1. General information

1.1 The Group's business and general information

Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria ("Cresud" or the "Company") was founded in 1936 as a subsidiary of Credit Foncier, a Belgian company primarily engaged in providing rural and urban loans in Argentina and administering real estate holdings foreclosed by Credit Foncier. Credit Foncier was liquidated in 1959, and as part of such liquidation, the shares of Cresud were distributed to Credit Foncier's shareholders. From the 1960s through the end of the 1970s, the business of Cresud shifted exclusively to agricultural activities.

In 2002, Cresud acquired a 19.85% interest in IRSA Inversiones y Representaciones Sociedad Anónima ("IRSA"), a real estate company related to certain shareholders of Cresud. In 2009, Cresud increased its ownership percentage in IRSA to 55.64% and IRSA became Cresud's principal subsidiary.

Cresud and its subsidiaries are collectively referred to hereinafter as the Group. See Note 2.3 to the Consolidated Financial Statements as of June 30, 2013 and 2012 for a description of the Group's companies.

As of September 30, 2013, the Group operates in two major lines of business: (i) Agricultural business, (ii) Investment and Development Properties business. See Note 7 to the Unaudited Condensed Interim Consolidated Financial Statements as of June 30, 2013 and 2012 for a description of the Group's segments.

The Group's Agricultural business operations are comprised of crop production, cattle feeding, raising and fattening, milk production, sugarcane production and brokerage activities. The Group's Agro-industrial business operations are conducted through its subsidiary, Cactus Argentina S.A., and are engaged in cattle feeding services in specialized feedlots primarily for third parties. Feedlots provide accommodation, health care and animal feeding services based on specialized diets. Cactus also uses the feedlot to finish own cattle prior to slaughter in owned slaughtering houses. The Group currently has agricultural operations and investments in Argentina, Brazil, Uruguay, Paraguay and Bolivia.

The business line known as urban property and investments also includes the Group's financial transactions. The Group's Investment and Development Properties business operations are conducted primarily through its subsidiary IRSA and IRSA's principal subsidiary, Alto Palermo S.A. ("APSA"). Through APSA, the Group primarily owns, manages and develops shopping centers across Argentina. APSA has also a direct 20% stake in a credit card company. Through IRSA, the Group primarily owns, manages and develops a portfolio of office and other rental properties in Buenos Aires, the capital of Argentina. Through IRSA or APSA, the Group also develops residential properties for sale. The Group, through IRSA, is also involved in the operation of branded hotels. The Group uses the term "real estate" indistinctively in these consolidated financial statements to denote investment, development and/or trading properties activities.

1. General information (Continued)

In 2009, IRSA entered into the US real estate market, mainly through the acquisition of non-controlling interests in US assets, primarily office properties and hotel investments.

The Group's financial transactions and transactions in other businesses are carried out mainly through its subsidiary IRSA and through APSA, which is IRSA's main subsidiary. IRSA has also a 29.77% interest (without considering treasury shares) in Banco Hipotecario S.A. ("BHSA"). BHSA is a commercial bank offering a wide variety of banking activities and related financial services to individuals, small and medium-sized companies and large corporations, including the provision of mortgaged loans. BHSA's shares are listed on the Buenos Aires Stock Exchange. Additionally, APSA holds a participating interest of 20 % in Tarshop S.A. ("Tarshop"), whose main business comprises extending loans and credit cards.

Cresud's and APSA's shares are listed and traded on both the Buenos Aires Stock Exchange ("BASE") and the National Association of Securities Dealers Automated Quotation ("NASDAQ"). IRSA's shares are listed and traded on both the BASE and the New York Stock Exchange ("NYSE").

Cresud is the ultimate parent company and is a corporation incorporated and domiciled in the Republic of Argentina. The address of its registered office is Moreno 877, 23rd Floor, Buenos Aires, Argentina.

These consolidated financial statements have been approved for issue by the Board of Directors on November 11, 2013.

2. Basis of preparation of the Unaudited Condensed Interim Consolidated Financial Statements

2.1. Basis of preparation

The present unaudited condensed interim consolidated financial statements for the three-month periods ended September 30, 2013 and 2012 (the "Unaudited Condensed Interim Consolidated Financial Statements") have been prepared in accordance with IAS 34 "Interim Financial Reporting".

These Unaudited Condensed Interim Consolidated Financial Statements should be read together with the annual consolidated financial statements of the Company as of June 30, 2013. These Unaudited Condensed Interim Consolidated Financial Statements are expressed in thousands of Argentine Pesos.

Comercial, Inmobiliaria, Financiera y Agropecuaria

Notes to the Unaudited Condensed Interim Consolidated Financial Statements (Continued)
(All amounts in thousands of Argentine Pesos, except shares and per share data and as otherwise indicated)
Free translation from the original prepared in Spanish for publication in Argentina

2. Basis of preparation of the unaudited condensed interim consolidated financial statements (Continued)

The Condensed Interim Consolidated Financial Statements corresponding to the three-month periods ended as of September 30, 2013 and 2012 have not been audited. The Company's management believes they include all necessary adjustments to fairly present the results of each period. Results for the three-month periods ended as of September 30, 2013 and 2012 do not necessarily reflect proportionally the Company's results for the complete fiscal years.

2.2 Significant Accounting Policies

The accounting policies applied in the preparation of these Unaudited Condensed Interim Consolidated Financial Statements are consistent with those applied in the preparation of the information under IFRS as of June 30, 2013. Most significant accounting policies are described in note 2 included in the Consolidated Financial Statements as of June 30, 2013 and 2012.

2.3 Use of estimates

The preparation of financial statements at a certain date requires the Management to make estimations and evaluations affecting the amount of assets and liabilities recorded and contingent assets and liabilities disclosed at such date, as well as income and expenses recorded during the period. Actual results might differ from the estimates and evaluations made at the date of preparation of these financial statements.

In the preparation of these condensed interim consolidated financial statements, the significant judgments made by Management in applying the Group's accounting policies and the main sources of uncertainty were the same applied by the Group in the preparation of the annual consolidated financial statements for the year ended as of June 30, 2013, save for changes in accrued income tax, provision for legal claims and allowance for doubtful accounts.

3. Seasonal effects on operations

The operations of the Group's agricultural business are also subject to seasonal effects. The harvests and sale of grains (corn, soybean and sunflower) generally take place between February and June every year. Wheat is generally harvested between November and January. In Bolivia, weather conditions make it possible to have two soybeans, corn and barley seasons and, therefore, these crops are harvested in April and October, whereas wheat and sunflower are harvested in August and September, respectively. Other segments of the agricultural business, such as beef cattle and milk production tend to be more stable. However, beef cattle and milk production is generally larger during the second quarter, when conditions are more favorable. In case of sugar cane, harvest and sale take place between May and November of each year. As a result, there may be material fluctuations in the agricultural business results across quarters.

3. Seasonal effects on operations (Continued)

The operations of the Group's shopping centers are also subject to seasonal effects, which affect the level of sales recorded by lessees. During summer time (January and February), the lessees of shopping centers experience the lowest sales levels in comparison with the winter holidays (July) and December (Christmas) when they tend to record peaks of sales. Apparel stores generally change their collections during the spring and the fall, which impacts positively on shopping mall sales. Sale discounts at the end of each season also affect the business. As a consequence, a higher level of revenues is generally expected in the second half of the year rather than the first in shopping center operations.

In November, 2012, the Group took control over Ribgy 183 LLC ("Rigby"), a company that owns a rental office building located in New York, US (see Note 4 to the annual consolidated financial statements). Therefore, balances as of September 30, 2012 do not include Rigby's operations.

4. Acquisitions and disposals

For the three-month period ended as of September 30, 2013

Subscription of shares of Avenida Inc. and Avenida Compras S.A.

On August 29, 2013, the Group, through Torodur S.A., subscribed 3,703,704 shares of Avenida Inc. and 23,077 shares of Avenida Compras S.A., representing 26.09% and 2.10% of its outstanding capital, respectively. Additionally, Avenida Inc. owns 90.91% of Avenida Compras S.A., thus being the Group's indirect interest in Avenida Compras of 25.81%. The amount of the transaction was Ps. 13,034, which has already been paid in full. The Group has a warrant to increase such equity interest up to 37.04% of the company.

Stock Call Option Agreement for Arcos del Gourmet S.A.

On September 16, 2013, Alto Palermo S.A. (APSA) entered into an agreement with Messrs. Eduardo Giana, Pablo Bossi and Patricio Tobal whereby the latter grant to APSA an exclusive and irrevocable option to purchase 10% of the equity interest and all the related rights of Sociedad Arcos del Gourmet S.A. The term to exercise the option runs from the execution of the agreement to December 31, 2018. The stock purchase price, in the event the option is exercised, is US\$ 0.8 million per each percentage point of the Company's capital stock. The option price is made up of a fixed amount of US\$ 2 million and another variable amount payable monthly, which results from applying 4.5% on the amounts accrued in each previous calendar month for rental and right of admission, net of certain expenses, from the opening of the shopping mall until the end of the lease agreement between APSA and Arcos.

4. Acquisitions and disposals (Continued)

Transfer of Entretenimiento Universal S.A.'s shares

On September 11, 2013, Entertainment Holdings S.A. ("EHSA") sold to APSA 300 shares of stock with a nominal value of Ps. 1 and one voting right each, accounting for 2.5% of Entretenimiento Universal S.A.'s capital stock ("ENUSA", a company exclusively engaged in the entertainment business and in organizing other social and corporate events), which APSA already owned indirectly. The consideration for the transfer was set at Ps. 0.001 for all shares.

Transactions with non-controlling interest

BRASILAGRO

During the three-month period ended September 30, the Group sold 10,400 shares of BrasilAgro, representing a 0.02% interest, for a total amount of Ps. 0.27 million. Consequently, the Company recognized an increase in non-controlling interest for an amount of Ps. 0.25 million and an increase in equity attributable to owners of the parent of Ps. 0.02 million. The effect on shareholders' equity of this change in the equity interest in BrasilAgro is summarized as follows:

	Ps. (million)
Carrying value of the non controlling interests sold by the Group	(0.25)
Consideration collected from non-controlling interests	0.27
Reserve recorded in shareholders' equity	0.02

On the other hand, on September 2, 2103, BrasilAgro approved a share repurchase program for up to 3,511,130 common shares and for up to an aggregate amount not to exceed the balance of profits or available reserves disclosed in BrasilAgro's latest financial statements. As of September 30, 2013, BrasilAgro purchased 95,900 common shares for an aggregate amount of R\$ 0.9 million. Below is a summary of the effects of such transaction on shareholders' equity:

	Ps. (million)
Amount paid for repurchase	(2.29)
Decrease in non-controlling interest	2.31
Reserve recorded in shareholders' equity	0.02

4. Acquisitions and disposals (Continued)

IRSA

On July 25, 2013, IRSA's Board of Directors set forth the terms and conditions governing the purchase of the Company's own stock pursuant to Section 64 of Law No. 26,831 and the CNV's regulations, for up to an aggregate amount of Ps. 200.0 million and up to 5% of the capital stock, in the form of shares or Global Depositary Shares (GDS) representing 10 shares each, and up to a daily limit of 25% of the average daily transaction volume experienced by the IRSA's shares, along with the markets where they are listed, during the prior 90 business days, and at a price ranging from a minimum of Ps. 1 up to Ps. 8 per share, payable in Argentine legal tender. Subsequently, the Board of Directors decided to increase the maximum price to Ps. 14.50 per common share and US\$ 15.00 per GDS (see Note 37). The effect on shareholders' equity of that transaction is summarized as follows:

	Ps. (million)
Amount paid for repurchase	(1.18)
Decrease in non-controlling interest	0.93
Reserve recorded in shareholders' equity	(0.25)

5. Financial risk management

The group's diverse activities are exposed to a variety of financial risk: market risk (including foreign currency risk, interest rate risk and price risk) credit risk, liquidity risk and capital risk.

16. Financial instruments by category

Determining fair values

IFRS 9 defines the fair value of a financial instrument as the amount for which a financial asset could be exchanged, or a financial liability settled, between knowledgeable, willing parties in an arm's length transaction. All financial instruments recognized at fair value are allocated to one of the valuation hierarchy levels of IFRS 7. This valuation hierarchy provides for three levels. The initial basis for the allocation is the "economic investment class". Only if this does not result in an appropriate allocation the Company deviates from such an approach in individual cases. The allocation reflects which of the fair values derive from transactions in the market and where valuation is based on models because market transactions are lacking.

In the case of Level 1, valuation is based on non-adjusted quoted prices in active markets for identical financial assets or liabilities that the Group can refer to at the date of the statement of financial position. A market is deemed active if transactions take place with sufficient frequency and in sufficient quantity for price information to be available on an ongoing basis. Since a quoted price in an active market is the most reliable indicator of fair value, this should always be used if available. The financial instruments the Group has allocated to this level mainly comprise equity investments, mutual funds, government bonds and corporate bonds for which quoted prices in active markets are available. In the case of shares, the Group allocates them to this level when either a stock market price is available or prices are provided by a price quotation on the basis of actual market transactions.

In the case of Level 2, fair value is determined by using valuation methods based on inputs directly or indirectly observable in the market. If the financial instrument concerned has a fixed contract period, the inputs for valuation must be observable for the whole of this period. The financial instruments the Group has allocated to this level mainly comprise interest rate swaps and foreign currency contracts.

16. Financial instruments by category (Continued)

In the case of Level 3, the Group uses valuation techniques not based on inputs observable in the market. This is only permissible insofar as no observable market data are available. The inputs used reflect the Group's assumptions regarding the factors which market players would consider in their pricing. The Group uses the best available information for this, including internal company data. The financial instruments that the Group has allocated to this level mainly comprise warrants and shares without market price.

As of September 30, 2013, the Group has determined that Arcos del Gourmet S.A.'s stock option is a Level 3 financial instrument and is currently estimating its fair value, to be updated in the next accounting period.

Since June 30, 2013, there have been no transfers between the several tiers used in estimating the fair value of the Group's financial instruments, or reclassifications among their respective categories.

The Group's Finance Division has a team in place in charge of estimating valuation of financial assets required to be reported in the financial statements, including the fair value of Level 3 instruments. The team directly reports to the Chief Financial Officer (CFO).

The CFO and the valuation team discuss the valuation methods and results upon the acquisition of an asset and, if necessary, on a quarterly basis, in line with the Group's quarterly reports.

According to the Group's policy, transfers among the several categories of valuation tiers are recognized when occurred, or when there are changes in the prevailing circumstances requiring the transfer.

The following tables present the Group's financial assets and financial liabilities that are measured at fair value as of September 30, 2013 and June 30, 2013 and their allocation to the fair value hierarchy:

16. Financial instruments by category (Continued)

The following table presents the changes in Level 3 instruments for the years ended September 30, 2013:

	Purchase option for the shares of Arcos	Warrants of Supertel	Shares of Supertel	Total
Balance as of June 30, 2013	-	16,949	139,120	156,069
Acquisition	2,000	-	-	2,000
Total losses for the period (i)	-	(6,899)	(17,694)	(24,593)
Balance as of September 30, 2013	2,000	10,050	121,426	133,476

(i) The gain / (loss) is not realized as of September 30, 2013 and is accounted for under “Other financial results” in the Statement of Income (Note 33)

Upon initial recognition (January, 2012), the consideration paid for the Shares and Warrants was assigned to both instruments based on the relative fair values of those instruments upon acquisition. The fair value of these instruments exceeded the transaction price and were determined using a valuation technique that uses inputs not observable in the market. As a result of the use of this technique, the Group has not recognized a gain at the time of initial recognition in the amount of US\$ 7.9 million.

According to Group estimates, all factors being constant, a 10% decline in the price of the underlying assets of Level 3 financial instruments (data observed in the market) as of September 30, 2013, would reduce pre-tax income by Ps. 16.2 million.

According to Group estimates, all factors being constant, a 10% increase in the credit spread (data which is not observable in the market) used in the valuation model applied to Level 3 financial instruments as of September 30, 2013, would reduce pre-tax income by Ps. 2.7 million. The rate used as of September 30, 2013 was 14.01%.

16. Financial instruments by category (Continued)

When no quoted prices in an active market are available, fair values (particularly with derivatives) are based on recognized valuation methods. The Company uses a range of valuation models for the measurement of Level 2 and Level 3 instruments, details of which may be obtained from the following table:

Description	Pricing model	Pricing method	Parameters
Foreign-currency contracts	Present value method	Theoretical price	Money market curve; Interest curve Foreign exchange curve.
Swaps	Cash flows	Theoretical price	Interest rate futures and flows of funds
Shares of Supertel	Binomial tree	Theoretical price	Underlying asset (market price) and (historic) stock volatility and market interest rate (Libor curve)

26. Taxation

The details of the provision for the Group's income tax are as follows:

	September 30, 2013	September 30, 2012
Current income tax	(73,623)	(71,210)
Deferred income tax	119,209	55,617
Minimum Presumed Income Tax	(204)	(110)
Income tax expense	45,382	(15,703)

The gross movement on the deferred income tax account was as follows:

	September 30, 2013	June 30, 2013
Beginning of the period / year	(351,035)	(549,337)
Currency translation adjustments	3,146	5,965
Additions for business combinations	-	(26,103)
Charged / Credited to the statement of income	119,209	218,440
End of the period / year	(228,680)	(351,035)

The Group did not recognize deferred income tax assets of Ps. 62.1 million and Ps. 70.1 million as of September 30, 2013 and June 30, 2013, respectively. Although management believes that it will become profitable in the foreseeable future, as a result of the history of recent losses incurred during the development phase of the different Group's business operations and the lack of verifiable and objective evidence due to the limited operating history of the Group itself, the Board of Directors has determined that there is sufficient uncertainty as to the generation of sufficient income to utilize the losses within a reasonable timeframe, therefore, no deferred tax asset is recognized in relation to these losses.

26. Taxation (Continued)

The tax on the Group's profit before tax differs from the theoretical amount that would arise using the weighted average tax rate applicable to profits of the consolidated entities as follows:

	September 30, 2013	September 30, 2012
Tax calculated at the tax rates applicable to profits in the respective countries	(43,583)	9,598
Permanent differences:		
Share of loss of associates and joint ventures	(13,428)	(5,511)
Non-taxable income	8,968	(4,638)
Others	2,661	16,254
Income tax expense	(45,382)	15,703

27. Shareholders' Equity

Special Reserve

Pursuant to CNV General Ruling No. 609/12, the Company set up a special reserve, to reflect the positive difference between the balance at the beginning of retained earnings disclosed in the first financial statements prepared according to IFRS and the balance at closing of retained earnings disclosed in the last financial statements prepared in accordance with previously effective accounting standards. This reserve may not be used to make distributions in kind or in cash, and may only be reversed to be capitalized, or otherwise to absorb potential negative balances in Retained Earnings. See Note 37.

Dividends

Cash dividends in respect of the year ended as of June 30, 2013 amounted to Ps. 120 million have been approved at the annual general ordinary and extraordinary shareholders' meeting on October 31, 2013. See Note 37.

On October 15, 2013, IRSA's Board of Directors approved a new increase to the maximum price, raising it to Ps.11.00 per common share and US\$ 11.50 per GDS.

On October 22, 2013 IRSA's Board of Directors approved a new increase to the maximum price, raising it to Ps.14.50 per common share and US\$ 15.00 per GDS.

During October 2013, IRSA acquired 123,000 common shares (at a nominal value of Ps. 1 per share) for a total amount of Ps. 1.2 million and 62,079 GDS (representing 620,790 common shares) for a total amount of US\$ 0.62 million.

Subscription Dolphin Fund Ltd. ("Dolphin")

During the three-month period, the Group, through its subsidiaries Tyrus and Ritelco, subscribed shares of Dolphin for an amount of US\$ 75 million. After September 30, 2013, through Tyrus, the Group, subscribed shares of Dolphin for an amount of US\$ 9 million, and has given a loan for an amount of US\$ 6 million.

On November 3, 2013, Dolphin, along with other investors, made an offer to purchase up to a 45% interest in IDB Development Corporation ("IDBD"), an Israeli company, within the framework of a debt restructuring process that its controlling company, IDBH, is currently negotiating with creditors, pursuant to Israel's applicable laws. Among other things, the process is subject to the approval of creditor's committees and courts with competent jurisdiction over the matter.

37. Subsequent events (Continued)

Dolphin plans to invest the funds contributed by its shareholders in IDBD by subscribing shares issued by said company and by making a payment to IDBH's creditors. As proof of Dolphin's engagement in the restructuring process, Dolphin and other investors have set up an escrow account for up to US\$ 75 million and, in order to submit its purchase offer, deposited US\$ 20.6 million in escrow in favor of the competent Court.

IDBD controls certain Israeli and international companies, and is involved in several markets and industry sectors, including real estate, insurance, agribusiness, banks and financial sector, retail, new technologies, telecommunications, utilities and oil & gas production.

Subject to the latest judicial developments, the acquisition process is expected to conclude during the first quarter of 2014.

Limited Review Report

To the Shareholders, President and Board of Directors of
Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria
Legal address: Moreno 877 - 23° floor - Autonomous City of Buenos Aires
CUIT: 30-50930070-0

1. We have reviewed the accompanying unaudited condensed interim consolidated statement of financial position of Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria and its subsidiaries as of September 30, 2013, and the related unaudited condensed interim consolidated statements of income and comprehensive income for the three-month period ended September 30, 2013, and the unaudited condensed interim consolidated statements of changes in shareholders' equity and cash flows for the three-month period ended September 30, 2013 and selected explanatory notes. The balances and other information corresponding to the fiscal year ended June 30, 2013 and the interim periods within that fiscal year are an integral part of these financial statements and, therefore, they should be considered in relation to these financial statements.
2. The Board of Directors of the Company is responsible for the preparation and presentation of these unaudited condensed interim consolidated financial statements in accordance with International Financial Reporting Standards (IFRS). The IFRS as issued by the International Accounting Standard Board (IASB) were adopted as accounting standards by the Argentine Federation of Professional Councils in Economic Sciences (FACPCE) and incorporated by the National Securities Commission (CNV) to its regulations. Therefore, the Board of Directors of the Company is responsible for the preparation and presentation of these unaudited condensed interim consolidated financial statements in accordance with International Accounting Standard 34 "Interim Financial Reporting" (IAS 34). Our responsibility is to express a conclusion based on the review that we have performed with the scope detailed in paragraph 3.
3. We conducted our review in accordance with Technical Resolution No. 7 issued by the FACPCE for a review of interim financial statements. A review of interim financial statements consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit, the objective of which is to express an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.
4. Nothing came to our attention as a result of our review that caused us to believe that these unaudited condensed interim consolidated financial statements have not been prepared in all material respects in accordance with IAS 34.

1. General information

1.1 The Company's business and general information

Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria ("Cresud" or the "Company") was founded in 1936 as a subsidiary of Credit Foncier, a Belgian company primarily engaged in providing rural and urban loans in Argentina and administering real estate holdings foreclosed by Credit Foncier. Credit Foncier was liquidated in 1959, and as part of such liquidation, the shares of Cresud were distributed to Credit Foncier's shareholders. From the 1960s through the end of the 1970s, the business of Cresud shifted exclusively to agricultural activities.

Cresud is a company organized and domiciled in the Republic of Argentina. The address of its registered office is Moreno 877, 23rd Floor, Buenos Aires, Argentina.

These Unaudited Condensed Interim Separate Financial Statements have been approved for issue by the Board of Directors on November 11, 2013.

2. Basis of preparation of the Unaudited Condensed Interim Separate Financial Statement

2.1. Basis of preparation

These Unaudited Condensed Interim Separate Financial Statements of the Company have been prepared in accordance with Technical Resolutions No. 26 (RT 26) of Argentine Federation of Professional Councils of Economic Sciences ("F.A.C.P.C.E.", as per its Spanish acronym) and IAS 34 "Interim Financial Reporting".

These Unaudited Condensed Interim Separate Financial Statements should be read together with the annual Separate Financial Statements of the Company as of June 30, 2013. These Unaudited Condensed Interim Separate Financial Statements are expressed in thousands of Argentine Pesos.

The Unaudited Condensed Interim Separate Financial Statements for the three-month periods ended September 30, 2013 and 2012 have not been audited. The Company's management believes they include all necessary adjustments to fairly present the results of each period. Results for the three-month periods ended September 30, 2013 and 2012 do not necessarily reflect proportionally the Company's results for the complete fiscal years.

2.2. Significant accounting policies

The accounting policies applied in the preparation of these Unaudited Condensed Interim Separate Financial Statements are consistent with those applied in the preparation of the information under RT 26 as of June 30, 2013. Most significant accounting policies are described in Note 2 to the annual Consolidated Financial Statements.

2. Basis of preparation of the Unaudited Condensed Interim Separate Financial Statement (Continued)

2.3. Use of estimates

The preparation of financial statements at a certain date requires the Management to make estimations and evaluations affecting the amount of assets and liabilities recorded and contingent assets and liabilities disclosed at such date, as well as income and expenses recorded during the period. Actual results might differ from the estimates and evaluations made at the date of preparation of these financial statements.

In the preparation of these Unaudited Condensed Interim Separate Financial Statements, the significant judgments made by Management in applying the Company's accounting policies and the main sources of uncertainty were the same applied by the Company in the preparation of the annual financial statements relative to the year ended June 30, 2013, except for changes in accrued income tax, provision for legal claims and allowance for doubtful accounts.

3. Seasonal effects on operations

The operations of the Company are also subject to seasonal effects. The harvests and sale of grains (corn, soybean and sunflower) generally take place between February and June every year. Wheat is generally harvested between November and January. However, milk production is generally larger during the second quarter, when conditions are more favorable. As a result, there may be material fluctuations in the agricultural business results across quarters.

4. Acquisitions and disposals

On September 30, 2013, the Company sold receivables due from Agropecuaria Acres de Sud S.A., Yuchán Agropecuaria S.A., Yatay Agropecuaria S.A. and Ombú Agropecuaria S.A. to Doneldon, for a total amount of US\$ 12.4 million, which were capitalized on that same date.

See summary of acquisition and additional disposal of the Company for the three-month period ended September 30, 2013 in Note 4 to Unaudited Condensed Interim Consolidated Financial Statements.

5. Financial risk management and fair value estimates

5.1. Financial risk

The Company's activities are exposed to several financial risks, namely: market risk (including exchange rate risk, interest rate risk and price risk), credit risk, liquidity risk and capital risk.

Note 5 to the annual Consolidated Financial Statements provide information on financial risk management as of June 30, 2013 and 2012 and July 1, 2011. Since June 30, 2013 there have been no changes in the risk management or risk management policies applied by the Company.

5.2. Fair value estimates

Since June 30, 2013 there have been no significant changes in business or economic circumstances affecting the fair value of the Company's financial assets or liabilities (either measured at fair value or amortized cost). Nor there have been transfers between the several tiers used in estimating the fair value of the Company's financial instruments, or reclassifications among their respective categories.

6. Information about principal subsidiaries, associates and joint ventures

The Company conducts its business through several operating and holding subsidiaries, associates and joint ventures.

Set out below are the changes in Company's investment in subsidiaries, associates and joint ventures for the three-month period ended September 30, 2013 and for the fiscal year ended June 30, 2013:

Limited Review Report

To the Shareholders, President and Board of Directors of
Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria
Legal address: Moreno 877 - 23° floor - Autonomous City of Buenos Aires
CUIT: 30-50930070-0

1. We have reviewed the accompanying unaudited condensed interim separate statement of financial position of Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria as of September 30, 2013, and the related unaudited condensed interim separate statements of income and comprehensive income for the three month period ended September 30, 2013, and the unaudited condensed interim separate statements of changes in shareholders' equity and cash flows for the three-month period ended September 30, 2013 and selected explanatory notes. The balances and other information corresponding to the fiscal year ended June 30, 2013 and the interim periods within that fiscal year are an integral part of these financial statements and, therefore, they should be considered in relation to these financial statements.
2. The Board of Directors of the Company is responsible for the preparation and presentation of these unaudited condensed interim separate financial statements in accordance with professional accounting standards of Technical Resolution No. 26 of the Argentine Federation of Professional Councils in Economic Sciences (FACPCE) added by the National Securities Commission (CNV) to its regulations. Those standards differ from the International Financial Reporting Standards (IFRS) and, especially, from the International Accounting Standard No 34 "Interim Financial Reporting" (IAS 34) approved by the International Accounting Standard Board (IASB) and used for the preparation of the unaudited condensed interim consolidated financial statements of Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria. Our responsibility is to express a conclusion based on the review that we have performed with the scope detailed in paragraph 3.
3. We conducted our review in accordance with Technical Resolution No. 7 issued by the FACPCE for a review of interim financial statements. A review of interim financial statements consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit, the objective of which is to express an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Limited Review Report (Continued)

4. Nothing came to our attention as a result of our review that caused us to believe that these unaudited condensed interim separate financial statements have not been prepared in all material respects in accordance with Technical Pronouncement No. 26 of the FACPCE for separate financial statements of a parent company.

5. In accordance with current regulations, we hereby inform that :

- a) the unaudited condensed interim separate financial statements of Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria are recorded in the "Inventory and Balance Sheet Book" and carried in all formal respects in conformity with legal requirements, and comply, as regards those matters that are within our competence, with the provisions set forth in the Commercial Companies Law and the corresponding resolutions of the National Securities Commission;
- b) the unaudited condensed interim separate financial statements of Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria arise from accounting records carried in all formal respects in accordance with applicable legal provisions;
- c) we have read the Additional Information to the notes to the unaudited condensed interim separate financial statements required by Article 68 of the Buenos Aires Stock Exchange Regulations, on which, as regards those matters that are within our competence, we have no observations to make;
- d) at September 30, 2013, the debt of Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria owed in favor of the Argentine Integrated Pension System which arises from accounting records and submissions amounted to Ps. 7,024,038, which was not callable at that date.

During this quarter our revenues were 50.1% higher than in the same period of the previous fiscal year. This was mainly due to a 88.4% increase in the agricultural segment, explained by higher sales of grains, sugarcane, beef cattle and milk, along with a 19.8% increase in revenues from the urban segment.

Gross income rose 11.6% thanks to a 31.1% increase in the urban segment, offset by a drop of 59.5% in gross income from the agricultural segment, mainly grains, sugarcane and beef cattle, which recorded a decrease in the fair

value of biological assets. The slight increase in gross income, coupled with the higher selling and administrative expenses, led to a decrease in operating income attributable to the agricultural segment, as the urban segment showed better operating results.

The strong depreciation experienced during the past year had a negative impact on our financial income / (loss), net, which went down from a loss of ARS 168.5 million in 1Q13 to a loss of ARS 334.4 million during this period.

Therefore, a net loss of ARS 89.1 million was recorded, out of which a loss of ARS 97.8 million is attributable to Cresud's shareholders.

Grains and Sugarcane

We have ended a season that was severely affected by the summer drought experienced in the regions where most of the farms of our portfolio are located, causing production volumes to be lower than expected. Fortunately, in the last weeks it has rained again in the regions of Salta and Paraguay, allowing us to expect a 2013/2014 season with regular

to good results. To date, we have completed sunflower and wheat planting activities in Argentina. Over the next weeks we will start harvesting of our wheat, soybean and corn planting. In our farms of Bolivia, where we are able to carry out two planting and harvesting cycles per year, we have completed planting of our winter crops, including soybean, corn and wheat. Planting activities in our farms of Paraguay have not started yet, whereas in Brazil, where we operate through our subsidiary Brasilagro, planting of soybean has started and sugarcane crops are developing.

During this quarter there was a fall in production amounts of grains caused by lower yields in our farms of Bolivia. We have still not started coarse crop harvesting in those farms or planting activities for most of our crops in Argentina, Bolivia and Brazil. Sales of grains were 40.4% higher as the past season was better than the former one, leading to higher amounts of soybean and corn available for sale.

Gross income from the Grains segment for this period shows a fall compared to the same quarter of the previous fiscal year. This is explained mainly by the lower fair value recognized and net realizable value of agricultural produce, as in the past season we had calculated higher yields which turned out to be lower and had to be offset during this quarter.

The fall in Gross income was offset by an increase in Other operating income / (loss), net, originated in forward transactions which, despite their adverse impact, generated lower losses in the segment, and derive from our subsidiary Brasilagro, which recorded a profit of approximately ARS 8.2 million in such transactions, and from our operations in Argentina, which posted income for ARS 0.8 million. These items had totaled a loss of ARS 24.5 million during the same period of fiscal year 2013.

Due to the lower gross income and stable administrative and selling expenses, loss from this segment totaled ARS 22.3 million.

The drop in Gross income in the sugarcane segment reflected the fact that in the production of both Bolivia and Brazil, we changed our output estimations, recognizing lower values in biological assets. This led to a loss from this segment of ARS 10.5 million.

³Includes surface area under double cropping totaling 18,968 hectares, our proportional interest in AgroUranga and all of Cresca S.A.'s farms.

The area in operation for the Grains segment decreased by 2.5%, reaching 206,960 hectares. This was mainly due to a reduction in the area in operation in our own farms, close to 2.8%, and the smaller area consisting of farms leased to third parties (80.1%) while the area in operation in leased farms grew by 20.8% accompanied by an increase in the area in operation in farms under concession (91.2%).

The area of own farms decreased mainly due to the sale of farms during the past year, offset by an expansion in productive areas in Paraguay, Brazil and Argentina.

During the season that starts during this quarter we have expanded the area of leased farms assigned to agricultural production in Argentina. We expect a regular season, and for such reason we increased the area by almost 9,000 hectares.

We have increased the area assigned to agricultural production in the farms under the long term concession granted to Cresud in the Province of Salta, where we will operate more than 21,400 hectares during this season, as we have reduced the area leased to third parties in this farm.

During this quarter, beef cattle production was lower than in the same quarter of the previous year, while cattle sales grew strongly by 71.6%.

The higher number of tons sold caused sales from this segment to rise by 33.8%; however, costs grew at a higher rate, generating gross losses of ARS 17.2 million. The increase in costs was motivated by the drought in the region of Salta, which led us to increase the amount of cattle fed in feed lots.

We have increased milk production hand in hand with the number of milking cows per day. On the contrary, there has been a slight fall in the level of production per milking cow per day. This notwithstanding, the levels of more than 20 liters by milking cow per day still exceed the targets set by us following the consolidation of our operations in our state-of-the-art milking facility.

There has been an increase in revenues from sales of this segment compared to the same quarter of the previous fiscal year, thanks to an increase in production and higher sales of milk, along with better prices. However, the increase in costs and lower income from changes in the value of biological assets have generated gross income for only ARS 0.4 million.

Therefore, the slim gross income and higher selling and administrative expenses have led to a deterioration in this segment, which posted a loss of ARS 2.0 million.

In this segment we report the results from the lease of farms, mainly developed in our Santa Bárbara and La Gramilla farms. We have reduced leased acreage due to the non-renewal of lease agreements, resulting in a decrease in income as compared to the same period of the previous fiscal year. For this reason, and also due to higher costs, there has been a deterioration in this segment.

Evolution of Exchange Rate

During the last months, the depreciation of the Argentine Peso to the U.S. Dollar accelerated as compared to the previous months. Whereas in the first quarter of fiscal year 2013 the Argentine currency had depreciated 3.8%, during IQ14 it depreciated 7.5%. Given that a significant portion of our debt is denominated in USD, this process had an adverse impact on our financial income / (loss), net. However, our assets are mostly valued at historical cost plus investments, and are not affected by any kind of revaluation due to the fluctuation of market prices.

Summary as of September 30, 2013

Prospects for the next fiscal year

After two years of experiencing severe droughts in the region, the 2014 season has started with a better outlook. There have been good rainfall levels and there are no signs of drought conditions, at least for the time being. In Salta (north of Argentina) and Paraguay rains have already started, leaving behind the emergency situation suffered during the past season. We expect 2014 to continue with regular weather conditions and that the season will be neutral to positive. In this regard, we expect regular harvesting yields and higher production levels than in the past fiscal year. We expect to sow approximately 207,000 hectares in the group of countries of the region where we have operations.

In terms of prices, the sector is withstanding the juncture of a great U.S. harvest; therefore, prices are expected to remain at their current levels during the next quarter. We will keep track of the evolution of commodity prices in calendar year 2014, in light of the seeding estimations in the USA.

As concerns our beef cattle business in Argentina, although we had meager results during this quarter, we have started to stabilize production as weather conditions in Salta improve, whereas cattle prices continue to recover after the severe drought experienced in 2012. On the other hand, we expect sound prices for the milk business and a competitive margin from our "El Tigre" dairy facility. In addition, we will continue to roll out our strategy of supplementing agriculture in our own farms with agriculture in leased farms and farms under concession. We expect to increase the area of leased farms, relocating part of our portfolio in better areas. In this way, we will be able to obtain good results from this business if the weather proves to be favorable throughout the 2014 season. Our feedlot and meat packing businesses, which we hold through Cactus Argentina, have started to show positive signs, as no losses were recorded during this quarter. We hope that market conditions will improve in the short or medium term, so that the segment becomes profitable again.

As concerns land transformation and value-adding activities, we will make progress in the development of our farms in Argentina, Paraguay and Brazil, where we plan to transform approximately 17,269 hectares that will be placed into production during this fiscal year and in 2015. We remain watchful of sale opportunities that may arise, by disposing of those farms that have reached their highest degree of appreciation. In addition, we will continue to analyze opportunities in other countries of the region, as we plan to form a regional portfolio with high potential for development and valorization.
