August 11, 2014

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

(Mark one)

- QUARTERLY REPORT PURSUANT TO SECTION 13 OR
15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the Quarterly Period Ended June 30, 2014

OR

- TRANSITION REPORT PURSUANT TO SECTION 13 OR
15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number 000-30707

First Northern Community Bancorp
(Exact name of registrant as specified in its charter)

California
(State or other jurisdiction of incorporation or
organization)

68-0450397
(I.R.S. Employer Identification Number)

195 N. First Street, Dixon, California
(Address of principal executive offices)

95620
(Zip Code)

707-678-3041
(Registrant's telephone number including area code)

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or Section 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Edgar Filing: FIRST NORTHERN COMMUNITY BANCORP - Form 10-Q

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company (as defined by Rule 12b-2 of the Exchange Act). See the definitions of “large accelerated filer,” “accelerated filer” and “smaller reporting company” in Rule 12b-2 of the Exchange Act. (Check one).

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company)

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

The number of shares of Common Stock outstanding as of August 7, 2014 was 9,800,456.

FIRST NORTHERN COMMUNITY BANCORP

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2014 and 2013 and December 31, 2013

1. BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements of First Northern Community Bancorp (the “Company”) have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information and with the instructions to Form 10-Q and Articles 9 and 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. The results of operations for any interim period are not necessarily indicative of results expected for the full year. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto contained in the Company’s Annual Report on Form 10-K for the year ended December 31, 2013 as filed with the Securities and Exchange Commission. The preparation of financial statements in conformity with GAAP also requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expense during the reporting period. Actual results could differ from those estimates. All material intercompany balances and transactions have been eliminated in consolidation.

Recently Issued Accounting Pronouncements:

In February 2013, FASB issued ASU 2013-04, Obligations Resulting from Joint and Several Liability Arrangements for Which the Total Amount of the Obligation Is Fixed at the Reporting Date, which provides guidance for the recognition, measurement, and disclosure of obligations resulting from joint and several liability arrangements for which the total amount of the obligation is fixed at the reporting date. Examples of obligations within the scope of this guidance include debt arrangements, other contractual obligations, and settled litigation and judicial rulings. This guidance is effective for interim and annual periods beginning on January 1, 2014 and must be retroactively applied to prior periods presented. Early adoption is permitted. Adoption of the new guidance did not have a significant impact on the Company’s consolidated financial statements.

In July 2013, FASB issued ASU 2013-11, Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists. The amendments in this ASU provide that an unrecognized tax benefit, or a portion thereof, should be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward, except to the extent that a net operating loss carryforward, a similar tax loss, or a tax credit carryforward is not available at the reporting date to settle any additional income taxes that would result from disallowance of a tax position, or the tax law does not require the entity to use, and the entity does not intend to use, the deferred tax asset for such purpose, then the unrecognized tax benefit should be presented as a liability. The amendments are effective for fiscal years, and interim periods within those years, beginning after December 15, 2013. Early adoption and retrospective application is permitted. Adoption of the new guidance did not have a significant impact on the Company’s consolidated financial statements.

In January 2014, FASB issued ASU 2014-01, Investments – Equity Method and Joint Ventures. The amendments in this ASU permit reporting entities to make an accounting policy election to account for their investments in qualified

affordable housing projects using the proportional amortization method if certain conditions are met. Disclosures for a change in accounting principle are required upon transition. The amendments should be applied retrospectively to all periods presented. A reporting entity that uses the effective yield method to account for its investments in qualified affordable housing projects before the date of adoption may continue to apply the effective yield method for those preexisting investments. The amendments in this ASU are effective for public business entities for annual periods and interim periods within those annual periods, beginning after December 15, 2014. Early adoption is permitted. The Company does not expect the adoption of this update to have a significant impact on its consolidated financial statements.

In January 2014, FASB issued ASU 2014-04, Receivables – Troubled Debt Restructurings by Creditors. The amendments in this ASU clarify that an in substance repossession or foreclosure occurs, and a creditor is considered to have received physical possession of residential real estate property collateralizing a consumer mortgage loan, upon either (1) the creditor obtaining legal title to the residential real estate property upon completion of a foreclosure or (2) the borrower conveying all interest in the residential real estate property to the creditor to satisfy that loan through completion of a deed in lieu of foreclosure or through a similar legal agreement. Additionally, the amendments require interim and annual disclosure of both (1) the amount of foreclosed residential real estate property held by the creditor and (2) the recorded investment in consumer mortgage loans collateralized by residential real estate property that are in the process of foreclosure according to local requirements of the applicable jurisdiction. The amendments in this ASU are effective for public business entities for annual periods, and interim periods within those annual periods, beginning after December 15, 2014. An entity can elect to adopt the amendments in this ASU using either a modified retrospective transition method or a prospective transition method. Early adoption is permitted. The Company does not expect the adoption of this update to have a significant impact on its consolidated financial statements.

In January, 2014, FASB issued ASU 2014-05, Service Concession Arrangements. The amendments specify that an operating entity should not account for a service concession arrangement that is within the scope of this ASU as a lease in accordance with Topic 840. An operating entity should refer to other Topics as applicable to account for various aspects of a service concession arrangement. The amendments also specify that the infrastructure used in a service concession arrangement should not be recognized as property, plant, and equipment of the operating entity. The amendments in this ASU should be applied on a modified retrospective basis to service concession arrangements that exist at the beginning of an entity's fiscal year of adoption. The modified retrospective approach requires the cumulative effect of applying this ASU to arrangements existing at the beginning of the period of adoption to be recognized as an adjustment to the opening retained earnings balance for the annual period of adoption. The amendments are effective for a public business entity for annual periods, and interim periods within those annual periods, beginning after December 15, 2014. The Company does not expect the adoption of this update to have a significant impact on its consolidated financial statements.

Reclassifications

Certain reclassifications have been made to prior period balances in order to conform to the current year presentation.

2. LOANS

The composition of the Company's loan portfolio, by loan class, is as follows:

(\$ in thousands)	June 30, 2014	December 31, 2013
Commercial	\$ 119,590	\$ 110,644
Commercial Real Estate	247,920	235,296
Agriculture	50,374	51,730
Residential Mortgage	51,591	52,809
Residential Construction	7,893	10,444
Consumer	51,704	54,079
	529,072	515,002
Allowance for loan losses	(8,174)	(9,353)
Net deferred origination fees and costs	1,225	1,201
Loans, net	\$ 522,123	\$ 506,850

The Company manages asset quality and credit risk by maintaining diversification in its loan portfolio and through review processes that include analysis of credit requests and ongoing examination of outstanding loans and delinquencies, with particular attention to portfolio dynamics and loan mix. The Company strives to identify loans experiencing difficulty early enough to correct the problems, to record charge-offs promptly based on realistic assessments of collectability and current collateral values and to maintain an adequate allowance for loan losses at all times. Asset quality reviews of loans and other non-performing assets are administered using credit risk rating standards and criteria similar to those employed by state and federal banking regulatory agencies.

Commercial loans, whether secured or unsecured, generally are made to support the short-term operations and other needs of small businesses. These loans are generally secured by the receivables, equipment, and real property of the business and are susceptible to the related risks described above. Problem commercial loans are generally identified by periodic review of financial information that may include financial statements, tax returns, and payment history of the borrower. Based on this information, the Company may decide to take any of several courses of action including demand for repayment, requiring the borrower to provide a significant principal payment and/or additional collateral or requiring similar support from guarantors. Notwithstanding, when repayment becomes unlikely based on the borrower's income and cash flow, repossession or foreclosure of the underlying collateral may become necessary. Collateral values may be determined by appraisals obtained through Bank approved, licensed appraisers, qualified independent third parties, purchase invoices, or other appropriate means.

Commercial real estate loans generally fall into two categories, owner-occupied and non-owner occupied. Loans secured by owner-occupied real estate are primarily susceptible to changes in the market conditions of the related business. This may be driven by, among other things, industry changes, geographic business changes, changes in the individual financial capacity of the business owner, general economic conditions and changes in business cycles. These same risks apply to commercial loans whether secured by equipment, receivables or other personal property or unsecured. Losses on loans secured by owner-occupied real estate, equipment, or other personal property generally are dictated by the value of underlying collateral at the time of default and liquidation of the collateral. When default is driven by issues related specifically to the business owner, collateral values tend to provide better repayment

support and may result in little or no loss. Alternatively, when default is driven by more general economic conditions, underlying collateral generally has devalued more and results in larger losses due to default. Loans secured by non-owner occupied real estate are primarily susceptible to risks associated with swings in occupancy or vacancy and related shifts in lease rates, rental rates or room rates. Most often, these shifts are a result of changes in general economic or market conditions or overbuilding and resulting over-supply of space. Losses are dependent on the value of underlying collateral at the time of default. Values are generally driven by these same factors and influenced by interest rates and required rates of return as well as changes in occupancy costs. Collateral values may be determined by appraisals obtained through Bank approved, licensed appraisers, qualified independent third parties, sales invoices, or other appropriate means.

Agricultural loans, whether secured or unsecured, generally are made to producers and processors of crops and livestock. Repayment is primarily from the sale of an agricultural product or payments for services. Agricultural loans are generally secured by inventory, receivables, equipment, and real property. Agricultural loans are susceptible to changes in market demand for specific commodities. This may be exacerbated by, among other things, industry changes, changes in the individual financial capacity of the business owner, general economic conditions and changes in business cycles, as well as adverse weather conditions, including drought conditions such as those affecting California. Problem agricultural loans are generally identified by periodic review of financial information that may include financial statements, tax returns, crop budgets, payment history, and crop inspections. Based on this information, the Company may decide to take any of several courses of action including demand for repayment, requiring the borrower to provide a significant principal payment and/or additional collateral or requiring similar support from guarantors. Notwithstanding, when repayment becomes unlikely based on the borrower's income and cash flow, repossession or foreclosure of the underlying collateral may become necessary.

Residential mortgage loans, which are secured by real estate, are primarily susceptible to four risks: non-payment due to diminished or lost income; over-extension of credit; a lack of borrower's cash flow to sustain payments; and shortfalls in collateral value. In general, non-payment is usually due to loss of employment and follows general economic trends in the economy, particularly the upward movement in the unemployment rate, loss of collateral value, and demand shifts.

Residential construction loans, whether owner-occupied or non-owner occupied residential development loans, are not only susceptible to the related risks described above but the added risks of construction, including cost over-runs, mismanagement of the project, or lack of demand and market changes experienced at time of completion. Losses are primarily related to underlying collateral value and changes therein as described above. Problem construction loans are generally identified by periodic review of financial information that may include financial statements, tax returns and payment history of the borrower. Based on this information the Company may decide to take any of several courses of action including demand for repayment, requiring the borrower to provide a significant principal payment and/or additional collateral or requiring similar support from guarantors, or repossession or foreclosure of the underlying collateral. Collateral values may be determined by appraisals obtained through Bank approved, licensed appraisers, qualified independent third parties, purchase invoices, or other appropriate means.

Consumer loans, whether unsecured or secured are primarily susceptible to four risks: non-payment due to diminished or lost income; over-extension of credit; a lack of borrower's cash flow to sustain payments; and shortfall in the collateral value. In general, non-payment is usually due to loss of employment and will follow general economic trends in the economy, particularly the upward movements in the unemployment rate, loss of collateral value, and demand shifts.

As of June 30, 2014, approximately 47% in principal amount of the Company's loans were secured by commercial real estate, which consists primarily of construction and land development loans and loans secured by commercial properties. Approximately 10% in principal amount of the Company's loans were residential mortgage loans. Approximately 1% in principal amount of the Company's loans were residential construction loans. Approximately 9% in principal amount of the Company's loans were for agriculture and 23% in principal amount of the Company's loans were for general commercial uses including professional, retail and small businesses. Approximately 10% in principal amount of the Company's loans were consumer loans.

Once a loan becomes delinquent and repayment becomes questionable, a Company collection officer will address collateral shortfalls with the borrower and attempt to obtain additional collateral or a principal payment. If this is not forthcoming and payment in full is unlikely, the Company will consider the loan to be collateral dependent and will estimate its probable loss, using a recent valuation as appropriate to the underlying collateral less estimated costs of sale, and charge-off the loan down to the estimated net realizable amount. Depending on the length of time until final collection, the Company may periodically revalue the underlying collateral and take additional charge-offs as warranted. Revaluations may occur as often as every 3-12 months depending on the underlying collateral and volatility of values. Final charge-offs or recoveries are taken when collateral is liquidated and actual loss is known. Unpaid balances on loans after or during collection and liquidation may also be pursued through legal action and attachment of wages or judgment liens on the borrower's other assets.

At June 30, 2014 and December 31, 2013, all loans were pledged under a blanket collateral lien to secure actual and potential borrowings from the Federal Home Loan Bank ("FHLB") and the Federal Reserve Bank.

Non-accrual and Past Due Loans

The Company's non-accrual loans by loan class, as of June 30, 2014 and December 31, 2013 were as follows:

(\$ in thousands)	June 30, 2014	December 31, 2013
Commercial	\$2,694	\$2,609
Commercial Real Estate	2,016	2,607
Agriculture	—	1,590
Residential Mortgage	2,071	2,166
Residential Construction	82	93
Consumer	212	505
	\$7,075	\$9,570

Non-accrual loans amounted to \$7,075,000 at June 30, 2014 and were comprised of seven residential mortgage loans totaling \$2,071,000, two residential construction loans totaling \$82,000, eight commercial real estate loans totaling \$2,016,000, nine commercial loans totaling \$2,694,000 and five consumer loans totaling \$212,000. Non-accrual loans amounted to \$9,570,000 at December 31, 2013 and were comprised of seven residential mortgage loans totaling \$2,166,000, two residential construction loans totaling \$93,000, nine commercial real estate loans totaling \$2,607,000, three agricultural loans totaling \$1,590,000, nine commercial loans totaling \$2,609,000 and five consumer loans totaling \$505,000. It is generally the Company's policy to charge-off the portion of any non-accrual loan that the Company does not expect to collect by writing the loan down to the estimated net realizable value of the underlying collateral.

An age analysis of past due loans, segregated by loan class, as of June 30, 2014 and December 31, 2013 is as follows:

(\$ in thousands)	30-59 Days Past Due	60-89 Days Past Due	90 Days or more Past Due	Total Past Due	Current	Total Loans
June 30, 2014						
Commercial	\$429	\$—	\$2,545	\$2,974	\$116,616	\$119,590
Commercial Real Estate	555	1,713	491	2,759	245,161	247,920
Agriculture	—	—	—	—	50,374	50,374
Residential Mortgage	1,033	—	119	1,152	50,439	51,591
Residential Construction	40	—	77	117	7,776	7,893
Consumer	14	8	19	41	51,663	51,704
Total	\$2,071	\$1,721	\$3,251	\$7,043	\$522,029	\$529,072
December 31, 2013						
Commercial	\$200	\$96	\$269	\$565	\$110,079	\$110,644
Commercial Real Estate	49	341	531	921	234,375	235,296
Agriculture	—	—	—	—	51,730	51,730
Residential Mortgage	207	—	99	306	52,503	52,809
Residential Construction	40	8	—	48	10,396	10,444
Consumer	26	—	23	49	54,030	54,079
Total	\$522	\$445	\$922	\$1,889	\$513,113	\$515,002

The Company had no loans 90 days or more past due and still accruing at June 30, 2014 and December 31, 2013.

Impaired Loans

A loan is considered impaired when, based on current information and events, it is probable that the Company will be unable to collect all amounts due according to the contractual terms of the loan agreement, including scheduled interest payments. Loans to be considered for impairment include non-accrual loans, troubled debt restructurings and loans with a risk rating of 6 (substandard) or worse. Once identified, impaired loans are measured individually for impairment using one of three methods: present value of expected cash flows discounted at the loan's effective interest rate; the loan's observable market price; and the fair value of collateral if the loan is collateral dependent. In general, any portion of the recorded investment in a collateral dependent loan in excess of the fair value of the collateral that can be identified as uncollectible, and is, therefore, deemed a confirmed loss, is promptly charged-off against the allowance for loan losses.

Impaired loans, segregated by loan class, as of June 30, 2014 and December 31, 2013 were as follows:

(\$ in thousands)	Unpaid Contractual Principal Balance	Recorded Investment with no Allowance	Recorded Investment with Allowance	Total Recorded Investment	Related Allowance
June 30, 2014					
Commercial	\$4,054	\$2,688	\$560	\$3,248	\$37
Commercial Real Estate	3,137	2,016	1,103	3,119	55
Agriculture	—	—	—	—	—
Residential Mortgage	6,269	2,071	3,250	5,321	652
Residential Construction	1,091	82	838	920	124
Consumer	1,682	342	973	1,315	25
Total	\$16,233	\$7,199	\$6,724	\$13,923	\$893

Residential Construction	1,115	94	849	943	254
Consumer	1,621	563	690	1,253	24
Total	\$20,678	\$12,031	\$6,726	\$18,757	\$1,125

The average recorded investment in impaired loans and the amount of interest income recognized on impaired loans during the three-month periods ended June 30, 2014 and June 30, 2013 was as follows:

(\$ in thousands)	Three Months Ended June 30, 2014		Three Months Ended June 30, 2013	
	Average Recorded Investment	Interest Income Recognized	Average Recorded Investment	Interest Income Recognized
Commercial	\$3,875	\$7	\$3,335	\$10
Commercial Real Estate	3,406	24	3,299	22
Agriculture	515	—	—	—
Residential Mortgage	5,357	42	5,299	34

Edgar Filing: FIRST NORTHERN COMMUNITY BANCORP - Form 10-Q

Residential Construction	925	12	1,028	12
Consumer	1,494	20	928	8
Total	\$15,572	\$105	\$13,889	\$86

14

The average recorded investment in impaired loans and the amount of interest income recognized on impaired loans during the six-month periods ended June 30, 2014 and June 30, 2013 was as follows:

(\$ in thousands)	Six Months Ended June 30, 2014		Six Months Ended June 30, 2013	
	Average Recorded Investment	Interest Income Recognized	Average Recorded Investment	Interest Income Recognized
Commercial	\$4,207	\$ 15	\$3,390	\$ 19
Commercial Real Estate	3,404	43	3,610	43
Agriculture	655	—	—	—
Residential Mortgage	5,484	74	5,082	61
Residential Construction	937	22	1,075	23
Consumer	1,286	34	963	16
Total	\$ 15,973	\$ 188	\$ 14,120	\$ 162

None of the interest on impaired loans was recognized using a cash basis of accounting for the three-month and six-month periods ended June 30, 2014 and June 30, 2013.

Troubled Debt Restructurings

The Company's loan portfolio includes certain loans that have been modified in a Troubled Debt Restructuring ("TDR"), which are loans on which concessions in terms have been granted because of the borrowers' financial difficulties and, as a result, the Company receives less than the current market based compensation for the loan. These concessions may include reductions in the interest rate, payment extensions, forgiveness of principal, forbearance, or other actions. Certain TDRs are placed on non-accrual status at the time of restructure and may only be returned to accruing status after considering the borrower's sustained repayment performance for a reasonable period, generally six months.

When a loan is modified, it is measured based upon the present value of future cash flows discounted at the contractual interest rate of the original loan agreement, or the fair value of collateral less selling costs if the loan is collateral dependent. If the value of the modified loan is less than the recorded investment in the loan, impairment is recognized through a specific allowance or a charge-off of the loan.

The Company had \$9,842,000 and \$9,929,000 in TDR loans as of June 30, 2014 and December 31, 2013, respectively. Specific reserves for TDR loans totaled \$893,000 and \$1,096,000 as of June 30, 2014 and December 31, 2013, respectively. TDR loans performing in compliance with modified terms totaled \$6,848,000 and \$6,750,000 as of June 30, 2014 and December 31, 2013, respectively. There were no commitments to advance more funds on existing TDR loans as of June 30, 2014.

Loans modified as troubled debt restructurings during the three-month periods ended June 30, 2014 and June 30, 2013 were as follows:

(\$ in thousands)	Three Months Ended June 30, 2014		
	Number of Contracts	Pre-modification outstanding recorded investment	Post-modification outstanding recorded investment
Commercial	1	\$ 49	\$ 49
Total	1	\$ 49	\$ 49

(\$ in thousands)	Three Months Ended June 30, 2013		
	Number of Contracts	Pre-modification outstanding recorded investment	Post-modification outstanding recorded investment
Residential Mortgage	1	\$ 568	\$ 377
Total	1	\$ 568	\$ 377

Loans modified as troubled debt restructurings during the six-month periods ended June 30, 2014 and June 30, 2013 were as follows:

(\$ in thousands)	Six Months Ended June 30, 2014		
	Number of Contracts	Pre-modification outstanding recorded investment	Post-modification outstanding recorded investment
Commercial	1	\$ 49	\$ 49
Consumer	2	498	498
Total	3	\$ 547	\$ 547

(\$ in thousands)	Six Months Ended June 30, 2013		
	Number of Contracts	Pre-modification outstanding recorded investment	Post-modification outstanding recorded investment
Commercial	1	\$ 244	\$ 244
Residential Mortgage	1	568	377
Total	2	\$ 812	\$ 621

The loan modifications generally involved reductions in the interest rate, payment extensions, forgiveness of principal, and forbearance. There were no loans modified as a troubled debt restructuring within the previous 12 months and for which there was a payment default during the three-month periods ended June 30, 2014 and June 30, 2013. There were no loans modified as a troubled debt restructuring within the previous 12 months and for which there was a payment default during the six-month periods ended June 30, 2014 and June 30, 2013.

Credit Quality Indicators

All loans are rated using the credit risk ratings and criteria adopted by the Company. Risk ratings are adjusted as future circumstances warrant. All credits risk rated 1, 2, 3 or 4 equate to a Pass as indicated by Federal and State regulatory agencies; a 5 equates to a Special Mention; a 6 equates to Substandard; a 7 equates to Doubtful; and 8 equates to a Loss. For the definitions of each risk rating, see Note 4 to our condensed consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2013.

The following table presents the risk ratings by loan class as of June 30, 2014 and December 31, 2013.

(\$ in thousands)	Pass	Special Mention	Substandard	Doubtful	Loss	Total
June 30, 2014						
Commercial	\$ 110,591	\$ 2,221	\$ 6,778	\$—	\$—	\$ 119,590

3. MORTGAGE OPERATIONS

Transfers and servicing of financial assets and extinguishments of liabilities are accounted for and reported based on consistent application of a financial-components approach that focuses on control. Transfers of financial assets that are sales are distinguished from transfers that are secured borrowings. Retained interests (mortgage servicing rights) in loans sold are measured by allocating the previous carrying amount of the transferred assets between the loans sold and retained interests, if any, based on their relative fair value at the date of transfer. Fair values are estimated using discounted cash flows based on a current market interest rate.

The Company recognizes a gain and a related asset for the fair value of the rights to service loans for others when loans are sold. The Company sold substantially its entire portfolio of conforming long-term residential mortgage loans originated during the three months ended June 30, 2014 for cash proceeds equal to the fair value of the loans.

The recorded value of mortgage servicing rights is included in other assets on the condensed consolidated balance sheets, and is amortized in proportion to, and over the period of, estimated net servicing revenues. The Company assesses capitalized mortgage servicing rights for impairment based upon the fair value of those rights at each reporting date. For purposes of measuring impairment, the rights are stratified based upon the product type, term and interest rates. Fair value is determined by discounting estimated net future cash flows from mortgage servicing activities using discount rates that approximate current market rates and estimated prepayment rates, among other assumptions. The amount of impairment recognized, if any, is the amount by which the capitalized mortgage servicing rights for a stratum exceeds their fair value. Impairment, if any, is recognized through a valuation allowance for each individual stratum. Changes in the carrying amount of mortgage servicing rights are reported in earnings under other operating income on the condensed consolidated statements of income.

Key assumptions used in measuring the fair value of mortgage servicing rights as of June 30, 2014 and December 31, 2013 were as follows:

	June 30, 2014		December 31, 2013	
Constant prepayment rate	11.37	%	9.09	%
Discount rate	10.05	%	10.05	%
Weighted average life (years)	6.55		7.05	

At June 30, 2014, the Company had \$1,184,000 of mortgage loans held-for-sale. At June 30, 2014, and December 31, 2013, the Company serviced real estate mortgage loans for others of \$241,638,000 and \$243,299,000, respectively.

The following table summarizes the Company's mortgage servicing rights assets as of June 30, 2014 and December 31, 2013. Mortgage servicing rights are included in Interest Receivable and Other Assets on the condensed consolidated balance sheets.

	(in thousands)			
	December 31, 2013	Additions	Reductions	June 30, 2014
Mortgage servicing rights	\$1,968	\$88	\$(172)	\$1,884
Valuation allowance	—	—	—	—
Mortgage servicing rights, net of valuation allowance	\$1,968	\$88	\$(172)	\$1,884

At June 30, 2014 and December 31, 2013, the estimated fair market value of the Company's mortgage servicing rights asset was \$2,140,000 and \$2,326,000, respectively.

The Company received contractually specified servicing fees of \$152,000 and \$155,000 for the three month periods ended June 30, 2014 and June 30, 2013, respectively. The Company received contractually specified servicing fees of \$305,000 and \$307,000 for the six month periods ended June 30, 2014 and June 30, 2013, respectively. Contractually specified servicing fees are included in other operating Income on the condensed consolidated statements of income.

4. OUTSTANDING SHARES AND EARNINGS PER SHARE

On January 23, 2014, the Board of Directors of the Company declared a 3% stock dividend payable as of March 31, 2014. All income per share amounts have been adjusted to give retroactive effect to stock dividends.

Earnings Per Share (EPS)

Basic EPS includes no dilution and is computed by dividing net income available to common shareholders by the weighted average number of common shares outstanding for the respective period. Quarter-to-date diluted EPS is computed by dividing net income available to common shareholders by the weighted average number of shares outstanding plus dilutive shares for the quarter. Year-to-date diluted EPS is computed by dividing net income available to common shareholders by the weighted average number of shares outstanding plus average dilutive shares year-to-date. Diluted shares include all common stock equivalents (“in-the-money” stock options, unvested restricted stock, stock units, warrants and rights, convertible bonds and preferred stock), which reflects the potential dilution of securities that could share in the earnings of the Company.

The following table presents a reconciliation of basic and diluted EPS for the three-month and six-month period ended June 30, 2014 and 2013.

	Three months ended June 30,		Six months ended June 30,	
	2014	2013	2014	2013
Basic earnings per share:				
Net income	\$1,339	\$1,442	\$2,703	\$2,805
Preferred stock dividend	\$(32)	\$(160)	\$(64)	\$(372)
Net income available to common stockholders	\$1,307	\$1,282	\$2,639	\$2,433
Weighted average common shares outstanding	9,729,443	9,701,348	9,722,758	9,695,015
Basic EPS	\$0.13	\$0.13	\$0.27	\$0.25
Diluted earnings per share:				
Net income	\$1,339	\$1,442	\$2,703	\$2,805
Preferred stock dividend	\$(32)	\$(160)	\$(64)	\$(372)
Net income available to common stockholders	\$1,307	\$1,282	\$2,639	\$2,433
Weighted average common shares outstanding	9,729,443	9,701,348	9,722,758	9,695,015
Effect of dilutive shares	45,296	34,112	48,057	32,883
Adjusted weighted average common shares outstanding	9,774,739	9,735,460	9,770,815	9,727,898
Diluted EPS	\$0.13	\$0.13	\$0.27	\$0.25

Stock options which were not included in the computation of diluted earnings per share because they would have had an anti-dilutive effect amounted to 244,101 shares and 326,577 shares for the three-month periods ended June 30, 2014 and 2013, respectively. Stock options which were not included in the computation of diluted earnings per share because they would have had an anti-dilutive effect amounted to 244,101 shares and 329,101 shares for the six-month periods ended June 30, 2014 and 2013, respectively. There were no non-vested shares of restricted stock not included in the computation of diluted earnings per share because they would have had an anti-dilutive effect for the three-month periods ended June 30, 2014 and 2013. Non-vested shares of restricted stock that were not included in the computation of diluted earnings per share because they would have had an anti-dilutive effect amounted to 12,376 shares and 4,301 shares for the six-month periods ended June 30, 2014 and 2013, respectively.

5. STOCK PLANS

On January 23, 2014, the Board of Directors of the Company declared a 3% stock dividend payable as of March 31, 2014. All stock options and restricted stock outstanding have been adjusted to give retroactive effect to stock dividends.

The following table presents the activity related to stock options for the three months ended June 30, 2014.

	Number of Shares	Weighted Average Exercise Price	Aggregate Intrinsic Value	Weighted Average Remaining Contractual Term (in years)
Options outstanding at Beginning of Period	301,457	\$12.01		
Granted	—	—		
Expired	—	—		
Cancelled / Forfeited	—	—		
Exercised	—	—		
Options outstanding at End of Period	301,457	\$12.01	\$231,049	3.46
Exercisable (vested) at End of Period	253,265	\$13.13	\$160,204	2.45

The following table presents the activity related to stock options for the six months ended June 30, 2014.

	Number of Shares	Weighted Average Exercise Price	Aggregate Intrinsic Value	Weighted Average Remaining Contractual Term (in years)
Options outstanding at Beginning of Period	368,177	\$11.52		
Granted	18,967	\$7.28		
Expired	(85,687)	\$8.89		
Cancelled / Forfeited	—	—		
Exercised	—	—		
Options outstanding at End of Period	301,457	\$12.01	\$231,049	3.46

Exercisable (vested) at End of Period	253,265	\$13.13	\$160,204	2.45
---------------------------------------	---------	---------	-----------	------

The weighted average grant date fair value per share of options granted during the six-month period ended June 30, 2014 was \$3.03 per share.

As of June 30, 2014, there was \$114,000 of total unrecognized compensation cost related to non-vested stock options. This cost is expected to be recognized over a weighted average period of approximately 2.88 years.

There was \$23,000 of recognized compensation cost related to stock options granted for the six months ended June 30, 2014.

A summary of the weighted average assumptions used in valuing stock options during the three months and six months ended June 30, 2014 is presented below.

	Three Months Ended June 30, 2014*	Six Months Ended June 30, 2014	
Risk Free Interest Rate	—	1.53	%
Expected Dividend Yield	—	0.00	%
Expected Life in Years	—	5	
Expected Price Volatility	—	45.93	%

* There were no stock options granted during the three-month period ended June 30, 2014.

The following table presents the activity related to non-vested restricted stock for the three months ended June 30, 2014.

	Number of Shares	Weighted Average Grant-Date Fair Value	Aggregate Intrinsic Value	Weighted Average Remaining Contractual Term (in years)
Non-vested Restricted stock outstanding at Beginning of Period	71,013	\$5.87		
Granted	—	—		
Cancelled / Forfeited	—	—		
Exercised/Released/Vested	—	—		
Non-vested restricted stock outstanding at End of Period	71,013	\$5.87	\$536,148	8.47

The following table presents the activity related to non-vested restricted stock for the six months ended June 30, 2014.

	Number of Shares	Weighted Average Grant-Date Fair Value	Aggregate Intrinsic Value	Weighted Average Remaining Contractual Term (in years)
Non-vested Restricted stock outstanding at Beginning of Period	61,541	\$4.88		
Granted	24,890	\$7.28		

Cancelled / Forfeited	(4,230)	\$4.74		
Exercised/Released/Vested	(11,188)	\$4.01		
Non-vested restricted stock outstanding at End of Period	71,013	\$5.87	\$536,148	8.47

The weighted average fair value of restricted stock granted during the six month period ended June 30, 2014 was \$7.28 per share.

As of June 30, 2014, there was \$271,000 of total unrecognized compensation cost related to non-vested restricted stock. This cost is expected to be recognized over a weighted average period of approximately 2.94 years.

There was \$54,000 of recognized compensation cost related to restricted stock awards for the six months ended June 30, 2014.

The Company has an Employee Stock Purchase Plan (“ESPP”). Under the ESPP, the Company is authorized to issue to eligible employees shares of common stock. There are 309,986 (adjusted for the 2014 stock dividend) shares authorized under the ESPP. The ESPP will terminate March 15, 2016. The ESPP is implemented by participation periods of not more than twenty-seven months each. The Board of Directors determines the commencement date and duration of each participation period. The Board of Directors approved the current participation period of November 24, 2013 to November 23, 2014. An eligible employee is one who has been continually employed for at least 90 days prior to commencement of a participation period. Under the terms of the ESPP, employees can choose to have up to 10 percent of their compensation withheld to purchase the Company’s common stock each participation period. The purchase price of the stock is 85 percent of the lower of the fair value on the last trading day before the date of participation or the fair value on the last trading day during the participation period.

As of June 30, 2014, there was \$11,000 of unrecognized compensation cost related to ESPP issuances. This cost is expected to be recognized over a weighted average period of approximately 0.50 years.

There was \$16,000 of recognized compensation cost related to ESPP issuances for the six-month period ended June 30, 2014.

The weighted average fair value at issuance date during the six-month period ended June 30, 2014 was \$1.56.

A summary of the weighted average assumptions used in valuing ESPP issuances during the three months and six months ended June 30, 2014 is presented below.

	Three Months Ended June 30, 2014	%	Six Months Ended June 30, 2014	%
Risk Free Interest Rate	0.12	%	0.12	%
Expected Dividend Yield	0.00	%	0.00	%
Expected Life in Years	1.00		1.00	
Expected Price Volatility	20.00	%	20.00	%

6. FAIR VALUE MEASUREMENT

The Company utilizes fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures. Securities available-for-sale and trading securities are recorded at fair value on a recurring basis. Additionally, from time to time, the Company may be required to record at fair value other assets on a non-recurring basis, such as loans held-for-sale, loans held-for-investment and certain other assets. These non-recurring fair value adjustments typically involve application of lower of cost or market accounting or write-downs of individual assets. Transfers between levels of the fair value hierarchy are recognized on the actual date of the event or circumstances that caused the transfer, which generally corresponds with the Company's quarterly valuation process.

Fair Value Hierarchy

The Company groups assets and liabilities at fair value in three levels, based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value. These levels are:

- Level 1 Valuation is based upon quoted prices for identical instruments traded in active markets.
- Level 2 Valuation is based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active and model-based valuation techniques for which all significant assumptions are observable or can be corroborated by observable market data.
- Level 3 Valuation is generated from model-based techniques that use at least one significant assumption not observable in the market. These unobservable assumptions reflect estimates of assumptions that market participants would use in pricing the asset or liability. Valuation techniques include use of option pricing models, discounted cash flow models, and similar techniques and include management judgment and estimation which may be significant.

Following is a description of valuation methodologies used for assets and liabilities recorded at fair value.

Investment Securities Available-for-Sale

Investment securities available-for-sale are recorded at fair value on a recurring basis. Fair value measurement is based upon quoted market prices, if available. If quoted market prices are not available, fair values are measured using independent pricing models or other model-based valuation techniques such as the present value of future cash flows, adjusted for the security's credit rating, prepayment assumptions, and other factors such as credit loss assumptions. Level 1 securities include those traded on an active exchange, such as the New York Stock Exchange, U.S. Treasury securities that are traded by dealers or brokers in active over-the-counter markets and money market funds. Level 2 securities include mortgage-backed securities issued by government sponsored entities, municipal bonds and corporate debt securities. Securities classified as Level 3 include asset-backed securities in less liquid markets where valuations include significant unobservable assumptions.

Loans Held-for-Sale

Loans held-for-sale are carried at the lower of cost or fair value. The fair value of loans held-for-sale is based on what secondary markets are currently offering for portfolios with similar characteristics. As such, the Company classifies loans subjected to non-recurring fair value adjustments as Level 2. At June 30, 2014 there were no loans held-for-sale that required a write-down.

Impaired Loans

The Company does not record loans at fair value on a recurring basis. However, from time to time, a loan is considered impaired and an allowance for loan losses is established. Loans for which it is probable that payment of interest and principal will not be made in accordance with the contractual terms of the loan agreement are considered impaired. Once a loan is identified as individually impaired, the Company measures impairment. The fair value of impaired loans is estimated using one of several methods, including collateral value, market value of similar debt, enterprise value, liquidation value and discounted cash flows. Inputs include external appraised values, management assumptions regarding market trends or other relevant factors, selling and commission costs ranging from 6% to 7%, and amount and timing of cash flows based upon current discount rates. Those impaired loans not requiring an allowance represent loans for which the fair value of the expected repayments or collateral exceed the recorded investments in such loans.

At June 30, 2014, certain impaired loans were considered collateral dependent and were evaluated based on the fair value of the underlying collateral securing the loan. Impaired loans where an allowance is established based on the fair value of collateral require classification in the fair value hierarchy. When a loan is evaluated based on the fair value of the underlying collateral securing the loan, the Company records the impaired loan as non-recurring Level 3.

Other Real Estate Owned

Other real estate assets (“OREO”) acquired through, or in lieu of, foreclosure are held-for-sale and are initially recorded at the lower of cost or fair value, less selling costs. Any write-downs to fair value at the time of transfer to OREO are charged to the allowance for loan losses. Appraisals or evaluations are then done periodically thereafter charging any additional write-downs or valuation allowances to the appropriate expense accounts. Values are derived from appraisals of underlying collateral and discounted cash flow analysis. OREO is classified within Level 3 of the hierarchy.

Loan Servicing Rights

Loan servicing rights are subject to impairment testing. The Company utilizes a third party service provider to calculate the fair value of the Company’s loan servicing rights. Loan servicing rights are measured at fair value as of the date of sale. The Company uses quoted market prices when available. Subsequent fair value measurements are determined using a discounted cash flow model. In order to determine the fair value of the loan servicing rights, the present value of expected future cash flows is estimated. Assumptions used include market discount rates, anticipated prepayment speeds, delinquency and foreclosure rates, and ancillary fee income.

The model used to calculate the fair value of the Company’s loan servicing rights is periodically validated by an independent external model validation group. The model assumptions and the loan servicing rights fair value estimates are also compared to observable trades of similar portfolios as well as to loan servicing rights broker valuations and industry surveys, as available. If the valuation model reflects a value less than the carrying value, loan servicing rights are adjusted to fair value through a valuation allowance as determined by the model. As such, the Company classifies loan servicing rights subjected to non-recurring fair value adjustments as Level 3.

Assets Recorded at Fair Value on a Recurring Basis

The table below presents the recorded amount of assets and liabilities measured at fair value on a recurring basis as of June 30, 2014.

June 30, 2014	(in thousands)			
	Total	Level 1	Level 2	Level 3
Securities of U.S. government agencies and corporations	\$46,304	\$—	\$46,304	\$—
Obligations of states and political subdivisions	28,094	—	28,094	—
Collateralized mortgage obligations	6,591	—	6,591	—
Mortgage-backed securities	80,991	—	80,991	—
Total investments at fair value	\$161,980	\$—	\$161,980	\$—

The table below presents the recorded amount of assets and liabilities measured at fair value on a recurring basis as of December 31, 2013.

December 31, 2013	Total	(in thousands)		
		Level 1	Level 2	Level 3
Securities of U.S. government agencies and corporations	\$52,685	\$—	\$52,685	\$—
Obligations of states and political subdivisions	27,387	—	27,387	—
Collateralized mortgage obligations	5,405	—	5,405	—
Mortgage-backed securities	87,792	—	87,792	—
Total investments at fair value	\$173,269	\$—	\$173,269	\$—

Assets Recorded at Fair Value on a Non-Recurring Basis

Assets measured at fair value on a non-recurring basis are included in the table below by level within the fair value hierarchy as of June 30, 2014.

June 30, 2014	Total	(in thousands)		
		Level 1	Level 2	Level 3
Impaired loans	\$413	\$—	\$—	\$413
Other real estate owned	462	—	—	462
Total assets at fair value	\$875	\$—	\$—	\$875

Assets measured at fair value on a non-recurring basis are included in the table below by level within the fair value hierarchy as of December 31, 2013.

December 31, 2013	Total	(in thousands)		
		Level 1	Level 2	Level 3
Impaired loans	\$1,095	\$—	\$—	\$1,095
Loan servicing rights	1,968	—	—	1,968
Total assets at fair value	\$3,063	\$—	\$—	\$3,063

There were no liabilities measured at fair value on a recurring or non-recurring basis at June 30, 2014 and December 31, 2013.

Key methods and assumptions used in measuring the fair value of impaired loans and loan servicing rights as of June 30, 2014 and December 31, 2013 were as follows:

Method	Assumption Inputs
Impaired loans	

	Collateral, market, income, enterprise, liquidation and discounted Cash Flows	External appraised values, management assumptions regarding market trends or other relevant factors; selling costs ranging 6% to 7%.
Loan servicing rights	Discounted cash flows	Present value of expected future cash flows is estimated using a discount rate factor of 10.05% as of June 30, 2014 and December 31, 2013. A constant prepayment rate of 11.37% and 9.09% as of June 30, 2014 and December 31, 2013, respectively, was utilized.
Other real estate owned	Collateral	External appraised values, management assumptions regarding market trends or other relevant factors; selling costs of 7%.

7. PREFERRED STOCK

On September 15, 2011, the Company issued to the U.S. Treasury under the United States Department of Treasury Small Business Lending Fund (SBLF) 22,847 shares of the Company's Non-Cumulative Perpetual Preferred Stock, Series A (SBLF Shares), having a liquidation preference per share equal to \$1,000, for an aggregate purchase price of \$22,847,000.

On September 15, 2011, the Company redeemed from the U.S. Treasury, using the partial proceeds from the issuance of the SBLF Shares, all 17,390 outstanding shares of its Fixed Rate Cumulative Perpetual Preferred Stock, Series A, liquidation amount \$1,000 per share, for a redemption price of \$17,390,000, plus accrued but unpaid dividends at the date of redemption.

On February 8, 2013, the Company redeemed \$10,000,000 of the \$22,847,000 in preferred stock it issued to the U.S. Treasury under the SBLF program.

8. FAIR VALUES OF FINANCIAL INSTRUMENTS

The following methods and assumptions were used by the Company in estimating its fair value disclosures for financial instruments:

Cash and Cash Equivalents

The carrying amounts reported in the condensed consolidated balance sheets for cash and short-term instruments are a reasonable estimate of fair value. The carrying amount is a reasonable estimate of fair value because of the relatively short term between the origination of the instrument and its expected realization. Therefore, the Company believes the measurement of fair value of cash and cash equivalents is derived from Level 1 inputs.

Other Equity Securities

The carrying amounts reported in the condensed consolidated balance sheets approximate fair value as the shares can only be redeemed by the issuing institution. The Company believes the measurement of the fair value of other equity securities is derived from Level 2 inputs.

Loans Receivable

For variable-rate loans that reprice frequently and with no significant change in credit risk, fair values are based on carrying values. The fair values for other loans (e.g., commercial real estate and rental property mortgage loans, commercial and industrial loans, and agricultural loans) are estimated using discounted cash flow analyses, using interest rates currently being offered for loans with similar terms to borrowers of similar credit quality. The allowance for loan losses is considered to be a reasonable estimate of loan discount due to credit risks. Given that there are loans with specific terms that are not readily available, the Company believes the fair value of loans receivable is derived from Level 3 inputs.

Loans Held-for-Sale

For loans held for sale, the fair value is based on what secondary markets are currently offering for portfolios with similar characteristics. See FN(6), Fair Value Measurement.

Interest Receivable and Payable

The carrying amount of interest receivable and payable approximates its fair value. The Company believes the measurement of the fair value of interest receivable and payable is derived from Level 2 inputs.

Mortgage Servicing Rights

The Company uses quoted market prices when available. Subsequent fair value measurements are determined using a discounted cash flow model. In order to determine the fair value of the MSR, the present value of expected future cash flows is estimated. Assumptions used include market discount rates, anticipated prepayment speeds, delinquency and foreclosure rates, and ancillary fee income. This model is periodically validated by an independent external model validation group. The model assumptions and the MSR fair value estimates are also compared to observable trades of similar portfolios as well as to MSR broker valuations and industry surveys, as available.

Deposit Liabilities

The Company measures fair value of deposits using Level 2 and Level 3 inputs. The fair value of deposits were derived by discounting their expected future cash flows back to their present values based on the FHLB yield curve, and their expected decay rates for non maturing deposits. The Company is able to obtain FHLB yield curve rates as of the measurement date, and believes these inputs fall under Level 2 of the fair value hierarchy. Decay rates were developed through internal analysis, and are supported by recent years of the Bank's transaction history. The inputs used by the Company to derive the decay rate assumptions are unobservable inputs, and therefore fall under Level 3 of the fair value hierarchy.

Limitations

Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instrument. These estimates do not reflect any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument. Because no market exists for a significant portion of the Company's financial instruments, fair value estimates are based on judgments regarding future expected loss experience, current economic conditions, risk characteristics of various financial instruments, and other factors. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

Fair value estimates are based on existing on-and off-balance sheet financial instruments without attempting to estimate the value of anticipated future business and the value of assets and liabilities that are not considered financial instruments. Other significant assets and liabilities that are not considered financial assets or liabilities include deferred tax liabilities and premises and equipment. In addition, the tax ramifications related to the realization of the unrealized gains and losses can have a significant effect on fair value estimates and have not been considered in many of the estimates.

The estimated fair values of the Company's financial instruments for the periods ended June 30, 2014 and December 31, 2013 are approximately as follows:

	Level	June 30, 2014		December 31, 2013	
		Carrying amount	Fair value	Carrying amount	Fair value
Financial assets:					
Cash and cash equivalents	1	\$207,339	\$207,339	\$177,254	\$177,254
Other equity securities	2	3,934	3,934	3,717	3,717
Loans receivable:					
Net loans	3	522,123	519,166	506,850	503,605
Loans held-for-sale	2	1,184	1,229	1,263	1,290

Edgar Filing: FIRST NORTHERN COMMUNITY BANCORP - Form 10-Q

Interest receivable	2	2,625	2,625	2,636	2,636
Mortgage servicing rights	3	1,884	2,140	1,968	2,326
Financial liabilities:					
Deposits	3	834,498	821,363	803,787	789,841
Interest payable	2	75	75	71	71

9. INVESTMENT SECURITIES

The amortized cost, unrealized gains and losses and estimated fair values of investments in debt and other securities at June 30, 2014 are summarized as follows:

(in thousands)	Amortized cost	Unrealized gains	Unrealized losses	Estimated fair value
Investment securities available-for-sale:				
Securities of U.S. government agencies and corporations	\$46,862	\$42	\$(600)	\$46,304
Obligations of states and political subdivisions	27,455	768	(129)	28,094
Collateralized mortgage obligations	6,539	52	—	6,591
Mortgage-backed securities	80,059	1,106	(174)	80,991
Total debt securities	\$160,915	\$1,968	\$(903)	\$161,980

The amortized cost, unrealized gains and losses and estimated fair values of investments in debt and other securities at December 31, 2013 are summarized as follows:

(in thousands)	Amortized cost	Unrealized gains	Unrealized losses	Estimated fair value
Investment securities available-for-sale:				
Securities of U.S. government agencies and corporations	\$53,960	\$8	\$(1,283)	\$52,685
Obligations of states and political subdivisions	27,528	409	(550)	27,387
Collateralized mortgage obligations	5,359	46	—	5,405
Mortgage-backed securities	87,486	718	(412)	87,792
Total debt securities	\$174,333	\$1,181	\$(2,245)	\$173,269

There were no proceeds from sales of available-for-sale securities for the six-month and three-month periods ended June 30, 2014 and June 30, 2013. There were no gross realized gains from sales or calls of available-for-sale securities for the six-month and three-month periods ended June 30, 2014. Gross realized gains from calls of available-for-sale securities were \$4 and \$0 for the six-month and three-month periods ended June 30, 2013, respectively. There was a \$50 gross realized loss from other equity securities for the six-month and three-month periods ended June 30, 2014. There were no gross realized losses from sales of available-for-sale securities for the six-month and three-month periods ended June 30, 2013.

The amortized cost and estimated market value of debt and other securities at June 30, 2014, by contractual and expected maturity, are shown in the following table.

(in thousands)	Amortized cost	Estimated fair value
Due in one year or less	\$12,128	\$12,143
Due after one year through five years	109,097	109,884
Due after five years through ten years	35,329	35,379
Due after ten years	4,361	4,574

\$160,915 \$161,980

Expected maturities may differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties. Securities due after one year through five years included mortgage-backed securities and collateralized mortgage obligations with expected maturities totaling \$83,361,000. The maturities on these securities were based on the average lives of the securities.

An analysis of gross unrealized losses of the available-for-sale investment securities portfolio as of June 30, 2014, follows:

(in thousands)	Less than 12 months		12 months or more		Total	
	Fair Value	Unrealized losses	Fair Value	Unrealized losses	Fair Value	Unrealized losses
Securities of U.S. government agencies and corporations	\$2,007	\$(1)	\$29,532	\$(599)	\$31,539	\$(600)
Obligations of states and political subdivisions	2,977	(22)	5,970	(107)	8,947	(129)
Mortgaged-backed securities	—	—	11,807	(174)	11,807	(174)
Total	\$4,984	\$(23)	\$47,309	\$(880)	\$52,293	\$(903)

No decline in value was considered “other-than-temporary” during 2014. Six securities, all considered investment grade, which had a fair value of \$4,984,000 and a total unrealized loss of \$23,000 have been in an unrealized loss position for less than twelve months as of June 30, 2014. Thirty eight securities, all considered investment grade, which had a fair value of \$47,309,000 and a total unrealized loss of \$880,000 had been in an unrealized loss position for more than twelve months as of June 30, 2014. The declines in fair value were attributable to changes in interest rates. We have evaluated the credit ratings of our investment securities and their issuer and/or insurers, and based on this evaluation have determined that no investment security in our investment portfolio is other-than-temporarily impaired. As the Company does not intend to sell these securities and it is not more likely than not that the Company will be required to sell these securities prior to their anticipated recovery, these investments are not considered other-than-temporarily impaired.

An analysis of gross unrealized losses of the available-for-sale investment securities portfolio as of December 31, 2013, follows:

	Less than 12 months		12 months or more		Total	
	Fair Value	Unrealized losses	Fair Value	Unrealized losses	Fair Value	Unrealized losses

11. FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET RISK

The Company is a party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit in the form of loans or through standby letters of credit. These instruments involve, to varying degrees, elements of credit and interest rate risk in excess of the amounts recognized in the balance sheet. The contract amounts of those instruments reflect the extent of involvement the Company has in particular classes of financial instruments.

The Bank's exposure to credit loss in the event of non-performance by the other party to the financial instrument for commitments to extend credit and standby letters of credit is represented by the contractual notional amount of those instruments. The Bank uses the same credit policies in making commitments and conditional obligations as it does for on-balance sheet instruments.

Financial instruments, whose contract amounts represent credit risk at the indicated periods, were as follows:

(in thousands)	June 30, 2014	December 31, 2013
Undisbursed loan commitments	\$170,162	\$172,563
Standby letters of credit	1,854	2,489
Commitments to sell loans	2,848	3,209
	\$174,864	\$178,261

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since many of the commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. The Bank evaluates each customer's creditworthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by the Bank upon extension of credit, is based on management's credit evaluation. Collateral held varies but may include accounts receivable, inventory, property, plant and equipment, and income-producing commercial properties.

Standby letters of credit are conditional commitments issued by the Bank to guarantee the performance of a customer to a third party. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan facilities to customers. The Bank issues both financial and performance standby letters of credit. The financial standby letters of credit are primarily to guarantee payment to third parties. At June 30, 2014, there were no financial standby letters of credit outstanding. The performance standby letters of credit are typically issued to municipalities as specific performance bonds. At June 30, 2014, there was \$1,854,000 issued in performance standby letters of credit. At June 30, 2014, the Bank has experienced no draws on these letters of credit, resulting in no related liability included on their balance sheet, however, should a triggering event occur, the Bank either has collateral in excess of the letter of credit or imbedded agreements of recourse from the customer. The Bank has set aside a reserve for unfunded commitments in the amount of \$793,000 at June 30, 2014, which is recorded in "interest payable and other liabilities" on the Condensed Consolidated Balance Sheets.

Commitments to extend credit and standby letters of credit bear similar credit risk characteristics as outstanding loans. As of June 30, 2014, the Company had no off-balance sheet derivatives requiring additional disclosure.

Mortgage loans sold to investors may be sold with servicing rights retained, for which the Company makes only standard legal representations and warranties as to meeting certain underwriting and collateral documentation standards. In the past two years, the number of loans the Company has had to repurchase due to deficiencies in underwriting or loan documentation is not significant. Management believes that any liabilities that may result from such recourse provisions are not significant.

ITEM 2. – MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

FORWARD-LOOKING STATEMENTS

This report includes forward-looking statements, which may include forecasts of our financial results and condition, expectations for our operations and business, and our assumptions for those forecasts and expectations. Do not rely unduly on forward-looking statements. Actual results might differ significantly compared to our forecasts and expectations. See Part I, Item 1A. “Risk Factors,” and the other risks described in our 2013 Annual Report on Form 10-K and our Quarterly Reports on Form 10-Q for factors to be considered when reading any forward-looking statements in this filing.

This report and other reports or statements which we may release includes forward-looking statements, which are subject to the “safe harbor” created by section 27A of the Securities Act of 1933, as amended, and section 21E of the Securities Exchange Act of 1934, as amended. We may make forward-looking statements in our Securities and Exchange Commission (SEC) filings, press releases, news articles and when we are speaking on behalf of the Company. Forward-looking statements can be identified by the fact that they do not relate strictly to historical or current facts. Often, they include the words “believe,” “expect,” “target,” “anticipate,” “intend,” “plan,” “seek,” “strive,” “estimate,” “potential,” “project,” or words of similar meaning, or future or conditional verbs such as “will,” “would,” “should,” “could,” “might,” or “may.” These forward-looking statements are intended to provide investors with additional information with which they may assess our future potential. All of these forward-looking statements are based on assumptions about an uncertain future and are based on information available to us at the date of these statements. We do not undertake to update forward-looking statements to reflect facts, circumstances, assumptions or events that occur after the date any forward-looking statements are made.

In this document and in other SEC filings or other public statements, for example we make forward-looking statements relating to the following topics, among others:

- Our business objectives, strategies and initiatives, our organizational structure, the growth of our business and our competitive position and prospects, and the affect of competition on our business and strategies
 - Our assessment of significant factors and developments that have affected or may affect our results
- Pending and recent legal and regulatory actions, and future legislative and regulatory developments, including the effects of the Dodd-Frank Wall Street Reform and Protection Act (the “Dodd-Frank Act”) and other legislation and governmental measures introduced in response to the financial crises affecting the banking system, financial markets and the U.S. economy
 - Regulatory controls and processes and their impact on our business
 - The costs and effects of legal or regulatory actions
 - We do not expect draws on performance letters of credit
- Our regulatory capital requirements, including the recently adopted capital rules by the U.S. federal banking agencies

- We do not anticipate paying a cash dividend on our common stock in the foreseeable future
 - Credit quality and provision for credit losses

- Our allowances for credit losses, including the conditions we consider in determining the unallocated allowance and our portfolio credit quality, underwriting standards, and risk grading
 - Our assessment of economic conditions and trends and credit cycles and their impact on our business
 - The seasonal nature of our business
- The impact of changes in interest rates and our strategy to manage our interest rate risk profile and the possible effect of increases in residential mortgage interest rates on new originations and refinancing of existing residential mortgage loans.
- Loan portfolio composition and risk grade trends, expected charge offs, portfolio credit quality, our strategy regarding troubled debt restructurings (TDRs), delinquency rates and our underwriting standards
 - Our deposit base including renewal of time deposits
- The impact on our net interest income and net interest margin from the current low-interest rate environment
 - The Company does not anticipate any significant increase or decrease in unrecognized tax benefits
 - Our pension and retirement plan costs
 - Our liquidity position
- Critical accounting policies and estimates, the impact or anticipated impact of recent accounting pronouncements or changes in accounting principles
 - Expected rates of return, maturities, loss exposure, growth rates, yields and projected results
 - The possible impact of the California drought on economic conditions, especially in the agricultural sector.
 - Maintenance of insurance coverage appropriate for our operations
 - Threats to the banking sector and our business due to cybersecurity issues and attacks
 - Descriptions of assumptions underlying or relating to any of the of the foregoing

Readers of this document should not rely on any forward-looking statements, which reflect only our management's belief as of the date of this report. There are numerous risks and uncertainties that could and will cause actual results to differ materially from those discussed in our forward-looking statements. Many of these factors are beyond our ability to control or predict and could have a material adverse effect on our financial condition and results of operations or prospects. Such risks and uncertainties include, but are not limited to those listed in Item 1A "Risk Factors" of Part II, Item 2 "Management's Discussion and Analysis of Financial Condition and Results of Operations" of Part I of this Form 10-Q and "Supervision and Regulation" of our 2013 Annual Report on Form 10-K, and in our other reports to the SEC.

INTRODUCTION

This overview of Management's Discussion and Analysis highlights selected information in this report and may not contain all of the information that is important to you. For a more complete understanding of trends, events, commitments, uncertainties, liquidity, capital resources and critical accounting estimates, you should carefully read this entire report and any other reports to the Securities and Exchange Commission ("SEC"), together with our Consolidated Financial Statements and the Notes to Consolidated Financial Statements included in our Annual Report on Form 10-K for the year ended December 31, 2013.

Our subsidiary, First Northern Bank of Dixon (the "Bank"), is a California state-chartered bank that derives most of its revenues from lending and deposit taking in the Sacramento Valley region of Northern California. Interest rates, business conditions and customer confidence all affect our ability to generate revenues. In addition, the regulatory environment and competition can present challenges to our ability to generate those revenues.

Significant results and developments during the second quarter and year-to-date 2014 include:

- Net income of \$2.7 million for the six months ended June 30, 2014, down 3.6% from \$2.8 million earned for the same fiscal period last year.
- Net income available to common shareholders of \$2.6 million for the six months ended June 30, 2014, up 8.3% from \$2.4 million for the same fiscal period last year.
- Diluted income per share for the six-month period ended June 30, 2014 was \$0.27, up 8.0% from diluted income per share of \$0.25 in the same period last year.
- Net interest income increased in the six months ended June 30, 2014 by \$1.1 million, or 8.2%, to \$14.5 million from \$13.4 million in the same period last year. The increase in net interest income was primarily attributable to an increase in interest income on loans and securities. The increase in interest income on loans is primarily due to an increase in average loans, partially offset by a decrease in interest yield. The increase in interest income on securities is primarily due to an increase in interest yield, partially offset by a decrease in average investment securities. Net interest margin decreased from 3.41% for the six-month period ending June 30, 2013 to 3.33% for the same period ending June 30, 2014.
- Provision for loan losses of \$1.2 million for the six-month period ended June 30, 2014 compared to a provision for loan losses of \$0.8 million for the same period in 2013.
- Total assets at June 30, 2014 were \$930.8 million, an increase of \$33.2 million, or 3.7%, compared to total assets at December 31, 2013.
- Total net loans at June 30, 2014 (including loans held-for-sale) increased \$15.2 million, or 3.0%, to \$523.3 million compared to December 31, 2013.
- Total investment securities at June 30, 2014 decreased \$11.3 million, or 6.5%, to \$162.0 million compared to December 31, 2013.

Edgar Filing: FIRST NORTHERN COMMUNITY BANCORP - Form 10-Q

- Total deposits of \$834.5 million at June 30, 2014, represented an increase of \$30.7 million, or 3.8%, compared to December 31, 2013.
- Net income of \$1.3 million for the three months ended June 30, 2014, down 7.1% from \$1.4 million for the same fiscal period last year.
- Net income available to common shareholders of \$1.3 million for the three months ended June 30, 2014 and June 30, 2013.
- Diluted income per share for the three-month periods ended June 30, 2014 and June 30, 2013 was \$0.13.

SUMMARY

The Company recorded net income of \$2,703,000 for the six-month period ended June 30, 2014, representing a decrease of \$102,000 from net income of \$2,805,000 for the same period in 2013. The Company recorded net income of \$1,339,000 for the three-month period ended June 30, 2014, representing a decrease of \$103,000 from net income of \$1,442,000 for the same period in 2013.

The following tables present a summary of the results for the three-month and six-month periods ended June 30, 2014 and 2013, and a summary of our financial condition at June 30, 2014 and December 31, 2013.

(3) Net interest margin is computed by dividing net interest income by total average interest-earning assets. For disclosure purposes yield /rates are annualized by dividing the number of days in the reported period by 365 days.

CHANGES IN FINANCIAL CONDITION

The assets of the Company set forth in the Unaudited Condensed Consolidated Balance Sheets reflect a \$30,085,000 increase in cash and cash equivalents, a \$11,289,000 decrease in investment securities available-for-sale, a \$15,273,000 increase in net loans held-for-investment, a \$79,000 decrease in loans held-for-sale, and a \$1,442,000 decrease in interest receivable and other assets from December 31, 2013 to June 30, 2014. The increase in cash and cash equivalents was due to an increase in interest bearing due from federal reserve bank accounts. The decrease in investment securities available-for-sale was primarily the result of call and maturities of agency bonds, and amortization on mortgage backed securities, partially offset by the purchase of U.S. government agencies and mortgage backed securities. The increase in loans held-for-investment was due to increases in the following loan categories as a result of increased loan demand: commercial and commercial real estate. The increase in loans held-for-investment was partially offset by decreases in the following loan categories: agriculture, residential mortgage, residential construction and consumer. The decrease in loans held-for-sale was due to timing of sales of loans held-for-sale. The decrease in interest receivable and other assets was mainly due to a decrease in accrued income taxes receivable, which was partially offset by the addition of other real estate owned property.

The liabilities of the Company set forth in the Unaudited Condensed Consolidated Balance Sheets reflect an increase in total deposits of \$30,711,000 from December 31, 2013 to June 30, 2014. The increase in deposits was due to increases in interest-bearing transaction deposits, savings accounts, money market accounts, and time deposits, which were partially offset by decreases in demand accounts.

CHANGES IN RESULTS OF OPERATIONS

Interest Income

The Federal Open Market Committee made no changes to the Federal Funds rate during the six-month period ended June 30, 2014.

Interest income on loans for the six-month period ended June 30, 2014 was up 7.2% from the same period in 2013, increasing from \$12,205,000 to \$13,078,000 and was up 6.9% for the three-month period ended June 30, 2014 over the same period in 2013, increasing from \$6,234,000 to \$6,664,000. The increase in interest income on loans for the six-month period ended June 30, 2014 as compared to the same period a year ago was primarily due to an increase in average loans, partially offset by a 28 basis point decrease in loan yields. The increase in interest income on loans for the three-month period ended June 30, 2014 as compared to the same period a year ago was primarily due to an increase in average loans, partially offset by a 22 basis point decrease in loan yields. The decrease in loan yields was primarily due to the origination of new loans and the repricing of existing loans at lower rates.

Interest income on investment securities available-for-sale for the six-month period ended June 30, 2014 was up 9.7% from the same period in 2013, increasing from \$1,539,000 to \$1,688,000 and was up 9.3% for the three-month period ended June 30, 2014 over the same period in 2013, increasing from \$746,000 to \$815,000. The increase in interest income on investment securities for the six-month and three-month periods ended June 30, 2014 as compared to the same period a year ago was primarily due to an increase in the yields of investment securities of 44 and 45 basis points, respectively, which were partially offset by an decrease in average investment securities. The increase in investment securities yields was primarily due to slower pre-payments resulting in slower amortization of premiums on mortgage backed securities.

Interest income on interest-bearing due from banks for the six-month period ended June 30, 2014 was up 31.6% from the same period in 2013, increasing from \$212,000 to \$279,000 and was up 43.9% for the three-month period ended June 30, 2014 over the same period in 2013, increasing from \$107,000 to \$154,000. The increase in interest income on interest-bearing due from banks for the six-month period ended June 30, 2014 as compared to the same period a year ago was due to an increase in the average interest-bearing due from banks balance outstanding, partially offset by a 2 basis point decrease in interest bearing due from banks yield. The increase in interest income on interest-bearing due from banks for the three-month period ended June 30, 2014 as compared to the same period a year ago was due to an increase in average interest-bearing due from banks, offset by a 2 basis point decrease in interest bearing due from banks yield.

The Company had no Federal Funds sold balances during the six-month periods ended June 30, 2014 and June 30, 2013.

Interest Expense

Interest expense on deposits and other borrowings for the six-month period ended June 30, 2014 was up 2.3% from the same period in 2013, increasing from \$646,000 to \$661,000 and was up 7.7% for the for the three-month period ended June 30, 2014 over the same period in 2013, from \$312,000 to \$336,000. The increase in interest expense during the six-month period ended June 30, 2014 was due to an increase in the average balance of interest-bearing liabilities, which was partially offset by 2 basis point decrease in the Company's average cost of funds. The increase in interest expense during the three-month period ended June 30, 2014 was due to an increase in the average balance of interest-bearing liabilities, which was partially offset by 1 basis point decrease in the Company's average cost of funds. The Company had no FHLB advances and related interest expense during the six-month periods ended June 30, 2014 and June 30, 2013.

Provision for Loan Losses

There was a provision for loan losses of \$1,200,000 for the six-month period ended June 30, 2014 compared to a provision for loan losses of \$800,000 for the same period in 2013. There was a provision for loan losses of \$600,000 for the three-month period ended June 30, 2014 compared to a provision for loan losses of \$400,000 for the same period in 2013. The allowance for loan losses was approximately \$8,174,000, or 1.54% of total loans, at June 30, 2014 compared to \$9,353,000, or 1.81% of total loans, at December 31, 2013. The allowance for loan losses is maintained at a level considered adequate by management to provide for probable loan losses inherent in the loan portfolio.

The increase in the provision for loan losses during the three-month and six-month periods in 2014 was primarily due to increased net charge-offs compared to the same periods in 2013.

Provision for Unfunded Lending Commitment Losses

There was no provision for unfunded lending commitment losses for the six-month periods ended June 30, 2014 and June 30, 2013.

The provision for unfunded lending commitment losses is included in non-interest expense in the Condensed Consolidated Statements of Income.

Other Operating Income

Other operating income was down 31.8% for the six-month period ended June 30, 2014 from the same period in 2013, decreasing from \$5,170,000 to \$3,526,000.

This decrease was primarily due to decreases in service charges on deposit accounts, gains on sales of loans held for sale, investment and brokerage services income, mortgage brokerage income, and loan servicing income, which was partially offset by increases in fiduciary activities income and ATM fees. The decrease in service charges on deposit accounts was primarily due to a decrease in the volume of service charges on checking accounts. The decrease in gains on sales of loans held-for-sale was due to an increase in market interest rates and a corresponding decrease in sales volume. The decrease in investment and brokerage services income and mortgage brokerage income was due to a decrease in the demand for those services. The decrease in loan servicing income was primarily due to a decrease in mortgage servicing assets recorded and the prior year reversal of impairment expense, which was partially offset by a decrease in mortgage servicing amortization expense. The increase in fiduciary activities income was primarily due to an increase in the demand for those services as well as an increase in the market value of fiduciary assets. The increase in ATM fees was primarily due to an increase in volume of transactions and ATM fees charged.

Other operating income was down 30.3% for the three-month period ended June 30, 2014 from the same period in 2013, decreasing from \$2,549,000 to \$1,778,000.

This decrease was primarily due to decreases in service charges on deposit accounts, gains on sales of loans held for sale, investment and brokerage services income, mortgage brokerage income, and loan servicing income, which was partially offset by increases in fiduciary activities income and ATM fees. The decrease in service charges on deposit accounts was primarily due to a decrease in the volume of service charges on checking accounts. The decrease in gains on sales of loans held-for-sale was due to an increase in market interest rates and a decrease in sales volume. The decrease in investment and brokerage services income and mortgage brokerage income was due to a decrease in the demand for those services. The decrease in loan servicing income was primarily due to a decrease in mortgage servicing assets recorded and the prior year reversal of impairment expense, which was partially offset by a decrease in mortgage servicing amortization expense. The increase in fiduciary activities income was primarily due to an increase in the demand for those services as well as an increase in the market value of fiduciary assets. The increase in ATM fees was primarily due to an increase in volume of transactions and ATM fees charged.

Other Operating Expenses

Total other operating expenses were down 5.2% for the six-month period ended June 30, 2014 from the same period in 2013, decreasing from \$13,605,000 to \$12,903,000.

The decrease was primarily due to decreases in salaries and employee benefits and occupancy and equipment expense, which was partially offset by increases in other expenses. The decrease in salaries and employee benefits was primarily due to a decrease in commissions, contingent compensation, and profit sharing retirement. Commissions decreased as a result of decreased number of mortgage origination transactions and a reduction in investment and brokerage assets. The decrease in salaries and employee benefit expense was partially offset by an increase in regular salaries, which were due to routine merit increases. The decrease in occupancy and equipment expense was primarily due to decreases in rentals on solar equipment and depreciation expense. The increase in other expenses was primarily due to increases in sundry losses, and other miscellaneous expenses, which was partially offset by a decrease in consulting fees.

Total other operating expenses were down 3.8% for the three-month period ended June 30, 2014 from the same period in 2013, decreasing from \$6,851,000 to \$6,590,000.

The decrease was primarily due to decreases in salaries and employee benefits expense, which was partially offset by increases in other expenses. The decrease in salaries and employee benefits was primarily due to a decrease in commissions, contingent compensation, and profit sharing retirement. Commissions decreased as a result of decreased number of mortgage origination transactions and a reduction in investment and brokerage assets. The decrease in salaries and employee benefit expense was partially offset by an increase in regular salaries, which were due to routine merit increases. The increase in other expenses was primarily due to increases in data processing, loan collection expense, and other miscellaneous expenses.

The following table sets forth other miscellaneous operating expenses by category for the three-month and six-month periods ended June 30, 2014 and 2013.

	(in thousands)			
	Three months ended June 30, 2014	Three months ended June 30, 2013	Six months ended June 30, 2014	Six months ended June 30, 2013
Other miscellaneous operating expenses				
FDIC assessments	\$155	\$151	\$290	\$300
Contributions	27	32	62	50
Legal fees	49	57	72	82
Accounting and audit fees	97	90	177	168
Consulting fees	149	155	277	389
Postage expense	89	93	179	173
Telephone expense	37	65	70	94
Public relations	61	58	118	96
Training expense	37	25	62	64
Loan origination expense	142	148	260	259
Computer software depreciation	14	27	37	60
Sundry losses	37	26	80	17
Loan collection expense	101	16	147	32
Other miscellaneous expense	370	387	748	733
Total other miscellaneous operating expenses	\$1,365	\$1,330	\$2,579	\$2,517

Income Taxes

The Company's tax rate, the Company's income or loss before taxes and the amount of tax relief provided by non-taxable earnings primarily affect the Company's provision for income taxes.

In the six months ended June 30, 2014, the Company's expense for income taxes decreased \$98,000 from the same period last year, from \$1,330,000 to \$1,232,000.

In the three months ended June 30, 2014, the Company's provision for income taxes decreased \$84,000 from the same period last year, from \$691,000 to \$607,000.

The decrease in provision for income taxes for the period presented is primarily attributable to the respective level of earnings combined with the interim effective tax rate and the incidence of allowable deductions, in particular non-taxable municipal bond income, tax credits generated from low-income housing investments, solar tax credits, and excludable interest income.

Off-Balance Sheet Commitments

The following table shows the distribution of the Company's undisbursed loan commitments at the dates indicated.

	(in thousands)	
	June 30, 2014	December 31, 2013
Undisbursed loan commitments	\$170,162	\$172,563
Standby letters of credit	1,854	2,489
Commitments to sell loans	2,848	3,209
	\$174,864	\$178,261

The reserve for unfunded lending commitments amounted to \$793,000 at June 30, 2014 and December 31, 2013, respectively. The reserve for unfunded lending commitments is included in other liabilities on the Condensed Consolidated Balance Sheets.

Asset Quality

The Company manages asset quality and credit risk by maintaining diversification in its loan portfolio and through review processes that include analysis of credit requests and ongoing examination of outstanding loans and delinquencies, with particular attention to portfolio dynamics and loan mix. The Company strives to identify loans experiencing difficulty early enough to correct the problems, to record charge-offs promptly based on realistic assessments of collectability and current collateral values and to maintain an adequate allowance for loan losses at all times. Asset quality reviews of loans and other non-performing assets are administered using credit risk rating standards and criteria similar to those employed by state and federal banking regulatory agencies. The federal bank and thrift regulatory agencies utilize the following definitions for assets adversely classified for supervisory purposes:

- **Substandard Assets** – A substandard asset is inadequately protected by the current sound worth and paying capacity of the obligor or of the collateral pledged, if any. Assets so classified must have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the institution will sustain some loss if the deficiencies are not corrected.
- **Doubtful Assets** – An asset classified doubtful has all the weaknesses inherent in one classified substandard with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable and improbable.

Other Real Estate Owned and loans rated Substandard and Doubtful are deemed "classified assets". This category, which includes both performing and non-performing assets, receives an elevated level of attention regarding collection.

The following tables summarize the Company's non-accrual loans net of guarantees of the State of California and U.S. Government by loan category at June 30, 2014, and December 31, 2013.

	At June 30, 2014			At December 31, 2013		
	Gross	Guaranteed	Net	Gross	Guaranteed	Net
(dollars in thousands)						
Residential mortgage	\$2,071	\$—	\$2,071	\$2,166	\$—	\$2,166
Residential construction	82	—	82	93	—	93
Commercial real estate	2,016	193	1,823	2,607	200	2,407
Agriculture	—	—	—	1,590	—	1,590
Commercial	2,694	97	2,597	2,609	202	2,407
Consumer	212	19	193	505	23	482
Total non-accrual loans	\$7,075	\$309	\$6,766	\$9,570	\$425	\$9,145

It is generally the Company's policy to discontinue interest accruals once a loan is past due for a period of 90 days as to interest or principal payments. When a loan is placed on non-accrual, interest accruals cease and uncollected accrued interest is reversed and charged against current income. Payments received on non-accrual loans are applied against principal. A loan may only be restored to an accruing basis when it again becomes well secured and in the process of collection or all past due amounts have been collected.

Non-accrual loans amounted to \$7,075,000 at June 30, 2014 and were comprised of seven residential mortgage loans totaling \$2,071,000, two residential construction loans totaling \$82,000, eight commercial real estate loans totaling \$2,016,000, nine commercial loans totaling \$2,694,000 and five consumer loans totaling \$212,000. Non-accrual loans amounted to \$9,570,000 at December 31, 2013 and were comprised of seven residential mortgage loans totaling

\$2,166,000, two residential construction loans totaling \$93,000, nine commercial real estate loans totaling \$2,607,000, three agricultural loans totaling \$1,590,000, nine commercial loans totaling \$2,609,000 and five consumer loans totaling \$505,000. It is generally the Company's policy to charge-off the portion of any non-accrual loan that the Company does not expect to collect by writing the loan down to the estimated net realizable value of the underlying collateral.

The five largest non-accrual loans as of June 30, 2014, totaled approximately \$4,209,000 or 59.5% of total non-accrual loans and consisted of one commercial real estate loan totaling \$1,065,000, supported by commercial properties located within the Company's market area, two residential mortgage loans totaling \$1,262,000, supported by residential properties located within the Company's market area and two commercial and industrial loan totaling \$1,882,000, supported by the business assets of the borrower. The collateral securing these loans is generally appraised every six months.

In comparison, the five largest non-accrual loans as of December 31, 2013, totaled approximately \$4,587,000 or 48% of total non-accrual loans and consisted of two residential mortgage loans totaling \$1,323,000, supported by residential property located within the Company's market area, one commercial real estate loan totaling \$1,099,000, supported by commercial properties located within the Company's market area, one agricultural loan totaling \$626,000, supported by real property located within the Company's market area, and one commercial and industrial loan totaling \$1,539,000, supported by the business assets of the borrower. The collateral securing all of these loans is generally appraised every six months.

Loans for which it is probable that payment of interest and principal will not be made in accordance with the contractual terms of the loan agreement are considered impaired. Non-performing impaired loans are non-accrual loans and loans that are 90 days or more past due and still accruing. Total non-performing impaired loans at June 30, 2014 and December 31, 2013 consisting of loans on non-accrual status totaled \$7,075,000 and \$9,570,000, respectively. A restructuring of a loan can constitute a troubled debt restructuring if the Company for economic or legal reasons related to the borrower's financial difficulties grants a concession to the borrower that it would not otherwise consider. A loan that is restructured in a troubled debt restructuring is considered an impaired loan. Performing impaired loans totaled \$6,848,000 and \$9,187,000 at June 30, 2014 and December 31, 2013, respectively. The Company expects performing impaired loans to collect all principal and interest due and they are performing satisfactorily. These loans are not on non-accrual status. The majority of the non-performing impaired loans in management's opinion were adequately collateralized based on recently obtained appraised property values or guaranteed by a governmental entity. See "Allowance for Loan Losses" below for additional information. No assurance can be given that the existing or any additional collateral will be sufficient to secure full recovery of the obligations owed under these loans.

As the following table illustrates, total non-performing assets, net of guarantees of the State of California and U.S. Government, including its agencies and its government-sponsored agencies, decreased \$1,917,000, or 21.0% to \$7,228,000 during the first six months of 2014. Non-performing assets, net of guarantees, represent 0.8% of total assets at June 30, 2014.

	At June 30, 2014			At December 31, 2013		
	Gross	Guaranteed	Net	Gross	Guaranteed	Net
(dollars in thousands)						
Non-accrual loans	\$7,075	\$309	\$6,766	\$9,570	\$425	\$9,145
Loans 90 days past due and still accruing	—	—	—	—	—	—
Total non-performing loans	7,075	309	6,766	9,570	425	9,145
Other real estate owned	462	—	462	—	—	—
Total non-performing assets	7,537	309	7,228	9,570	425	9,145
Non-performing loans to total loans			1.3 %			1.8 %
			0.8 %			1.0 %

Non-performing assets to total assets				
Allowance for loan and lease losses to non-performing loans	113.1	%	102.3	%

The Company had no loans 90 days or more past due and still accruing at June 30, 2014 and December 31, 2013.

Other real estate owned (“OREO”) consists of property that the Company has acquired by deed in lieu of foreclosure or through foreclosure proceedings, and property that the Company does not hold title to but is in actual control of, known as in-substance foreclosure. The estimated fair value of the property is determined prior to transferring the balance to OREO. The balance transferred to OREO is the estimated fair value of the property less estimated cost to sell. Impairment may be deemed necessary to bring the book value of the loan equal to the appraised value. Appraisals or loan officer evaluations are then conducted periodically thereafter charging any additional impairment to the appropriate expense account. OREO amounted to \$462,000 and \$0 as of June 30, 2014 and December 31, 2013, respectively.

Allowance for Loan Losses

The Company's Allowance for Loan Losses is maintained at a level believed by management to be adequate to provide for loan losses that can be reasonably anticipated. The allowance is increased by provisions charged to operating expense and reduced by net charge-offs. The Company contracts with vendors for credit reviews of the loan portfolio as well as considers current economic conditions, loan loss experience, and other factors in determining the adequacy of the reserve balance. The allowance for loan losses is based on estimates, and actual losses may vary from current estimates.

The following table summarizes the Allowance for Loan Losses of the Company during the six-month periods ended June 30, 2014 and 2013, and for the year ended December 31, 2013.

Analysis of the Allowance for Loan Losses
(Amounts in thousands, except percentage amounts)

	Six months ended June 30,		Year ended December 31,
	2014	2013	2013
Balance at beginning of period	\$9,353	\$8,554	\$8,554
Provision for loan losses	1,200	800	1,200
Loans charged-off:			
Commercial	(2,085)	(112)	(168)
Commercial Real Estate	(69)	(3)	(17)
Agriculture	—	(1)	(1)
Residential mortgage	—	(333)	(333)
Residential construction	—	(127)	(127)
Consumer loans to individuals	(328)	(376)	(572)
Total charged-off	(2,482)	(952)	(1,218)
Recoveries:			
Commercial	34	124	377
Commercial Real Estate	—	51	51
Agriculture	—	3	3
Residential mortgage	—	12	157
Residential construction	3	43	45
Consumer loans to individuals	66	91	184
Total recoveries	103	324	817
Net charge-offs	(2,379)	(628)	(401)
Balance at end of period	\$8,174	\$8,726	\$9,353
Ratio of net charge-offs to average loans outstanding during the period (annualized)	(0.93 %)	(0.28 %)	(0.09 %)
Allowance for loan losses To total loans at the end of the period	1.53 %	1.83 %	1.81 %

To non-performing loans, net of guarantees at the end of the period	120.8	%	114.1	%	102.3	%
---	-------	---	-------	---	-------	---

Deposits

Deposits are one of the Company's primary sources of funds. At June 30, 2014, the Company had the following deposit mix: 31.1% in savings and MMDA deposits, 10.8% in time deposits, 25.5% in interest-bearing transaction deposits and 32.6% in non-interest-bearing transaction deposits. At December 31, 2013, the Company had the following deposit mix: 28.8% in savings and MMDA deposits, 11.1% in time deposits, 25.9% in interest-bearing transaction deposits and 34.2% in non-interest-bearing transaction deposits. Non-interest-bearing transaction deposits increase the Company's net interest income by lowering its cost of funds.

The Company obtains deposits primarily from the communities it serves. The Company believes that no material portion of its deposits has been obtained from or is dependent on any one person or industry. The Company accepts deposits in excess of \$100,000 from customers. These deposits are priced to remain competitive.

Maturities of time certificates of deposits of \$100,000 or more outstanding at June 30, 2014 and December 31, 2013 are summarized as follows:

	(in thousands)	
	June 30, 2014	December 31, 2013
Three months or less	\$14,408	\$14,534
Over three to twelve months	30,820	29,231
Over twelve months	12,884	12,354
Total	\$58,112	\$56,119

The increase in time certificates of deposit (CD's) of \$100,000 or more is primarily attributable to additions of time deposits, which was partially offset by the maturities of time deposits.

Liquidity and Capital Resources

In order to serve our market area, the Company must maintain adequate liquidity and adequate capital. Liquidity is measured by various ratios, in management's opinion, the most common being the ratio of net loans to deposits (including loans held-for-sale). This ratio was 62.7% on June 30, 2014. In addition, on June 30, 2014, the Company had the following short-term investments (based on remaining maturity and/or next repricing date): \$2,286,000 in securities due within one year or less; and \$37,922,000 in securities due in one to five years.

To meet unanticipated funding requirements, the Company maintains short-term unsecured lines of credit with other banks totaling \$57,000,000 at June 30, 2014. Additionally, the Company has a line of credit with the FHLB, with a borrowing capacity at June 30, 2014 of \$182,583,000; credit availability is subject to certain collateral requirements.

The Company's primary source of liquidity on a stand-alone basis is dividends from the Bank. Dividends from the Bank are subject to regulatory restrictions.

As of June 30, 2014, the Bank's capital ratios exceeded applicable regulatory requirements. The following table presents the capital ratios for the Bank, compared to the regulatory standards for well-capitalized depository institutions, as of June 30, 2014.

(amounts in thousands except percentage
amounts)

	Actual		Well Capitalized Ratio Requirement	
	Capital	Ratio		
Leverage	\$83,978	9.00	%	5.0 %
Tier 1 Risk-Based	\$83,978	14.82	%	6.0 %
Total Risk-Based	\$91,082	16.08	%	10.0 %

In July 2013, the Federal Reserve Board and the other U.S. federal banking agencies adopted final rules making significant changes to the U.S. regulatory capital framework for U.S. banking organizations and to conform this framework to the Basel Committee's current international regulatory capital accord (Basel III). These rules, upon their effectiveness, will replace the federal banking agencies' general risk-based capital rules, advanced approaches rule, market-risk rule, and leverage rules, in accordance with certain transition provisions. The bank will become subject to the new rules on January 1, 2015. The new rules implement higher minimum capital requirements, include a new common equity Tier 1 capital requirement, and establish criteria that instruments must meet in order to be considered common equity Tier 1 capital, additional Tier 1 capital, or Tier 2 capital. When fully phased in, the final rules will provide for increased minimum capital ratios as follows: (a) a common equity Tier 1 capital ratio of 4.5%; (b) a Tier 1 capital ratio of 6% (which is an increase from 4.0%); (c) a total capital ratio of 8%; and (d) a Tier 1 leverage ratio to average consolidated assets of 4%. Under the new rules, in order to avoid certain limitations on capital distributions, including dividend payments and certain discretionary bonus payments to executive officers, a banking organization must hold a capital conservation buffer composed of common equity Tier 1 capital above its minimum risk based capital requirements (equal to 2.5% of total risk-weighted assets). The phase-in of the capital conservation buffer will begin January 1, 2016, and be completed by January 1, 2019. The new rules also provide for various adjustments and deductions to the definitions of regulatory capital that will phase in from January 1, 2014 to December 31, 2017. We are currently evaluating the impact of these changes on our future regulatory capital position.

ITEM 3. – QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company believes that there have been no material changes in the quantitative and qualitative disclosures about market risk as of June 30, 2014, from those presented in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2013, which are incorporated by reference herein.

ITEM 4. – CONTROLS AND PROCEDURES

(a) We maintain "disclosure controls and procedures," as such term is defined in Rule 13a-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act"), that are designed to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in Securities and Exchange Commission rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating our disclosure controls and procedures, management recognized that disclosure controls and procedures, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the disclosure controls and procedures are met. Our disclosure controls and procedures have been designed to meet reasonable assurance standards. Additionally, in designing disclosure controls and procedures, our management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible disclosure controls and procedures. The design of any disclosure controls and procedures also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Our Chief Executive Officer (principal executive officer) and Chief Financial Officer (principal financial officer) have concluded that the design and operation of our disclosure controls and procedures are effective as of June 30, 2014. This conclusion is based on an evaluation conducted under the supervision and with the participation of management.

(b) During the quarter ended June 30, 2014, there were no changes in our internal controls over financial reporting that materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

PART II – OTHER INFORMATION

ITEM 1. – LEGAL PROCEEDINGS

Neither the Company nor the Bank is a party to any material pending legal proceeding, nor is any of their property the subject of any material pending legal proceeding, except ordinary routine litigation arising in the ordinary course of the Bank's business and incidental to its business, none of which is expected to have a material adverse impact upon the Company's or the Bank's business, financial position or results of operations.

ITEM 1A. – RISK FACTORS

For a discussion of risk factors relating to our business, please refer to Part I, Item 1A of our 2013 Form 10-K, which is incorporated by reference herein, and to the following:

The Bank is Subject to Lending Risks of Loss and Repayment Associated with Commercial Banking Activities

The Bank's business strategy is to focus on commercial business loans (which includes agricultural loans), construction loans, and commercial and multi-family real estate loans. The principal factors affecting the Bank's risk of loss in connection with commercial business loans include the borrower's ability to manage its business affairs and

cash flows, general economic conditions and, with respect to agricultural loans, weather and climate conditions. California continues to experience a severe drought. If the drought significantly harms the business of our customers, particularly in the agricultural sector, the credit quality of our loans to these customers could decline as a specific result of the drought. Loans secured by commercial real estate are generally larger and involve a greater degree of credit and transaction risk than residential mortgage (one to four family) loans. Because payments on loans secured by commercial and multi-family real estate properties are often dependent on successful operation or management of the underlying properties, repayment of such loans may be dependent on factors other than the prevailing conditions in the real estate market or the economy. Real estate construction financing is generally considered to involve a higher degree of credit risk than long-term financing on improved, owner-occupied real estate. Risk of loss on a construction loan is dependent largely upon the accuracy of the initial estimate of the property's value at completion of construction or development compared to the estimated cost (including interest) of construction. If the estimate of value proves to be inaccurate, the Bank may be confronted with a project which, when completed, has a value which is insufficient to assure full repayment of the construction loan.

The Bank's Dependence on Real Estate Lending Increases Our Risk of Losses

At December 31, 2013, approximately 73% of the Bank's loans (excluding loans held-for-sale) were secured by real estate. The value of the Bank's real estate collateral has been, and could in the future continue to be, adversely affected by the economic recession and resulting adverse impact on the real estate market in Northern California.

The Bank's primary lending focus has historically been commercial (including agricultural), construction, and real estate mortgage. At December 31, 2013, real estate mortgage (excluding loans held-for-sale) and construction loans comprised approximately 70% and 2%, respectively, of the total loans in the Bank's portfolio. At December 31, 2013, all of the Bank's real estate mortgage and construction loans and approximately 2% of its commercial loans were secured fully or in part by deeds of trust on underlying real estate. The Company's dependence on real estate increases the risk of loss in both the Bank's loan portfolio and its holdings of other real estate owned if economic conditions in Northern California further deteriorate in the future. Further deterioration of the real estate market in Northern California would have a material adverse effect on the Company's business, financial condition, and results of operations. As noted previously, the severe drought being experienced by California could have an adverse impact on the credit quality of our real estate lending portfolio, particularly in the agricultural sector.

Adverse California Economic Conditions Could Adversely Affect the Bank's Business

The Bank's operations and a substantial majority of the Bank's assets and deposits are generated and concentrated primarily in Northern California, particularly the counties of Placer, Sacramento, Solano and Yolo, and are likely to remain so for the foreseeable future. At December 31, 2013, approximately 73% of the Bank's loan portfolio (excluding loans held-for-sale) consisted of real estate-related loans, all of which were secured by collateral located in Northern California. As a result, a further downturn in the economic conditions in Northern California may cause the Bank to incur losses associated with high default rates and decreased collateral values in its loan portfolio. Economic conditions in California are subject to various uncertainties at this time, including the significant deterioration in the California real estate market and housing industry. As previously mentioned, the severe drought in California, could have an adverse impact on economic conditions in California, particularly in the agricultural sector.

The Bank is Subject to Interest Rate Risk

The income of the Bank depends to a great extent on "interest rate differentials" and the resulting net interest margins (i.e., the difference between the interest rates earned on the Bank's interest-earning assets such as loans and investment securities, and the interest rates paid on the Bank's interest-bearing liabilities such as deposits and borrowings). These rates are highly sensitive to many factors, which are beyond the Bank's control, including, but not limited to, general economic conditions and the policies of various governmental and regulatory agencies, in particular, the Federal Reserve Board (the "FRB"). The Bank is generally adversely affected by declining interest rates. For the past several years, in response to the financial crisis which began in 2008 and the ensuing recession, the FRB has pursued a variety of monetary measures aimed at sustaining a very low interest rate environment in the U.S. in order to stimulate economic growth, including purchases of long-term U.S. Treasury and federal agency backed securities and maintaining a very low target range for the federal funds rate. In the first quarter of 2014, the FRB announced its expectation that it will be tapering downward and eventually ending its purchases of U.S. Treasury and federal agency-backed securities. It also indicated that it expects to maintain the current very low target range for the federal funds rate (currently zero to 1/4%) for a considerable time after its asset purchase program ends, especially if projected inflation continues to run below the FRB's 2% long term goal. We cannot predict with any certainty whether or to what extent these FRB policies will continue or how other developments will unfold. Changes in the relationship between short-term and long-term market interest rates or between different interest rate indices can also impact our interest rate differential, possibly resulting in a decrease in our interest income relative to interest expense. In addition, changes in monetary policy, including changes in interest rates, influence the origination of loans, the purchase of investments and the generation of deposits and affect the rates received on loans and investment

securities and paid on deposits, which could have a material adverse effect on the Company's business, financial condition, and results of operations. Increases in long-term residential mortgage interest rates can be expected to decrease the pace of new mortgage loan originations and the pace of refinancing of existing residential mortgage loans.

ITEM 2. – UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None.

ITEM 3. – DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. – MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. – OTHER INFORMATION

None.

ITEM 6. – EXHIBITS

Exhibit Number	Description of Document
31.1	Rule 13a — 14(a) Certification of Chief Executive Officer
31.2	Rule 13a — 14(a) Certification of Chief Financial Officer
32.1*	Statement of the Chief Executive Officer under Section 906 of the Sarbanes-Oxley Act of 2002 (18 U.S.C. Section 1350)
32.2*	Statement of the Chief Financial Officer under Section 906 of the Sarbanes-Oxley Act of 2002 (18 U.S.C. Section 1350)
101	Pursuant to Rule 405 of Regulation S-T, the following financial information from the Registrant’s Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2014, is formatted in XBRL interactive data files: (i) Condensed Consolidated Balance Sheets; (ii) Condensed Consolidated Statements of Income; (iii) Condensed Consolidated Statements of Comprehensive (Loss) Income (iv) Condensed Consolidated Statement of Stockholders’ Equity; (v) Condensed Consolidated Statements of Cash Flows; and (vi) Notes to Condensed Consolidated Financial Statements.

* In accordance with Item 601(b)(32)(ii) of Regulation S-K and SEC Release No. 34-47986, the certifications furnished in Exhibits 32.1 and 32.2 hereto are deemed to accompany this Form 10-Q and will not be deemed “filed” for purposes of Section 18 of the Exchange Act. Such certifications will not be deemed to be incorporated by reference into any filing under the Securities Act or the Exchange Act.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
