**FAIR VALUE REPORTING**

The Fund adopted the provisions of Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157 ( FAS 157 ), Fair Value Measurements, on January 1, 2008. FAS 157 established a three-tier hierarchy to establish classification of fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability that are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability that are developed based on the best information available.

Various inputs are used in determining the value of the Fund's investments as of the end of the reporting period. These inputs are categorized in the following hierarchy under applicable financial accounting standards:

Level 1 Quoted prices in active markets for identical investments

Level 2 Other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 Significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The following is a summary of the inputs used to value the Fund's investments as of March 31, 2008.

Valuation Inputs	Investments in Securities	Other Financial Instruments*
Level 1-Quoted Prices	\$ 143,775,546	
Level 2-Other Significant Observable Inputs	\$ 2,012,000	
Level 3-Significant Unobservable Inputs		
<b>Total</b>	<b>\$ 145,787,546</b>	

\* Other financial instruments are derivative investments not reflected in the Schedule of Investments such as futures, forwards and swap contracts, which are valued at the unrealized appreciation/depreciation on the investment.

For the three months ended March 31, 2008, the Fund did not have significant unobservable inputs (Level 3) used in determining fair value. Therefore, a reconciliation of assets in which significant unobservable inputs (Level 3) were used in determining fair value is not applicable.

**NOTES TO STATEMENT OF INVESTMENTS (UNAUDITED)**

**NOTE 1. ORGANIZATION**

Liberty All-Star Growth Fund, Inc. (the Fund ) is a Maryland corporation registered under the Investment Company Act of 1940 (the Act ), as amended, as a diversified, closed-end management investment company.

**Investment Goal**

The Fund seeks long-term capital appreciation.

**Fund Shares**

The Fund may issue 60,000,000 shares of common stock at \$0.10 par.

**NOTE 2. SIGNIFICANT ACCOUNTING POLICIES**

**Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ( GAAP ) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements.

**Security Valuation**

Equity securities are valued at the last sale price at the close of the principal exchange on which they trade, except for securities listed on the NASDAQ which are valued at the NASDAQ official closing price. Unlisted securities or listed securities for which there were no sales during the day are valued at the closing bid price on such exchanges or over-the-counter markets.

## Edgar Filing: LIBERTY ALL STAR GROWTH FUND INC. - Form N-Q

Short-term debt obligations maturing in more than 60 days for which market quotations are readily available are valued at current market value. Short-term debt obligations maturing within 60 days are valued at amortized cost, which approximates market value.

Investments for which market quotations are not readily available are valued at fair value as determined in good faith under consistently applied procedures approved by and under the general supervision of the Board of Directors.

### Security Transactions

Security transactions are accounted for on the trade date. Cost is determined and gains (losses) are based upon the specific identification method for both financial statement and federal income tax purposes.

### Repurchase Agreements

The Fund may engage in repurchase agreement transactions with institutions that the Fund's investment adviser has determined are creditworthy. The Fund, through its custodian, receives delivery of underlying securities collateralizing a repurchase agreement. Collateral is at least equal, at all times, to the value of the repurchase obligation including interest. A repurchase agreement transaction involves certain risks in the event of default or insolvency of the counterparty. These risks include possible delays or restrictions upon a Fund's ability to dispose of the underlying securities and a possible decline in the value of the underlying securities during the period while the Fund seeks to assert its rights.

### Income Recognition

Interest income is recorded on the accrual basis. Corporate actions and dividend income are recorded on the ex-date.

### Federal Income Tax Status

Consistent with the Fund's policy to qualify as a regulated investment company and to distribute all of its taxable income to shareholders, no federal income tax has been accrued.

---

Distributions to Shareholders

The Fund currently has a policy of paying distributions on its common shares totaling approximately 10% of its net asset value per year. The distributions are payable in four quarterly distributions of 2.5% of the Fund's net asset value at the close of the New York Stock Exchange on the Friday prior to each quarterly declaration date. Distributions to shareholders are recorded on ex-date.
