EVERGREEN GLOBAL DIVIDEND OPPORTUNITY FUND
SCHEDULE OF INVESTMENTS continued

January 31, 2010 (unaudited)

The Fund had average premiums received on written options in the amount of \$454,109 during the period from November 1, 2009 through January 31, 2010.

On January 31, 2010, the aggregate cost of securities for federal income tax purposes was \$487,064,930. The gross unrealized appreciation and depreciation on securities based on tax cost was \$27,929,406 and \$12,424,003, respectively, with a net unrealized appreciation of \$15,505,403.

Valuation of investments

Listed equity securities are usually valued at the last sales price or official closing price on the national securities exchange where the securities are principally traded. If there has been no sale, the securities are valued at the mean between bid and asked prices. Non-listed preferred securities are valued using evaluated prices determined by an independent pricing service which takes into consideration such factors as similar security prices, spreads, liquidity, benchmark quotes and market conditions. Securities for which valuations are not readily available from an independent pricing service may be valued by brokers who use prices provided by market makers or estimates of market value obtained from yield data relating to investments or securities with similar characteristics

Foreign securities traded on an established exchange are valued at the last sales price on the exchange where the security is primarily traded. If there has been no sale, the securities are valued at the mean between bid and asked prices. Foreign securities may be valued at fair value according to procedures approved by the Board of Trustees if the closing price is not reflective of current market values due to trading or events occurring in the foreign markets between the close of the established exchange and the valuation time of the Fund. In addition, substantial changes in values in the U.S. markets subsequent to the close of a foreign market may also affect the values of securities traded in the foreign market. The value of foreign securities may be adjusted if such movements in the U.S. market exceed a specified threshold.

Investments in open-end mutual funds are valued at net asset value. Securities for which market quotations are not readily available or not reflective of current fair value are valued at fair value as determined by the investment advisor in good faith, according to procedures approved by the Board of Trustees.

The valuation techniques used by the Fund to measure fair value are consistent with the market approach, income approach and/or cost approach, where applicable, for each security type.

Foreign currency translation

All assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the date of valuation. Purchases and sales of portfolio securities and income items denominated in foreign currencies are translated into U.S. dollar amounts on the respective dates of such transactions. The Fund does not separately account for that portion of the results of operations resulting from changes in foreign exchange rates on investments and the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gains or losses on investments.

Options

The Fund is subject to equity price risk in the normal course of pursuing its investment objectives. The Fund may write covered put or call options. When a Fund writes an option, an amount equal to the

premium received is recorded as a liability and is subsequently adjusted to the current market value of the written option. Premiums received from written options, which expire unexercised, are recognized as realized gains from investments on the expiration date. The difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is treated as a realized gain or loss. If a call option is exercised, the premium is added to the proceeds from the sale of the underlying security in calculating the realized gain or loss on the sale. If a put option is exercised, the premium reduces the cost of the security purchased. The Fund, as a writer of an option, bears the market risk of an unfavorable change in the price of the security underlying the written option.

The Fund may also purchase call or put options. The premium is included in the Statement of Assets and Liabilities as an investment which is subsequently adjusted to the current market value of the option. Premiums paid for purchased options which expire are recognized as realized losses from investments on the expiration date. Premiums paid for purchased options which are exercised or closed are added to the amount paid or offset against the proceeds on the underlying security to determine the realized gain or loss. The risk of loss associated with purchased options is limited to the premium paid.

Options traded on an exchange are regulated and terms of the options are standardized. Options traded over the counter expose the Fund to counterparty risk in the event the counterparty does not perform. This risk is mitigated by having a master netting arrangement between the Fund and the counterparty and by having the counterparty post collateral to cover the Fund's exposure to the counterparty.

Valuation hierarchy

Fair value measurements of investments are determined within a framework that has established a fair value hierarchy based upon the various data inputs utilized in determining the value of the Fund's investments. These inputs are summarized into three broad levels as follows:

Level 1 quoted prices in active markets for identical securities

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

EVERGREEN GLOBAL DIVIDEND OPPORTUNITY FUND
SCHEDULE OF INVESTMENTS continued

January 31, 2010 (unaudited)

As of January 31, 2010, the inputs used in valuing the Fund's assets, which are carried at fair value, were as follows:

| Investments in Securities | Quoted Prices (Level 1) | Significant Other Observable Inputs (Level 2) | Significant Unobservable Inputs (Level 3) | Total |
|-------------------------------|-------------------------------|---|--|----------------------|
| Equity securities | | | | |
| Common stocks | \$56,427,814 | \$247,869,183 | \$0 | \$304,296,997 |
| Preferred stocks | 83,417,072 | 98,422,555 | 607,202 | 182,446,829 |
| Short-term investments | <u>15,826,507</u> | <u>0</u> | <u>0</u> | <u>15,826,507</u> |
| | <u>\$155,671,393</u> | <u>\$346,291,738</u> | <u>\$607,202</u> | <u>\$502,570,333</u> |

As of January 31, 2010 the inputs used in valuing the Fund's other financial instruments, which are carried at fair value, were as follows:

| Other financial instruments* | Quoted Prices (Level 1) | Significant Other Observable Inputs (Level 2) | Significant Unobservable Inputs (Level 3) | Total |
|------------------------------|-------------------------------|---|--|------------|
| | \$0 | \$(96,354) | \$0 | \$(96,354) |

* Other financial instruments include written options.

The following is a reconciliation of assets in which significant unobservable inputs (Level 3) were used in determining fair value:

| | Preferred Stocks | Options |
|---|---------------------|------------|
| Balance as of November 1, 2009 | \$701,424 | \$(49,648) |
| Realized gain (loss) | 0 | 186,115 |
| Change in unrealized appreciation (depreciation) | (94,222) | (136,467) |
| Net purchases (sales) | 0 | 0 |
| Transfers in and/or out of Level 3 | 0 | 0 |
| Balance as of January 31, 2010 | <u>\$607,202</u> | <u>0</u> |
| Change in unrealized gains or losses included in earnings relating to | | |

securities still held at January 31, 2010

\$(94,222) \$0

Item 2 - Controls and Procedures

- (a) The registrant's principal executive officer and principal financial officer have evaluated the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940) within 90 days of this filing and have concluded that the registrant's disclosure controls and procedures were effective, as of that date, in ensuring that information required to be disclosed by the registrant in this Form N-Q was recorded, processed, summarized, and reported timely.
- (b) There has been no change in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940) that occurred during the registrant's last fiscal quarter that has materially affected, or is reasonable likely to materially affect, the registrant's internal control over financial reporting.

Item 3 - Exhibits

File the exhibits listed below as part of this Form. Letter or number the exhibits in the sequence indicated.

- (a) Separate certifications for the registrant's principal executive officer and principal financial officer, as required by Rule 30a-2(a) under the Investment Company Act of 1940, are attached as EX-99.CERT.
