NETGEAR, INC.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 1. The Company and Basis of Presentation

NETGEAR, Inc. (“NETGEAR” or the “Company”) was incorporated in Delaware in January 1996. The Company is a global networking company that delivers innovative products to consumers, businesses and service providers. For consumers, the Company makes high performance, dependable and easy-to-use home networking, storage and digital media products to connect people with the Internet and their content and devices. For businesses, the Company provides networking, storage and security solutions without the cost and complexity of Big IT. The Company also supplies leading service providers with made-to-order and retail proven, whole home networking solutions for sale to their customers. The Company’s products are built on a variety of proven technologies such as wireless, Ethernet and powerline, with a focus on reliability and ease-of-use. The Company sells products primarily through a global sales channel network, which includes traditional retailers, online retailers, wholesale distributors, direct market resellers ("DMRs"), value added resellers ("VARs"), and broadband service providers.

The accompanying unaudited condensed consolidated financial statements include the accounts of NETGEAR, Inc., and its wholly owned subsidiaries. They have been prepared in accordance with established guidelines for interim financial reporting and with the instructions of Form 10-Q and Article 10 of Regulation S-X. All significant intercompany balances and transactions have been eliminated in consolidation. The balance sheet dated December 31, 2011, has been derived from audited financial statements at such date. In the opinion of management, the unaudited condensed consolidated financial statements reflect all adjustments considered necessary (consisting only of normal recurring adjustments) to fairly state the Company’s financial position, results of operations, comprehensive income and cash flows for the periods indicated. These unaudited condensed consolidated financial statements should be read in conjunction with the notes to the consolidated financial statements included in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2011.

The Company’s fiscal year begins on January 1 of the year stated and ends on December 31 of the same year. The Company reports its interim results on a fiscal quarter basis rather than on a calendar quarter basis. Under the fiscal quarter basis, each of the first three fiscal quarters ends on the Sunday closest to the calendar quarter end, with the fourth quarter ending on December 31.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect (i) the reported amounts of assets and liabilities, (ii) the disclosure of contingent assets and liabilities at the date of the financial statements, and (iii) the reported amounts of revenues and expenses during the reported period. Actual results could differ materially from those estimates and operating results for the three and six months ended July 1, 2012 are not necessarily indicative of the results that may be expected for the year ending December 31, 2012.

2. Summary of Significant Accounting Policies

The Company’s significant accounting policies are disclosed in the Company’s Annual Report on Form 10-K for the year ended December 31, 2011. The Company’s significant accounting policies have not materially changed during the six months ended July 1, 2012.

Recent Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board (“FASB") issued Accounting Standards Update (“ASU") 2011-04, “Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs”, which amends current fair value measurement and disclosure guidance to converge with International Financial Reporting Standards (“IFRS”) and provides increased transparency around valuation inputs and investment categorization. ASU 2011-04 became effective prospectively for the Company in the first quarter of fiscal 2012. The Company's adoption of ASU 2011-04 did not have an impact on the Company’s consolidated financial position, results of operations or cash flows.

In June 2011, the FASB issued ASU 2011-05, “Presentation of Comprehensive Income.” ASU 2011-05 eliminates the current option to report other comprehensive income and its components in the statement of changes in equity. ASU 2011-05 allows two presentation alternatives: present items of net income and other comprehensive income (1) in one continuous statement, referred to as the statement of comprehensive income or (2) in two separate, but consecutive, statements of net income and other comprehensive income. ASU 2011-05 is effective retrospectively starting in the first quarter of fiscal 2012. In December 2011, the FASB issued ASU 2011-12, which defers the ASU 2011-05 requirement to present components of reclassifications of other comprehensive income on the face of the income statement. The amendments in ASU 2011-12 are effective at the same time as the amendments in Update 2011-05. All other requirements of ASU 2011-05 are not affected by ASU 2011-12. Since the adoption

Table of Contents

of the authoritative guidance only required additional disclosures, the adoption did not impact the Company's consolidated financial position, results of operations or cash flows.

3. Business Acquisitions

Firetide, Inc.

On June 4, 2012, the Company acquired certain intellectual property of Firetide, Inc. ("Firetide") for an aggregate purchase price of $7.2 million. The acquisition included intangible assets that existed at the closing date, including IP contracts, technology assets, business technology, and goodwill. The Company believes the acquisition will bolster its wireless product offerings in its commercial business unit and strengthen its market position in the small to medium size campus wireless LAN market. The acquisition qualified as a business combination and was accounted for using the acquisition method of accounting.

The Company paid $6.6 million of the aggregate purchase price in the second quarter of 2012, and expects to pay the remaining $0.6 million, less amounts used to satisfy certain claims, twelve months after the closing of the acquisition. The ongoing costs of developing these assets subsequent to the date of acquisition have been included in the consolidated financial statements since the date of acquisition. The historical results of operations related to the acquired assets prior to the acquisition were not material to the Company's results of operations.

The allocation of the purchase price was as follows (in thousands):

Intangibles, net	$4,159
Goodwill	3,041
Total consideration	$7,200

Of the $3.0 million of goodwill recorded on the acquisition of Firetide, approximately $1.6 million and $3.0 million is deductible for U.S. federal and state income tax purposes, respectively. The goodwill recognized, which was assigned to the Company's commercial business unit, is primarily attributable to expected synergies and the assembled workforce of Firetide.

The Company designated the $4.2 million in acquired intangible assets as existing technology. The value was calculated based on the present value of the future estimated cash flows derived from estimated savings attributable to the existing technology and discounted at 22.0%. The acquired existing technology is being amortized over its estimated useful life of five years.

Customer Networking Solutions Division of Westell Technologies, Inc.

On April 15, 2011, the Company completed the acquisition of certain intellectual property and other assets of the Customer Networking Solutions division ("CNS") of Westell Technologies, Inc. ("Westell") at a purchase price of $37.0 million in cash. The acquisition included inventories, property and equipment, intangible assets, and liabilities that existed at the closing date, including employee bonuses and product warranties. The acquisition qualifies as a business combination and was accounted for using the acquisition method of accounting. The Company believes the acquisition will bolster its service provider revenue growth and strengthen its market position among U.S. telecommunications operators.

The results of CNS's operations have been included in the consolidated financial statements since the date of acquisition. The historical results of operations of CNS prior to the acquisition were not material to the Company's results of operations.

The allocation of the purchase price was as follows (in thousands):

Inventories	$6,290
Property and equipment, net	119
Intangibles, net	19,500
Current liabilities	(646)
Goodwill	11,746
Total consideration	$37,009

Of the $11.7 million of goodwill recorded on the acquisition of CNS, approximately $10.6 million and $11.7 million was deductible for U.S. federal and state income tax purposes, respectively. The goodwill recognized, which was assigned to the

Company's service provider business unit, is primarily attributable to expected synergies and the assembled workforce of CNS.

A total of $15.7 million of the $19.5 million in acquired intangible assets was designated as customer contracts and related relationships. The value was calculated based on the present value of the future estimated cash flows derived from projections of future operations attributable to existing customer contracts and related relationships and discounted at 19.0%. This $15.7 million is being amortized over its estimated useful life of eight years.

A total of $3.7 million of the $19.5 million in acquired intangible assets was designated as core technology. The value was calculated based on the present value of the future estimated cash flows derived from estimated savings attributable to the core technology and discounted at 16.0%. This $3.7 million is being amortized over its estimated useful life of four years.

A total of $0.1 million of the $19.5 million in acquired intangible assets was designated as order backlog. The value was calculated based on an estimate of order backlog using the expected cash flow for the orders and discounted at 3.3%. This $0.1 million was fully amortized in the third quarter of 2011.

Leaf Networks, LLC

On January 15, 2010, the Company completed the acquisition of certain intellectual property and other assets of Leaf Networks, LLC (“Leaf”), a developer of virtual networking software. The acquisition qualified as a business acquisition and was accounted for using the purchase method of accounting. The Company believes the acquisition will accelerate the Company’s continuing networking technology research and development initiatives. The aggregate purchase price was $2.1 million, of which $2.0 million was paid in cash in the first quarter of 2010 and $0.1 million was paid in the first quarter of 2011.

Additionally, the acquisition agreement specified that Leaf shareholders may receive a total additional payout of up to $0.9 million in cash over the three years following the closing of the acquisition if developed products pass certain acceptance criteria. During the first quarter of 2010, the Company initially determined that the present value of the $0.9 million potential additional payout was approximately $0.8 million. For each subsequent reporting period, the Company remeasured fair value of the potential payout and recorded a liability. The Company paid
