Christopher J. Bradbrook

Christopher J. Bradbrook,

President and Chief Executive Officer

DRC Resources Corporation

PRESS RELEASE

American Stock Exchange Listing Approved

November 15, 2004, Vancouver, British Columbia – Chris Bradbrook, President and CEO of DRC Resources Corporation (the “Company”) (**TSX:DRC; Amex:DRJ**) is pleased to announce that DRC Resources has received formal approval to list its common shares on the American Stock Exchange (“Amex”). Effective November 18, 2004, the Company expects to begin trading on the Amex under symbol “DRJ”. The Company will also continue to trade on TSX under symbol “DRC”.

Upon receiving this approval Chris said, “This listing is an extremely important step in the evolution of DRC Resources, and an important tool to enable us to achieve our goal of realizing shareholder value. Listing on one of the premier exchanges in the United States gives us access to the world’s largest pool of investors. We continue to be excited about the prospects for the Company and look forward to articulating our enthusiasm to investors throughout North America.”

DRC’s main focus is the exploration and development of its 100%-owned Afton Copper-Gold Project, located 10 km west of Kamloops, B.C. To date the Company has outlined a Measured and Indicated Mineral Resource of 68.7 Million Tonnes grading 1.68% Copper Equivalent or 2.61 g/t Gold Equivalent (1.08% Cu, 0.85 g/t Au, 2.62 g/t Ag, 0.12 g/t Pd), which contains approximately 1.6 billion pounds of copper, and 1.9 million ounces of gold. A 2004 advanced scoping study completed by Behre Dolbear and Company Ltd., indicates that this project would have initial capital expenditures of US\$120 million and (at conservative metal prices of US\$0.85 per pound copper, and US\$375 per ounce gold) when viewed as a primary copper mine, could potentially produce the metal at a cash (direct) operating cost of US\$0.15 per pound of copper, and when viewed as a primary gold mine, could produce the metal at negative cash operating cost per ounce of gold. According to the British Columbia Ministry of Energy & Mines, the Afton Project is the largest advanced exploration project in South Central B.C. The Company is also exploring its nearby, 100%-owned, Ajax and Pothook properties.

DRC is in excellent financial condition with cash of US\$21 million and no debt. The company has only 13.7 million shares outstanding and 15.2 million shares fully diluted.

This approval is contingent upon the Company being in compliance with all applicable listing standards on the date it begins trading on the Exchange, and may be rescinded if the Company is not in compliance with such standards.
