Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

---

**Item 8.01. Other Events.**

On April 22, 2014, Paul Newton, the North Carolina State President of Duke Energy Carolinas, LLC (the Company) testified before the North Carolina Joint Environmental Review Commission on the Company's response to the Dan River coal ash release that occurred on February 2, 2014, and its near-term actions to address coal ash at five of the Company's sites across North Carolina. He also discussed the Company's preparations to begin a comprehensive, longer-term ash basin strategy that involves a site-specific, fact based approach at each of its coal plant sites to be completed by the end of 2014.

Attached as Exhibit 99.1 to this Form 8-K is a chart comparing the estimated costs of several possible approaches to ash management at our North Carolina ash basin sites. The attached estimates assume that coal ash will retain a non-hazardous designation by the Environmental Protection Agency and exclude financing, inflation and increased operations and maintenance costs.

A copy of this chart has also been posted on Duke Energy Corporation's (Duke Energy) ash management website at <http://www.duke-energy.com/ash-management/>.

**Item 9.01. Financial Statements and Exhibits.**

(d) *Exhibits.*

99.1 North Carolina Coal Ash Plan Cost Estimate Comparisons
