Indicate by check mark whether the registrant files or will file annual reports under cover Form 20-F or Form 40-F.

Form 20-F

Form 40-F

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(1):

**Note:** Regulation S-T Rule 101(b)(1) only permits the submission in paper of a Form 6-K if submitted solely to provide an attached annual report to security holders.

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(7):

**Note:** Regulation S-T Rule 101(b)(7) only permits the submission in paper of a Form 6-K if submitted to furnish a report or other document that the registrant foreign private issuer must furnish and make public under the laws of the jurisdiction in which the registrant is incorporated, domiciled or legally organized (the registrant's home country), or under the rules of the home country exchange on which the registrant's securities are traded, as long as the report or other document is not a press release, is not required to be and has not been distributed to the registrant's security holders, and, if discussing a material event, has already been the subject of a Form 6-K submission or other Commission filing on EDGAR.

Indicate by check mark whether by furnishing the information contained in this Form, the registrant is also thereby furnishing the information to the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.

Yes

No

If Yes is marked, indicate below the file number assigned to the registrant in connection with Rule 12g3-2(b): 82

**FOR IMMEDIATE RELEASE**

**ONCOLYTICS BIOTECH AND THE U.S. NATIONAL CANCER INSTITUTE  
TO COLLABORATE ON MULTIPLE CLINICAL TRIALS WITH REOLYSIN®**

**CALGARY, AB, October 29, 2003** Oncolytics Biotech Inc. ( Oncolytics ) (TSX:ONC, NASDAQ:ONCY) announced today that support for multiple clinical trials to evaluate the efficacy of REOLYSIN® in a range of cancers has been approved by the Drug Development Group of the Division of Cancer Treatment and Diagnosis, U.S. National Cancer Institute ( NCI ).

The NCI approved REOLYSIN® for collaborative development after an analysis of preclinical, GLP toxicology and clinical data. Oncolytics and the NCI will collaborate to select cancer indications and suitable development programs for a number of clinical trials. Oncolytics will provide REOLYSIN® for all clinical trials conducted and sponsored by the NCI under a Clinical Trials Agreement.

We are pleased to collaborate with the National Cancer Institute to more broadly explore the potential of REOLYSIN®, said Dr. Bradley Thompson, President and CEO of Oncolytics. This agreement will allow us to further evaluate the clinical utilization of REOLYSIN® using different routes of administration and in combination with current standard therapies.

**About the National Cancer Institute**

The National Cancer Institute is an agency of the National Institutes of Health (NIH), one of eight agencies that compose the Public Health Service (PHS) in the U.S. Department of Health and Human Services (DHHS). The NCI, established under the National Cancer Act of 1937, is the U.S. Federal Government's principal agency for cancer research and training.

**About Oncolytics Biotech Inc.**

Oncolytics is a Calgary-based biotechnology company focused on the development of REOLYSIN®, its proprietary formulation of the human reovirus, as a potential cancer therapeutic. Oncolytics' researchers have demonstrated that the reovirus is able to selectively kill human cancer cells *in vitro* that are derived from many types of cancer, including breast, prostate, pancreatic and brain tumours, and have also demonstrated successful cancer treatment results in a number of animal models. Phase I clinical trial results have indicated that there were no toxicology-related issues with the administration of the reovirus, and that the reovirus demonstrated activity in tumours injected with REOLYSIN®.

*This press release contains forward-looking statements, within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements, including the Company's expectations related to the success and benefits of the collaboration with NCI and the Company's belief as to the potential of REOLYSIN® as a cancer therapeutic, involve known and unknown risks and uncertainties, which could cause the Company's actual results to differ materially from those in the forward-looking statements. Such risks and uncertainties include, among others, the availability of funds and resources to pursue Research and Development projects, the efficacy of REOLYSIN® as a cancer treatment, the success and timely completion of clinical studies and trials, the Company's ability to successfully commercialize REOLYSIN®, uncertainties related to the research and development of pharmaceuticals, uncertainties related to the regulatory process and general changes to the economic environment. Investors should consult the Company's quarterly and annual filings with the Canadian and U.S. securities commissions for additional information on risks and uncertainties relating to the forward looking statements. Investors are cautioned against placing undue reliance on forward-looking statements. The Company does not undertake to update these forward-looking statements.*
