PART I

Item 1.

Description of Business

Overview

We were incorporated under the laws of the state of Florida as J. B. Financial Services, Inc. on September 30, 1996.

We changed our name to Ableauctions.com, Inc. on July 19, 1999. From the date of our incorporation until August 24, 1999, we had no material business and no material revenues, expenses, assets or liabilities.

Our shares began trading on the OTC Bulletin Board under the symbol ABLC on July 21, 1999.

On August 24, 1999, in consideration of shares of our common stock and cash, we acquired all of the assets and the business operations of Able Auctions (1991) Ltd., a British Columbia corporation engaged in the business of auctioning used equipment, office furnishings and equipment, and other merchandise, by acquiring all of its issued and outstanding common shares from Dexton Technologies Corporation, a British Columbia corporation.

Our primary business activity is as a liquidator and auction technology company. We are an early stage company and we have developed our business and technology through the acquisition of auction houses in the United States, Canada and England. We conduct live auctions for our clients and simultaneously broadcast them over the Internet. Through our liquidation stores, we acquire merchandise through bankruptcies, insolvencies and defaults.

As a liquidator, we auction merchandise and equipment from a variety of industries including antique, automotive, bakery, broadcasting, chemical, construction, dairy, electronics, energy, food processing, foundry, furniture, high-technology, machine tool, metal fabrication, office, paper, pharmaceutical, plastic, printing, restaurant, textile, and others. Our auctions are open to the public. Our typical auction draws approximately 300 to 500 bidders in person and offers on average approximately 1,200 items or lots of merchandise and equipment for auction. We receive revenues from auction fees charged to consignees who consign merchandise to be sold and from the buyer's premiums charged to purchasers of the merchandise. We also receive revenues from auctioning merchandise that we purchase and sell at our auctions.

We conduct the majority of our auctions on an unreserved basis with no minimum prices, resulting in each and every item being sold to the highest bidder on the day of the auction. Our policy is to prohibit consignees from bidding on the items that they consign to us for auction. We attempt to differentiate our auction services from our competitors through our no minimum price policy and by selling merchandise without interference or competition from consignees.

After an auction, purchasers generally make their own arrangements to take possession of the auctioned property. If purchasers make arrangements with us, we can make available shipping services to forward the property to the buyer by mail freight forwarder, truck transport, or other delivery services for a cost. As agent of the consignor, we normally collect payment from the buyer for property purchased and remit to the consignor, on the settlement date, the consignor's portion of the buyer's payment, less consignor cash advances, if any, and commissions payable to us. We sometimes release property sold at auction to qualified buyers (primarily dealers) on credit before we receive payment. These qualified buyers generally have an account or line of credit (within established credit limits) with us and agree to make payment within 30 days. We extend credit only to buyers who have done business with us in the past and have an established credit standing with us.

Through our wholly-owned subsidiary, iCollector.com Technologies Ltd., referred to as iCollector throughout this Annual Report, we conduct approximately 10 auctions per month on eBay Live Auctions. iCollector represents antique, fine art and premium collectible auction houses and broadcasts auctions on eBay using eBay Live Auctions technology. iCollector also catalogues its clients inventory and hosts them on its site located at www.icollector.com.

In June 2002, we announced that we renewed our agreement with eBay to facilitate live auctions between our global auction house client base and eBay Live Auctions. Under our strategic alliance with eBay Live Auctions, iCollector facilitated over 250 live auctions in 2001 and 209 live auctions in 2002. Inventory included fine and decorative arts, modern and contemporary art, memorabilia, wine, fine furniture and collectibles that were obtained from countries worldwide, including Sweden, Italy, Spain, England, Canada and the United States.

Management believes that our business relationship with eBay creates an excellent opportunity for us. eBay has set the standard for silent auctions with unparalleled acceptance levels, user base and transaction volume. We are committed to accomplishing similar goals in the hosting and broadcasting of live auctions over the Internet, and we believe that our relationship with e-Bay will help us attain these goals.

Ableauctions has developed technology to manage the back-end of auction operations and broadcast live auctions over the Internet, applying its experience in managing and operating auction houses with Internet broadcasting capabilities. Ableauctions intends to deploy its technology, along with the services of eBay, beyond antique and collectible auctions house and into industrial and commercial auction houses throughout North America a market it believes has significant opportunities.

During the year 2000 we began to expand our bricks and mortar business by acquiring existing brick-and-mortar auction companies. In February 2000 we acquired the assets of Falcon Trading, a small regional auction company located in Redmond, Washington. In March 2000, we acquired the assets of Mesler's Auction House, an auction house located in Scottsdale, Arizona, along with related real estate and a 50,000 square foot building. In May 2000, we acquired the assets of Auctions West Sales Corporation, a liquidator of the assets of bankrupt persons or businesses located in Vancouver, British Columbia, Canada. Also in May 2000 we acquired Ehli's Commercial/Industrial Auctions, Inc., an auction house located in Tacoma, Washington. In July 2000, we acquired Johnston's Surplus Office Supplies Ltd., located in Vancouver, British Columbia.

In 2001, in order to develop and expand our on-line auction business, we acquired iCollector PLC, which was located in England.

Many of our acquisitions were structured as stock transactions.

In addition to acquiring regional auction houses, our strategy was to increase the gross revenues and profitability of our existing auction operations and to expand the scope of our auction audience through the capabilities of the Internet. We believed that the growth of the Internet facilitated the development of solutions to some of the traditional problems we face in operating our auction business, including reaching potential buyers of merchandise and equipment in other geographic locations, increasing the size of bidding audiences for our auctions, reaching more potential consignees of merchandise, and automating our auction preview process. Our goal was to expand our operations by linking regional auction houses together through our web site. We believed that this would allow us to generate a greater volume of traffic and interest to our web site and sales through our auctions.

In light of abrupt shifts in market conditions in early 2001, we were not able to obtain the financing required to complete our most significant acquisition or deploy our business strategy as previously planned. Despite the lack of working capital and shortfall in financing, we prudently redefined our business objectives and continued forward. We

developed technology for broadcasting live auctions over the Internet, applying our experience from the auction houses we owned and the services we provided for our antique and collectible auction houses on eBay.

In 2002, we set our objectives to:

- develop a live auction technology;
- enhance our relationship with eBay and our iCollector partners;
- bring iCollector to profitability;
- reduce our debt;
- bring the parent company to profitability;
- eliminate non-performing subsidiaries.

We have made significant progress in the development of our live auction technology and were able to use the same infrastructure to turn iCollector profitable. Also in 2002, we were able to negotiate a contract with eBay to further our relationship. In the course of the year, we began an intensive restructuring program in order to meet our objectives.

We closed our San Mateo and Arizona operations and sold the 50,000 square foot building we owned in Arizona, thereby reducing our debt by over \$1 million. We eliminated an additional \$3 million in debt by settling the deferred consideration related to the iCollector acquisition by issuing 2,090,134 shares of our common stock at \$1.43 per share. We eliminated another \$500,000 in debt through the sub-license of both our name, Ableauctions, and our operations in British Columbia, Canada.

In order to continue to maintain a bricks and mortar presence and contain the risks associated with our technology and auction operations, we invested \$150,000 in our Washington subsidiary, Ehli's Commercial/Industrial Auctions, Inc.,

and expanded its operations to a larger facility.

During the last fiscal year, we focused on licensing our technology. We also obtained a \$1million line of credit from our President and Chief Executive Officer.

Industry Background

The Commercial Auction Industry

Based on our discussions with operators of auction houses and our experience in the industry, we believe that most brick-and-mortar based auctions are regional, owner-operated businesses. Each auction house must make significant investments in real estate, personnel, inventory, and marketing for each location. Most traditional auction houses obtain their inventory locally and must contend with the logistical problems of matching supplies of available merchandise to unpredictable demand.

The Internet Auction Industry

The Internet has become an increasingly significant global interactive medium for communications, information, and commerce. Use of the Internet for business purposes has continued to grow over the past several years.

There are five models of online auctions:

-

Event-based live auctions: Bidders participate in live auctions transmitted over the Internet in real-time. Users register to qualify as bidders to participate before the time of the auction and bid for merchandise auctioned at physical auctions. Online bidders typically bid against bidders present at the physical auctions.

-

Business-to-consumer: Businesses or consumers bid on products that are listed on an auction's web site within a set time limit. The auctioned merchandise is sold to the highest bidder.

-

Consumer-to-consumer auctions: Sellers post merchandise on the web site in one of several categories. Hundreds of thousands of items, at all price ranges, are listed and bidders haggle directly with sellers to purchase the merchandise.

-

Specialty auctions: Sellers offer specific types of merchandise for auction on specialty online auctions that serve eclectic collectors or consumers interested in a special product niche.

-

Business-to-business: Businesses offer merchandise for auction to other businesses, including items for liquidation, salvaged merchandise, excess inventory, distressed inventory, and other items offered in large lots of several hundred items.

Competition

We believe that the principal competitive factors in the auction market are:

-

reputation;

-

customer service;

-

the ability to provide a variety of merchandise at an exceptional value; and

•

the ability to attract the bidders necessary to generate the best possible prices.

We compete with a number of companies with substantially greater financial, technical, and human resources than ours. Our competitors include large and small auction companies, dealers, and retailers, including discount retail stores, liquidation centers, and other retailers of new and previously owned merchandise.

The used equipment and the industrial equipment auction markets are highly fragmented. The major auctioneers in these markets include Michael Fox International, an international auctioneer of industrial equipment and real estate, Ritchie Bros. Auctioneers, an international auctioneer of industrial equipment and Maynard's Auctioneers, an auctioneer and liquidator of household items, antiques, and commercial goods. We also compete with a number of smaller independent auctioneers as well as with equipment manufacturers, distributors, new or used equipment dealers, and equipment rental companies seeking to sell unwanted merchandise.

The Internet auction industry is new, rapidly evolving, and intensely competitive, and we expect competition to intensify in the future. A variety of auction web sites are presently available on the Internet that are dedicated to facilitating person-to-person and business-to-person transactions on a bid-based format. These auction services allow sellers to post merchandise on their web sites and buyers to locate items and submit bids online. These services generally organize merchandise by categories and provide descriptions, pictures, or video clips of merchandise offered for sale.

We believe that the market leaders in broadcasting live auctions over the Internet are:

-

BidSpotter, Inc.

-

DoveBid

-

AMS Auction Management Solutions

-

Manheim Online

-

Copart Auto Auctions

-

Live Global Bid

-

ProxiBid

-

ABC Auction Broadcasting Company

-

Bidder Central

Additionally, several auctioneers have launched web sites that allow buyers to search for and bid on merchandise contained within the seller's inventory. Buyers search for the merchandise by visiting the web site and purchase directly from the auctioneer.

We believe that the following features may allow us to differentiate our web site from the web sites of our competitors:

-

Live Broadcast. We broadcast live auctions from physical auction sites over the Internet in real time, which allow visitors to our web site to compete against bidders attending the live auction.

-

Commercial Goods. We broadcast some live auctions that feature merchandise and equipment targeted at business or commercial buyers.

-

Consumer Goods. We also broadcast live auctions targeted at consumers featuring merchandise such as antiques, collectibles, furniture, household items, and other consumer goods.

•

Silent and Charity Auction. Our web site features a silent auction and a charity auction that lists items for auction that will be sold to the highest bidder.

We believe that potential bidders will save time and effort by previewing merchandise in advance of an auction using video and sound clips posted on our web site.

We believe that our no minimum price policy coupled with broadcasting our auctions live on the Internet through our web site will result in a greater volume of consigned equipment and higher gross auction sales.

Our Auction Operations

We conduct physical auctions from our auction houses located in British Columbia and the states of Washington.

Our operations in the United States include:

Our operations in Canada include:

Icollector.com Technologies, Ltd.

Approximately 65% of our annual revenues are derived from our US operations and approximately 35% of our annual revenues are derived from our Canadian operations.

In the auctions we conduct, we auction up to approximately 1,200 items or lots at each auction. We receive revenues from auction fees charged to consignees who consign merchandise to be sold and from the buyer's premiums charged to purchasers of the merchandise. In auctions of consigned goods, we received gross revenues from commissions and fees of approximately 25% from a typical auction.

The costs involved in conducting a typical auction, which average approximately \$45,000, include, among other things, the costs of catalogues, insurance, transportation, auction advertising, auction site rental fees, security, temporary personnel and expenses of certain additional auction-related accounting and shipping functions. In general, we charge purchasers a buyer's premium on auction purchases equal to 10% to 15% of the hammer price of the property and sellers a commission ranging from 5% to 25% of the hammer price.

Like most auctioneers, we do not provide any guarantee or warranty with respect to the property offered for sale at auction except as noted in our terms and conditions of sale for particular auctions. We generally auction each lot as described in our auction catalogue or on an as is basis.

Under the standard terms and conditions of our auction sales, we are not obligated to pay the consignor of the property if the purchase price for the property has not been paid by the buyer. In these instances, we will hold auctioned property until we receive payment from the buyer. If the buyer defaults on payment, we may cancel the sale and return the property to the owner, re-offer the property at another auction, or contact other bidders to negotiate a private sale.

Frequently, an owner consigning property to us will request a cash advance when the property is delivered to us and before its ultimate sale at auction or otherwise. The cash advance is in the form of a self-liquidating secured loan, using the consigned property as collateral. We are a secured party with respect to the collateral, hold a security interest in the collateral, and maintain possession of the collateral until it is sold.

We sometimes offer potential consignors the option to sell their property to us for an amount determined by our appraisers. In an outright purchase, we establish a price that we are willing to pay for the property and, if the price is acceptable to the seller or if a price can be negotiated between us and the seller, we typically pay the purchase price in full and take possession of the property immediately. We will generally sell this property at auction with other property or, if the purchase is large, at an auction of the purchased property.

In auctions where we own the auction merchandise, we receive all of the proceeds from the sale of the merchandise and related commissions and fees. Our gross profit from sales of our own merchandise is between 16% and 40%. During 1999 we had revenues of \$829,755 from the sale of our merchandise, \$8,607,230 for the year ended December 31, 2000 and \$6,653,656 for the year ended December 31, 2001. For the year ended December 31, 2002, accounting for discontinued operations and the shift to technology services, we had revenues of \$1,084,756 from the sale of our own merchandise.

Unlike sales of consigned property at auction, when selling our own inventory we earn a profit or incur a loss on the sale of inventory to the extent the purchase price exceeds or is less than the purchase price we paid for the inventory. Generally, we provide for the sale of portions of our inventory at public auctions. Occasionally, we may sell inventory to a customer directly without placing the inventory for sale at auction. Our goal is to sell all of our inventory as quickly and as efficiently as possible in order to achieve a high level of inventory turnover and maintain maximum liquidity.

We also generate revenues by purchasing merchandise from a variety of sources and re-selling it at our auctions. We purchase merchandise below normal wholesale prices as a result of liquidation, generally from bankruptcy or overproduction by manufacturers. In some cases, we purchase used equipment, such as office equipment from bankrupt companies, closing businesses, or merging companies. We normally average over 50% gross margin on sales, before fixed expenses, on the sale of liquidated merchandise.

Our Web Site

We launched our web site for public viewing in September 1999 and have refined our technology to broadcast live auctions over the Internet. We broadcasted our first live auction in January 2000. We currently broadcast more than

20% of our live auctions on the Internet.

Our web site is designed to integrate the traditional physical brick-and-mortar auction with electronic commerce by offering bidders with Internet access the ability to bid at our larger auctions. We believe our system will increase the size of our auction audiences, lower our overall transaction costs, and increase interest in our brick-and-mortar auction houses and events.

We anticipate that our web site will be attractive to business purchasers looking for difficult-to-find equipment, fixtures, office equipment, furniture and similar merchandise and to consumers looking for jewelry, consumer electronics, tools, collectibles, cameras and musical instruments. We believe that offering previews of our merchandise over the Internet will save our visitors time and increase the number of serious bidders participating in our auctions. We do not intend to offer or auction firearms, adult materials, or other potentially illegal merchandise on our web site.

Live Auctions

Our live auction feature is designed to allow us to broadcast our auctions live by video over the Internet. Viewers will be able to conveniently preview items in advance from their homes or offices and bid on merchandise live as the auction is being conducted. Currently, we post auction previews that allow visitors to view pictures of certain merchandise prior to the auction. The users will also have the option to submit a bid on an item before it goes to auction.

Our live auctions typically draw an average of 300 to 500 people in person, and auctions broadcasted on the Internet typically draw an average of 300 to 500 registered bidders.

During live auctions, virtual viewers are able to see the auction in progress and follow the lots of merchandise as they are being sold. A picture of each item and the current bid is posted. Internet users are able to bid simultaneously with those attending in person and update bids at their convenience. We post bids received from the Internet on large screen monitors. Unlike eBay, Bid.com, or other web sites, we offer almost every item on an unreserved basis, meaning there is no minimum bid for the merchandise we auction. Every item we auction is physically present at the time of the auction and sold to the highest bidder.

Charity Auctions

Our charity auctions allow registered non-profit organizations to raise funds and awareness of their charities through auctions hosted on our web site. We charge commissions ranging from 10% for hosting an auction, to 25% for fully organized fundraisers. Charity auctions may offer merchandise such as automobiles, vacation packages, and event passes to the highest bidder.

Research and Development

Our research and development program consists of developing technologies related to our web site and the systems required to broadcast live auctions over the Internet. During the 2001 and the 2002 fiscal years, we spent a total of approximately \$200,000 on expenses related to research and development, including consulting fees, technical fees, development of our data base management technologies, research and development of our graphic and video broadcasting technologies, systems design and testing, and other technological aspects of our web site.

History of Our Acquisitions

Effective September 20, 1999, we hired all of the employees and acquired all of the business assets of Ross Auctioneers & Appraisers Ltd., a British Columbia based auction company, for 60,000 shares of our common stock with a fair market value of approximately \$175,000.

Effective February 29, 2000, we hired the founder, Harlan Moore, and acquired all of the business assets of Falcon Trading, Inc., a Washington based auction company, for 53,405 shares of our common stock with a fair market value of approximately \$360,804.

Effective March 20, 2000, we acquired the business assets of Mesler's Auction House of Scottsdale, L.L.C., and real estate and a building from C&C Capital Investment, Inc., an affiliate of Mesler's. Mesler's is an Arizona based company that auctions antiques and other furniture and equipment. We paid \$255,000 cash and issued 30,625 shares of our common stock with a fair market value of approximately \$245,000 for the Mesler's assets. We paid \$1,200,000 in cash, assumed a promissory note with an unpaid balance of \$1,056,110.53 and issued 155,486 shares of our common stock with a fair market value of approximately \$1,245,000 for the real property.

Effective May 5, 2000, we hired the founder, Robert Kavanagh, and acquired all of the business assets of Auctions West Sales Corporation, a British Columbia based auction company, for 10,000 shares of our common stock with a fair market value of approximately \$70,000.

Effective May 16, 2000, we acquired all of the issued shares of Ehli's Commercial/Industrial Auctions, Inc., a Tacoma, Washington based liquidator of automobiles and industrial equipment, from Randy Ehli, the sole shareholder, for \$900,000 cash and 50,000 shares of our common stock with a fair market value of approximately \$350,000.

We acquired Johnston's Surplus Office Supplies Ltd. on July 26, 2000 for \$338,300 in cash and issued 68,182 shares of common stock with a fair market value of approximately \$513,410.

We acquired Jarvis Industries Ltd. for \$286,263 on July 31, 2000. We also acquired Warex Supply Ltd. on July 31, 2000 for \$145,672 and 6,900 shares of common stock with a fair market value of approximately \$55,200.

On September 27, 2001, the Company acquired all of the issued shares of iCollector PLC (iCollector). The consideration for the acquisition was as follows:

-

The Company issued 4,150,357 shares of its common stock to the shareholders of iCollector.

-

The Company issued non-interest bearing and unsecured promissory notes (deferred consideration notes) in the face amount of \$2,988,258, which were due to be repaid on September 13, 2002. These deferred consideration notes were convertible into shares of the Company's common stock at \$1.43 per share at the sole option of the Company, subject to regulatory, listing, and shareholder approval. In August 2002, we paid the deferred consideration notes by issuing 2,090,134 shares of our common stock.

-

The Company issued non-interest bearing and unsecured promissory notes (Earnout Consideration Notes) in the amount of \$5,000,000, which were payable on September 30, 2002, only if iCollector satisfied certain revenue and transaction milestones during the month of July, 2002. These Earnout Consideration Notes were convertible into shares of common stock of the Company, at the fair market value of such shares at the date of conversion, at the sole option of the Company, subject to a minimum of 2,000,000 shares and a maximum of 3,500,000 shares in the aggregate, as well as regulatory, listing, and shareholder approval.

On August 31, 2002 we provided a notice to the holders of the Earnout Consideration Notes that, during the month ending July 31, 2002, iCollector PLC conducted 11 live auctions and generated auction revenue of approximately £22,981. The letter also terminated the rights represented by the Earnout Consideration Notes for failure of the Earnout Conditions that were set forth in Appendix B to the Earnout Consideration Notes.

The total recorded cost to the Company of the acquisition of iCollector PLC, including estimated transaction costs of \$342,797, was \$8,957,281. The excess of the cost to the Company over the fair value of the net assets acquired, in the amount of \$8,327,257, was recorded as goodwill.

In November 2001 it was determined that iCollector PLC could not sustain its operations based on its existing cash resources and infrastructure. iCollector PLC then ceased operations and a restructuring plan was adopted. In January 2002 iCollector PLC was placed into formal bankruptcy proceedings pursuant to the laws of the United Kingdom. In December 2001, the Company founded iCollector International Ltd., a Canadian company, whose technology was completely rebuilt.

In November 2002, Julian Ellison, the Chief Executive Officer and Director of Auction Services for iCollector International Ltd., and John Ralston, a Customer Service and Support Representative for iCollector International Ltd., resigned their positions to form LiveAuctineer, LLC.

The investment in iCollector PLC was written off on the Company's financial statements for the year ended December 31, 2001 as a failed acquisition.

Our Divestiture of Johnston's Surplus Office Systems Ltd.

Effective March 29, 2001, the Company agreed to dispose of all of its shares of Johnston's Surplus Office Systems Ltd. (Surplus). The Company also agreed to settle debt owed to the Company by Surplus in the amount of \$1,191,724. The debt was settled by the issuance by Surplus to the Company of 1,191,724 common shares of Surplus at a deemed price of \$1.00 per share. The Company agreed to then sell all of the issued shares of Surplus to an employee of Surplus, for consideration of Cdn\$600,000 (US\$ 380,500).

Our Divestiture of Warex Supply Ltd.

Effective August 31, 2001, the Company agreed to dispose of all of its shares of Warex Supply Ltd. to Murray Jarvis, the former owner of Warex Supply Ltd., as severance in conjunction with the termination of his employment with the Company.

Sub-Licensing of the name Able Auctions in British Columbia

On October 24, 2002, the Company announced that its subsidiary, Able Auctions (1991) Ltd., entered into an agreement with Able Solutions Inc. to sub-license the name Able Auctions for the purpose of conducting live auctions in British Columbia, Canada only. We will continue to operate in British Columbia through Able Auctions (1991) Ltd., conducting auctions and running our liquidation store, but we intend to conduct our local bricks and mortar auctions through Able Solutions Inc. We will also continue to broadcast the British Columbia auctions on our servers, using our technology, for a fee per auction. In October, 2002, we announced that we also terminated our San Francisco operations and hope to adopt a similar licensing agreement for conducting business in that region.

Probable Divestiture of Eli's Commercial/Industrial Auctions, Inc.

The Board of Directors has approved the divestiture of Eli's Commercial/Industrial Auctions, Inc. and has authorized the President of the Company to enter into negotiations to do so.

Government Regulation

Our brick-and-mortar auction houses are generally subject to extensive regulation, supervision, and licensing under various federal, state, and local statutes, ordinances, and regulations. Such laws and regulations may require us to obtain a license or registration, or post a surety or bond as a precondition of doing business within the jurisdiction. In addition, applicable laws may require us to transact business and sell merchandise in accordance with specific guidelines, including the means by which we obtain our merchandise, advertise our auctions, conduct our bidding procedures, close transactions, hold client funds, and other restrictions that may vary from state to state. We cannot guarantee that we will not be subject to actions arising out of violations by our brick-and-mortar auction houses. Such actions may have a material adverse affect on our business and results of operations.

There are currently few laws or regulations that directly apply to access to, or commerce on, the Internet. It is possible that governing bodies may adopt a number of laws and regulations governing issues such as user privacy on the Internet and the pricing, characteristics, and quality of products and services offered over the Internet. It is also possible that government authorities will adopt sales or other taxes involving Internet business.

Intellectual Property

We have developed the majority of our software internally. We have taken measures to protect our intellectual property, ranging from confidentiality and non-disclosure agreements for contractors and employees to deploying a trans-modular development schedule where individual modules of software developed or coded by employees or contractors have no stand-alone benefits whatsoever until they are integrated with at least three independent modules.

We have registered the Internet domain names `ableauctions.com` and `icollector.com`.

We use copyright, trademark, service mark, and trade secret laws and contractual restrictions to protect our proprietary rights. We cannot assure you that the measures we take to protect intellectual property will prevent misappropriation of our technology or deter independent third-party development of similar technologies.

Employees

As of December 31, 2002 we had a total of 53 staff persons, including 19 full time employees, 12 consultants and 22 part-time and temporary employees. In addition to management, we employ auction staff, sales people, administrative staff, and development and technical personnel. From time to time, we may employ independent consultants or contractors to support our research and development, marketing, sales and support, and administrative organizations. No collective bargaining units represent our employees. We believe our relations with our employees are good. We expect to hire additional senior management, customer service management, a database administrator, several software developers, customer service representatives, technical support representatives and sales/marketing staff.

Risk Factors

Our business is subject to a number of risks as outlined below. An investment in our securities is speculative in nature and involves a high degree of risk. You should read this annual report carefully and consider the following risk factors:

We have a limited operating history and a history of losses.

Before our acquisition of Able Auctions (1991) Ltd., we had no material business or results of operation. We incurred a net loss of \$1,339,492 during 1999, \$11,837,363 during 2000, \$11,434,029 during 2001, and \$1,316,637 during the 2002. We do not believe that we will generate sufficient revenues to support our planned activities in fiscal 2003 because of our projected development and marketing costs. In the foreseeable future, we believe that these expenses will increase our net losses, and we cannot assure you that we will ever be profitable or maintain profitability.

As of December 31, 2002, we had current assets of \$822,107 and current liabilities of \$884,221. Our working capital position at December 31, 2001 was a deficiency of \$3,349,317. The working capital deficiency at December 31, 2002 was \$ 62,114. We anticipate raising additional capital through sales of our equity and/or debt securities, however, we cannot assure you that we will be able to obtain adequate financing to support our planned activities. See Management's Discussion and Analysis of Financial Condition and Results of Operations - Liquidity and Capital Resources.

Because of our losses, it is difficult to evaluate our business and our prospects. Our revenue and income potential is unproven and our business model is still emerging. We cannot assure you that we will attract consignors or bidders to use our web site or generate significant revenues in the future. We cannot guarantee that we will ever establish a sizeable market share or achieve commercial success.

The Company has only a limited operating history on which to base an evaluation of its business and prospects. The Company's prospects must be considered in light of the risks, uncertainties, expenses and difficulties frequently encountered by companies in their early stages of development, particularly companies in new and rapidly evolving markets such as online commerce. To address these risks and uncertainties, the Company must, among other things, maintain and increase the number of its registered users, items listed on its service and completed auctions, maintain and enhance its brand, implement and execute its business and marketing strategy successfully, continue to develop and upgrade its technology and information-processing systems, provide superior customer service, respond to competitive developments and attract, integrate, retain and motivate qualified personnel. There can be no assurance that the Company will be successful in accomplishing all of these things, and the failure to do so could have a material adverse effect on the Company's business, results of operations and financial condition.

The Company believes that its continued growth and profitability will depend in large part on its ability to (i) increase its brand name awareness, (ii) provide its customers with superior community and trading experiences and (iii) maintain sufficient transaction volume to attract buyers and sellers. Accordingly, the Company intends to invest, when and as it has the funds to do so, in marketing and promotion, site development, technology and operating infrastructure development. The Company may experience significant revenue growth and significant growth in the number of its registered users and items listed for auction by its users, however, such growth rates may not be sustainable. In view of the rapidly evolving nature of the Company's business and its limited operating history, the Company believes that period-to-period comparisons of its operating results are not necessarily meaningful and should not be relied upon as indications of future performance.

Our operating results fluctuate significantly and may be impacted by seasonal factors. This makes it difficult to accurately predict what the revenues from our operations will be.

The Company's operating results have varied on a quarterly basis during its short operating history and may fluctuate significantly as a result of a variety of factors, many of which are outside the Company's control. Factors that may affect the Company's quarterly operating results include: (i) the Company's ability to retain an active user base, attract new users who list items for sale and who complete transactions through its service and maintain customer satisfaction; (ii) the Company's ability to manage the number of items listed on its service; (iii) the announcement or introduction of new sites, services and products by the Company or its competitors; (iv) the success of the Company's brand building and marketing campaigns; (v) price competition; (vi) the level of use of the Internet and online services; (vii) increasing consumer confidence in and acceptance of the Internet and other online services for commerce and, in particular, the auctioning of products; (viii) consumer confidence in the security of transactions over the Internet; (ix) the Company's ability to upgrade and develop its systems and infrastructure to accommodate growth; (x) the Company's ability to attract new personnel in a timely and effective manner; (xi) the volume of items listed on the Company's Web site; (xii) the timing, cost and availability of advertising in traditional media and on

other Web sites and online services; (xiii) technical difficulties or service interruptions; (xiv) the amount and timing of operating costs and capital expenditures relating to expansion of the Company's business, operations and infrastructure; (xv) consumer trends and popularity of certain categories of items; (xvi) volume, size, timing and completion rate of auctions; (xvii) governmental regulation by Federal or local governments; and (xviii) general economic conditions as well as economic conditions specific to the Internet and online commerce industries.

As a result of the Company's limited operating history and the emerging nature of the markets in which it competes, it is difficult for the Company to forecast its revenues or earnings accurately. In addition, the Company has no backlog and a significant portion of the Company's net revenues for a particular quarter are derived from auctions that are listed and completed during that quarter. The Company's current and future expense levels are based largely on its investment plans and estimates of future revenues and are, to a large extent, fixed. The Company may be unable to adjust spending in a timely manner to compensate for any unexpected revenue shortfall. Accordingly, any significant shortfall in revenues relative to the Company's planned expenditures would have an immediate adverse effect on the Company's business, results of operations and financial condition. Further, as a strategic response to changes in the competitive environment, the Company may from time to time make certain pricing, service or marketing decisions that could have a material adverse effect on its business, results of operations and financial condition.

The Company believes that its results of operations are somewhat seasonal in nature, with fewer auctions listed around the Thanksgiving and Christmas holidays in the fourth quarter. The Company's limited operating history, however, makes it difficult to fully assess the impact of these seasonal factors or whether or not its business is susceptible to cyclical fluctuations in the U.S. and Canadian economy. There can be no assurance that seasonal or cyclical variations in the Company's operations will not become more pronounced over time or that they will not materially adversely affect its results of operations in the future. Moreover, consumer "fads" and other changes in consumer trends may cause significant fluctuations in the Company's operating results from one quarter to the next.

Due to the foregoing factors, the Company's quarterly revenues and operating results are difficult to forecast. The Company believes that period-to-period comparisons of its operating results may not be meaningful and should not be relied upon as an indication of future performance. In addition, it is likely that in one or more future quarters the Company's operating results will fall below the expectations of securities analysts and investors. In such event, the trading price of the Company's common stock would almost certainly be materially adversely affected.

Our ability to complete acquisitions and to meet our business projections through December 31, 2003 may depend on our ability to raise additional capital in the amount of \$1 million or more during 2003.

We anticipate that we need to seek additional capital in the amount of \$1 million or more in 2003 to meet our operating and capital budget requirements through December 31, 2003. See Management's Discussion and Analysis of Financial Condition and Results of Operations. We cannot assure you that any additional financing would be available on terms acceptable to us, or at all. Furthermore, any issuance of additional securities may result in dilution to the then existing shareholders. If adequate funds are not available, we will lack sufficient capital to pursue our

intended course of action and business strategy in 2003, which will have a material adverse effect on our ability to meet our business projections.

Our growth strategy success depends on our ability to acquire additional auction and liquidation businesses, to market and develop our new iCollector business model, and to integrate these acquisitions and models into our business.

Our business strategy is to grow through acquisitions or strategic affiliations with auction companies in a number of North American markets. We may acquire additional auction houses, although we have not publicly announced any plans to do so. There can be no assurance that our current management, personnel, and corporate infrastructure will be adequate to manage future growth, if any. The success of our business strategy depends on making further acquisitions of or entering into strategic affiliations with auction companies.

We acquired iCollector PLC in September 2001. At that time, iCollector PLC was insolvent and needed working capital. We agreed to acquire iCollector PLC as long as its majority shareholder was willing to finance iCollector PLC until it met its projected cash flow targets. iCollector PLC did not attain the projections, and there were not adequate resources to continue funding its losses. In December 2001, iCollector PLC was restructured and it was placed in formal liquidation in January 2002. Thereafter, we restructured the operations of iCollector PLC. We cannot assure you that the new business model will be consistently profitable. The success of the new iCollector business model is dependent upon the strengths and relationships of the current sales team, the skills of the technology team, and the continued support and generation of new customers. We cannot assure you that the formal liquidation of iCollector PLC will have no material adverse effect legally or on our business, financial condition and results of operations.

We also cannot guarantee that we will be able to integrate new acquisitions or affiliations successfully into our company without substantial costs, delays, or other operational or financial problems. Further, acquisitions and expansion into new markets involve a number of special risks, including possible adverse effects on our operating results, diversion of management's attention, failure to retain key personnel, risks associated with unanticipated events or liabilities, and amortization of acquired intangible assets. Some or all of these risks could have a material adverse effect on our business, financial condition and results of operations.

We may finance future acquisitions and expansions by incurring bank indebtedness, using cash from operations, issuing common stock or other securities, or any combination of these. If our common stock does not maintain a sufficient market value, or potential acquisition candidates are otherwise unwilling to accept our common stock or other securities as part of the consideration for the sale of their businesses, we may be required to use more of our cash resources or incur substantial debt in order to finance future acquisitions. If we do not have sufficient cash resources, our ability to make acquisitions could be limited unless we are able to obtain additional capital through debt or equity financings. There can be no assurance that we will be able to obtain the financing we will need in the future on terms we consider acceptable, if at all.

We have experienced rapid growth, which has placed a strain on our resources, and any failure to manage our growth effectively could cause our business to suffer.

We do not have a proven record in managing our growth and may not be successful in doing so. We have grown from 12 employees on August 24, 1999 to approximately 53 staff persons on December 31, 2002. We plan to continue expanding through acquisitions and to continue to develop our Internet e-commerce (the online purchase of goods and services by consumers and businesses) site. Past growth in these areas has placed, and any future growth will continue to place, a significant strain on our management systems and resources.

If we are unable to achieve a significant number of visitors and successfully facilitate transactions, we may be unable to generate sufficient revenues to earn a profit.

The success of our Ableauctions.com and iCollector.com web sites depends on whether or not there is significant market acceptance of these web site by consumers. We currently offer only a limited selection of merchandise for sale in our silent auctions. We anticipate that we will have very limited market acceptance until we begin offering more items of merchandise for sale and our brand name is established. Our business concept of offering an Internet solution for broadcasting live auctions is still being tested and we cannot assure you that our Internet strategy to broadcast live auctions will be successful, or that it will increase revenues of our live auctions.

Our competitors and potential competitors may offer more cost-effective merchandising solutions than us, which could damage our business and our ability to successfully commercialize our web site. Our failure to attract visitors, successfully complete transactions, and develop an adequate auction house base will seriously harm our business and our ability to earn a profit.

We have capacity constraints and system development risks that could damage our customer relations or inhibit our possible growth, and we may need to expand our management systems and controls quickly.

Our success and our ability to provide high quality customer service largely depends on the efficient and uninterrupted operation of our computer, Internet and communications systems and the computers and communication systems of third party vendors in order to accommodate any significant numbers or increases in the numbers of consumers and businesses using our services. Our success also depends on our abilities, and that of our vendors, to rapidly expand

transaction-processing systems and network infrastructure without any systems interruptions in order to accommodate any significant increases in use of our service.

We cannot assure you that the vendors or partners we have selected and will select in the future will be capable of accommodating any significant number or increases in the number of consumer and auction houses using our services. Such failures will have a material adverse affect on our business and results of operations. We may experience periodic systems interruptions and down time caused by traffic to our web site and technical difficulties, which may cause customer dissatisfaction and may adversely affect our results of operations. Limitations of our technology infrastructure and that of our vendors may prevent us from maximizing our business opportunities.

The Company seeks to generate a high volume of traffic and transactions. Accordingly, the satisfactory performance, reliability and availability of the Company's Web site, processing systems and network infrastructure are critical to the Company's reputation and its ability to attract and retain large numbers of users who bid for or sell items on its service while maintaining adequate customer service levels. The Company's revenues depend on the number of items listed by users, the volume of user auctions that are successfully completed and the final prices paid for the items listed. Any system interruptions that result in the unavailability of the Company's service or reduced customer activity would reduce the volume of items listed and auctions completed and could affect the average selling price of the items. Interruptions of service may also diminish the attractiveness of the Company and its services. The Company may experience periodic system interruptions, which it believes will continue to occur from time to time. Any substantial increase in the volume of traffic on the Company's Web site or in the number of auctions being conducted by customers will require the Company to expand and upgrade its technology, transaction processing systems and network infrastructure. There can be no assurance that the Company will be able to accurately project the rate or timing of increases, if any, in the use of the Company's services or timely expand and upgrade its systems and infrastructure to accommodate such increases in a timely manner. Any failure to expand or upgrade its systems could have a material adverse effect on the Company's business, results of operations and financial condition.

The Company uses internally developed systems for its service and transaction processing, including billing and collections processing. The Company must continually enhance and improve these systems in order to accommodate the level of use of its customers. Furthermore, in the future, the Company may add additional features and functionality to its services that would result in the need to develop or license additional technologies. The Company's inability to add additional software and hardware or to develop and further upgrade its existing technology, transaction processing systems or network infrastructure to accommodate increased traffic on the Company's service or increased transaction volume through its processing systems or to provide new features or functionality may cause unanticipated system disruptions, slower response times, degradation in levels of customer service, impaired quality of the user's experience on the Able service, and delays in reporting accurate financial information. In addition, although the Company works to prevent unauthorized access to Company data, it is impossible to completely eliminate this risk. There can be no assurance that the Company will be able in a timely manner to effectively upgrade and expand its systems or to integrate smoothly any newly developed or purchased technologies with its existing systems. Any inability to do so would have a material adverse effect on the Company's business, results of operations and financial condition.

Our business is at risk for system failures that disrupt our operations.

The Company's success, and in particular its ability to facilitate trades successfully and provide high quality customer service, depends on the efficient and uninterrupted operation of its computer and communications hardware systems. Substantially all of the Company's computer hardware for operating its service is currently located at the facilities of Telus in Vancouver, British Columbia. These systems and operations are vulnerable to damage or interruption from earthquakes, floods, fires, power loss, telecommunication failures, break-ins, sabotage, intentional acts of vandalism and similar events. The Company does not presently have fully redundant systems, a formal disaster recovery plan or alternative providers of hosting services and does not carry sufficient business interruption insurance to compensate it for losses that may occur. Despite any precautions taken by, and planned to be taken by the Company, the occurrence of a natural disaster or other unanticipated problems at the Telus facility could result in interruptions in the services provided by the Company. In addition, the failure by Telus to provide the data communications capacity required by the Company, as a result of human error, natural disaster or other operational disruption, could result in interruptions in the Company's service. Any damage to or failure of the systems of the Company could result in reductions in, or terminations of, the Able service, which could have a material adverse effect on the Company's business, results of operations and financial condition.

In the case of frequent or persistent system failures, the Company's reputation and name brand could be materially adversely affected. Although the Company has implemented certain network security measures, its servers are also vulnerable to computer viruses, physical or electronic break-ins and similar disruptions, which could lead to interruptions, delays, loss of data or the inability to complete customer auctions, any and all of which could have a material adverse effect on the Company's business, results of operations and financial condition.

Changing technology may render our equipment, software, and programming obsolete or irrelevant.

The market for Internet-based products and services is characterized by rapid technological developments, frequent new product introductions, and evolving industry standards. The emerging character of these products and services and their rapid evolution will require that we continually improve the performance, features, and reliability of our Internet-based products and services, particularly in response to competitive offerings. We cannot guarantee that we will be successful in responding quickly, cost effectively, and sufficiently to these developments. In addition, the widespread adoption of new Internet technologies or standards could require substantial expenditures by us to modify or adapt our Internet sites and services and could fundamentally affect the character, viability, and frequency of Internet-based advertising, either of which could have a material adverse effect on our business, financial condition, and operating results. In addition, new Internet-based products, services, or enhancements offered by us may contain design flaws or other defects that could require costly modifications or result in a loss of consumer confidence, either of which could have a material adverse effect on our business, financial condition, and operating results.

We depend on eBay for revenue and uninterrupted Internet access and may be harmed by the loss of any such service.

We rely heavily on eBay's servers for uninterrupted Internet access and the ability to offer our customers Live Auction technology that access eBay's clients. We also have an agreement with eBay governing the conduct of auctions on their site that may be terminated instantly or on short notice. Our business is dependent on the agreement, the uninterrupted Internet access, their servers and their continued operation of the Live Auction platform on eBay Live Auction. The loss of any of these services or agreement will have a material adverse effect on our business, financial condition, and operating results. We cannot assure you that we would be able to obtain these services from other third parties or that we can renew our eBay agreement.

If we cannot protect our Internet domain names, our ability to conduct our operations may be impeded.

We anticipate that the Internet domain names `ableauctions.com` and `icollector.com` will be an extremely important part of our business and the business of our subsidiaries. Governmental agencies and their designees generally regulate the acquisition and maintenance of domain names. The regulation of domain names in the United States and in foreign countries may be subject to change in the near future. Governing bodies may establish additional top-level domains, appoint additional domain name registrars, or modify the requirements for holding domain names. As a result, we may be unable to acquire or maintain relevant domain names in all countries in which we conduct business. Furthermore, the relationship between regulations governing domain names and laws protecting trademarks and similar proprietary rights is unclear. Therefore, we may be unable to prevent third parties from acquiring domain names that are similar to, infringe on, or otherwise decrease the value of our trademarks and other proprietary rights. Third parties have acquired domain names that include `auctions` or other variations both in the United States and elsewhere.

Potential fluctuations in results of operating may cause cash shortfalls materially affecting our results of operations.

Because of our limited operating history and the emerging nature of the markets in which we compete, it is difficult for us to forecast our revenues or earnings accurately. In addition, we have no backlog and a significant portion of our net revenues for a particular quarter is derived from auctions that are listed and completed during that quarter. Our current and future expense levels are based largely on our investment plans and estimates of future revenues and are, to a large extent, fixed.

We may be unable to adjust spending in time to compensate for any unexpected revenue shortfall. Accordingly, any significant shortfall in revenues relative to our planned expenditures would have an immediate adverse effect on our business, results of operations and financial condition. Further, as a strategic response to changes in the competitive environment, we may from time to time make certain pricing, service or marketing decisions that could have a material adverse effect on our business, results of operations, and financial condition.

We believe that period-to-period comparisons of our operating results may not be meaningful and should not be relied on as an indication of future performance. In addition, it is likely that in one or more future quarters our operating results will fall below the expectations of securities analysts and investors. In that event, the trading price of our common stock would almost certainly be materially adversely affected.

Our success depends on the services of our key officers and our ability to attract and maintain qualified, experienced personnel.

Our future success will depend on our key officers. The loss of key personnel could have an adverse effect on our operations. We do not maintain insurance to cover losses that may result from the death of any of our key personnel. Competition for qualified employees is intense. Our inability to attract, retain, and motivate additional, highly skilled personnel required for expansion of operations and development of technologies could adversely affect our business, financial condition, and results of operations. Our financial situation may adversely affect our ability to retain existing personnel and attract new personnel. We cannot assure you that we will be able to retain our existing personnel or attract additional, qualified persons when required and on acceptable terms.

The e-commerce industry is highly competitive, and we cannot assure you that we will be able to compete effectively.

The market for broadcasting auctions over the Internet is new, rapidly evolving, and intensely competitive and we expect competition to intensify further in the future. Our direct competitors will include BidSpotter, Inc., DoveBid, AMS Auction Management Solutions, Manheim Online, Copart Auto Auctions, Live Global Bid, ProxiBid, ABC Auction Broadcasting Company, and Bidder Central, and other web sites that broadcast live auctions. We will also compete with various online auction services.

We face potential competition from a number of large online communities and services that have expertise in developing online commerce and in facilitating online person-to-person interaction. Some of these potential competitors, including eBay, Amazon.com, America Online, Inc., Microsoft Corporation, and Yahoo! Inc., currently offer a variety of business-to-consumer trading and classified advertisement services and may introduce live auctions

to their large user populations. We believe that the principal competitive factors in the online auctions market are volume and selection of goods, population of buyers, customer service, reliability of delivery and payment by users, brand recognition, web site convenience and accessibility, price, quality of search tools, and system reliability. Many of our current and potential competitors have longer operating histories, larger customer bases, greater brand recognition, and significantly greater financial, marketing, technical, and other resources than us.

Certain of our competitors with other revenue sources may be able to devote greater resources to marketing and promotional campaigns, adopt more aggressive pricing policies, and devote substantially more resources to web site and systems development than us or may try to attract traffic by offering services for free. We cannot assure you that we will be able to compete successfully against current and future competitors. Further, as a strategic response to changes in the competitive environment, we may, from time to time, make certain pricing, service, or marketing decisions that could have a material adverse effect on our business, results of operations, and financial condition.

Due to the emerging nature of Internet commerce, we are unable to forecast our expenses and revenues accurately, and if our expenses exceed our revenues, we may never become profitable.

Due to the emerging nature of Internet-based advertising, services, and electronic commerce, we are unable to forecast our expenses and revenues accurately. We believe that because the Internet has been available to the general public for a relatively brief time, the successful operation of any form of Internet-based business will be uncertain. Our current and future estimated expense levels are based largely on our estimates of future revenues and may increase considerably. Few, if any, of our operating expenses can be quickly or easily reduced, such as the laying off of personnel or reducing our commitment to our consultants and service providers, without causing a material adverse effect to our business, financial condition, and operating results. In addition, we may be unable to adjust spending in time to compensate for any unexpected expenditures, and a shortfall in actual revenues as compared to estimated revenues would have an immediate material adverse effect on our business, financial condition, and operating results.

Our business may be subject to government regulation and legal uncertainties that may increase the costs of operating our web site or limit our ability to generate revenues.

We are subject to the same federal, state, and local laws as other companies conducting business on the Internet. Today there are relatively few laws specifically directed towards online services. However, due to the increasing popularity and use of the Internet and online services, it is possible that laws and regulations will be adopted regarding the Internet or online services. These laws and regulations could cover issues such as online contracts, user privacy, freedom of expression, pricing, fraud, content and quality of products and services, taxation, advertising, intellectual property rights, and information security. Applicability to the Internet of existing laws governing issues such as property ownership, copyrights and other intellectual property issues, taxation, libel, obscenity, and personal privacy is uncertain. In addition, numerous states have regulations regarding the manner in which auctions may be conducted

and the liability of auctioneers in conducting such auctions.

Due to the global nature of the Internet, it is possible that the governments of other states and foreign countries might attempt to regulate our transmissions or prosecute us for violations of their laws. We might unintentionally violate such laws. Such laws may be modified, or new laws may be enacted, in the future. Any such development could damage our business.

Our business may be subject to sales and other taxes, which may cause administrative difficulties and increase our cost of operations.

We will collect applicable sales and other similar taxes on goods sold on our web site. One or more states may seek to impose additional sales tax collection obligations on companies such as ours that engage in or facilitate online commerce. Several proposals have been made at the state and local level that would impose additional taxes on the sale of goods and services through the Internet. These proposals, if adopted, could substantially impair the growth of electronic commerce and could diminish our opportunity to derive financial benefit from our activities.

Our business may be subject significant insurance rate increases, which may make it difficult for us to attain the appropriate risk coverage or liability insurance, creating administrative difficulties in keeping board members and increasing the cost of our operations.

Due to the global nature of the Internet related businesses, publicly trading companies and the political instability, it is possible that the company be denied insurance or not be able to afford it. Any such development could seriously impede the company's performance and profitability and the ability to conduct business. It may also impede the company in retaining key employees and board members or attracting suitable one.

If the American Stock Exchange determines that our common stock does not meet its listing criteria, our stock could be delisted.

The Company is not under any immediate threat to be delisted from the American Stock Exchange and the American Stock Exchange has not taken any action in notifying the Company of any concerns surrounding the listing. However, the American Stock Exchange may change its listing requirements or the Company may not be able to meet the listing

criteria.

In the future laws making us liable for the activities of users of our services could be passed, which would adversely affect our business, operations and financial condition.

The law relating to the liability of providers of online services for activities of their users on the service is currently unsettled. While the Company does not pre-screen the types of goods offered on Ableauctions or iCollector, the Company is aware that certain goods may be subject to regulation by local, state or federal authorities will be auctioned on the Ableauctions or iCollector service. There can be no assurance that the Company will be able to prevent the unlawful exchange of goods on its service or that it will successfully avoid civil or criminal liability for unlawful activities carried out by users through the Company's service. The imposition upon the Company of potential liability for unlawful activities of users of the Ableauctions or iCollector service could require the Company to implement measures to reduce its exposure to such liability, which may require, among other things, the Company to spend substantial resources and/or or to discontinue certain service offerings. Any costs incurred as a result of such liability or asserted liability could have a material adverse effect on the Company's business, results of operations and financial condition.

In addition, the Company's success depends largely on sellers reliably delivering and accurately representing the working condition of auctioned goods and buyers paying the auctioned price. The Company auctions the goods as is and takes no responsibility for working condition of goods to any user of the Ableauctions or iCollector service. The Company anticipates that it will receive in the future, communications from users regarding the working condition of the goods and users who dispute the posting of Internet bids. While the Company can suspend the accounts of users who fail to fulfill their obligations, the Company, beyond crediting sellers with the amount of their fees in certain circumstances, does not have the ability to otherwise require users to make payments or deliver working goods and the Company does not compensate users who believe they have been defrauded by other users. The Company may be brought into litigation as a third party for instances where a seller has intentionally set out to defraud the buyer, then disappears. The Company also from time to time receives complaints from buyers as to the quality of the goods purchased. Although the Company has attempted to reduce its liability to buyers for unfulfilled transactions or other claims related to the quality of the purchased goods and although the average transaction size is approximately \$500.00, the Company may in the future receive additional requests from users requesting reimbursement or threatening legal action against the Company if no reimbursement is made. Any resulting litigation could be costly for the Company, divert management attention and could result in increased costs of doing business, or otherwise have a material adverse effect on the Company's business, results of operations and financial condition. Any negative publicity generated as a result of fraudulent or deceptive conduct by users of Ableauctions or iCollector could damage the Company's reputation and diminish the value of its brand name, which could have a material adverse effect on the Company's business, results of operations and financial condition.

We conduct much of our business online, however such activities may not be secure. If a breach of security occurred, our reputation could be damaged and we could be sued.

A significant barrier to online commerce and communications is the secure transmission of confidential information over public networks. Currently, a significant number of Ableauctions or iCollector users authorize the Company to bill their credit card accounts directly for all transaction fees charged by the Company. The Company relies on encryption and authentication technology licensed from third parties to provide the security and authentication technology to effect secure transmission of confidential information, including customer credit card numbers. There can be no assurance that advances in computer capabilities, new discoveries in the field of cryptography, or other events or developments will not result in a compromise or breach of the technology used by the Company to protect customer transaction data. If any such compromise of the Company's security were to occur, it could have a material adverse effect on the Company's reputation and, therefore, on its business, results of operations and financial condition. Furthermore, a party who is able to circumvent the Company's security measures could misappropriate proprietary information or cause interruptions in the Company's operations. The Company may be required to expend significant capital and other resources to protect against such security breaches or to alleviate problems caused by such breaches. Concerns over the security of transactions conducted on the Internet and other online services and the privacy of users may also inhibit the growth of the Internet and other online services generally, and the Web in particular, especially as a means of conducting commercial transactions. To the extent that activities of the Company involve the storage and transmission of proprietary information, such as credit card numbers, security breaches could damage the Company's reputation and expose the Company to a risk of loss or litigation and possible liability. The Company's insurance policies carry low coverage limits, which may not be adequate to reimburse the Company for losses caused by security breaches. There can be no assurance that the Company's security measures will prevent security breaches or that failure to prevent such security breaches will not have a material adverse effect on the Company's business, results of operations and financial condition.

We cannot guarantee that we will be able to successfully incorporate into our business model the acquisitions that we make, or that the acquisitions we make will be profitable.

The Company intends to acquire businesses, technologies, services or products that the Company believes are strategic. There can be no assurance that the Company will be able to identify, negotiate or finance future acquisitions successfully, or to integrate such acquisitions with its current business. The process of integrating an acquired business, technology, service or product into the Company may result in unforeseen operating difficulties and expenditures and may absorb significant management attention that would otherwise be available for ongoing development of the Company's business. Moreover, there can be no assurance that the anticipated benefits of any acquisition will be realized. Future acquisitions could result in potentially dilutive issuances of equity securities, the incurrence of debt, contingent liabilities and/or amortization expenses related to goodwill and other intangible assets, which could materially adversely affect the Company's business, results of operations and financial condition. Any such future acquisitions of other businesses, technologies, services or products might require the Company to obtain additional equity or debt financing, which might not be available on terms favorable to the Company, or at all, and such financing, if available, might be dilutive.

We may be unable to adequately protect our intellectual property.

The Company regards the protection of its copyrights, service marks, trademarks, trade dress and trade secrets as critical to its future success and relies on a combination of copyright, trademark, service mark and trade secret laws and contractual restrictions to establish and protect its proprietary rights in products and services. The Company attempts to enter into confidentiality and invention assignment agreements with its employees and contractors, and nondisclosure agreements with parties with which it conducts business in order to limit access to and disclosure of its proprietary information. There can be no assurance that these contractual arrangements or the other steps taken by the Company to protect its intellectual property will prove sufficient to prevent misappropriation of the Company's technology or to deter independent third-party development of similar technologies. The Company will pursue the registration of its trademarks and service marks in the U.S. and Canada. Effective trademark, service mark, copyright and trade secret protection may not be available in every country in which the Company's services are made available online. The Company has licensed in the past, and expects that it may license in the future, certain of its proprietary rights, such as trademarks or copyrighted material, to third parties. While the Company attempts to ensure that the quality of the Ableauctions or iCollector brand is maintained by such licensees, there can be no assurance that such licensees will not take actions that might materially adversely affect the value of the Company's proprietary rights or reputation, which could have a material adverse effect on the Company's business, results of operations and financial condition. The Company will also rely on certain technologies that it licenses from third parties, such as Oracle Corporation ("Oracle"), Microsoft and Sun Microsystems Inc. ("Sun"), the suppliers of key database technology, the operating system and specific hardware components for the Ableauctions or iCollector service. There can be no assurance that these third-party technology licenses will continue to be available to the Company on commercially reasonable terms. The loss of such technology could require the Company to obtain substitute technology of lower quality or performance standards or at greater cost, which could materially adversely affect the Company's business, results of operations and financial condition.

To date, the Company has not been notified that its technologies infringe the proprietary rights of third parties, but there can be no assurance that third parties will not claim infringement by the Company with respect to past, current or future technologies. The Company expects that participants in its markets will be increasingly subject to infringement claims as the number of services and competitors in the Company's industry segment grows. Any such claim, whether meritorious or not, could be time-consuming, result in costly litigation, cause service upgrade delays or require the Company to enter into royalty or licensing agreements. Such royalty or licensing agreements might not be available on terms acceptable to the Company or at all. As a result, any such claim could have a material adverse effect upon the Company's business, results of operations and financial condition.

Our stock price is subject to extreme volatility.

The trading price of our common stock is likely to be highly volatile and could be subject to wide fluctuations in response to factors such as actual or anticipated variations in the Company's quarterly operating results, announcements of technological innovations, or new services by the Company or its competitors, changes in financial estimates by securities analysts, conditions or trends in the Internet and online commerce industries, changes in the market valuations of other Internet or online service companies, announcements by the Company or its competitors of significant acquisitions, strategic partnerships, joint ventures or capital commitments, additions or departures of key personnel, sales of common stock or other securities of the Company in the open market and other events or factors,

many of which are beyond the Company's control. Further, the stock markets in general, and the Nasdaq National Market and the market for Internet-related and technology companies in particular, have experienced extreme price and volume fluctuations that have often been unrelated or disproportionate to the operating performance of such companies. The trading prices of many technology companies' stocks do not reflect valuations. There can be no assurance that trading prices and valuations will be sustained. These broad market and industry factors may materially and adversely affect the market price of the common stock, regardless of the Company's operating performance. Market fluctuations, as well as general political and economic conditions such as recession or interest rate or currency rate fluctuations, may also adversely affect the market price of the common stock. In the past, following periods of volatility in the market price of a company's securities, securities class-action litigation has often been instituted against such company. Such litigation, if instituted, could result in substantial costs and a diversion of management's attention and resources, which would have a material adverse effect on the Company's business, results of operations and financial condition.

Our executive officers and directors control a large percentage of our common stock, which may allow them to control matters submitted to stockholders for approval.

The Company's executive officers and directors (and their affiliates), in the aggregate, own approximately 19 % of the Company's outstanding common stock. As a result, such persons, acting together, will have the ability to control all matters submitted to stockholders of the Company for approval (including the election and removal of directors and any merger, consolidation or sale of all or substantially all of the Company's assets) and to control the management and affairs of the Company. Accordingly, such concentration of ownership may have the effect of delaying, deferring or preventing a change in control of the Company, impede a merger, consolidation, takeover or other business combination involving the Company or discourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of the Company, which in turn could have an adverse effect on the market price of the Company's common stock.

The market price of our common stock may be adversely affected if too much of it is sold at once.

Sales of substantial amounts of the Company's common stock (including shares issued upon the exercise of outstanding options) in the public market could adversely affect the market price of the common stock. Such sales also might make it more difficult for the Company to sell equity or equity-related securities in the future at a time and price that the Company deems appropriate.

We may be sued for claims relating to our discontinued operations.

In 2002 it was determined that iCollector PLC could not sustain its operations based on its existing cash resources and infrastructure. iCollector PLC then ceased operations and a restructuring plan was adopted. In January 2002 iCollector PLC was placed into formal bankruptcy proceedings pursuant to the laws of the United Kingdom. In 2002, the Company also ceased operations in San Mateo and San Francisco, both operating under Abluctions.com (Washington) Inc. We cannot assure you that no additional claims will rise from the discontinued operations. Furthermore, based on existing cash resources, subsequent claims may lead us to place our Washington operations into formal bankruptcy.

Management's Discussion and Analysis of Financial Condition and Results of Operations

Plan of Operation

Generate revenues through auctions and increase our volume of sales by increasing the number of live auctions at our existing locations and on eBay.

We will continue to operate auctions in British Columbia; Tacoma, Washington; and various parts of the United States. We will also continue running antique and collectible auctions on eBay as well as running a liquidation store.

Continue research and development to improve our web site and auction broadcasting technologies.

We plan to continue our research and development efforts to improve our web site and auction broadcasting technologies. We are in the process of refining our live auction broadcasting technologies and intend to develop software and systems that will allow us to improve graphical presentations, the speed of our bidding process, the preview of merchandise and the method of registering bidders.

Commence geographic expansion program by acquiring or entering into strategic affiliations with auction companies.

We intend to broadcast the auctions of other auction houses from a variety of locations throughout North America. We have licensed our services to other companies and intend to advance marketing efforts in the remainder of 2003.

Our acquisition of iCollector, PLC resulted in a number of strategic relationships with galleries, auction houses and art dealers, and a relationship with eBay to broadcast our live auctions. Since the acquisition of iCollector PLC, we have created a new subsidiary, iCollector.com Technologies Ltd. We cannot assure you that we will successfully integrate the new iCollector.com Technologies Ltd. operations into our business or that our venture will be commercially successful.

iCollector had approximately \$2 million in working capital to fund its operations and capital requirements for approximately one year. This working capital was not adequate to fund its ongoing operations and business plan. We anticipate that iCollector.com Technologies Ltd. Will be able to fund its operations and future development through cash generated from operations.

Summary of Operating and Capital Budget

Set forth below are our estimated cash operating and capital budgets for operations, technology purchases, research and development and implementing our expansion strategy for the remainder of the fiscal year ending December 31, 2003:

Marketing	\$	150,000
Ongoing research and development		200,000
Expansion of inventories		250,000
Servers and operating systems		25,000
Working Capital		375,000
Required Capital:	\$	1,000,000

Our revised operating and capital budget for the fiscal year ending December 31, 2003 is estimated to be approximately \$1,000,000. As of December 31, 2002, we had a working capital deficit of approximately \$62,114. On October 11, 2002, in exchange for settlement of debt and funds advanced to the Company, we assigned a \$285,000 receivable to Abdul Ladha, our President and CEO, who in turn, reassigned it and secured a loan against it from the Canadian Imperial Bank of Commerce in order to reduce debt and inject capital into the Company immediately.

We were also able to borrow funds, up to \$1 million, from a line of credit made available to us by our President and CEO. This loan is secured by the assets of the Company and its subsidiaries. As of December 31, 2002, the amount of the loan was \$199,679.

We reduced the Company's debt by \$4 million by selling our building in Scottsdale, Arizona, and paying down the mortgage and by settling the Deferred Compensation Note relating to the iCollector acquisition by issuing shares for the debt.

We cannot assure you that our actual expenditures for that period will not exceed our estimated operating budget. Actual expenditures will depend on a number of factors, some of which are beyond our control, including, among other things, the availability of financing on acceptable terms, acquisition and/or expansion costs, reliability of the assumptions of management in estimating cost and timing, certain economic factors, the timing related to development of our technology and costs associated with operating our auctions.

In the event we determine that we may be unable to meet our on-going capital commitments, we may take some or all of the following actions:

- postpone expenditures on research and development;

- reduce sales and marketing expenditures;

- reduce general and administrative expenses through lay offs or consolidation of our operations;

- suspend or sell operations that are not economically profitable; or

-

sell assets, including licenses to our technologies.

Political and Economic Uncertainties

Our business and our ability to raise additional financing may be adversely affected by political and economic risks and uncertainties. The general economic slowdown in the United States and Europe may adversely affect the demand for products offered at our auctions. The political uncertainty in the Middle East may negatively affect the general economy, the capital markets and our ability to raise capital on acceptable terms, if at all. There can be no assurance that the Company will be able to increase our revenues from operations or to raise sufficient financing to meet our on-going obligations on acceptable terms, if at all.

Management's Discussion and Analysis

The following discussion on our results of operations should be read in conjunction with our audited consolidated financial statements and the related notes for the year ended December 31, 2002. Our financial statements have been prepared in accordance with United States generally accepted accounting principles.

Results of Operations

Year ended December 31, 2002 compared to the Year ended December 31, 2001, factoring in discontinued operations.

Revenues. During the year ended December 31, 2002, we had revenues of \$2,274,136 as compared to revenues of \$2,258,749 during the year ended December 31, 2001.

Sales of Goods. Sales of goods accounted for \$1,084,756 or 49.4% of revenue as compared to \$720,637 or 31.9% of revenue for the 2001 fiscal year. This increase in the sales of goods resulted from purchase controls on sellable

merchandise. We anticipate that revenues from the sales of goods will increase as a percentage of overall revenues, as we plan to increase revenue from our liquidation store and conduct a greater number of auctions using inventory we purchase, which generally result in higher gross profit margins.

Operating Expenses. Operating expenses totalled \$3,003,917 for the year ended December 31, 2002 as compared to \$2,246,134 for the year ended December 31, 2001. Our operating expenses were higher than the previous year as a result of significant increases in accounting and legal fees, consulting fees, interest related to the Deferred Consideration Note and the iCollector PLC acquisition, and the related website re-development. These costs are not likely to reappear and were largely incurred due to our discontinued operations.

Gross Profit. Cost of goods sold were \$563,127 for the year ended December 31, 2002 as compared to \$564,395 for the year ended December 31, 2001. Gross profit was \$1,711,009 or 75.2% of total revenue for the year ended December 31, 2002 as compared to \$1,694,354 or 75.0% of total revenue for the year ended December 31, 2001. We believe that gross profit as a percentage of revenue will increase in 2003, as we anticipate that our revenues will increase and we intend to conduct auctions of inventory buy outs and liquidations, which typically result in higher gross profit margins.

Net Loss. We had a net loss of \$1,316,637 or \$0.05 per share for the year ended December 31, 2002 as compared to \$11,434,029 or \$0.52 per share for the year ended December 31, 2001. The net loss is attributable to costs associated with our growth, start-up costs and the costs of developing our business and technologies and the loss sustained from the write-off of iCollector PLC.

Liquidity and Capital Resources

Since 1999, the Company has funded its activities principally from cash flow generated from operations and the private placement of its common stock. Recently, in light of market conditions, the Company has drawn on a line of credit made available to it from its President and CEO. Additionally, the Company has also participated in joint ventures to finance larger acquisitions of inventory. At this time the Company is not aware of any trends, nor is it subject to any demands, commitments, events or uncertainties that will result in or that are reasonably likely to result in our liquidity increasing or decreasing in any material way.

We had a deficiency of \$3,349,317 in working capital at December 31, 2001. In 2002, we reduced the deficiency to \$62,114. We had cash and cash equivalents of \$169,307, accounts receivables of \$387,184, inventory of \$107,710 and prepaid expenses of \$93,462 at December 31, 2002. We anticipate that trade accounts receivables and inventory may increase during the year 2003 if we are able to increase the number and frequency of our auctions and as we expand our business operations. Cash flow used for operating activities required \$1,184,518 during the year ended December 31, 2002. We anticipate that cash will remain constant for 2003 as we anticipate that all of our auction

houses will achieve profitability during 2003. Our cash resources may decrease if we complete additional acquisitions during 2003, or if we are unable to maintain positive cash flow from our business through 2003. We only intend to continue our acquisition program if additional financing is available.

Cash flow used for discontinued operations required \$174,963 during the year ended December 31, 2002.

Cash flow for investing activities during the year ended December 31, 2002, required \$1,678,717, relating primarily to the net cash component of acquiring additional computer hardware and the proceeds from the disposition of Surplus Office. Cash flow used for financing activities during the year ended December 31, 2002, was \$848,128 consisting of repayment of a promissory note (\$1,040,310) and share issuance costs of \$7,497 in relation to the acquisition of iCollector PLC.

Our operating and capital budget for the year ending December 31, 2003 is approximately \$1 million, to be used primarily for working capital and for expenses related to the expansion of our inventories, continuing to develop and upgrade our technologies and launching a marketing campaign in the United States and Canada. If we are unable to raise additional financings, then our operating and capital budget will be neutral and the only cash expended will be those raised from operations.

7A.

Quantitative and Qualitative Disclosures About Market Risks

We believe that we do not have any material exposure to interest or commodity risks. We are exposed to certain economic and political changes in international markets where we compete, such as inflation rates, recession, foreign ownership restrictions, domestic and foreign government spending, budgetary and trade policies and other external factors over which we have no control.

Our financial results are quantified in U.S. dollars but a majority of our obligations and expenditures with respect to our operations are incurred in Canadian dollars. Although we do not believe we currently have any materially significant market risks relating to our operations resulting from foreign exchange rates, if we enter into financing or other business arrangements denominated in currency other than the U.S. dollar or the Canadian dollar, variations in the exchange rate may give rise to foreign exchange gains or losses that may be significant.

We currently have no material long-term debt obligations other than a promissory note to our President and CEO for \$199,679, with annual interest at 10%, repayable on demand, and secured with the assets of the Company and its

subsidiaries.

We also have a promissory note payable to Strategem Capital for Internet development services, for approximately \$117,300, with annual interest at 8%, repayable on demand, and unsecured.

Until July 2002, we had a promissory note payable with interest at 9% per annum, repayable at \$8,569 per month including principal and interest, due July 24, 2028. This was paid out at the time we sold our property in Arizona. The promissory note was secured by a mortgage on our Scottsdale, Arizona property.

In August 12, 2002, the Company entered into a joint venture with three of its Directors, Abdul Ladha, Randy Ehli and Michael Boyling to acquire approximately \$345,000 of fine crystal and china from a bankruptcy estate. In forming the joint venture, the Company, Abdul Ladha and Randy Ehli paid identical capital contributions and each is to receive 27% of the venture's net profits. Michael Boyling is entitled to receive 19% of the venture's net profits. Net profits are defined as gross revenue less costs associated with liquidation (marketing, advertising, commission, auction fees, mall rent) less a 15% overhead fee for Ableauctions for handling the inventory.

We do not use financial instruments for trading purposes and we are not a party to any leverage derivatives. In the event we experience substantial growth in the future, our business and results of operations may be materially affected by changes in interest rates and certain other credit risk associated with its operations.

Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

On February 12, 2002, Shikaze Ralston Tam Kurozumi, Chartered Accountants resigned and on February 12, 2002, Morgan & Company, Chartered Accountants, was appointed as the Company's independent certified public accountant.

Shikaze Ralston Tam Kurozumi, Chartered Accountants have not been associated with any of our financial statements subsequent to the year ended December 31, 2001. The change in independent auditors was effective for the fiscal year ended December 31, 2001, was approved by our Board of Directors, and was not due to any disagreement between the Company and Shikaze Ralston Tam Kurozumi, Chartered Accountants on any matter of accounting principles or practices, financial statement disclosures, or auditing scope or procedure.

We have not been advised by Morgan & Company, Chartered Accountants, of any of the following:

(a)

lack of internal controls necessary for us to develop reliable financial statements;

(b)

any information that has come to the attention of our auditors that has led them to no longer being able to rely on management's representations or that has made them willing to be associated with the financial statements prepared by management;

(c)

any need to expand significantly the scope of our auditors' audit or information that has come to our auditors' attention during the two financial years prior to and preceding the change in our independent auditors that, if further investigated, would:

(i)

materially impact the fairness or reliability of the previously issued audit report or the financial statements issued or covering that period; or

(ii)

cause our auditors to become unwilling to rely on management's representations or that has made them unwilling to be associated with our financial statements, or due to the replacement of Davidson and Company, or any other reason,

our auditors did not so expand the scope of the audit or conduct such further investigation; and

(d)

any information that has come to the attention of our auditors that has led them to conclude that such information materially impacts the fairness or reliability of the audit reports or the financial statements issued covering the two financial years prior to and preceding the change in our independent auditors (including information that, unless resolved, to the satisfaction of such auditors, would prevent it from rendering an unqualified audit report on those financial statements) and due to the replacement of Shikaze Ralston Tam Kurozumi, Chartered Accountants or any other reason, any issue has not been resolved to such auditors' satisfaction prior to Shikaze Ralston Tam Kurozumi, Chartered Accountants replacement.

While we believe that members of our audit committee each have some of the attributes of an audit committee financial expert, no single individual possesses all of the attributes therefore, no one on our Board of Directors can be deemed to be an audit committee financial expert. In forming our Board of Directors approximately five years ago,

we sought out individuals who would be able to guide our operations based on their business experience, both past and present, or their education. Our business model is not complex and our accounting issues are straightforward. Responsibility for our operations is centralized within our executive management, which is comprised of seven people. We rely on the assistance of others, such as our auditors or accountants, to assist us with the preparation of our financial information. We recognize that having a person who possesses all of the attributes of an audit committee financial expert would be a valuable addition to our Board of Directors, however, the Company is not, at this time, able to compensate such a person therefore, we may find it difficult to attract such a candidate.

The Company does not have a plan to compensate its directors. During the fiscal year ended December 31, 2002, Barrett Sleeman, Michael Boyling and David Vogt each received options to purchase 207,200 shares of the Company's common stock at a price of \$0.15 per share, Randy Ehli received an option to purchase 300,000 shares of the Company's common stock at a price of \$0.15 and Abdul Ladha received an option to purchase 500,000 shares of the Company's common stock. Certain Relationships and Related Transactions

During the year ended December 31, 2002, the following related party transactions occurred:

The Company obtains services from RapidFusion Technologies Incorporated, a company formerly controlled by our President and CEO in his capacity as the President and CEO of Dexton Technologies, to maintain, develop and support our technology and iCollector operations. In the fiscal year ended December 31, 2002, the Company paid RapidFusion Technologies Incorporated the sum of \$233,445 for services. RapidFusion Technologies Incorporated is currently indebted to our President and CEO in the amount of \$81,000 for a loan granted in 2001 in connection with the transfer of the business.

We lease 8,000 square feet of showroom and office space at 1963 Lougheed Highway, Coquitlam, British Columbia, Canada. The monthly payments are \$3,300. The landlord is Derango Resources Inc., a private company wholly-owned by Hanifa Ladha, who is the wife of our President, Abdul Ladha. The rent is below market. During part of the fiscal year ended December 31, 2002, we occupied a larger portion of the space that we have since sub-leased. In total, the Company paid \$ 78,461 in rent, to Derango Resources Inc. during the fiscal year ended December 31, 2002.

As of December 31, 2002, we had a working capital deficit of approximately \$62,114. On October 11, 2002, we assigned a \$285,000 receivable to Abdul Ladha, our President and CEO, who in turn, reassigned it and secured a loan against it from the Canadian Imperial Bank of Commerce in order to reduce debt and inject capital into the Company immediately.

We were also able to borrow funds, up to \$1 million, from a line of credit made available to us by our President and CEO and secured by the assets of the Company and its subsidiaries. As of December 31, 2002, the amount of the loan was \$199,679.

In August 12, 2002, the Company entered into a joint venture with three of its Directors, Abdul Ladha, Randy Ehli and Michael Boyling to acquire approximately \$345,000 of fine crystal and china from a bankruptcy estate. In forming the joint venture, the Company, Abdul Ladha and Randy Ehli paid identical capital contributions and each is to receive 27% of the venture's net profits. Michael Boyling is entitled to receive 19% of the venture's net profits. Net profits are defined as gross revenue less costs associated with liquidation (marketing, advertising, commission, auction fees, mall rent) less a 15% overhead fee for Ableauctions for handling the inventory.

Item 13.

Controls and Procedures

Based on that evaluation, our management, including the Chief Executive Officer and Chief Financial Officer, concluded that our disclosure controls and procedures were effective as of that date. There have been no significant changes in our internal controls or in other factors that could significantly affect internal controls subsequent to that date.

The Company does not have a Code of Ethics. The Board of Directors intends to discuss the preparation and adoption of a Code of Ethics at its next meeting.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors and the Stockholders of

Ableauctions.com, Inc.

We have audited the accompanying consolidated balance sheets of Ableauctions.com, Inc. as at December 31, 2002 and 2001, and the consolidated statements of operations, comprehensive loss, stockholders' equity, and cash flows for the years then ended. These consolidated financial statements are the responsibility of the Company's management.

Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform an audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as at December 31, 2002 and 2001, and the results of its operations and cash flows for the years ended December 31, 2002 and 2001, in conformity with accounting principles generally accepted in the United States.

These consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 2 to the consolidated financial statements, unless the Company attains future profitable operations and/or obtains additional financing, there is substantial doubt about the Company's ability to continue as a going concern. Management's plans in regards to these matters are discussed in Note 2. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

DECEMBER 31, 2002

1.

HISTORY AND ORGANIZATION OF THE COMPANY

Ableauctions.com, Inc. (the 'Company') was organized on September 30, 1996, under the laws of the State of Florida, as J.B. Financial Services, Inc. On July 19, 1999, an Article of Amendment was filed with the State of Florida for the change of the Company's name from J.B. Financial Services, Inc. to Ableauctions.com, Inc.

The Company's primary business activity is as a high-tech business-to-business and consumer auctioneer that conducts its auctions live and simultaneously broadcasts over the Internet. The Company liquidates a broad range of computers, electronics, office equipment, furniture and industrial equipment that it acquires through bankruptcies, insolvencies and defaults.

The Company's wholly-owned subsidiaries at December 31, 2002 were:

Able Auctions (1991) Ltd., operating a Canadian-based auction business.

Ableauctions.com (Washington) Inc., operating a U.S.-based auction business.

Ehli's Commercial/Industrial Auctions, Inc., a U.S.-based liquidator of automobiles and industrial equipment.

Jarvis Industries Ltd., a Canadian-based auction house.

ICollector.com Technologies Ltd., a Canadian-based Internet auction business.

2.

GOING CONCERN

The Company's financial statements are prepared using the generally accepted accounting principles applicable to a going concern, which contemplates the realization of assets and liquidation of liabilities in the normal course of business. However, the Company is in the process of expansion and its operating expenses exceed its revenues.

Without realization of additional capital or the attainment of profitable operations, it would be unlikely for the Company to continue as a going concern. It is management's plan to seek additional capital through equity financing.

3.

SIGNIFICANT ACCOUNTING POLICIES

a)

Principles of Consolidation

These consolidated financial statements include the accounts of Ableauctions.com, Inc. and its wholly owned subsidiaries, from the dates of acquisition.

b)

Foreign Currency Translation

The Company accounts for foreign currency transactions and translation of foreign currency financial statements under Statement of Financial Accounting Standards No. 52, "Foreign Currency Translation" ("SFAS 52"). Transaction amounts denominated in foreign currencies are translated at exchange rates prevailing at transaction dates. Carrying values of monetary assets and liabilities are adjusted at each balance sheet date to reflect the exchange rate at that date. Non-monetary assets and liabilities are translated at the exchange rate on the original transaction date. Gains and losses from restatement of foreign currency monetary and non-monetary assets and liabilities are included in income. Revenues and expenses are translated at the rates of exchange prevailing on the dates such items are recognized in earnings.

Financial statements of the Company's Canadian subsidiaries (see Note 1) are translated into U.S. dollars using the exchange rate at the balance sheet date for assets and liabilities. The Company's investments in the structural capital of the Canadian subsidiaries have been recorded at the historical cost in U.S. dollars. The resulting gains or losses are reported as a separate component of stockholders' equity. The functional currency of the Canadian subsidiaries, is the local currency, the Canadian dollar.

c)

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amount of revenues and expenses during the period. Actual results could differ from those estimates.

d)

Cash and Cash Equivalents

Cash and cash equivalents includes highly liquid investments with original maturities of three months or less.

e)

Financial Instruments

The carrying amounts of financial instruments including cash and cash equivalents, accounts receivable, note receivable, accounts payable and accrued liabilities, and amounts due to related party, approximated fair value at December 31, 2002.

f)

Inventory

Inventory is stated at the lower of cost and estimated net realizable value.

g)

Software Development

The Company has adopted Statement of Position 98-1 ("SOP 98-1"), "Accounting for the Costs of Computer Software Developed or Obtained for Internal Use", as its accounting policy for internally developed computer software costs. Under SOP 98-1, computer software costs incurred in the preliminary development stage are expensed as incurred. Computer software costs incurred during the application development stage are capitalized and amortized over the

software's estimated useful life.

h) Capital Assets, Depreciation and Amortization

Capital assets are recorded at cost. The cost of capital assets is depreciated using the declining balance method at the following annual rates:

Building	4%
Furniture, fixtures and equipment	20%
Computer equipment	30%
Computer software	30%
Vehicles	30%

Leasehold improvements are amortized using the straight-line method over the terms of the leases.

i)

Impairment of Long-Lived Assets

The Company periodically evaluates potential impairments of its long-lived assets, including intangibles. When the Company determines that the carrying value of long-lived assets may not be recoverable based upon the existence of one or more indicators of impairment, the Company evaluates the projected undiscounted cash flows related to the assets. If these cash flows are less than the carrying value of the assets, the Company measures the impairment using discounted cash flows or other methods of determining fair value.

Long-lived assets to be disposed of are carried at the lower of cost or fair value less estimated costs of disposal.

j)

Investment in Joint Venture

The Company accounts for its investment in joint venture on an equity basis.

k)

Revenue Recognition

The Company generally earns revenues from its auction activities either through consignment sales, or through sales of inventory purchased by the Company. For consignment sales, the Company earns auction fees charged to consignees, and buyer's premiums charged to purchasers, determined as a percentage of the sale price. For inventory sales, the Company earns a profit or incurs a loss on the sale, to the extent the purchase price exceeds or is less than the purchase price paid for such inventory.

For each type of auction revenue, an invoice is rendered to the purchaser, and revenue is recognized by the Company, at the date of the auction. The auction purchase creates a legal obligation upon the purchaser to take possession of, and pay for the merchandise. This obligation generally provides the Company with reasonable assurance of collection of the sale proceeds, from which the Company's earnings are derived, including the fees from consignees and purchasers, as well as resale profits.

l)

Acquisitions and Goodwill

All business acquisitions have been accounted for under the purchase method and, accordingly, the excess of the purchase price over the fair value of the net assets acquired has been recorded as goodwill in the consolidated balance sheet. The results of operations, changes in equity and cash flows of acquired companies are included in operations only for the period between the date of acquisition and the end of the financial year.

Goodwill arising from acquisitions of businesses is amortized on a straight-line basis over periods ranging from three to twenty years.

m)

Advertising Costs

The Company recognizes advertising expenses in accordance with Statement of Position 98-7, "Reporting on Advertising Costs". As such, the Company expenses the cost of communicating advertising in the period in which the advertising space or airtime is used.

n)

Loss Per Share

In February 1997, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 128, "Earnings Per Share" ("SFAS 128"). Under SFAS 128, basic and diluted earnings per share are to be presented. Basic earnings per share is computed by dividing income available to common shareholders by the weighted average number of common shares outstanding in the period. Diluted earnings per share takes into consideration common shares outstanding (computed under basic earnings per share) and potentially dilutive common shares.

o)

Income Taxes

Income taxes are provided in accordance with Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes". A deferred tax asset or liability is recorded for all temporary differences between financial and tax reporting and net operating loss carryforwards. Deferred tax expense (benefit) results from the net change during the year of deferred tax assets and liabilities.

Deferred tax assets are reduced by a valuation allowance when, based upon currently available information, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

p)

Segmented information

Statement of Financial Accounting Standards No. 131, "Disclosures About Segments of an Enterprise and Related Information", establishes standards for reporting information about the operating and geographic segments of the Company's business. Currently, the nature and extent of the Company's operations are such that it operates in only one reportable segment, as an auction house and liquidator. Information regarding the Company's geographic segments is set forth in Note 18.

q)

Stock Based Compensation

Statement of Financial Accounting Standards No. 123, "Accounting for Stock-Based Compensation," encourages, but does not require, companies to record compensation cost for stock-based employee compensation plans at fair value. The Company has chosen to account for stock-based compensation using Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees." Accordingly compensation cost for stock options is measured as the excess, if any, of the quoted market price of the Company's stock at the date of the grant over the amount an employee is required to pay for the stock.

STOCK BASED COMPENSATION

Statement of Financial Accounting Standards No. 123, "Accounting for Stock-Based Compensation", encourages but does not require companies to record compensation cost for stock-based employee compensation plans at fair value. The Company has chosen to account for stock-based compensation using Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees". Accordingly, compensation cost for stock options is measured as the excess, if any, of quoted market price of the Company's stock at the date of grant over the option price. During the 2002 year, compensation costs of \$106,338 (2001 - Nil) were incurred based on options granted. These costs will be recognized over a period of three years, which is the average vesting period of options.

RECENT ACCOUNTING PRONOUNCEMENTS

In August 2001, the Financial Accounting Standards Board (FASB) issued Statement No. 144 Accounting for the Impairment or Disposal of Long-Lived Assets , which supersedes FASB Statement No. 121 Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed of . The basis for the recognition and measurement model under SFAS 121 for assets held for use and held for sale has been retained. SFAS 144 removes goodwill from its scope, thus eliminating SFAS 121 's requirement to allocate goodwill to long-lived assets to be tested for impairment. The accounting for goodwill now is subject to the provisions of SFAS 141/142 on business combinations, goodwill and other intangible assets. SFAS 144 provides guidance on differentiating between assets

held and used, held for sale, and held for disposal other than by sale. SFAS 144 continues to require a three-step approach for recognizing and measuring the impairment of assets to be held and used. SFAS 144 is effective for financial statements issued for fiscal years beginning after December 15, 2001 and is to be applied prospectively. The Company does not expect the adoption of this statement will have a material impact on the Company's financial position, results of operations or liquidity.

(l)

observe and perform the additional covenants, if any, set out in any schedule attached to this Agreement.

7.2

The Debtor covenants that at all times while this Agreement remains in effect, without the prior written consent of the Secured Party, it shall not

8.1

The Debtor covenants that at all times while this Agreement is in effect the Debtor shall:

(a)

(c)

pay all premiums in connection with such insurance, and deliver all such policies to the Secured Party, if it so requires.

8.2

If proceeds of any insurance required under this Agreement become payable, the Secured Party may, in its absolute discretion, apply those proceeds to such part or parts of the Obligations as the Secured Party may see fit, or the Secured Party may release any such insurance proceeds to the Debtor for the purpose of repairing, replacing, or rebuilding, but any release of insurance proceeds to the Debtor shall not operate as a payment on account of the Obligations or in any way affect this Agreement.

8.3

The Debtor shall forthwith, on the happening of loss or damage to the Collateral, notify the Secured Party thereof and furnish to the Secured Party at the Debtor's expense any necessary proof and do any necessary act to enable the Secured Party to obtain payment of the insurance proceeds, but nothing contained in this Agreement shall limit the Secured Party's right to submit to the insurer a proof of loss on its own behalf.

8.4

The Debtor irrevocably authorizes and directs the insurer under any policy of insurance required under this Agreement to include the name of the Secured Party as a loss payee on any cheque or draft that may be issued with respect to a claim under and by virtue of such insurance, and the production by the Secured Party to any insurer of a certified copy of this Agreement shall be its full and complete authority for so doing.

8.5

If the Debtor fails to maintain insurance as required by this Agreement, the Secured Party may, but shall not be obliged to, maintain or effect such insurance coverage, or so much thereof as the Secured Party considers necessary for its protection.

9.

Use and Verification of Collateral

Subject to compliance with the Debtor's covenants contained in this Agreement and compliance with paragraph 11 of this Agreement, the Debtor may, until default, possess, operate, collect, use and enjoy, and deal with the Collateral in the ordinary course of the Debtor's business in any manner not inconsistent with the provisions of this Agreement; provided always that the Secured Party shall have the right at any time and from time to time to verify the existence and state of the Collateral in any manner the Secured Party may consider appropriate. The Debtor agrees to furnish all assistance and information and to perform all such acts as the Secured Party may reasonably request in connection therewith, and for such purpose to grant to the Secured Party or its agents access to all places where the Collateral may be located and to all premises occupied by the Debtor.

10.

Securities

If Collateral at any time includes Securities, the Debtor authorizes the Secured Party to transfer the same or any part of them into its own name or that of its nominee(s) so that the Secured Party or its nominee(s) may appear on record as the sole owner of them; provided that, until default, the Secured Party shall deliver promptly to the Debtor all notices or other communications received by it or its nominee(s) as such registered owner and, upon demand and receipt of payment of any necessary expenses thereof, shall issue to the Debtor or its order a proxy to vote and take all action with respect to such Securities. After default, the Debtor waives all rights to receive any notices or communications received by the Secured Party or its nominee(s) as such registered owner and agrees that no proxy issued by the Secured Party to the Debtor or its order as aforesaid shall thereafter be effective.

11.

Collection of Debts

Before or after default under this Agreement, without notice to the Debtor, the Secured Party may notify all or any account debtors of the Debtor of the Security Interest and may also direct such account debtors to make all payments on Collateral to the Secured Party. The Debtor acknowledges that any payments on or other proceeds of Collateral

received by the Debtor from account debtors, whether before or after notification of this Security Interest to account debtors, and whether before or after default under this Agreement, shall be received and held by the Debtor in trust for the Secured Party and shall be turned over to the Secured Party upon request. This includes interest on deferred payment contracts, and the payments themselves, and lease payments, if any.

12.

Income from and Interest on Collateral

12.1

Until default, the Debtor reserves the right to receive any money constituting income from or interest on Collateral and if the Secured Party receives any such money before default, the Secured Party shall either credit that money against the Obligations or pay it promptly to the Debtor.

12.2

After default, the Debtor shall not request or receive any money constituting income from or interest on Collateral and if the Debtor receives any such money in any event, the Debtor shall hold that money in trust for the Secured Party and shall pay it promptly to the Secured Party.

13.

Increases, Profits, Payments, or Distributions

13.1

Whether or not default has occurred, the Debtor authorizes the Secured Party

(a)

to receive any increase in or profits on the Collateral (other than money) and to hold the same as part of the Collateral. Money so received shall be treated as income for the purposes of paragraph 12 of this Agreement and dealt with accordingly, and

(b)

to receive any payment or distribution upon redemption or retirement or upon dissolution and liquidation of the issuer of Collateral; to surrender such Collateral in exchange therefor; and to hold any such payment or distribution as part of

Collateral.

13.2

If the Debtor receives any such increase or profits (other than money) or payments or distributions, the Debtor shall deliver the same promptly to the Secured Party to be held by the Secured Party as provided in this Agreement.

14.

Disposition of Monies

Subject to any applicable requirements of the Act, all monies collected or received by the Secured Party under or in exercise of any right it possesses with respect to Collateral shall be applied on account of the Obligations in such manner as the Secured Party deems best or, at the option of the Secured Party, may be held unappropriated in a collateral account or released to the Debtor, all without prejudice to the liability of the Debtor or the rights of the Secured Party under this Agreement, and any surplus shall be accounted for as required by law.

15.

Performance of Obligations

If the Debtor fails to perform any of its obligations under this Agreement, the Secured Party may, but shall not be obliged to, perform any or all of those obligations without prejudice to any other rights and remedies of the Secured Party under this Agreement, and any payments made and any costs, charges, expenses, and legal fees and disbursements (on a solicitor and own client basis) incurred in connection therewith shall be payable by the Debtor to the Secured Party forthwith with interest until paid at the highest rate borne by any of the Obligations and such amounts shall be secured by this Agreement and rank prior to all claims subsequent to this Agreement.

16.

Default

16.1

Unless waived by the Secured Party, it shall be an event of default (default) under this Agreement and the security constituted by this Agreement shall immediately become enforceable if:

(a)

any term, covenant, or representation of this Agreement is breached or if default occurs under the Purchase Agreement, if any; or

(b)

any amount owed to the Secured Party is not paid when due; or

(c)

the Debtor defaults or threatens to default in payment when due or performance of any of the Obligations; or

(d)

the Debtor or any guarantor of the Debtor declares itself to be insolvent, makes an assignment for the benefit of its creditors, is declared bankrupt, declares bankruptcy, makes a proposal, or otherwise takes advantage of provisions under the *Bankruptcy and Insolvency Act*, the *Companies Creditors' Arrangement Act*, or similar legislation in any jurisdiction, or fails to pay its debts generally as they become due; or

(e)

a receiver or receiver-manager is appointed; or

(f)

the Debtor ceases to carry on all or a substantial part of its business; or

(g)

distress, execution, or seizure of any of the Collateral occurs; or

(h)

if the Debtor is a corporation, there is a change of voting control without the Secured Party's consent; or

(i)

the Debtor changes its name or amalgamates or merges without the Secured Party's consent; or

(j)

the Debtor allows any hazardous materials to be brought upon any lands or premises occupied by the Debtor; or

(k)

the Secured Party in good faith believes and has commercially reasonable grounds to believe that the prospect of payment or performance of the Obligations is impaired or that any of the Collateral is or is about to be placed in jeopardy.

16.2

In accordance with the British Columbia *Property Law Act*, the doctrine of consolidation applies to this Agreement.

16.3

It shall be an event of default under this Agreement and the security constituted by this Agreement shall immediately become enforceable if any term, covenant, or representation in any other agreement, contract, or other commitment of the Debtor to the Secured Party is breached or if default should occur under the same.

17.

Acceleration

The Secured Party, in its sole discretion, may declare all or any part of the Obligations that are not by their terms payable on demand to be immediately due and payable in the event of any default, or, in the absence of default, if the Secured Party considers or deems itself insecure or that the Collateral is in jeopardy. The provisions of this paragraph do not and are not intended to affect in any way any rights of the Secured Party with respect to any Obligations that may now or in future be payable on demand.

18.

Enforcement

18.1

Upon any default under this Agreement, the security constituted by this Agreement shall immediately become enforceable, and any floating charge will immediately attach the Real Property and Collateral. To enforce and realize on the security constituted by this Agreement, the Secured Party may take any action permitted by law or in equity, as it may deem expedient, and in particular, but without limiting the generality of the foregoing, the Secured Party may do any of the following:

(a)

appoint by instrument a receiver, receiver and manager, or receiver-manager (the person so appointed is called the Receiver) of the Collateral, with or without bond as the Secured Party may determine, and from time to time in its absolute discretion remove such Receiver and appoint another in its stead;

(b)

enter upon any premises of the Debtor and take possession of the Collateral with power to exclude the Debtor, its agents, and its servants from those premises, without becoming liable as a mortgagee in possession;

(c)

preserve, protect, and maintain the Collateral and make such replacements and repairs and additions as the Secured Party may deem advisable;

(d)

sell, lease, or otherwise dispose of all or any part of the Collateral, whether by public or private sale or lease or otherwise, in such manner, at such price as can be reasonably obtained, and on such terms as to credit and with such conditions of sale and stipulations as to title or conveyance or evidence of title or otherwise as to the Secured Party may seem reasonable, provided that if any sale, lease, or other disposition is on credit, the Debtor shall not be entitled to be credited with the proceeds of any such sale, lease, or other disposition until the monies therefor are actually received; and

(e)

exercise all of the rights and remedies of a secured party under the Act.

18.2

A Receiver appointed under this Agreement shall be the agent of the Debtor and not of the Secured Party, and the Secured Party shall not be in any way responsible for any misconduct, negligence or nonfeasance on the part of any Receiver, its servants, agents, or employees. A Receiver shall, to the extent permitted by law or to such lesser extent permitted by its appointment, have all the powers of the Secured Party under this Agreement, and in addition shall have power to carry on the business of the Debtor and for such purpose to enter upon, use, and occupy all premises owned or occupied by the Debtor in which Collateral may be situate, maintain Collateral upon such premises, use, Collateral directly or indirectly in carrying on the Debtor's business, and from time to time borrow money either unsecured or secured by a security interest in any of the Collateral.

18.3

Subject to the claims, if any, of the creditors of the Debtor ranking in priority to this Agreement, all amounts realized from the disposition of Collateral under this Agreement shall be applied as the Secured Party, in its absolute discretion, may direct or as follows:

(a)

in payment of all costs, charges, and expenses (including legal fees and disbursements on a solicitor and own client basis) incurred by the Secured Party in connection with or incidental to

(i)

the exercise by the Secured Party of all or any of the powers granted to it under this Agreement; and

(ii)

the appointment of the Receiver and the exercise by the Receiver of all or any of the powers granted to it under this Agreement, including the Receiver's reasonable remuneration and all outgoings properly payable by the Receiver excluding the Receiver's borrowings;

(b)

in payment of any sum or sums borrowed by the Receiver from the Secured Party and interest thereon if such sum or sums are secured by the Collateral;

(c)

in or toward payment to the Secured Party of all principal and other monies (except interest) due in respect of the Obligations;

(d)

in or toward payment to the Secured Party of all interest remaining unpaid in respect of the Obligations;

(e)

in or toward payment of any sum or sums borrowed by the Receiver from any financial institution, corporation, or person other than the Secured Party, and interest thereon if such sum or sums are secured by the Collateral.

Subject to applicable law and the claims, if any, of other creditors of the Debtor, any surplus shall be paid to the Debtor.

18.4

The Debtor agrees that the Secured Party may exercise its rights and remedies under this Agreement immediately upon default, except as may be otherwise provided in the Act, and the Debtor expressly confirms that, except as may be otherwise provided in this Agreement or in the Act, the Secured Party has not given any covenant, express or implied, and is under no obligation to allow the Debtor any period of time to remedy any default before the Secured Party exercises its rights and remedies under this Agreement.

19.

Deficiency

If the amounts realized from the disposition of the Collateral are not sufficient to pay the Obligations in full, the Debtor shall pay to the Secured Party the amount of such deficiency immediately upon demand for the same.

20.

Rights Cumulative

All rights and remedies of the Secured Party set out in this Agreement are cumulative, and no right or remedy contained in this Agreement is intended to be exclusive but each shall be in addition to every other right or remedy contained in this Agreement or in any existing or future security agreement or now or in future existing at law, in equity or by statute, or under any other agreement between the Debtor and the Secured Party that may be in effect from time to time.

21.

Liability of Secured Party

The Secured Party shall not be responsible or liable for any debts contracted by it, for damages to persons or property or for salaries or non-fulfilment of contracts during any period when the Secured Party shall manage the Collateral upon entry, as provided in this Agreement, nor shall the Secured Party be liable to account as mortgagee in possession or for anything except actual receipts or be liable for any loss on realization or for any default or omission for which a mortgagee in possession may be liable. The Secured Party shall not be bound to do, observe, or perform or to see to the observance or performance by the Debtor of any obligations or covenants imposed upon the Debtor, nor shall the Secured Party, in the case of Securities, Instruments, or Chattel Paper, be obliged to preserve rights against other persons, nor shall the Secured Party be obliged to keep any of the Collateral identifiable. The Debtor waives any applicable provision of law permitted to be waived by it which imposes higher or greater obligations upon the Secured Party than as contained in this paragraph.

22.

Appointment of Attorney and Deed

22.1

The Debtor irrevocably appoints the Secured Party or the Receiver, as the case may be, with full power of substitution, to be the attorney of the Debtor for and in the name of the Debtor to sign, endorse, or execute under seal or otherwise any deeds, documents, transfers, cheques, instruments, demands, assignments, assurances, or consents that the Debtor is obliged to sign, endorse, or execute, and generally to use the name of the Debtor and to do all things as may be necessary or incidental to the exercise of all or any of the powers conferred on the Secured Party or the Receiver, as the case may be, under this Agreement.

22.2

Whether or not the Debtor attaches its corporate seal, if a corporation, this Agreement is intended to be and is deemed to be a deed given under seal.

23.

Accounts

Notwithstanding any other provision of this Agreement, the Secured Party may collect, realize, sell, or otherwise deal with the Accounts or any part of them in such manner, upon such terms and conditions, and at such time or times, whether before or after default, as may seem to it advisable, and without notice to the Debtor, except in the case of disposition after default and then subject to the provisions of Part 5 of the Act. All monies or other forms of payment received by the Debtor in payment of any Account shall be received and held by the Debtor in trust for the Secured Party.

24.

Appropriation of Payments

Any and all payments made in respect of the Obligations from time to time and monies realized from any security interests held therefor (including monies collected in accordance with or realized on any enforcement of this Agreement) may be applied to such part or parts of the Obligations as the Secured Party may see fit, and the Secured Party may at all times and from time to time change any appropriation as the Secured Party may see fit.

25.

Liability to Advance

None of the preparation, execution, perfection, and registration of this Agreement or notice of this Agreement or the advance of any monies shall bind the Secured Party to make any advance or loan or further advance or loan, or renew any note or extend any time for payment of any indebtedness or liability of the Debtor to the Secured Party.

26.

Waiver

The Secured Party may from time to time and at any time waive in whole or in part any right, benefit, or default under any paragraph of this Agreement but any such waiver of any right, benefit, or default on any occasion shall be deemed not to be a waiver of any such right, benefit, or default thereafter, or of any other right, benefit or default, as the case may be, and no delay or omission by the Secured Party in exercising any right or remedy under this Agreement or with respect to any default shall operate as a waiver thereof or of any other right or remedy.

27.

Notice

Any notice, demand, or other communication required or permitted to be given under this Agreement shall be effectually made or given if delivered by prepaid private courier or by facsimile transmission to the addresses set out on page one of this Agreement or to such other address or facsimile number as either party may designate in the manner set out above. Any notice, demand, or other communication shall be deemed to have been given and received on the day of prepaid private courier delivery or facsimile transmission.

28.

Extensions

The Secured Party may grant extensions of time and other indulgences, take and give up security, accept compositions, compound, compromise, settle, grant releases and discharges, refrain from perfecting or maintaining perfection of the Security Interest, and otherwise deal with the Debtor, account debtors of the Debtor, sureties, and others and with the Collateral, the Security Interest, and other security interests as the Secured Party sees fit without prejudice to the liability of the Debtor or the Secured Party's right to hold and realize on the security constituted by this Agreement.

29.

No Merger

This Agreement shall not operate to create any merger or discharge of any of the Obligations, or of any assignment, transfer, guarantee, lien, mortgage, contract, promissory note, bill of exchange, or security interest of any form held or which may in future be held by the Secured Party from the Debtor or from any other person. The taking of a judgment with respect to any of the Obligations shall not operate as a merger of any of the covenants contained in this Agreement.

30.

Assignment

The Secured Party may, without further notice to the Debtor, at any time assign, transfer, or grant a security interest in this Agreement and the Security Interest. The Debtor expressly agrees that the assignee, transferee, or secured party, as the case may be, shall have all of the Secured Party's rights and remedies under this Agreement, and the Debtor shall not assert any defence, counterclaim, right of setoff, or otherwise with respect to any claim that the Debtor now has or in future acquires against the Secured Party in any action commenced by such assignee, transferee, or secured party, as the case may be, and shall pay the Obligations to the assignee, transferee, or secured party, as the case may be, as the Obligations become due.

31.

Satisfaction and Discharge

Any partial payment or satisfaction of the Obligations, or any ceasing by the Debtor to be indebted to the Secured Party, shall be deemed not to be a redemption or discharge of this Agreement. The Debtor shall be entitled to a release and discharge of this Agreement upon full payment and satisfaction of all Obligations and upon written request by the Debtor and payment to the Secured Party of all costs, charges, expenses, and legal fees and disbursements (on a solicitor and own client basis) incurred by the Secured Party in connection with the Obligations and such release and discharge.

32.

Enurement

Exhibit 10.31

GUARANTEE

THIS GUARANTEE is dated as of the 30th day of September, 2002

BY:

ABLE AUCTIONS (1991) LTD. a company incorporated under the laws of the Province of British Columbia and having its head office located at 1963 Lougheed Highway, Coquitlam, British Columbia

(the Guarantor)

OF THE FIRST PART

IN FAVOUR OF:

ABDUL-AZIZ AKBERALI KASSAMALI VALLI LADHA

of 7797 Jensen Place, Burnaby, B.C. V5A 2A7

(the Lender);

OF THE SECOND PART

WHEREAS:

A.

ABLEAUCTIONS.COM, INC. a corporation incorporated under the laws of the State of Florida, USA and having a Canadian office at 1963 Lougheed Highway, Coquitlam, British Columbia (the Borrower), is or may in the future become indebted to the Lender;

B.

The Guarantor is a subsidiary of the Borrower and is willing to sign and deliver this Guarantee to the Lender as a guarantee for the payment and performance of any and all indebtedness, obligations, and liabilities of any kind whatsoever (whether present or future, direct or indirect, absolute or contingent, matured or unmatured) to the Lender which the Borrower has incurred or may incur or be under in connection with or arising under loan agreements between the Lender and Borrower and promissory notes made by the Borrower in favour of the Lender, and any and all costs of administration and enforcement of this Agreement, the loan agreements and the promissory notes (or any of them) (Administration Costs);

NOW THEREFORE in consideration of the Lender advancing monies to the Borrower at the request of the Guarantor and dealing or continuing to deal with the Borrower, either continuously or intermittently or otherwise and on such terms and conditions and for so long as the Lender may see fit and of such grants by the lender of credit to the Borrower as have been or may be made and of other good and valuable consideration (the receipt and sufficiency of which is hereby acknowledged by the Guarantor), the Guarantor hereby covenants and agrees with the Lender as follows:

1.

Guarantee. The Guarantor unconditionally and irrevocably guarantees, as a continuing obligation, payment to the Lender forthwith after demand of any and all indebtedness, obligations, and liabilities whatsoever (whether present or future, direct or indirect, absolute or contingent, matured or unmatured) owing by the Borrower to the Lender which the Borrower has incurred or may incur or be under in connection with or arising under loan agreements, promissory notes or the Administration Costs (collectively, the Obligations). The Guarantor will pay all amounts hereunder to the Lender at its address as aforesaid or as otherwise directed by the Lender. For greater certainty, this will be a continuing guarantee and will cover all of the Obligations now or hereafter existing and will apply to and secure any ultimate balance due or remaining unpaid to the Lender.

2.

Dealings With Borrower. The Lender may make advances, grant accommodations, make payments, grant extensions of time, renewals, or indulgences, take and give up securities including other guarantees, abstain from taking securities or from perfecting securities, cease or refrain from giving credit or making loans or advances, accept compositions, grant releases and discharges, and otherwise deal with the Borrower and with other parties and securities as the Lender, in its absolute discretion, sees fit, and may apply all monies received from the Borrower or others or from security on that part of the Obligations as the Lender, in its absolute discretion, thinks best, without the consent of or notice to the Guarantor and without prejudice to or in any way limiting or lessening the Guarantor's liability hereunder. Without limiting the generality of the foregoing, the Guarantor authorizes and empowers the Lender, in its absolute discretion, without any notice to the Guarantor or any other person, to exercise any right or remedy which the Lender may have against the Borrower or regarding any security, whether real, personal, or intangible, for the Obligations, including judicial and non-judicial foreclosure, without affecting in any way the liability of the Guarantor hereunder, and the Guarantor will be liable to the Lender for any deficiency resulting from the Lender's exercise of any such right or remedy, even though any rights or remedies which the Guarantor may have against the Borrower or any other person may have been altered or diminished by the exercise of any such right.

3.

Recourse Against Borrower. The Lender will not be bound to exercise all or any of its rights and remedies or to exhaust its recourse against the Borrower or others or any security before being entitled to payment from the Guarantor under this Guarantee.

4.

Loss of Securities. Any loss of or neglect or omission with respect to any security held by the Lender, whether occasioned through the fault of the Lender or otherwise, will not discharge in whole or in part or limit or lessen the liability of the Guarantor hereunder.

5.

Settlement of Accounts. The Guarantor will accept any account settled or stated between the Lender and the Borrower or admitted by or on behalf of the Borrower as conclusive evidence that the amount thereby appearing due by the Borrower to the Lender is so due.

6.

Change in Composition of Borrower. Neither a change in the name, objects, capital structure or constitution, membership, ownership, or control of the Borrower nor any other circumstance including, without limitation, the amalgamation of the Borrower with another corporation, any defect in, omission from, failure to file, or register or defective filings or registrations of any instrument under which the Lender has taken any security or collateral for

payment of any of the Obligations or the performance or observance of any obligation of the Guarantor to the Lender or any circumstance affecting the Borrower or the Guarantor, which might otherwise afford a legal or equitable defence to the Guarantor or a discharge of this Guarantee, will affect or in any way limit or lessen the liability of the Guarantor hereunder.

7.

Waiver. No delay on the Lender's part in exercising any of its options, powers, or rights, or partial or single exercise thereof, will constitute a waiver thereof. No waiver of any of the Lender's rights hereunder and no modification or amendment of this Guarantee will be deemed to be made by the Lender unless it is in writing, duly signed on behalf of the Lender, and each waiver, if any, will apply only with respect to the specific instance involved and will in no way impair the rights of the Lender or the Obligations of the Guarantor to the Lender in any other way at any other time.

8.

Guarantee of All Monies Borrowed. All monies, advances, renewals, and credits in fact borrowed or obtained by the Borrower from the Lender under or in connection with loan agreements or promissory notes will be deemed to form part of the Obligations despite any incapacity, disability, or lack of limitation of status or power of the Borrower or of its directors, officers, employees, partners, or agents, or that the Borrower may not be a legal or suable entity, or any irregularity defect or informality in the borrowing or obtaining of such monies, advances, renewals, or credits, whether known to the Lender or not. The Lender will not be obliged to enquire into the powers of the Borrower or its directors, partners, or agents acting or purporting to act on its behalf, and monies, advances, renewals, or credits in fact borrowed or obtained from the Lender in the professed exercise of any power of the Borrower or its directors, partners, or agents will be deemed to form part of the Obligations hereby guaranteed even though the incurring of those monies, advances, renewals, or credits was irregular, fraudulent, defective, or informally effected or exceeded the powers of the Borrower or its directors, partners, or agents. Any part of the Obligations which the Lender may not recover from the Guarantor on the basis of a guarantee will be recoverable by the Lender from the Guarantor as principal debtor in respect thereof and will be paid to the Lender forthwith after demand therefor as herein provided.

9.

Assignment by Lender. The Lender may from time to time and without notice to (or the consent of) the Guarantor assign or transfer all or any of the Obligations or any interest therein to any person and, despite any assignment or transfer or any subsequent assignment or transfer thereof, any Obligations or part thereof so transferred or assigned will be and will remain an Obligation for the purpose of this Guarantee and any immediate and successive assignee or transferee of any Obligation or any interest therein will, to the extent of the interest so assigned or transferred, be entitled to the benefit of and the right to enforce this Guarantee to the same extent as if that person were the Lender. In the event of any such assignment or transfer, the Lender will retain the right to enforce this Guarantee for its own benefit as to any Obligations which have not been assigned or transferred.

10.

Revival of Indebtedness. The Guarantor agrees that, if at any time all or any part of any payment previously applied by the Lender to any Obligation is or must be rescinded or returned by the Lender for any reason whatsoever (including, without limitation, the insolvency, bankruptcy, or reorganization of the Borrower), that Obligation will, for the purpose of this Guarantee, to the extent that the payment is or must be rescinded or returned, be deemed to have continued in existence, despite the application by the Lender, and this Guarantee will continue to be effective or be reinstated, as the case may be, as to that Obligation, all as though the Lender had not made the application.

11.

Postponement. If the Lender receives from the Guarantor a payment or payments in full or on account of the liability of the Guarantor hereunder, then the Guarantor will not be entitled to claim repayment against the Borrower or the Borrower's estate until the Lender's claims against the Borrower have been paid in full. In case of the Borrower's liquidation, winding-up, or bankruptcy (whether voluntary or involuntary) or if the Borrower makes a bulk sale of any of its assets within the bulk transfer provisions of any applicable legislation or any composition with creditors or scheme of arrangement, the Lender will have the right to rank for its full claim and receive all dividends or other payments in respect thereof in priority to the Guarantor until the Lender's claim has been paid in full, and the Guarantor will continue to be liable hereunder up to the amount guaranteed, less any payments made by the Guarantor, for any balance which the Borrower may owe to the Lender. In the event of the valuation by the Lender of any of its security or the retention thereof by the Lender, the valuation or retention will not, as between the Lender and the Guarantor, be considered as a purchase of such security or as payment or satisfaction or reduction of the Obligations or any part thereof. Any and all rights the Guarantor may have as surety, whether at law, in equity, or otherwise, that are inconsistent with any of the provisions contained in this Guarantee are waived. The foregoing provisions of this paragraph will not in any way limit or lessen the liability of the Guarantor under any other paragraph of this Guarantee.

12.

Legal Expenses. The Guarantor will from time to time, on demand by the Lender, forthwith pay to the Lender all expenses (including legal fees) incurred by the Lender in the creation, preservation, or enforcement of any of its rights hereunder.

13.

Additional Security. This Guarantee is in addition to and not in substitution for and without prejudice to any security of any kind (including, without limitation, other guarantees) now or hereafter held by the Lender and any other rights or remedies that the Lender might have.

14.

Taxes and Set-Off. All payments to be made by the Guarantor hereunder will be made without set-off or counterclaim and without deduction for any taxes, levies, duties, fees, deductions, withholdings, restrictions, or conditions of any nature whatsoever. If, at any time, any applicable law, regulation, or international agreement requires the Guarantor to make any deduction or withholding from any payment, the sum due from the Guarantor in

respect of that payment will be increased to the extent necessary to ensure that, after the making of the deduction or withholding, the Lender receives a net sum equal to the sum which he would have received had no deduction or withholding been required.

15.

Interest. The Guarantor will pay to the Lender, in respect to any amount payable hereunder (including interest) that is not paid when due, interest from the due date thereof until paid, and after demand, default, and judgment, at a rate of interest per annum equal to 1.25% per month, such interest to be paid monthly on the last day of each calendar month and calculated monthly, not in advance.

16.

Demand for Payment. A demand for payment will be deemed to have been given where a notice in writing containing the demand is sent by registered and receipted mail or prepaid courier to the Guarantor at the address of the Borrower as aforesaid or at any other single address that the Guarantor may subsequently specify by written notice received by the Lender. Any notice will be deemed to have been received three business days after mailing.

17.

Responsibility to Keep Informed. So long as any of the Obligations remain unpaid or outstanding, the Guarantor assumes all responsibility for being and keeping themselves informed of the Borrower's financial condition and of all circumstances bearing on the nature, scope, and extent of the risk which the Guarantor assumes and incurs under this Guarantee.

18.

No Escrow. This Guarantee will be operative and binding on every signatory hereof despite the non-execution of this Guarantee by any other proposed signatory, and possession of this Guarantee by the Lender will be conclusive evidence against the Guarantor that this Guarantee was not delivered in escrow or pursuant to any agreement that it should not be effective until any conditions precedent or subsequent have been complied with, unless, at the time of receipt of this Guarantee by the Lender, the Guarantor obtains from the Lender a letter setting out the terms and conditions under which this Guarantee was delivered and the conditions, if any, to be observed before it becomes effective.

19.

Governing Law and Submission to Jurisdiction. This Guarantee will be governed by and construed in accordance with the laws of British Columbia and the laws of Canada applicable therein and the Guarantor accepts and irrevocably submits to the jurisdiction of the courts of British Columbia and acknowledges its competence and agrees to be bound by any judgment thereof, except that nothing herein will limit the Lender's rights to bring proceedings

against the Guarantor elsewhere.

20.

Successors and Assigns. This Guarantee will extend and enure to the benefit of the Lender and its successors, and assigns and will be binding on the Guarantor and its successors and permitted assigns.

21.

Time. Time is of the essence with respect to the terms and provisions of this Guarantee and the time for performance of the Obligations of the Guarantor under this Guarantee are to be strictly construed.

IN WITNESS WHEREOF, this Guarantee has been made and delivered as of the date first above written.

ABLEAUCTIONS.COM, INC.

2002 STOCK OPTION PLAN FOR DIRECTORS

1.

Purpose

The purpose of the Ableauctions.com, Inc. 2002 Stock Option Plan for Directors (the Plan) is to attract and retain the services of experienced and knowledgeable directors of Ableauctions.com, Inc. (the Corporation) for the benefit of the Corporation and its stockholders and to provide additional incentive for such directors to continue to work for the best interests of the Corporation and its stockholders through continuing ownership of its common stock.

2.

Shares Subject to the Plan

The total number of shares of common stock (Shares) of the Corporation for which options may be granted under the Plan shall not exceed the number of shares permitted by Section 711 (or any successor section) of the Rules of the American Stock Exchange, as amended from time-to-time. Subject to the foregoing, the total aggregate number of Shares reserved and available for grant and issuance pursuant to the Plan will be 2,653,631, and shall be increased on the first day of January of each year so that the total of all common stock available for awards shall be the maximum amount allowable under Section 711. Within the foregoing limitations, Shares for which options have been granted

pursuant to the Plan but which options have lapsed or otherwise terminated shall become available for the grant of additional options.

3.

Administration of Plan

The Board of Directors of the Corporation shall administer the Plan. The Board may delegate responsibility for administration of the Plan to a Board committee (the Committee) composed solely of two or more directors, each of whom is a Non-Employee Director as that term is defined in Rule 16b-3(b) promulgated by the Securities and Exchange Commission pursuant to its authority under the Securities Exchange Act of 1934 (the Exchange Act). The Board or the Committee, as the case may be, shall have the power to construe the Plan, to determine all questions arising thereunder, and to adopt and amend such rules and regulations for the administration of the Plan as it may deem desirable. References to the Board in this Plan shall be deemed to refer to either the Board or the Committee, whichever is appropriate in the context in which the word is used.

4.

Discretionary Option Grants

Pursuant to this Plan, the Board may grant in its discretion an option to any person who is elected or appointed a director of the Corporation. No director shall have any claim or right to be granted an option under this Plan. Having received an option under this Plan shall not give a director any right to receive any other grant or option under this Plan and the Board may determine that any or all director(s) are not eligible to receive an option under this Plan for an indefinite period or for a specified year or years.

5.

Option Agreement

Each option granted under the Plan shall be evidenced by an option agreement (the Agreement) duly executed on behalf of the Corporation and by the director to whom such option is granted, which Agreements may, but need not be, identical and which shall (a) comply with and be subject to the terms and conditions of the Plan and (b) provide that the director agrees to continue to serve as a director of the Corporation during the term for which he or she was elected or appointed. Any Agreement may contain such other terms, provisions, and conditions not inconsistent with the Plan as may be determined by the Board. No option shall be deemed granted within the meaning of the Plan and no purported grant of any option shall be effective, until such Agreement shall have been duly executed on behalf of the Corporation and the director to whom the option is to be granted.

6.

Option Exercise Price

The Board shall set the option exercise price for an option granted pursuant to Section 4 of the Plan in its discretion, *provided, however*, that the exercise price for an option granted pursuant to Section 4 of the Plan may not be less than fair market value. For purposes hereof, fair market value shall be the closing price of the Company's common stock on the date of the option grant, as reported on the principal national securities exchange on which the Shares are then listed for trading.

7.

Time and Manner of Exercise of Option

(a)

The Board shall set the vesting schedule for options granted pursuant to Section 4 of the Plan in its discretion.

(b)

To the extent that the right to exercise an option has vested and is in effect, the option may be exercised from time to time, by giving written notice, signed by the person or persons exercising the option, to the Corporation, stating the number of Shares with respect to which the option is being exercised, accompanied by payment in full for such Shares, which payment may be in whole or in part in shares of the common stock of the Corporation already owned by the person or persons exercising the option, valued at fair market value on the date of payment. For purposes hereof, the fair market value of shares already owned by the person or persons exercising the option shall be the closing price of the shares on the exercise date as reported on the principal national securities exchange on which the Shares are then listed for trading.

(c)

Upon exercise of the option, delivery of a certificate for fully paid and non-assessable Shares shall be made at the principal office of the Corporation to the person or persons exercising the option as soon as practicable (but in no event more than 30 days) after the date of receipt of the notice of exercise by the Corporation, or at such time, place, and manner as may be agreed upon by the Corporation and the person or persons exercising the option.

8.

Term of Options

Each option shall expire no more than ten years from the date of the granting thereof, but shall be subject to earlier termination as follows:

(a)

In the event of the death of an option holder, the option granted to such person may be exercised to the extent exercisable on the date of death, within the earlier of (i) 180 days after the date of death of such person and (ii) the date on which the option expires by its terms, by the estate of such person, or by any person or persons who acquired the right to exercise such option by will or by the laws of descent and distribution.

(b)

In the event that an option holder ceases to be a director of the Corporation, other than by reason of his or her death, an option granted to such person may be exercised, to the extent exercisable on the date such person ceases to be a director, within the earlier of (i) 180 days after the date such person ceases to be a director and (ii) the date on which the option expires by its terms.

9.

Merger, Consolidation, Sale of Assets, etc.. Resulting in a Change in Control

(a)

In the event of a Change in Control (as hereinafter defined), notwithstanding the vesting provisions contained in the Agreement granting an option to a director pursuant to this Plan, such option shall become fully exercisable if, within one year of such Change in Control, such director shall cease for any reason to be a member of the Board. For purposes hereof, a Change in Control of the Corporation shall be deemed to have occurred if (i) there shall be consummated (x) any consolidation or merger of the Corporation in which the Corporation is not the continuing or surviving corporation or pursuant to which shares of the common stock of the Corporation would be converted into cash, securities, or other property, other than a merger of the Corporation in which the holders of the common stock of the Corporation immediately prior to the merger have the same proportionate ownership of common stock of the surviving corporation immediately after the merger, or (y) any sale, lease, exchange, or other transfer (in one transaction or a series of related transactions) of all, or substantially all, of the assets of the Corporation; or (ii) the stockholders of the Corporation approve any plan or proposal for the liquidation or dissolution of the Corporation; or (iii) any person (as such term is used in Sections 13(d) and 14(d)(2) of the Exchange Act) shall become the beneficial owner (within the meaning of Rule 13d-3 under the Exchange Act) of 50% or more of the Corporation's outstanding common stock.

(b)

Any exercise of an option permitted pursuant to this Section 9 shall be made within fifteen (15) days of the director's termination as a director of the Corporation.

10.

Options Not Transferable

An option granted pursuant to the Plan may not be sold, pledged, assigned, hypothecated, transferred, or disposed of in any manner other than by will or by the laws of descent or distribution and may be exercised, during the lifetime of the option holder, only by the option holder; provided that the Board may permit further transferability, on a general or specific basis, and may impose conditions and limitations on any permitted transferability.

11.

No Rights as Stockholder Until Exercise

Neither the recipient of an option under the Plan nor his successors in interest shall have any rights as a stockholder of the Corporation with respect to any Shares subject to an option granted to such person until such person becomes a holder of record of such Shares.

12.

Adjustments Upon Changes in Capitalization or Merger

Subject to any required action by the stockholders of the Corporation, the number of shares of common stock covered by each outstanding option, and the number of shares of common stock which have been authorized for issuance under the Plan but as to which no options have yet been granted or which have been returned to the Plan upon cancellation or expiration of an option, as well as the price per share of common stock covered by each outstanding option, shall be proportionately adjusted for any increase or decrease in the number of issued shares of common stock resulting from a stock split, reverse stock split, stock dividend, combination or reclassification of the common stock, or any other increase or decrease in the number of issued shares of common stock effected without receipt of consideration by the Corporation; provided, however, that conversion of any convertible securities of the Corporation shall not be deemed to have been effected without receipt of consideration. Such adjustment shall be made by the Board, whose determination in that respect shall be final, binding, and conclusive. Except as expressly provided herein, no issuance by the Corporation of shares of stock of any class, or securities convertible into shares of stock of any class, shall affect, and no adjustment by reason thereof shall be made with respect to, the number or price of shares of common stock subject to an option.

In the event of the proposed dissolution or liquidation of the Corporation, an outstanding option will terminate immediately prior to the consummation of such proposed action, unless otherwise provided by the Board. The Board may, in the exercise of its sole discretion in such instances, declare that any option shall terminate as of a date fixed by the Board and give each option holder the right to exercise an option as to all or any part of the stock covered by such option, including Shares as to which the option would not otherwise be exercisable. In the event of a proposed sale of all or substantially all of the assets of the Corporation, or the merger of the Corporation with or into another corporation, each option shall be assumed or an equivalent option shall be substituted by such successor corporation or a parent or subsidiary of such successor corporation, unless such successor corporation does not agree to assume each option or to substitute an equivalent option, in which case the Board shall, in lieu of such assumption or substitution, provide for the option holder to have the right to exercise such option as to all of the stock covered by such option, including Shares as to which such option would not otherwise be exercisable. If the Board makes an option fully exercisable in lieu of assumption or substitution in the event of a merger or sale of assets, the Board shall notify the option holder that the option shall be fully exercisable for a period of fifteen (15) days from the date of such notice, and the option will terminate upon the expiration of such period.

13.

Restrictions on Issue of Shares

Notwithstanding anything in this Plan to the contrary, the Corporation may delay the issuance of Shares covered by the exercise of any option and the delivery of a certificate for such Shares until one of the following conditions shall be satisfied:

(a)

the Shares with respect to which an option has been exercised are at the time of the issue or transfer of such Shares effectively registered under applicable federal securities laws now in force or hereafter amended; or

(b)

counsel for the Corporation shall have given an opinion, which opinion shall not be unreasonably conditioned or withheld, that such Shares are exempt from registration under applicable federal securities laws now in force or hereafter amended.

It is intended that all exercises of options shall be effective. Accordingly, the Corporation shall use its best efforts to bring about compliance with the above conditions within a reasonable time, except that the Corporation shall be under no obligation to cause a registration statement or a post-effective amendment to any registration statement to be prepared at its expense solely for the purpose of covering the issuance or transfer from the Corporation's treasury of Shares in respect of which any option may be exercised.

14.

Purchase for Investment

Unless the Shares to be issued upon exercise of an option granted under the Plan have been effectively registered under the Securities Act of 1933 as now in force or hereafter amended, the Corporation shall be under no obligation to issue or transfer any Shares covered by any option unless the person or persons who exercise such option, in whole or in part, shall give a written representation and undertaking to the Corporation, which is satisfactory in form and scope to counsel to the Corporation and upon which, in the opinion of such counsel, the Corporation may reasonably rely, that he or she is acquiring the shares issued or transferred to him or her for his or her own account as an investment and not with a view to, or for sale in connection with, the distribution for any such Shares, and that he or she will make no transfer of the same except in compliance with any rules and regulations in force at the time of such transfer under the Securities Act of 1933, or any other applicable law, and that if Shares are issued or transferred without such registration a legend to this effect may be placed upon the certificates representing the Shares.

15.

Effective Date

The effective date (the Effective Date) of this Plan shall be the date on which the Plan is approved by the Board of Directors of the Corporation.

16.

Expenses of the Plan

All costs and expenses of the adoption and administration of the Plan shall be borne by the Corporation and none of such expenses shall be charged to any director.

17.

Termination and Amendment of Plan

Unless sooner terminated as herein provided, the Plan shall terminate ten years from the Effective Date. The Board may at any time terminate the Plan or make such modification or amendment thereof as it deems advisable. The

Board shall not amend the provisions in the Plan regarding the amount, pricing, and timing for grants pursuant to this Plan more than once every six months, other than to comport with changes in the Internal Revenue Code, the Employee Retirement Income Security Act, or the rules thereunder. Termination or any modification or amendment of the Plan shall not, without the consent of an option holder, affect his or her rights under an option previously granted to him or her.
