OUTSTANDING STOCK AND VOTING RIGHTS

The Board has fixed the close of business on April 17, 2006 as the record date (the "Record Date") for the determination of the Company's stockholders entitled to notice of, and to vote at, the Annual Meeting. As of the Record Date, 35,541,965 shares of the Company's Common Stock were issued and outstanding. Each share of Common Stock entitles the holder to one vote on each matter submitted to a vote at the Annual Meeting.

VOTING PROCEDURES AND REVOCABILITY OF PROXIES

Proxies in the accompanying form, properly executed and returned to the management of the Company by mail, telephone or the Internet, and not revoked, will be voted at the Annual Meeting. Any proxy given pursuant to such solicitation may be revoked by the stockholder at any time prior to the voting of the proxy by a subsequently dated proxy, by written notice of revocation of the proxy delivered to the Secretary of the Company, or by personally

withdrawing the proxy at the Annual Meeting and voting in person.

The presence, in person or by proxy, of at least a majority of the outstanding shares of Common Stock as of the Record Date, is necessary to establish a quorum for the transaction of business at the Annual Meeting. The directors will be elected by the affirmative vote of a plurality in voting power present in person or represented by proxy and entitled to vote at the Annual Meeting. All other matters at the meeting will be decided by the affirmative vote of the holders of a majority in voting power present in person or represented by proxy and entitled to vote at the Annual Meeting. Each holder of Common Stock will be entitled to one vote per share of Common Stock held by such holder. Votes will be counted and certified by one or more Inspector(s) of Election who are appointed by the Company to serve in that capacity. In accordance with Delaware General Corporation Law, abstentions and “broker non-votes” (i.e. proxies from brokers or nominees indicating that such persons have not received instructions from the beneficial owner or other persons entitled to vote shares as to a matter with respect to which the brokers or nominees do not have discretionary power to vote) will be treated as present for purposes of determining the presence of a quorum. For purposes of determining approval of a matter presented at the Annual Meeting, abstentions will be deemed present and entitled to vote and will, therefore, have the same legal effect as a vote “against” a matter presented at the Annual Meeting. Broker non-votes will be deemed not entitled to vote on the subject matter as to which the non-vote is indicated and will, therefore, have no legal effect on the vote on that particular matter.

Table of Contents

The proxies received by the management of the Company will be voted in accordance with the instructions contained therein. Unless otherwise stated, all shares represented by such proxy will be voted as instructed. Proxies which are executed but which do not contain specific instructions will be voted **FOR** the matter in question.

BOARD OF DIRECTORS’ MEETINGS AND COMMITTEES

During the fiscal year ended December 31, 2005, the Board of Directors held eight meetings. During the year, each of the Company’s directors attended at least seventy-five percent of the aggregate of: (1) the total number of meetings of the Board of Directors; and (2) the total number of meetings of all committees on which they served. Additionally, all of the directors attended the annual meeting of shareholders in 2005. Directors are encouraged to attend the annual meeting of shareholders but are not required to do so.

The Company has a Nominating and Corporate Governance Committee of the Board, which is comprised of Mr. Dreyer as Chair and Messrs. Ebenstein and Waite. Prior to June 6, 2005, the Nominating and Corporate Governance Committee was comprised of Mr. Waite as Chair and Messrs. Dreyer and Rappaport. The Nominating and Corporate Governance Committee held four meetings during the fiscal year ended December 31, 2005. The Board has adopted a written charter for the Nominating and Corporate Governance Committee, which is available on the Company’s Web site at <http://www.presstek.com>.

Table of Contents

The Nominating and Corporate Governance Committee makes recommendations to the Board regarding the size and composition of the Board and is responsible for reviewing with the Board from time to time the appropriate skills and characteristics required of Board members in the context of the current size and make-up of the Board. This assessment includes issues of diversity in numerous factors such as age, understanding of and achievements in manufacturing, technology, finance and marketing, international experience and culture. These factors, and any other qualifications considered useful by the Committee, are reviewed in the context of an assessment of the perceived needs of the Board at a particular point in time. As a result, the priorities and emphasis of the Nominating and Corporate Governance Committee and of the Board may change from time to time to take into account changes in business and other trends, and the portfolio of skills and experience of current and prospective Board members. Therefore, while focused on the achievement and the ability of potential candidates to make a positive contribution with respect to such factors, the Nominating and Corporate Governance Committee has not established any specific minimum criteria or qualifications that a nominee must possess. The Committee establishes procedures for the nomination process, recommends candidates for election to the Board and also reviews the functions of the Company's senior executives and recommends any changes it believes are necessary.

Consideration of new Board nominee candidates typically involves a series of internal discussions, review of information concerning candidates and interviews with selected candidates. In general, candidates for nomination to the Board are suggested by Board members or by employees. In fiscal year 2005, Presstek did not employ a search firm or pay fees to other third parties in connection with seeking or evaluating Board nominee candidates. The Nominating and Corporate Governance Committee will consider candidates proposed by stockholders, and has from time to time received unsolicited candidate proposals from stockholders. **COMPENSATION AND STOCK PLAN COMMITTEE
REPORT ON EXECUTIVE COMPENSATION**

The Compensation and Stock Plan Committee of Presstek's Board is responsible for establishing executive compensation philosophy and administering each component of the compensation program for the executive officers. The Compensation Committee reviews and makes recommendations as to compensation and benefits programs for Presstek's executive officers, sets Chief Executive Officer and Chief Financial Officer compensation and oversees administration of certain stock and benefit plans. The Compensation Committee's charter reflects these various responsibilities, and the Committee and the Board periodically review and revise the charter. The Compensation Committee is comprised entirely of non-employee directors, each of whom is independent as defined under the Nasdaq Marketplace rules. The Compensation Committee chairperson reports on Compensation Committee actions and recommendations at Board meetings. In addition, the Compensation Committee has the authority to engage the services of outside advisors, experts and others to assist the Compensation Committee. For the past three years, the Compensation Committee has directly engaged an outside compensation consulting firm to assist the Compensation Committee in its review of the compensation for the executive officers and directors.

All of the Named Executives, including the Chief Executive Officer, have compensation plans that provide for a base salary with a bonus, and/or where applicable, a commission plan. In each of the employment arrangements of the Named Executives, the respective Named Executive is entitled to receive a bonus up to a certain percentage of his base salary for meeting certain stated objectives. In the agreement with Mr. Marino, the bonus percentage is thirty percent (30%); in the agreements with Messrs. Moosa, McCarthy, Bouchard and Baum, the bonus percentage is forty percent (40%). Each year the Compensation Committee or the Board determines these annual objectives, and in each case, the determination as to whether the objective has been reached, and the bonus paid, is determined by the Board. If a bonus is paid, it is generally paid in the year following the year for which the annual objectives were to be attained.

Each Named Executive also receives either a monthly car allowance, or the Company purchases for them an automobile of a certain classification, depending on their respective arrangements with the Company.

Mr. Marino is also eligible to participate in an annual deferred compensation plan to which the Company contributes on a discretionary basis. The Company contributed \$75,000 to Mr. Marino's deferred compensation plan in 2005.

In addition to the cash component of their compensation plans, each Named Executive is eligible to receive equity compensation in the form of options and/or restricted stock. Of the Named Executives, only Mr. Bouchard has received stock; other Named Executives received options to purchase the Company's Common Stock, with an exercise price equal to the fair market value. On December 13, 2005, the Board of Directors voted to vest all unvested options that had been issued to all Directors, Officers, and Employees of the Company as of December 31, 2005.

The Compensation Committee reviews each executive's compensation annually to maintain alignment with Presstek's goals and philosophy.

Table of Contents

Philosophy. The Compensation Committee uses a combination of short-term (salary and annual incentives) and long-term (stock-based) compensation for Named Executives to:

- motivate executive officers to achieve our strategic objectives;
- align the interests of executive officers with the interests of shareholders;
 - provide competitive total compensation;
- attract and retain highly qualified key executive officers;and
- reward individual and corporate performance.

During 2005, the Compensation Committee reviewed Presstek's executive compensation philosophy, with the goal of ensuring the appropriate mix of fixed and variable compensation linked to individual and corporate performance. In the course of this review, the Compensation Committee sought the advice and input of both Presstek management and an outside compensation consultant to review and provide guidance and recommendations on appropriate compensation.

The Compensation Committee targets each component of the Named Executives' compensation at competitive levels, measured by a comparison with identified peer companies. The companies identified by the Compensation Committee as a peer group for purposes of executive compensation comparison were determined by annual revenues, similar product lines and companies identified as competitors for purposes of executive talent. The peer group identified by the Compensation Committee may include, but is not limited to, those reflected in the Stock Performance Graph. The Compensation Committee reviews analyses gathered from a number of industry surveys which include the peer companies, with the data adjusted through regression analysis to reflect Presstek's size (based on annual revenue) relative to those companies included in the analysis. This size-adjusted data is deemed by the Committee to provide an accurate representation of the competitive market.

While the Compensation Committee recognizes the need to maintain competitive levels of target compensation for Presstek's Named Executives — in order to retain and attract qualified talent — it also desires to maintain a compensation program which rewards high performance. To the extent Presstek's performance is greater than the performance of Presstek's industry peers, total compensation is designed to exceed the competitive median. If Presstek's performance falls short of the performance of industry peers, total compensation would be expected to also fall below the competitive median.

Components. Presstek's executive compensation program is comprised of three major components, with each playing a specific role in support of Presstek's executive compensation philosophy:

- base salary;
- annual incentive compensation; and
- stock-based, long-term incentive compensation.

In determining compensation, the Compensation Committee considers all elements of an executive's compensation package, including salary, bonus, long-term incentive compensation (stock options, restricted stock, etc.), SERPs (supplemental executive retirement plans) (if any), deferred compensation (if any), perquisites and severance payouts. Presstek's compensation program is designed to enhance shareholder value by linking a large portion of executive

officers' compensation directly to corporate and/or business unit performance.

Base Salary. The Compensation Committee receives information on the competitiveness of Presstek's executives' base salary through the data analysis described above. The Compensation Committee granted base salary increases to certain executives, including the Chief Executive Officer, as warranted by individual performance, level of responsibility, scope and complexity of the position and salary levels for comparable positions at companies in the compensation peer group. The Compensation Committee believes that base salaries for Presstek's executives are positioned at competitive levels.

Annual Incentive Compensation. The Compensation Committee approved annual target bonus awards for each individual executive and all participating non-commissionable employees in consultation with management, as a percent of base salary, under Presstek's 2005 bonus plan. Additionally, the Board approved the financial performance targets for Presstek as a whole. Bonuses are paid out upon achievement of certain levels of performance against revenue attainment targets, operating income attainment targets and free cash flow targets, as well as upon achievement of certain strategic goals. An executive's bonus, together with those payable to other participating non-commissionable employees as a group, could increase or decrease proportionately for performance levels over or under targeted levels.

Table of Contents

For the 2005 bonus plan year, based on Presstek's results in achieving financial and strategic goals, the Company made discretionary cash bonus payments to executives and non-commissionable employees.

Stock-Based Compensation and Stock Ownership Guidelines. The Compensation Committee and management believe that broad and significant employee ownership of Presstek's stock effectively motivates the building of shareholder wealth and aligns the interests of employees with those of the shareholders. Stock-based awards, including stock option grants and restricted stock awards, can be made under Presstek's 2003 Stock Incentive Plan.

Stock option and restricted stock awards granted to Presstek executives are based on the market competitive value of long-term incentives held by other executives having similar levels of responsibility within the defined peer group of companies, executive performance and contribution, and expected corporate performance.

Stock option grants allow executive officers to acquire shares of Presstek Common Stock at the fair market value on the date of grant and typically vest over a four-year period. The option will generally provide a return to the executive only if he or she remains a Presstek employee until the options have vested, and then only if the market value of the stock appreciates over the term of the option. The table entitled "**Option Grants in Last Fiscal Year**" (on page 15) summarizes the stock options granted during 2005 to the individuals named in the Summary Compensation Table. Restricted stock grants typically vest over a four-year period. The restricted stock will generally provide a return to the executive only if he remains a Presstek employee until the restricted stock has vested, and can provide additional returns if the market value of the stock appreciates over the price at the grant date. The Summary Compensation Table summarizes the restricted stock granted during 2005 to the Named Executives in the Summary Compensation Table.

In general, under Section 162(m) of the Code, the Company cannot deduct, for federal income tax purposes, compensation in excess of \$1,000,000 paid to certain executive officers. This deduction limitation does not apply, however, to compensation that constitutes "qualified performance-based compensation" within the meaning of Section 162(m) of the Code and the regulations promulgated thereunder. Currently, the Compensation Committee has structured its compensation policies without regard to the deduction limitations imposed by Section 162(m) of the Code.

EMPLOYMENT AGREEMENTS

The Company has entered into employment agreements with Messrs. Marino, Moosa, McCarthy, Bouchard, and Baum.

The Company entered into an employment agreement with Mr. Marino dated February 2, 2005 (the "Marino Agreement") to replace Mr. Marino's previous employment agreement dated November 19, 2003. Under the terms of the Marino Agreement, in addition to other benefits, Mr. Marino's annual salary was set at \$450,000. Mr. Marino's annual salary is to be reviewed no less frequently than annually by the Board. Under the Marino Agreement, Mr. Marino may also receive an annual cash bonus of up to 30% of his then-current base salary, based on his contribution to the accomplishment of key annual corporate objectives. The Marino Agreement is for an initial term of three years, which ends on the day preceding the third anniversary of the effective date of February 2, 2005.

Beginning on the third anniversary of the effective date and on each annual anniversary thereafter, the Marino Agreement automatically renews for an additional one-year term, unless either party gives notice at least 180 days prior to such anniversary date that they do not concur with the automatic renewal or unless earlier terminated.

In addition, on the effective date of the Marino Agreement, Mr. Marino was granted options to purchase fifty thousand (50,000) shares of Common Stock of the Company at a price per share equal to \$8.39, which was the fair market value of the shares on the date of grant. Mr. Marino was also granted options to purchase fifty thousand (50,000) shares of Common Stock of the Company at a price per share equal to \$8.39, which vested on June 30, 2005. Table of Contents

Subject to applicable eligibility requirements, Mr. Marino is entitled to participate in any plan or arrangement relating to employee benefits that may be adopted or offered by the Company from time to time. In addition, Mr. Marino is entitled to the use of a Company automobile or a car allowance.

Should the Board choose to terminate Mr. Marino's employment other than for "cause" (as defined in the Marino Agreement), then Mr. Marino is to receive severance payments equal to his then current salary for the remainder of the "term" (as defined in the Marino Agreement). Such severance payments, however, shall not be less than Mr. Marino's then annual base salary for a period of one and a half years and shall not exceed Mr. Marino's then annual base salary for a period of two years. If the Board does not concur within the automatic renewal of the term, then Mr. Marino is to receive an amount equal to one (1) full year of his then-effective annual salary. In both instances, Mr. Marino is also entitled to receive all then-existing retirement or employee benefits for the remainder of the term. If Mr. Marino's employment is terminated other than for cause or voluntarily by him for "good reason" (as defined in the Marino Agreement and is in connection with or occurs within one and a half years following a "change of control" (as defined in the Marino Agreement), then Mr. Marino is to receive a one-time severance payment equal to three (3) times the average of his annual compensation payable by the Company to him over the five (5) most recent taxable years of his employment with the Company, less one dollar. The Marino Agreement, however, specifically prohibits Mr. Marino from receiving any payment that would be considered a "parachute payment" within the meaning of Section 280G(b)(2) of the Internal Revenue Code (the "Code") or as determined by a nationally recognized accounting firm selected by the Board. Should the Board terminate Mr. Marino's employment for cause, Mr. Marino is not entitled to any further compensation.

The Company entered into an Employment Agreement with Mr. Moosa dated February 2, 2005 (the "Moosa Agreement") to replace Mr. Moosa's previous Employment Agreement dated December 31, 2003. Under the terms of the Moosa Agreement, in addition to other benefits, Mr. Moosa's annual salary was set at \$250,000. Mr. Moosa's annual salary is to be reviewed no less frequently than annually by the Board. Under the Moosa Agreement, Mr. Moosa may also receive an annual cash bonus of up to 40% of his then-current base salary, based on his contribution to the accomplishment of key annual corporate objectives. The Moosa Agreement is for an initial term of three years, which ends on the day preceding the third anniversary of the effective date of February 2, 2005. Beginning on the third anniversary of the effective date and on each annual anniversary thereafter, the Moosa Agreement automatically renews for an additional one-year term, unless either party gives notice at least 180 days prior to such anniversary date that they do not concur with the automatic renewal or unless earlier terminated.

Pursuant to the Moosa Agreement, on February 2, 2005, Mr. Moosa was granted options to purchase twenty-five thousand (25,000) shares of Common Stock of the Company at a price per share equal to \$8.39, which was the fair market value of the shares on the date of grant. Such options were immediately exercisable on February 2, 2005. In addition, on February 2, 2005, Mr. Moosa was also granted options to purchase twenty-five thousand (25,000) shares of Common Stock of the Company at a price per share equal to \$8.39, the fair market value of the shares on the date of the grant, which vested on June 30, 2005 (subject to the earlier vesting of the options, in their entirety, upon the execution by the Company of a definitive agreement relating to a change in control). Each of these grants is subject to the terms and conditions of the 2003 Plan. In addition, Mr. Moosa is entitled to the use of a Company automobile or a car allowance.

If Mr. Moosa's employment is terminated by the Company other than for "cause" (as defined in the Moosa Agreement) or if the Board does not concur within the automatic renewal of the "term" (as defined in the Moosa Agreement), then Mr. Moosa is to receive an amount equal to one (1) full year of his then-effective annual salary. In both instances, Mr. Moosa is also entitled to receive all then-existing retirement or employee benefits for the remainder of the term. If Mr. Moosa's employment is terminated involuntarily without cause or voluntarily by him for "good reason" (as defined in the Moosa Agreement) in connection with or within one and a half years following a "change of control" (as defined in the Moosa Agreement), then Mr. Moosa is to receive a one-time severance payment equal to three (3) times the

average of his annual compensation payable by the Company to him over the five (5) most recent taxable years of his employment with the Company, less one dollar. The Moosa Agreement, however, specifically prohibits Mr. Moosa from receiving any payment that would be considered a “parachute payment” within the meaning of Section 280G(b)(2) of the Code or as determined by a nationally recognized accounting firm selected by the Board. Should the Board terminate Mr. Moosa’s employment for cause, Mr. Moosa is not entitled to any further compensation or other benefits.

The Company entered into an Employment Agreement with Mr. McCarthy dated February 11, 2005 (the “McCarthy Agreement”). Under the terms of the McCarthy Agreement, in addition to other benefits, Mr. McCarthy’s annual salary was set at \$225,000. Mr. McCarthy’s annual salary is to be reviewed no less frequently than annually by the Board. Under the McCarthy Agreement, Mr. McCarthy may also receive an annual cash bonus of up to 40% of his then-current base salary, based on his contribution to the accomplishment of key annual corporate objectives. The McCarthy Agreement is for an initial term of three years, which ends on the day preceding the third anniversary of the effective date. Beginning on the third anniversary of the effective date of February 11, 2005 and on each annual anniversary thereafter, the McCarthy Agreement automatically renews for an additional one-year term, unless either party gives notice at least 180 days prior to such anniversary date that they do not concur with the automatic renewal or unless earlier terminated.

Table of Contents

Pursuant to the McCarthy Agreement, on February 11, 2005, Mr. McCarthy was granted options to purchase fifty thousand (50,000) shares of Common Stock of the Company at a price per share equal to \$8.02, which was the fair market value of the shares on February 11, 2005. In addition, on February 11, 2005, Mr. McCarthy was also granted options to purchase fifty thousand (50,000) shares of Common Stock of the Company at a price per share equal to \$8.02; at the time of this grant, 33% of such options were originally scheduled to vest on each of June 30, 2006, June 30, 2007 and June 30, 2008. On December 13, 2005, the Board of Directors voted to vest all unvested options that had been issued to all Directors, Officers, and Employees of the Company as of December 31, 2005. Each of Mr. McCarthy's grants is subject to the terms and conditions of the 2003 Plan. In addition, Mr. McCarthy is entitled to the use of a Company automobile or a car allowance.

Should the Board terminate Mr. McCarthy's employment other than for "cause" (as defined in the McCarthy Agreement), then Mr. McCarthy is to receive severance payments equal to his then current salary for the remainder of the "term" (as defined in the McCarthy Agreement). Such severance payments, however, shall not be less than Mr. McCarthy's then annual base salary for a period of one and a half years and shall not exceed Mr. McCarthy's then annual base salary for a period of two years. If the Board does not concur within the automatic renewal of the term, then Mr. McCarthy is to receive an amount equal to one (1) full year of his then-effective annual salary. In both instances, Mr. McCarthy is also entitled to receive all then-existing retirement or employee benefits for the remainder of the term. If Mr. McCarthy's employment is terminated other than for cause and is in connection with or within one and a half years following a "change of control" (as defined in the McCarthy Agreement), then Mr. McCarthy is to receive a one-time severance payment equal to three (3) times the average of his annual compensation payable by the Company to him over the five (5) most recent taxable years of his employment with the Company, less one dollar. The McCarthy Agreement, however, specifically prohibits Mr. McCarthy from receiving any payment that would be considered a "parachute payment" within the meaning of Section 280G(b)(2) of the Code or as determined by a nationally recognized accounting firm selected by the Board. Should the Board terminate Mr. McCarthy's employment for cause, Mr. McCarthy is not entitled to any further compensation.

The Bouchard Agreement is for an initial term of three years, which ends on the day preceding the third anniversary of the effective date. Beginning on the third anniversary of the effective date of July 1, 2005 and on each annual anniversary thereafter, the Bouchard Agreement automatically renews for an additional one-year term, unless either party gives notice at least 90 days prior to such anniversary date that they do not concur with the automatic renewal or unless earlier terminated. In addition, Mr. Bouchard is entitled to the use of a Company automobile or a car allowance.

If Mr. Bouchard's employment is terminated by the Company other than for "cause" (as defined in the Bouchard Agreement), or by Mr. Bouchard for "good reason" (as defined in the Bouchard Agreement), then Mr. Bouchard is to receive a severance payment equal to 12 months of his then-current base salary paid on a bi-weekly/weekly basis, provided that Mr. Bouchard first executes a comprehensive release of claims in a form acceptable to the Company. If Mr. Bouchard's employment terminates upon expiration of the Bouchard Agreement or at Mr. Bouchard's option, Mr. Bouchard shall receive his then-current base salary through the expiration of the term. Should the Company terminate Mr. Bouchard's employment for cause, Mr. Bouchard is not entitled to any further compensation.

The following table sets forth information concerning the value of unexercised stock options held by the Named Executives as of December 31, 2005 and the options exercised by the Named Executives during the fiscal year ended December 31, 2005. On December 13, 2005, the Board of Directors voted to vest all unvested options that had been issued to all Directors, Officers, and Employees of the Company as of December 31, 2005. This action was taken to mitigate compensation that would have been required upon the effectiveness of the Financial Accounting Standards Board's SFAS 123R beginning January 1, 2006. As a result of these actions, the Company eliminated approximately \$1.3 million in pre-tax compensation expense in fiscal 2006 and \$0.7 million thereafter related to these options. Stock compensation expense in future periods will relate to options or warrants to purchase Common Stock issued subsequent to December 31, 2005.

Description of 1997 Interim Stock Option Plan

The 1997 Plan was adopted for the purpose of granting non-statutory options to any person that the Board believed had contributed, or who would contribute, to the success of the Company or its subsidiaries, including directors, officers, employees, independent agents, consultants and attorneys. A total of 250,000 shares of Common Stock were reserved for issuance under the 1997 Plan. The Company's ability to make additional option grants under the 1997 Plan terminated on September 22, 2002; however, the Plan continues to govern all options granted and outstanding under the 1997 Plan. The options granted and outstanding under the 1997 Plan are currently administered by the Compensation Committee.

Pursuant to the terms of the plan, the price per share relating to each option granted under the 1997 Plan was to be established at the time of grant by the Board (or a committee thereof appointed to administer the plan); provided that the exercise price was not to be less than 100% of the fair market value per share of Common Stock on the date of grant. The 1997 Plan allows that payment upon the exercise of options may be made by one or any combination of the following: (i) by cash, which may be paid by check or other instrument acceptable to the Company; (ii) by payment in share of Common Stock which are already owned by the optionee, valued at the fair market value thereof on the date of exercise; or (iii) by delivery to the Company by the optionee of an executed exercise form together with irrevocable instructions to a broker-dealer to sell or margin a sufficient portion of the shares sold or margined and deliver the sale or margin loan proceeds directly to the Company to pay for the exercise price.

The maximum number of shares with respect to which options could be granted to any officer or director under the 1997 Plan was not to exceed the lesser of: (i) 1% of the number of outstanding shares of Common Stock on the date of grant; (ii) 1% of the total voting power of the Company's outstanding voting securities on the date of grant; or (iii) 25,000 shares. The 1997 Plan provides for adjustment of any outstanding options to prevent dilution or enlargement of rights, including adjustments in the event of changes in the outstanding Common Stock by reason of stock dividends, split-ups, recapitalizations, mergers, consolidations, combinations or exchanges of shares, separations, reorganizations, liquidations and the like.

The vesting of options granted under the 1997 Plan was to be determined by the Board. The 1997 Plan also grants the Board discretion to make options immediately exercisable upon: (i) the first purchase of shares of Common Stock pursuant to a tender offer (other than an offer by the Company) for the Common Stock of the Company; (ii) the approval of the Company's stockholders of an agreement for a merger or consolidation, or a sale, exchange or other disposition of all or substantially all of the Company's assets; (iii) with respect to an employee, his or her 65th birthday; or (iv) with respect to an employee, his or her involuntary termination from employment with the Company. Except as otherwise provided by the Board, options granted under the 1997 Plan may only be transferred by will or by the laws of descent and distribution. The 1997 Plan also provides that any option granted thereunder may include a provision to the effect that the optionee may, at any time at which the fair market value of the option is in excess of the exercise price, request that the Company purchase from the optionee all or any portion of the shares as shall be then exercisable under the option at a price equal to the difference between the exercise price of such shares and the fair market value thereof on the date of repurchase; provided, however, that the Company shall have no obligation to make any purchase pursuant to such a request.

If an employee ceases to be employed by the Company (other than for cause or by death or disability), no further installments of the options granted to such employee under the 1997 Plan shall become exercisable, and such options shall, to the extent exercisable on the date of termination, remain exercisable for a period of 30 days following the date of termination. If an employee is terminated for cause or voluntarily leaves the employee of the Company without the Company's consent, options granted to such employee under the 1997 Plan shall automatically terminate and will no longer be exercisable. Upon termination of employment by reason of death, options granted to such employee under the 1997 Plan may be exercised, to the extent exercisable on the date of death, by a legatee or legatees of the

employee under the employee's last will, or by the employee's personal representative or distributees, at any time within one year after the date of the employee's death. In the event employment is terminated by reason of disability, options granted to such employee under the 1997 Plan shall, to the extent exercisable on the date of termination, remain exercisable for a period of 30 days following the date of termination. Notwithstanding any of the foregoing, no option granted under the 1997 Plan shall remain exercisable beyond the specified termination date of such option.

PROPOSAL 2

**RATIFICATION OF SELECTION OF
INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

BDO Seidman, LLP has audited and reported upon the financial statements of the Company for the fiscal year ended December 31, 2005. BDO Seidman, LLP has served as the Company's independent registered public accounting firm since 1996. A representative of BDO Seidman, LLP is expected to be present at the Annual Meeting and will have the opportunity to make a statement if he or she desires to do so and is expected to be available to respond to appropriate questions. The ratification of this selection is not required under the laws of the State of Delaware, the Company's state of incorporation, or the Company's Bylaws, but the results of this non-binding vote will be considered by the Board in selecting an independent registered public accounting firm.

Set forth below are the fees paid by the Company to BDO Seidman, LLP for the fiscal periods indicated.

Audit Fees. The aggregate fees billed for professional services rendered by BDO Seidman, LLP for the fiscal years ended December 31, 2005 and January 1, 2005 for (a) the audit of Presstek's annual financial statements and internal controls over financial reporting for each such fiscal year, and (b) the review of the financial statements included in Presstek's Forms 10-Q for each such fiscal year, amounted to \$896,807 and \$977,274, respectively.

Audit-Related Fees. There were no fees billed to the Company for audit-related services rendered by BDO Seidman, LLP for the fiscal years ended December 31, 2005 and January 1, 2005.

Tax Fees. There were no fees billed to the Company for tax-related services rendered by BDO Seidman, LLP for the fiscal years ended December 31, 2005 and January 1, 2005.

Table of Contents

All Other Fees. There were no other fees billed to the Company by BDO Seidman, LLP, other than those discussed above, for the fiscal years ended December 31, 2005 and January 1, 2005.

The Audit Committee of the Board of Directors has determined that BDO Seidman, LLP has maintained its independence, since no fees were billed for the provision of any services related to *All Other Fees*.

The Audit Committee's policy is to pre-approve all audit and permissible non-audit services provided by the independent registered public accounting firm. These services may include audit services, audit-related services, tax services and other services. Pre-approval is generally provided for up to one year and any pre-approval is detailed as to the particular service or category of services and is generally subject to a specific budget. The independent registered public accounting firm and management are required to periodically report to the Audit Committee regarding the extent of services provided by the independent registered public accounting firm in accordance with this pre-approval, and the fees for the services performed to date. The Audit Committee may also pre-approve particular services on a case-by-case basis.

THE BOARD RECOMMENDS A VOTE FOR RATIFICATION OF THIS SELECTION.
