LETTER TO SHAREHOLDERS

June 2010

W. Douglas Munn

President and Chief Executive Officer

Dear Valued Shareholder:

We are pleased to provide you with this semiannual report for Evergreen Global Dividend Opportunity Fund for the six-month period that ended April 30, 2010 (the period).

Leading up to the beginning of the period, a series of extraordinary financial and economic events affected the financial markets in the United States and throughout the world. After a prolonged period of uncertainty and falling share prices worldwide, stock markets staged a remarkable rally in 2009 that continued through the end of the year. In January 2010, concerns about the sustainability of the economic recovery led to a partial correction, but the markets quickly rebounded and ended the reporting period approximately where they began in 2010.

In the United States, employment data turned positive during the period, a welcome sign that the economic recovery appeared to be moving toward self-sustainability. U.S. employers added 162,000 jobs in March 2010, the most in three years. The unemployment rate edged down to 9.9% at the end of the period, after having peaked at 10.1% in October 2009 its highest level in more than 25 years. Still, more than 8 million jobs were lost during the recession and the number of long-term unemployed those out of work for 27 weeks or longer continued to increase, ending the period at 6.7 million.

Investors were encouraged by continued economic growth in both developed and emerging markets and were placing greater interest in underlying fundamentals, in sharp contrast to their wild pursuit of low-quality stocks just one year ago. However, this sentiment was tempered by concerns over the growing sovereign debt problems in Europe, the impact of Chinese policy tightening, and fears over U.S. bank regulation. A rally in the U.S. dollar and a decline in commodity prices also had an impact.

Investors appeared caught between increasing signs of a cyclical upturn and the fear of lingering systematic risks in the wake of the 2008 crisis, with the resulting market volatility. For instance, as the period drew to a close, investors became increasingly nervous about the European Union's willingness and ability to bail out Greece, while Fitch Ratings downgraded Portugal's sovereign debt and Spain moved onto investors' worry radar. As a result, the euro sold off almost 1.5% in a two-day time period, extending its four-month, 11% drop versus the dollar. During that time, investors largely ignored concurrent data that showed U.S. durable goods orders climbing for three months in a row, and business confidence in Germany reached its highest level.

LETTER TO SHAREHOLDERS continued

since June 2008. It was difficult to shake the feeling that the recovery in the West rested on a weak foundation.

In Asia, the situation was much different. Starting in the second half of 2009, Asia began to show signs of a sustained recovery, well ahead of the rest of the world. Without the structural balance sheet issues faced by Western economies, Asian credit growth picked up far earlier, particularly in China and more recently in India. In sharp contrast to Europe and the United States, where a fear of debt-deflation spiral hung over the market near the end of the period, investors in Asia were increasingly worried about rising inflation. Currently, the major risk we see is that Asian central banks will begin to tighten credit and choke off growth in the region. Notably, in March of 2010, India became the first major emerging market to raise interest rates in response to rapidly increasing inflation.

The tension between macro-economic forces, cyclical factors, and structural imbalances made for an interesting, if challenging, investing environment. Our current view is that we must be wary of the ongoing, largely unaddressed structural imbalances in the West, while cautiously embracing the strong cyclical upturn in Asia. It remains true that the U.S. economy was propped up by government borrowing during most of the period, which merely offset massive deleveraging at the household and corporate level. Renewed weakness in Western and Eastern Europe is a current concern, and negative surprises presently remain possible in the coming months. Sovereign debt crises in Dubai and Greece may not be the only ones investors will contend with in the next few years. Asia, on the other hand, currently looks healthier. With strong balance sheets and growing economies, that area inspires optimism that good investment opportunities may emerge.

During the period, managers of Evergreen Global Dividend Opportunity Fund pursued a strategy seeking a high level of income as a primary objective, with a secondary objective of long-term capital growth. This closed-end fund sought investments in the stocks of domestic and foreign companies with either above-average dividend yields or the potential to increase their dividends. To add to the fund's potential income, the fund also wrote call options on U.S. and foreign securities indexes.

We believe the changing conditions in the investment environment over the period have underscored the value of a well-diversified, long-term investment strategy to help soften the effects of volatility in any one market or asset class. As always, we encourage investors to maintain diversified investment portfolios in pursuit of their long-term investment goals.

Evergreen Funds

Notice to Shareholders:

At meetings held on May 11 and June 9-10, 2010, the Board of Trustees of Evergreen Global Dividend Opportunity Fund (the Fund) unanimously approved a new advisory contract with Wells Fargo Funds Management, LLC, a new sub-advisory contract with Wells Capital Management Incorporated and a new sub-advisory contract with the Fund's current sub-advisor, Crow Point Partners, LLC (the Agreements). Shareholders are being asked to approve the Agreements at a meeting to be held on July 9, 2010. Following approval of the Agreements, Tim Stevenson of Wells Capital Management Incorporated is expected to continue to manage the options overlay strategy for the Fund. Tim Stevenson currently provides such services to the Fund as a portfolio manager of Evergreen Investment Management Company, LLC, the current advisor to the Fund. Tim O'Brien of Crow Point Partners, LLC is expected to continue to manage the Fund's equity securities. In addition, the Fund will be renamed the Wells Fargo Advantage Global Dividend Opportunity Fund.

At the May 11 meeting, the Board also nominated seven persons for election to the Fund's Board as new Trustees, and nominated two current Trustees for re-election to the Fund's Board. Shareholders are being asked to elect these nominees at the July 9 meeting.

A Proxy Statement containing additional information about the Agreements and the nominees was provided to shareholders of record as of May 18, 2010.

NOTES TO FINANCIAL STATEMENTS (unaudited)

1. ORGANIZATION

Evergreen Global Dividend Opportunity Fund (the Fund) was organized as a statutory trust under the laws of the state of Delaware on December 21, 2006 and is registered as a diversified closed-end management investment company under the Investment Company Act of 1940, as amended. The primary investment objective of the Fund is to seek a high level of current income. The Fund's secondary objective is long-term growth of capital.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The policies are in conformity with generally accepted accounting principles in the United States of America, which require management to make estimates and assumptions that affect amounts reported herein. Actual results could differ from these estimates. Management has considered the circumstances under which the Fund should recognize or make disclosures regarding events or transactions occurring subsequent to the balance sheet date through the date the financial statements are issued. Adjustments or additional disclosures, if any, have been included in these financial statements.

a. Valuation of investments

Listed equity securities are usually valued at the last sales price or official closing price on the national securities exchange where the securities are principally traded. If there has been no sale, the securities are valued at the mean between bid and asked prices. Non-listed preferred securities are valued using evaluated prices determined by an independent pricing service which takes into consideration such factors as similar security prices, spreads, liquidity, benchmark quotes and market conditions. Securities for which valuations are not readily available from an independent pricing service may be valued by brokers who use prices provided by market makers or estimates of fair market value obtained from yield data relating to investments or securities with similar characteristics.

Foreign securities traded on an established exchange are valued at the last sales price on the exchange where the security is primarily traded. If there has been no sale, the securities are valued at the mean between bid and asked prices. Foreign securities may be valued at fair value according to procedures approved by the Board of Trustees if the closing price is not reflective of current market values due to trading or events occurring in the foreign markets between the close of the established exchange and the valuation time of the Fund. In addition, substantial changes in values in the U.S. markets subsequent to the close of a foreign market may also affect the values of securities traded in the foreign market. The value of foreign securities may be adjusted if such movements in the U.S. market exceed a specified threshold.

Portfolio debt securities acquired with more than 60 days to maturity are fair valued using matrix pricing methods determined by an independent pricing service which takes into consideration such factors as similar security prices, yields, maturities, liquidity and

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

ratings. Securities for which valuations are not readily available from an independent pricing service may be valued by brokers which use prices provided by market makers or estimates of fair market value obtained from yield data relating to investments or securities with similar characteristics.

In January 2010, the Fund changed its pricing for all evaluated prices for taxable fixed income securities and non-listed preferred stocks from mean to bid prices. The change was the result of the investment advisor's analysis of which price estimate (mean or bid) provided the better estimate of value. The estimated impact on the Fund's net asset value (NAV) per share on the day of the change was a decrease of approximately \$0.01.

Short-term securities of sufficient credit quality with remaining maturities of 60 days or less at the time of purchase are valued at amortized cost, which approximates fair value.

Investments in open-end mutual funds are valued at net asset value. Securities for which market quotations are not readily available or not reflective of current fair value are valued at fair value as determined by the investment advisor in good faith, according to procedures approved by the Board of Trustees.

The valuation techniques used by the Fund to measure fair value are consistent with the market approach, income approach and/or cost approach, where applicable, for each security type.

b. Foreign currency translation

All assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the date of valuation. Purchases and sales of portfolio securities and income items denominated in foreign currencies are translated into U.S. dollar amounts on the respective dates of such transactions. The Fund does not separately account for that portion of the results of operations resulting from changes in foreign exchange rates on investments and the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gains or losses on investments.

c. Options

The Fund is subject to equity price risk in the normal course of pursuing its investment objectives. The Fund may write covered put or call options. When a Fund writes an option, an amount equal to the premium received is recorded as a liability and is subsequently adjusted to the current market value of the written option. Premiums received from written options, which expire unexercised, are recognized as realized gains from investments on the expiration date. The difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is treated as a realized gain or loss. If a call option is exercised, the premium is added to the proceeds from the sale of the underlying security in calculating the realized gain or loss on the sale. If a put option is exercised, the premium reduces the cost of the security

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

purchased. The Fund, as a writer of an option, bears the market risk of an unfavorable change in the price of the security underlying the written option.

The Fund may also purchase call or put options. The premium is included in the Statement of Assets and Liabilities as an investment which is subsequently adjusted to the current market value of the option. Premiums paid for purchased options which expire are recognized as realized losses from investments on the expiration date. Premiums paid for purchased options which are exercised or closed are added to the amount paid or offset against the proceeds on the underlying security to determine the realized gain or loss. The risk of loss associated with purchased options is limited to the premium paid.

Options traded on an exchange are regulated and terms of the options are standardized. Options traded over the counter expose the Fund to counterparty risk in the event the counterparty does not perform. This risk is mitigated by having a master netting arrangement between the Fund and the counterparty and by having the counterparty post collateral to cover the Fund's exposure to the counterparty.

d. Short sales

The Fund may sell a security it does not own in anticipation of a decline in the market value of that security (short sale). When the Fund makes a short sale, it must borrow the security sold short and deliver it to the buyer. The Fund is then obligated to replace the security borrowed by purchasing the security at the market price at the time of replacement.

The Fund records the proceeds as a liability which is marked-to-market daily based upon quotations from an independent pricing service or from brokers which use prices provided by market makers and any change in value is recorded as an unrealized gain or loss. Any interest or dividends accrued on such borrowed securities during the period of the loan are recorded as an expense on the Statement of Operations. To borrow the security, the Fund may be required to pay a premium, which would decrease the proceeds of the security sold. A gain, limited to the price at which the Fund sold the security short, or a loss, unlimited in size, will be recognized upon the closing of a short sale if the market price at the closing is less than or greater than, respectively, the proceeds originally received. Until the short sale is closed or the borrowed security is replaced, the Fund maintains a segregated account of cash or liquid securities, the dollar value of which is at least equal to the market value of the security at the time of the short sale.

e. Security transactions and investment income

Security transactions are recorded on trade date. Realized gains and losses are computed using the specific cost of the security sold. Interest income is recorded on the accrual basis and includes accretion of discounts and amortization of premiums. To the extent debt obligations are placed on non-accrual status, any related interest income may be reduced by writing off interest receivables when the collection of all or a portion of interest has become doubtful based on consistently applied procedures. If the issuer subsequently

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

resumes interest payments or when the collectibility of interest is reasonably assured, the debt obligation is removed from non-accrual status. Dividend income is recorded on the ex-dividend date or in the case of some foreign securities, on the date when the Fund is made aware of the dividend. Foreign income and capital gains realized on some securities may be subject to foreign taxes, which are accrued as applicable.

f. Federal and other taxes

The Fund intends to continue to qualify as a regulated investment company and distribute all of its taxable income, including any net capital gains (which have already been offset by available capital loss carryovers). Accordingly, no provision for federal taxes is required. The Fund's income and excise tax returns and all financial records supporting those returns for the prior three fiscal years are subject to examination by the federal, Massachusetts and Delaware revenue authorities.

g. Distributions

Distributions to shareholders from net investment income and net realized gains, if any, are recorded on the ex-dividend date. Such distributions are determined in conformity with income tax regulations, which may differ from generally accepted accounting principles.

3. ADVISORY FEE AND OTHER TRANSACTIONS WITH AFFILIATES

Evergreen Investment Management Company, LLC (EIMC), a subsidiary of Wells Fargo & Company (Wells Fargo), is the investment advisor to the Fund and is paid an annual fee of 0.95% of the Fund's average daily total assets. Total assets consist of the net assets of the Fund plus borrowings, reverse repurchase agreements, dollar rolls or the issuance of debt securities.

Crow Point Partners, LLC is the investment sub-advisor to the Fund and is paid by EIMC for its services to the Fund.

The Fund may invest in money market funds which are advised by EIMC. Income earned on these investments is included in income from affiliated issuers on the Statement of Operations.

EIMC also serves as the administrator to the Fund providing the Fund with facilities, equipment and personnel. EIMC is paid an annual administrative fee of 0.05% of the Fund's average daily total assets.

4. CAPITAL SHARE TRANSACTIONS

The Fund has authorized an unlimited number of shares with no par value. For the six months ended April 30, 2010, the Fund issued 120,324 shares. For the year ended October 31, 2009, the Fund did not issue any new shares.

NOTES TO FINANCIAL STATEMENTS (unaudited) continued**5. INVESTMENT TRANSACTIONS**

Cost of purchases and proceeds from sales of investment securities (excluding short-term securities) were \$129,472,986 and \$157,609,584, respectively, for the six months ended April 30, 2010.

Fair value measurements of investments are determined within a framework that has established a fair value hierarchy based upon the various data inputs utilized in determining the value of the Fund's investments. The three-level hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The Fund's investments are classified within the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement. The inputs are summarized into three broad levels as follows:

Level 1 quoted prices in active markets for identical securities

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

As of April 30, 2010, the inputs used in valuing the Fund's assets, which are carried at fair value, were as follows:

Investments in Securities	Quoted Prices (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Equity securities				
<i>Common stocks</i>	\$65,966,567	\$229,535,924	\$ 0	\$295,502,491

The Fund had average premiums received on written options in the amount of \$1,135,274 during the six months ended April 30, 2010. As of April 30, 2010, the Fund had segregated \$150,716 as cash collateral for outstanding written options.

The fair value, realized gains or losses and change in unrealized gains or losses on derivative instruments are reflected in the appropriate financial statements.

7. DEFERRED TRUSTEES FEES

Each Trustee of the Fund may defer any or all compensation related to performance of his or her duties as a Trustee. The Trustees' deferred balances are allocated to deferral accounts, which are included in the accrued expenses for the Fund. The investment performance of the deferral accounts is based on the investment performance of certain Evergreen funds. Any gains earned or losses incurred in the deferral accounts are reported in the Fund's Trustees' fees and expenses. At the election of the Trustees, the deferral account will be paid either in one lump sum or in quarterly installments for up to ten years.

8. CONCENTRATION OF RISK

The Fund may invest a substantial portion of its assets in an industry and, therefore, may be more affected by changes in that industry than would be a comparable mutual fund that is not heavily weighted in any industry.

9. REGULATORY MATTERS AND LEGAL PROCEEDINGS

The Evergreen funds, EIMC and certain of EIMC's affiliates are involved in various legal actions, including private litigation and class action lawsuits, and are and may in the future be subject to regulatory inquiries and investigations.

EIMC and EIS have reached final settlements with the Securities and Exchange Commission (SEC) and the Securities Division of the Secretary of the Commonwealth of Massachusetts (Commonwealth) primarily relating to the

liquidation of Evergreen

19

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

Ultra Short Opportunities Fund (Ultra Short Fund). The claims settled include the following: first, that during the period February 2007 through Ultra Short Fund 's liquidation on June 18, 2008, Ultra Short Fund 's former portfolio management team failed to properly take into account readily-available information in valuing certain non-agency residential mortgage-backed securities held by the Ultra Short Fund, resulting in the Ultra Short Fund 's net asset value (NAV) being overstated during the period; second, that EIMC and EIS acted inappropriately when, in an effort to explain the decline in Ultra Short Fund 's NAV, certain information regarding the decline was communicated to some, but not all, shareholders and financial intermediaries; third, that the Ultra Short Fund portfolio management team did not adhere to regulatory requirements for affiliated cross trades in executing trades with other Evergreen funds; and finally, that from at least September 2007 to August 2008, EIS did not preserve certain text and instant messages transmitted via personal digital assistant devices. In settling these matters, EIMC and EIS have agreed to payments totaling \$41,125,000, up to \$40,125,000 of which will be distributed to eligible shareholders of Ultra Short Fund pursuant to a methodology and plan approved by the regulators. EIMC and EIS neither admitted nor denied the regulators' conclusions.

In addition, the U.S. District Court for the District of Massachusetts has consolidated three purported class actions into *In re Evergreen Ultra Short Opportunities Fund Securities Litigation*. The plaintiffs filed a consolidated amended complaint on April 30, 2009 against various Evergreen entities, including EIMC and EIS, the Evergreen funds' former distributor, and Evergreen Fixed Income Trust and its Trustees. The complaint generally alleges that investors in Ultra Short Fund suffered losses as a result of (i) misleading statements in Ultra Short Fund 's registration statement and prospectus, (ii) the failure to accurately price securities in Ultra Short Fund at different points in time and (iii) the failure of Ultra Short Fund 's risk disclosures and description of its investment strategy to inform investors adequately of the actual risks of the fund. The complaint seeks damages in an amount to be determined at trial.

EIMC does not expect that any of the legal actions, inquiries or settlement of regulatory matters will have a material adverse impact on the financial position or operations of the Fund to which these financial statements relate. Any publicity surrounding or resulting from any legal actions or regulatory inquiries involving EIMC or its affiliates or any of the Evergreen Funds could result in reduced sales or increased redemptions of Evergreen fund shares, which could increase Evergreen fund transaction costs or operating expenses or have other adverse consequences on the Evergreen funds, including the Fund.

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

10. SUBSEQUENT DISTRIBUTION

On May 21, 2010, the Fund declared distributions from net investment income of \$0.28 per common share payable on July 1, 2010 to shareholders of record on June 15, 2010.

These distributions are not reflected in the accompanying financial statements.

11. SUBSEQUENT EVENTS

In June 2010, a notice of a Special Meeting of Shareholders was mailed to shareholders of record as of May 18, 2010. The Special Meeting of Shareholders is scheduled to be held on July 9, 2010. Among the proposals for consideration is the approval of a new advisory agreement with Wells Fargo Funds Management, LLC (Funds Management) to replace the current advisory agreement with EIMC as well as a new sub-advisory agreement with Crow Point Partners, LLC and a new sub-advisory agreement with Wells Capital Management Incorporated (Wells Capital). If shareholders approve the new advisory agreement, the advisory fee rate paid by the Fund to Funds Management for providing such services will be identical to the advisory fee rate currently paid to EIMC. Since Crow Point Partners, LLC and Wells Capital will be compensated by Funds Management, and not the Fund itself, the Fund will not incur additional advisory fees. Upon shareholder approval of the new advisory and sub-advisory arrangements, the Fund will also be renamed Wells Fargo Advantage Global Dividend Opportunity Fund.

ANNUAL MEETING OF SHAREHOLDERS

On February 12, 2010, the Annual Meeting of shareholders of the Fund was held to consider the following proposal. The results of the proposal are indicated below.

The votes recorded at the meeting were as follows:

AUTOMATIC DIVIDEND REINVESTMENT PLAN (unaudited)

All common shareholders are eligible to participate in the Automatic Dividend Reinvestment Plan (the Plan). Pursuant to the Plan, unless a common shareholder is ineligible or elects otherwise, all cash dividends and capital gains distributions are automatically reinvested by Computershare Trust Company, N.A., as agent for shareholders in administering the Plan (Plan Agent), in additional common shares of the Fund. Whenever the Fund declares an ordinary income dividend or a capital gain dividend (collectively referred to as dividends) payable either in shares or in cash, nonparticipating the Plan will receive cash, and participants in the Plan will receive the equivalent in shares of common shares. The shares are acquired by the Plan Agent for the participant s account, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized common shares from the Fund (newly issued common shares) or (ii) by purchase of outstanding common shares on the open market (open-market purchases) on the NYSE Amex or elsewhere. If, on the payment date for any dividend or distribution, the net asset value per share of the common shares is equal to or less than the market price per common share plus estimated brokerage commissions (market premium), the Plan Agent will invest the amount of such dividend or distribution in newly issued shares on behalf of the participant. The number of newly issued common shares to be credited to the participant s account will be determined by dividing the dollar amount of the dividend by the net asset value per share on the date the shares are issued, provided that the maximum discount from the then current market price per share on the date of issuance may not exceed 5%. If on the dividend payment date the net asset value per share is greater than the market value or market premium (market discount), the Plan Agent will invest the dividend amount in shares acquired on behalf of the participant in open-market purchases. There will be no brokerage charges with respect to shares issued directly by the Fund as a result of dividends or capital gains distributions payable either in shares or in cash. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent s open-market purchases in connection with the reinvestment of dividends. The automatic reinvestment of dividends and distributions will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such dividends. All correspondence concerning the Plan should be directed to the Plan Agent at P.O. Box 43010, Providence, Rhode Island 02940-3010 or by calling 1-800-730-6001.

- 1 The Board of Trustees is classified into three classes of which one class is elected annually. Each Trustee serves a three-year term concurrent with the class from which the Trustee is elected. Each Trustee oversaw 74 Evergreen funds as of December 31, 2009. Correspondence for each Trustee may be sent to Evergreen Board of Trustees, P.O. Box 20083, Charlotte, NC 28202.
- 2 It is possible that Mr. Pettit may be viewed as an interested person of the Evergreen funds, as defined in the 1940 Act, because of his law firm's representation of affiliates of Wells Fargo & Company, the parent to the Evergreen funds' investment advisor, EIMC. The Trustees are treating Mr. Pettit as an interested trustee for the time being.
- 3 Mr. Wagoner is an interested person of the Evergreen funds because of his ownership of shares in Wells Fargo & Company, the parent to the Evergreen funds' investment advisor.
- 4 The address of the Officer is 200 Berkeley Street, Boston, MA 02116.
