Forward-Looking Statements

This Current Report on Form 8-K and the press release attached as an exhibit hereto and incorporated herein by reference may contain “forward-looking statements” as defined under U.S. federal securities laws. These statements reflect management's current knowledge, assumptions, beliefs, estimates, and expectations and express management's current view of future performance, results, and trends. Forward looking statements may be identified by their use of terms such as anticipate, believe, could, estimate, expect, intend, may, plan, predict, project, will, and other similar terms. Forward-looking statements are subject to a number of risks and uncertainties that could cause actual results to materially differ from those described in the forward-looking statements. In addition to those described below, forward looking statements contained in this Current Report and in the press release include, without limitation, statements concerning the possibility of FDA approval of Augment Bone Graft, statements regarding market acceptance of, and expected annual market demand for Augment Bone Graft, statements regarding the expected impact of the transaction with BioMimetic on Wright's adjusted EBITDA and other financial results, and statements about the timing and expected benefits of the transaction. The reader should not place undue reliance on forward-looking statements. Such statements are made as of the date of this Current Report and the press release, and Wright undertakes no obligation to update such statements after this date. In addition to those described above, risks and uncertainties that could cause Wright's actual results to materially differ from those described in forward-looking statements are discussed in Wright's filings with the Securities and Exchange Commission (including those described in Item 1A of Wright's Annual Report on Form 10-K for the year ended December 31, 2011 and Wright's Quarterly Report on Form 10-Q for the quarter ended September 30, 2012, in each case under the heading “Risk Factors” and elsewhere in such filings). By way of example and without implied limitation, such risks and uncertainties include: the failure of BioMimetic stockholders to adopt the merger agreement or the failure of either Wright or BioMimetic to meet any of the other conditions to the closing of the transaction, the failure to realize the anticipated benefits from the transaction or delay in realization thereof, future actions of the United States Attorney's office, the FDA, the Department of Health and Human Services or other U.S. or foreign government authorities that could delay, limit or suspend Wright's development, manufacturing, commercialization and sale of products, or result in seizures, injunctions, monetary sanctions or criminal or civil liabilities; any actual or alleged breach of the Corporate Integrity Agreement to which Wright is subject through September 2015 which could expose Wright to significant liability including exclusion from Medicare, Medicaid and other federal healthcare programs, potential criminal prosecution, and civil and criminal fines or penalties; adverse outcomes in existing product liability litigation; new product liability claims; inadequate insurance coverage; the possibility of private securities litigation or shareholder derivative suits; demand for and market acceptance of Wright's new and existing products; potentially burdensome tax measures; lack of suitable business development opportunities; product quality or patient safety issues; challenges to Wright's intellectual property rights; geographic and product mix impact on Wright's sales; Wright's inability to retain key sales representatives, independent distributors and other personnel or to attract new talent; inventory reductions or fluctuations in buying patterns by wholesalers or distributors; inability to realize the anticipated benefits of restructuring initiatives; negative impact of the commercial and credit environment on Wright, Wright's customers and Wright's suppliers; and the potentially negative effect of Wright's ongoing compliance enhancements on Wright's relationships with customers, and on Wright's ability to deliver timely and effective medical education, clinical studies, and new products.
