IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the Unaudited Condensed Interim Consolidated Financial Statements
(All amounts in thousands of Argentine Pesos, except shares and per share data and as otherwise indicated)
Free translation from the original prepared in Spanish for publication in Argentina

1. The Group's business and general information

IRSA Inversiones y Representaciones Sociedad Anónima ("IRSA", "the Company" / "Us" or "the Society") was founded in 1943 and is engaged in a diversified range of real estate activities in Argentina since 1991.

IRSA and its subsidiaries are collectively referred to hereinafter as "the Group".

As of September 30, 2013, the Group operates in six business segments. See Note 7 to the Condensed Interim Consolidated Financial Statements as of June 30, 2013 for a description of such segments.

Group's real estate business operations are conducted primarily through IRSA and IRSA's principal subsidiary, Alto Palermo S.A. ("APSA"). Through APSA, the Group owns, manages and develops shopping centers across Argentina. The Group owns, manages and develops a portfolio of office and other rental properties in the Autonomous City of Buenos Aires, and it entered the United States of America ("USA") real estate market in 2009, mainly through the acquisition of non-controlling interests in office buildings and hotels. Through IRSA or APSA, the Group also develops residential properties for sale. The Group, through IRSA, is also involved in the operation of branded hotels. The Group uses the term "real estate" indistinctively in these consolidated financial statements to denote investment, development and/or trading properties activities.

The activities of the Group's segment "Financial operations and others" are carried out mainly through Banco Hipotecario S.A. ("BHSA"), where IRSA has a 29.77% interest (without considering treasury shares of our own). BHSA is a commercial bank offering a wide variety of banking activities and related financial services to individuals, small and medium-sized companies and large corporations, including the provision of mortgaged loans. BHSA's shares are listed on the Buenos Aires Stock Exchange ("BASE"). Besides that, the Group has a 42.95% interest in Tarshop S.A. ("Tarshop"), a company which main activities are credit card and loan origination transactions.

IRSA's shares are listed and traded on both the BASE and the New York Stock Exchange ("NYSE"). APSA's shares are listed and traded on both the BASE and the NASDAQ of USA.

Cresud S.A.C.I.F y A. is our ultimate parent company and is a corporation incorporated and domiciled in Argentina. The address of its registered office is Moreno 877, Floor 23, Autonomous City of Buenos Aires, Argentina.

These Unaudited Condensed Interim Consolidated Financial Statements have been approved for issuance by the Board of Directors on November 11, 2013.

2. Basis of preparation of the Unaudited Condensed Interim Consolidated Financial Statements

2.1 Basis of preparation

These Unaudited Condensed Interim Consolidated Financial Statements have been prepared in accordance with IAS 34 "Interim Financial Reporting".

These Unaudited Condensed Interim Consolidated Financial Statements should be read together with the annual consolidated financial statements of the Group as of June 30, 2013 prepared in accordance with IFRS in force. These Unaudited Condensed Interim Consolidated Financial Statements are presented in thousands of Argentine Pesos.

These Unaudited Condensed Interim Consolidated Financial Statements corresponding to the three-month periods ended September 30, 2013 and 2012 have not been audited. The management believes they include all necessary adjustments to fairly present the results of each period. The Company's three-month periods ended September 30, 2013 and 2012 results do not necessarily reflect the proportion of the Group's full-year results.

2.2. Significant accounting policies

The principal accounting policies applied in the presentation of these Unaudited Condensed Interim Consolidated Financial Statements are consistent with those applied in the preparation of the information under IFRS as of June 30, 2013, which are described in Note 2 of the annual consolidated financial statements.

2.3. Use of estimates

The preparation of financial statements at a certain date requires the Management to make estimations and evaluations affecting the amount of assets and liabilities recorded and contingent assets and liabilities disclosed at such date, as well as income and expenses recorded during the period. Actual future results might differ from the estimates and evaluations made at the date of preparation of these financial statements.

In the preparation of these condensed interim consolidated financial statements, the significant judgments made by Management in applying the Group's accounting policies and the main sources of uncertainty were the same applied by the Group in the preparation of the annual consolidated financial statements for the year ended June 30, 2013, save for changes in accrued income tax, provision for legal claims, allowance for bad debts and accrued supplementary rental.

2.4. Comparative Information

Balance items as of September 30, 2012 shown in these financial statements for comparative purposes arise from unaudited condensed interim consolidated financial statements then ended. Certain reclassifications have been made in order to present figures comparatively with those stated as of September 30, 2013.

2.5 Seasonal effects on operations

The operations of the Group's shopping centers are also subject to seasonal effects, which affect the level of sales recorded by lessees. During summer time (January and February), the lessees of shopping centers experience the lowest sales levels in comparison with the winter holidays (July) and Christmas holidays (December) when they tend to record peaks of sales. Apparel stores generally change their collections during the spring and the fall, which impacts positively on shopping mall sales. Sale discounts at the end of each season also affect the business. As a consequence, a higher level of revenues is generally expected in the second half of the year rather than the first in shopping center operations.

In November, 2012, the Group took control over Ribgy 183 LLC ("Rigby"), a company that owns a rental office building located in New York, US (see Note 4 to the annual consolidated financial statements). Therefore, balances as of September 30, 2012 do not include Rigby's operations.

3. Acquisitions and disposals

For the three-month period ended as of September 30, 2013

Subscription of shares of Avenida Inc. and Avenida Compras S.A.

On August 29, 2013, the Group, through Torodur S.A., subscribed 3,703,704 shares of Avenida Inc. and 23,077 shares of Avenida Compras S.A., representing 26.09% and 2.10%, of its outstanding capital, respectively. Additionally, Avenida Inc. owns 90.91% of Avenida Compras S.A., thus being the Group's indirect interest in Avenida Compras of 25.81%. The transaction price was Ps. 13.0 million, which has already been fully paid. The Group has a warrant to increase its interest in Avenida Inc. up to 37.04%.

3. Acquisitions and disposals (Continued)

Stock Call Option Agreement for Arcos del Gourmet S.A.

On September 16, 2013, the Group, through APSA entered into an agreement with Messrs. Eduardo Giana, Pablo Bossi and Patricio Tobal whereby the latter grant to APSA an exclusive and irrevocable option to purchase 10% of the equity interest and all the related rights of Sociedad Arcos del Gourmet S.A.. The term to exercise the option runs from the execution of the agreement to December 31, 2018. The stock purchase price, in the event the option is exercised, is US\$ 0.8 million per each percentage point of the Company's capital stock. The option price is made up of a fixed amount of Ps. 2 million and another variable amount payable monthly, which results from applying 4.5% on the amounts accrued in each previous calendar month for rental and right of admission, net of certain expenses, from the opening of the shopping mall until the end of the lease agreement between APSA and Arcos.

Transfer of Entretenimiento Universal S.A.'s shares

On September 11, 2013, Entertainment Holdings S.A. ("EHSA") sold to the Company 300 shares of stock with a nominal value of Ps. 1 and one voting right each, accounting for 2.5% of Entretenimiento Universal S.A.'s capital stock ("ENUSA", a company exclusively engaged in the entertainment business and in organizing other social and corporate events), which APSA already owned indirectly. The consideration for the transfer was set at Ps. 0.001 for all shares.

4. Financial risk management

Financial risk

The group's diverse activities are exposed to a variety of financial risk: market risk (including foreign currency risk, interest rate risk and price risk) credit risk, liquidity risk and capital risk.

The unaudited condensed interim consolidated financial statements do not include all the information and disclosures on financial risk management; therefore they should be read along with the annual consolidated financial statements for the year ended June 30, 2013. There have been no changes in the risk management or risk management policies applied by the Group since year end.

5. Segment information

Below is a summarized analysis of the lines of business of the Group for the period ended September 30, 2013:

5. Segment information (Continued)

Operating results of the Cyrsa S.A., Nuevo Puerto Santa Fe S.A., Canteras Natal Crespo S.A., Puerto Retiro S.A., Baicom Networks S.A. and Quality Invest S.A. joint ventures have been presented under the method of proportionate consolidation. Under this method, the income/loss generated by joint businesses is reported in the income statements line-by-line, rather than in a single item as required by IFRS. Management believes that the proportional consolidation method provides more useful information to understand the business return, because the assets and income/loss generated by consolidated operations are similar to the assets and income/loss booked under the equity method. This is due to the fact that under the proportional consolidation method, revenues and expenses are reported separately, instead of offsetting and reporting them as a single item in the statement of income. Therefore, the proportional consolidation method is used by the Group's Executive Committee to assess and understand the return and the results of operations of the business as a whole.

The following tables present a reconciliation between the total results of segment operations and the results of operations as per the statements of income. The adjustments relate to the presentation of the results of operations of joint ventures accounted for under the equity method under IFRS.

14. Financial instruments by category

Determination of fair values

IFRS 9 defines the fair value of a financial instrument as the amount for which an asset could be exchanged, or a financial liability settled, between knowledgeable, willing parties in an arm's length transaction. All financial instruments recognized at fair value are allocated to one of the valuation hierarchy levels of IFRS 7. This valuation hierarchy provides for three levels.

In the case of Level 1, valuation is based on unadjusted quoted prices in active markets for identical financial assets or liabilities that the Group can refer to at the date of ended. A market is deemed active if transactions take place with sufficient frequency and in sufficient quantity for price information to be available on an ongoing basis. Since a quoted price in an active market is the most reliable indicator of fair value, this should always be used if available. The financial instruments the Group has allocated to this level mainly comprise equity investments, mutual funds and mortgage bonds for which quoted prices in active markets are available. In the case of shares, the Group allocates them to this level when either a stock market price is available or prices are provided by a price quotation on the basis of actual market transactions.

In the case of Level 2, fair value is determined by using valuation methods based on inputs directly or indirectly observable in the market. If the financial instrument concerned has a fixed contract period, the inputs used for valuation must be observable for the whole of this period. The financial instruments the Group has allocated to this level mainly comprise interest rate swaps and foreign currency contracts.

In the case of Level 3, the Group uses valuation techniques not based on inputs observable in the market. This is only permissible insofar as no market data are available. The inputs used reflect the Group's assumptions regarding the factors which market players would consider in their pricing. The Group uses the best available information for this, including internal company data. The Group has allocated to this level the shares of Supertel. In addition, as of September 30, 2013, the Company has determined that Arcos del Gourmet S.A.'s stock option is a Level-3 financial instrument and is currently estimating its fair value, to be updated in the next accounting period.

The Group's Finance Division has a team in place in charge of estimating valuation of financial assets required to be reported in the financial statements, including the fair value of Level-3 instruments. The team directly reports to the Chief Financial Officer (CFO).

14. Financial instruments by category (Continued)

The CFO and the valuation team discuss the valuation methods and results upon the acquisition of an asset and, if necessary, on a quarterly basis, in line with the Group's quarterly reports.

According to the Group's policy, transfers among the several categories of valuation tiers are recognized when occurred, or when there are changes in the prevailing circumstances requiring the transfer.

Since June 30, 2013, there have been no transfers between the several tiers used in estimating the fair value of the Group's financial instruments, or reclassifications among their respective categories.

The following tables present the Group's financial assets and financial liabilities that are measured at fair value as of September 30, 2013 and June 30, 2013 and their allocation to the fair value hierarchy:

14. Financial instruments by category (Continued)

The following table presents the changes in Level 3 instruments for the period ended September 30, 2013:

	Shares of Supertel	Warrants of Supertel	Call option of Arcos del Gourmet	Total
Balance at June 30, 2013	139,120	16,949	-	156,069
Acquisitions	-	-	2,000	2,000
Total losses for the period (i)	(17,694)	(6,899)	-	(24,593)
Balance at September 30, 2013	121,426	10,050	2,000	133,476

(i) The gain / (loss) is not realized as of September 30, 2013 and is accounted for under “Financial results, net” in the statement of income (Note 31).

Upon initial recognition (January, 2012), the consideration paid for the Shares and Warrants of Supertel was assigned to both instruments based on the relative fair values of those instruments upon acquisition. The fair value of these instruments exceeded the transaction price and were determined using a valuation technique that uses inputs not observable in the market. As a result of the use of this technique, the Group has not recognized a gain at the time of initial recognition in the amount of US\$ 7.9 million.

According to Group estimates, all things being constant, a 10% decline in the price of the underlying assets of Shares and Warrants of Supertel (data observed in the market) of Level 3 as of September 30, 2013, would reduce pre-tax income by Ps. 16,2 million.

According to Group estimates, all things being constant, a 10% increase in the credit spread (data which is not observable in the market) of the Shares and Warrants of Supertel used in the valuation model applied to Level 3 financial instruments as of September 30, 2013, would reduce pre-tax income by Ps. 2,7 million. The rate used as of September 30, 2013 was 14.01%.

When no quoted prices in an active market are available, fair values (particularly with derivatives) are based on recognized valuation methods. The Group uses a range of valuation models for the measurement of Level 2 and Level 3 instruments, details of which may be obtained from the following table:

Description	Pricing model	Pricing method	Parameters
Foreign currency-contracts	Present value method	Theoretical price	Money market interest-rate curve; Foreign exchange curve.
Interest rate swaps	Cash flow	Theoretical price	Interest rate forward contract
Shares of Supertel	Binomial tree	Theoretical price	Underlying asset price (Market price); share price volatility (historical) and money market interest-rate curve (Libor rate).

Warrants of Supertel	Black-Scholes	Theoretical price	Underlying asset price (Market price); share price volatility (historical) and money market interest-rate curve (Libor rate).

Summary as of September 30, 2013

II. Shopping Centers (through our subsidiary Alto Palermo S.A.)

During 2013, private consumption remained as the main driver of the economy, growing at rates close to 6% year on year and favored by the increase in nominal salaries, which recorded a 25% increase compared to the same period of the previous year according to the INDEC. This, in addition to the dynamism exhibited by consumer loans, with year-on-year increases close to 31%, was reflected in all the retail activities, which continue to grow at a solid pace.

Our tenants' sales grew 28.5% during the first quarter of fiscal year 2014 compared to the same period of 2013, in line with which was observed in the market.

- „ During the first quarter of fiscal year 2014, tenants' sales of our shopping centers reached ARS 3,586.8 million (a 28.5% increase compared to the same period of the previous fiscal year). This increase reflects the good performance of all the Company's Shopping Centers.
- „ The EBITDA/revenue margin for the first quarter of fiscal year 2014, excluding revenues from common maintenance expenses and commercial advertising fund, reached 78.6%, in line with the previous fiscal year.
- „ The portfolio's occupancy rate stood at 98.6%, showing a slight decrease compared to the last quarter due to a lower occupancy rate in two of our shopping centers located in the interior of the country caused by the refurbishment of some stores. III. Offices and Other

The A+ office local market of the City of Buenos Aires remains robust. Although USD rental prices per square meter decreased compared to 2012, sale prices remain stable above USD 4,000 per square meter, showing a solid demand for premium office spaces in the City of Buenos Aires. This generated a drop in the cap-rate compared to its historical levels.

IV. Sales and Developments

Construction decelerated its growth rate during calendar year 2013, though in terms of prices, the value per sqm of new apartments in the City of Buenos Aires has remained stable.

For the rest of the year, the construction business is expected to grow thanks to the continuity of the policies aimed at encouraging capital expenditures. In particular, there is the Argentine Credit Program (PRO.CRE.AR, as per its acronym in Spanish) which has started to have a greater impact in the course of the year. The amounts contributed by the Argentine Credit Program (PRO.CRE.AR) are equivalent to 6.3% of the GDP for the construction industry.

„ During the first quarter of fiscal year 2014, sales totaled ARS 16.1 million, explained by the recognition of revenues from projects developed in previous fiscal years. The segment reflects a 69.4% drop compared to the same quarter of 2013 mainly due to the fact that in the previous fiscal year revenues for ARS 44.9 million derived from the sale of lots of the Horizons project had been recorded.

V. Hotels

The Argentine hotel market showed signs of deceleration in activity levels during calendar year 2013. The inflow of tourists to Argentina fell 13.5% in the first half of the year compared to the same period of 2012. Inbound tourism comes mostly from neighboring countries, mainly Brazil, whose number of visitors was 30% lower than in the past year. Cumulative hotel occupancy in Buenos Aires as of September 2013 was 5% lower than in the same period of 2012. However, our hotels in the City of Buenos Aires maintain their historic occupancy rates and we see an improvement in our Llao Llao resort in the City of Bariloche.

Evolution of Exchange Rate

During the last months, the depreciation of the Argentine Peso to the U.S. Dollar accelerated as compared to the previous months. Whereas in the first quarter of fiscal year 2013 the Argentine currency had depreciated 3.8%, during IQ14 it depreciated 7.5%. Given that a significant portion of our debt is denominated in USD, this process had an adverse impact on our financial income / (loss). However, our assets are mostly valued at historical cost plus investments, and are not affected by any kind of revaluation due to the fluctuation of market prices.

Below is the evolution of the exchange rate as published by Banco de la Nación Argentina.

Summary as of September 30, 2013

XI. Brief comment on prospects for the next period

We have started fiscal year 2014 with very good results in our main lines of business. The shopping center and office portfolios have remained sound, with almost full occupancy levels, and investments outside Argentina have reached efficient operating ratios. We expect to maintain and even improve the performance of all our assets during fiscal year 2014.

During the next quarter we will open our fourteenth shopping center and the first premium outlet in the City of Buenos Aires. Featuring 65 stores, with 14,000 square meters of gross leaseable area and an investment of approximately ARS 234 million, “Distrito Arcos” will be an open-air space offering a variety of premium brands in the exclusive neighborhood of Palermo. We expect to reach full occupancy upon opening, as the project has been highly accepted by tenants, with more than 90% of the lease agreements having been executed as of to date. We hope that this new proposal, which will combine a retail and cultural concept, will achieve the success of our latest developments.

On the other hand, we will make progress in our next shopping center, in the city of Neuquén, which we expect to open during fiscal year 2015. Moreover, we continue to assess the best timing for launching other shopping center projects in the land reserves held by the company throughout the Argentine territory. We expect to continue working in optimizing the performance of our current shopping centers through improvements that allow us to take best advantage of their GLA potential and to furnish them with increased functionality and appeal for the benefit of consumers and retailers alike.

During this year we will continue to foster marketing actions, events and promotions in our shopping centers, as they have proved to be highly effective in terms of sales and have been eagerly endorsed by the public.

In the office segment, we have maintained a 97.3% occupancy rate in our portfolio, and average rental prices of our premium buildings stand at 25.6 USD/sqm, comparable to market figures. We hope to reach full occupancy and to close the best possible lease agreements during this year, attracting new firms wishing to relocate to our premium spaces. We plan to continue our strategy of selling selected non-strategic assets in our portfolio for attractive prices, and we are deciding on the most suitable timing for launching the “Catalinas Norte” project, to be erected in one of the most highly priced lands in the City of Buenos Aires, in the area of Catalinas.

Our assets located outside Argentina have continued to show satisfactory operating results, and there has been a rebound in commercial real estate prices in the United States. We will continue to search for opportunistic investments in top-quality assets for attractive prices and with capital structures with optimization potential.

We believe that IRSA has the financial soundness, managerial expertise and long track record in the Argentine real estate industry required to face the challenges that may arise in 2014 and to take advantage of all the opportunities that the markets may offer.
