Report of Independent Registered Public Accounting Firm

The Employee Benefits Committee
Noble Energy, Inc. Thrift and Profit Sharing Plan:

We have audited the accompanying statements of net assets available for benefits of the Noble Energy, Inc. Thrift and Profit Sharing Plan (the Plan) as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2009 and 2008, and the changes in net assets available for benefits for the years then ended, in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule H, line 4i – schedule of assets (held at end of year) as of December 31, 2009 is presented for purposes of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

NOBLE ENERGY, INC. THRIFT AND PROFIT SHARING PLAN

Notes to Financial Statements

For the Years Ended December 31, 2009 and 2008

Note 1. Description of the Plan

The following description of the Noble Energy, Inc. Thrift and Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering certain employees of Noble Energy, Inc., formerly Noble Affiliates, Inc., and its wholly owned subsidiaries (collectively referred to as the Company or Noble Energy). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

Employees are eligible to participate in the Plan on the first day of employment. Participants may defer up to 50% of their basic compensation, including overtime, subject to the annual limitation established by the Internal Revenue Service (IRS) of \$16,500 in 2009 and \$15,500 in 2008. The Company's matching contribution percentage is 100% of the participant's deferrals up to 6% of the participant's basic compensation and is funded subsequent to each pay period. Participants who are age 50 or older are eligible to contribute catch-up contributions, subject to certain IRS limits (\$5,500 in 2009 and \$5,000 in 2008). In addition, participants may contribute amounts representing rollovers from other qualified plans. The Company does not match rollovers or catch-up contributions.

A profit sharing provision was instituted for participants hired after April 30, 2006 and employed by the Company on the last day of the plan year. The profit sharing contribution is calculated based upon the following percentages of a participant's basic compensation while a covered employee during that year:

| Age of Participant | Percentage of Basic Compensation while a Covered Employee that was Below the Social Security Wage Base | Percentage of Basic Compensation while a Covered Employee that was Above the Social Security Wage Base |
|--------------------------|--|--|
| Under 35 | 4% | 8% |
| At least 35 but under 48 | 7% | 10% |
| At least 48 | 9% | 12% |

Participant Account

Participating employees have an option as to the manner in which their employee and employer contributions may be invested. Participants may direct their accounts into a money market fund, various mutual funds, the Noble Energy common stock units as well as other publicly traded securities through a self-directed brokerage feature. Participant accounts are valued daily. Allocations of net earnings are based on account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Index

Plan Termination

The Plan is intended to continue indefinitely; however, the right to terminate participation in the Plan is reserved to each participating company. Upon termination or permanent suspension of contributions with respect to all or any one of the participating companies, the accounts of all participants affected thereby will become fully vested, and the balances in their accounts will be distributed in accordance with the provisions of the Plan, as determined by the Noble Energy Employee Benefits Committee (the Committee).

Vesting

Participants are immediately vested in their pretax contributions and rollover contributions. Participants become fully vested in employer matching contributions in accordance with the following schedule:

| Period of Service Completed by Participant | Vested Percentage |
|--|-------------------|
| Less than 1 year | None |
| At least 1 but less than 2 years | 34% |
| At least 2 but less than 3 years | 67% |
| 3 or more years | 100% |

Participants become fully vested in the profit sharing contribution in accordance with the following schedule:

| Period of Service Completed by Participant | Vested Percentage |
|--|-------------------|
| Less than 3 years | None |
| 3 or more years | 100% |

The Plan also provides for participants to be fully vested upon death, permanent disability or completion of an hour of service on or after the participant's 65th birthday.

Benefits Paid to Participants

Distributions are made in lump-sum payments, at the request of the participant, after termination of employment. While employed, a participant may make withdrawals from his or her employer or employee contribution accounts (as allowed under IRS regulations) subject to certain restrictions described in the Plan. Certain restrictions associated with withdrawals may be waived in the event a participant demonstrates a financial hardship. The Plan requires automatic cash outs of account balances less than \$1,000 upon termination of employment.

Participant Loans

A participant may borrow from the Plan up to the lesser of \$50,000 reduced by the highest outstanding loan balance in the previous 12 months or one-half of the participant's vested account balance. Interest is charged at the current prime rate. Interest rates on outstanding loans as of December 31, 2009 ranged from 3.25% to 9.75% and loans are required to be repaid within five years through payroll deductions. Loans beyond a five year maturity represent loans that originated under the Patina Oil & Gas Corporation Profit Sharing and 401(k) Plan prior to its merger into the Plan. Maturity dates on loans outstanding as of December 31, 2009 ranged from January 1, 2010 to July 31, 2024. Repayments of principal and interest are credited to the borrowing participant's account. Participants may have a maximum of two loans outstanding at a time.

Index

Plan Administration

The Plan is administered by the Committee. The investment options available under the Plan (other than Noble Energy common stock units and those selected by a participant under the Plan's self-directed brokerage feature) are recommended by a professional investment advisory firm appointed by the Committee. Fidelity Management Trust Company (the Trustee) serves as Trustee of the Plan. Fidelity Investments Institutional Operations Company, Inc. is the recordkeeper.

Noble Energy Common Stock Unit Voting Rights

Each participant is entitled to exercise voting rights attributable to the Noble Energy common stock units allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. If the participant does not exercise these rights, the stock units are voted by the Trustee as directed by the Committee.

Note 2. Significant Accounting Policies

Basis of Presentation

The accompanying financial statements are prepared on the accrual basis of accounting in conformity with United States generally accepted accounting principles (US GAAP).

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required, the statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions relating to the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Recently Issued Accounting Pronouncements

In May 2009, the Financial Accounting Standards Board (FASB) issued new standards which establish the accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued. In particular, the new standards set forth:

- the period after the balance sheet date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements (through the date that the financial statements are issued or are available to be issued);
- the circumstances under which an entity should recognize events or transactions occurring after the balance sheet date in its financial statements; and
- the disclosures that an entity should make about events or transactions that occurred after the balance sheet date.

Index

The Plan adopted the new standards as of December 31, 2009. The Plan has evaluated subsequent events after the balance sheet date of December 31, 2009 through the time of filing with the SEC on June 3, 2010, which is the date the financial statements were issued.

In June 2009, the FASB established the FASB Accounting Standards Codification (Codification), which officially commenced July 1, 2009, to become the source of authoritative US GAAP recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the SEC under authority of federal securities laws are also sources of authoritative US GAAP for SEC registrants. Generally, the Codification is not expected to change US GAAP. All other accounting literature excluded from the Codification will be considered nonauthoritative. The Codification is effective for financial statements issued for interim and annual periods ending after September 15, 2009. All references to authoritative accounting literature are now referenced in accordance with the Codification.

In January 2010, the FASB issued Accounting Standards Update No. 2010-06, Improving Disclosures about Fair Value Measurements (Topic 820) - Fair Value Measurements and Disclosures (ASU 2010-06) to add additional disclosures about the different classes of assets and liabilities measured at fair value, the valuation techniques and inputs used, the activity in Level 3 fair value measurements, and the transfers between Levels 1, 2, and 3. Levels 1, 2 and 3 of fair value measurements are defined in Note 3 below. The Plan will adopt this new accounting standards update in the year ending December 31, 2010 except for the provisions of this update that will be effective in the year ending December 31, 2011. The Plan is currently evaluating the impact of its pending adoption on the Plan's financial statements.

Valuation of Investments and Income Recognition

Investments traded on national securities exchanges are valued at closing prices on the last business day of the year. Cash is valued at cost, which approximates fair value.

The Plan's investment in the Fidelity Managed Income Portfolio which is fully benefit-responsive, is presented in the statements of net assets available for benefits at the fair value of units held by the Plan as of December 31, with separate disclosure of the adjustment from fair value to contract value, which is equal to principal balance plus accrued interest. The fair value of the Fidelity Managed Income Portfolio is calculated by the issuer utilizing quoted market prices, most recent bid prices in the principal market in which the securities are normally traded, pricing services and dealer quotes. The fair value of underlying wrapper contracts is calculated by the issuer using a discounted cash flow model which considers (i) recent fee bids as determined by recognized dealers, (ii) discount rate and (iii) the duration of the underlying portfolio securities.

The statement of net assets available for benefits includes the fair value of the underlying assets and wrap contracts of the Fidelity Managed Income Portfolio based on the proportionate ownership of the Plan.

As of December 31, 2009, there were no reserves against the wrap contracts' carrying values due to credit risks of the issuers. Effective August 2009, interest rates are reviewed on a monthly basis for resetting instead of being reviewed on a quarterly basis. Certain events could limit the ability of the Plan to transact at contract value with the issuers of the contracts held by the Fidelity Managed Income Portfolio. Such events could include, but are not limited to, the following: the establishment of a defined contribution plan that competes with the Plan for contributions, substantive modification to the Fidelity Managed Income Portfolio or the administration of the Fidelity Managed Income Portfolio, change in law, regulation or administrative ruling applicable to the Plan that could have a material adverse effect on cash flow, transfer to a competing investment option, and failure of the Plan to qualify under the applicable sections of the IRC. Withdrawals initiated by the Plan will normally be provided at contract value as soon as practicable within twelve months following written notice. The Plan does not believe that the occurrence of any of these events, which could limit the Plan's ability to transact at contract value with participants, is probable.

Index

The average yields earned by the Fidelity Managed Income Portfolio were approximately 3.16% and 3.57% at December 31, 2009 and 2008, respectively. The average yields earned by the Fidelity Managed Income Portfolio based on the actual interest rates credited to participants were approximately 1.20% and 3.04% at December 31, 2009 and 2008, respectively.

Purchases and sales of investments are recorded on a trade-date basis. Interest is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes gains and losses on investments sold during the year as well as appreciation and depreciation of the investments held at the end of the year.

Under the terms of the Plan, the Trustee, on behalf of the trust fund, is allowed to acquire, hold and dispose of the common stock units of Noble Energy. In the event that trading transactions in the stock fund exceed the cash portion of the stock fund, the trust has arranged to utilize lines of credit to facilitate transactions. As of December 31, 2009 and 2008, there were no outstanding balances related to these lines of credit.

Participant Loans

Participant loans are recorded at amortized cost.

Expenses of the Plan

Certain Plan administration expenses, such as loan maintenance fees and check fees, are charged to and paid by the participants requesting the transaction. The Company pays the remaining expenses and fees of the Plan.

Benefit Payments

Benefits are recorded as paid.

Forfeitures

When a participant terminates employment, he or she is entitled to withdraw his or her total vested account balance. The non-vested percentage of the Company's matching and profit sharing contributions become a forfeiture upon participant termination for reasons other than retirement, death or permanent disability. The forfeiture balance as of December 31, 2009 and 2008 was \$15,048 and \$13,095, respectively. Forfeitures are used to restore certain amounts to the accounts of rehired participants and to reduce the Company's future contributions. Forfeitures utilized to reduce future contributions were \$100,000 in each of 2009 and 2008.

Index

Note 3. Fair Value Measurements

US GAAP for fair value measurements establishes a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value into three levels. The fair value hierarchy gives the highest priority to quoted market prices (unadjusted) in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Level 2 inputs are inputs, other than quoted prices included within Level 1, which are observable for the asset or liability, either directly or indirectly. The Plan uses Level 1 inputs when available as Level 1 inputs generally provide the most reliable evidence of fair value.

Certain investments are measured at fair value on a recurring basis in the statements of net assets available for benefits. The following methods and assumptions were used to estimate the fair values:

Interest bearing cash, mutual funds, common stocks and other investments – These investments consist of various publicly-traded money market funds, mutual funds, common stock and other investments. The fair values are based on quoted market prices.

Common collective trust fund – The fair value is calculated by the issuer utilizing quoted market prices, most recent bid prices in the principal market in which the securities are normally traded, pricing services and dealer quotes. The fair value of the underlying wrapper contracts is calculated using a discounted cash flow model which considers recent fee bids as determined by recognized dealers, discount rate and the duration of the underlying portfolio securities. The Plan's fair value is based on the Plan's proportionate ownership of the underlying investments.

The methods described above may produce a fair value calculation that may not be indicative of net asset value or reflective of future fair value. Furthermore, while the Plan's valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different estimates of fair value at the reporting date.

Index

Fair value information for investments that are measured at fair value on a recurring basis is as follows:

| | Fair Value Measurements Using | | | |
|--------------------------------------|--|---|--|---------------------------|
| | Quoted Prices in Active Markets (Level 1) | Significant Other Observable Inputs (Level 2) | Significant Unobservable Inputs (Level 3) | Fair Value Measurement |
| December 31, 2009 | | | | |
| Interest bearing cash | \$3,338,128 | \$- | \$ - | \$3,338,128 |
| Common collective trust fund | - | 18,947,189 | - | 18,947,189 |

| Total investments, at fair value | \$90,152,049 | \$17,055,658 | \$ - | \$107,207,707 |

Note 4. Investments

The Plan held the following investments, which separately represented 5% or more of the Plan's net assets available for benefits:

| | December 31, | |
|---|--------------|--------------|
| | 2009 | 2008 |
| Noble Energy common stock units | \$44,261,178 | \$29,701,325 |
| American Funds Growth Fund of America (Class A Shares) | 9,124,567 | 6,132,853 |
| Dodge & Cox Stock Fund | 9,263,261 | 7,396,945 |
| Fidelity Diversified International Fund | 8,921,256 | 5,900,445 |
| Fidelity Managed Income Portfolio (contract value of \$19,299,515 and \$17,975,674, respectively) | 18,947,189 | 17,055,658 |

| | | |
|------------------------------|------------|-----------|
| Fidelity Puritan Fund | 7,889,813 | 6,003,394 |
| PIMCO Moderate Duration Fund | 10,413,029 | 6,991,701 |

As of December 31, 2009 and 2008, approximately 28% and 26% of the Plan's net assets were invested in Noble Energy common stock units, respectively.

Index

The Plan's investments, including investments bought, sold and held during the year, appreciated (depreciated) in value as follows:

| | Year Ended December 31, | |
|---|-------------------------|-----------------|
| | 2009 | 2008 |
| Noble Energy common stock units | \$ 14,279,785 | \$ (14,613,482) |
| Mutual funds | 16,970,678 | (33,675,270) |
| Common stocks | 1,272,205 | (1,434,183) |
| Net appreciation (depreciation) in fair value | \$32,522,668 | \$ (49,722,935) |

Note 5. Tax Status

The Plan is exempt from federal income taxes under Sections 401 (a) and 501 (a) of the Internal Revenue Code of 1986, as amended, (IRC) and has received a favorable determination letter from the IRS dated July 22, 2009. Although the Plan has been amended since the date of the determination letter, the Committee is of the opinion that the Plan meets IRC requirements and continues to be tax-exempt.

Note 6. Related-Party Transactions

The Plan allows for investment in Noble Energy common stock units. The Company is the plan sponsor; therefore, these transactions qualify as related-party transactions. Total net assets invested in Noble Energy common stock units were \$44,261,178 and \$29,701,325 as of December 31, 2009 and 2008, respectively.

The Plan also invests in money market funds, a common collective trust fund and mutual funds issued by an affiliate of the Trustee; therefore, these transactions qualify as related-party transactions. Total net assets invested in Fidelity funds and cash accounts were \$62,855,541 and \$46,487,547 as of December 31, 2009 and 2008, respectively.

The above transactions are covered by an exemption from the "prohibited transactions" provisions of ERISA and the IRC.

Note 7. Risks and Uncertainties

The Plan, at the direction of the participants, may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Certain of the funds available for investment by the participants may contain securities with contractual cash flows, such as asset backed securities, collateralized mortgage obligations and commercial mortgage backed securities. The value, liquidity and related income of those securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

Index

Note 8. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

| | December 31, | |
|--|----------------|----------------|
| | 2009 | 2008 |
| Net assets available for benefits per the financial statements | \$ 159,597,620 | \$ 114,256,836 |
| Less: Adjustment from fair value to contract value for fully benefit-responsive investment contracts | (352,326) | (920,016) |
| Net assets available for benefits per the Form 5500 | \$ 159,245,294 | \$ 113,336,820 |

The following is a reconciliation of net investment income per the financial statements to the Form 5500:

| | Year Ended December 31, | |
|---|----------------------------|-----------------|
| | 2009 | 2008 |
| Net investment income (loss) per the financial statements | \$35,147,971 | \$ (45,762,538) |
| Less: Adjustment from fair value to contract value for fully benefit-responsive investment contracts December 31, 2009 and 2008 | (352,326) | (920,016) |
| Add: Adjustment from fair value to contract value for fully benefit-responsive investment contracts December 31, 2008 and 2007 | 920,016 | 179,882 |
| Net investment income (loss) per the Form 5500 | \$35,715,661 | \$ (46,502,672) |

Fully benefit-responsive investment contracts are recorded on the Form 5500 at fair value but are adjusted to contract value for financial statement presentation.
