### PART III NARRATIVE

State below in reasonable detail why Forms 10-K, 20-F, 11-K, 10-Q, 10-D, N-SAR, N-CSR, or the transition report or portion thereof, could not be filed within the prescribed time period.

The Annual Report on Form 10-K of Azure Midstream Partners, LP (the Partnership) for the year ended December 31, 2015, could not be filed with the Securities and Exchange Commission within the prescribed time period without unreasonable effort or expense because the Partnership has been seeking an amendment to its credit facility. Until an amendment to the credit facility is finalized and executed, the Partnership will be unable to complete an assessment of its liquidity and how the absence of the amendment would impact the Partnership's evaluation of its ability to continue as a going concern, in each case without unreasonable effort or expense.

The Partnership is a party to a credit facility, which, as of March 15, 2016, had borrowing capacity of \$238.0 million with total borrowings of \$231.7 million. While the Partnership expects to be in compliance with all of its financial covenants under its credit facility as of December 31, 2015, the Partnership anticipates that, due to the continuation of adverse industry conditions, it could exceed the permitted ratio of debt to adjusted EBITDA contained in its credit facility as early as the end of the first quarter of 2016. Upon any such default under the credit facility, indebtedness under the credit facility could, after the expiration of any grace period and at the election of a majority of the lenders under the credit facility, be accelerated and become immediately due and payable. As a result of this potential default and acceleration, the Partnership's independent registered public accounting firm has informed us that absent a waiver or amendment under the credit facility, its report on the Partnership's consolidated financial statements to be included in the Partnership's annual report on Form 10-K will include an explanatory paragraph to the effect that these conditions raise substantial doubt about the Partnership's ability to continue as a going concern for a reasonable period of time.

The credit facility states that the receipt of a going concern explanatory paragraph in the audit report on the Partnership's consolidated financial statements is considered an event of default. As a result of the inclusion of this explanatory paragraph, absent an amendment or waiver, the Partnership will not be in compliance with its credit facility upon the filing of its Form 10-K, which could also result in acceleration of the Partnership's obligations under the credit facility.

The Partnership is currently working with its lenders to waive or eliminate the requirement in the credit facility which states that the receipt of an audit report with a going concern explanatory paragraph is considered an event of default. Likewise, the Partnership continues to pursue options to address the potential covenant violation that may occur as early as the end of the first quarter of 2016. As previously announced, the Partnership continues to pursue options to strengthen its balance sheet. These options include potential equity restructuring, capital raise and strategic alternatives that will provide visibility into stabilizing future distributions and providing excess liquidity to the Partnership.

Edgar Filing: AZURE MIDSTREAM PARTNERS, LP - Form NT 10-K

The concerns regarding the Partnership's compliance with the covenants under its debt agreements, potential defaults and events of default resulting from the going concern not being resolved has resulted in the Partnership being unable to file its 2015 Annual Report on Form 10-K for the fiscal year ended December 31, 2015 within the prescribed time period without unreasonable effort or expense.
