MOVE, INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Business

Move, Inc. and its subsidiaries (the Company or Move) operate an online network of web sites for real estate search, finance, moving and home enthusiasts and provide a comprehensive resource for consumers seeking online information and connections needed regarding real estate. The Company's flagship consumer web sites are realtor.com®, Move.com and Moving.com™. The Company also supplies lead management software and marketing services for real estate agents and brokers through its Top Producer® and TigerLead® businesses. Through its ListHub™ business, the Company is also an online real estate listing syndicator and provider of advanced performance reporting solutions for the purpose of helping to drive an effective online advertising program for brokers, real estate franchises, and individual agents.

2. Principles of Consolidation and Basis of Presentation

The accompanying financial statements are consolidated and include the financial statements of Move and its majority-owned subsidiaries. All significant intercompany balances and transactions have been eliminated in consolidation. The Company has evaluated all subsequent events through the date the financial statements were issued.

Investments in private entities where the Company holds a 50% or less ownership interest and does not exercise control are accounted for using the equity method of accounting. The investment balance is included in Investment in unconsolidated joint venture within the unaudited Condensed Consolidated Balance Sheets and the Company's share of the investees' results of operations is included in Earnings of unconsolidated joint venture within the unaudited Condensed Consolidated Statements of Operations. (See Note 6, Investment in Unconsolidated Joint Venture.)

The Company's unaudited Condensed Consolidated Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP), including those for interim financial information, and with the instructions for Form 10-Q and Article 10 of Regulation S-X issued by the United States Securities and Exchange Commission (SEC). Accordingly, they do not include all of the information and note disclosures required by GAAP for complete financial statements. These statements are unaudited and, in the opinion of management, all adjustments (which include only normal recurring adjustments) considered necessary for a fair presentation have been included. These unaudited Condensed Consolidated Financial Statements should be read in conjunction with the audited financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2012 (the Annual Report), which was filed with the SEC on February 22, 2013. The results of operations for the three and nine months ended September 30, 2013, are not necessarily indicative of the operating results expected for the full year ending December 31, 2013.

3. New Accounting Standards

Edgar Filing: MOVE INC - Form 10-Q

In July 2013, the FASB issued Accounting Standards Update No. 2013-11 (ASU 2013-11), Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists. The amendments in ASU 2013-11 are intended to end inconsistent practices regarding the presentation of unrecognized tax benefits on the balance sheet. An entity will be required to present an unrecognized tax benefit as a reduction of a deferred tax asset for a net operating loss (NOL) or tax credit carryforward whenever the NOL or tax credit carryforward would be available to reduce the additional taxable income or tax due if the tax position is disallowed. An entity is required to apply the amendments prospectively for annual reporting periods beginning after December 15, 2013, and for interim periods within those annual periods. Early adoption and retrospective application are permitted. The Company is currently evaluating ASU 2013-11, but does not anticipate that the implementation of this guidance will have a material impact on its consolidated financial statements.

A variety of proposed or otherwise potential accounting standards are currently under evaluation by the various standard setting organizations and regulatory agencies. Due to the tentative and preliminary nature of those proposed standards, management has not determined whether implementation of such proposed standards would have a material impact to the Company's consolidated financial statements.

4. Acquisitions

On May 1, 2013, the Company acquired certain assets of ABC Holdings, LLC, which, prior to such date, operated Doorsteps.com (Doorsteps). Doorsteps provides homebuyers with content, tools and advice along every step of the home buying process and helps professionals connect, engage and collaborate with homebuyers during every step of the transaction. The purchase price was \$2.3 million in cash, \$0.3 million of which was paid into escrow for a two-year period.

Table of Contents

The assets acquired constituted a business at the date of acquisition and, therefore, was accounted for as a business combination with the total purchase price being allocated to the assets acquired based on their respective fair values. The \$2.3 million purchase price was preliminarily allocated \$1.0 million to domain name, \$0.6 million to purchased technology, \$0.2 million to web site content with the remaining \$0.5 million allocated to goodwill. The identifiable intangible assets are being amortized over estimated useful lives ranging from 1 to 5 years. The financial results of the acquisition are included in the Company's unaudited Condensed Consolidated Financial Statements from the date of acquisition. Pro forma information for this acquisition has not been presented because the effects were not material to the Company's historical consolidated financial statements.

5. Segment Information and Revenues by Product Category

Segment reporting requires the use of the management approach in determining reportable operating segments. The management approach considers the internal organization and reporting used by the Company's Chief Operating Decision Maker (CODM) for making operating decisions and assessing performance. The Company is aligned functionally with the management team focused and incentivized around the total company performance. The CODM is provided with reports that show the Company's results on a consolidated basis with additional expenditure information by functional area, but there is no additional financial information provided at any further segment level. Based on this, the Company has determined that only one reportable operating segment exists.

Within that single reportable operating segment, the Company categorizes its products and services into two audience-driven groups: Consumer Advertising and Software and Services. The Company's Consumer Advertising products are focused on providing real estate consumers with the information, tools and professional expertise they need to make informed home buying, selling, financing and renting decisions through its operation of realtor.com® and other consumer-facing web sites. The Company's Software and Services products are committed to delivering valuable connections to real estate professionals by providing them with advertising systems, productivity and lead management tools, and reporting with the goal of helping to make them more successful.

The following table summarizes the Company's revenues by product category within its single reportable operating segment (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2013	2012	2013	2012
Revenue				
Consumer advertising	\$ 45,630	\$ 40,113	\$ 132,348	\$ 120,661

Total revenue	\$ 58,825	\$ 49,446	\$ 170,553	\$ 146,496

6. Investment in Unconsolidated Joint Venture

As of September 30, 2013 and December 31, 2012, the Company's interest in its unconsolidated joint venture, Builders Digital Experience, LLC (BDx), amounted to \$5.4 million and \$4.9 million, respectively, which was recorded in Investment in unconsolidated joint venture within the unaudited Condensed Consolidated Balance Sheets.

Edgar Filing: MOVE INC - Form 10-Q

The Company's proportionate share of earnings resulting from its investment in unconsolidated joint venture was \$0.6 million and \$0.3 million for the three months ended September 30, 2013 and 2012, respectively, and \$1.7 million and \$0.7 million for the nine months ended September 30, 2013 and 2012, respectively, and was included in Earnings of unconsolidated joint venture within the unaudited Condensed Consolidated Statements of Operations. The Company records its proportionate share of earnings one month in arrears.

The Company received cash distributions of \$1.2 million and \$1.0 million from BDX during the nine months ended September 30, 2013 and 2012, respectively.

7. Convertible Senior Notes

In August 2013, the Company issued 2.75% convertible senior notes due September 1, 2018 (the "Notes") with a principal amount of \$100.0 million. Interest is payable in cash in arrears at a fixed rate of 2.75% on March 1 and September 1 of each year, beginning on March 1, 2014. The Notes mature on September 1, 2018 unless repurchased or converted in accordance with their terms prior to such date. The Company cannot redeem the Notes prior to maturity.

The terms of the Notes are governed by an indenture by and between the Company and U.S. Bank National Association, as Trustee (the "Indenture"). The Notes are unsecured, unsubordinated obligations and do not contain any financial covenants or any restrictions pertaining to the payment of dividends, the incurrence of senior debt or other indebtedness, or the issuance or repurchase of securities by the Company. Upon conversion, holders of the Notes will receive cash, shares of the Company's common stock or a combination of cash and shares of the Company's common stock, at the Company's election.

For the Notes, the initial conversion rate is 53.2907 shares of common stock per \$1,000 principal amount, which is equal to an initial conversion price of approximately \$18.77 per share of common stock, subject to adjustment. Prior to the close of business on June 1, 2018, the conversion is subject to the satisfaction of certain conditions as described below.

Holders of the Notes who convert their notes in connection with certain corporate events that constitute a make-whole fundamental change (as defined in the Indenture) are, under certain circumstances, entitled to an increase in the conversion rate. Additionally, in the event of a corporate event that constitutes a fundamental change (as defined in the Indenture), holders of the Notes may require us to repurchase all or a portion of their notes at a price equal to 100% of the principal amount of the notes, plus any accrued and unpaid interest.

Edgar Filing: MOVE INC - Form 10-Q

Holders of the Notes may convert all or a portion of their notes prior to the close of business on June 1, 2018, in multiples of \$1,000 principal amount, only under the following circumstances:

- during any fiscal quarter commencing after the quarter ending on December 31, 2013, if the last reported sale price of the Company's common stock for at least twenty trading days during a period of thirty consecutive trading days ending on the last trading day of the immediately preceding calendar quarter is greater than or equal to 130% of the conversion price of the respective notes on each applicable trading day;
- during the five business day period after any five consecutive trading day period in which the trading price per \$1,000 principal amount of the respective notes for each day of that five day consecutive trading day period was less than 98% of the product of the last reported sale price of the Company's common stock and the conversion rate of the respective notes on such trading day; or
- upon the occurrence of specified corporate events as noted in the Indenture.

In accounting for the issuance of the Notes, the Company separated the Notes into liability and equity components. The carrying amount of the liability component was calculated by measuring the fair value of similar liabilities that do not have an associated convertible feature. The carrying amount of the equity component, representing the conversion option, was determined by deducting the fair value of the liability component from the principal amount of the Notes. This difference represents a debt discount that is amortized to interest expense over the term of the Notes. The equity component is not remeasured as long as it continues to meet the conditions for equity classification.

Table of Contents

In accounting for the direct transaction costs (the issuance costs) related to the Notes, the Company allocated the total amount of issuance costs incurred to the liability and equity components based on their relative values. Issuance costs, including fees paid to underwriters who acted as intermediaries in the placement of the Notes, attributable to the liability component are included within other assets and are being amortized to interest expense over the term of the Notes, and the issuance costs attributable to the equity component were netted with the equity component and included within Additional paid-in capital in the unaudited Condensed Consolidated Balance Sheets. For the Notes, the Company recorded issuance costs of \$2.8 million and \$0.6 million to the liability component and equity component, respectively. Interest cost related to the amortization expense of the issuance costs associated with the liability component was \$0.1 million in the three months ended September 30, 2013.

The Notes consisted of the following (in thousands):

	September 30, 2013	
Principal amounts:		
Principal	\$	100,000
Unamortized debt discount(1)		(18,330)
Net carrying amount	\$	81,670
Carrying amount of the equity component(2)	\$	18,138

(1)Included in the unaudited Condensed Consolidated Balance Sheets within Convertible senior notes, and is amortized over the remaining life of the Notes on an effective interest rate basis.

(2)Included in the unaudited Condensed Consolidated Balance Sheets within Additional paid-in capital, net of \$0.6 million in issuance costs.

As of September 30, 2013, the remaining life of the Notes was 59 months. The Company applies the treasury stock method to determine the potential dilutive effect of the Notes on net income per share as a result of the Company's intent and stated policy to settle the principal amount of the Notes in cash.

The following table sets forth total interest expense recognized related to the Notes (in thousands, except effective interest rate):

	Three and Nine Months Ended September 30, 2013	
Contractual interest expense	\$	390
Interest cost related to amortization of debt issuance costs		70
Interest cost related to amortization of the debt discount		446
Effective interest rate of the liability component		7.9%

Edgar Filing: MOVE INC - Form 10-Q

The initial net proceeds from the sale of the Notes were \$96.6 million after deducting the issuance costs paid by the Company. In connection with the sale of the Notes, the Company purchased 1,798,561 shares of its outstanding common stock in privately negotiated transactions for an aggregate purchase price of \$25.0 million. The Company intends to use the remainder of the net proceeds of the Notes for general corporate purposes and potential future acquisitions and strategic transactions.

8. Fair Value Measurements

Accounting Standards Codification Topic No. 820, Fair Value Measurements and Disclosures, provides a framework for measuring the fair value of assets and liabilities under GAAP, and establishes a fair value hierarchy that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The fair value hierarchy can be summarized as follows:

- Level 1: Fair value determined based on quoted prices in active markets for identical assets or liabilities.
- Level 2: Fair value determined using significant observable inputs, such as quoted prices for similar assets or liabilities or quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data, by correlation or other means.
- Level 3: Fair value determined using significant unobservable inputs, such as pricing models, discounted cash flows, or similar techniques.

Edgar Filing: MOVE INC - Form 10-Q

Table of Contents

As of September 30, 2013, the Company's cash and cash equivalent balances were held in unrestricted demand deposit accounts or invested in U.S. treasury bills with original maturity dates of three months or less for which fair value is determined using quoted market prices. The cash equivalent balances are measured at fair value on a recurring basis and are classified as level 1 in the fair value hierarchy.

As of December 31, 2012, all of the Company's cash balances were held in unrestricted demand deposit accounts. The Company had no cash equivalents at that date. Accordingly, no adjustments to fair value were necessary.

Certain assets and liabilities are measured at fair value on a nonrecurring basis. That is, such assets and liabilities are not measured at fair value on an ongoing basis, but are subject to fair value adjustments in certain circumstances (e.g. when there is evidence of impairment). At September 30, 2013 and December 31, 2012, the Company had no significant nonfinancial assets or liabilities that had been adjusted to fair value subsequent to initial recognition.

The carrying amounts and estimated fair values of financial instruments not recorded at fair value were as follows (in thousands):

	September 30, 2013	
	Carrying Amount	Estimated Fair Value(1)
Convertible senior notes	\$ 81,670	\$ 116,750

(1) The fair value of the Notes is based upon the market value of comparable notes inclusive of the conversion feature, which was originally allocated for reporting purposes at \$18.8 million, and is included in the unaudited Condensed Consolidated Balance Sheets within Additional paid-in capital.

The estimated fair value of the Notes, which are classified as level 2 financial instruments, was determined based on the quoted bid price of the Notes in an over-the-counter secondary market on September 30, 2013.

Based on the closing price of the Company's common stock of \$16.96 on September 30, 2013, the if-converted value of the Notes was less than their principal amounts.

9. Revolving Line of Credit

The Company was previously party to a revolving line of credit agreement with a major financial institution, providing for borrowings of up to \$20.0 million. The revolving line of credit agreement was terminated in August 2013 in conjunction with the issuance of the Notes. Stock Option Awards

The fair value of stock option awards was estimated on the date of grant using a Black-Scholes option valuation model that used the ranges of assumptions in the following table. The risk-free interest rates are based upon U.S. Treasury zero-coupon bonds for the periods during which the options were granted. The expected term of stock options granted represents the weighted-average period that the stock options are expected to remain outstanding. The Company has not declared and does not expect to declare dividends on its common stock; accordingly, the dividend yield for valuation purposes is assumed to be zero. The Company bases its computation of expected volatility upon a combination of historical and market-based implied volatility.

During the nine months ended September 30, 2012, the Company granted 100,000 shares of restricted stock with an aggregate grant date fair value of \$0.7 million that is being amortized over the vesting period. The total cost recognized for restricted stock awards granted to employees was \$0.2 million for the three months ended September 30, 2013 and 2012, and \$0.6 million and \$0.8 million for the nine months ended September 30, 2013 and 2012, respectively.

In March 2012, the Company and Elevation Partners, L.P. and Elevation Side Fund, LLC (together, Elevation) agreed on certain timing and procedural matters to facilitate the redemption. Table of Contents**13. Common Stock Repurchases**

In March 2013, the Company's Board of Directors authorized a stock repurchase program (the Program). The Program authorizes, in one or more transactions taking place during a two-year period commencing May 2, 2013, the repurchase of the Company's outstanding common stock utilizing surplus cash in an amount of up to \$20 million. Under the Program, the Company is authorized to repurchase shares of common stock in the open market or in privately negotiated transactions. The timing and amount of any repurchase transaction under the Program is dependent upon market conditions, corporate considerations, and regulatory requirements. Shares repurchased under the Program will be retired to constitute authorized but unissued shares of the Company's common stock. As of September 30, 2013, the Company has repurchased 84,054 shares of its outstanding common stock in the open market for \$1.0 million since the inception of the Program.

Additionally, on August 12, 2013, in connection with the issuance of the Notes, the Company purchased 1,798,561 shares of its outstanding common stock in privately negotiated transactions for an aggregate purchase price of \$25.0 million.

14. Net Income Per Share

Basic net income per share is computed by dividing the net income applicable to common stockholders for the period by the weighted-average number of common shares outstanding. Diluted net income per share is computed by giving effect to all potential weighted-average dilutive common stock, including stock options, restricted stock, restricted stock units and convertible senior notes. The dilutive effect of outstanding stock options, restricted stock and restricted stock units, and the convertible senior notes is reflected in diluted net income per share by application of the treasury stock method. Shares associated with stock options, restricted stock, restricted stock units and convertible senior notes are not included to the extent they are antidilutive.

The following table sets forth the computation of basic and diluted net income per share applicable to common stockholders for the periods indicated (in thousands, except per share amounts):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2013	2012	2013	2012
Numerator:				
Net income	\$ 138	\$ 1,785	\$ 504	\$ 4,037
Convertible preferred stock dividend and related accretion				(942)
Net income applicable to common stockholders	\$ 138	\$ 1,785	\$ 504	\$ 3,095
Denominator:				
Basic weighted-average shares outstanding	39,061	38,798	39,215	38,661
Add: dilutive effect of options and restricted stock	2,421	1,097	1,698	999
Fully diluted weighted-average shares outstanding	41,482	39,895	40,913	39,660
Basic net income per share applicable to common stockholders	\$ 0.00	\$ 0.05	\$ 0.01	\$ 0.08
	\$ 0.00	\$ 0.04	\$ 0.01	\$ 0.08

Diluted net income per share applicable to common
stockholders

Because their effect would be anti-dilutive, the denominator in the above computation of diluted income per share excludes out-of-the-money stock options of 794,721 and 951,621, for the three and nine months ended September 30, 2013, respectively, and 3,803,142 and 3,815,642 for the three and nine months ended September 30, 2012, respectively.

The Notes did not have a dilutive effect in the above calculation of diluted income per share for the three and nine months ended September 30, 2013.

15. Related-Party Transactions

The Company makes payments to the National Association of Realtors (NAR) required under its operating agreement with the NAR and under certain other advertising agreements. Total amounts paid under these agreements were \$0.5 million for the three months ended September 30, 2013 and 2012, and \$1.5 million for the nine months ended September 30, 2013 and 2012. As of September 30, 2013 and December 31, 2012, the Company had balances due to the NAR of \$0.5 million and \$0.4 million which are included in Accounts payable and Accrued expenses, respectively, within the unaudited Condensed Consolidated Balance Sheets.

16. Income Taxes

As a result of historical net operating losses, the Company currently provides a full valuation allowance against its net deferred tax assets. For the three and nine months ended September 30, 2013 and 2012, income tax expense included state income taxes and a deferred tax provision related to amortization of certain indefinite-lived intangible assets. For the three and nine months ended September 30, 2013, income tax expense was computed at the year-to-date actual effective tax rate. For the three and nine months ended September 30, 2012, income tax expense was computed at the estimated annual effective rate based on the total estimated annual tax provision.

During the three and nine months ended September 30, 2013 and 2012, income tax expense differed from the income tax expense expected at the statutory rate primarily due to the release of a valuation allowance previously recorded against the deferred tax benefits generated from prior year net operating losses, certain nondeductible items, state income taxes, and a deferred tax provision related to amortization of certain indefinite-lived intangible assets. Based on management's assessment, the Company has placed a valuation reserve against its remaining deferred tax assets due to the likelihood that the Company may not generate sufficient taxable income during the carryforward period to utilize the NOLs. Management regularly reviews the Company's net deferred tax valuation allowance to determine if available evidence continues to support the Company's position that it is more-likely-than-not (likelihood of more than 50%) that a portion of or the entire deferred tax asset will not be realized in the future. As of September 30, 2013, due to the Company's recent history of losses, management could not conclude that it is more-likely-than-not that the deferred tax assets will be realized. As a result, the Company will continue to maintain a full valuation allowance against its remaining deferred tax assets. The Company will continue to assess its position in future periods to determine if it is appropriate to reduce a portion of its valuation allowance in the future.

As of September 30, 2013, the Company does not have any accrued interest or penalties related to uncertain tax positions. The Company's policy is to recognize interest and penalties related to uncertain tax positions in income tax expense. The Company does not have any interest or penalties related to uncertain tax positions in income tax expense for the three and nine months ended September 30, 2013 and 2012. The tax years 1993 - 2012 remain open to examination by the major taxing jurisdictions to which the Company is subject.

17. Commitments and Contingencies

Legal Proceedings

Edgar Filing: MOVE INC - Form 10-Q

The Company is currently involved in certain legal proceedings, as discussed within the section Legal Proceedings in Note 22, Commitments and Contingencies within our Consolidated Financial Statements contained in Item 8 in the Annual Report, and below in this Note 17. From time to time, the Company is party to various other litigation and administrative proceedings relating to claims arising from its operations in the ordinary course of business. However, as of the date of this Form 10-Q, and except as disclosed below, there have been no material developments in the legal proceedings disclosed in the Annual Report, and the Company is not a party to any other litigation or administrative proceedings that management believes will have a material adverse effect on the Company's business, results of operations, financial condition or cash flows.

On February 28, 2007, in a patent infringement action against a real estate agent, Diane Sarkisian, pending in the U.S. District Court for the Eastern District of Pennsylvania (the Sarkisian case), Real Estate Alliance, Limited (REAL), moved to certify two classes of defendants: subscribers and members of the multiple listing service of which Sarkisian was a member, and customers of the Company who had purchased enhanced listings from the Company. The U.S. District Court in the Sarkisian case denied REAL's motion to certify the classes on September 24, 2007. On March 25, 2008, the U.S. District Court in the Sarkisian case stayed that case, and denied without prejudice all pending motions, pending the U.S. District Court of California's determination in the Move California Action (see below) of whether the Company's web sites infringe the REAL patents.

Table of Contents

On April 3, 2007, in response to REAL's attempt to certify our customers as a class of defendants in the Sarkisian case, the Company filed a complaint in the U.S. District Court for the Central District of California (the District Court) against REAL and its licensing agent (the Move California Action) seeking a declaratory judgment that the Company does not infringe U.S. Patent Nos. 4,870,576 and 5,032,989 (the REAL patents), that the REAL patents are invalid and/or unenforceable, and alleging several business torts and unfair competition. On August 8, 2007, REAL denied the Company's allegations, and asserted counterclaims against the Company for infringement of the REAL patents seeking compensatory damages, punitive damages, treble damages, costs, expenses, reasonable attorneys' fees and pre- and post-judgment interest. On March 11, 2008, REAL filed a separate suit in the District Court (the REAL California Action) alleging infringement of the REAL patents against the NAR and the National Association of Home Builders (the NAHB) as individual defendants, as well as various brokers including RE/Max International (RE/Max), agents, Multiple Listing Services (MLSs), new home builders, rental property owners, and technology companies. The Company is not named as a defendant in the REAL California Action; however, the Company is defending the NAR, the NAHB and RE/Max. On July 29, 2008, the Move California Action was transferred to the same judge in the REAL California Action and in September 2008, the District Court coordinated both cases and issued an order dividing the issues into two phases. Phase 1 addresses issues of patent validity and enforceability, whether Move web sites infringe, possible damages, and liability of Move, the NAR and the NAHB. Phase 2 will address REAL's infringement claims related to the web sites owned or operated by the remaining defendants and whether those defendants infringe the REAL patents by using the Move web sites. The District Court has stayed Phase 2 pending resolution of the issues in Phase 1.

On November 25, 2009, the court entered its claim construction order in the Move California Action. On January 27, 2010, upon joint request of the parties, the District Court entered judgment of non-infringement. In July 2010, REAL appealed the District Court's claim construction with the Federal Circuit Court of Appeals (the Circuit Court). On March 22, 2011, the Circuit Court concluded that the District Court erred in certain of its claim construction and vacated and remanded the case for further proceedings.

On October 18, 2011, the parties filed a Joint Brief on Summary Judgment Motions, each side putting forth its arguments requesting the District Court to enter summary judgment in its favor. On January 26, 2012, the District Court entered an order granting the Company's motion for summary judgment of non-infringement of the patent. On March 27, 2012, REAL appealed the District Court's summary judgment order. On March 4, 2013, the Circuit Court issued its opinion affirming the District Court's ruling of no direct infringement of the patent by the Company, but remanded the case to the District Court for a determination of induced infringement under the standard set forth in *Akamai Technologies, Inc. v. Limelight Network, Inc.*, 692 F.3d 1301 (Fed. Cir. 2012) (S.Ct. Cert. No. 12-960). The Company filed a motion for rehearing to the Circuit Court on May 3, 2013. On June 12, 2013, the Circuit Court denied the Company's motion and remanded the case to the District Court. On August 19, 2013, the District Court stayed the case pending the decision on the writ of certiorari in the *Akamai* case, and further order of the Court. The Company intends to vigorously defend all claims. At this time, however, the Company is unable to express an opinion on the outcome of these cases.

Contingencies

From time to time, the Company is subject to a variety of threats or claims, other than formal litigation or legal proceedings, which arise in the ordinary course of business and relate to commercial, intellectual property, employment and other matters. However, as of the date of this Form 10-Q, and except as disclosed herein, or in the Annual Report, the Company does not believe such threats or claims will have a material adverse effect upon its business, results of operations, financial condition or cash flows, although the Company can offer no assurance as to the ultimate outcome of any such matters.

Market and Economic Conditions

In recent years, our business has been, and we expect may continue to be, influenced by a number of macroeconomic, industry-wide and product-specific trends and conditions. For a number of years prior to 2006, the U.S. residential real estate market experienced a period of hyper-sales rates and home price appreciation, fueled by the availability of low interest rates and flexible mortgage options for many consumers. During the latter half of 2006 and through 2008, lending standards were tightened, equity markets declined substantially, liquidity in general was impacted, unemployment rates rose and consumer spending declined. The combination of these factors materially impacted the U.S. housing market in the form of fewer home sales, lower home prices and accelerating delinquencies and foreclosures, all of which created a cycle that further exacerbated the housing market downturn.

The effects of this downturn on the housing market have persisted for several years but key market indicators suggest that large parts of the housing market may have bottomed out and have entered a recovery mode. During the third quarter of 2013, the U.S. saw a 12% reduction in the median age of inventory, as well as a 3% reduction in inventory compared to the same period in the prior year. National median list prices for the third quarter of 2013 increased 6% compared to the third quarter of 2012.

Listings have steadily risen in 2013. For the month of September, listings increased 23% since their low in February 2013; however, inventory remains constrained. Despite continual increases in the number of homes listed, overall inventory remains near historical lows and the number of days on market in September actually increased slightly for the fourth consecutive month, from the near-historic low of 79 days in May on a national level to over 90 days in September.

Mortgage rates have recently begun to rise from the levels seen in 2012 and earlier in 2013. Mortgage rates are still historically low despite these increases. Banks continue to have tighter credit standards for mortgage loans, which have made home purchases more difficult in recent years. However, there is some speculation that rising mortgage rates may cause banks to expand their financing of home purchases in response to reduced refinancing activity that can result as interest rates rise. Unemployment rates continue to decline since the beginning of 2013; however, job and wage growth is still tepid and may be impacted by recent and impending changes in fiscal policy. So, while there are some indicators of an improving housing market, we believe that market conditions could continue to impact spending by real estate professionals in the near term.

Acquisitions

On May 1, 2013, we acquired certain assets of ABC Holdings, LLC, which, prior to such date, operated Doorsteps. Doorsteps provides homebuyers with content, tools and advice along every step of the home buying process and helps professionals connect, engage and collaborate with homebuyers during every step of the transaction. The purchase price was \$2.3 million in cash, \$0.3 million of which was paid into escrow for a two-year period.

The assets acquired constituted a business at the date of acquisition and, therefore, was accounted for as a business combination with the total purchase price being allocated to the assets acquired based on their respective fair values. The \$2.3 million purchase price was preliminarily allocated \$1.0 million to domain name, \$0.6 million to purchased technology, \$0.2 million to web site content with the remaining \$0.5 million allocated to goodwill. The identifiable intangible assets are being amortized over estimated useful lives ranging from 1 to 5 years. The financial results of the acquisition are included in our unaudited Condensed Consolidated Financial Statements from the date of acquisition. Pro forma information for this acquisition has not been presented because the effects were not material to our historical consolidated financial statements.

Critical Accounting Policies

Our discussion and analysis of our financial condition and results of operations is based upon our unaudited Condensed Consolidated Financial Statements, which have been prepared in accordance with GAAP. The preparation of these unaudited Condensed Consolidated Financial Statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an ongoing basis, we evaluate our estimates, including those related to revenue recognition, uncollectible receivables, valuation of investments, intangible and other long-lived assets, stock-based compensation and contingencies. Our estimates are based upon historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. There were no significant changes to our critical accounting policies during the nine months ended September 30, 2013, as compared to those policies disclosed in the Annual Report.

Legal Contingencies

We are currently involved in certain legal proceedings, as discussed within the section *Legal Proceedings* in Note 22, *Commitments and Contingencies*, within our Consolidated Financial Statements contained in Item 8 in the Annual Report, and in Note 17, *Commitments and Contingencies*, to our unaudited Condensed Consolidated Financial Statements contained within Part I, Item 1 of this Quarterly Report on Form 10-Q. Because of the uncertainties related to both the amount and range of potential liability in connection with legal proceedings, we are unable to make a reasonable estimate of the liability that could result from unfavorable outcomes in our remaining pending litigation. As additional information becomes available, we will assess the potential liability related to our pending litigation and determine whether reasonable estimates of the liability can be made. Unfavorable outcomes, or significant estimates of our potential liability, could materially impact our results of operations and financial position.

Revenue

Revenue increased \$9.4 million, or 19%, to \$58.8 million for the three months ended September 30, 2013, compared to \$49.4 million for the three months ended September 30, 2012.

Revenue attributable to our Consumer Advertising products increased \$5.5 million, or 14%, to \$45.6 million for the three months ended September 30, 2013, compared to \$40.1 million for the three months ended September 30, 2012. The increase in revenue was primarily due to increases in our Co-Broke™ and Media advertisement products in our realtor.com® business, along with increases from our Relocation.com acquisition. These increases were partially offset by revenue decreases from our Showcase, Featured and PreQual Plus products.

Revenue for our Software and Services products increased \$3.9 million, or 41%, to \$13.2 million for the three months ended September 30, 2013, compared to \$9.3 million for the three months ended September 30, 2012. The increase in revenue was primarily due to new SaaS product and marketing services revenue associated with our TigerLead® acquisition, as well as increased publishing revenue in our ListHub™ business, partially offset by a decline in revenues from our Top Producer® product suite.

Cost of Revenue

Edgar Filing: MOVE INC - Form 10-Q

Cost of revenue increased \$3.5 million, or 34%, to \$13.8 million for the three months ended September 30, 2013, compared to \$10.2 million for the three months ended September 30, 2012. The increase was primarily due to a \$2.6 million increase in lead acquisition costs related to our newer TigerLead® and Relocation.com businesses. In addition, there was a \$0.3 million increase in personnel-related costs, a \$0.2 million increase in depreciation expense, a \$0.2 million increase in credit card processing fees and other cost increases of \$0.2 million.

Gross margin percentage was 77% for the three months ended September 30, 2013, compared to 79% for the three months ended September 30, 2012, primarily due to the lower margins associated with the newer TigerLead® and Relocation.com businesses.

Operating Expenses

Sales and marketing. Sales and marketing expenses increased \$3.7 million, or 22%, to \$21.0 million for the three months ended September 30, 2013, compared to \$17.2 million for the three months ended September 30, 2012, primarily due to the increased investment in our marketing department and the rebranding of realtor.com®. This increase was mainly due to increased personnel-related costs of \$2.1 million, an increase in brand and consumer marketing expenses of \$1.1 million and an increase in online marketing costs of \$0.5 million. We expect to continue to incur higher marketing costs through the remainder of 2013 as compared to 2012.

Product and web site development. Product and web site development expenses increased \$0.5 million, or 5%, to \$9.9 million for the three months ended September 30, 2013, compared to \$9.4 million for the three months ended September 30, 2012. This increase was mainly due to increased consulting and personnel-related costs of \$1.0 million and other cost increases of \$0.3 million as we continue to invest in new product initiatives. This increase was partially offset by additional capitalized development costs of \$0.8 million during the three months ended September 30, 2013 related to building new functionality in several product offerings, including our mobile platforms.

General and administrative. General and administrative expenses increased \$1.7 million, or 17%, to \$12.2 million for the three months ended September 30, 2013, compared to \$10.5 million for the three months ended September 30, 2012. The increase was primarily due to increases in personnel-related costs of \$1.3 million, including a \$0.2 million increase in stock-based compensation primarily due to grants to senior management of newly acquired businesses which were fully vested as of September 30, 2013. In addition, there was a \$0.2 million increase in legal fees; and other miscellaneous cost increases of \$0.2 million.

Amortization of intangible assets. Amortization of intangible assets increased \$0.6 million to \$1.1 million for the three months ended September 30, 2013, compared to \$0.5 million for the three months ended September 30, 2012. This increase was due to the amortization of intangible assets that were newly acquired in the third and fourth quarters of 2012 and during the second quarter of 2013.

Stock-based compensation and charges. The following chart summarizes the stock-based compensation and charges that have been included in the following captions for each of the periods presented (in thousands):

	Three Months Ended September 30,			
	2013		2012	
Cost of revenue	\$	74	\$	71
Sales and marketing		648		361
Product and web site development		723		527
General and administrative		1,297		1,037
Total stock-based compensation and charges	\$	2,742	\$	1,996

Stock-based compensation and charges increased \$0.7 million for the three months ended September 30, 2013, compared to the three months ended September 30, 2012, primarily due to grants of time-based restricted stock units to senior members of newly acquired businesses pursuant to employment agreements that were fully vested as of September 30, 2013, as well as additional grants of time-based restricted stock units to key employees.

Interest Expense, Net

Interest expense, net increased to \$0.9 million for the three months ended September 30, 2013, compared to the three months ended September 30, 2012, primarily due to the issuance of the 2.75% convertible senior notes due 2018 (the "Notes") in August 2013. We expect interest expense to be higher in the fourth quarter of 2013 due to the impact of a full quarter of expense related to the Notes.

Earnings of Unconsolidated Joint Venture

Earnings of unconsolidated joint venture, which represent our proportionate share of the earnings from our unconsolidated joint venture, increased \$0.3 million to \$0.6 million for the three months ended September 30, 2013, compared to \$0.3 million for the three months ended September 30, 2012. The increase was primarily due to the elimination of amortization expense in the joint venture from an intangible asset that was fully amortized at the end of fiscal 2012.

Other Expense, Net

Other expense, net remained relatively constant for the three months ended September 30, 2013 and 2012.

Income Taxes

As a result of our historical net operating losses, we have generally not recorded a provision for income taxes. However, we recorded a deferred tax liability related to certain indefinite-lived intangible assets as the amortization is recognized for tax purposes but not for book purposes. For the three months ended September 30, 2013 and 2012, income tax expense included state income taxes and a deferred tax provision related to amortization of certain indefinite-lived intangible assets.

We have generated positive operating cash flows in each of the last three fiscal years. Our material financial commitments consist of those under operating lease agreements, our operating agreement with the NAR and various web services and content agreements.

In March 2013, our Board of Directors authorized a stock repurchase program (the Program). The Program authorizes, in one or more transactions taking place during a two-year period commencing May 2, 2013, the repurchase of our outstanding common stock utilizing surplus cash in an amount of up to \$20 million. Under the Program, we are authorized to repurchase shares of common stock in the open market or in privately negotiated transactions. The timing and amount of any repurchase transaction under the Program are dependent upon market conditions, corporate considerations, and regulatory requirements. Shares repurchased under the Program will be retired to constitute authorized but unissued shares of our common stock. As of September 30, 2013, we have repurchased 84,054 shares of our outstanding common stock in the open market for \$1.0 million since the inception of the Program.

In August 2013, we issued the Notes with a principal amount of \$100.0 million. Interest is payable in cash in arrears at a fixed rate of 2.75% on March 1 and September 1 of each year, beginning on March 1, 2014. The Notes mature on September 1, 2018 unless repurchased or converted in accordance with their terms prior to such date. We cannot redeem the Notes prior to maturity. Additionally, in connection with the issuance of the Notes, we purchased 1,798,561 shares of our outstanding common stock in privately negotiated transactions for an aggregate purchase price of \$25.0 million.

We were previously a party to a revolving line of credit agreement with a major financial institution, providing for borrowings of up to \$20.0 million. The revolving line of credit agreement was terminated in August 2013 in conjunction with the issuance of the Notes. There were no amounts outstanding under the revolving line of credit immediately prior to its termination.

We believe that our existing cash and any cash generated from operations will be sufficient to fund our working capital requirements, capital expenditures and other obligations for the foreseeable future.

Item 3. *Quantitative and Qualitative Disclosures About Market Risk*

Market and Interest Rate Risk

Market risk represents the risk of loss that may impact our financial position, results of operations or cash flows due to adverse changes in financial and commodity market prices and rates. We do not have any material foreign currency or other derivative financial instruments. Under our current policies, we do not use interest rate derivative instruments to manage exposure to interest rate changes. We attempt to increase the safety and preservation of our invested principal funds by limiting default risk, market risk and reinvestment risk; we do this primarily by investing our cash only in government treasury bills.

Item 4. *Controls and Procedures*

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures pursuant to Rule 13a-15 of the Securities Exchange Act of 1934 (the "Exchange Act"). Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act (i) is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and (ii) is accumulated and communicated to our management including our Chief Executive Officer and Chief Financial Officer or persons performing similar functions, as appropriate, to allow timely decisions regarding required disclosure.

There were no changes in our internal control over financial reporting during the period covered by this report that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. *Legal Proceedings*

We are currently involved in certain legal proceedings, as discussed within the section "Legal Proceedings" in Note 22, "Commitments and Contingencies," within our Consolidated Financial Statements contained in Item 8 in the Annual Report and in Note 17, "Commitments and Contingencies," to the unaudited Condensed Consolidated Financial Statements contained in Part I, Item 1 of this Quarterly Report on Form 10-Q. As of the date of this Form 10-Q, and except as disclosed in Note 22 to the Consolidated Financial Statements in the Annual Report and in Note 17, "Commitments and Contingencies," to the unaudited Condensed Consolidated Financial Statements in this Form 10-Q, we are not a party to any other litigation or administrative proceedings that management believes will have a material adverse effect on our business, results of operations, financial condition or cash flows, and there have been no material developments in the litigation or administrative proceedings described in those notes.

Item 1A. Risk Factors

There are certain risks and uncertainties in our business that could cause our actual results to differ materially from those anticipated. A detailed discussion of our risk factors was included in Part I, Item 1A, Risk Factors of the Annual Report, and has been made available at www.sec.gov and at www.move.com. These risk factors should be read carefully in connection with evaluating our business and in connection with the forward-looking statements and other information contained in this Form 10-Q. Any of the risks described in the Annual Report could materially affect our business, financial condition or future results and the actual outcome of matters as to which forward-looking statements are made. The risk factors described in the Annual Report are not the only risks facing us. Additional risks and uncertainties not currently known to us, or that are currently deemed to be immaterial, could also materially adversely affect our business, financial condition and/or future results. There were no material changes to the risk factors during the nine months ended September 30, 2013, compared to the risk factors set forth in the Annual Report.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

In February 2011, our Board of Directors authorized a stock repurchase program. From the inception of the program in February 2011 through the stock repurchase program's expiration in February 2013, we repurchased 1,493,127 shares of our common stock in the open market for an aggregate purchase price of \$9.7 million.

Table of Contents

In March 2013, our Board of Directors authorized another stock repurchase program (the Program). The Program authorizes, in one or more transactions taking place during a two-year period commencing May 2, 2013, the repurchase of our outstanding common stock utilizing surplus cash in an amount of up to \$20 million. Under the Program, we are authorized to repurchase shares of common stock in the open market or in privately negotiated transactions. The timing and amount of any repurchase transaction under this Program are dependent upon market conditions, corporate considerations, and regulatory requirements. Shares repurchased under the Program will be retired to constitute authorized but unissued shares of our common stock. As of September 30, 2013, we repurchased 84,054 shares of our outstanding common stock in the open market for \$1.0 million since the inception of the Program.

Additionally, on August 12, 2013, in connection with the issuance of the Notes, we purchased 1,798,561 shares of our outstanding common stock in privately negotiated transactions for an aggregate purchase price of \$25.0 million.

The following table provides information regarding our purchases of our common stock during the three months ended September 30, 2013.
