**Item 4.02 Non-Reliance on Previously Issued Financial Statements or a Related Audit Report or Completed Interim Review.**

During the year ended June 30, 2008, the Company issued convertible notes and warrants. The proceeds of the convertible notes were allocated to the warrants and the beneficial conversion feature of the notes and the discount was being amortized over the term of the notes. According to EITF 98-5, paragraph 9, for convertible debt securities, any recorded discount resulting from the allocation of proceeds to the beneficial conversion feature should be recognized as interest expense using the effective yield method. The straight line method is also an acceptable method as long as the result is not materially different than the result that would have been recorded under the effective yield method. The Company was providing for the amortization of the convertible debt discount on a straight-line method over the term of certain convertible debt securities. The Company has reviewed its calculations of amortization of debt discount, a non-cash expense, under both the straight-line and effective yield methods and has determined that there is a material difference between the two calculations. As such, on September 25, 2008, the Company's management, audit committee and board of directors concluded that the Company's financial statements for the quarterly periods ended December 31, 2007 and March 31, 2008 should be restated and should no longer be relied upon because of the change from the straight-line method to the effective yield method. This change will not have any impact on the cash position and cash burn of the Company. It will result in the following changes to the financial statements incorporated in the following Quarterly Reports on Form 10-Q:

	Original	Restated	Change
<u>December 31, 2007</u>			
Amortization of debt discount and Financing costs	283,207	38,374	(244,833)
Net loss	1,294,671	1,049,838	(244,833)
Loss per share	.07	.06	(.01)
Convertible notes	257,560	12,727	(244,833)
Stockholders equity	8,038,961	8,283,794	244,833
<u>March 31, 2008</u>			
Amortization of debt discount and Financing costs	628,626	66,676	(561,950)
Net loss	2,044,167	1,482,217	(561,950)
Loss per share	.12	.08	(.04)
Convertible notes	819,525	12,742	(806,783)
Stockholders equity	6,760,481	7,567,264	806,783

The Company's management has assessed the effect of the restatement on its internal controls over financial reporting and management does not believe that this restatement constitutes a material weakness in its internal controls over financial reporting.
