We believe the non-GAAP information provides supplemental information useful to investors in comparing our results of operations on a consistent basis from period to period. Management uses these non-GAAP measures in assessing our core operating performance and evaluating our ongoing business operations. These measures are not in accordance with, or an alternative for, generally accepted accounting principles (GAAP) and may be different from non-GAAP measures used by other companies. Therefore, the information may not necessarily be comparable to that of other companies and should be considered as a supplement to, not a substitute for, or superior to, the corresponding measures calculated in accordance with GAAP. Investors are encouraged to review the reconciliations of these non-GAAP financial measures to the comparable GAAP results, which are included below in this press release.
