- Pre-tax income of \$8.2 million, 11 percent of revenues
- Net income of \$4.8 million, or \$0.07 per diluted share

- Annualized brokerage revenue per funded account of \$1,600
- Customer acquisition cost per new funded account of \$340
- Record education graduates of 15,100, an increase of 45 percent

thinkorswim's first quarter performance reflects continued strength in our brokerage business, as shown by our record retail DARTs, up 52 percent from the year-ago quarter to 69,000; new account openings of 32,675 sustaining recent record levels; and growth of customer assets to \$3.2 billion from a total of 108,000 funded and 265,675 open accounts, said Lee K. Barba, Chairman and CEO of thinkorswim Group Inc. The high level of brokerage activity underscores our customers' continuing preference for thinkorswim's advanced financial trading technology and cross-market transaction capabilities, which empower clients to execute derivative-based trading strategies in today's fast moving, volatile markets. At the same time, our education segment set a record of 15,100 graduates, demonstrating that our education value proposition continues to attract informed investors.

We also are honored that thinkorswim was recently rated #1 by Barron's in its annual ranking of the best overall online brokers for 2008, and placed highest in the critical Best for Frequent Traders and Best for Options Traders categories. This is the third time in the last four years that thinkorswim has earned this coveted distinction, which reflects our ongoing commitment to leadership in products and services for active traders, said Mr. Barba.

Analysis of First Quarter 2009 Results

(All comparisons are to the corresponding year-ago period unless otherwise indicated)

For the first quarter, brokerage revenue increased 11% to \$46.9 million, driven by a 31% increase in transaction revenues (commissions and payment for order flow) offset by a 78% decrease in interest revenue. The increase in transaction revenue was primarily due to the 61% increase year-over-year in retail funded accounts and 52% year-over-year increase in retail DARTs. The net interest revenue decline was primarily due to the dramatic decrease in the average federal funds rate, partly offset by the 19% increase in client assets to \$3.2 billion at quarter end, of which \$1.8 billion is held in cash.

Update Related to Legal Matters

With regard to the previously announced non-public inquiry by the SEC, the Company has agreed in principle to a settlement which the staff has indicated it will recommend to the Commission. In view of this development, the Company has accrued \$2.5 million in the first quarter of 2009, for a total accrual of \$3.0 million, in connection with this matter. There can be no assurance as to whether the offer will be accepted by the Commission, whether a definitive settlement of this inquiry will occur or, if a definitive settlement does occur, what the monetary and non-monetary consequences will be for the Company or its operations.
