MIND CTI Reports Sequential Revenue Growth and Increased Visibility

Key Highlights of Q3 2005

- Completed acquisition of US based company and integration of products and teams is on track.
- Revenues were \$4.06 million, a 19% increase from \$3.42 million in the previous quarter and a 12% decrease from \$4.6 million in the third quarter of 2004.

- Operating income was \$586 thousand, compared to \$687 thousand in the previous quarter and \$809 thousand in the third quarter of 2004.
- Net income for the third quarter was \$742 thousand or \$0.03 per diluted share, compared with a net income of \$1.81 million or \$0.08 per diluted share in the third quarter of 2004.
- Three new customer wins and multiple customer upgrades (both license and services upgrades).

Yoqneam, Israel, November 15, 2005- MIND CTI Ltd. (NASDAQ: MNDO), a leading provider of convergent end-to-end billing and customer care solutions for VoIP, Mobile, 3G and Triple-play carriers worldwide, today announced results for the third quarter ended September 30, 2005.

Monica Eisinger, MIND chairperson and chief executive officer, commented: "We had an exciting quarter, full of activity and achievements. One major event influenced our activity in the third quarter, the acquisition of Sentori, a US based provider of customer care and billing solutions to wireless carriers and mobile virtual network operators (MVNO's). Through the acquisition we added experienced professionals to our team and increased the customer base, with customers in Scandinavia, the Caribbean and the US. With our combined, stronger team, focused on the wireless space, we are able to enhance support to all our customers and are prepared to supply their future needs.

As previously estimated, the acquisition was neutral to earnings per share in the third quarter, excluding acquisition related costs and the financial income was lower this quarter due to a decrease in interest gained on our cash. We expect to reach again the level of 20% operating margins in the near future.

The valuable customer base, well supported by our devoted professional team; the ongoing investment in development of enhanced functionality and state-of-the-art technology; and the talented team in sales and business development are the basis for our expected continuous growth. The larger deals we secured and the long term contracts add to our visibility."

Revenue Distribution for Q3 2005

The geographic revenue breakdown, as a percentage of total revenues, was as follows: sales in the Americas represented 41%, Europe represented 40%, Africa and APAC represented 12% and Israel represented 7%.

Revenue from our customer care and billing software totaled \$3.10 million, while revenue from our enterprise call management software was \$954 thousand. The revenue breakdown from our business lines of products was \$1.56 million, or 39%, from licenses, \$1.44 million, or 35%, from maintenance and \$1.05 million, or 26%, from services.

As of September 30, 2005, we had 270 employees in our offices in Israel, Romania, the United States and China.
