

REXAHN PHARMACEUTICALS, INC.

Form 10-Q

August 04, 2017

---

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2017

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from \_\_\_\_\_ to \_\_\_\_\_

Commission File No.:001-34079

Rexahn Pharmaceuticals, Inc.

(Exact name of registrant as specified in its charter)

Delaware

(State or Other Jurisdiction of Incorporation or Organization)

11-3516358

(I.R.S. Employer Identification No.)

15245 Shady Grove Road, Suite 455

Rockville, MD 20850

(Address of Principal Executive Offices, Including Zip Code)

Telephone: (240) 268-5300

(Registrant's Telephone Number, Including Area Code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See definition of "accelerated filer," "large accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one):

Edgar Filing: REXAHN PHARMACEUTICALS, INC. - Form 10-Q

|                         |   |                           |
|-------------------------|---|---------------------------|
| Large accelerated filer |   | Accelerated filer         |
| Non-accelerated filer   | (Do not check if a smaller reporting company) | Smaller reporting company |
|                         |   | Emerging growth company   |

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act) Yes  
No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date: 28,459,805 shares as of August 4, 2017.

1. Operations and Organization

Operations

Rexahn Pharmaceuticals, Inc. (the “Company”), a Delaware corporation, is a biopharmaceutical company whose principal operations are the discovery, development and commercialization of innovative treatments for cancer. The Company had an accumulated deficit of \$135,688,177 at June 30, 2017 and anticipates incurring losses through fiscal year 2017 and beyond. The Company has not yet generated commercial revenues and has funded its operating losses to date through the sale of shares of its common stock and warrants to purchase shares of its common stock, convertible debt, interest income from cash, cash equivalents and marketable securities, and proceeds from reimbursed research and development costs. The Company believes that its cash, cash equivalents, and marketable securities will be sufficient to cover its cash flow requirements for its current activities for at least the next 12 months from the date these financial statements were issued. Management believes it has the capability of managing the Company’s operations within existing cash available by focusing on select research and development activities, selecting projects in conjunction with potential financings and milestones, and efficiently managing the Company’s general and administrative affairs.

Basis of Presentation

The accompanying unaudited condensed financial statements of the Company have been prepared pursuant to the rules and regulations of the U.S. Securities and Exchange Commission for interim financial information. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States (“U.S. GAAP”) for complete financial statements. In the opinion of the Company’s management, all adjustments (consisting of only normal recurring accruals) considered necessary for a fair presentation of the Company’s financial position as of June 30, 2017 and December 31, 2016 and of the results of operations and comprehensive income (loss) for the three and six months ended June 30, 2017 and 2016 and cash flows for the six months ended June 30, 2017 and 2016 have been included. Operating results for the three and six months ended June 30, 2017 are not necessarily indicative of results that may be expected for any other interim period or the full fiscal year ending December 31, 2017. The accompanying unaudited condensed financial statements should be read in conjunction with the audited financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2016 (the “2016 Form 10-K”). Information included in the condensed balance sheet as of December 31, 2016 has been derived from the Company’s audited financial statements for the year ended December 31, 2016 included in the 2016 Form 10-K.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. These estimates are based on management’s best knowledge of current events and actions the Company may undertake in the future. Actual results may ultimately differ from these estimates. These estimates are reviewed periodically, and as adjustments become necessary, they are reported in earnings in the period in which they become available.

2. Recent Accounting Pronouncements Affecting the Company

Revenue from Contracts with Customers

In May 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2014-09, “Revenue from Contracts with Customers,” a comprehensive new revenue recognition standard that will supersede nearly all existing revenue recognition guidance under U.S. GAAP. The standard’s core principle is that a company should recognize revenue when it transfers goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods and services, and provides a revenue recognition framework in accordance with this principle. On August 12, 2015, the FASB issued ASU 2015-14, which defers the effective date of ASU 2014-09 by one year to December 15, 2017 for annual reporting periods beginning after that date and interim periods therein. Early adoption of the standard is permitted. The Company is currently evaluating the impact that the adoption of this guidance will have on its financial statements and future operating results.

Leases

In February 2016, the FASB issued ASU 2016-02, “Leases,” which requires an entity to recognize assets and liabilities arising from leases on the balance sheet and to provide additional disclosures about leasing arrangements. ASU 2016-02 will be effective for reporting periods beginning after December 15, 2018, with early adoption permitted. The Company is currently evaluating the impact the adoption of this guidance will have on its financial statements.

Compensation-Stock Compensation

In March 2016, the FASB issued ASU 2016-09, “Compensation-Stock Compensation: Improvements to Employee Share Based Payment Accounting,” which includes multiple provisions intended to simplify various aspects of accounting for share-based payments. The guidance is effective for reporting periods beginning after December 15, 2016, with early adoption permitted. The Company adopted this guidance for the three months ended March 31, 2017. This pronouncement did not have a material impact on the financial statements.

Notes to Condensed Financial Statements  
(Unaudited)

## 3. Marketable Securities

Marketable securities are considered “available-for-sale” in accordance with FASB Accounting Standards Codification (“ASC”) 320, “Debt and Equity Securities,” and thus are reported at fair value in the Company’s accompanying balance sheet, with unrealized gains and losses excluded from earnings and reported as a separate component of stockholders’ equity. Amounts reclassified out of accumulated other comprehensive income (loss) into realized gains and losses are accounted for on the basis of specific identification and are included in other income or expense in the statement of operations. The Company classifies such investments as current on the balance sheet as the investments are readily marketable and available for use in current operations.

The following table shows the Company’s marketable securities’ adjusted cost, gross unrealized gains and losses, and fair value by significant investment category as of June 30, 2017 and December 31, 2016:

|                             | June 30, 2017 |            |            |                |
|-----------------------------|---------------|------------|------------|----------------|
|                             | Cost          | Gross      | Gross      | Fair           |
|                             | Basis         | Unrealized | Unrealized | Value          |
|                             |               | Gains      | Losses     |                |
| Commercial Paper            | \$3,220,126   | \$ -       | \$ (4,796  | ) \$3,215,330  |
| Corporate Bonds             | 14,791,739    | -          | (20,909    | ) 14,770,830   |
| Total Marketable Securities | \$18,011,865  | \$ -       | \$ (25,705 | ) \$17,986,160 |

|                             | December 31, 2016 |            |            |               |
|-----------------------------|-------------------|------------|------------|---------------|
|                             | Cost              | Gross      | Gross      | Fair          |
|                             | Basis             | Unrealized | Unrealized | Value         |
|                             |                   | Gains      | Losses     |               |
| Certificates of Deposit     | \$720,000         | \$ 197     | \$ -       | \$720,197     |
| Commercial Paper            | 3,987,424         | -          | (1,684     | ) 3,985,740   |
| Corporate Bonds             | 4,035,805         | -          | (4,635     | ) 4,031,170   |
| Total Marketable Securities | \$8,743,229       | \$ 197     | \$ (6,319  | ) \$8,737,107 |

The Company typically invests in highly-rated securities, with the primary objective of minimizing the potential risk of principal loss. As of June 30, 2017, the Company had three investments of commercial paper with an aggregate fair value of \$3,215,330 and unrealized losses of \$4,796, and 14 corporate bonds with an aggregate fair value of \$13,770,830 and unrealized losses of \$20,909, all of which have been unrealized losses for less than 12 months. The Company does not intend to sell its marketable securities in an unrealized loss position. Based upon these securities’ fair value relative to the cost, high ratings, and volatility of fair value, the Company considers the declines in market value of its marketable securities to be temporary in nature, does not consider any of its investments other-than-temporarily impaired, and anticipates that it will recover the entire amortized cost basis.

The amortized cost basis and fair value of marketable securities by contractual maturity are:

| Maturity                    | Cost Basis   | Fair Value   |
|-----------------------------|--------------|--------------|
| Less than 1 year            | \$12,274,138 | \$12,257,650 |
| 1 to 5 years                | 5,737,727    | 5,728,510    |
| Total Marketable Securities | \$18,011,865 | \$17,986,160 |

## 4. Prepaid Expenses and Other Current Assets

|   | June 30,<br>2017 | December 31,<br>2016 |
|---|------------------|----------------------|
| Deposits on contracts                     | \$ 532,602       | \$ 179,476           |
| Prepaid expenses and other current assets | 667,039          | 429,041              |
|   | \$ 1,199,641     | \$ 608,517           |

Deposits on contracts consist of deposits on research and development contracts for services that had not been incurred as of the balance sheet date. Prepaid expenses and other assets include prepaid general and administrative expenses, such as insurance, rent, investor relations fees and compensatory stock issued for services not yet incurred as of the balance sheet date.

## 5. Equipment, Net

|   | June 30,<br>2017 | December 31,<br>2016 |
|---|------------------|----------------------|
| Furniture and fixtures                          | \$ 78,794        | \$ 78,794            |
| Office and computer equipment                   | 118,358          | 113,932              |
| Lab equipment                                   | 445,134          | 431,650              |
| Leasehold improvements                          | 133,762          | 133,762              |
| Total equipment                                 | 776,048          | 758,138              |
| Less: Accumulated depreciation and amortization | (689,438 )       | (669,488 )           |
| Net carrying amount                             | \$ 86,610        | \$ 88,650            |

## 6. Accounts Payable and Accrued Expenses

|   | June 30,<br>2017 | December 31,<br>2016 |
|---|------------------|----------------------|
| Trade payables                                  | \$ 509,085       | \$ 430,013           |
| Accrued expenses                                | 167,297          | 141,190              |
| Accrued research and development contract costs | 715,065          | 499,889              |
| Payroll liabilities                             | 526,292          | 811,408              |
|   | \$ 1,917,739     | \$ 1,882,500         |

7. Deferred Research and Development Arrangement

Rexgene Biotech Co., Ltd.

In 2003, the Company entered into a collaborative research agreement with Rexgene Biotech Co., Ltd. (“Rexgene”), a shareholder. Rexgene is engaged in the development of pharmaceutical products in Asia and has agreed to assist the Company with the research, development and clinical trials necessary for registration of the Company’s drug candidate Archexin® in Asia. This agreement provides Rexgene with exclusive rights to license, sublicense, make, have made, use, sell and import Archexin in Asia. In accordance with the agreement, Rexgene paid the Company a one-time fee of \$1,500,000 in 2003. The agreement terminates at the later of 20 years or the term of the patent. The amortization reduces research and development expenses for the periods presented.

The Company is using 20 years as its basis for recognition and accordingly, research and development expenses were reduced by \$18,750 and \$37,500 for the three and six months ended June 30, 2017 and 2016, respectively. The remaining \$412,500 and \$450,000 to be amortized at June 30, 2017 and December 31, 2016, respectively, is reflected as a deferred research and development arrangement on the balance sheet. The payment from Rexgene is being used in the cooperative funding of the costs of development of Archexin. Royalties of 3% of net sales of licensed products will become payable by Rexgene to the Company on a quarterly basis once commercial sales of Archexin begin in Asia. The product is still under development and commercial sales in Asia are not expected to begin until at least 2018.

Notes to Condensed Financial Statements  
(Unaudited)

## 8. Other Liabilities

## Deferred Lease Incentive

In accordance with the Company's office lease agreement, as amended and further discussed in Note 14, the Company has been granted leasehold improvement allowances from the lessor to be used for the construction cost of improvements to the leased property, which included architectural and engineering fees, government agency plan check, permit and other fees, sales and use taxes, testing and inspection costs and telephone and data cabling and wiring in the premises. The Company accounted for the benefit of the leasehold improvement allowance as a reduction of rental expense over the term of the office lease.

The following table sets forth the cumulative deferred lease incentive:

|                               | June 30,<br>2017 | December 31,<br>2016 |
|-------------------------------|------------------|----------------------|
| Deferred lease incentive      | \$ 154,660       | \$ 154,660           |
| Less accumulated amortization | (129,773 )       | (123,551 )           |
| Balance                       | \$ 24,887        | \$ 31,109            |

## Deferred Office Lease Expense

The lease agreement, as amended, provided for an initial annual base rent with annual increases over the lease term. The Company recognizes rental expense on a straight-line basis over the term of the lease, which resulted in a deferred rent liability of \$40,925 and \$48,095 as of June 30, 2017 and December 31, 2016, respectively.

## 9. Net Income (Loss) per Common Share

Basic income (loss) per common share is computed by dividing net income (loss) by the weighted average number of shares of common stock outstanding for the period. Diluted loss per common share is computed by dividing net loss by the weighted average number of shares of common stock outstanding, plus the number of common share equivalents that would be dilutive. As of June 30, 2017 and December 31, 2016, there were stock options, restricted stock units and warrants to acquire, in the aggregate, 7,280,637 and 7,142,728 shares of the Company's common stock, respectively, that are potentially dilutive. However, with the exception of the three months ended June 30, 2017, diluted loss per share is the same as basic loss per share for all periods presented because the inclusion of common share equivalents would be anti-dilutive. For the three months ended June 30, 2017, the dilutive effect of stock warrants, stock options and restricted stock units is 1,177,987, 1,031,356 and 54,300, respectively.

Table of Contents

REXAHN PHARMACEUTICALS, INC.  
Notes to Condensed Financial Statements  
(Unaudited)

10. Common Stock

The following transactions occurred since December 31, 2016:

Reverse Stock Split

On May 5, 2017 the Company effected a one-for-ten reverse stock split of the outstanding shares of the Company's common stock, together with a corresponding proportional reduction in the number of authorized shares of the Company's capital stock. Each ten shares of the Company's common stock, par value \$0.0001 per share, issued and outstanding at the effective time of the reverse stock split were reclassified and combined into one share of common stock par value \$0.0001 per share. The number of shares of common stock and preferred stock the Company is authorized to issue was reduced to 50 million and 10 million, respectively. All share and per share amounts of common stock, stock options, stock warrants and restricted stock units have been restated for all periods to give retroactive effect to the reverse stock split. Accordingly, an amount equal to the par value of the decreased shares resulting from the reverse stock split was reclassified from "Common stock" to "Additional paid-in capital."

Warrant Exercises

During the six months ended June 30, 2017, warrant holders exercised warrants to purchase shares of the Company's common stock for cash of \$5,354,093 and the Company issued 1,652,623 shares.

Stock Option Exercises

During the six months ended June 30, 2017, a stock option holder exercised options to purchase shares of the Company's common stock for cash of \$77,500 and the Company issued 25,000 shares.

Compensatory Shares

During the six months ended June 30, 2017, the Company issued 7,500 shares to a privately held investor relations firm in exchange for investor relations services. The aggregate market value of the stock issued was \$12,750.

Table of Contents

REXAHN PHARMACEUTICALS, INC.  
 Notes to Condensed Financial Statements  
 (Unaudited)

Registered Direct Offering

On June 12, 2017 the Company closed a registered direct public offering of 3,030,304 shares of common stock and warrants to purchase up to 1,515,152 shares of common stock. The common stock and warrants were sold in units, consisting of a share of common stock and a warrant to purchase 0.5 shares of common stock, at a price of \$3.30 per unit, with an exercise price for the warrants of \$4.00 per share. The total gross proceeds of the offering were \$10,000,003. The warrants issued will become exercisable beginning six months after the closing date, and will remain exercisable until the five-year anniversary of the initial exercise date, and were recorded as liabilities at fair value.

A summary of the allocation of the proceeds of the offering is shown below:

|  |               |
|--|---------------|
| Gross Proceeds:  | \$ 10,000,003 |
| Allocated to warrant liabilities                         | 3,673,168     |
| Allocated to common stock and additional paid-in capital | 6,326,835     |
| Total allocated gross proceeds:                          | \$ 10,000,003 |

The Company also issued warrants to purchase up to an aggregate 181,818 shares of common stock to the placement agent in the offering. The closing costs for the offering of \$1,193,052 included \$434,320 for the placement agent warrants and \$758,732 for placement agent and other fees. Based on the estimated fair value of the stock and warrants in the units, the Company allocated \$333,050 to financing expense for the warrants and \$860,002 as stock issuance costs.

(Unaudited)

## 11. Stock-Based Compensation

As of June 30, 2017, the Company had 1,937,871 options to purchase common stock and 54,300 restricted stock units (“RSUs”) outstanding.

At the Company’s Annual Meeting of Shareholders held on June 10, 2013, the Company’s shareholders voted to approve the Rexahn Pharmaceuticals, Inc. 2013 Stock Option Plan (the “2013 Plan”). Under the 2013 Plan, the Company grants equity awards to key employees, directors and consultants of the Company. The Company initially reserved 1,700,000 shares of common stock for issuance pursuant to the 2013 Plan, and on April 11, 2017, the Company’s shareholders approved an increase of 1,700,000 shares of common stock reserved for issuance pursuant to the 2013 Plan. As of June 30, 2017, there were 1,540,871 options and 54,300 RSUs outstanding under the 2013 Plan, and 1,804,079 shares were available for issuance.

On August 5, 2003, the Company established a stock option plan (the “2003 Plan”). Under the 2003 Plan, the Company granted stock options to key employees, directors and consultants of the Company. With the adoption of the 2013 Plan, no new stock options may be issued under the 2003 Plan, but previously issued options under the 2003 Plan remain outstanding until their expiration. As of June 30, 2017, there were 385,000 options outstanding under the 2003 Plan.

In March 2016, the Company granted to a third party an option to purchase up to 12,000 shares of the Company’s common stock. These were the only Company stock options outstanding as of June 30, 2017, that were not issued pursuant to the 2013 Plan or the 2003 Plan.

## Accounting for Awards

Stock-based compensation expense is the estimated fair value of options and RSUs granted amortized on a straight-line basis over the requisite vesting service period for the entire portion of the award. Total stock-based compensation recognized by the Company for the three and six months ended June 30, 2017 and 2016 is as follows:

|                                    | For the Three Months Ended |            | For the Six Months Ended |            |
|------------------------------------|----------------------------|------------|--------------------------|------------|
|                                    | June 30,                   |            | June 30,                 |            |
|                                    | 2017                       | 2016       | 2017                     | 2016       |

## Summary of Stock Option Transactions

There were 393,260 stock options granted at exercise prices ranging from \$1.84 to \$6.18 with an aggregate fair value of \$620,185 during the six months ended June 30, 2017. There were 448,707 stock options granted at exercise prices ranging from \$2.70 to \$3.70 with an aggregate fair value of \$927,644 during the six months ended June 30, 2016.

The majority of the option grants to employees vest over a four-year period from the grant date. The vesting period is either (i) 30%, 30% and 40% on the first, second and third anniversaries of the grant date, respectively, or (ii) 25% each on the first four anniversaries of the grant date. With the exception of the options granted in March 2016, which have a three-year term, options generally expire ten years from the date of grant. For the majority of grants to non-employee consultants of the Company, the vesting period is between one and three years, subject to the fulfillment of certain conditions in the individual stock agreements, or 100% upon the occurrence of certain events specified in the individual stock agreements.

The fair value of options at the date of grant was estimated using the Black-Scholes option pricing model. The Company took into consideration guidance under ASC 718, "Compensation-Stock Compensation" and Staff Accounting Bulletin No. 107 ("SAB 107") when reviewing and updating assumptions. The expected volatility is based upon historical volatility of the Company's stock. The expected term is based upon the simplified method as allowed under SAB 107.

The assumptions made in calculating the fair values of options are as follows:

|                           | Six Months Ended June 30, |   |           |   |
|---------------------------|---------------------------|---|-----------|---|
|                           | 2017                      |   | 2016      |   |
| Black-Scholes assumptions |                           |   |           |   |
| Expected dividend yield   | 0                         | % | 0         | % |
| Expected volatility       | 69-79                     | % | 32-75     | % |
| Risk free interest rate   | 1.8-2.0                   | % | 0.6-1.4   | % |
| Expected term (in years)  | 5.5-6 years               |   | 2-6 years |   |

A summary of stock option activity for the six months ended June 30, 2017 is as follows:

|                              | Number of  | Weighted | Weighted Average Remaining | Aggregate  |
|------------------------------|------------|----------|----------------------------|------------|
|                              | Options    | Average  | Contractual Term           | Intrinsic  |
|                              |            | Exercise |                            | Value      |

(Unaudited)

The total intrinsic value of options exercised was \$97,872 for the three and six months ended June 30, 2017. There were no stock options exercised during the three and six months ended June 30, 2016. The weighted average fair value of the options granted was \$1.58 and \$2.06 for the six months ended June 30, 2017 and 2016, respectively.

A summary of the Company's unvested options as of June 30, 2017 and changes during the six months ended June 30, 2017 is presented below:

|                             | 2017       |                       |      |
|-----------------------------|------------|-----------------------|------|
|                             | Number of  | Weighted Average Fair |      |
|                             | Options    | Value at Grant Date   |      |
| Unvested at January 1, 2017 | 897,123    | \$                    | 3.21 |
| Granted                     | 393,260    | \$                    | 1.58 |
| Vested                      | (378,594 ) | \$                    | 3.06 |
| Cancelled                   | (94,702 )  | \$                    | 2.15 |
| Unvested at June 30, 2017   | 817,087    | \$                    | 2.63 |

As of June 30, 2017 there was \$1,749,516 of total unrecognized compensation cost related to unvested stock options, which is expected to be recognized over a weighted average vesting period of 2.6 years.

## Summary of Restricted Stock Unit Transactions

The Company began granting RSUs to employees in 2017. There were 62,300 RSUs granted with an aggregate fair value of \$114,632 during the six months ended June 30, 2017. The fair value of an RSU award is the closing price of the Company's common stock on the date of grant.

A summary of RSU activity for the six months ended June 30, 2017 is as follows:

|                              | Number of RSUs | Weighted        |      |
|------------------------------|----------------|-----------------|------|

|                             | Number of   | Weighted         | Number of | Weighted       |
|                             | warrants    | average exercise | warrants  | average        |
|                             |             | price            |           | exercise price |
| Balance, January 1          | 5,452,691   | \$ 4.92          | 2,649,199 | \$ 7.97        |
| Issued during the period    | 1,696,970   | \$ 4.01          | 1,250,000 | \$ 4.20        |
| Exercised during the period | (1,861,195) | \$ 3.51          | -         | \$ -           |
| Expired during the period   | -           | \$ -             | -         | \$ -           |
| Balance, June 30            | 5,288,466   | \$ 5.13          | 3,899,199 | \$ 6.76        |

At June 30, 2017 the weighted average remaining contractual life of the outstanding warrants was 4.1 years.

The warrants issued to investors in the December 2012, November 2015, March 2016 and September 2016 offerings contain a provision for net cash settlement in the event of a fundamental transaction (contractually defined to include a merger, sale of substantially all assets, tender offer or share exchange). Pursuant to the November 2015, March 2016, and September 2016 warrants, if fundamental transaction occurs, then the warrant holder has the option to receive cash, equal to the fair value of the remaining unexercised portion of the warrant. The option is available to holders of the December 2012 warrants only if the consideration issued in the fundamental transaction consists of cash or stock in a non-public company. Due to these contingent redemption provisions, the warrants require liability classification in accordance with ASC 480 and are recorded at fair value. Holders of the June 2017 warrants contain a provision that allows the holder to opt for cash settlement in a fundamental transaction that was approved by, or required to be approved by, the board of directors of the Company. All of the Company's outstanding warrants provide the holder the option as to the type of consideration received if the holders of common stock receive an option as to their consideration. In addition, all of the Company's outstanding warrants contain a cashless exercise provision that is exercisable only in the event that a registration statement is not effective. That provision may not be operative if an effective registration statement is not available because an exemption under the U.S. securities laws may not be available to issue unregistered shares. As a result, net cash settlement may be required, and the warrants require liability classification.

ASC 820 provides requirements for disclosure of liabilities that are measured at fair value on a recurring basis in periods subsequent to the initial recognition. Fair values for warrants were determined using the Binomial Lattice ("Lattice") valuation technique. The Lattice model provides for dynamic assumptions regarding volatility and risk-free interest rates within the total period to maturity. Accordingly, within the contractual term, the Company provided multiple date intervals over which multiple volatilities and risk free interest rates were used. These intervals allow the Lattice model to project outcomes along specific paths that consider volatilities and risk free rates that would be more likely in an early exercise scenario.

Table of Contents

REXAHN PHARMACEUTICALS, INC.  
Notes to Condensed Financial Statements  
(Unaudited)

Significant assumptions are determined as follows:

Trading market values—Published trading market values;

Exercise price—Stated exercise price;

Term—Remaining contractual term of the warrant;

Volatility—Historical trading volatility for periods consistent with the remaining terms; and

Risk-free rate—Yields on zero coupon government securities with remaining terms consistent with the remaining terms of the warrants.

Due to the fundamental transaction provision, which could provide for early redemption of the warrants, the model also considered the probability the Company would enter into a fundamental transaction during the remaining term of the warrant. Because the Company is not yet achieving positive cash flow, management believes the probability of a fundamental transaction occurring over the term of the warrant is unlikely and therefore estimates the probability of entering into a fundamental transaction to be 5%. For valuation purposes, the Company also assumed that if such a transaction did occur, it was more likely to occur towards the end of the term of the warrants.

The significant unobservable inputs used in the fair value measurement of the warrants include management's estimate of the probability that a fundamental transaction may occur in the future. Significant increases (decreases) in the probability of occurrence would result in a significantly higher (lower) fair value measurement.

The following table summarizes the fair value of the warrants as of the respective balance sheet dates:

| Warrant Issuance:                       | Fair Value as of: |                   |
|---|-------------------|-------------------|
|   | June 30,<br>2017  | December 31, 2016 |

## 13. Income Taxes

No provision for federal and state income taxes was required for the three and six months ended June 30, 2017 and 2016 due to the Company's operating losses and increased deferred tax asset valuation allowance. At June 30, 2017 and December 31, 2016, the Company had unused net operating loss carry-forwards of approximately \$119,618,000 and \$111,605,000 respectively, which expire at various dates through 2037. Some of this amount may be subject to annual limitations under certain provisions of the Internal Revenue Code related to "changes in ownership."

As of June 30, 2017 and December 31, 2016, the deferred tax assets related to the aforementioned carry-forwards have been fully offset by valuation allowances, because significant utilization of such amounts is not presently expected in the foreseeable future.

Deferred tax assets and valuation allowances consist of:

|  | June 30,<br>2017 | December 31,<br>2016 |
|--|------------------|----------------------|
| Net Operating Loss Carryforwards               | \$46,651,000     | \$ 43,526,000        |
| Stock Compensation Expense                     | 2,109,000        | 1,968,000            |
| Book tax differences on assets and liabilities | 410,000          | 547,000              |
| Valuation Allowance                            | (49,170,000 )    | (46,041,000 )        |
| Net Deferred Tax Assets                        | \$-              | \$ -                 |

The Company files income tax returns in the U.S. federal and Maryland state jurisdictions. Tax years for fiscal 2013 through 2016 are open and potentially subject to examination by the federal and Maryland state taxing authorities.

14. Commitments and Contingencies

The Company has contracted with various vendors for research and development services, with terms that require payments over the terms of the agreements, usually ranging from two to 36 months. The costs to be incurred are a) estimated and are subject to revision. As of June 30, 2017, the total estimated cost to complete these agreements was approximately \$8,500,000. All of these agreements may be terminated by either party upon appropriate notice as stipulated in the respective agreements.

b) On June 22, 2009, the Company entered into a License Agreement with Korea Research Institute of Chemical Technology (“KRICT”) to acquire the rights to all intellectual property related to quinoxaline-piperazine derivatives that were synthesized under a Joint Research Agreement. The initial license fee was \$100,000, all of which was paid as of December 31, 2009. The agreement with KRICT calls for a one-time milestone payment of \$1,000,000 within 30 days after the first achievement of marketing approval of the first commercial product arising out of or in connection with the use of KRICT’s intellectual property. As of June 30, 2017, the milestone has not occurred.

c) Office Space Lease

On June 5, 2009, the Company entered into a commercial lease agreement for 5,466 square feet of office space in Rockville, Maryland. The lease was amended on June 7, 2013 to extend the term until June 30, 2019.

On July 26, 2014 the lease was amended to add 1,727 square feet of office space for a term beginning on September 1, 2014 and ending on August 31, 2015, which was subsequently renewed for additional one-year terms, beginning on September 1, 2015 and 2016, and a 22-month term beginning September 1, 2017 and expiring on June 30, 2019. Under the lease agreement, the Company pays its allocable portion of real estate taxes and common area operating charges.

Rent paid under the Company’s lease during the three months ended June 30, 2017 and 2016 was \$50,898 and \$51,301, respectively, and rent paid during the six months ended June 30, 2017 and 2016 was \$101,796 and \$102,603, respectively.

Laboratory Lease

On April 20, 2015, the Company signed a five-year lease agreement for 2,552 square feet of laboratory space commencing on July 1, 2015 and ending on June 30, 2020. Under the lease agreement, the Company pays its allocable portion of real estate taxes and common area operating charges. Rent paid under this lease during the three months ended June 30, 2017 and 2016 was \$15,771 and \$15,312, respectively, and rent paid during the six months ended June 30, 2017 was \$31,543 and \$30,624.

Table of Contents

REXAHN PHARMACEUTICALS, INC.  
 Notes to Condensed Financial Statements  
 (Unaudited)

Future rental payments over the next five years for all leases are as follows:

|  |       |            |
|--|-------|------------|
| For the remaining six months ending December 31: | 2017  | \$ 137,360 |
| For the year ending December 31:                 | 2018  | 279,274    |
|  | 2019  | 176,080    |
|  | 2020  | 34,468     |
|  | Total | \$ 627,182 |

The Company has established a 401(k) plan for its employees. The Company has elected to match 100% of the first 3% of an employee's compensation plus 50% of an additional 2% of the employee's deferral. Expense related to this matching contribution aggregated to \$34,606 and \$31,587 for the three months ended June 30, 2017 and 2016, respectively, and \$71,083 and \$63,089 for the six months ended June 30, 2017 and 2016, respectively.

In July 2013, the Company entered into an exclusive license agreement with the University of Maryland, Baltimore for a novel drug delivery platform, Nano-Polymer Drug Conjugate Systems. RX-21101 is the Company's first drug candidate utilizing this platform. The agreement requires the Company to make payments to the University of Maryland if RX-21101 or any products from the licensed delivery platform achieve development milestones. As of June 30, 2017, no development milestones have occurred.

In October 2013, the Company signed an exclusive license agreement with the Ohio State Innovation Foundation, for a novel oligonucleotide drug delivery platform, Lipid-Coated Albumin Nanoparticle. The agreement requires the Company to make payments to the Ohio State Innovation Foundation if any products from the licensed delivery platform achieve development milestones. As of June 30, 2017, no development milestones have occurred.

## 15. Fair Value Measurements

ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, not adjusted for transaction costs. ASC 820 also establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels giving the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels are described below:

|                   |   |
|-------------------|---|
| Level 1<br>Inputs | Unadjusted quoted prices in active markets for identical assets or liabilities that are accessible by the Company;  |
| Level 2<br>Inputs | Quoted prices in markets that are not active or financial instruments for which all significant inputs are observable, either directly or indirectly; and |
| Level 3<br>Inputs | Unobservable inputs for the asset or liability including significant assumptions of the Company and other market participants.                            |

The following tables present assets and liabilities that are measured at fair value on a recurring basis and are categorized using the fair value hierarchy. There have been no changes in the methodologies used at June 30, 2017 and December 31, 2016.

Fair Value Measurements at June 30, 2017

|  | Total | Level 1 | Level 2 | Level 3 |
|--|-------|---------|---------|---------|
|--|-------|---------|---------|---------|

## Assets:

|                      |                     |             |                     |            |

|---------------------|-------------|------|-----|-------------|

Table of Contents

REXAHN PHARMACEUTICALS, INC.  
 Notes to Condensed Financial Statements  
 (Unaudited)

The fair value of the Company's Level 2 marketable securities is determined by using quoted prices from independent pricing services that use market data for comparable securities in active or inactive markets. A variety of data inputs, including benchmark yields, interest rates, known historical trades and broker dealer quotes are used with pricing models to determine the quoted prices.

The fair value methodology for the warrant liabilities is disclosed in Note 12.

The carrying amounts reported in the financial statements for cash and cash equivalents (Level 1), approximate fair value because of the short term maturity of these financial instruments.

The following table sets forth a reconciliation of changes for the six months ended June 30, 2017 and 2016 in the fair value of the liabilities classified as Level 3 in the fair value hierarchy:

|                            | Warrant Liabilities |
|----------------------------|---------------------|
| Balance at January 1, 2017 | \$ 1,573,366        |
| Additions                  | 4,107,488           |
| Unrealized losses, net     | 12,168,331          |
| Transfers out of level 3   | (8,052,594 )        |
| Balance at June 30, 2017   | \$ 9,796,591        |

|                            | Warrant Liabilities |
|----------------------------|---------------------|
| Balance at January 1, 2016 | \$ 2,739,163        |
| Additions                  | 2,575,860           |
| Unrealized gains, net      | (2,974,045 )        |
| Transfers out of level 3   | -                   |
| Balance at June 30, 2016   | \$ 2,340,978        |

Additions consist of the fair value of warrant liabilities upon issuance. Transfers out of Level 3 for warrant liabilities consist of warrant exercises, where the liability is converted to additional paid-in capital upon exercise. The Company's policy is to recognize transfers in and transfers out as of the actual date of the event or change in circumstance that caused the transfer.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

OVERVIEW

The following discussion should be read in conjunction with the unaudited condensed financial statements and notes thereto set forth in Item 1 of this Quarterly Report on Form 10-Q and the audited financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2016.

Except for the historical information contained herein, the matters discussed in this Quarterly Report on Form 10-Q may be deemed to be forward-looking statements that involve risks and uncertainties. We make such forward-looking statements pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and other federal securities laws. In this Quarterly Report on Form 10-Q, words such as "believe", "estimate", "expect", "anticipate", "will", "may", "intend" and other similar expressions, are intended to identify forward-looking statements. We caution that forward-looking statements are based largely on our expectations and are subject to a number of known and unknown risks and uncertainties that are subject to change based on factors that are, in many instances, beyond our control. Actual results, performance or achievements may differ materially from those contemplated, expressed or implied by the forward-looking statements.

Although we believe that the expectations reflected in our forward-looking statements are reasonable as of the date we make them, actual results could differ materially from those currently anticipated due to a number of factors, including risks relating to:

- our understandings and beliefs regarding the role of certain biological mechanisms and processes in cancer;
- our drug candidates being in early stages of development, including in pre-clinical development;
- our ability to initially develop drug candidates for orphan indications to reduce the time-to-market and take advantage of certain incentives provided by the U.S. Food and Drug Administration;
- our ability to transition from our initial focus on developing drug candidates for orphan indications to candidates for more highly prevalent indications;
- our ability to successfully and timely complete clinical trials for our drug candidates in clinical development;
- uncertainties related to the timing, results and analyses related to our drug candidates in pre-clinical development;
- our ability to obtain the necessary U.S. and international regulatory approvals for our drug candidates;
- our reliance on third-party contract research organizations and other investigators and collaborators for certain research and development services;
- our ability to maintain or engage third-party manufacturers to manufacture, supply, store and distribute supplies of our drug candidates for our clinical trials;

Table of Contents

- our ability to form strategic alliances and partnerships with pharmaceutical companies and other partners for sales and marketing of certain of our product candidates;
- demand for and market acceptance of our drug candidates;
- the scope and validity of our intellectual property protection for our drug candidates and our ability to develop our candidates without infringing the intellectual property rights of others;
- our lack of profitability and the need for additional capital to operate our business; and
- other risks and uncertainties, including those set forth herein and in our Annual Report on Form 10-K for the year ended December 31, 2016 under the caption “Risk Factors” and those detailed from time to time in our filings with the Securities and Exchange Commission.

These forward-looking statements are made only as of the date hereof, and we undertake no obligation to update or revise the forward-looking statements, whether as a result of new information, future events or otherwise.

We are a clinical stage biopharmaceutical company dedicated to the discovery, development and commercialization of innovative treatments for cancer. Our mission is to improve the lives of cancer patients by developing next-generation cancer therapies that are designed to maximize efficacy while minimizing the toxicity and side effects traditionally associated with cancer treatment. Our clinical pipeline features three oncology product candidates in Phase II clinical development and additional compounds in pre-clinical development. Our strategy is to continue building a significant pipeline of innovative oncology product candidates that we intend to commercialize with partners. Our three clinical stage drug candidates in active development are RX-3117, Supinoxin™ (RX-5902) and Archexin®.

RX-3117 is a small molecule nucleoside compound that we believe has therapeutic potential in a broad range of cancers, including pancreatic, bladder, colon, and lung cancer. RX-3117 is initially being evaluated as monotherapy in a multi-center Phase IIa clinical trial in metastatic pancreatic cancer in patients who are refractory to, or have relapsed after, multiple prior rounds of chemotherapy. We are also planning to evaluate RX-3117 in combination with Abraxane® (nab-paclitaxel) as first line treatment in patients who are newly-diagnosed with metastatic pancreatic cancer and have not had prior cytotoxic treatment. In 2016, we also commenced enrollment in a Phase IIa trial in patients with locally advanced or metastatic bladder cancer. This Phase IIa clinical trial is a multi-center open label, single agent study of RX-3117 being conducted at 12 clinical centers in the United States. RX-3117 has received orphan drug designation from the U.S. Food and Drug Administration (the “FDA”) for pancreatic cancer. Orphan drug designation provides tax incentives for clinical research and a waiver from user fees under certain circumstances. In addition, an orphan drug generally receives seven years of exclusivity after approval for a designated use, during which period the FDA generally cannot approve another product with the same active moiety for the same indication.

Supinoxin, or RX-5902, is a potential first-in-class small molecule inhibitor of phosphorylated-p68, a protein that we believe plays a key role in cancer cell growth, progression and metastasis through its interaction with beta-catenin. In February, 2017 we initiated a Phase IIa clinical study of Supinoxin in patients with metastatic triple negative breast cancer (“TNBC”).

## Table of Contents

Archexin is a potential best-in-class, potent inhibitor of the protein kinase Akt-1, which we believe plays a critical role in cancer cell proliferation, survival, angiogenesis, metastasis and drug resistance. Archexin has received orphan drug designation from the FDA for renal cell carcinoma (“RCC”), glioblastoma, ovarian cancer, stomach cancer and pancreatic cancer. We are currently conducting a Phase IIa proof-of-concept clinical trial of Archexin in patients with metastatic renal cell carcinoma to evaluate its safety and efficacy in combination with AFINITOR® (everolimus).

Since our inception, our efforts and resources have been focused primarily on developing our pharmaceutical technologies, raising capital and recruiting personnel. We have no product sales to date, and we will not generate any product sales until we receive approval from the FDA or equivalent foreign regulatory bodies to begin selling our pharmaceutical candidates. Our major sources of working capital have been proceeds from various private and public financings, and licensing and collaboration agreements with our strategic investors and partners.

On May 5, 2017 the Company effected a one-for-ten reverse stock split of the outstanding shares of the Company’s common stock, together with a corresponding proportional reduction in the number of authorized shares of the Company’s capital stock. See Note 10, “Common Stock—Reverse Stock Split,” in the Notes to Consolidated Financial Statements.

## Recently Issued Accounting Standards

See Note 2, “Recent Accounting Pronouncements Affecting the Company,” in the Notes to Condensed Financial Statements for a discussion of recent accounting pronouncements.

## Results of Operations

### Comparison of the Three and Six Months Ended June 30, 2017 and June 30, 2016

#### Total Revenues

We had no revenues for the three and six months ended June 30, 2017 or 2016.

#### General and Administrative Expenses

General and administrative expenses consist primarily of salaries and related expenses for executive, finance and other administrative personnel, recruitment expenses, professional fees and other corporate expenses, including business development, investor relations, and general legal activities.

General and administrative expenses increased approximately \$64,000, or 3.8%, to \$1,740,000 for the three months ended June 30, 2017 from \$1,676,000 for the three months ended June 30, 2016. General and administrative expenses increased approximately \$360,000, or 11.7%, to \$3,431,000 for the six months ended June 30, 2017 from \$3,071,000 for the six months ended June 30, 2016. The increases were primarily attributable to higher personnel costs in 2017.

#### Research and Development Expenses

Research and development expenses increased approximately \$307,000, or 13.7%, to \$2,544,000 for the three months ended June 30, 2017, from \$2,237,000 for the three months ended June 30, 2016. Increased research and development costs for the three months ended June 30, 2017 were primarily due to increased clinical trial and patient enrollment costs for RX-3117. Research and development expenses decreased approximately \$899,000, or 15.8%, to \$4,807,000 for the six months ended June 30, 2017, from \$5,706,000 for the six months ended June 30, 2016. Decreased research and development costs for the six months ended June 30, 2017, were primarily attributable to lower manufacturing costs for our drug candidates due to a significant supply of our drug candidates already being available to us from

earlier manufacturing campaigns. During the six months ended June 30, 2017, we incurred approximately \$632,000 of drug manufacturing costs, compared to approximately \$1,967,000 during the six months ended June 30, 2016. Because the volume and timing of drug manufacturing does not correlate directly with the level and timing of clinical trial activity, we expect expenses related to drug manufacturing costs to vary from period to period based not only on the progress of clinical trials, but also when we engage in manufacturing activities. The decreases to drug manufacturing costs were partially offset by the increases in clinical costs discussed above. We expect research and development expenses to increase in the remaining quarters of 2017 compared to the quarter ended June 30, 2017 due to continued patient enrollment in our clinical trials and new manufacturing campaigns.

Table of Contents

The table below summarizes the approximate amounts incurred in each of our research and development projects for the three and six months ended June 30, 2017 and 2016:

|   | For the Three Months Ended |              | For the Six Months Ended |              |
|---|----------------------------|--------------|--------------------------|--------------|
|   | June 30,<br>2017           | 2016         | June 30,<br>2017         | 2016         |
| Clinical Candidates:                    |                            |              |                          |              |
| RX-3117                                 | \$ 1,137,200               | \$ 487,500   | \$ 1,888,500             | \$ 1,434,700 |
| Supinoxin                               | 286,700                    | 593,300      | 697,800                  | 1,329,400    |
| Archexin                                | 130,700                    | 226,000      | 298,800                  | 1,083,600    |
| Preclinical, Personnel and Overhead     | 989,662                    | 930,233      | 1,921,557                | 1,857,907    |
| Total Research and Development Expenses | \$ 2,544,262               | \$ 2,237,033 | \$ 4,806,657             | \$ 5,705,607 |

## Interest Income

Interest income increased approximately \$14,000 and \$17,000 or 48.2% and 29.2%, respectively for the three and six months ended June 30, 2017, respectively, compared to the same periods in 2016. The increases were primarily attributable to higher aggregate balances of cash and cash equivalents and marketable securities and higher interest rates on marketable securities for the three and six months ended June 30, 2017 compared to the same periods in 2016.

## Unrealized Gain (Loss) on Fair Value of Warrants

Our warrants are recorded as liabilities at fair value, and the warrants are valued using a lattice model. Changes in the fair value of warrants are recorded as an unrealized gain or loss in our statement of operations. During the three months ended June 30, 2017 and 2016, we recorded unrealized gains on the fair value of our warrants of approximately \$5,521,000 and \$2,118,000. During the six months ended June 30, 2017, we recorded unrealized gains (losses) on the fair value of warrants of (\$12,168,000) and \$2,974,000 respectively. Estimating fair values of warrants requires the development of significant and subjective estimates that may, and are likely to, change over the duration of the warrants due to related changes to external market factors. The large unrealized gain for the three months ended June 30, 2017 primarily resulted from a significant decrease in the stock price of the underlying common stock at June 30, 2017 compared to March 31, 2017. The large unrealized loss for the six months ended June 30, 2017 primarily resulted from a significant increase in the stock price of the underlying common stock at June 30, 2017 compared to December 31, 2016. An increase in volatility of the common stock during that period and the large number of outstanding warrants also had an impact on the large unrealized loss for the six months ended June 30, 2017.

Table of Contents

Financing Expense

We incurred approximately \$333,000 of financing expenses during the three and six months ended June 30, 2017, related to our registered direct offering in June 2017. We incurred approximately \$170,000 of financing expenses during the six months ended June 30, 2016, related to our registered direct offering in March 2016. We did not incur financing expenses during the three months ended June 30, 2016.

Net Income (Loss)

As a result of the above, net income (loss) for the three and six months ended June 30, 2017 was approximately \$947,000 and (\$20,664,000), or \$0.04 and (\$0.83) per basic share, respectively, compared to approximately (\$1,766,000) and (\$5,915,000), or (\$0.08) and (\$0.28) per share, respectively, for the three and six months ended June 30, 2016. As previously discussed, included in the net income (loss) for the three and six months ended June 30, 2017 are non-cash charges of approximately \$5,521,000 and (\$12,168,000) in unrealized gains (losses) on the fair value of warrants, compared to unrealized gains of \$2,118,000 and \$2,974,000 for the three and six months ended June 30, 2016.

Research and Development Projects

Research and development costs are expensed as incurred. These costs consist primarily of salaries and related personnel costs, costs to acquire pharmaceutical products and product rights for development and amounts paid to contract research organizations, hospitals and laboratories for the provision of services and materials for drug development and clinical trials. Costs incurred in obtaining the license rights to technology in the research and development stage that have no alternative future uses are expensed as incurred. Our research and development programs are related to our oncology clinical stage drug candidates, RX-3117, Supinoxin and Archexin, and our pre-clinical stage drug candidate, RX-21101. As we expand our clinical studies, we expect to enter into additional development agreements. Significant additional expenditures will be required if we complete our clinical trials, start new trials, apply for regulatory approvals, continue development of our technologies, expand our operations and bring our products to market. The eventual total cost of each clinical trial is dependent on a number of uncertainties such as trial design, the length of the trial, the number of clinical sites and the number of patients. The process of obtaining and maintaining regulatory approvals for new therapeutic products is lengthy, expensive and uncertain. Because the successful development of our most advanced drug candidates, RX-3117, Supinoxin and Archexin, is uncertain, and because RX-21101 is in early-stage development, we are unable to estimate the costs of completing our research and development programs, the timing of bringing such programs to market and, therefore, when material cash inflows could commence from the sale of these drug candidates, if any. If these projects are not completed as planned, our results of operations and financial condition would be negatively affected.

RX-3117

RX-3117 is a novel, investigational oral small molecule nucleoside compound. We believe RX-3117 has therapeutic potential in a broad range of cancers including pancreatic, bladder, cervical, non-small cell lung cancer and colon cancer. We previously identified the MTD of RX-3117, which we are evaluating in Phase IIa proof-of-concept clinical trials in patients with relapsed or refractory metastatic pancreatic cancer and patients with locally advanced or metastatic bladder cancer.

Table of Contents

Expenses related to RX-3117 increased during the three and six months ended June 30, 2017 compared to the same period in 2016 due to increased clinical trial costs and increased patient enrollments resulting from the progression of our pancreatic and bladder cancer clinical trials. We expect that expenses related to RX-3117 will increase in the remainder of 2017 compared to the three and six months ended June 30, 2017 due to patient enrollment costs, new manufacturing campaigns, and the commencement of a combination Phase IIa clinical trial with Abraxane in pancreatic cancer.

Supinoxin (RX-5902)

Supinoxin is a potential first-in-class small molecule inhibitor of phosphorylated p68, a protein that we believe plays a key role in cancer growth, progression and metastasis through its interaction with beta-catenin. Phosphorylated p68 results in up-regulation of cancer-related genes and a subsequent proliferation of cancer cells and tumor growth. In February 2017, we initiated a Phase IIa clinical study of Supinoxin in patients with metastatic TNBC.

Expenses related to Supinoxin decreased during the three and six months ended June 30, 2017 compared to the three and six months ended June 30, 2016. The decrease is primarily attributable to decreased manufacturing costs due to a significant supply of drug product already available from earlier manufacturing campaigns. However, we expect that expenses related to Supinoxin will increase in the remainder of 2017 compared to the three and six months ended June 30, 2017 due to patient enrollment costs associated with our Phase IIa trial in patients with metastatic TNBC and new manufacturing campaigns.

Archexin

Archexin is a potential best-in-class, potent inhibitor of the protein kinase Akt-1, which we believe plays a critical role in cancer cell proliferation, survival, angiogenesis, metastasis and drug resistance. We are currently conducting a Phase IIa proof-of-concept clinical trial of Archexin in patients with metastatic RCC to evaluate its safety and efficacy in combination with AFINITOR (everolimus).

Expenses related to Archexin decreased during the three and six months ended June 30, 2017 compared to the same periods in 2016. The decrease is primarily attributable to decreased manufacturing costs due to a significant supply of drug product already available. We expect that expenses related to Archexin will remain flat for the remainder of 2017 compared to the three and six months ended June 30, 2017 as we continue the ongoing Archexin clinical trial.

Pre-clinical Pipeline

Expenses related to our pre-clinical candidates decreased for the three and six months ended June 30, 2017 compared to the same periods in 2016 primarily as a result of the timing of costs incurred for ongoing preclinical development. We expect that expenses related to our pre-clinical pipeline, including RX-21101, will increase slightly for the remainder of 2017 compared to the three and six months ended June 30, 2017 as we continue testing and development.

Table of Contents

Research and Development Process

We have engaged third-party contract research organizations and other investigators and collaborators, such as universities and medical institutions, to conduct our pre-clinical studies, toxicology studies and clinical trials. Engaging third-party contract research organizations is typical practice in our industry. However, relying on such organizations means that the clinical trials and other studies described above are being conducted at external locations and that the completion of these trials and studies is not within our direct control. Trials and studies may be delayed due to circumstances outside our control, and such delays may result in additional expenses for us.

Liquidity and Capital Resources

Cash Flows

Cash used in operating activities was approximately \$8,268,000 for the six months ended June 30, 2017. The operating cash flows during the six months ended June 30, 2017 reflect a net loss of \$20,664,000, offset by an unrealized loss on the fair value of warrants of \$12,168,000 and a net increase of cash components of working capital and non-cash charges totaling \$228,000. Cash used in operating activities was approximately \$8,612,000 for the six months ended June 30, 2016. The operating cash flows during the six months ended June 30, 2016 reflect our net loss of \$5,915,000, an unrealized gain on the fair value of warrants of 2,974,000 and a net increase of cash components of working capital and other non-cash charges totaling \$277,000.

Cash used in investing activities was approximately \$9,307,000 for the six months ended June 30, 2017, which consisted of \$15,009,000 and \$18,000 for the purchases of marketable securities and equipment, respectively, offset by \$5,720,000 from the redemption of marketable securities. Cash provided by investing activities was approximately \$1,711,000 for the six months ended June 30, 2016, which consisted of \$3,440,000 from the redemption of marketable securities, offset by \$1,722,000 and \$7,000 for the purchases of marketable securities and equipment, respectively.

Cash provided by financing activities was approximately \$14,787,000 for the six months ended June 30, 2017, which consisted of net proceeds of \$9,355,000 from our registered direct public offering in June 2017 and \$5,354,000 and \$78,000 from the exercise of stock warrants and options, respectively. Cash provided by financing activities was approximately \$4,580,000 for the six months ended June 30, 2016, which consisted of net proceeds from our registered direct public offering in March 2016.

Contractual Obligations

We have a variety of contractual obligations, as more fully described in our 2016 Form 10-K. These obligations include, but are not limited to, contractual obligations in connection with license agreements (including related milestone payments), lease payments, employee compensation and incentive program expenses, and contracts with various vendors for research and development services. As of June 30, 2017, the total estimated cost to complete our contracts with vendors for research and development services was approximately \$8,500,000 under the terms of the applicable agreements. All of these agreements may be terminated by either party upon appropriate notice as stipulated in the respective agreements.

Table of Contents

Current and Future Financing Needs

We have incurred negative cash flow from operations since we started our business. We have spent, and expect to continue to spend, substantial amounts in connection with implementing our business strategy, including our planned product development efforts, our clinical trials and our research and development efforts. We will need to raise additional capital through public or private equity or debt offerings or through arrangements with strategic partners or other sources in order to continue to develop our drug candidates. There can be no assurance that additional capital will be available when needed or on terms satisfactory to us, if at all. If we are not able to raise sufficient additional capital, we will have to reduce our research and development activities. We believe our cash, cash equivalents, and marketable securities will be sufficient to cover our cash flow requirements for our current activities for at least the next 12 months from the date these financial statements were issued.

The actual amount of funds we will need to operate is subject to many factors, some of which are beyond our control. These factors include the following:

- the progress of our product development activities;
- the number and scope of our product development programs;
- the progress of our pre-clinical and clinical trial activities;
- the progress of the development efforts of parties with whom we have entered into collaboration agreements;
- our ability to maintain current collaboration programs and to establish new collaboration arrangements;
- the costs involved in prosecuting and enforcing patent claims and other intellectual property rights; and
- the costs and timing of regulatory approvals.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements or holdings in variable interest entities.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

For quantitative and qualitative disclosures about market risk, refer to “Quantitative and Qualitative Disclosures About Market Risk” in our 2016 Form 10-K. Our exposures to market risk have not changed materially since December 31, 2016.

Item 4. Controls and Procedures.

Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our Chief Executive Officer (“CEO”) and Chief Financial Officer (“CFO”), we evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this report. Based upon that evaluation, our CEO and CFO concluded that our disclosure controls and procedures as of the end of the period covered by this report were effective such that the information required to be disclosed by us in reports filed under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission’s (the “SEC’s”) rules and forms and (ii) accumulated and communicated to our management, including our CEO and CFO, as appropriate to allow timely decisions regarding disclosure. A controls system cannot provide absolute assurance, however, that the objectives of the controls system are met, and no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected.

Changes in Internal Control Over Financial Reporting

There has been no change in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the quarter ended June 30, 2017 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

PART II. Other Information

Item 1A. Risk Factors.

Investing in our stock involves a high degree of risk. In addition to the other information set forth in this report, you should carefully consider the factors set forth in the Risk Factors section of our 2016 Form 10-K, as well as other information contained in the 2016 Form 10-K and in other reports we file with the SEC. We do not believe that there have been any material changes to the risk factors disclosed in our 2016 Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

During the three months ended June 30, 2017, we issued 27,852 and 13,257 shares of common stock to warrant holders upon exercise of unregistered warrants that were issued pursuant to letter agreements, dated February 26, 2016, and November 5, 2015, respectively, between us and H.C. Wainwright and Company, LLC. The warrants and the warrant shares were not registered under the Securities Act pursuant to the exemption from registration requirements provided by Section 4(a)(2) of the Securities Act, as transactions not involving a public offering.

Item 5. Other Information.

On August 2, 2017, we terminated the at market issuance sales agreement, dated as of March 16, 2015, with MLV & Co. LLC, now part of FBR & Co. (“MLV”) pursuant to which we were entitled to issue and sell shares of our common stock having an aggregate offering price of up to \$40 million from time to time, at our option, through MLV as our sales agent. Prior to termination of the agreement, due to limitations agreed to by us in connection with our prior registered direct offerings, we were not able to use the sale agreement until June 12, 2018.

Item 6. Exhibits.

The exhibits filed as part of this Quarterly Report on Form 10-Q are set forth on the Exhibit Index, which is incorporated herein by reference.
