amount determined by the Bankruptcy Court. Amounts required to fund PI-AO claims would not be capped, so if the amount funded in respect thereof later proved to be inadequate, Grace would be responsible for contributing additional funds into the asbestos trust to satisfy PI-AO claims. Because of the number and nature of the uncertainties involved, Grace is unable to determine the extent to which, if any, the liability under the Debtors Plan for PI-AO claims may exceed the amount funded into the trust in respect thereof.

Other Claims

The Debtors Plan provides that all allowed administrative or priority claims would be paid 100% in cash and all general unsecured claims, other than those covered by the asbestos trust, would be paid 85% in cash and 15% in Grace common stock. Grace estimates that claims with a recorded value of approximately \$1,370 million, including interest accrued through December 31, 2007, would be satisfied in this manner at the effective date of the Debtors Plan. Grace would finance these payments with cash on hand, cash from Fresenius Medical Care Holdings, Inc. (Fresenius) paid in settlement of asbestos and other Grace-related claims as described below, new Grace debt, and Grace common stock. Grace would satisfy other non-asbestos related liabilities and claims (primarily certain environmental, tax, pension and retirement medical obligations) as they become due and payable over time using cash flow from operations, insurance proceeds from policies and settlements covering asbestos-related liabilities, and new credit facilities. Proceeds from available product liability insurance applicable to asbestos-related claims would supplement operating cash flow to service new debt and liabilities not paid on the effective date of the Debtors Plan.

Effect on Grace Common Stock

The Debtors Plan provides that Grace common stock will remain outstanding at the effective date of the Debtors Plan, but that the interests of existing shareholders would be subject to dilution by additional shares of common stock issued under the Debtors Plan. In addition, in order to preserve significant tax benefits from net operating loss carryforwards (NOLs) and certain future deductions, which are subject to elimination or

Edgar Filing: W R GRACE & CO - Form 10-K

limitation in the event of a change in control (as defined by the Internal Revenue Code) of Grace, the Debtors Plan places restrictions on the purchase of Grace common stock. The restrictions would prohibit (without the consent of Grace), for a period of three years after the effective date of the Debtors Plan, a person or entity from acquiring more than 4.75% of the outstanding Grace common stock or, for those persons already holding more than 4.75%, prohibit them from increasing or decreasing their holdings. The Bankruptcy Court has approved the trading restrictions described above, excluding the restriction on sales, until the effective date of the Debtors Plan.

F-15

Grace intends to address all pending and future asbestos-related claims and all other pre-petition claims as outlined in the Debtors Plan. However, it is possible that the Debtors Plan will not be ultimately approved by the Bankruptcy Court and other interested parties. For example, the PI and PD Committees and the FCR have challenged the confirmability of the Debtors Plan, arguing that the Debtors Plan impairs the rights of asbestos creditors and impermissibly denies them voting rights, and have asserted that Grace's asbestos-related liabilities exceed the fair value of Grace's assets.

PI Committee and FCR Plan of Reorganization Under the terms of the PI Plan, a trust would be established under Section 524(g) of the Bankruptcy Code (the PI Trust) to which all pending and future asbestos-related personal injury claims and demands (PI Claims) would be channeled for resolution. The PI Plan contemplates that the Bankruptcy Court would determine, among other things, an estimate of the value of all PI Claims. The PI Plan assumes that: cash would be available from insurers; cash would be available from Fresenius pursuant to the Fresenius settlement described below; and cash and shares of Sealed Air common stock would be available from Cryovac pursuant to the Sealed Air Settlement. As a condition precedent to the PI Plan, the Bankruptcy Court must determine that the estimated value of all PI Claims, excluding to the extent applicable, post-petition interest, is not less than \$4 billion. If the amount available for distribution pursuant to the PI Plan is more than the principal amount of creditors' claims, creditors entitled to post-petition interest would be paid such interest in the form of Grace equity securities and any remaining value would be available to current Grace shareholders in the form of new Grace equity securities.

Under the terms of the PI Plan, claims would be satisfied under the Chapter 11 Cases as follows:

Asbestos-Related Personal Injury Claims and Costs (PI Claims)

All pending and future PI Claims would be channeled to the PI Trust for resolution. The PI Plan provides that claims arising from such proceedings would be subject to specified trust distribution procedures, which have not yet been filed with the Bankruptcy Court.

In order to satisfy allowed PI Claims and the related trust administration costs and expenses, on the effective date of the PI Plan, the PI Trust would be funded with: (1) cash; (2) cash and shares of Sealed Air common stock pursuant to the Sealed Air Settlement; (3) personal injury liability insurance, unless it is valued at more than \$500 million, in which case it would remain with Grace; and (4) Grace equity securities. The value of Grace equity securities contributed to the PI Trust would depend on the enterprise value of Grace, the value of Grace's personal injury liability insurance and the value of the Sealed Air Settlement.

Asbestos-Related Property Damage Claims excluding ZAI (PD Claims)

Settled PD Claims would be paid in a combination of cash and Grace equity securities on the effective date of the PI Plan. On the effective date of the PI Plan, Grace would establish a reserve consisting of cash and Grace equity securities with a value equal to the estimated amount of unresolved PD Claims. Unresolved PD Claims would remain in the mediation and litigation process and would be paid in cash and Grace equity securities from the reserve. If the reserve did not have sufficient assets to pay all unresolved PD Claims once the amounts were determined, Grace would be liable to pay any amounts not funded from the reserve.

ZAI Claims

ZAI claims would remain in the litigation process and would be paid by Grace, if required.

Certain Environmental Claims

Certain allowed environmental claims would be paid in cash and Grace equity securities on the effective date of the PI Plan. On the effective date of the PI Plan, Grace would establish a reserve consisting of cash and Grace equity securities with a value equal to the estimated amount of unresolved environmental claims. Unresolved environmental claims would be determined by the Bankruptcy Court and would be paid in cash and Grace equity securities from the reserve. If the reserve did not have sufficient assets to pay all unresolved environmental claims once the amounts were determined, Grace would be liable to pay any amounts not funded from the reserve.

Other Claims

All allowed administrative or priority claims would be paid in cash (either on the effective date of the PI Plan or as they become due and payable over time). General unsecured claims, other than those covered by the PI Trust, would be paid in cash (either on the effective date of the PI Plan or as they become due and payable over time) and

Grace equity securities. Certain environmental and general unsecured claims would be reinstated and the holders of such claims would retain all legal and other rights to which they are entitled under such claims. Other non-asbestos-related liabilities and claims (primarily certain tax claims and employee-related claims such as pension and retirement medical obligations) would be paid in cash as they become due and payable over time.

Effect on Grace Common Stock

Outstanding Grace common stock would be cancelled at the effective date of the PI Plan.

The Debtors Plan and the PI Plan are designed to address all pending and future asbestos-related claims and all other pre-petition claims as outlined respectively, therein. However, it is possible that neither plan of reorganization will be ultimately approved by the Bankruptcy Court and other interested parties. Further, the proponents of the Debtors Plan and the PI Plan are free to amend their respective plans of reorganization at any time. As a result, a plan of reorganization that is materially different from the Debtors Plan and the PI Plan may ultimately be approved. Under the ultimate plan of reorganization, the interests of the holders of Grace common stock could be substantially diluted or cancelled and the value of non-asbestos claims could be materially different from that reflected in Grace's balance sheet. The value of Grace common stock and the extent of any recovery by non-asbestos-related creditors will depend principally on the amount of Grace's asbestos-related liability under a confirmed plan of reorganization.

Claims Filings The Bankruptcy Court established a bar date of March 31, 2003 for claims of general unsecured creditors, asbestos-related property damage claims (other than ZAI claims) and medical monitoring claims related to asbestos. The bar date did not apply to asbestos-related personal injury claims or claims related to ZAI.

Approximately 14,900 proofs of claim were filed by the March 31, 2003 bar date. Of these claims, approximately 9,400 were non-asbestos related, approximately 4,300 were for asbestos-related property damage, and approximately 1,000 were for medical monitoring. The medical monitoring claims were made by individuals who allege exposure to asbestos through Grace's products or operations. These claims, if sustained, would require Grace to fund ongoing health monitoring costs for qualified claimants. In addition, approximately 800 proofs of claim were filed after the bar date.

Approximately 7,000 of the non-asbestos related claims involve claims by employees or former employees for future retirement benefits such as pension and retiree medical coverage. Grace views most of these claims as contingent and has proposed a plan of reorganization that would retain such benefits. The remaining non-asbestos claims include claims for payment of goods and services, taxes, product warranties, principal and interest under pre-petition credit facilities, amounts due under leases and other contracts, leases and other executory contracts rejected in the Bankruptcy Court, environmental remediation, pending non-asbestos-related litigation, and non-asbestos-related personal injury. Claims for indemnification or contribution to actual or potential codefendants in asbestos-related and other litigation were also filed.

The Debtors have analyzed the claims filed pursuant to the March 31, 2003 bar date and have found that many are duplicates, represent the same claim filed against more than one of the Debtors, lack any supporting documentation, or provide insufficient supporting documentation. As of December 31, 2007, of the approximately 4,035 asbestos property damage claims filed, 275 claims have been resolved, approximately 3,570 claims have been expunged or withdrawn by claimants, leaving approximately 190 claims to be addressed through the property damage case management order approved by the Bankruptcy Court. As of December 31, 2007, of the approximately 3,260 non-asbestos claims filed, approximately 1,845 have been expunged or withdrawn by claimants, approximately 1,140 have been resolved, and approximately 275 claims are to be addressed through the claim objection process and the dispute resolution procedures approved by the Bankruptcy Court.

Grace believes that its recorded liabilities for claims subject to the March 31, 2003 bar date represent a reasonable estimate of the ultimate allowable amount for claims that are not in dispute or have been submitted with sufficient information to both evaluate the merit and estimate the value of the claim. The asbestos-related claims are considered as part of Grace's overall asbestos liability and are being accounted for in accordance with the conditions precedent under the Debtors Plan, as described in Accounting Impact below. Grace will adjust its recorded asbestos-related liability, as necessary, to reflect rulings by the Bankruptcy

F-17

Court. Any such adjustments could be material to its consolidated financial position and results of operations.

Litigation Proceedings in Bankruptcy Court In September 2000, Grace was named in a purported class action lawsuit filed in California Superior Court for the County of San Francisco, alleging that the 1996 reorganization involving a predecessor of Grace and Fresenius AG and the 1998 reorganization involving a predecessor of Grace and Sealed Air were fraudulent transfers (*Abner, et al., v. W.R. Grace & Co., et al.*). The Bankruptcy Court authorized the PI and PD Committees to proceed with claims against Fresenius and Sealed Air and Cryovac on behalf of the Debtors' bankruptcy estate.

On November 29, 2002, Sealed Air (and Cryovac) and Fresenius each announced that they had reached agreements in principle with the PI and PD Committees to settle asbestos, successor liability and fraudulent transfer claims related to such transactions (the litigation settlement agreements). Under the terms of the Fresenius settlement, subject to the fulfillment of certain conditions, Fresenius would pay \$115.0 million to the Debtors' estate as directed by the Bankruptcy Court upon confirmation of the Debtors' plan of reorganization. In July 2003, the Fresenius settlement was approved by the Bankruptcy Court. Under the terms of the Sealed Air Settlement, subject to the fulfillment of certain conditions, Cryovac would make a payment of \$512.5 million (plus interest at 5.5% compounded annually, commencing on December 21, 2002) and nine million shares (now 18 million shares to reflect a two-for-one stock split) of Sealed Air common stock (collectively valued at \$1,087.4 million as of December 31, 2007), as directed by the Bankruptcy Court upon confirmation of the Debtors' plan of reorganization. In June 2005, the Sealed Air Settlement was approved by the Bankruptcy Court.

Debt Capital All of the Debtors' pre-petition debt is in default due to the Filing. The accompanying Consolidated Balance Sheets reflect the classification of the Debtors' pre-petition debt within liabilities subject to compromise.

The Debtors have entered into a debtor-in-possession post-petition loan and security agreement with Bank of America, N.A. (the DIP facility) in the aggregate amount of \$250 million. The term of the DIP facility expires on April 1, 2008. Grace has requested a two-year extension of the DIP facility from the lenders and a hearing before the Bankruptcy Court with respect to the extension is scheduled for March 17, 2008.

Accounting Impact The accompanying Consolidated Financial Statements have been prepared in accordance with Statement of Position 90-7 (SOP 90-7), Financial Reporting by Entities in Reorganization Under the Bankruptcy Code, promulgated by the American Institute of Certified Public Accountants. SOP 90-7 requires that financial statements of debtors-in-possession be prepared on a going concern basis, which contemplates continuity of operations, realization of assets and liquidation of liabilities in the ordinary course of business. However, as a result of the Filing, the realization of certain of the Debtors' assets and the liquidation of certain of the Debtors' liabilities are subject to significant uncertainty. While operating as debtors-in-possession, the Debtors may sell or otherwise dispose of assets and liquidate or settle liabilities for amounts other than those reflected in the Consolidated Financial Statements. Further, the ultimate plan of reorganization could materially change the amounts and classifications reported in the Consolidated Financial Statements.

Pursuant to SOP 90-7, Grace's pre-petition and future liabilities that are subject to compromise are required to be reported separately on the balance sheet at an estimate of the amount that will ultimately be allowed by the Bankruptcy Court. As of December 31, 2007, such pre-petition liabilities include fixed obligations (such as debt and contractual commitments), as well as estimates of costs related to contingent liabilities (such as asbestos-related litigation, environmental remediation, and other claims). Obligations of Grace subsidiaries not covered by the Filing continue to be classified on the Consolidated Balance Sheets based upon maturity dates or the expected dates of payment. SOP 90-7 also requires separate reporting of certain expenses, realized gains and losses, and provisions for losses related to the Filing as reorganization items. Grace presents reorganization items as Chapter 11 expenses, net of interest income, a separate caption in its Consolidated Statements of Operations.

Grace has not recorded the benefit of any assets that may be available to fund asbestos-related and other liabilities under the litigation settlements with Sealed Air and Fresenius, as such agreements are subject to conditions, which, although expected to be met, have not been satisfied and confirmed by the Bankruptcy Court. The value available under these litigation settlement agreements as measured at December 31, 2007, was \$1,202.4

F-18

Edgar Filing: W R GRACE & CO - Form 10-K

million comprised of \$115.0 million in cash from Fresenius and \$1,087.4 million in cash and stock from Cryovac. Payments under the Sealed Air Settlement will be made directly to the asbestos trust by Cryovac, and will be accounted for as a satisfaction of a portion of Grace's recorded asbestos-related liability and a credit to shareholders' equity.

Grace's Consolidated Balance Sheets separately identify the liabilities that are subject to compromise as a result of the Chapter 11 proceedings. In Grace's case, liabilities subject to compromise represent both pre-petition and future liabilities as determined under U.S. generally accepted accounting principles. The bases for the asbestos-related liability component of liabilities subject to compromise are described in Note 3. Changes to the recorded amount of such liabilities will be based on developments in the Chapter 11 Cases and management's assessment of the claim amounts that will ultimately be allowed by the Bankruptcy Court. Changes to pre-petition liabilities subsequent to the Filing Date reflect: 1) cash payments under approved court orders; 2) the terms of Grace's proposed plan of reorganization, as discussed above, including the accrual of interest on pre-petition debt and other fixed obligations; 3) accruals for employee-related programs; and 4) changes in estimates related to other pre-petition contingent liabilities.

Components of liabilities subject to compromise are as follows:

<i>(In millions)</i>	December 31, 2007	December 31, 2006	Filing Date (Unaudited)
Pre-petition bank debt plus accrued interest	\$ 783.0	\$ 723.1	\$ 511.5
Drawn letters of credit plus accrued interest	26.9	16.4	
Asbestos-related contingencies	1,700.0	1,700.0	1,002.8
Income taxes ⁽¹⁾	89.3	141.2	242.1
Environmental contingencies	368.6	361.1	164.8
Postretirement benefits other than pension	84.0	72.7	185.4
Unfunded special pension arrangements	100.8	95.6	70.8
Retained obligations of divested businesses ⁽²⁾	30.9	18.0	43.5
Accounts payable	31.7	31.7	43.0
Other accrued liabilities	74.4	71.2	102.1
Reclassification to current liabilities ⁽³⁾	(12.1)	(9.4)	
Total Liabilities Subject to Compromise	\$ 3,277.5	\$ 3,221.6	\$ 2,366.0

(1) Amounts as of December 31, 2007 and 2006 are net of expected refunds of \$76.4 million and \$15.0 million, respectively.

(2) Increased \$12.9 million from December 31, 2006 primarily due to reclass from tax reserves.

(3) As of December 31, 2007 and 2006, approximately \$12.1 million and \$9.4 million, respectively, of certain pension and postretirement benefit obligations subject to compromise have been presented in other current liabilities in the Consolidated Balance Sheets in accordance with SFAS No. 158.

Note that the unfunded special pension arrangements reflected above exclude non-U.S. pension plans and qualified U.S. pension plans that became underfunded subsequent to the Filing. Contributions to qualified U.S. pension plans are subject to Bankruptcy Court approval.

Change in Liabilities Subject to Compromise

The following table is a reconciliation of the changes in pre-filing date liability balances for the period from the Filing Date through December 31, 2007.

Edgar Filing: W R GRACE & CO - Form 10-K

<i>(In millions) (Unaudited)</i>	Cumulative Since Filing
Balance, Filing Date April 2, 2001	\$ 2,366.0
Cash disbursements and/or reclassifications under Bankruptcy Court orders:	
Freight and distribution order	(5.7)
Trade accounts payable order	(9.1)
Resolution of contingencies subject to Chapter 11	(130.0)
Other court orders including employee wages and benefits, sales and use tax, and customer programs	(352.9)
Expense/(income) items:	
Interest on pre-petition liabilities	345.8
Employee-related accruals	60.6
Provision for asbestos-related contingencies	744.8
Provision for environmental contingencies	312.6
Provision for income tax contingencies	(16.8)
Balance sheet reclassifications	(37.8)
Balance, end of period	\$ 3,277.5

Additional liabilities subject to compromise may arise due to the rejection of executory contracts or unexpired leases, or as a result of the Bankruptcy Court's allowance of contingent or disputed claims.

For the holders of pre-petition bank credit facilities, beginning January 1, 2006, Grace agreed to pay interest on pre-petition bank debt at the prime rate, adjusted for periodic changes, and compounded quarterly. The effective rates for the twelve months ended December 31, 2007 and 2006 were 8.05% and 7.96%, respectively. From the Filing Date through December 31, 2005, Grace accrued interest on pre-petition bank debt at a negotiated fixed annual rate of 6.09%, compounded quarterly.

For the holders of claims who, but for the Chapter 11 filing, would be entitled under a contract or otherwise to accrue or be paid interest on such claim in a non-default (or non-overdue payment) situation under applicable non-bankruptcy law, Grace accrues interest at the rate provided in the contract between the Grace entity and the claimant or such rate as may otherwise apply under applicable non-bankruptcy law.

For all other holders of allowed general unsecured claims, Grace accrues interest at a rate of 4.19% per annum, compounded annually, unless otherwise negotiated during the claim settlement process.

Chapter 11 expenses

<i>(In millions)</i>	2007	2006	2005
Legal and financial advisory fees	\$ 95.1	\$ 57.9	\$ 38.4
Interest income	(8.7)	(8.0)	(7.5)
Chapter 11 expenses, net	\$ 86.4	\$ 49.9	\$ 30.9

Pursuant to SOP 90-7, interest income earned on the Debtors' cash balances must be offset against Chapter 11 expenses.

In addition to Grace's financial reporting obligations as prescribed by the SEC, the Debtors are also required, under the rules and regulations of the Bankruptcy Code, to periodically file certain statements and schedules and a monthly operating report with the Bankruptcy Court. This information is available to the public through the Bankruptcy Court. This information is prepared in a format that may not be comparable to information in Grace's quarterly and annual financial statements as filed with the SEC. The monthly operating reports are not audited, do not purport to represent the financial position or results of operations of Grace on a consolidated basis, and should not be relied on for such purposes.

3. Asbestos-Related Litigation

Grace is a defendant in property damage and personal injury lawsuits relating to previously sold asbestos-containing products. As of the Filing Date, Grace was a defendant in 65,656 asbestos-related lawsuits, 17 involving claims for property damage (one of which has since been dismissed), and the remainder involving 129,191 claims for personal injury. Due to the Filing, holders of asbestos-related claims are stayed from continuing to prosecute pending litigation and from commencing new lawsuits against the Debtors. The PI and PD Committees, representing the interests of property damage and personal injury claimants, respectively, and the FCR, representing the interests of future personal injury claimants, have been appointed in the Chapter 11 Cases. Grace's obligations with respect to present and future claims will be determined through the Chapter 11 process.

Property Damage Litigation The plaintiffs in asbestos property damage lawsuits generally seek to have the defendants pay for the cost of removing, containing or repairing the asbestos-containing materials in the affected buildings. Various factors can affect the merit and value of property damage claims, including legal defenses, product identification, the amount and type of product involved, the age, type, size and use of the building, the legal status of the claimant, the jurisdictional history of prior cases, the court in which the case is pending, and the difficulty of asbestos abatement, if necessary.

Out of 380 asbestos property damage cases (which involved thousands of buildings) filed prior to the Filing Date, 140 were dismissed without payment of any damages or settlement amounts; judgments after trial were entered in favor of Grace in nine cases (excluding cases settled following appeals of judgments in favor of Grace); judgments after trial were entered in favor of the plaintiffs in eight cases (one of which is on appeal) for a total of \$86.1 million; 207 property damage cases were settled for a total of \$696.8 million; and 16 cases remain outstanding (including the one on appeal). Of the 16 remaining cases, eight relate to ZAI and eight relate to a number of former asbestos-containing products (two of which also are alleged to involve ZAI).

Approximately 4,035 additional property damage claims were filed prior to the March 31, 2003 claims bar date established by the Bankruptcy Court. (The bar date did not apply to ZAI claims.) Such claims were reviewed in detail by Grace, categorized into claims with sufficient information to be evaluated or claims that require additional information and, where sufficient information existed, the estimated cost of resolution was considered as part of Grace's recorded asbestos-related liability. Approximately 200 claims did not contain sufficient information to permit an evaluation. Grace objected to virtually all property damage claims on a number of different bases, including: no authorization to file a claim; the claim was previously settled or adjudicated; no or insufficient documentation; failure to identify a Grace product; the expiration of the applicable statute of limitations and/or statute of repose, and/or laches; and a defense that the product in place is not hazardous. As of December 31, 2007, following the reclassification, withdrawal or expungement of claims, approximately 460 property damage claims remain outstanding. The Bankruptcy Court has approved settlement agreements covering approximately 275 property damage claims for an aggregate allowed amount of \$82 million.

Eight of the ZAI cases were filed as purported class action lawsuits in 2000 and 2001. In addition, ten lawsuits were filed as purported class actions in 2004 and 2005 with respect to persons and homes in Canada. These cases seek damages and equitable relief, including the removal, replacement and/or disposal of all such insulation. The plaintiffs assert that this product is in millions of homes and that the cost of removal

Edgar Filing: W R GRACE & CO - Form 10-K

could be several thousand dollars per home. As a result of the Filing, the eight U.S. cases have been stayed.

Based on Grace's investigation of the claims described in these lawsuits, and testing and analysis of this product by Grace and others, Grace believes that the product was and continues to be safe for its intended purpose and poses little or no threat to human health. The plaintiffs in the ZAI lawsuits (and the U.S. government in the Montana criminal proceeding described in Note 15) dispute Grace's position on the safety of ZAI. On October 18, 2004, the Bankruptcy Court held a hearing on motions filed by the parties to address a number of important legal and factual issues regarding the ZAI claims. On December 14, 2006, the Bankruptcy Court issued an opinion and order holding that, although ZAI is contaminated with asbestos and can release asbestos fibers when disturbed, there is no unreasonable risk of harm from ZAI. The ZAI claimants sought an

F-22

interlocutory appeal of the opinion and order with the District Court in Delaware but that request was denied. The ZAI claimants have indicated they still intend to appeal such opinion and order when it becomes a final order. The Bankruptcy Court has instructed the parties to consult with one another regarding how to proceed with respect to ZAI in light of the Court's opinion and order. Grace's recorded asbestos-related liability at December 31, 2007 assumes the risk of loss from ZAI litigation is not probable. If Grace's view as to risk of loss is not sustained, management believes the cost to resolve the matter would be material.

Personal Injury Litigation Asbestos personal injury claimants allege adverse health effects from exposure to asbestos-containing products formerly manufactured by Grace. Historically, Grace's cost to resolve such claims has been influenced by numerous variables, including the nature of the disease alleged, product identification, proof of exposure to a Grace product, negotiation factors, the solvency of other former producers of asbestos containing products, cross-claims by co-defendants, the rate at which new claims are filed, the jurisdiction in which the claims are filed, and the defense and disposition costs associated with these claims.

Cumulatively through the Filing Date, 16,354 asbestos personal injury lawsuits involving approximately 35,720 claims were dismissed without payment of any damages or settlement amounts (primarily on the basis that Grace products were not involved) and approximately 55,489 lawsuits involving approximately 163,698 claims were disposed of (through settlements and judgments) for a total of \$645.6 million. As of the Filing Date, 129,191 claims for personal injury were pending against Grace. Grace believes that a substantial number of additional personal injury claims would have been received between the Filing Date and December 31, 2007 had such claims not been stayed by the Bankruptcy Court.

Asbestos-Related Liability The total recorded asbestos-related liability as of December 31, 2007 and 2006 was \$1,700 million and is included in liabilities subject to compromise in the accompanying Consolidated Balance Sheets. Grace adjusted its asbestos-related liability in the fourth quarter of 2004 based on its proposed plan of reorganization (the Debtors Plan) as discussed in Note 2. The amount recorded at December 31, 2007 and 2006 includes the \$1,613 million maximum amount reflected as a condition precedent to the Debtors Plan and \$87 million related to pre-Chapter 11 contractual settlements and judgments included in general unsecured claims.

Under the Debtors Plan, Grace is requesting that the Bankruptcy Court determine the aggregate dollar amount, on a net present value basis, that must be funded on the effective date of the Debtors Plan into an asbestos trust (established under Section 524(g) of the Bankruptcy Code) to pay all asbestos-related personal injury and property damage claims (including ZAI) entitled to payment under the Debtors Plan and related trust administration costs and expenses on the later of the effective date of the Debtors Plan or when allowed (the Funding Amount). It is a condition to confirmation of the Debtors Plan that the Bankruptcy Court shall conclude that the Funding Amount is not greater than \$1,613 million. This amount, which should be sufficient to fund over \$2 billion in pending and future claims, was based in part on Grace's 2004 evaluation of (1) existing but unresolved personal injury and property damage claims, (2) actuarially-based estimates of future personal injury claims, (3) the risk of loss from ZAI litigation, (4) proposed claim payments reflected in the Debtors Plan, and (5) the cost of trust administration and litigation. Based upon these and other factors, Grace was prepared to settle its asbestos-related claims at this amount as part of a consensual plan of reorganization. As part of the estimation and litigation process, the amounts proposed to or adopted by the Bankruptcy Court may be materially different than this amount.

The Bankruptcy Court has entered separate case management orders for estimating liability for pending and future personal injury claims and adjudicating pending property damage claims, excluding ZAI claims. The trial for estimating liability for personal injury claims commenced in January 2008. The Debtors expect that the estimated liability will provide the basis for determining the Funding Amount to be paid into the trust on the effective date of the Debtors Plan.

For personal injury claims, the Bankruptcy Court ordered that all claimants with claims pending as of the Filing Date (other than settled but unpaid claims) must complete detailed questionnaires providing information on, among other things, their medical condition, including

diagnostic support, exposure to Grace and non-Grace asbestos-containing products, employment history, and pending lawsuits against other companies. The

Edgar Filing: W R GRACE & CO - Form 10-K

Bankruptcy Court required questionnaires to be completed on or before July 12, 2006 and supplemental questionnaires to be completed on or before January 12, 2007.

The Bankruptcy Court also established procedures and deadlines for filing proofs of claims for asbestos personal injury claims pending as of the Filing Date. Claimants asserting claims subject to enforceable written settlement agreements dated prior to the Filing Date, which have not been fully paid or satisfied, were required to file proofs of claim by October 16, 2006. Claimants asserting claims that are not subject to such settlement agreements were required to file proofs of claim by November 15, 2006.

Grace has catalogued and analyzed the information furnished with the proofs of claim and questionnaires. This information and other information, including Grace's claims and settlement history, the experience of other defendants in asbestos-related litigation, and post-petition developments in asbestos-related litigation generally, have been analyzed and reviewed by experts; and Grace, the PI Committee and the FCR have submitted expert reports that each party will rely upon to support its respective estimate of Grace's asbestos personal injury liability. The estimate of such liability is expected to provide the basis for determining the appropriate funding amount to resolve current and future asbestos personal injury claims in a plan of reorganization. Copies of Grace's and the PI Committee's expert reports and portions of the FCR's expert report are available through the Bankruptcy Court. These expert reports (since supplemented, rebutted and made the subject of discovery) are based on data, methodologies and assumptions that may or may not be accepted by the Bankruptcy Court. Grace expects the estimation litigation process to conclude with hearings that began in January 2008 and are scheduled over 20 non-consecutive days ending in May 2008. Grace expects to adjust its recorded asbestos-related liability as necessary to reflect rulings made by the Bankruptcy Court following these hearings after consideration of all evidence presented by Grace, the official committees and the FCR. Such adjustments may be material.

For property damage claims, the case management order provides that estimation will be preceded by litigation on certain common threshold issues affecting a substantial majority of claims. Such litigation will consist of determining, among other things, (1) whether asbestos-containing products formerly manufactured by Grace are hazardous in place, and (2) compliance with the applicable statute of limitations. Grace has asked the Bankruptcy Court to rule on Grace's specific objections to individual claims and groups of claims.

The Funding Amount will primarily be a function of the number of property damage and personal injury claims entitled to be paid under the Debtors Plan, and the amount payable per claim. Through the estimation process, Grace will seek to demonstrate that most claims have no value because they fail to establish any material property damage, health impairment or significant occupational exposure to asbestos from Grace's operations or products. If the Bankruptcy Court agrees with Grace's position on the number of, and the amounts to be paid in respect of, allowed personal injury and property damage claims, then Grace believes that the Funding Amount could be less than \$1,613 million. However, this outcome is highly uncertain and will depend on a number of Bankruptcy Court rulings favorable to Grace's position.

Conversely, the PI and PD Committees and the FCR continue to assert that Grace's asbestos-related liabilities are substantially higher than \$1,613 million, and in fact are in excess of Grace's business value. If the Court accepts the position of the PI and PD Committees and the FCR, then any plan of reorganization likely would result in the loss of all or substantially all equity value by current shareholders. Therefore, due to the significant uncertainties of this process and asbestos litigation generally, Grace is not able to estimate a probable Funding Amount that would be accepted by the Bankruptcy Court.

However, as Grace is willing to proceed with confirmation of the Debtors Plan with a Funding Amount of up to \$1,613 million (assuming that other conditions precedent to confirmation of the Debtors Plan are satisfied, including the availability of the payment from Cryovac directly to the asbestos trust under the Sealed Air Settlement described in Note 2), Grace's recorded asbestos-related liability reflects the maximum amount allowed as a condition precedent under the Debtors Plan. This amount, plus \$87 million for pre-Chapter 11 contractual settlements and judgments, brings the total recorded asbestos-related liability as of December 31, 2007 and 2006 to \$1,700 million. Any differences between the

Debtors Plan as filed and as approved for confirmation could

fundamentally change the accounting measurement of Grace's asbestos-related liability and that change could be material.

Insurance Rights Grace holds insurance policies that provide coverage for 1962 to 1984 with respect to asbestos-related lawsuits and claims. For the most part, coverage for years 1962 through 1972 has been exhausted, leaving coverage for years 1973 through 1985 available for pending and future asbestos claims. Since 1985, insurance coverage for asbestos-related liabilities has not been commercially available to Grace.

For each insurance year, Grace's coverage consists of both primary and excess coverage. Primary coverage for an insurance year generally reimburses Grace for the portion of paid claims allocated to that year starting at the first dollar paid (after any deductible) through the coverage limit. With one exception, coverage disputes regarding Grace's primary insurance policies have been settled, and the settlement amounts have been paid in full. Excess insurance generally reimburses Grace for claims paid above a specified policy threshold through the coverage limit. For each insurance year, Grace's insurance program includes multiple layers of excess coverage. A layer of excess coverage, which may include multiple insurers, is triggered once claim payments that can be assigned to that insurance year are paid up to the threshold of that layer.

Grace has entered into settlement agreements with various excess insurance carriers. These settlements involve amounts paid and to be paid to Grace. The unpaid maximum aggregate amount available under these settlement agreements is approximately \$487 million. With respect to asbestos-related personal injury claims, the settlement agreements generally require that the claims be spread over the claimant's exposure period and that each insurer pay a pro rata portion of each claim based on the amount of coverage provided during each year of the total exposure period.

Presently, Grace has no agreements in place with insurers with respect to approximately \$430 million of excess coverage. Such policies are at layers of coverage that have not yet been triggered, but certain layers would be triggered if the Debtors Plan were approved at the recorded asbestos-related liability of \$1,700 million. In estimating its ultimate insurance recovery, Grace has assumed that its unsettled excess coverage will be available on terms that are substantially similar to the existing settlement agreements described above. Grace believes that any allowed ZAI claims also would be covered under the policies discussed above to the extent they relate to installations of ZAI occurring after July 1, 1973.

In addition, Grace has approximately \$253 million of excess coverage with insolvent or non-paying insurance carriers. Non-paying carriers are those that, although technically solvent, are not currently meeting their obligations to pay claims. Grace has filed and continues to file claims in the insolvency proceedings of these carriers. Grace periodically receives distributions from some of these insolvent carriers and expects to receive distributions in the future. Settlement amounts are recorded as income when received.

In November 2006, Grace entered into a settlement agreement with an underwriter of a portion of its excess insurance coverage. The insurer paid a settlement amount of \$90 million directly to an escrow account for the benefit of the holders of claims for which Grace was provided coverage under the affected policies. The escrow account balance at December 31, 2007 and 2006 approximated \$94.8 million and \$90.3 million, respectively, including interest earned on the account. Funds will be distributed from this account directly to claimants at the direction of the escrow agent pursuant to the terms of a confirmed plan of reorganization or as otherwise ordered by the Bankruptcy Court. The settlement agreement provides that unless Grace confirms a plan of reorganization by December 31, 2008, at the option of the insurer, exercisable at any time prior to April 30, 2009, the escrow amount with interest must be returned to the insurer. Grace will record the amount in the escrow account as an asset and reduce its asbestos insurance receivable balance if and when all contingencies for the release of such amount are satisfied.

Edgar Filing: W R GRACE & CO - Form 10-K

As of December 31, 2007, including the settlement discussed above and after subtracting previous reimbursements by insurers and allowing for discounts pursuant to certain settlement agreements, there remains approximately \$917 million of excess coverage from 54 presently solvent insurers. Grace estimates that eligible claims would have to exceed \$4 billion to access total coverage. Grace further estimates that, assuming the resolution value of asbestos-related claims is equal to the recorded liability of \$1,700 million (which should fund claim payments in

F-25

excess of \$2 billion), it should be entitled to approximately \$500 million of insurance recovery, including the escrow described above. This amount was determined by estimating the aggregate and per year payout for claims over time and applying the expected insurance recovery factor to such claims. However, the ultimate amount of insurance recovered on such claims will depend on a number of factors that will only be determined at the time claims are paid including: the nature of the claim (PI, PD or ZAI), the relevant exposure years, the timing of payment, the solvency of insurers and the legal status of policy rights. Accordingly, Grace's recorded estimate of insurance recovery may differ materially from actual amounts received.

4. Income Taxes

The components of income (loss) from consolidated operations before income taxes and the related benefit from (provision for) income taxes for 2007, 2006, and 2005 are as follows:

Income Taxes Consolidated Operations

(In millions)

	2007	2006	2005
Income (loss) before income taxes:			
Domestic	\$ 355.2	\$ (96.6)	\$ 10.5
Foreign	185.9	150.1	142.3
Intercompany eliminations	(466.6)	(27.1)	(64.2)
	\$ 74.5	\$ 26.4	\$ 88.6
Benefit from (provision for) income taxes:			
Federal current	\$ 29.0	\$ (8.5)	\$ 5.1
Federal deferred	34.5	41.8	13.8
State and local current	(1.3)	(1.4)	(1.0)
Foreign current	(66.2)	(43.0)	(47.5)
Foreign deferred	9.8	3.0	8.3
	\$ 5.8	\$ (8.1)	\$ (21.3)

The above table reflects the elimination in 2007 of approximately \$440 million of domestic income resulting from repatriated earnings.

At December 31, 2007 and 2006, the tax attributes giving rise to deferred tax assets and liabilities consisted of the following items:

Deferred Tax Analysis

(In millions)

	2007	2006
Deferred tax assets:		
Liability for asbestos-related litigation	\$ 595.0	\$ 595.0
Net operating loss/credit carryforwards	71.1	133.8
Deferred state taxes	121.0	146.9
Liability for environmental remediation	129.0	126.4
Other postretirement benefits	27.8	29.7
Reserves and allowances	40.8	38.6
Research and development	35.2	33.3
Pension liabilities	99.3	152.5
Foreign loss/credit carryforwards	36.6	24.8
Accrued interest on pre-petition debt	70.7	56.8

Edgar Filing: W R GRACE & CO - Form 10-K

Other		9.2	5.4
Total deferred tax assets	\$	1,235.7	\$ 1,343.2
Deferred tax liabilities:			
Asbestos-related insurance receivable	\$	(180.5)	\$ (180.5)
Deferred foreign and other income		(10.0)	(111.6)
Pension assets		(11.4)	(41.0)
Properties and equipment		(47.2)	(60.5)
Other		(80.0)	(63.7)
Total deferred tax liabilities	\$	(329.1)	\$ (457.3)
Valuation allowance:			
Deferred state taxes	\$	(121.0)	\$ (146.9)
Net federal tax assets			(21.7)
Foreign loss carryforwards		(22.0)	(16.6)
Total valuation allowance		(143.0)	(185.2)
Net deferred tax assets	\$	763.6	\$ 700.7

The deferred tax asset valuation allowance of \$143.0 million at December 31, 2007 consists of: (i) \$121.0 million related to net deferred state tax assets associated with current loss carryforwards and future tax deductions that are not likely to provide a cash benefit, and (ii) \$22.0 million related to foreign loss carryforwards that are not reasonably expected to be utilized in the future. The change in the valuation allowance from December 31, 2006 to 2007 primarily represents a \$25.9 million reduction in the estimated amount of state tax losses available to be utilized in the future. Similarly, the increase in valuation allowances related to foreign operating losses and other business credits corresponds to the increase in the available amount of such losses and credits. Based upon anticipated future results, Grace has concluded that it is more likely than not that the balance of the net deferred tax assets, after consideration of the valuation allowance, will be realized. Because of the nature of the items that make up this balance, the realization period is likely to extend over a number of years and the outcome of the Chapter 11 Cases could materially impact the amount and the realization period.

The tax credit carryforwards at December 31, 2007 of \$71.1 million consist of \$51.6 million of foreign tax credit carryforwards with expiration dates through 2017; \$0.6 million of general business credit carryforwards with expiration dates through 2025; and \$18.9 million of alternative minimum tax credit (AMTC) carryforwards with no expiration dates. However, the \$18.9 million of AMTC carryforwards includes \$15.8 million which will not be available if Grace is successful in resolving certain issues reflected as uncertain tax positions.

Grace has not yet recorded windfall tax benefits of \$14.0 million associated with stock option compensation that remained unrealized at the end of 2007.

Grace utilized approximately \$191 million of U.S. Federal net operating losses (NOLs) during 2007 as a result of the repatriation of earnings from non-U.S. subsidiaries. Grace anticipates generating additional NOLs upon emergence from bankruptcy as contemplated in the Debtors Plan. Because Grace did not pay a significant amount of U.S. taxes in prior years and/or has already received or applied for tax refunds from available NOL carryback years, it expects to carryforward most of its NOLs after emergence from bankruptcy. Under federal income tax law, a corporation is generally permitted to carryforward NOLs for a 20-year period for deduction against future taxable income. Grace's ability to deduct future NOL carryforwards could be significantly limited if it were to undergo an ownership change during or as a result of the Chapter 11 proceeding. During the course of the bankruptcy proceeding, the Bankruptcy Court entered an order that places certain limitations on trading in Grace common stock or options convertible into Grace common stock. Pursuant to these limitations, Grace intends to object to any purchase of Grace common stock or options that would potentially contribute to an ownership change. However, Grace can provide no assurance that these limitations will prevent an ownership change or that its ability to utilize future net operating loss carryforwards will not be significantly limited as a result of Grace's reorganization.

As part of Grace's evaluation and planning for the funding requirements of its plan of reorganization, Grace implemented a repatriation plan during 2007 resulting in payments of cash and promissory notes to the U.S. totaling \$442.2 million from non-U.S. subsidiaries. Grace continues to carry a deferred tax liability of \$10.0 million related to the expected tax cost of future repatriations of earnings. Grace has not provided for U.S. federal, state and foreign deferred income taxes on approximately \$675 million of undistributed earnings of foreign subsidiaries. Based upon Grace's current outlook and assumptions with respect to the amount of bankruptcy claims and foreign liquidity needs, Grace expects that these earnings will be retained indefinitely by such subsidiaries as they have been or will be reinvested locally. However, Grace will continue to monitor this position in light of the assumptions mentioned above.

The difference between the benefit from (provision for) income taxes at the federal income tax rate of 35% and Grace's overall income tax provision is summarized as follows:

Income Tax Benefit (Provision) Analysis

<i>(In millions)</i>	2007	2006	2005
Tax benefit (provision) at federal corporate rate	\$ (26.1)	\$ (9.2)	\$ (31.0)
Change in provision resulting from:			
Nontaxable income/non-deductible expenses	(2.4)	(1.9)	(1.5)
State and local income taxes, net of federal income tax benefit	(0.7)	(6.1)	11.1
Federal and foreign taxes on foreign operations	5.0	(3.2)	(1.6)
Change in APB 23 reserve	44.8	(42.0)	
Change in valuation allowance on deferred tax assets		60.1	(2.7)
Chapter 11 expenses (non-deductible)	(11.4)	(16.9)	(10.3)
Tax and interest relating to tax deductibility of interest on life insurance policy loans	(20.1)	1.4	1.2
Impact of rate changes on deferred tax balances	3.4		
Adjustments to tax and interest contingencies	13.3	9.7	13.5
Income tax benefit from (provision for) continuing operations	\$ 5.8	\$ (8.1)	\$ (21.3)

Edgar Filing: W R GRACE & CO - Form 10-K

In June 2006, the FASB issued Interpretation No. 48, Accounting for Uncertainty in Income Taxes (FIN 48), which Grace adopted effective January 1, 2007. Under FIN 48, Grace may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained upon examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position should be measured based on the largest benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement.

The effect of the implementation of FIN 48 was to reduce Grace's accumulated deficit as of January 1, 2007 by \$2.2 million. This amount primarily reflected recognition of U.S. federal tax benefits relating to certain expenses incurred in defense of creditor claims and various alternative minimum tax benefits arising from prior year audits, offset by certain increases to reserves on foreign income and undistributed foreign earnings. The amount of unrecognized tax benefits at January 1, 2007 was

F-27

\$200.2 million (\$154.9 million, excluding interest and penalties). The \$200.2 million of unrecognized tax benefits included \$45 million related to the deduction of certain capital losses in Grace's 1999 U.S. tax return.

The amount of unrecognized tax benefits at the end of 2007 was \$177.8 million (\$123.0 million, excluding interest and penalties). A reconciliation of the unrecognized tax benefits for the year ended December 31, 2007 follows:

Rollforward of Uncertain Tax Positions <i>(In millions)</i>	Unrecognized Tax Benefits
Balance as of January 1, 2007	\$ 154.9
Additions for current year tax positions	4.3
Additions for prior year tax positions	10.5
Reductions for prior year tax positions	(11.2)
Settlements	(35.5)
Reductions for expirations of statute of limitations	
Balance as of December 31, 2007	\$ 123.0

Of the total amount of unrecognized benefits of \$123.0 million, the amount that if recognized would affect the effective tax rate is equal to \$107.2 million. This is due to the fact that \$15.8 million of AMTC carryforwards recorded as deferred tax assets will not be available if Grace is successful in resolving certain issues.

Grace accrues potential interest and any associated penalties related to uncertain tax positions in benefit from (provision for) income taxes in the Consolidated Statements of Operations. The balances of Unrecognized Tax Benefits reflected above do not include accrued interest and penalties. The total amount of interest and penalties accrued on uncertain tax positions as of January 1, 2007 was \$59.1 million (\$45.3 million, net of applicable tax benefit). During 2007, Grace accrued additional interest expense and penalties of \$12.0 million (\$9.6 million, net of applicable tax benefit) resulting in a balance at December 31, 2007 of \$54.9 million (net of applicable tax benefit).

Grace files U.S. federal income tax returns as well as income tax returns in various states and foreign jurisdictions. In many cases, Grace's uncertain tax positions are related to tax years that remain subject to examination by the relevant taxing authorities. The following table summarizes these open tax years by major jurisdiction:

Tax Jurisdiction	Examination in Progress	Examination Not Yet Initiated
United States (1) (2)	1993-2004	2005-2007
Germany (1)	1998-2005	2006-2007
United Kingdom	None	2001-2007
Singapore	None	2001-2007
France	2004-2006	2007
Italy	None	2003-2007

(1) Includes federal as well as state, provincial or local jurisdictions, as applicable.

(2) In the U.S., the IRS is currently examining tax years 2002-2004. Tax years 1993-1996 and 1997-2001 have been examined and partially resolved and there are still pending issues in appeals or pending legal proceedings as described below.

Edgar Filing: W R GRACE & CO - Form 10-K

Based upon the outcome of these examinations, or as a result of the expiration of statute of limitations for specific jurisdictions, Grace believes there may be a material change to Grace's aggregate recorded liabilities for uncertain tax positions in the next twelve months with respect to the following matters:

1. With respect to the 1993-1996 federal income tax audit, there is one issue outstanding related to \$7 million of research and experimentation (R&E) credits. Grace has reached a settlement with the Internal Revenue Service (IRS) regarding this matter and is awaiting joint committee approval of an anticipated refund of approximately \$4.5 million.
2. With respect to the IRS examination of the 1997-2001 tax years, Grace has received revised examination reports from the IRS, which include the review of losses carried back to 1988-1989 (collectively, the Examination Reports) asserting, in the aggregate, approximately \$32.5 million of net additional tax plus accrued interest. The most significant issue addressed in the Examination Reports concerns the carryback of a specified liability loss from the 1998 tax period to the 1989 taxable year. On December 10, 2007, the Tax Court granted the parties Joint Motion for Continuance and forwarded the case to the IRS Appeals Office for the purpose of conducting settlement negotiations.
3. In the fourth quarter of 2007, Grace reached a resolution of a question regarding the 1999 recognition of a capital loss on the disposal of shares of an affiliated entity formed to assist Grace with its environmental remediation needs. The amount at issue was \$45 million. Grace reached a settlement agreement with the

IRS Appeals Office (pending Bankruptcy Court approval) under which Grace will be allowed a capital loss of \$32.2 million in lieu of the \$128.6 million originally claimed on its 1999 tax return. The settlement resulted in the recognition of \$11.3 million in tax benefits in December 2007. On February 25, 2008, the U.S. Bankruptcy Court issued an order authorizing Grace to proceed with the settlement agreement.

4. The IRS examination of the 2002-2004 years was still ongoing at the end of 2007. Issues raised were considered in connection with the increase in the amount accrued for uncertain tax positions during 2007 (see the Rollforward of Uncertain Tax Positions table above). Grace expects that the examination will be concluded in the first quarter of 2008, but further impact on the balance of uncertain tax positions is not yet determinable.

Other Tax Matters

In January 2007, Grace settled with the IRS on the matter related to federal income tax withholding and Federal Insurance Contributions Act taxes for calendar years 1993 through 1998 of a Grace subsidiary that formerly operated a temporary staffing business for health care personnel. Grace paid a \$13.0 million settlement and received an indemnification payment of approximately \$2.7 million from its former partner in the business.

5. Acquisitions and Divestments

In August 2007, Grace sold its washcoat product line, which accounted for approximately \$25.8 million of Grace Davison operating segment net sales in 2006.

In July 2007, Grace acquired certain assets of Grupo Sistiaga S.L., a supplier of coatings for aluminum containers located in Hernani, Spain. The acquired assets and liabilities and the results of operations of the acquired business are reflected in financial results of the Grace Davison operating segment.

In June 2007, Grace, through its Advanced Refining Technologies, LLC (ART) joint venture with Chevron Products Company, completed the purchase of twelve million shares of the Kuwaiti Catalyst Company (KCC), which resulted in an approximate 18% ownership of the outstanding common stock of KCC. ART acquired the interest in KCC for the equivalent of \$6.3 million, paid in cash, and has accounted for the investment under the equity method.

In June 2006, Grace acquired the custom catalyst manufacturing assets of Basell, USA, as well as Basell's components business for cash consideration of \$19.6 million. The manufacturing assets and the results of operations of the acquired business have been included as part of the Grace Davison operating segment since the date of acquisition.

6. Other (Income) Expense, net

Components of other (income) expense, net are as follows:

Other (Income) Expense, net

(In millions)

	2007	2006	2005
Income from insurance settlements with insolvent insurance companies	\$ (1.0)	\$ (12.5)	\$ (44.5)
COLI income, net	(5.4)	(4.1)	(3.5)
Interest income	(7.7)	(7.0)	(3.6)
Net (gain) loss on sales of investments and disposals of assets	(1.9)	(0.6)	0.7
Currency translation intercompany loans	(10.5)	(23.1)	35.9
Value of currency contracts	8.2	21.5	(35.7)
Other currency transaction effects	2.8	3.3	(0.1)
Other miscellaneous income	(17.6)	(11.8)	(16.6)
Total other (income) expense, net	\$ (33.1)	\$ (34.3)	\$ (67.4)

7. Goodwill and Other Intangible Assets

For the purpose of measuring impairment under the provisions of SFAS No. 142, Grace has identified its reporting units as the product groups at one level below its operating segments. Grace has evaluated its goodwill annually as of November 30 with no impairment charge required in any of the periods presented.

Edgar Filing: W R GRACE & CO - Form 10-K

The carrying amount of goodwill attributable to each operating segment and the changes in those balances during the year ended December 31, 2007 are as follows:

<i>(In millions)</i>	Grace Davison	Grace Construction Products	Total Grace
Balance as of December 31, 2006	\$ 54.0	\$ 62.5	\$ 116.5
Goodwill acquired during the year			
Foreign currency translation / other adjustments	1.6	4.1	5.8
Balance as of December 31, 2007	\$ 55.6	\$ 66.6	\$ 122.3

Grace's net book value of other intangible assets at December 31, 2007 and December 31, 2006 was \$82.2 million and \$84.9 million, respectively, detailed as follows:

<i>(In millions)</i>	As of December 31, 2007	
	Gross Carrying Amount	Accumulated Amortization
Technology	\$ 45.3	\$ 19.3
Patents	1.2	0.2
Customer lists	56.1	21.6
Other	31.1	10.4
Total	\$ 133.7	\$ 51.5

<i>(In millions)</i>	As of December 31, 2006	
	Gross Carrying Amount	Accumulated Amortization
Technology	\$ 43.6	\$ 15.7
Patents	1.6	0.6
Customer lists	52.3	16.3
Other	28.0	8.0
Total	\$ 125.5	\$ 40.6

At December 31, 2007, estimated future annual amortization expenses for intangible assets are:

Estimated Amortization Expense

<i>(In millions)</i>	
2008	\$ 10.1
2009	10.3
2010	9.8
2011	9.7
2012	8.9

8. Comprehensive Income (Loss)

The tables below present the pre-tax, tax and after-tax components of Grace's other comprehensive income (loss) for the years ended December 31, 2007, 2006, and 2005:

Year Ended December 31, 2007

<i>(In millions)</i>	Pre-Tax Amount	Tax Benefit / (Expense)	After Tax Amount
Defined benefit pension and other postretirement plans:			
Net deferred actuarial loss arising during period	\$ (29.1)	\$ 9.9	\$ (19.2)
Amortization of net prior service credit included in net periodic benefit cost	(6.5)	2.3	(4.2)
Amortization of net deferred actuarial loss included in net periodic benefit cost	28.4	(9.7)	18.7
Benefit plans, net	(7.2)	2.5	(4.7)
Gain (loss) from hedging activities	0.9	(0.1)	0.8
Foreign currency translation adjustments	43.7	0.9	44.6
Other comprehensive income (loss)	\$ 37.4	\$ 3.3	\$ 40.7

Year Ended December 31, 2006

<i>(In millions)</i>	Pre-Tax Amount	Tax Benefit / (Expense)	After Tax Amount
Minimum pension liability adjustments	\$ 107.5	\$ (37.6)	\$ 69.9
Gain (loss) from hedging activities	(1.9)	0.6	(1.3)
Foreign currency translation adjustments	36.8		36.8
Other comprehensive income (loss)	\$ 142.4	\$ (37.0)	\$ 105.4

Year Ended December 31, 2005

<i>(In millions)</i>	Pre-Tax Amount	Tax Benefit	After Tax Amount
Minimum pension liability adjustments	\$ (23.5)	\$ 8.3	\$ (15.2)
Foreign currency translation adjustments	(28.7)		(28.7)
Other comprehensive income (loss)	\$ (52.2)	\$ 8.3	\$ (43.9)

Components of Accumulated Other

Comprehensive Income (Loss), Net of Tax	Foreign currency translation adjustments	Gain (loss) from hedging activities	Pension accounting	Total accumulated other comprehensive loss
<i>(In millions)</i>				
Balance as of December 31, 2005	\$ (31.2)	\$	\$ (362.7)	\$ (393.9)
Current-period change	36.8	(1.3)	69.9	105.4
Adoption of SFAS 158 (See Note 19)			(102.3)	(102.3)
Balance as of December 31, 2006	\$ 5.6	\$ (1.3)	\$ (395.1)	\$ (390.8)
Current-period change	44.6	0.8	(4.7)	40.7
Balance as of December 31, 2007	\$ 50.2	\$ (0.5)	\$ (399.8)	\$ (350.1)

Accumulated other comprehensive income (loss) related to the defined benefit pension and other postretirement plans at December 31, 2007 represents the accumulation of net actuarial losses of \$404.7 million as well as net prior service credits of \$4.9 million. These amounts are net of tax and are amortized as a component of net periodic benefit cost. For the year ended December 31, 2007, the pre-tax benefit recognized related

Edgar Filing: W R GRACE & CO - Form 10-K

to prior service credits was \$6.5 million, and the pre-tax expense recognized for amortization of accumulated actuarial losses was \$28.4 million. In addition, \$29.1 million of additional pre-tax comprehensive loss was recognized for net deferred actuarial losses arising during the year ended December 31, 2007 (see Note 19 for more information).

From time to time, Grace enters into commodity derivatives such as forward contracts or option contracts directly with natural gas suppliers, and fixed-rate swaps with financial institutions to mitigate the risk of volatility of natural gas prices. Under fixed-rate swaps, Grace locks in a fixed rate with a financial institution for future natural gas purchases, purchases its natural gas from a supplier at the prevailing market rate, and settles with the bank for any difference in the rates, thereby swapping a variable rate for a fixed rate. In 2007, Grace utilized fixed-rate swaps to mitigate the risk of natural gas price volatility. In 2006, Grace purchased a combination of forward contracts, fixed-rate swaps and options for a portion of its expected natural gas requirements. Grace's forward contracts for natural gas qualify for the normal purchases and normal sales exception

F-31

from SFAS No. 133, as they do not contain net settlement provisions, and result in physical delivery of natural gas from suppliers. Therefore, the fair values of these contracts are not recorded in the Consolidated Balance Sheets. The outstanding swaps are treated as effective cash flow hedges for accounting purposes and revalued at the end of each quarter, with corresponding adjustments to other comprehensive income (loss).

Grace is a global enterprise operating in over 40 countries with local currency generally deemed to be the functional currency for accounting purposes. The foreign currency translation amount represents the adjustments necessary to translate the balance sheets valued in local currencies to the U.S. dollar as of the end of each period presented, and to translate revenues and expenses at average exchange rates for each period presented. As part of its risk management program, Grace enters into foreign currency exchange rate forward and/or option contracts to mitigate the effects of exchange rate fluctuations. Grace also utilizes foreign currency forward exchange rate and/or option contracts from time to time to hedge the value of its net investment in certain foreign entities. The outstanding foreign currency forward contracts and options were treated as effective cash flow hedges and/or net investments hedges, as appropriate, for accounting purposes and revalued at the end of each quarter, with corresponding adjustments to other comprehensive income (loss).

9. Investment Securities

Investment securities of \$100.9 million and \$2.4 million at December 31, 2007 and 2006, respectively, consist of direct or indirect investments in debt securities. Prior to the fourth quarter of 2007, Grace's investment in the Columbia Strategic Cash Fund was classified in cash and cash equivalents as redemptions were available in cash. In December 2007, the fund began an orderly liquidation that is expected to continue through 2008 and restricted redemptions to an in-kind distribution of securities held by the fund. Grace has elected to remain in the fund and to value the fund based on the underlying securities as determined by the fund principals. The strategic cash investment fund was valued at \$98.3 million at December 31, 2007, which includes an impairment loss of \$1.4 million recorded in the fourth quarter of 2007 due to unfavorable conditions of the credit markets. The impairment loss is recorded as an offset to interest income earned on the Columbia Strategic Cash Fund by the Debtors, which is net against Chapter 11 expenses in the Consolidated Statements of Operations. This impairment was deemed to be other than temporary, and as such, was recorded in earnings.

10. Other Balance Sheet Accounts

<i>(In millions)</i>	December 31, 2007	December 31, 2006
Inventories ⁽¹⁾		
Raw materials	\$ 76.3	\$ 59.6
In process	44.7	41.4
Finished products	207.1	189.8
General merchandise	38.2	35.6
Less: Adjustment of certain inventories to a LIFO basis ⁽²⁾	(62.8)	(41.8)
	\$ 303.5	\$ 284.6
Other Assets		
Deferred charges	\$ 40.9	\$ 38.1
Long-term receivables, less allowances of \$0.0 (2006 - \$0.5)	1.3	7.9
Patents, licenses and other intangible assets, net	82.2	84.9
Investments in unconsolidated affiliates and other	12.2	0.6
	\$ 136.6	\$ 131.5
Other Current Liabilities		
Accrued compensation	\$ 97.2	\$ 90.4
Customer volume rebates	44.1	41.8
Accrued commissions	11.6	13.5

Edgar Filing: W R GRACE & CO - Form 10-K

Accrued reorganization fees		27.5		24.9
Income tax payable		30.4		13.9
Deferred tax liability		8.8		6.7
Other accrued liabilities		105.5		81.4
		\$	325.1	\$
				272.6
Other Liabilities				
Long-term self insurance reserve	\$	8.0	\$	8.0
Retained obligations of divested businesses		5.3		5.3
Long-term incentive compensation		13.8		12.2
Other accrued liabilities		19.1		17.8
	\$	46.2	\$	43.3

-
- (1) Inventories valued at LIFO cost comprised 47.0% of total inventories at December 31, 2007 and 48.2% at December 31, 2006.
- (2) During 2007 and 2006, a reduction in U.S. LIFO inventory levels resulted in costs pertaining to prior years being reflected in cost of sales for the 2007 and 2006 year. This had the effect of increasing pre-tax income by \$0.9 million in each year compared with current cost.

Accrued compensation in the table above includes salaries and wages as well as estimated current amounts due under the annual and long-term incentive programs.

11. Properties and Equipment

<i>(In millions)</i>	2007	2006
Land	\$ 23.0	\$ 22.4
Buildings	460.7	440.4
Information technology and equipment	144.9	125.8
Machinery, equipment and other	1,571.0	1,513.8
Projects under construction	51.5	72.6
Properties and equipment, gross	2,251.1	2,175.0
Accumulated depreciation and amortization	(1,545.0)	(1,510.5)
Properties and equipment, net	\$ 706.1	\$ 664.5

Capitalized interest costs amounted to \$2.0 million in 2007 and \$1.2 million in 2006. Depreciation and lease amortization expense relating to properties and equipment amounted to \$104.4 million in 2007, \$104.2 million in 2006, and \$111.9 million in 2005. Grace's rental expense for operating leases amounted to \$20.8 million in 2007, \$18.6 million in 2006, and \$18.7 million in 2005.

At December 31, 2007, minimum future non-cancelable payments for operating leases were:

Minimum Future Payments Under Operating Leases

<i>(In millions)</i>	
2008	\$ 23.1
2009	18.6
2010	12.0
2011	8.2
2012	5.6
Thereafter	8.9
Total minimum lease payments	\$ 76.4

The above minimum non-cancelable lease payments are net of anticipated sublease income of \$2.4 million in 2008, \$2.2 million in 2009, \$1.5 million in 2010, \$1.1 million in 2011, and \$1.1 million in 2012.

12. Life Insurance

Grace is the beneficiary of corporate-owned life insurance (COLI) policies on certain current and former employees with net cash surrender values of \$81.0 million and \$89.2 million at December 31, 2007 and 2006, respectively. The following tables summarize activity in these policies for 2007, 2006 and 2005, and the components of net cash value at December 31, 2007 and 2006:

Life Insurance - Activity Summary

<i>(In millions)</i>	2007	2006	2005
Earnings on policy assets	\$ 6.2	\$ 5.6	\$ 6.3
Interest on policy loans	(0.9)	(1.5)	(2.8)
Premiums	1.7	2.3	1.7
Policy loan repayments	0.1	0.1	0.6
Proceeds from termination of life insurance policies	(14.8)	(0.3)	(14.8)
Net investing activity	(0.5)	(1.8)	(2.2)
Change in net cash value	\$ (8.2)	\$ 4.4	\$ (11.2)
Tax-free proceeds received	\$ 0.3	\$ 2.3	\$ 2.2

Components of Net Cash Value

<i>(In millions)</i>	December 31,	
	2007	2006
Gross cash value	\$ 85.8	\$ 114.7
Principal policy loans	(4.7)	(25.0)
Accrued interest policy loans	(0.1)	(0.5)
Total net cash value	\$ 81.0	\$ 89.2
Less: current portion	(77.1)	
Net cash value long term	\$ 3.9	\$ 89.2
Insurance benefits in force	\$ 141.1	\$ 197.9

Grace's financial statements display income statement activity and balance sheet amounts on a net basis, reflecting the contractual interdependency of policy assets and liabilities.

In November and December 2007, Grace surrendered and terminated life insurance policies and received approximately \$14.8 million of net cash value from the terminations. As a result of the terminations, gross cash value of the policies was reduced by approximately \$36.3 million and policy loans of approximately \$20.9 million were satisfied. Grace's insurance benefits in force was reduced by approximately \$60.1 million.

13. Debt

Components of Debt

<i>(In millions)</i>	2007	2006
Debt payable within one year ⁽¹⁾	\$ 4.7	\$ 3.3
Debt payable after one year		
DIP facility ⁽²⁾	\$	\$
Other long-term borrowings	0.3	0.2
	\$ 0.3	\$ 0.2
Debt Subject to Compromise		
Bank borrowings ⁽³⁾	\$ 500.0	\$ 500.0
Accrued interest on bank borrowings ⁽⁴⁾	283.0	223.1
Drawn letters of credit ⁽⁵⁾	23.6	13.8
Accrued interest on drawn letters of credit	3.3	2.6
	\$ 809.9	\$ 739.5
Full-year weighted average interest rates on total debt	8.1%	7.9%

(1) Represents borrowings under various lines of credit and other miscellaneous borrowings, primarily by non-U.S. subsidiaries.

F-33

- (2) In April 2001, the Debtors entered into a debtor-in-possession post-petition loan and security agreement with Bank of America, N.A. (the DIP facility) in the aggregate amount of \$250 million. The DIP facility is secured by priority liens on substantially all assets of the Debtors, and bears interest based on LIBOR plus 2 to 2.25 percentage points. The term of the DIP facility expires April 1, 2008. As of December 31, 2007 and 2006, the Debtors had no outstanding borrowings under the DIP facility. However, \$56.3 million and \$55.4 million of standby letters of credit were issued and outstanding under the facility as of December 31, 2007 and 2006, respectively, which were issued mainly for trade-related matters such as performance bonds, as well as certain insurance and environmental matters. The outstanding amount of standby letters of credit, as well as other holdback provisions issued under the DIP facility reduces the borrowing availability to \$178.5 million at December 31, 2007. Under the DIP facility, the Debtors are required to maintain \$50 million of liquidity, in a combination of cash, cash equivalents and the net cash value of life insurance policies.
- (3) Under bank revolving credit agreements in effect prior to the Filing, Grace could borrow up to \$500 million at interest rates based upon the prevailing prime, federal funds and/or Eurodollar rates. Of that amount, \$250 million was available under short-term facilities expiring in May 2001, and \$250 million was available under a long-term facility expiring in May 2003. As a result of the Filing, Grace was in default under the bank revolving credit agreements, and accordingly, the balance as of the Filing Date was reclassified to debt subject to compromise in the Consolidated Balance Sheet.
- (4) In the fourth quarter of 2004, Grace accrued \$69.5 million to increase its estimate of interest to which holders of the Debtors' pre-petition bank credit facilities and letters of credit would be entitled under the Debtors Plan to 6.09%. Grace continued to accrue interest at this rate throughout 2005. Beginning January 1, 2006, Grace agreed to pay interest on pre-petition bank debt at the prime rate, adjusted for periodic changes and compounded quarterly; such rate averaged 8.1% over 2007.
- (5) Amounts drawn on letters of credit pursuant to settled but unpaid claims.

14. Financial Instruments and Risk

Debt and Interest Rate Swap Agreements Grace was not a party to any debt or interest rate swaps at December 31, 2007 and December 31, 2006.

Commodity Risk Certain raw materials and energy sources are subject to price fluctuation. Grace hedges against volatility in certain raw material and energy purchases, using financial instruments as appropriate. Grace also enters into long term supply agreements and/or forward commitments to secure materials at stable prices and in quantities fully expected to be used in production. During 2007 and 2006, Grace entered into fixed-price swaps with financial institutions, forward contracts with natural gas suppliers, and options agreements with natural gas suppliers to manage the cost of a portion of quantities required for use at certain production plants.

Currency Risk Because Grace does business in over 40 countries, results are exposed to fluctuations in foreign exchange rates. Grace seeks to minimize exposure to these fluctuations by matching revenue streams in volatile currencies with expenditures in the same currencies, but it is not always possible to do so. From time to time Grace will use financial instruments such as foreign currency forward contracts, options, or combinations of the two to reduce the risk of certain specific transactions. However, Grace does not have a policy of hedging all exposures, because management does not believe that such a level of hedging would be cost-effective, particularly translation exposures that are not expected to affect cash flows in the near term.

In 2004, Grace purchased forward contracts to minimize currency risk related to euro denominated intercompany loans due to a U.S. subsidiary of Grace. In 2005, Grace extended the remaining portion of these forward foreign currency contracts. The intercompany loans and the forward foreign currency contracts mature in 2008. In November 2007, Grace purchased additional forward foreign currency contracts to mitigate the effect of foreign currency translation with respect to new intercompany loans between its principal U.S. subsidiary and a German subsidiary.

In February 2006, Grace adopted a currency risk management program. Pursuant to this program, Grace has entered into derivative instruments such as foreign currency forward contracts and options to hedge its exposure to foreign currency fluctuations in various currencies.

Edgar Filing: W R GRACE & CO - Form 10-K

Fair Value of Debt and Other Financial Instruments At December 31, 2007, the fair value of Grace's debt payable within one year not subject to compromise approximated the recorded value of \$4.7 million. Fair value is determined based on expected future cash flows (discounted at market interest rates), quotes from financial institutions and other appropriate valuation methodologies. At December 31, 2007, the recorded values of other financial instruments such as cash equivalents, short-term investments, trade receivables and payables and short-term debt approximated their fair values, based on the short-term maturities and floating rate characteristics of these instruments. At December 31, 2007, the carrying value of Grace's bank debt subject to compromise plus interest was \$783.0 million. The estimated fair value of the bank debt is higher than the carrying value; however, because such debt is subject to compromise in Grace's Chapter 11

F-34

proceeding, neither carrying values nor market values may reflect ultimate liquidation value.

Credit Risk Trade receivables potentially subject Grace to credit risk. Concentrations of credit to customers in the petroleum and construction industries represent the greatest exposure. Grace's credit evaluation policies, relatively short collection terms and history of minimal credit losses mitigate credit risk exposures. Grace does not generally require collateral for its trade accounts receivable, but may require a bank letter of credit in certain instances, particularly when selling to customers in cash restricted countries.

15. Commitments and Contingent Liabilities

Asbestos-Related Liability See Note 3

Environmental Remediation Grace is subject to loss contingencies resulting from extensive and evolving federal, state, local and foreign environmental laws and regulations relating to the generation, storage, handling, discharge and disposition of hazardous wastes and other materials. Grace accrues for anticipated costs associated with investigative and remediation efforts where an assessment has indicated that a probable liability has been incurred and the cost can be reasonably estimated. These accruals do not take into account any discounting for the time value of money.

Grace's environmental liabilities are reassessed whenever circumstances become better defined or remediation efforts and their costs can be better estimated. These liabilities are evaluated based on currently available information, including the progress of remedial investigation at each site, the current status of discussions with regulatory authorities regarding the method and extent of remediation at each site, existing technology, prior experience in contaminated site remediation and the apportionment of costs among potentially responsible parties. Grace expects that the funding of environmental remediation activities will be affected by the Chapter 11 proceedings.

At December 31, 2007, Grace's estimated liability for environmental investigative and remediation costs totaled \$368.6 million, as compared with \$361.1 million at December 31, 2006. The amount is based on funding and/or remediation agreements in place and Grace's best estimate of its cost for sites not subject to a formal remediation plan. During the first quarter of 2008, Grace filed a motion with the Bankruptcy Court for approval of one of the largest of these remediation agreements, a multi-site settlement agreement that Grace has executed with the U.S. Government, on behalf of the Environmental Protection Agency (EPA) and other federal agencies. This agreement addresses 38 sites for which the EPA has filed a claim against Grace. Under this agreement, Grace would pay approximately \$44 million to the U.S. Government and other parties in settlement of 35 of these outstanding claims. In return, the U.S. Government would agree not to take action against Grace under the Comprehensive Environmental Response, Compensation, and Liability Act with respect to such sites. Grace intends to separately fund or carry out remediation at the three remaining sites, including remediation relating to Grace's former vermiculite mining processing site in Libby, Montana discussed below. Grace's estimated environmental liabilities are included in liabilities subject to compromise in the accompanying Consolidated Balance Sheets.

Grace recorded pre-tax charges of \$17.0 million and \$30.0 million for environmental matters in 2007 and 2006, respectively. Of the pre-tax charges, \$14.4 million and \$28.0 million, respectively, was in connection with cost recovery obligations arising out of a lawsuit brought by the U.S. Government (see below). The remainder of the pre-tax charges were attributable to the ongoing review of recorded environmental liabilities.

Edgar Filing: W R GRACE & CO - Form 10-K

Net cash expenditures charged against previously established reserves for the years ended December 31, 2007, 2006, and 2005 were \$9.5 million, \$10.9 million, and \$28.0 million, respectively. Cash expenditures in 2005 included a settlement payment of \$21.3 million related to a formerly owned site.

Vermiculite Related Matters

EPA Cost Recovery Claim As a result of a 2002 U.S. District Court ruling, Grace is required to reimburse the U.S. Government for \$54.5 million (plus interest) in costs expended through December 2001, and for all appropriate future costs to complete asbestos-related remediation relating to Grace's former vermiculite mining and processing activities in the Libby, Montana area. These costs include cleaning and/or demolition of contaminated buildings, excavation and removal of contaminated soil, health screening of Libby

residents and former mine workers, and investigation and monitoring costs.

Grace's total estimated liability for asbestos remediation related to its former vermiculite operations in Libby, including the cost of remediation at vermiculite processing sites outside of Libby, at December 31, 2007 and 2006 was \$270.8 million and \$255.2 million, respectively, excluding interest. The estimated obligation as of each date includes \$162.5 million for asserted reimbursable costs through 2005 (which includes the \$54.5 million charge discussed above). The estimate as of each date does not include the cost to remediate the Grace-owned mine site at Libby or other nearby properties that may require remediation, which costs are not currently estimable. Grace's estimate of costs is based on information exchanged with the EPA in the first quarter of 2008.

Montana Criminal Proceeding On February 7, 2005, the United States Department of Justice announced the unsealing of a grand jury indictment against Grace and seven former senior level employees (*United States of America v. W. R. Grace & Co. et al*) relating to Grace's former vermiculite mining and processing activities in Libby, Montana. The indictment accuses the defendants of (1) conspiracy to violate environmental laws and obstruct federal agency proceedings; (2) violations of the federal Clean Air Act; and (3) obstruction of justice.

Grace purchased the Libby mine in 1963 and operated it until 1990; vermiculite processing activities continued until 1992. The grand jury charges that the conspiracy took place from 1976 to 2002. According to the U.S. Department of Justice, Grace could be subject to fines in an amount equal to twice the after-tax profit earned from its Libby operations or twice the alleged loss suffered by victims, plus additional amounts for restitution to victims. The indictment alleges that such after-tax profits were \$140 million. Grace has categorically denied any criminal wrongdoing and intends to vigorously defend itself at trial.

In July 2006, the U.S. District Court for the District of Montana dismissed a portion of the conspiracy count of a superseding indictment alleging conspiracy to knowingly endanger residents of the Libby area and others in violation of the Clean Air Act. In August 2006, the District Court granted a motion by the defendants to exclude as evidence sample results that included minerals that do not constitute asbestos under the Clean Air Act. The Government appealed these and other rulings to the Ninth Circuit Court of Appeals. In September 2007, the Ninth Circuit overturned the July 2006 and August 2006 District Court rulings. In December 2007, Grace's petition for rehearing concerning these rulings was denied. Grace intends to appeal the Ninth Circuit's ruling to the Supreme Court. A trial date has not yet been scheduled.

The U.S. Bankruptcy Court previously granted Grace's request to advance legal and defense costs to the employees involved in this case, subject to a reimbursement obligation if it is later determined that the employees did not meet the standards for indemnification set forth under the appropriate state corporate law. For the years ended December 31, 2007, 2006, and 2005, total expense for Grace and the employees was \$19.0 million, \$52.7 million, and \$20.0 million, respectively, which amounts are included in selling, general and administrative expenses in the accompanying Consolidated Statements of Operations. Cumulative expenses to address this matter were \$91.7 million through December 31, 2007.

Grace is unable to assess whether the indictment, or any conviction resulting therefrom, will have a material adverse effect on the results of operations or financial condition of Grace or affect Grace's bankruptcy proceedings. While the appeal is pending, Grace expects legal fees for this matter to be \$3 million to \$4 million per quarter. Grace intends to expense such costs as they are incurred.

New Jersey Lawsuit On June 1, 2005, the New Jersey Department of Environmental Protection (DEP) filed a lawsuit against Grace and two former employees in the Superior Court of New Jersey Law Division: Mercer County (*N.J. Dept. of Environmental Protection v. W.R. Grace & Co. et al.*) seeking civil penalties for alleged misrepresentations and false statements made in a Preliminary Assessment/Site Investigation Report and Negative Declarations submitted by Grace to the DEP in 1995 pursuant to the New Jersey Industrial Site Recovery Act. Grace submitted the

Edgar Filing: W R GRACE & CO - Form 10-K

report, which was prepared by an independent environmental consultant, in connection with the closing of Grace's former plant in Hamilton Township, New Jersey. The State of New Jersey and the U.S. Department of Justice also have conducted criminal investigations related to Grace's former operations of the Hamilton plant.

but Grace is not aware of any recent activity related to such investigations.

Grace purchased the Hamilton plant assets in 1963 and ceased operations in 1994. During the operating period, Grace produced spray-on fire protection products and other vermiculite-based products at this plant. The current property owners are conducting remediation activities as directed by the EPA. The property owners and the EPA have filed proofs of claim against Grace seeking approximately \$4.2 million with respect to the Hamilton plant site, which is contemplated as part of the multi-site settlement agreement described above.

In August 2007, the Bankruptcy Court denied the State of New Jersey's motion for leave to file a late proof of claim in the amount of \$31 million. This ruling, which the State of New Jersey has appealed, does not affect the claims against the former employees, for which Grace would have an indemnification obligation.

Non-Vermiculite Related Matters

At December 31, 2007 and 2006, Grace's estimated liability for remediation of sites not related to its former vermiculite mining and processing activities was \$97.8 million and \$105.9 million, respectively. This liability relates to Grace's current and former operations, including its share of liability for off-site disposal at facilities where it has been identified as a potentially responsible party. Grace's estimated liability is based upon an evaluation of claims for which sufficient information was available and the liabilities settled pursuant to the multi-site settlement agreement described above. As Grace receives new information and continues its claims evaluation process, its estimated liability may change materially.

Purchase Commitments Grace engages in purchase commitments to minimize the volatility of major components of direct manufacturing costs including natural gas, certain metals, asphalt, amines and other materials. Such commitments are for quantities that Grace fully expects to use in its normal operations.

Guarantees and Indemnification Obligations Grace is a party to many contracts containing guarantees and indemnification obligations. These contracts primarily consist of:

- Contracts providing for the sale of a former business unit or product line in which Grace has agreed to indemnify the buyer against liabilities arising prior to the closing of the transaction, including environmental liabilities. These liabilities are included in liabilities subject to compromise in the accompanying Consolidated Balance Sheets.
- Guarantees of real property lease obligations of third parties, typically arising out of (a) leases entered into by former subsidiaries of Grace, or (b) the assignment or sublease of a lease by Grace to a third party. These obligations are included in liabilities subject to compromise in the accompanying Consolidated Balance Sheets.
- Licenses of intellectual property by Grace to third parties in which Grace has agreed to indemnify the licensee against third party infringement claims.

- Contracts entered into with third party consultants, independent contractors, and other service providers in which Grace has agreed to indemnify such parties against certain liabilities in connection with their performance. Based on historical experience and the likelihood that such parties will make a claim against Grace, Grace believes that such indemnification obligations are immaterial.
- Product warranties with respect to certain products sold to customers in the ordinary course of business. These warranties typically provide that product will conform to specifications. Grace generally does not establish a liability for product warranty based on a percentage of sales or other formula. Grace accrues a warranty liability on a transaction-specific basis depending on the individual facts and circumstances related to each sale. Both the liability and annual expense related to product warranties are immaterial to the Consolidated Financial Statements.

Financial Assurances Financial assurances have been established for a variety of purposes, including insurance and environmental matters, asbestos settlements and appeals, trade-related commitments and other matters. At December 31, 2007, Grace had gross financial assurances issued and outstanding of \$277.6 million, comprised of \$140.6 million of surety bonds issued by various insurance companies, and \$137.0 million of

standby letters of credit and other financial assurances issued by various banks. As discussed in Note 13, \$56.3 million of these financial assurances have been issued under the DIP facility.

In connection with a 1994 divestment, Grace obtained a letter of credit in the maximum amount of \$25.0 million to secure scheduled payments on bonds issued to fund the transaction. Amounts drawn under this letter of credit aggregated \$4.2 million through December 31, 2007. The last of the bonds matures in November 2016. Because the primary source of bond payment funds is revenue from contracts under which timing and amounts of sales are variable, it is not possible to predict future draws.

Accounting for Contingencies Although the outcome of each of the matters discussed above cannot be predicted with certainty, Grace has assessed its risk and has made accounting estimates as required under U.S. generally accepted accounting principles. As a result of the Filing, claims related to certain of the items discussed above will be addressed as part of Grace's Chapter 11 proceedings. Accruals recorded for such contingencies have been included in liabilities subject to compromise in the accompanying Consolidated Balance Sheets. The amounts of these liabilities as ultimately determined through the Chapter 11 proceedings could be materially different from amounts recorded at December 31, 2007.

16. Shareholders' Equity (Deficit)

Under its Certificate of Incorporation, the Company is authorized to issue 300,000,000 shares of common stock, \$0.01 par value. Of the common stock unissued at December 31, 2007, 1,868,963 shares were reserved for issuance pursuant to stock options and other stock incentives. The Company has not paid a dividend on its common stock since 1998. The Company is not permitted to pay dividends on its common stock while it is in Chapter 11. The Certificate of Incorporation also authorizes 53,000,000 shares of preferred stock, \$0.01 par value, none of which has been issued. Of the total, 3,000,000 shares have been designated as Series A Junior Participating Preferred Stock and are reserved for issuance in connection with the Company's Preferred Stock Purchase Rights (Rights). A Right trades together with each outstanding share of common stock and entitles the holder to purchase one one-hundredth of a share of Series A Junior Participating Preferred Stock under certain circumstances and subject to certain conditions. The Rights are not and will not become exercisable unless and until certain events occur, and at no time will the Rights have any voting power. The Rights agreement expires March 31, 2008.

17. Earnings Per Share

The following table shows a reconciliation of the numerators and denominators used in calculating basic and diluted earnings per share.

Earnings Per Share

(In millions, except per share amounts)

	2007	2006	2005
Numerators			
Net income	\$ 80.3	\$ 18.3	\$ 67.3
Denominators			
Weighted average common shares - basic calculation	70.1	67.9	66.8
Dilutive effect of employee stock options	1.5	0.4	0.5
Weighted average common shares - diluted calculation	71.6	68.3	67.3
Basic earnings per share	\$ 1.15	\$ 0.27	\$ 1.01

Diluted earnings per share	\$ 1.12	\$ 0.27	\$ 1.00
-----------------------------------	----------------	---------	---------

The average market price of Grace's common stock exceeded the exercise price of all outstanding stock options as of December 31, 2007. Therefore, there were no antidilutive options outstanding for 2007.

Stock options that could potentially dilute basic earnings per share (that were excluded from the computation of diluted earnings per share because their exercise prices were greater than the average market price of the common shares) averaged approximately 5.3 million in 2006, and 6.8 million in 2005.

18. Stock Incentive Plans

Each stock option granted under the Company's stock incentive plans has an exercise price equal to the fair market value of the Company's common stock on the date of grant. Options become exercisable at the time or times determined by the

Edgar Filing: W R GRACE & CO - Form 10-K

Compensation Committee of the Company's Board of Directors and may have terms of up to ten years and one month.

The following table sets forth information relating to such options during 2007, 2006, and 2005:

Stock Option Activity	Number Of Shares	Average Exercise Price
Balance at January 1, 2005	7,691,580	\$ 12.92
Options exercised	(526,475)	5.92
Options terminated or cancelled	(71,459)	14.19
Balance at December 31, 2005	7,093,646	\$ 13.42
Options exercised	(1,992,826)	12.10
Options terminated or cancelled	(503,939)	11.73
Balance at December 31, 2006	4,596,881	\$ 14.18
Options exercised	(2,712,879)	14.79
Options terminated or cancelled	(15,039)	10.70
Balance at December 31, 2007	1,868,963	\$ 13.33

At December 31, 2007, 2006 and 2005, all outstanding stock options were also exercisable. Currently outstanding options expire on various dates through September 2011. At December 31, 2007, 4,761,457 shares were available for additional stock option or restricted stock grants. The following is a summary of stock options outstanding at December 31, 2007:

Stock Options Outstanding

Exercise Price Range	Number Outstanding and Exercisable	Weighted- Average Remaining Contractual Life (Years)	Weighted- Average Exercise Price
\$ 1 - \$8	341,206	4.00	\$ 2.78
\$ 8 - \$13	259,590	2.00	12.81
\$ 13 - \$18	744,550	2.82	14.02
\$ 18 - \$21	523,617	1.02	19.50
	1,868,963	2.42	13.33

19. Pension Plans and Other Postretirement Benefits Plans

In September 2006, the FASB issued SFAS No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans*. SFAS No. 158 requires an employer to recognize the funded status of defined benefit pension plans and other postretirement benefit plans as an asset or liability in its statement of financial position, and requires recognition in other comprehensive income of gains or losses and prior service costs or credits arising during the period but which are not included as components of net periodic benefit cost. Grace adopted the provisions of SFAS No. 158 as of December 31, 2006.

Edgar Filing: W R GRACE & CO - Form 10-K

Pension Plans Grace maintains defined benefit pension plans covering employees of certain units who meet age and service requirements. Benefits are generally based on final average salary and years of service. Grace funds its U.S. qualified pension plans (U.S. qualified pension plans) in accordance with U.S. federal laws and regulations. Non-U.S. pension plans (non-U.S. pension plans) are funded under a variety of methods, as required under local laws and customs.

Grace also provides, through nonqualified plans, supplemental pension benefits in excess of U.S. qualified pension plan limits imposed by federal tax law. These plans cover officers and higher-level employees and serve to increase the combined pension amount to the level that they otherwise would have received under the U.S. qualified pension plans in the absence of such limits. The nonqualified plans are unfunded and Grace pays the costs of benefits as they are incurred.

At the December 31, 2007 measurement date for Grace's defined benefit pension plans (the Plans), the projected benefit obligation (PBO) was approximately \$1,449 million as measured under U.S. generally accepted accounting principles compared with \$1,433 million as of December 31, 2006. The PBO basis reflects the present value (using a 6.25% discount rate for U.S. plans and a 5.81% weighted average discount rate for non-U.S. plans as of December 31, 2007) of vested and non-vested benefits earned from employee service to date, based upon current services and estimated future pay increases for active employees.

Beginning in 2007, on a quarterly basis, Grace analyzes pension assets and pension liabilities along with the resulting funded status and updates its estimate of these measures. Funded status is adjusted for contributions, benefit payments, actual return on assets, current discount rates and other identifiable and material actuarial changes.

At December 31, 2007, Grace's recorded pension liability for underfunded and unfunded plans was \$415.0 million (\$169.1 million included in underfunded defined benefit pension plans , \$137.9 million included in unfunded pay-as-you-go defined benefit pension plans , \$12.5 million included in other current liabilities , and \$95.5 million related to noncurrent supplemental pension benefits, included in liabilities subject to compromise). The recorded liability reflects 1) the shortfall between dedicated assets and the PBO of underfunded plans (\$169.1 million); and 2) the PBO of unfunded pay-as-you-go plans (\$245.9 million).

Postretirement Benefits Other Than Pensions Grace provides postretirement health care and life insurance benefits for retired employees of certain U.S. business units and certain divested units. The postretirement medical plan provides various levels of benefits to employees hired before 1991 who retire from Grace after age 55 with at least 10 years of service. These plans are unfunded and Grace pays a portion of the costs of benefits under these plans as they are incurred. Grace applies SFAS No. 106, Employers' Accounting for Postretirement Benefits Other Than Pensions,

which requires that the future costs of postretirement health care and life insurance benefits be accrued over the employees' years of service.

Retirees and beneficiaries covered by the postretirement medical plan are required to contribute a minimum of 40% of the calculated premium for that coverage. During 2002, per capita costs under the retiree medical plans exceeded caps on the amount Grace was required to contribute under a 1993 amendment to the plan. As a result, for 2003 and future years, retirees will bear 100% of any increase in premium costs.

For 2007 measurement purposes, per capita costs, before retiree contributions, were assumed to initially increase at a rate of 10%. The rate is assumed to decrease gradually to 5% through 2012 and remain at that level thereafter. A one percentage point increase or decrease in assumed health care medical cost trend rates would not materially change Grace's postretirement benefit obligations (impact of less than \$1 million) and would have a negligible impact on the aggregate of the service and interest cost components of net periodic benefit cost.

Analysis of Plan Accounting and Funded Status The following table summarizes the changes in benefit obligations and fair values of retirement plan assets during 2007 and 2006:

F-40

Change in Financial Status of Retirement Plans	Defined Benefit Pension Plans						Other Post-Retirement Plans	
	U.S.		Non-U.S.		Total			
	2007	2006	2007	2006	2007	2006	2007	2006

The estimated net deferred actuarial loss and prior service cost for the defined benefit pension plans that will be amortized from accumulated other comprehensive income into net periodic benefit cost (income) over the next fiscal year are \$25.0 million and \$2.5 million, respectively. The estimated net deferred actuarial loss and prior service credit for the other postretirement plans that will be amortized from accumulated other comprehensive income into net periodic benefit cost (income) over the next fiscal year are \$2.1 million and \$(8.5) million, respectively.

(3) Effective January 1, 2008 lump sum distributions from certain U.S. qualified pension plans will be restricted based on the provisions of the Pension Protection Act of 2006 (the Act). During the period the plan is less than 100% funded after that date, the Act prohibits the distribution of lump sums to retiring participants, while the Company remains under Chapter 11 of the U.S. Bankruptcy Code. The plan would be permitted to resume distributing lump sums to retiring participants under the Act at the date (1) the plan becomes 100% funded or (2) the Company is no longer in Chapter 11 and the plan is at least 80% funded, whichever is earlier. Estimated payments from the U.S. pension plans are expected to be lower starting in 2008 as a result of this restriction.

(4) Non-U.S. estimated benefit payments for 2008 and future periods have been translated at the applicable December 31, 2007 exchange rates.

(5) Excludes \$17 million of estimated future benefit payments from nonqualified plans that are restricted by the Bankruptcy Court.

Discount Rate Assumption The assumed discount rate for pension plans reflects the market rates for high-quality corporate bonds currently available and is subject to change based on changes in the overall market interest rates. For the U.S. qualified pension plans, the assumed discount rate of 6.25% as of December 31, 2007 was selected by Grace, in consultation with its independent actuaries, based on a yield curve constructed from a portfolio of high quality bonds for which the timing and amount of cash outflows approximate the estimated payouts of the plan.

As of December 31, 2007 and 2006, the United Kingdom pension plan and German pension plans combined represented approximately 86% and 87%, respectively, of the benefit obligation of the non-U.S. pension plans. The assumed discount rates as of December 31, 2007 for the United Kingdom (5.75%) and Germany (5.50%) were selected by Grace, in consultation with its independent actuaries, based on yield curves constructed from a portfolio of Sterling and Euro denominated high quality bonds for which the timing and amount of cash outflows approximate the estimated payouts of the plans. The assumed discount rates for the remaining non-U.S. pension plans were determined based on the nature of the liabilities, local economic environments and available bond indices.

Investment Guidelines for Advance-Funded Pension Plans The target allocation of investment assets for 2008, the actual allocation at December 31, 2007 and 2006, and the expected long-term rate of return by asset category for Grace's U.S. qualified pension plans are as follows:

U.S. Qualified Pension Plans Asset Category	Target Allocation 2008	Percentage of Plan Assets December 31,		Weighted-Average Expected Long-Term Rate of Return	
		2007	2006	2008	2007
U.S. equity securities	45%	45%	46%	4.46	4.46
Non-U.S. equity securities	15%	16%	16%	0.76	0.76
Short-term debt securities	10%	11%	11%	0.60	0.60
Intermediate-term debt securities	30%	28%	27%	2.18	2.18
Total	100%	100%	100%	8.00	8.00

The investment goal for the U.S. qualified pension plans, subject to advance funding, is to earn a long-term rate of return consistent with the related cash flow profile of the underlying benefit obligation.

The U.S. qualified pension plans have assets managed by five investment managers under investment guidelines summarized as follows:

- For debt securities: single issuers are limited to 5% of the portfolio's market value (with the exception of U.S. government and agency securities); the average credit quality of the portfolio shall be at least A rated; no more than 20% of the market value of the portfolio shall be invested in non-dollar denominated bonds; and privately placed securities are limited to no more than 50% of the portfolio's market value.

F-43

Edgar Filing: W R GRACE & CO - Form 10-K

- For U.S. equity securities: the portfolio is entirely passively managed through investment in the Dow Jones Wilshire 5000 index fund, which is invested primarily in equity securities with the objective of approximating as closely as possible the capitalization weighted total rate of return of the entire U.S. market for publicly traded securities.

- For non-U.S. equity securities: no individual security shall represent more than 5% of the portfolio's market value at any time; investment in U.S. common stock securities is prohibited (with the exception of American Depository Receipts) and emerging market securities may represent up to 30% of the total portfolio's market value. Currency futures and forward contracts may be held for the sole purpose of hedging existing currency risk in the portfolio.

For 2008, the expected long-term rate of return on assets for the U.S. qualified pension plans is 8% (also 8% in 2007). Average annual returns over one, two, three, five, ten and fifteen-year periods were 6.27%, 9.23%, 8.27%, 11.30%, 6.54%, and 8.16%, respectively. Negative returns across broad categories of U.S. equity securities in 2000, 2001 and 2002 caused lower returns in periods greater than three years.

The expected return on plan assets for the U.S. qualified pension plans is a conservative rate based on a comparison to historical actual returns and benchmark data. Grace looks at the trailing 20-year and 25-year returns on the plan portfolio under the current target equity to fixed income allocation of 60%/40% to determine a weighted-average rate of return based on historical data. These results are then compared with historical returns of balanced fund indices, as provided by our independent actuaries.

The balanced fund indices are composites of the S&P 500 and the Lehman Brothers Gov't/Credit indices. Grace then evaluates the estimated rates and selects a rate that it believes to be reasonable and conservative, and submits that rate for review by our independent actuaries for reasonableness.

Non-U.S. pension plans accounted for approximately 29% and 28% of total global pension assets at December 31, 2007 and 2006, respectively. Each of these plans, where applicable, follows local requirements and regulations. Some of the local requirements include the establishment of a local pension committee, a formal statement of investment policy and procedures, and routine valuations by plan actuaries.

The target allocation of investment assets for non-U.S. pension plans varies depending on the investment goals of the individual plans. The plan assets of the United Kingdom pension plan represent approximately 82% and 83% of the total non-U.S. pension plan assets at December 31, 2007 and 2006, respectively. In determining the expected rate of return for the UK plan, the trustees' strategic investment policy has been considered together with long-term historical returns and investment community forecasts for each asset class. The expected return by sector has been combined with the actual asset allocation to determine the 2007 expected long-term return assumption of 7%. As of December 31, 2007, the Trustees of this plan changed the target equity to fixed income allocation from 50%/50% to 18%/82%, which will reduce the long-term return assumption to 6% as of 2008.

The target allocation of investment assets for 2008, the actual allocation at December 31, 2007 and 2006, and the expected long-term rate of return by asset category for Grace's United Kingdom pension plan are as follows:

United Kingdom Pension Plans Asset Category	Target Allocation	Percentage of Plan Assets December 31,	Weighted-Average Expected Long-Term
--	----------------------	---	--

Earnings Per Share

Edgar Filing: W R GRACE & CO - Form 10-K

				Rate of Return	
	2008	2007	2006	2008	2007
U.K. equity securities	11%	10%	30%	0.89	2.55
Non-U.K. equity securities	7%	7%	20%	0.60	2.00
U.K. gilts	19%	20%	20%	0.86	0.90

Total	100%	100%	100%	6.00	7.00

The plan assets of the Canadian pension plans represent approximately 7% and 6% of the total non-U.S. pension plan assets at December 31, 2007 and 2006, respectively. The target allocation of investment assets for 2008, the actual allocation at December 31, 2007 and 2006, and the expected long-term rate of return by asset category for Grace's Canadian pension plans are as follows:

F-44

Canadian Pension Plans Asset Category	Target Allocation 2008	Percentage of Plan Assets December 31,			Weighted-Average Expected Long-Term Rate of Return	
		2007	2006	2008	2008	2007
Equity securities	55%	53%	55%	4.70	5.50	
Bonds	45%	47%	45%	2.30	2.50	
Total	100%	100%	100%	7.00	8.00	

The plan assets of the other country plans represent approximately 11% in the aggregate (with no country representing more than 3% individually) of total non-U.S. pension plan assets at December 31, 2007 and 2006.

Plan Contributions and Funding Subject to any required approval of the Bankruptcy Court, Grace intends to satisfy its funding obligations under the Plans and to comply with all of the requirements of the Employee Retirement Income Security Act of 1974 (ERISA). For ERISA purposes, funded status is calculated on a different basis than under U.S. generally accepted accounting principles. On June 20, 2007, Grace obtained Bankruptcy Court approval to fund minimum required payments of approximately \$54 million for the period from July 2007 through January 2008. In that regard, Grace contributed approximately \$9 million in July 2007 and approximately \$15 million in each of September 2007, October 2007, and January 2008 to the trusts that hold assets of the Plans. While Grace intends to continue to fund all minimum required payments under the Plans, there can be no assurance that the Bankruptcy Court will continue to approve these payments. Based on the Plans' status as of December 31, 2007, Grace's ERISA funding obligations for 2008, 2009, and 2010 would be approximately \$54 million, \$50 million, and \$38 million, respectively.

Contributions to non-U.S. pension plans are not subject to Bankruptcy Court approval and Grace intends to fund such plans based on applicable legal requirements, and actuarial and trustee recommendations. Grace expects to contribute approximately \$14 million to its non-U.S. pension plans and approximately \$10 million (excluding any Medicare subsidy receipts) to its other postretirement plans in 2008.

Grace plans to pay benefits as they become due under virtually all pay-as-you-go plans and to maintain compliance with federal funding laws for its U.S. qualified pension plans.

20. Operating Segment Information

Grace is a global producer of specialty chemicals and materials. It generates revenues from two operating segments: Grace Davison, which includes specialty catalysts and materials used in a wide range of energy, refining, consumer industrial, packaging and life sciences applications; and Grace Construction Products, which includes specialty chemicals and building materials used in commercial, infrastructure, and residential construction. Intersegment sales, eliminated in consolidation, are not material.

Grace's reportable operating segments reflect the transfer of the packaging technologies product group to the Grace Davison operating segment, which was completed in the fourth quarter of 2007. The previous Grace Performance Chemicals operating segment has been renamed Grace Construction Products as a result of the transfer. All segment information contained herein has been retrospectively restated to reflect this realignment.

Edgar Filing: W R GRACE & CO - Form 10-K

The table below presents information related to Grace's operating segments for the years ended December 31, 2007, 2006, and 2005. Only those corporate expenses directly related to the operating segments are allocated for reporting purposes. All remaining corporate items are reported separately and labeled as such.

Corporate costs include expenses of corporate headquarters functions incurred in support of core operations, such as corporate financial and legal services, human resources management, communications and regulatory affairs. Corporate costs also include certain pension and postretirement benefits, including the amortization of deferred costs that are considered a core operating expense but not allocated to operating segments. Corporate assets include cash and cash equivalents, investment securities, cash value of life insurance policies, net of policy loans, deferred income taxes and asbestos insurance receivable.

21. Minority Interest in Consolidated Entities

Within both Grace Davison and Grace Construction Products, Grace conducts certain business activities in various countries through joint ventures with unaffiliated third parties, the financial results of which are included in Grace's consolidated financial statements. Minority interest primarily pertains to Grace's joint venture with Chevron Products Company for the development and sale of hydroprocessing catalysts to the petroleum refining industry. Grace has a 55% economic interest in this joint venture. The following table presents summary financial statistics for Grace's combined businesses subject to profit sharing:

<i>(In millions)</i>	Year Ended December 31,

(1) Certain prior-year amounts have been reclassified to conform to the 2007 presentation.

(2) Amounts in 2007, 2006, and 2005 contain provisions for environmental remediation of \$17.0 million, \$30.0 million, and \$25.0 million, respectively. Amounts in 2004 reflect the following adjustments: a \$714.8 million pre-tax charge to increase Grace's recorded asbestos-related liability to the maximum amount permitted as a condition precedent under Grace's plan of reorganization (the Debtors Plan); a pre-tax credit for expected insurance recovery related to asbestos liabilities of \$238.2 million; a \$94.1 million pre-tax charge to increase the interest to which general unsecured creditors would be entitled under the Debtors Plan; a \$151.7 million pre-tax credit for net income tax benefits related to the above items; and an \$82.0 million tax liability on the expected taxable distributions from foreign subsidiaries to fund the Debtors Plan. Amounts in 2003 contain a provision for environmental remediation of \$142.5 million and a provision for asbestos-related claims of \$30.0 million.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Financial Summary for December 31, 2007

Following is a summary analysis of key financial measures of our performance for the year ended December 31, 2007 compared with the prior year. Our reportable operating segments reflect the transfer of the packaging technologies product group to the Grace Davison operating segment, which was completed in the fourth quarter of 2007. The previous Grace Performance Chemicals operating segment has been renamed Grace Construction Products as a result of the transfer. All segment information contained herein has been retrospectively restated to reflect this realignment.

- Sales for the year ended December 31, 2007 were \$3,115.2 million compared with \$2,826.5 million for the prior year, a 10.2% increase (6.4% before the effects of currency translation). The increase was attributable to higher selling prices in response to rising raw material costs and to higher volumes in most product groups, particularly outside the United States.
- Net results for each period have been primarily affected by: 1) the performance of our businesses which is categorized as core operations; and 2) the impact of legal contingencies and other nonoperating liabilities which is categorized as noncore activities.
- Net income for 2007 was \$80.3 million compared with net income in 2006 of \$18.3 million. The current year and prior year periods were negatively affected by Chapter 11 expenses, litigation and other matters not related to core operations.
- Pre-tax income from core operations was \$284.6 million for the year ended December 31, 2007 compared with \$240.2 million for the prior year, an 18.5% increase over the prior year, primarily attributable to higher volumes in regions other than North America, higher selling prices to offset cost inflation, and from lower overall pension costs.
- Pre-tax operating income of our Grace Davison operating segment was \$240.4 million compared with \$209.1 million for the prior year, a 15% increase over the prior year, with operating margins at 12%, compared with 11.6% for the prior year. Full year operating results reflect higher sales to both refining and industrial end markets, higher selling prices that offset higher raw material costs, which increased approximately 11% year-over-year, and cost savings from productivity initiatives.
- Pre-tax operating income of our Grace Construction Products operating segment was \$146.8 million compared with \$138.5 million for the prior year, a 6.0% increase, reflecting higher sales volume globally, selling price increases, and positive results from productivity and cost containment initiatives, which more than offset an approximate 5% increase in raw material costs. Operating margin of 13.3% was about even with last year despite lower sales volumes in the United States.

Edgar Filing: W R GRACE & CO - Form 10-K

- Net cash inflow from operating activities for the full year ended December 31, 2007 was \$88.2 million, compared with a net cash inflow of \$152.7 million for the prior year. The decrease in cash flow from operating activities was principally attributable to higher Chapter 11 related costs, higher working capital, dividends to joint venture partners and cash paid to resolve certain tax contingencies, offset by higher pre-tax operating income.
- Pre-tax loss from noncore activities was \$(59.3) million and \$(97.7) million for the years ended December 31, 2007 and 2006, respectively.

We are attempting to resolve noncore liabilities and contingencies through our Chapter 11 proceeding. Our noncore liabilities include asbestos-related litigation, environmental remediation, tax disputes and business litigation. Our operating statements include periodic adjustments to account for changes in estimates of such liabilities and developments in our Chapter 11 proceeding. These liabilities and contingencies may result in continued volatility in net results in the future.

We present the net costs of our reorganization under Chapter 11 of the U.S. Bankruptcy Code as

F-50

Chapter 11 expenses, net of interest income, a separate caption in our Consolidated Statements of Operations. Chapter 11 expenses are not included in the measures of income from core operations or income (loss) from noncore operations.

Description of Core Business

We are engaged in specialty chemicals and specialty materials businesses on a worldwide basis through two operating segments:

Grace Davison includes:

- Refining Technologies products, including:
 - fluid catalytic cracking, or FCC, catalysts, that help to crack the hydrocarbon chain in distilled crude oil to produce transportation fuels, such as gasoline and diesel fuels, and other petroleum-based products; and FCC additives used to reduce sulfur in gasoline, maximize propylene production from refinery FCC units, and reduce emissions of sulfur oxides, nitrogen oxides and carbon monoxide from refinery FCC units, and
 - hydroprocessing catalysts, marketed through our Advanced Refining Technologies, LLC joint venture with Chevron Products Company, in which Grace holds a 55% economic interest, that are used in process reactors to upgrade heavy oils into lighter, more useful products by removing impurities such as nitrogen, sulfur and heavy metals, allowing less expensive feedstocks to be used in the petroleum refining process, and
- Materials Technologies products, including:
 - Silica-based and silica-alumina-based engineered materials used in:
 - industrial applications, such as rubber and tires, plastics, precision investment casting, refractory, insulating glass windows, drying applications, fulfilling various functions such as reinforcement, high temperature binding and moisture scavenging, and
 - consumer applications, as a free-flow, carrier or processing aid in food and personal care products; as a toothpaste abrasive; and for the processing and stabilization of edible oils and beverages, and

Edgar Filing: W R GRACE & CO - Form 10-K

- coatings and print media applications consisting of functional additives that: provide matting effects and corrosion protection for industrial coatings; enable enhanced media and paper quality in ink jet coatings; and act as a functional filler and retention aid in paper, and
- sealants and coatings used in rigid food and beverage packaging, including can and closure sealants used to seal and enhance the shelf life of can and bottle contents, and coatings for cans and closures that prevent metal corrosion, protect package contents from the influence of metal and ensure proper adhesion of sealing compounds and technologies designed to reduce off-taste effects and extend the shelf-life of packaged products, and
- Specialty Technologies products, including:
 - polyolefin catalysts and catalyst supports that are essential components in the manufacture of polyethylene and polypropylene resins, and other chemical catalysts used in a variety of industrial, environmental and consumer applications, and
 - silica-based materials and chromatography columns, instruments, consumables and accessories used in analytical chemistry applications and life sciences.

Hydroprocessing catalysts are sold through Advanced Refining Technologies, LLC (ART), our joint venture with Chevron Products Company (Chevron). We report 100% of the revenues of the ART joint venture, but only receive 55% of the income after minority interest is allocated to Chevron.

Key external factors for our Refining Technologies product group are the economics of the petroleum refining industry, specifically the impacts of demand for transportation fuels and petrochemical products, and crude oil supply. FCC catalysts and some hydroprocessing catalysts are consumed at a relatively steady rate and replaced regularly, while other hydroprocessing catalysts are consumed over a period of years and replaced in an irregular pattern.

Sales of our Materials Technologies and Specialty Technologies product groups are affected by global economic conditions, including the underlying growth rate of targeted end-use applications.

Grace Construction Products includes:

- Specialty chemicals and building materials, including concrete admixtures and fibers used to improve the durability and working properties of concrete, additives used in cement processing to improve energy efficiency, enhance the characteristics of finished cement and improve ease of use, building materials used in commercial, infrastructure and residential construction and renovation to protect buildings from water, vapor and air penetration, and fire protection materials used to protect buildings in the event of fire.

Construction Products sales are primarily impacted by global non-residential construction activity and U.S. residential construction activity.

We manage the Construction Products operating segment by major geographic regions as follows:

- **Americas** which includes North, Central and South America. Economic drivers impacting our performance in the region are our strong performance in the U.S. commercial sector and in the growing commercial construction sectors of Central and South America, offsetting a depressed U.S. new housing construction market. We have also raised selling prices to improve margins and combat rising raw material costs from our suppliers. We opened a new state of the art manufacturing plant in Mt. Pleasant, Tennessee, which has improved our manufacturing and delivery efficiencies.
- **Europe** which includes Eastern and Western Europe, the Middle East, Africa, and India. Economic activity in this region was favorable allowing us to sell higher volumes of products into the commercial and infrastructure construction markets of Europe and the Middle East. A favorable currency exchange with the U.S. dollar was also an economic driver and we were able to optimize our processes and improve efficiencies through full operation of a new R&D facility in Poznan, Poland.
- **Asia** which includes Asia (excluding India), the Pacific Rim Countries, Australia and New Zealand. Our economic drivers in this region lie in the double-digit growth in the commercial construction and infrastructure market, higher selling prices in all product groups, and positive results from productivity and cost containment initiatives. Openings of a new plant in Viet Nam and new technical service facility in China supported growth in this region.

Global scope We operate our business on a global scale with approximately 67% of our revenue (see table below) and over 50% of our operating properties outside the United States. We conduct business in 41 countries and in more than 20 currencies. We manage our operating segments on a global basis, to serve global markets. Currency fluctuations in relation to the U.S. dollar affect our reported earnings, net assets and cash flows.

The table below shows the sales in each of our operating segments, and domestic and international sales, as a percentage of our total sales.

**Percentage of
Total Grace Sales**

	2007	2006	2005

Grace non-U.S.	67.2%	63.5%	63.2%
Total	100.0%	100.0%	100.0%

Voluntary Bankruptcy Filing

In response to a sharply increasing number of asbestos-related personal injury claims, on April 2, 2001, Grace and 61 of our United States subsidiaries and affiliates, including W. R. Grace & Co. Conn., filed voluntary petitions for reorganization under Chapter 11 of the United States Bankruptcy Code in the United States Bankruptcy Court for the District of Delaware. Our non-U.S. subsidiaries and certain of our U.S. subsidiaries were not included in the Chapter 11 filing.

Under Chapter 11, we have continued to operate as debtors-in-possession under court protection from creditors and claimants, while using the Chapter 11 process to develop and implement a plan for addressing the asbestos-related claims. Since the Chapter 11 filing, the bankruptcy court

has approved all motions necessary to conduct normal business activities.

On January 13, 2005, we filed an amended plan of reorganization and related documents with the bankruptcy court. The plan of reorganization is supported by committees representing general unsecured creditors and equity holders, but is not supported by committees representing asbestos personal injury claimants and asbestos property damage claimants or the representative of future asbestos claimants. On July 26, 2007, the bankruptcy court terminated our exclusive rights to propose a plan of reorganization and solicit votes thereon. As a result of the termination of these rights, any party-in-interest can propose a competing plan of reorganization. On November 5, 2007, the committee representing asbestos personal injury claimants and the representative of future asbestos claimants filed a proposed plan of reorganization with the bankruptcy court. The filing did not include a disclosure statement, trust distribution procedures, exhibits or other supporting documents. Under the terms of our proposed plan of reorganization, a trust would be established to which all pending and future asbestos-related claims would be channeled for resolution. Under the terms of the plan of reorganization proposed by the committee representing asbestos personal injury claimants and the representative of future asbestos claimants, a trust would be established to which all pending and future asbestos-related personal injury claims would be channeled for resolution. A plan of reorganization, including either of these plans and any other plan that may be filed in the future by a party-in-interest, can become effective only after a vote of eligible creditors and with the approval of the bankruptcy court and the U.S. District Court for the District of Delaware.

Summary Financial Information and Metrics

Set forth below is a chart that lists our key operating statistics, and dollar and percentage changes for the years ended December 31, 2007, 2006 and 2005. Please refer to this Analysis of Continuing Operations chart when reading Management's Discussion and Analysis of Financial Condition and Results of Operations.

In the Analysis of Continuing Operations chart, as well as in the financial information presented throughout Management's Discussion and Analysis of Financial Condition and Results of Operations, we present our financial results in the same manner as results are reviewed internally. We break out our results of operations by operating segment and between core operations and noncore activities. Core operations comprise the financial results of Grace Davison, Grace Construction Products, and the costs of corporate activities that directly or indirectly support our business operations. In contrast, noncore activities comprise all other events and transactions not directly related to the generation of operating revenue or the support of our core operations and generally relate to our former operations and products. See Pre-tax Income (Loss) from Noncore Activities for more information about noncore activities. We use pre-tax income from core operations as the performance factor in determining certain incentive compensation and as the profitability factor in all significant business decisions.

Pre-tax income from core operations, pre-tax income (loss) from noncore activities, pre-tax income from core operations as a percentage of sales, and pre-tax income from core operations before depreciation and amortization do not purport to represent income or cash flow measures as defined under U.S. generally accepted accounting principles, and you should not consider them an alternative to such measures as an indicator of our performance. We provide these measures so you can distinguish the operating results of our current business base from the income and expenses of our past businesses, discontinued products, and corporate legacies, and the effect of our Chapter 11 proceedings, and to ensure that you understand the key data that management uses to evaluate our results of operations.

Pre-tax income from core operations has material limitations as an operating performance measure because it excludes income and expenses that comprise our noncore activities, which include, among other things, provisions for asbestos-related litigation and environmental remediation, income from insurance settlements, and legal defense costs, all of which have been material components of our net income. Pre-tax income from core operations before depreciation and amortization also has material limitations as an operating performance measure since it excludes the impact of depreciation and amortization expense. Our business is substantially dependent on the successful deployment of our capital assets; therefore, depreciation and amortization expense is a necessary element of our costs and ability to

generate revenue. We compensate for the limitations of these measurements by using these indicators together with net income as measured under U.S. generally accepted accounting principles to present a complete analysis of our results of operations. You should evaluate pre-tax income from core operations and pre-tax income from core operations before depreciation and amortization in conjunction with net income for a more complete analysis of our financial results.

Grace Overview

The following is an overview of our financial performance for the years ended December 31, 2007, 2006 and 2005.

Net Sales The following table identifies the year-over-year increase or decrease in sales attributable to changes in product volume, product price and/or mix, and the impact of foreign currency translation.

Net Sales Variance Analysis	2007 as a Percentage Increase (Decrease) from 2006			
	Volume	Price/Mix	Currency Translation	Total
Grace Davison	4.1%	4.0%	3.7%	11.8%
Grace Construction Products	0.8%	2.8%	3.9%	7.5%
Net sales	2.9%	3.6%	3.7%	10.2%
By Region:				
North America	(5.4%)	1.4%	0.2%	(3.8%)
Europe Africa	8.0%	4.9%	8.1%	21.0%
Asia Pacific	1.6%	8.9%	2.9%	13.4%
Latin America	25.0%	3.5%	3.2%	31.7%

	2006 as a Percentage Increase (Decrease) from 2005			
	Volume	Price/Mix	Currency Translation	Total
Grace Davison	5.8%	2.3%	0.0%	8.1%
Grace Construction Products	8.3%	4.9%	0.4%	13.6%
Net sales	6.7%	3.2%	0.1%	10.0%
By Region:				
North America	4.0%	2.3%	0.3%	6.6%
Europe Africa	10.1%	4.8%	(0.5%)	14.4%
Asia Pacific	7.6%	1.8%	0.5%	9.9%
Latin America	3.1%	2.5%	1.7%	7.3%

Sales for 2007 were favorably impacted by foreign currency translation, higher volumes and higher selling prices in response to rising raw material costs. Acquisitions contributed \$13.1 million or 0.5 percentage points of the sales growth.

Sales for 2006 were favorably impacted by higher volume, selling price increases and product mix. Acquisitions contributed \$13.2 million or 0.5 percentage points of the sales growth.

Grace Net Sales

(\$ in millions)

Pre-tax Income from Core Operations Operating profit increased year-over-year for the three year period ended December 31, 2007 mainly due to improved sales volume growth and selling price increases, partially offset by raw material cost inflation.

Corporate costs include corporate functional costs (such as financial and legal services, human resources, communications and information technology), the cost of corporate governance (including directors and officers liability insurance) and pension costs related to both corporate employees and to the effects of changes in assets and liabilities for all of our pension plans. Corporate costs have decreased in each of the last two years primarily due to lower pension costs from the effect of contributions made to defined benefit pension plans.

We value our U.S. inventories under the last-in/first-out method, or LIFO, and our non-U.S. inventories under the first-in/first-out, or FIFO, method. LIFO was selected in 1974 for U.S. financial reporting and tax purposes because it generally results in a better matching of current revenue with current costs during periods of inflation. We have not elected LIFO for our non-U.S. inventories due to statutory restrictions. However, if we valued our U.S. inventories using the FIFO method, consistent with our non-U.S. subsidiaries, our pre-tax income from core operations would have been approximately 4.6% higher, 6.2% lower and 6.7% higher for the years ended December 31, 2007, 2006, and 2005, respectively. The significant change in inventory valuations between FIFO and LIFO relates primarily to price increases of commodity metals and energy used in Grace Davison products and production processes. We attempt to mitigate price volatility through hedging techniques such as layering our

required supply under fixed delivery contracts, entering into commodity option and swap contracts with suppliers and financial institutions, and by negotiating sales contracts that permit the partial pass-through of market price increases for these volatile commodity items.

We normally attempt to lock in raw material costs through long-term supply contracts and targeted hedging programs. Arrangements and programs can span a few months to several years. Major raw materials include natural gas, certain metals, petroleum-based materials and certain industrial chemicals. The actual cost of these raw materials can differ significantly from spot prices at any point in time. Our reported gross profit for the periods presented has been favorably impacted by certain raw material supply arrangements and unfavorably affected by others, relative to the then-current market price. We expect that new supply agreements and hedging arrangements will result in raw material costs that can be significantly favorable or unfavorable compared with prior periods. We attempt to mitigate period-over-period commodity-driven cost changes through utilization and customer pricing strategies; however, gross profit margins are still likely to be affected when compared over time.

Within both Grace Davison and Grace Construction Products, we conduct certain business activities in various countries through joint ventures with unaffiliated third parties. Minority interest in consolidated entities decreased due to lower earnings of our joint ventures, particularly ART, our largest joint venture. ART's year-over-year net income can change materially based on refill order patterns of customers and changes in commodity-based raw materials.

Grace

Operating Income and Margin

(\$ in millions)

Pre-tax Income (Loss) from Noncore Activities Pre-tax income (loss) from noncore activities reflects financial matters unrelated to our core operations. This category of costs and income is expected to be volatile as potentially material items are addressed through our Chapter 11 proceedings and/or as the financial implications of our legal contingencies become apparent. Some noncore activities are shown as separate items on the Consolidated Statement of Operations. Those not separately listed are primarily included in selling, general and administrative expenses and in other (income) expense. The table below shows the components of noncore activities, and the captions in which each component is presented in the Consolidated Statements of Operations:

Edgar Filing: W R GRACE & CO - Form 10-K

<i>(In millions)</i>	2007	2006	2005
Provision for environmental remediation vermiculite	\$ (14.4)	\$ (29.4)	\$ (22.3)
Provision for environmental remediation other sites	(2.6)	(0.6)	(2.7)

Total pre-tax income (loss) from noncore activities	\$ (59.3)	\$ (97.7)	\$ (30.3)

The change in the pre-tax loss from noncore activities from 2006 to 2007 is attributable primarily to:

- Lower environmental remediation expenses (\$17.0 million in 2007 as compared to \$30.0 million in 2006) to adjust our estimate of costs to resolve environmental remediation claims; and
- Lower legal defense costs of \$33.7 million related to legal proceedings arising from our former vermiculite mining operations in Montana (see Note 15 to the Consolidated Financial Statements for more information).

The change in the pre-tax loss from noncore activities from 2005 to 2006 is attributable primarily to:

- An increase in legal defense costs of \$31.4 million, primarily related to the Montana legal proceeding (see Note 15 to the Consolidated Financial Statements for more information), and
- \$44.5 million received from insurance carriers in 2005 with respect to coverage for past environmental remediation costs and asbestos-related liability under liquidation arrangements or dispute settlements, as compared with \$12.5 million in 2006.

In March 2004, we began accounting for currency fluctuations on a 293 million intercompany loan between our subsidiaries in the United States and Germany as a component of operating results instead of as a component of other comprehensive income. This change was prompted by an analysis of new tax laws in Germany and our cash flow planning in connection with our Chapter 11 reorganization, which together indicated that we should no longer consider this loan as part of our permanent capital structure in Germany. In May 2004, we entered into a series of foreign currency forward contracts with a U.S. bank to mitigate future currency fluctuations on the remaining loan balance. Contract amounts of 200.7 million were extended in June 2005 at varying rates and have terms that coincide with loan repayments due periodically through December 2008. As part of the contract extension, we were required to pay a settlement premium of \$9.3 million to the bank. We expect to recover this settlement premium over time as the contracts are settled at rates greater than the initial rates in the May 2004 foreign currency forward contracts. We repaid 73.2 million and 65.9 million of loan principal in 2007 and 2006, respectively. We recognized contract losses of \$10.6 million and \$21.5 million in 2007 and 2006, respectively, offset by foreign currency gains of \$13.6 million and \$23.1 million in 2007 and 2006, respectively.

In November 2007, we executed an intercompany loan between our principal U.S. operating subsidiary and a newly established German subsidiary as part of a legal restructuring. The intercompany loan, in the amount of 250 million, is revalued each period and the change in the value due to movements in foreign currency exchange rates is recorded as a component of other (income) expense in the Consolidated Statements of Operations. In conjunction with the loan, our U.S. subsidiary entered into a series of foreign currency forward contracts to minimize the impact on earnings from foreign currency movements. The forward contracts are aligned with the payment schedule of the intercompany loan, which has annual principal and interest payments in November 2009 through November 2013. In 2007, we recognized a foreign currency exchange loss on the loan of \$2.4 million, offset by a contract gain of \$2.5 million.

Chapter 11 Expenses Although we are unable to precisely measure the impact of the Chapter 11 proceedings on our overall financial performance, we incur significant added costs that are directly attributable to operating in Chapter 11. Net Chapter 11 expenses consist primarily of legal, financial and consulting fees that we, the three creditors committees, the equity committee and the legal representative of future asbestos claimants, incur, reduced by interest income earned on cash and cash equivalents held by our entities subject to Chapter 11. We pay for the costs of all committees, and the committees advisors. These costs fluctuate with the activity in our Chapter 11 proceedings.

An analysis of Chapter 11 costs follows:

Chapter 11 Expenses, net

(In millions)

	2007	2006	2005
Costs related to:			
Grace as debtor-in-possession	\$ 62.1	\$ 39.6	\$ 21.2

Edgar Filing: W R GRACE & CO - Form 10-K

General Unsecured Committee	6.0	3.8	3.1
Asbestos Property Damage Committee	3.0	3.8	7.7
Asbestos Personal Injury Committee	10.8	5.7	3.4
Future Asbestos Claims Representative	10.7	4.6	1.8
Equity Committee	2.5	0.4	1.2
Total expenses	95.1	57.9	38.4
Interest earned on filing entity cash balances	(8.7)	(8.0)	(7.5)
Chapter 11 expenses, net	\$ 86.4	\$ 49.9	\$ 30.9

Chapter 11 expenses increased due to a higher level of activity in our bankruptcy proceeding related to claims adjudication and estimation. We expect that we will experience continued high levels of Chapter 11 expenses in 2008 for the duration of the proceeding.

We incur numerous other indirect costs to manage the Chapter 11 proceedings such as: management time devoted to Chapter 11 matters; added cost of debt capital; added costs of general business insurance, including D&O liability insurance premiums; and lost business and acquisition opportunities due to the complexities and restrictions of operating under Chapter 11.

Interest Expense Interest expense decreased in 2007 as compared to 2006. The change in interest expense is attributable to reductions in the prime rate and reduced interest accruals in the second half of 2007 for certain pre-petition obligations, partially offset by the effects of compounding interest on certain liabilities subject to compromise over the course of the Chapter 11 proceeding. Interest expense increased in 2006 as compared to 2005 due to a change in the rate of interest on pre-petition bank debt (from a fixed rate to a prime rate) and the effects of compounding interest. Our plan of reorganization states that each holder of an allowed general unsecured claim shall be paid in full, plus post-petition interest. Post-petition interest shall accrue through the date of payment as follows:

- For the holders of pre-petition bank credit facilities, beginning January 1, 2006, we agreed to pay interest on pre-petition bank debt at the prime rate, adjusted for periodic changes, and compounded quarterly. The effective rates on pre-petition bank debt for the twelve months ended December 31, 2007, 2006, and 2005 were 8.1%, 8.0%, and 6.1%, respectively.
- For the holders of claims who, but for the Chapter 11 filing, would be entitled under a contract or otherwise to accrue or be paid interest on such claim in a non-default (or non-overdue payment) situation under applicable non-bankruptcy law, the rate provided in the contract between the Grace entity and the claimant or such rate as may otherwise apply under applicable non-bankruptcy law.
- For all other holders of allowed general unsecured claims, at a rate of 4.19% per annum, compounded annually, unless otherwise negotiated during the claim settlement process.

The average effective interest rates on pre-petition obligations for 2007, 2006, and 2005 were 6.3%, 6.7%, and 5.2%, respectively. Such interest, which under the plan of reorganization is payable 85% in cash and 15% in Grace common stock, will not be paid until the plan of reorganization is confirmed and funded.

Income Taxes Income tax provision at the federal corporate rate of 35% for the years ended December 31, 2007, 2006, and 2005 was \$26.1 million, \$9.2 million, and \$31.0 million, respectively. Our recorded tax benefit of \$5.8 million for 2007 reflects a net reduction from the statutory tax benefit due to (1) tax expense of \$20.1 million related to the deferred tax liability associated with the cash value of corporate owned life insurance policies in recognition of the fact that the policies would likely be surrendered as part of Grace's Chapter 11 financing plan, (2) a tax benefit in the amount of \$44.8 million resulting from the reassessment of the deferred tax liability balance in relation to future repatriations of foreign earnings, (3) a tax benefit of \$11.2 million related to the settlement of a 1999 tax issue involving the deduction of capital losses (see Note 4 to the Consolidated Financial Statements), (4) recognition of the favorable impact of tax rate changes in certain foreign jurisdictions on deferred tax balances, and (5) a favorable reassessment regarding the recoverability of recorded tax assets and other changes to the accrual for uncertain tax positions (see Note 4 to the Consolidated Financial Statements). In 2006, our recorded tax provision of \$8.1 million reflected a net reduction from the statutory tax provision due to (1) recognition of tax benefits by a non-U.S. subsidiary prompted by published final guidance on the deductibility of certain expenses, (2) a final settlement offer issued by the United States Internal Revenue Service, (3) a favorable reassessment regarding the recoverability of recorded tax assets, and (4) an increase in the tax provision related to future repatriation of earnings from foreign subsidiaries.

Edgar Filing: W R GRACE & CO - Form 10-K

As part of our evaluation and planning for the funding requirements of our plan of reorganization, we recognize that the financing of our plan of reorganization will involve cash and financing from non-U.S. subsidiaries. Accordingly, we implemented a repatriation plan in the fourth quarter of 2007 resulting in the U.S. parent company receiving payments of \$442 million of which \$382 million is represented by intercompany loans receivable at year-end. We maintain a deferred liability for U.S. federal, state, local and foreign income taxes related to future repatriations of approximately \$10 million and have not provided for U.S. federal, state, local and foreign deferred income taxes on approximately \$675 million of undistributed earnings of foreign subsidiaries that, based upon our current outlook and assumptions with respect to the amount of

F-59

bankruptcy claims and foreign liquidity needs, we expect will be retained indefinitely by such subsidiaries.

We also have significant deferred tax assets primarily associated with tax credit carryforwards and with asbestos and environmental liabilities that would reduce taxable income in future periods as such liabilities are funded. In addition, we have deferred tax liabilities resulting primarily from deferred income, plant and equipment, and pension assets that may result in taxable amounts in future periods. Valuation allowances have been established and are maintained for certain deferred tax assets that exceeded our analysis of the amounts reasonably expected to be realized in the future.

Because of our current and future state tax profile and more restrictive laws governing utilization of tax loss carryforwards, we maintain a full valuation allowance against the benefit of future state income tax deductions and loss carryforwards. The valuation allowances relating to future state tax benefits from the use of operating losses was reduced during 2007 by \$25.9 million due to an equal reduction in the amount of operating losses that can be used to reduce future state taxable income. Foreign loss carryforwards and related valuation allowances increased by a net \$6.4 million due primarily to the impact of changes in foreign exchange rates.

The net decrease in the valuation allowance brings our total valuation allowance at the end of 2007 to \$143.0 million on net tax assets of \$906.6 million. The total valuation allowance covers (1) state tax deductions with a tax value of approximately \$121.0 million, which we do not expect to realize in reduced taxes due to timing limitations, and (2) foreign loss carryforwards with a tax value of \$22.0 million, which are not reasonably expected to be utilized. Based upon future anticipated results, we have concluded that it is more likely than not that we will realize the remaining net recorded deferred tax asset of \$763.6 million over time. A large proportion of such balance (primarily associated with asbestos- and environmental- related liabilities) is not yet time-limited as it pertains to liabilities not yet funded. Our recovery of such net tax assets could be materially affected by developments in our Chapter 11 proceeding.

Operating Segment Overview

The following is an overview of financial measures of the performance of our operating segments for the three years ended December 31, 2007, 2006 and 2005.

Grace Davison

Net Sales by Region

(In millions)

	2007	2006	2005
North America	\$ 578.4	\$ 599.9	\$ 587.0

Total Grace Davison	11.8%	8.1%	13.0%

Recent Acquisitions/Divestitures

See Note 5 to the Consolidated Financial Statements for a description of acquisitions and divestitures completed in 2007 and 2006.

Sales

Grace Davison operating segment sales are reported in the following product groups:

- Refining Technologies catalysts and chemical additives used by petroleum refineries, where sales were up 13.0% and 7.9% in 2007 and 2006, respectively, from the prior years.
- Materials Technologies engineered materials, coatings and sealants used in numerous industrial, consumer and packaging applications, where sales were up 11.0% and 7.1% in 2007 and 2006, respectively, from the prior years; and
- Specialty Technologies highly specialized catalysts and materials used in unique or proprietary applications and markets, where sales were up 9.7% and 10.8% in 2007 and 2006, respectively, from the prior years.

The key factors contributing to the Grace Davison sales increase over the three-year period were:

- Increased demand for catalysts used by petroleum refiners, particularly FCC catalysts used to produce clean fuels, hydroprocessing catalysts that upgrade low-quality, heavy crude oil, and a variety of industrial, consumer and packaging products.
- A generally more favorable pricing environment for our products as customers accepted pricing actions to offset escalating raw material costs.
- Pass-through of higher costs for commodity metals and surcharges to partially offset inflation in certain commodity metals.

European sales increased over the three-year period due to growth in volume, higher selling prices in response to raw material inflation, and favorable effects of currency movements. North American sales were unfavorably impacted by re-order patterns for certain hydroprocessing units and the loss of one customer in Canada. Asia Pacific and Latin America sales increased with strong volume growth from product line portfolio extensions to these regions.

Grace Davison Net Sales

(\$ in millions)

Operating Income and Margin

- Pre-tax operating income for the Grace Davison segment increased over the prior year, with operating margins at 12.0% compared with 11.6% for the prior year. Full year operating results reflect higher sales to both refining and industrial end markets, higher selling prices which offset higher raw material costs, and cost savings from productivity initiatives, partially offset by higher raw material costs that have increased approximately 11% year-over-year.

Grace Davison

Operating Income and Margin

(\$ in millions)

*Grace Construction Products***Net Sales by Product Group***(In millions)*

	2007	2006	2005

Building Materials	7.9%	12.4%	12.1%
Total Grace Construction Products	7.5%	13.6%	14.9%

Sales

Sales of this operating segment are grouped along geographic regions as follows:

- Americas products sold to customers in North, Central and South America, where sales were down 2.4% and up 12.9% in 2007 and 2006, respectively, from the prior years;
- Europe products sold to customers in Eastern and Western Europe, the Middle East, Africa and India, where sales were up 22.9% and 15.4% in 2007 and 2006, respectively, from the prior years; and

- Asia products sold to customers in Asia (excluding India), Pacific Rim countries, Australia and New Zealand, where sales were up 17.0% and 12.1% in 2007 and 2006, respectively, from the prior years.

The key factors contributing to the increase in sales from our Grace Construction Products operating segment over the three-year period were:

F-61

Edgar Filing: W R GRACE & CO - Form 10-K

- Strategic focus on regional management structure and investment in operations drove positive results in growth areas;
- Higher volume of products sold into commercial and infrastructure construction in Europe, the Middle East, Asia Pacific, and Latin America, where economic activity was favorable;
- Higher selling prices in all major geographic regions and product groups; and
- Favorable translation effects from sales denominated in foreign currencies.

Sales growth was attributable to growth in Europe and Asia, offset by softness in the Americas from a nearly 28% decline in housing starts in the United States.

Grace Construction Products Net Sales

(\$ in millions)

Operating Income and Margin

Grace Construction Products 2007 operating income increased compared with 2006, reflecting higher sales volume globally, selling price increases, and positive results from productivity and cost containment initiatives, which more than offset an approximate 5% increase in raw material costs. Operating margin of 13.3% was about even with last year despite lower sales volumes in the United States.

Grace Construction Products

Operating Income and Margin

(\$ in millions)

Operating Returns on Assets Employed The following tables set forth the Grace Davison and Grace Construction Products total asset position and pre-tax return on average total assets as of December 31, 2007, 2006 and 2005. We use the measure pre-tax return on average total assets as an indicator of our efficiency in using our assets and allocating our resources to generate earnings. We devote significantly higher capital to the manufacture of Grace Davison products than to the manufacture of Grace Construction Products products. Conversely, non-manufacturing costs, particularly selling expenses, are significantly higher for Grace Construction Products than for Grace Davison.

Grace Davison*(In millions)*

	2007	2006	2005
Trade receivables	\$ 295.9	\$ 234.8	\$ 227.0
Inventory	239.7	230.5	214.1
Other current assets	31.5	25.7	32.4
Total current assets	567.1	491.0	473.5
Properties and equipment, net	484.7	463.3	449.9
Goodwill and other intangible assets	116.4	116.3	105.3
Other assets	17.4	2.0	3.0
Total assets	\$ 1,185.6	\$ 1,072.6	\$ 1,031.7
Pre-tax return on average total assets	21.1%	19.2%	18.4%

Grace Davison's total assets increased by \$113.0 million in 2007 compared with the prior year. The increase was primarily due to higher trade receivables from strong 2007 fourth quarter sales, coupled with \$50.7 million in higher foreign currency translation reflecting a weaker U.S. dollar period over period.

Grace Construction Products

<i>(In millions)</i>	2007	2006	2005
Trade receivables	\$ 201.2	\$ 190.7	\$ 174.0
Inventory	63.9	54.1	64.2
Other current assets	9.5	6.9	7.6
Total current assets	274.6	251.7	245.8
Properties and equipment, net	194.6	181.0	167.2
Goodwill and other intangible assets	88.2	85.3	86.4
Other assets	4.2	3.2	3.5
Total assets	\$ 561.6	\$ 521.2	\$ 502.9
Pre-tax return on average total assets	26.1%	26.2%	22.8%

Grace Construction Products total assets increased by \$40.4 million in 2007 compared with the prior year. The increase was primarily due to higher properties and equipment from increased capital investment in new production plants, coupled with \$24.7 million in higher foreign currency translation due to a weaker U.S. dollar period over period.

Noncore Liabilities

We have a number of financial exposures originating from past businesses, products and events. These obligations arose from transactions and/or business practices that date to when Grace was a much larger company, when we produced products or operated businesses that are no longer part of our revenue base, when government regulation was less stringent and when scientific knowledge with respect to such businesses and products was much less advanced than today.

The following table summarizes our net noncore liabilities at December 31, 2007 and December 31, 2006:

Net Noncore Liabilities <i>(In millions)</i>	December 31, 2007	December 31, 2006
Asbestos-related liabilities	\$ (1,700.0)	\$ (1,700.0)
Asbestos-related insurance receivable	500.0	500.0
Asbestos-related liability, net	(1,200.0)	(1,200.0)
Environmental remediation	(368.6)	(361.1)
Postretirement benefits	(84.0)	(72.7)
Income taxes	(89.3)	(141.2)
Retained obligations and other	(36.2)	(23.3)
Net noncore liability	\$ (1,778.1)	\$ (1,798.3)

The resolution of most of these noncore recorded and contingent liabilities will be determined through the Chapter 11 proceedings. We cannot predict with any certainty how, and for what amounts, any of these contingencies will be resolved. The amounts of these liabilities as ultimately determined through the Chapter 11 proceedings could be materially different from amounts we recorded at December 31, 2007.

Grace Plan of Reorganization

Edgar Filing: W R GRACE & CO - Form 10-K

As described under Voluntary Bankruptcy Filing in Notes 1 and 2 to the Consolidated Financial Statements, Grace and our principal U.S. operating subsidiary are debtors-in-possession under Chapter 11 of the bankruptcy code. Our non-U.S. subsidiaries, although not part of the Chapter 11 filing, are owned directly or indirectly by our principal operating subsidiary or other filing entities. Consequently, we expect that any Chapter 11 plan of reorganization, including our proposed plan of reorganization, will involve the combined value of our global businesses and other assets to fund (with cash and/or securities) our obligations as adjudicated through the bankruptcy process. We have analyzed our cash flow and capital needs to continue to fund our businesses and believe that, while in Chapter 11, sufficient cash flow and credit facilities are available to support our business strategy.

On January 13, 2005, we filed a plan of reorganization and related documents that amended our original plan of reorganization and disclosure statement filed on November 13, 2004 to address certain objections of creditors and other interested parties. Our plan of reorganization is supported by committees representing general unsecured creditors and shareholders, but is not supported by committees representing asbestos personal injury claimants and asbestos property damage claimants or the representative of future asbestos claimants.

On November 5, 2007, the committee representing asbestos personal injury claimants and the representative of future asbestos claimants filed a proposed plan of reorganization with the bankruptcy court. The filing did not include a disclosure statement, trust distribution procedures, exhibits or other supporting documents. Under the terms of our proposed plan of reorganization, a trust would be established to which all pending and future asbestos-related claims would be channeled for resolution. Under the terms of the plan of reorganization proposed by the committee representing asbestos personal injury claimants and the representative of future asbestos claimants, a trust would be established to which all pending and future asbestos-related personal injury claims would be channeled for resolution. A plan of reorganization, including either of these plans and

any other plan that may be filed in the future by a party-in-interest, can become effective only after a vote of eligible creditors and with the approval of the bankruptcy court and the U.S. District Court for the District of Delaware.

See Note 2 to the Consolidated Financial Statements for more information on these plans of reorganization.

Risks of Our Plan of Reorganization We intend to address all pending and future asbestos-related claims and all other pre-petition claims as outlined in our plan of reorganization. However, we may not be successful in obtaining approval of our plan of reorganization by the bankruptcy court. Instead, a materially different plan of reorganization may ultimately be approved and, under the ultimate plan of reorganization, the interests of our shareholders could be substantially diluted or cancelled. The value of Grace common stock following a plan of reorganization, and the extent of any recovery by non-asbestos-related creditors, will depend principally on the amount of our asbestos-related liability under a confirmed plan of reorganization.

Our proposed plan of reorganization assumes several fundamental conditions including that:

- Our asbestos-related liabilities can be resolved at a net present value cost of no more than \$1,700 million, including pre-petition asbestos-related contractual settlements and judgments, all property damage claims, all claims related to our former Zonolite Attic Insulation product, and all pending and future personal injury claims; and
- The benefit of assets from litigation settlement agreements with Sealed Air Corporation and its subsidiary, Cryovac, Inc., and Fresenius Medical Care Holdings, Inc. will be available to satisfy liabilities under our plan of reorganization.

There can be no guarantee that these two fundamental conditions can be met. The measure of our asbestos-related liabilities could be settled by the bankruptcy court (in conformity with the plan of reorganization or otherwise), by a negotiation with interested parties, and/or under an alternative plan.

Any resolution, other than that reflected in our plan of reorganization, could have a material adverse effect on the percentage of Grace common stock to be retained by our current shareholders beyond that reflected in the proforma financial information presented below. We will adjust our financial statements and the proforma effects of our plan of reorganization as facts and circumstances warrant.

The following table summarizes our estimated claims payable, by class of claim, at the date of emergence and those claims that will be reinstated, as of December 31, 2007.

Analysis of Claims and Interest in Plan of Reorganization Amounts as of December 31, 2007

There are no Class 2 (Secured Claims), Class 4 (Workers Compensation Claims) or Class 5 (Intercompany Claims) outstanding as of December 31, 2007.

Proforma Financial Information The unaudited proforma financial information presented below reflects the accounting effects of our proposed plan of reorganization (1) as if it were put in effect on the date of our most recent consolidated balance sheet December 31, 2007, and (2) as if it were in effect for the full year ended December 31, 2007. Proforma adjustments for tax effects have been applied at a 35% tax rate. The proforma financial information included herein may not be consistent with our plan of reorganization documents filed on January 13, 2005 due to subsequent changes in operations and accounting estimates. Such proforma financial statements reflect how our assets, liabilities, equity and income would be affected by our plan of reorganization as follows:

A. Borrowings Under New Debt Agreements and Contingencies

Our plan of reorganization reflects the assumption that \$1,000 million in debt financing will be available to fund settled claims payable at the effective date of the plan of reorganization (approximately \$800 million) and to provide working capital (approximately \$200 million) for continuing operations. No such financing currently exists but, we expect, based on discussions with prospective lenders, our sustained level of core operations while we have operated under Chapter 11, and publicly available information regarding funding available to comparable companies, that we could obtain financing at this level before our plan of reorganization is effective. In addition, the proforma financial information reflects \$150 million in contingencies to pay professional and bank fees, other non-operating liabilities and their related tax effects that will not become liabilities until the effective date of our plan of reorganization. The \$26.3 million adjustment to increase deferred taxes reflects the tax impact on \$150 million in contingencies as described above, of which we estimate 50% would be deductible for tax purposes. Proforma adjustments related to the borrowings under new debt financing and contingencies have been denoted by the capital letter **A** in the proforma balance sheet presented below.

B. Fresenius and Sealed Air Settlements

Our plan of reorganization reflects the value, in the form of cash and securities, expected to be realized under litigation settlement agreements as follows: \$115.0 million of cash from Fresenius; and, \$1,087.4 million of estimated value from Cryovac, Inc., a subsidiary of Sealed Air (calculated as of December 31, 2007) in the form of \$512.5 million of cash plus accrued interest at 5.5% from December 21, 2002 compounded annually (approximately \$158.4 million), and 18 million shares of Sealed Air common stock valued at \$23.14 per share (approximately \$416.5 million). Tax accounts have been adjusted to reflect the satisfaction of our recorded liabilities by way of these third-party agreements. The Fresenius settlement amount will be payable directly to Grace and will be accounted for as income; however, we have presented the amount of the settlement as a proforma balance sheet adjustment only in order to avoid distorting the predictive value of the proforma statement of operations with this one-time gain. Payments under the Sealed Air settlement will be paid directly to the asbestos trust by Cryovac and will be accounted for as satisfaction of a portion of our recorded asbestos-related liability and a credit to shareholders' equity. Both the Sealed Air and Fresenius settlements are subject to the fulfillment of specified conditions. The \$(40.3) million adjustment to deferred income taxes in the proforma balance sheet represents the tax impact of the \$115.0 million Fresenius settlement. The \$(380.6) million adjustment to deferred income taxes represents the tax impact of the \$1,087.4 million Sealed Air settlement. Proforma adjustments related to the Fresenius and Sealed Air settlements have been denoted by the capital letter **B** in the proforma balance sheet presented below.

C. Payment of Pre-Petition Liabilities

The plan of reorganization reflects the transfer of funds and securities to settle estimated obligations payable under our plan of reorganization at the effective date. We would be required to issue approximately 22.5 million shares of Grace common stock, based on the closing price per share of \$26.18 on December 31, 2007, for total proceeds of \$589.6 million, and utilize cash of \$1,176.1 million to settle these estimated obligations (see the adjustments denoted by the capital letter **C** in the proforma balance sheet below). The following table provides a calculation of the proforma share issuance:

Proforma Issuance of Shares

(\$ and shares in millions) (Unaudited)

**December 31,
2007**

Payment of asbestos claims	\$	482.6
Less: portion related to general unsecured claims		(87.0)
	\$	395.6
Value of unsecured claims paid with equity (15%)		194.0
Equity value distributable at emergence (22.5 million shares)	\$	589.6
Equity value distributable post-emergence for PI-AO claims (5.0 million shares)		130.0
Total value of equity to satisfy claims	\$	719.6
Closing price of shares at 12/31/07	\$	26.18
Proforma shares to satisfy asbestos and general unsecured claims and post-emergence PI-AO claims		27.5
Add: Shares issuable upon exercise of in-the-money stock options		1.9
Proforma issuance of shares		29.4

In our proforma presentation, we have assumed that our emergence from bankruptcy will give rise to 1) the payment of pre-petition liabilities, 2) the Fresenius/Sealed Air payments, and 3) the securing of emergence financing by non-U.S. subsidiaries and payment of dividends as further described below.

The payments result in changing the nature of our tax assets from reserves for tax-deductible obligations such as asbestos claims and environmental claims to time-limited tax net operating losses (see the adjustments denoted by the capital letter **D** in the proforma balance sheet below). We have assumed non-asbestos and pass-through liabilities will be paid in cash when due. A portion of the funding required to meet our emergence obligations will involve repatriating monies through a dividend from certain non-U.S. subsidiaries. We believe that the reserve related to repatriation of funds presently recorded will be adequate to absorb the U.S. tax effects of this dividend, assuming that we employ (as intended) certain tax planning strategies to preserve our net operating losses.

The following table presents a detailed description of the proforma tax effects of these payments on the balance of both (i) net operating loss carryforwards and (ii) temporary differences, net of valuation allowance.

**Summary of Change in
Deferred Tax Asset Balances**

Other	10.3	(10.3)
Subtotal	175.3	(175.3)
December 31, 2007 Proforma Balance	\$	\$ 237.9

D. Proforma Consolidated Statement of Operations and Capital Structure

The proforma income adjustments to our December 31, 2007 Consolidated Statements of Operations consist of:

- The elimination of all recorded charges and expenses directly related to Chapter 11, as these costs would not continue after effectiveness of our plan of reorganization, and the elimination of provisions recorded for environmental remediation obligations as we expect this risk would be resolved under our plan of reorganization (these eliminations are denoted by the capital letter **E** in the proforma statements of operations below);
- Adjustments to reduce Selling, General and Administrative Expenses and Other Income to eliminate noncore legal expenses, and noncore insurance income related to asbestos litigation, as the liabilities to which these noncore activities relate would be resolved as part of our plan of reorganization (these adjustments are denoted by the letter **F** in the proforma statements of operations below);
- The elimination of interest expense associated with pre-petition bank debt, and the addition of interest expense associated with the new \$1,000 million in financing as discussed above, which results in the net change in interest expense denoted by the adjustments marked by the letter **G** in the proforma statements of operations below;

- The tax effects of the proforma statements of operations adjustments at our effective tax rate (see the adjustments denoted by the capital letter **H** in the proforma statements of operations below); and
- The addition of new shares of Grace common stock related to the assumed financing of our plan of reorganization (see the adjustments denoted by the capital letter **I** in the proforma statements of operations below).

Proforma expenses reflect an assumed 7.4% average interest rate on outstanding borrowings, based on market conditions as of December 31, 2007. A hypothetical 1/8 percent variance in interest rates would increase or decrease our proforma net income by approximately \$0.7 million for the year ended December 31, 2007.

For purposes of proforma earnings per share and proforma share capital, we used the trading price of \$26.18 per share as of December 31, 2007 for calculating issued and outstanding shares. At this per share valuation, we assume that 22.5 million shares will be issued at the effective date of our plan of reorganization to fund asbestos and general unsecured claims, 5.0 million shares would be issuable upon exercise of warrants to satisfy our estimate of PI-AO claims, and 1.9 million shares would be issued upon exercise of in-the-money stock options. We use the year-end trading value solely to show proforma Consolidated Statements of Operations. This trading value may not be indicative of the actual trading value of Grace common stock following the effective date of our plan of reorganization. If our distributable value per share at the effective date of our plan of reorganization is at or below approximately \$8.00 per share, we would be required to revalue our balance sheet for a change in control. (The trading value of Grace common stock over the twelve-month period ended December 31, 2007 was between \$18.86 and \$30.65 per share.) These proforma financial statements reflect no change in assets or income related to this potential accounting outcome.

E. Non-asbestos Contingencies

The accompanying proforma financial information assumes all non-asbestos related contingencies (including environmental, tax and civil and criminal litigation) are settled for recorded amounts as of December 31, 2007. Certain liabilities are assumed to be paid at the effective date of our plan of reorganization based on our estimate of amounts that will be determinable and payable. The remainder, which would also be subject to our plan of reorganization, if approved, is assumed to be paid subsequent to the effective date of our plan of reorganization as amounts are either not due until a later date or will be determined through post-effective-date litigation. The ultimate value of such claims may change materially as Chapter 11 and other legal proceedings further define our non-asbestos related obligations.

Financial Condition, Liquidity and Capital Resources

Chapter 11-Related Information See Note 2 to the Consolidated Financial Statements.

Asbestos-Related Litigation See Note 3 to the Consolidated Financial Statements.

Environmental Matters See Note 15 to the Consolidated Financial Statements.

Defined Contribution Retirement Plans We sponsor a defined contribution retirement plan for our employees in the United States. This plan qualifies under section 401(k) of the U.S. tax code. At the present time, we contribute an amount equal to 100% of employee contributions, up to 6% of an individual employee's salary or wages. Our costs related to this benefit plan were \$12.4 million, \$14.0 million, and \$13.0 million for the years ended December 31, 2007, 2006, and 2005, respectively.

Defined Benefit Pension Plans We sponsor defined benefit pension plans for our employees in the United States, Canada, the United Kingdom, Australia, Germany, Italy, France, Spain, Netherlands, Japan, Philippines, South Korea, Taiwan, South Africa, Brazil and Mexico and fund government sponsored programs in other countries where we operate. Certain of our sponsored plans are advance-funded and others are pay-as-you-go. The advance-funded plans are administered by trustees who direct the management of plan assets and arrange to have obligations paid when due out of a trust. The most significant advance-funded plans cover our salaried employees in the U.S. and U.K. and employees covered by collective bargaining agreements at certain of our U.S. facilities.

The following tables present the components of net pension expense and cash contributions for the advance-funded and pay-as-you-go plans:

Components of Net Pension Expense

(In millions)

	2007	2006	2005
Annual pension benefits earned	\$ 23.8	\$ 24.7	\$ 23.3

(1) Plans intended to be advance-funded.

(2) Plans intended to be pay-as-you-go.

Fully-funded plans include several defined benefit pension plans where the fair value of the plan assets exceeds the projected benefit obligation, or PBO. This group of plans was overfunded by \$54.1 million as of December 31, 2007, and the overfunded status is reflected as overfunded defined benefit pension plans in the Consolidated Balance Sheet. Underfunded plans include a group of defined benefit pension plans that are underfunded on a PBO basis by a total of \$169.1 million as of December 31, 2007. Additionally, we have several plans that are funded on a pay-as-you-go basis, and therefore, the entire PBO of \$245.9 million at December 31, 2007 is unfunded. The combined balance of the underfunded and unfunded plans was \$415.0 million as of December 31, 2007 and is presented as a liability on the Consolidated Balance Sheet as follows - \$12.5 million in other current liabilities, \$169.1 million included in underfunded defined benefit pension plans, \$137.9 million included in unfunded pay-as-you-go defined benefit pension plans, and \$95.5 million in liabilities subject to compromise.

Beginning in 2007, on a quarterly basis, we analyze pension assets and pension liabilities along with the resulting funded status and update our estimate of these measures. Funded status is adjusted for contributions, benefit payments, actual return on assets, current discount rates and other identifiable and material actuarial changes.

At the December 31, 2007 measurement date for the U.S. advance-funded defined benefit pension plans, the PBO was approximately \$932 million as measured under U.S. generally accepted accounting principles. The PBO is measured as the present value (using a 6.25% discount rate as of December 31, 2007) of vested and non-vested benefits earned from employee service to date, based upon current services and estimated future pay increases for active employees. Of the participants in the pension plans, approximately 82% are current retirees or employees of our former businesses, which skews the payout pattern to the nearer term. Assets available to fund the PBO at December 31, 2007 were approximately \$774 million, or approximately \$158 million less than the measured obligation.

It is our intention to satisfy obligations under the pension plans and to comply with the requirements of the Employee Retirement Income Security Act of 1974. On June 20, 2007, we obtained bankruptcy court approval to fund minimum required payments of approximately \$54 million for the period from July 2007 through January 2008. In that regard, we contributed approximately \$9 million in July 2007 and approximately \$15 million in each of September 2007, October 2007, and January 2008 to the trusts that hold assets of the Plans. While we intend to continue to fund all minimum required payments under the Plans, there can be no assurance that the bankruptcy court will continue to approve the funding needs of the Plans. Contributions to non-U.S. plans are not subject to bankruptcy court approval and we intend to fund such plans based on applicable legal requirements, and actuarial and trustee recommendations; \$24.6 million was funded in 2007.

Total pension expense for 2007 was approximately \$53 million, and benefit payments to retirees aggregated approximately \$108 million for all pension programs in 2007.

Postretirement Benefits Other Than Pensions We provide certain health care and life insurance benefits for retired employees, a large majority of whom are retirees of divested businesses. These plans are unfunded, and we pay the costs of benefits under these plans as they are incurred. Our share of benefits under this program was \$9.8 million in 2007, compared with \$13.9 million during 2006. We received Medicare subsidy payments of \$4.8 million in 2007. Our recorded liability for postretirement benefits of \$84.0 million at December 31, 2007 is stated at net present value

F-71

Edgar Filing: W R GRACE & CO - Form 10-K

discounted at 6.25% (as discussed under Defined Benefit Pension Plans). Our proposed plan of reorganization provides for the continuation of these benefits.

Tax Matters See Note 4 to the Consolidated Financial Statements and **Income Taxes** above for further discussion of our tax accounting and tax contingencies.

Other Contingencies See Note 15 to the Consolidated Financial Statements for a discussion of our other contingent matters.

Cash Resources and Available Credit Facilities At December 31, 2007, we had cash and cash equivalents of \$480.5 million, short-term investment securities of \$100.9 million, and net cash value of life insurance of \$81.0 million.

Investment securities of \$100.9 million and \$2.4 million at December 31, 2007 and 2006, respectively, consist of direct or indirect investments in debt securities. Prior to the fourth quarter of 2007, our investment in the Columbia Strategic Cash Fund was classified in cash and cash equivalents as redemptions were available in cash. In December 2007, the fund began an orderly liquidation that is expected to continue through 2008 and restricted redemptions to an in-kind distribution of securities held by the fund. We have elected to remain in the fund and to value the fund based on the underlying securities as determined by the fund principals. The strategic cash investment fund was valued at \$98.3 million at December 31, 2007, which includes an impairment loss of \$1.4 million recorded in the fourth quarter of 2007 due to unfavorable conditions of the credit markets. The impairment loss is recorded as an offset to interest income earned on the Columbia Strategic Cash Fund, which is net against Chapter 11 expenses in the Consolidated Statements of Operations. This impairment was deemed to be other than temporary, and as such, was recorded in earnings.

Net cash value of life insurance represents the cash value of premiums paid by us for life insurance policies in the names of current and former executive officers. We have presented \$77.1 million of the \$81.0 million total value at December 31, 2007 as a current asset, as it is our expectation that this amount may be accessed in 2008 as part of our reorganization financing. At December 31, 2006, the full amount of net cash value of life insurance policies was presented as a long-term asset, as we did not have an expectation at that time of liquidating any portion of the assets. In November and December 2007, we surrendered and terminated life insurance policies and received approximately \$14.8 million of net cash value from the terminations. As a result of the terminations, gross cash value of the policies was reduced by approximately \$36.3 million and policy loans of approximately \$20.9 million were satisfied. Grace's insurance benefits in force was reduced by approximately \$60.1 million.

We have access to committed credit facilities in the U.S., Germany, France, Brazil, Singapore, India and China. In the U.S., under the \$250 million DIP facility, \$178.5 million was available at December 31, 2007, net of letters of credit and holdback provisions. The term of the DIP facility expires April 1, 2008. We have requested a two-year extension of this DIP facility from the lenders and a hearing before the bankruptcy court with respect to the extension is scheduled for March 17, 2008.

The following table summarizes our U.S. and non-U.S. credit facilities as of December 31, 2007:

Credit Facilities (In millions)	Maximum Borrowing	Amount Available	Expiration Date
---	------------------------------	-----------------------------	----------------------------

Edgar Filing: W R GRACE & CO - Form 10-K

	Amount		
Country			
U.S.	\$	250.0	\$ 178.5 04/01/08
Germany		72.5	72.5 12/31/09
Germany		17.4	6.7 09/30/08
France		5.2	5.2 06/30/08
Brazil		1.1	1.1 03/31/08
Singapore		5.2	3.1 03/31/08
India		3.0	1.9 03/31/08
China		4.7	1.0 03/31/08
Total	\$	359.1	\$ 270.0

We believe that these funds and credit facilities will be sufficient to finance our business strategy while in Chapter 11.

Debt and Other Contractual Obligations Total debt outstanding at December 31, 2007 was \$814.9 million, including \$286.2 million of accrued interest on pre-petition debt. As a result of the Chapter 11 filing, we are now in default on \$523.6 million of pre-petition debt, which, together with accrued interest thereon, has been included in liabilities subject to compromise as of December 31, 2007. The automatic stay provided under the bankruptcy code prevents our lenders from taking any action to collect the principal amounts as well as related accrued interest. However, we will continue to accrue and report interest on such debt during the Chapter 11 proceedings unless further developments lead management to conclude that it is probable that such interest will be compromised.

Set forth below are our contractual obligations as of December 31, 2007:

Contractual Obligations (In millions)	Total	Payments due by Period			Payments due	
		Less than 1 Year	1-3 Years	Thereafter	Upon Emergence from Chapter 11	After Emergence from Chapter 11
Operating commitments ⁽¹⁾	\$ 56.7	\$ 35.5	\$ 17.8	\$ 3.4	\$	\$

Other liabilities and accrued interest	137.0				100.8	36.2
Total liabilities subject to compromise	\$ 3,289.6	\$ 12.1	\$	\$	\$ 2,803.1	\$ 474.4
Pension funding requirements per ERISA ⁽³⁾	208.4	53.6	119.5	35.3		
Pension funding requirements for non-U.S. pension plans ⁽⁴⁾	74.1	13.7	44.2	16.2		
Total Contractual Obligations	\$ 3,711.1	\$ 142.9	\$ 221.3	\$ 69.4	\$ 2,803.1	\$ 474.4

(1) Amounts do not include open purchase commitments, which are routine in nature and normally settle within 90 days or obligations to employees under annual or long-term incentive programs.

(2) See Note 2 to the consolidated financial statements set forth elsewhere herein for a discussion of liabilities subject to compromise. Liabilities subject to compromise consist of estimated balances that may become due on the date of emergence from bankruptcy protection, which date is not certain at this time, or subsequent to emergence. Estimated amounts that may become due upon emergence have been presented in the Upon Emergence from Chapter 11 column above and estimated amounts that may become due subsequent to emergence have been presented in the After Emergence from Chapter 11 column, as we are not able to determine when these amounts will ultimately be settled. Amounts reflect the estimated claims payable pursuant to our plan of reorganization. It is possible that we could settle a portion of these claims at a date before emergence from Chapter 11 at the stated amounts or at amounts different from those recorded. In accordance with SFAS No. 158, we have presented \$12.1 million of certain estimated pension and postretirement obligations subject to compromise as current obligations in the December 31, 2007 Consolidated Balance Sheet.

(3) Based on the U.S. qualified pension plans status as of December 31, 2007, funding requirements under ERISA have been estimated for the next five years. Amounts in subsequent years have not yet been determined.

(4) Based on the non-U.S. pension plans status as of December 31, 2007, funding requirements have been estimated for the next five years. Amounts have been translated at the applicable December 31, 2007 exchange rates. Amounts in subsequent years have not yet been determined.

See Note 15 to the Consolidated Financial Statements for a discussion of financial assurances.

Analysis of Cash Flows

Net cash provided by operating activities in 2007 was \$88.2 million, compared with \$152.7 million for the prior year period. We attribute the lower net cash flow in 2007 to higher Chapter 11-related costs, higher working capital, dividends to joint venture partners and cash paid to resolve certain tax contingencies, partially offset by higher pre-tax operating income. Net cash used for investing activities in 2007 was \$206.9 million, compared with \$129.4 million in 2006. The increase in investing activities is primarily due to routine capital improvements, capacity expansion at certain production sites, one acquisition, an equity investment, and investments in short-term debt securities. Net cash inflow from financing activities in 2007 was \$45.7 million, compared with \$21.9 million in 2006, with the increase primarily attributable to cash received from stock options exercised.

Net cash flow provided by operating activities in 2005 was \$67.3 million. The higher net cash inflow in 2006 was due to improved core operating results and positive working capital changes. Other major factors affecting the change in operating cash include the nonrecurring payment of \$119.7 million to settle tax and environmental contingencies in 2005 and a significant increase in 2006 in defined benefit pension plan funding. Net cash used for investing activities in 2005 was \$77.9 million. The increase in investing activities in 2006 versus 2005 was due to the expansion of production facilities, acquisition of catalyst assets and technology, and capital for facilities maintenance. Net cash outflow from financing activities in 2005 was \$10.1 million primarily from debt service and reduced stock option activity.

Cash Flow From Core Operations Cash inflows from core operations were \$139.3 million, \$186.2 million, and \$154.1 million for 2007, 2006 and 2005, respectively. This decrease in cash flows from core operations in 2007 as compared to 2006 and 2005 was primarily attributable to higher investment in working capital and higher capital spending, partially offset by higher pre-tax operating income from core operations.

Core Operations	December 31,		
	2007	2006	2005
<i>(In millions)</i>			
Cash flows:			
Pre-tax operating income	\$ 284.6	\$ 240.2	\$ 201.5
Depreciation and amortization	113.4	113.5	120.9
Pre-tax earnings before depreciation and amortization	398.0	353.7	322.4
Working capital and other changes	(131.8)	(28.7)	(68.8)
Cash flow before investing	266.2	325.0	253.6
Proceeds from sale of product line	21.8		
Capital expenditures	(136.9)	(119.2)	(94.0)
Purchase of equity investment	(6.3)		
Businesses acquired	(5.5)	(19.6)	(5.5)
Net cash flow from core operations	\$ 139.3	\$ 186.2	\$ 154.1

We expect to continue to invest excess cash flow and/or other available capital resources in our core business base. These investments are likely to be in the form of additional plant capacity, product line extensions and geographic market expansions, and/or acquisitions in existing product lines. Investments that are outside the ordinary course of business may be subject to bankruptcy court approval and review by the Chapter 11 creditor committees.

Cash Flow From Noncore Activities The cash flow from our noncore activities can be volatile. Expenditures are generally governed by bankruptcy court rulings and receipts are generally nonrecurring. Much of the noncore spending in the past three years has been under Chapter 11 first-day motions that allow us to fund postretirement benefits and required environmental remediation on Grace-owned sites. Cash inflows

Edgar Filing: W R GRACE & CO - Form 10-K

have been from asbestos-related insurance recovery on pre-Chapter 11 liability payments, and unusual events. In 2005, we made a \$90 million payment to the U.S. Internal Revenue Service to fund taxes and interest on settled amounts as approved by the bankruptcy court.

F-74

Noncore Activities**December 31,***(In millions)***2007****2006****2005****Cash flows:**

Pre-tax income (loss) from noncore activities	\$ (59.3)	\$ (97.7)	\$ (30.3)
Non-cash charges	32.5	41.4	49.9

Cash spending for:

Investments in short term debt securities, net	(99.7)		
--	--------	--	--

Noncore contingencies:

Tax settlement	(10.3)		(90.0)
----------------	--------	--	--------

Environmental settlement			(29.7)
--------------------------	--	--	--------

Environmental remediation	(9.5)	(10.9)	(6.7)

Net cash flow from noncore activities	\$ (152.3)	\$ (84.7)	\$ (119.7)
--	-------------------	------------------	-------------------

Net cash flow from core operations and net cash flow from noncore activities do not represent income or cash flow as defined under generally accepted accounting principles, and you should not consider them to be an alternative to such measures as an indicator of our performance. We provide these measures to permit you to distinguish operating results of our current business base from results and related assets and liabilities of past businesses, discontinued products, and corporate legacies and the effect of our Chapter 11 proceedings.

Inflation

The financial statements are presented on a historical cost basis and do not fully reflect the impact of prior years' inflation. While the U.S. inflation rate has been modest for several years, we operate in international economies with both inflation and currency risks. The ability to pass on inflation costs is an uncertainty due to general economic conditions and competitive situations. The cost of replacing our property and equipment today is estimated to be greater than its historical cost. Accordingly, depreciation expense would be greater if the expense were stated on a current cost basis.

Critical Accounting Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires that we make estimates and assumptions affecting the assets and liabilities reported at the date of the Consolidated Financial Statements, and the revenues and expenses reported for the periods presented. We believe that our accounting estimates are appropriate and the related balances are reasonable; however, actual amounts could differ from the original estimates, requiring adjustments in future periods. Changes in estimates are recorded in the period identified. Our accounting policies are described in Note 1 to the Consolidated Financial Statements. Critical accounting estimates are described in this section.

An accounting estimate is considered critical if the estimate requires management to make assumptions about matters that were highly uncertain at the time the estimate was made, if different estimates reasonably could have been used, or if changes in the estimate are reasonably likely to occur from period to period that could have a material impact on our financial condition or results of operations. As part of our quarterly disclosure controls and procedures, management has discussed the development, selection and disclosure of the critical accounting estimates with the Audit Committee of the Board of Directors. The accuracy of these and other estimates may be materially affected by the uncertainties arising under our Chapter 11 proceeding.

Contingent Liabilities We have recorded a liability for the resolution of contingencies related to asbestos lawsuits, environmental remediation, income taxes and litigation. We record a liability if we have determined that a loss is probable, and we are able to reasonably estimate the amount of the loss or have another reasonable basis for recording a liability. We have determined that each of the contingencies discussed below involves an accounting judgment that is material to our Consolidated Financial Statements.

Asbestos-Related Lawsuits

We are a defendant in property damage and personal injury lawsuits relating to previously sold asbestos-containing products. See Note 3 to the Consolidated Financial Statements for a discussion of the background and status of the asbestos-related lawsuits, and how we are attempting to resolve them as part of our Chapter 11 proceeding. We have recorded a liability for our asbestos-related obligations as discussed below.

Prior to the Chapter 11 filing, we estimated our asbestos personal injury liability based on our experience with the cost to resolve such claims given the prevailing conditions in the asbestos tort system. Those conditions meant that the costs for resolution were driven by many factors beyond the merits of the claims. The cost to resolve asbestos

personal injury claims was influenced by numerous variables, including the nature of the disease alleged, product identification, negotiation factors, the solvency of other former producers of asbestos-containing products, cross-claims by co-defendants, the rate at which new claims were being filed, the jurisdiction in which the claims were filed, and the defense and disposition costs associated with these claims.

Prior to the chapter 11 filing, we estimated asbestos property damage liability based upon the cost to resolve such claims in the tort system. The cost to resolve asbestos property damage claims was influenced by factors such as legal defenses, product identification, the amount and type of product involved, the age, type, size and use of the building, the legal status of the claimant, the jurisdictional history of prior cases, the court in which the case is pending, and the difficulty of asbestos abatement, if necessary.

Since the Chapter 11 filing, we have requested that the bankruptcy court conduct proceedings to determine the value of our asbestos-related liabilities. In January 2008, the bankruptcy court commenced a trial for estimating our asbestos personal injury liability. The bankruptcy court is also considering several pending motions that seek the adjudication of most of the remaining asbestos property damage claims. We expect that the bankruptcy court proceedings may provide the basis for determining the amount that must be paid into a trust on the effective date of a plan of reorganization in respect of our asbestos-related claims.

Under our proposed plan of reorganization, it is a condition to confirmation of our proposed plan of reorganization that the bankruptcy court shall conclude that the amount necessary to fund all pending and future asbestos personal injury claims and property damage claims (and trust administration costs and expenses) is not greater than \$1,613 million. This amount was based in part on our 2004 evaluation of (1) existing but unresolved personal injury and property damage claims, (2) actuarially-based estimates of future personal injury claims, (3) the risk of loss from the Zonolite attic insulation litigation, (4) proposed claim payments reflected in our plan of reorganization, and (5) the cost of the trust administration and litigation. This condition precedent is the basis for our currently recorded asbestos-related liability.

A wide range of asserted liability has been put forth by stakeholders in the bankruptcy proceedings, from amounts that would indicate liability less than that recorded at December 31, 2007, to amounts that would exceed the business value of Grace. Therefore, we will adjust our recorded asbestos-related liability, as necessary, to reflect rulings by the bankruptcy court.

Our asbestos-related insurance receivable is directly dependent on the amount and nature of our asbestos-related liability. We estimate the amount of the receivable based on our analysis of coverage remaining under insurance policies for the 1962 to 1985 period, and the terms of settlement agreements in effect with certain insurers.

Our liability for asbestos-related matters has had a material impact on our financial condition and results of operations, and future changes in such liability, if required, will likely lead to material adjustments to the Consolidated Financial Statements. We expect the ultimate determination of the resolution cost of this obligation will have a material impact on our liquidity and capital resources.

Environmental Remediation

We are obligated under applicable law to remediate certain properties related to our business or former businesses. At some sites we finance all or a portion of remediation conducted by third parties (generally state or Federal authorities) and at others, we perform the required remediation ourselves. Our environmental remediation obligation has a significant impact on our Consolidated Financial Statements. See Note 15 to the

Edgar Filing: W R GRACE & CO - Form 10-K

Consolidated Financial Statements for a discussion of our environmental remediation liabilities.

At sites where third parties conduct remediation, we estimate our obligations from information available from regulatory authorities including actual costs incurred, expected future costs and time to completion.

At sites where we conduct remediation, we work with regulatory authorities to define compliance requirements and then estimate the cost required to meet those requirements. We base our estimates on our historical knowledge and engineering assessments specific to conditions at each site and we update our estimates as necessary.

F-76

Our estimates can fluctuate significantly due to the extended duration of some remediation projects. The accuracy of our estimates is dependent on the validity of assumptions regarding such matters as labor rates, indirect costs and capital costs (such as building materials), which are difficult to forecast over extended periods. We cannot estimate the impact on our Consolidated Financial Statements of using other reasonably possible assumptions because we primarily rely on the assumptions and estimates of the applicable regulatory authorities. Future changes in estimates, if required, will more than likely lead to material adjustments to our Consolidated Financial Statements, and we expect the ultimate resolution of these obligations to have a material impact on our liquidity and capital resources.

Litigation

We are subject to legal proceedings and claims arising out of the normal course of business. We are currently a party to various legal proceedings, both civil and criminal in nature, in which we have been named as a defendant. See Note 15 to the Consolidated Financial Statements for a discussion of our significant legal proceedings.

To estimate the cost to resolve our legal obligations, we review the facts of each matter to determine the merits of the case and the corresponding probability of a loss. If we determine that a loss is probable, we determine if there is sufficient information to make a reasonable estimate of the loss amount. Our estimates regarding the outcome of our legal proceedings and claims involve substantial uncertainties that could cause our actual losses to differ materially from our estimates. In estimating the likely outcome of a legal proceeding, we consider the nature of the specific claim (or unasserted claim), our experience with similar claims, the jurisdiction in which the proceeding is filed, court rulings, the status of any settlement negotiations, the likelihood of resolution through settlement or alternative dispute resolution, the proceeding's current status and other relevant information and events. We adjust our recorded liability for litigation contingencies as necessary to reflect our current evaluation of these and other factors.

Pension and Other Postretirement Benefits Expenses and Liabilities We sponsor defined benefit pension plans for our employees in the United States, Canada, the United Kingdom, Australia, Germany, Italy, France, Spain, Netherlands, Japan, Philippines, South Korea, Taiwan, South Africa, Brazil and Mexico and fund government sponsored programs in other countries where we operate. See Note 19 to the Consolidated Financial Statements for a detailed discussion of our pension plans and other postretirement benefit plans.

In order to estimate our pension and other postretirement benefits expenses and liabilities, we evaluate the range of possible assumptions to be used in the calculation of pension and other postretirement benefits expenses and liabilities. We select the assumptions that we believe to be most indicative of factors such as participant demographics, past experiences and market indices, and provide the assumptions to independent actuaries. These assumptions are updated annually and primarily include factors such as discount rates, health care cost trend rates, expected return on plan assets, mortality rates, retirement rates, and rate of compensation increase. The independent actuaries review our assumptions for reasonableness, and use the assumptions to calculate our estimated liability and future pension expense. We review the actuarial reports for reasonableness and adjust our expenses and liabilities to reflect the amounts calculated in the actuarial reports.

On a quarterly basis, we analyze the rollforward of pension assets and pension liabilities along with the resulting funded status to assure that the Consolidated Balance Sheet reflects an updated estimate of these measures each period. Funded status is adjusted for actual contributions, benefit payments, return on assets and other identifiable and material actuarial changes. Discount rates are also evaluated for reasonableness each period.

Edgar Filing: W R GRACE & CO - Form 10-K

Income Taxes We are a global enterprise with operations in more than 40 countries. This global reach results in a complexity of tax regulations, which require assessments of applicable tax law and judgments in estimating our ultimate income tax liability. See Note 4 to the Consolidated Financial Statements for a detailed discussion of our estimates used in accounting for income taxes and income tax contingencies.

F-77

We recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained upon examination by the taxing authorities, based on the technical merits of the position. We measure tax benefits in our financial statements from such a position as the largest benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement. Unrecognized tax benefits are tax benefits claimed in our tax returns that do not meet these recognition and measurement standards.

We record a liability for income tax contingencies when it is more likely than not that a tax position we have taken will not be sustained upon audit. We evaluate such likelihood based on relevant facts and tax law. We adjust our recorded liability for income tax matters due to changes in circumstances or new uncertainties, such as amendments to existing tax law. Our ultimate tax liability depends upon many factors, including negotiations with taxing authorities in the jurisdictions in which we operate, outcomes of tax litigation and resolution of disputes arising from federal, state, and international tax audits. Due to the varying tax laws in each jurisdiction senior management, with the assistance of local tax advisors as necessary, assesses individual matters in each jurisdiction on a case-by-case basis. We research and evaluate our income tax positions, including why we believe they are compliant with income tax regulations, and these positions are documented internally.

Deferred income taxes result from the differences between the financial and tax basis of our assets and liabilities and are adjusted for changes in tax rates and tax laws when changes are enacted. If it is more likely than not that all or a portion of deferred tax assets will not be realized, a valuation allowance is provided against such deferred tax assets. Significant judgment is required in evaluating the need for and magnitude of appropriate valuation allowances against deferred tax assets. The assessment of realization of deferred tax assets is performed annually under scenarios of future taxable income and tax planning alternatives that are considered reasonable in the circumstances.

Recent Accounting Pronouncements

See Note 1 of Consolidated Financial Statements for a discussion of recent accounting pronouncements and their effect on us.

Market Risk

Our debt obligations, global operations, the nature of the specialty chemicals production process and the industries in which we engage expose us to various market risks. We utilize derivative financial instruments and derivative commodity instruments to mitigate certain market risks. The following is a discussion of our primary market risk exposures, how those exposures are managed, and certain quantitative data pertaining to our market risk sensitive instruments.

Interest Rate Risk

Interest rate fluctuations directly affect interest expense and cash to be paid out in the form of interest payments on variable-rate debt, and can potentially lead to changes in the market value of the associated variable-rate debt.

We have \$500.0 million of outstanding pre-petition variable-rate borrowings under bank revolving credit agreements, and interest is accrued on this debt based on the prime rate. Due to our Chapter 11 filing, interest accrued on pre-petition debt is added to the principal balance. As of

Edgar Filing: W R GRACE & CO - Form 10-K

December 31, 2007 and 2006, total interest accrued on this debt and added to the \$500.0 million principal was \$283.0 million and \$223.1 million, respectively. If the prime rate were to vary in the near-term by one percentage point, the effect would be to increase or decrease interest expense and accrued interest on outstanding principal by approximately \$8.2 million over the twelve-month period ended December 31, 2008.

We also maintain a \$250 million debtor-in-possession facility. The interest rate under this facility is based on LIBOR, a variable rate. As of December 31, 2007 and 2006, no amount was outstanding under this facility, and \$178.5 million and \$175.0 million, respectively, was available to us, net of letters of credit and holdback provisions.

We do not currently use derivative instruments to attempt to mitigate interest rate risk.

Foreign Currency Exchange Rate Risk

Because we do business in over 40 countries, our results of operations are exposed to fluctuations in foreign exchange rates. We seek to minimize exposure to these fluctuations by matching revenue streams in volatile currencies with expenditures in the same currencies, but it is not always possible to do so. From time to time, we use financial instruments such as foreign currency forward contracts, options, or combinations of the two to reduce the risk of certain specific transactions. However, we do not have a policy of hedging all exposures, because management does not believe that such a level of hedging would be cost-effective, particularly translation exposures that are not expected to affect cash flows in the near-term. Significant uses of derivatives to mitigate the effects of changes in foreign currency exchange rates are as follows:

In May 2004, we purchased forward contracts with a U.S. bank to minimize currency risk related to a Euro-denominated intercompany loan due from one of our German subsidiaries to one of our U.S. subsidiaries. In June 2005, we extended a portion of the forward contract amounts to dates that mature on the dates of the scheduled principal repayments. As part of the contract extension, we were required to pay a settlement premium of \$9.3 million to the bank. We expect this settlement premium will be recovered over time as the contracts are settled at rates greater than the initial rates in the May 2004 foreign currency forward contracts. Currency fluctuations on this loan are recorded as a component of operating results. The loan is denominated in Euros, and the total amount outstanding under the intercompany loan was 61.6 million and 134.8 million as of December 31, 2007 and 2006, respectively (approximately \$89.9 million and \$177.6 million, respectively).

In November 2007, we executed an intercompany loan in the amount of 250 million (Euros) between our principal U.S. operating subsidiary and a newly established German subsidiary as part of a legal restructuring. In conjunction with the loan, our U.S. subsidiary entered into a series of foreign currency forward contracts to attempt to minimize the impact to earnings from foreign currency movements. The forward contracts are aligned with the payment schedule of the intercompany loan, which has annual principal and interest payments in November 2009 through November 2013. The total amount outstanding under the intercompany loan was 250.0 million as of December 31, 2007 (approximately \$364.7 million).

The following tables provide information about our significant foreign currency forward exchange agreements as of December 31, 2007 and 2006, specifically, the notional, or contract, amounts (in millions of \$U.S.), and weighted average exchange rates (\$U.S. to Euros) by expected (contractual) maturity dates. These notional amounts generally are used to calculate the contractual payments to be exchanged under the contract. The fair values represent the fair value of the derivative contracts, and are presented as other assets or other liabilities and allocated between current and non-current, as appropriate, in the Consolidated Balance Sheets.

Foreign Currency Forward Exchange Agreements	Euro Forward Contracts December 31, 2007							Fair Value
	Expected Maturity Date							
	2008	2009	2010	2011	2012	2013	Total	
Contract amount	79.1	72.7	72.5	72.5	72.6	72.9	442.3	(11.1)
Average contractual exchange rate	1.28	1.45	1.45	1.45	1.45	1.46	1.42	N/A

Foreign Currency Forward Exchange Agreements	Euro Forward Contracts December 31, 2006							Fair Value	
	Expected Maturity Date								
	2007	2008	2009	2010	2011	2012	2013	Total	
Contract amount	92.8	79.1						171.9	(11.6)
Average contractual exchange rate	1.27	1.28						1.27	N/A

Commodity Price Risk

We operate in markets where the prices of raw materials and energy are commonly affected by cyclical movements of the economy. The principal raw materials used in our products include caustic, alumina, rare earths, nickel, aluminum, cobalt carbonate, kaolin, molybdenum, sodium aluminate,

F-79

sodium silicate, olefins, gypsum, resins, rubber and latices. Natural gas is the largest single energy source that we purchase. These commodities are generally available to be purchased from more than one supplier. In order to minimize the risk of increasing prices on certain raw materials and energy, we use a centralized supply chain organization for procurement in order to improve purchasing activities. We have a risk management committee to review proposals to hedge purchases of raw materials, energy and currency.

We have implemented an energy risk management program under which our goal is to hedge natural gas supply in a way that provides protection against price volatility of the natural gas market. In order to mitigate volatile natural gas prices, we have entered into fixed price swaps to hedge a portion of our 2008 natural gas requirements.

The following tables provide information about our commodity derivatives that are sensitive to changes in commodity prices, specifically natural gas prices. Contract volumes, or notional amounts, are presented in millions of British thermal units (MMBtu), weighted average contract prices are presented in \$U.S. per MMBtu, and the total contract amount and fair value are presented in millions of \$U.S. The fair values represent the fair value of the derivative contracts. The fair value for swaps represents the excess of the variable price (market price) over the fixed price (pay price) multiplied by the nominal contract volumes. The fair value of forward contracts represents the excess of the market value amounts (as quoted on commodity exchanges) over the contract amount. All commodity derivative instruments mature in the subsequent year.

Type of Contract	Commodity Derivatives December 31, 2007			
	Contract Volumes	Weighted Average Price	Total Contract Amount	Fair Value
Swaps	1.8	8.18	14.7	(1.0)

Type of Contract	Commodity Derivatives December 31, 2006			
	Contract Volumes	Weighted Average Price	Total Contract Amount	Fair Value
Forwards	0.6	10.56	6.0	3.5
Swaps	2.0	8.10	16.2	(1.7)

The fair value of commodity swaps and options derivative contracts are presented as other assets or other liabilities and allocated between current and non-current, as appropriate, in the Consolidated Balance Sheets. Our forward contracts for natural gas qualify for the normal purchases and normal sales exception from SFAS No. 133, as they do not contain net settlement provisions, and result in physical delivery of natural gas from suppliers. Therefore, the fair values of these contracts are not recorded in our Consolidated Balance Sheets.

Ratio of earnings to combined fixed charges and preferred stock dividends	1.89	1.74	2.80	(6)	(6)

(1) Grace preferred stocks were retired in 1996.

(2) Certain amounts have been restated to conform to the 2007 presentation.

(3) Amounts in 2007, 2006, and 2005 contain provisions for environmental remediation of \$17.0 million, \$30.0 million, and \$25.0 million, respectively.

(4) Amounts reflect the following adjustments: a \$476.6 million accrual to increase our recorded asbestos-related liability, net of expected insurance recovery of \$238.2 million; a \$94.1 million accrual to increase our estimate of interest to which general unsecured creditors would be entitled; and a \$151.7 million credit for net income tax benefits related to the items described above.

(5) Amounts include \$172.5 million for pre-tax charges to adjust our estimated liability for environmental remediation and asbestos-related property damage.

(6) As a result of the losses incurred for the years ended December 31, 2004 and 2003, we were unable to fully cover the indicated fixed charges (a shortfall of \$383.8 million and \$69.2 million, respectively).
