REPORT OF INDEPENDENT REGISTERED
PUBLIC ACCOUNTING FIRM

Employee Benefits Administrative Committee
Tredegar Corporation Retirement Savings Plan
Richmond, Virginia

We have audited the accompanying statements of net assets available for benefits of the Tredegar Corporation Retirement Savings Plan (the Plan) as of December 31, 2015 and 2014, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2015 and 2014, and the changes in net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

The supplemental information in the accompanying schedule of Schedule of Assets (Held at End of Year) as of December 31, 2015, has been subjected to audit procedures performed in conjunction with the audit of the Plan's financial statements. The supplemental information is presented for the purpose of additional analysis and is not a required part of the financial statements but includes supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental information is the responsibility of the Plan's management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information in the accompanying schedule, we evaluated whether the supplemental information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental information is fairly stated in all material respects in relation to the financial statements as a whole.

TREDEGAR CORPORATION RETIREMENT SAVINGS PLAN

Notes to Financial Statements

December 31, 2015 and 2014

NOTE 1. DESCRIPTION OF PLAN

General

Tredegear Corporation (Tredegear), which is engaged directly in the manufacturing of plastic films and aluminum extrusions, is a Virginia corporation. The Tredegear Corporation Retirement Savings Plan (Plan) was adopted by the Board of Directors of Tredegear on June 14, 1989 and the Plan was effective as of July 1, 1989.

Effective June 19, 2015 AACOA, Inc. 401(k) Profit Sharing Plan merged into the Tredegear Corporation Retirement Savings Plan. AACOA, Inc. is a wholly owned subsidiary of William L. Bonnell Company, Inc. which is a wholly owned subsidiary of Tredegear Corporation.

The Plan is subject to Titles I, II and III and is exempt from Title IV of the Employee Retirement Income Security Act of 1974 (ERISA). Title IV of ERISA provides for federally sponsored insurance for plans that terminate with unfunded benefits. No such insurance is provided to participants in this Plan; however, because the benefits that participants are entitled to receive are always equal to the value of their account balances, the Plan is always fully funded. The value of a participant's account may change from time to time. Each participant assumes the risk of fluctuations in the value of his or her account.

The Plan is a defined contribution plan. Information regarding plan benefits and vesting is provided in the Plan and related documents, which are available at Tredegear's main office at 1100 Boulders Parkway, Richmond, Virginia.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared using the contract value basis for fully benefit-responsive investment contracts.

Notes to Financial Statements

December 31, 2015 and 2014

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid or when payment has been attempted.

Administrative Expenses

The Plan is responsible for all trustee and investment management fees. Tredegar pays for all other administrative expenses up to an annual limit of \$75,000. Any expenses in excess of this limit are paid by the Plan.

December 31, 2015 and 2014

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Recent Accounting Pronouncement

In July 2015, the FASB issued Accounting Standard Update (ASU) No. 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient (consensuses of the Emerging Issues Task Force). The amendments in Part I of this ASU designate contract value as the only required measure for fully benefit-responsive investment contracts. This amendment maintains the relevant information while reducing the cost and complexity of reporting for fully benefit-responsive investment contracts (for example, an adjustment to reconcile contract value to fair value). The objective of Part II of this update is to simplify and make more effective the investment disclosure requirements under Topic 820 and under Topics 960, 962, and 965 for employee benefit plans. The amendments in Part III of this update provide a practical expedient to permit plans to measure investments and investment-related accounts (for example, a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month-end. The amendments simplify the measurement of investments and investment-related accounts while not significantly reducing the relevance of the information to users. Furthermore, the disclosures increase the transparency of the measurement date used and events that occur between the measurement date and the plan's fiscal year-end. The amendments in this update are effective for fiscal years beginning after December 15, 2015. Earlier application is permitted. Plan management is evaluating applicability of Part I and therefore has not early adopted. Plan Management has adopted Part II of this update as of and for the year ended December 31, 2015. Prior year amounts and disclosures have been revised to reflect the retrospective application of adopting this new update. Part III is not applicable to the Plan.

In May 2015, the FASB issued new guidance for investments measured at net asset value ("NAV"). Under the new guidance, investments measured at NAV, as a practical expedient for fair value, are excluded from the fair value hierarchy. Removing investments measured using the practical expedient from the fair value hierarchy is intended to eliminate diversity in practice that currently exists with respect to the categorization of these investments. The new guidance is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015 for public business entities. Early adoption is permitted, including for financial statement periods that have not yet been issued. Early adoption is permitted for all entities, and the Plan has chosen to early adopt this guidance for the year ended December 31, 2015 on a retrospective basis.

(Continued)

TREDEGAR CORPORATION RETIREMENT SAVINGS PLAN

Notes to Financial Statements

December 31, 2015 and 2014

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In January 2015, the FASB simplified income statement classification by removing the concept of extraordinary items. Items that are both unusual and infrequent in nature will no longer be separately reported net of tax after continuing operations. The existing requirement to separately present items that are of an unusual nature or occur infrequently on a pre-tax basis within income from continuing operations has been retained and expanded to include items that are both unusual and infrequent. The standard is effective for periods beginning after December 15, 2015. Early adoption is permitted, but only as of the beginning of the fiscal year of adoption. The new standard is not expected to impact the Plan.

In May 2014, the Financial Accounting Standards Board (“FASB”) and International Accounting Standards Board (“IASB”) issued their converged standard on revenue recognition. The revised revenue standard contains principles that an entity will apply to direct the measurement of revenue and timing of when it is recognized. The core principle of the guidance is that the recognition of revenue should depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which an entity expects to be entitled in exchange for those goods and services. To achieve that core principle, an entity will utilize a principle-based five-step approach model. The converged standard also includes more robust disclosure requirements which will require entities to provide sufficient information to enable users of financial statements to understand the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. In March 2016, amended guidance was issued regarding clarifying the implementation guidance on principal versus agent considerations. The effective date of this revised standard is for annual reporting periods beginning after December 15, 2017, including interim periods within that reporting period. Early application is permitted as of annual reporting periods beginning after December 15, 2016, including interim reporting periods within that annual reporting period. The converged standard can be adopted either retrospectively or through the use of a practical expedient. The Plan is still assessing the impact of this new guidance.

NOTE 3. CONTRIBUTIONS AND INVESTMENT
OPTIONS

A participant may contribute a percentage of his or her base pay (as defined) ranging from a minimum of .1% (one-tenth of one percent) to 75%. With the exception of certain collectively bargained plans, the 2015 company matching contribution was \$1.00 for every \$1.00 a participant contributes up to 5% each payroll period and the 2014 company matching contribution was \$0.50 for every \$1.00 a participant contributes up to 5% each payroll period.

(Continued)

Table of Contents

TREDEGAR CORPORATION RETIREMENT SAVINGS PLAN

Notes to Financial Statements

December 31, 2015 and 2014

NOTE 3. CONTRIBUTIONS AND INVESTMENT OPTIONS (Concluded)

With the exception of certain participants covered under certain collective bargaining agreements, employees are automatically enrolled in the retirement savings plan at a 3% contribution level unless they choose to contribute more or less. The default investment fund is the age appropriate target fund.

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers twenty-five (25) mutual funds, Tredegar stock, one (1) common collective trust and a self-directed brokerage window as investment options to participants.

For 2015 and 2014 all employer matching contributions were allocated 50% to the Tredegar Stock fund and 50% to an investment selection made by the participant. If a participant did not make an investment selection, this money was invested in the JP Morgan SmartRetirement target date fund, the Plan's default funds, based on the participant's age and an estimated retirement age of 65. All eligible participants in the plan are able to immediately diversify their company matching contribution by transferring out of Tredegar company stock into another fund or a combination of funds offered in the Plan.

Effective March 11, 2016 Tredegar Company Stock was closed to investments, transfers into the fund and company matching contributions. Also, effective March 11, 2016 all employer matching contributions are allocated 50% to the JP Morgan SmartRetirement target date fund, the Plan's default funds, based on the participant's age and an estimated retirement age of 65 and 50% to an investment election selected by the participant.

TREDEGAR CORPORATION RETIREMENT SAVINGS PLAN

Notes to Financial Statements

December 31, 2015 and 2014

NOTE 5. FAIR VALUE MEASUREMENTS

FASB Accounting Standards Codification (ASC) 820, Fair Value Measurement, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission (SEC). These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common stock: Valued at closing price reported on the active market on which the individual securities are traded.

(Continued)

Table of Contents

TREDEGAR CORPORATION RETIREMENT SAVINGS PLAN

Notes to Financial Statements

December 31, 2015 and 2014

NOTE 5. FAIR VALUE MEASUREMENTS (Continued)

Interest-bearing cash: Valued at \$1.

Self-directed brokerage account: Valued at the closing price reported on the active market on which the individual securities are traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables summarize financial assets measured at fair value on a recurring basis, segregated by the level of the valuation inputs within the fair value hierarchy utilized to measure fair value, as of December 31, 2015 and 2014, respectively:

Assets Measured at Fair Value on a Recurring Basis at December 31, 2015

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 78,802,407	\$ -	\$ -	\$ 78,802,407
Common stocks	20,433,488	-	-	20,433,488
Interest-bearing cash	53,373	-	-	53,373

NOTE 5. FAIR VALUE MEASUREMENTS (Concluded)

Fair Value of Investments in Entities that Use NAV

The following table summarizes investments measured at fair value based on NAV per share at December 31, 2015 and 2014, respectively.

December 31, 2015	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Common Collective Trust - JP Morgan Stable Asset Income Fund ⁽¹⁾	\$ 9,916,340	N/A	Daily or monthly	None or 5 days
December 31, 2014	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Common Collective Trust - JP Morgan Stable Asset Income Fund ⁽¹⁾	\$ 10,598,821	N/A	Daily or monthly	None or 5 days

(1) The Fund's objective is to seek to provide capital preservation, liquidity, and current income at levels that are typically higher than those provided by money market funds. The Fund invests in a highly diversified fixed income strategy by investing in other collective trust funds and a separate account which may include U.S. treasury and agency securities, mortgage backed securities, asset-backed securities, private mortgages, corporate debt and short-term investments. The Fund also enters into investment contracts to provide benefit responsive wraps.

Table of Contents

TREDEGAR CORPORATION RETIREMENT SAVINGS PLAN

Notes to Financial Statements

December 31, 2015 and 2014

NOTE 6. INVESTMENT CONTRACT WITH INVESTMENT COMPANY

The Plan entered into a benefit-responsive investment contract with JP Morgan Chase Bank, N.A. The investment is included in the statements of net assets available for benefits at fair value as determined using the market approach based on market prices of similar contracts. The adjustment from fair value to contract value for the investment contract is based on the contract value as reported to the Plan by JP Morgan Asset Management. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because a guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by JP Morgan Asset Management, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2015 and 2014 was \$9,916,340 and \$10,598,821, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.
