(1) Reflects target total compensation of Mr. Muehlhaeuser, the Company's former President and CEO. Does not include compensation awarded to William C. Johnson, who was named President and CEO in late 2018, or non-routine compensation awarded to Josef Matosevic, who served as interim President and CEO for part of 2018.

BOARD COMPOSITION

CRITERIA FOR EVALUATING DIRECTOR CANDIDATES. The Corporate Governance Committee of our Board is responsible for evaluating potential candidates for service on our Board, including evaluating the performance and suitability of incumbent directors before recommending them to the full Board for re-election, reviewing candidates recommended by certain qualified stockholders and identifying and recommending new candidates for nomination to fill existing or expected vacancies on the Board. Under our Corporate Governance Guidelines, qualified directors should generally meet certain specified expectations, including:

- Education, experience and insight necessary to understand the Company's business and give long-term direction and guidance for the success of the enterprise.
- Business or professional stature necessary to represent the Company before the public, its stockholders and other individuals and groups that affect the Company's business.
- Strong measures of independence (for outside directors) and strength of conviction while also leaving behind personal prejudice so as to be open to other points of view from fellow directors.
- Willingness and ability to objectively and constructively appraise management performance and recommend appropriate changes when necessary.

- Avoid any activity or interest that might conflict with a director's fiduciary responsibility to the Company and its stockholders.

DIVERSITY. In addition, the Board appreciates the value that can come from a diverse representation on the Board. In identifying candidates for the Board, the Corporate Governance Committee considers foremost the qualifications and experience that the committee believes would best suit the Board's needs created by each particular vacancy. As part of the process, the Corporate Governance Committee and the Board endeavor to have a Board comprised of individuals with diverse backgrounds, viewpoints, and life and professional experiences, provided such individuals should all have a high level of management and/or financial experience. In this process, the Board and the Corporate Governance Committee do not discriminate against any candidate on the basis of race, color, national origin, gender, religion, disability, sexual orientation, or gender identity. While the Company has no formal diversity policy that applies to the consideration of director candidates, the Corporate Governance Committee believes that diversity includes not just race and gender but differences of viewpoint, experience, education, skill and other qualities or attributes.

BOARD LEADERSHIP STRUCTURE. Currently, the roles of Board Chairperson and Chief Executive Officer are held by two different individuals. The Board has determined that the interests of the Company and the Board are best

TABLE OF CONTENTS

served at this time by separating these roles. In light of the Company's recent spin-off in March 2016, the Board continues to believe that it is important to have a President and Chief Executive Officer focus on the day-to-day management of the business and execution of our strategic plan and have a separate independent Board Chairperson with a long-standing familiarity of the Company focus on leading the Board of Directors, providing advice and support to the President and CEO when needed, facilitating the Board's independent oversight of management and enabling the Board to fulfill its risk oversight responsibilities. The current leadership structure not only encourages the free and open dialogue of competing views but also provides for strong checks and balances. In the event that the Chairperson of the Board is also the Chief Executive Officer, the Corporate Governance Guidelines provide for the designation of a lead independent director to serve as a liaison between the Chairperson of the Board and the independent directors, among other things.

BOARD INDEPENDENCE. The Board affirmatively determined that all of our director nominees, except for Mr. Johnson, our President and CEO, are independent according to our Corporate Governance Guidelines, the Director Independence Criteria adopted by the Board and applicable rules of the NYSE. For a director to be considered independent under the NYSE rules, the Board must affirmatively determine that a director does not have a material relationship with Welbilt (other than as a director). In determining whether a director has a material relationship with Welbilt, the Board will consider the nine criteria specified in the Company's Director Independence Criteria. Any director who meets all of the nine criteria will be presumed by the Board to have no material relationship with Welbilt.

The Corporate Governance Committee is responsible for periodically reviewing and making recommendations to the Board regarding director independence. Upon the committee's recommendation, the Board reviews and makes its independence determinations. These determinations are generally made on an annual basis at the same meeting at which the Board approves director nominees for election at the annual meeting of stockholders and at such other times as circumstances dictate, including if a director joins the Board in the interim or an individual director's circumstances should change in such a manner that would impact his or her independence from management.

DIRECTOR ORIENTATION AND ONGOING EDUCATION. All new directors elected to the Board participate in a new director orientation program, which is established and administered under the direction of the Corporate Governance Committee. Continuing directors who are not currently serving as officers of other public companies are encouraged to participate in a minimum of eight hours of seminars and educational opportunities per year in an area pertinent to the Company or such director's committee assignments. Educational opportunities may include attendance at relevant trade shows, tours of Company facilities and service as a director on other company boards.

ELECTION OF DIRECTORS. Under our Bylaws, in the event of an uncontested election of directors, each director nominee shall be elected to the Board by the vote of the majority of the votes cast. For purposes of the election of directors, a majority of the votes cast means that the number of shares voted For a director nominee must exceed the number of shares voted Against that director nominee. Abstentions and broker non-votes are not considered votes cast for this purpose and will have no effect on the election of director nominees.

BOARD CANDIDATES. The Corporate Governance Committee will consider candidates recommended by officers, Board members, stockholders and third-party professional search firms retained by the Corporate Governance Committee.

Stockholder Submissions. The Corporate Governance Committee will only review recommendations for director nominees from any stockholder beneficially owning, or group of stockholders beneficially owning in the aggregate, at least 5% of the issued and outstanding common stock of the Company for at least one year as of the date that the recommendation was made (a Qualified Stockholder). Qualified Stockholders who wish to recommend individuals to the Corporate Governance Committee for consideration as potential director candidates may do so by submitting their recommendation no later than the 120th calendar day before the anniversary date the Company's proxy statement was

released to stockholders in connection with the previous year's annual meeting for the recommendation to be considered by the Corporate Governance Committee, together with appropriate biographical and background information sufficient to allow the committee to review the individual's qualifications and a statement as to whether the Qualified Stockholder beneficially owned in the aggregate, at least 5% of the issued and outstanding common stock of the Company for at least one year as of the date that the recommendation was made. Any recommendation must be submitted in accordance with the procedures set forth in the Corporate Governance Guidelines under the heading Communications to the Board of Directors. The Corporate Governance Committee will review any compliant and timely submitted recommendations and has sole discretion as to whether to nominate the recommended individual.

The Corporate Governance Committee did not receive any recommendations for director nominees from any Qualified Stockholder (as defined in the foregoing policy).

TABLE OF CONTENTS

Incumbent Directors. Prior to the expiration of the term of a director desiring to stand for re-election, the Corporate Governance Committee will evaluate the performance and suitability of the particular director. The evaluation may include the opportunity for other sitting directors to provide input to the Corporate Governance Committee or its chairperson and may include an interview of the director being evaluated. If the director being evaluated is the chairperson of the Corporate Governance Committee, another member of the Corporate Governance Committee will be appointed to lead the evaluation. The Corporate Governance Committee will make a recommendation to the Board, and the Board will make a final determination as to which directors shall be nominated for re-election.

Board Vacancies. In the event of a vacancy on the Board, the Corporate Governance Committee will manage the process of searching for a suitable director. The Corporate Governance Committee will use its judgment in structuring and carrying out the search process based on the Corporate Governance Committee's and the Board's perception as to what qualifications would best suit the Board's needs for each vacancy. The process may include the consideration of candidates recommended by officers, Board members, stockholders, and/or a third party professional search firm retained by the Corporate Governance Committee. The Corporate Governance Committee has sole authority to retain (including to determine the fees and other retention terms) and terminate any third party to be used to identify director candidates and/or evaluate any director candidates. Any candidate should meet the expectations for directors set forth in the Company's Corporate Governance Guidelines. Strong preference should be given to candidates who are independent, as that term is defined in the Company's Director Independence Criteria and the NYSE rules, and to candidates who are sitting or former executives of companies whose securities are listed on a national securities exchange and registered pursuant to the Securities Exchange Act of 1934, as amended (the Exchange Act). The Corporate Governance Committee is not required to consider candidates recommended by a stockholder except in accordance with the section captioned, Consideration of Candidates for the Board of Directors Submitted by Shareholders set forth in the Corporate Governance Committee Charter. If the Corporate Governance Committee decides to consider a candidate recommended by a stockholder, the Corporate Governance Committee will be free to use its discretion and judgment as to what deference will be given in considering any such candidate.

TABLE OF CONTENTS**COMMITTEES OF THE BOARD**

Our Board has established three standing committees—Audit, Compensation and Corporate Governance—each of which operates under a written charter approved by the Board and available on the Investor Relations section of our website at <http://ir.welbilt.com>. The Board has determined that all of the members of the Audit, Compensation and the Corporate Governance Committees, including committee chairpersons, are independent in accordance with the standards set forth in our Corporate Governance Guidelines and Director Independence Criteria, including applicable SEC and NYSE rules.

The Compensation Committee may also delegate certain authority under the Company's 2016 Omnibus Incentive Plan to other committees or to the Company's officers.

Compensation Committee Interlocks and Insider Participation.

During 2018, no member of our Compensation Committee was an employee or officer or former officer of the Company or had any relationships requiring disclosure under Item 404 of Regulation S-K. None of our 2018 executive officers has served on the Board of Directors or Compensation Committee of any other entity that has or has had one or more executive officers who served as a member of our Board of Directors or our Compensation Committee during 2018.

Compensation Consultant. The Compensation Committee engaged Willis Towers Watson (WTW) as its independent compensation consultant to provide the committee with information regarding market trends and guidance on our 2018 executive pay programs. During 2018, WTW performed the following tasks:

- provided competitive market analyses and advice on general marketplace trends, developments and best practices with respect to executive compensation and director compensation;
- attended and participated in meetings of the Compensation Committee;
- assessed the competitiveness of our compensation program and whether it aligned stockholder interests with those of our named

executive officers;

- provided advice and recommendations regarding the composition of our compensation peer group; and
- provided general advice and analysis relating to our executive and director compensation structure, plan designs and associated risks.

WTW was selected by, and reported directly to, the Compensation Committee. WTW and its affiliates did not provide any services to the Company or any of the Company's affiliates during 2018 other than (i) advising the Compensation Committee on director and executive compensation and related corporate governance matters and (ii) consulting on broad-based plans that do not discriminate in scope, terms, or operation, in favor of executive officers or directors of the Company. In April 2018, the Compensation Committee reviewed the independence of WTW in light of the factors set forth in the SEC and NYSE rules and determined that WTW remained an independent consultant for the Compensation Committee and that no conflicts of interest existed. Following such determination, the Compensation Committee determined to continue their retention of WTW as their independent compensation consultant.

CORPORATE GOVERNANCE COMMITTEE

Meetings in 2018: 5

Members:

Cynthia M. Egnotovich, Chair

Joan K. Chow

Janice L. Fields

Andrew Langham

All Independent: Yes

Heightened Requirements: No

Purpose: The purpose of the Welbilt Corporate Governance Committee is to assist the Board in its corporate governance responsibilities, including to identify individuals qualified to become Board members, consistent with criteria approved by the Board; to recommend to the Board, for the Board's selection, director nominees for the next annual meeting of the shareholders; to develop and to recommend to the Board a set of corporate governance principles and guidelines; and to oversee the evaluation of the Board and management.

Responsibilities. The Corporate Governance Committee's responsibilities include:

- considering candidates for serving as director nominees for election to the Board, including evaluating the performance and suitability of incumbent directors, searching for suitable candidates to fill any vacancies on the Board and reviewing recommendations for director nominees submitted by qualified shareholders;
- ensuring that new directors are provided with an orientation program and making recommendations to the Board with respect to continuing education of current directors;
- establishing and managing a process for Board and committee self-assessments;
- periodically reviewing the size, composition and independence of the Board and the number and structure of Board committees in light of the Company's evolving needs;
- facilitating executive sessions of the Board at each regularly scheduled Board meeting; and
- reviewing and making recommendations to the Board regarding governance practices including stock ownership guidelines and compulsory retirement age and term limits for directors.

BOARD OPERATIONS

RISK OVERSIGHT. Management is responsible for the day-to-day management of the risks we face, and the Board is responsible for the oversight of risk across the entire Company. This responsibility is administered more directly through the Audit Committee, as one of its stated purposes pursuant to its committee charter is to assist the Board in fulfilling its role in the oversight of the risk across the organization and the management and/or mitigation of those risks. To this end, the Audit Committee discusses guidelines and policies with respect to risk assessment and risk management, which includes a discussion of the Company's major risks and the steps that management has taken or is taking to monitor and manage those risks within acceptable levels.

Additionally, each committee reviews and evaluates the Company's process for managing and mitigating those Company risks assigned by the Board to such committee for review and evaluation, if any. The Board and its committees regularly receive information and reports from members of senior management on areas of material risk based on their respective areas of responsibility.

STOCKHOLDER ENGAGEMENT. Our Board and management focus on creating long-term, sustainable stockholder value. Key to this goal is regular stockholder engagement through meetings with stockholders at conferences and in one-on-one meetings to discuss our financial performance, corporate governance practices, executive compensation programs and other matters. Our conversations with stockholders allow us to better understand our stockholders' perspectives and provide us with useful feedback to calibrate our priorities. Stockholders and other interested parties who wish to communicate with the Board, the Board Chairperson, independent members of the Board as a group, or any committee chair may do so by following the procedures described in our Corporate Governance Guidelines under the heading "Communications to the Board of Directors."

MEETINGS AND EXECUTIVE SESSIONS. Directors are expected to commit to attend at least 75% of all scheduled meetings of the Board and committees of which the director is a member each year and are strongly encouraged to attend the annual meetings of stockholders. During 2018, our Board met a total of 16 times, each member of our Board attended at least 75% of the aggregate of the meetings of the Board and the committees on which he or she served, and each member of our Board attended our 2018 Annual Meeting, other than Mr. Langham and Ms. Fields. Additionally, our independent directors meet in separate executive sessions, without management, at each regularly scheduled Board and committee meeting. Our practice is for the Board Chairperson or the applicable committee chair to preside over executive sessions.

SUCCESSION PLANNING. On an annual basis, the Compensation Committee, the Board and our CEO review the Company's long-term plan for the development, retention and succession of senior management and also assess Board composition.

TABLE OF CONTENTS

Our CEO and other executive succession planning process includes identifying and developing potential internal candidates on an ongoing basis and identifying external candidates as needed. Our Board of Directors is committed to being prepared for a planned or unplanned change in leadership in order to ensure stability. As a result of such thorough management succession planning, the Board appointed Josef Matosevic, the Company's Executive Vice President and Chief Operating Officer, to serve as interim President and Chief Executive Officer, effective September 1, 2018 succeeding Hubertus Muehlhaeuser upon his resignation. This interim appointment provided necessary continuity for our customers and employees while also allowing the Board time to conduct a thorough search for the permanent CEO successor, which effort was led by a specially appointed Search Committee of the Board.

As part of the Board's succession planning, the Corporate Governance Committee and the Board regularly review the composition of the Board and assess the balance of knowledge, experience, skills, expertise, tenure and diversity that is appropriate for the Board and the Company as a whole.

CODE OF CONDUCT AND GLOBAL ETHICS POLICY. We have adopted a written Code of Conduct and a Global Ethics Policy that apply to all of our employees and directors and reflect our commitment to operate our business in a manner that meets the highest ethical standards. These policies are posted on the Investor Relations section of our website at <http://ir.welbilt.com>. Any waiver of these policies granted to executive officers or directors may be made only by the Board or a board committee, and if required, any such waivers or amendments will be disclosed on the Corporate Governance section of our website on a timely basis.

DIRECTOR COMPENSATION

ELEMENTS OF NON-EMPLOYEE DIRECTOR COMPENSATION. The annual compensation package for non-employee directors is designed to attract and retain highly experienced and qualified individuals to serve on the Company's Board. The 2018 compensation package, which consisted of both cash and equity components, was established in consultation with WTW and was intended to be competitive relative to the Company's custom peer group and promote a strong alignment of interests between the Company's non-employee directors and its stockholders. The Compensation Committee approves the non-employee director compensation program annually and intends to review the market competitiveness of such program every two years. As our President and CEO, Mr. Johnson does not (and, during his tenure as President and CEO, Hubertus M. Muehlhaeuser did not) receive additional compensation for his service as a director.

The following table summarizes the compensation elements provided to the Company's non-employee directors for 2018:

Compensation Element	Amount

•Audit Committee Chairperson	\$ 15,000

•Compensation Committee Chairperson	\$ 12,000
•Compensation Committee Member	\$ 7,500
•Corporate Governance Committee Chairperson	\$ 12,000
•Corporate Governance Committee Member	\$ 7,500
•Independent Chairperson	\$ 43,750
Annual Stock Awards:	

Edgar Filing: Welbilt, Inc. - Form DEF 14A

•Board members (5,047 Restricted Stock Units)	\$	110,000
•Independent Chairperson (3,728 shares of common stock)	\$	81,250

Miscellaneous:

•Provision of directors' and officers' liability insurance under Company's corporate insurance policies		
•Non-Routine Grant to Chairperson (2,561 Restricted Stock Units)	\$	50,000

The Independent Chairperson fees, which are in addition to the fees earned by all non-employee directors, consist of \$125,000, paid in common stock (65%) and cash (35%), and provide compensation for the additional time commitment attendant to this role, including managing meetings of the Board of Directors, setting the agenda for Board meetings, representing the Board at the annual stockholders meeting, consulting with committee chairpersons as needed and acting as a liaison between the Board and management on major developments and decisions that are likely to be of interest to the Board.

Annual awards of restricted stock units (RSUs) issued to non-employee directors (other than Ms. Fields) were granted on February 21, 2018, with the number of units awarded determined based upon a price of \$21.7950, the average closing price of our common stock as reported on the NYSE during the 20-trading day period prior to and including the date of grant. Ms. Fields was appointed to the Board on April 27, 2018 and received a grant of RSUs

TABLE OF CONTENTS

determined by prorating the number of RSUs awarded to other non-employee directors for 2018 compensation. In addition, Ms. Egnotovitch was awarded a non-routine grant of RSUs on October 24, 2018, with the number of RSUs awarded determined based upon a price of \$19.52, the average closing price of our common stock as reported on the NYSE during the 20-trading day period prior to and including the date of grant. This grant was provided as additional director compensation in recognition of her contributions and efforts as a director during the CEO search and transition. RSUs granted to non-employee directors generally vest on the first anniversary of the grant date. Under the terms of the award, unless the Compensation Committee in its discretion determines otherwise, (i) the RSUs will be immediately forfeited if the director ceases to be a member of the Board prior to the vesting date for any reason other than the director's retirement (due to reaching the mandatory retirement age established by the Board), death, or disability, and (ii) the RSUs are subject to various transfer restrictions prior to the vesting date.

In addition, under the Company's Deferred Compensation Plan, each non-employee director may generally elect to defer all or any part of the director's annual retainer and meeting fees, as well as RSU awards, for future payment upon death, disability, termination of service as a director, a date specified by the participant, or the earlier of any such date to occur.

2018 NON-EMPLOYEE DIRECTOR COMPENSATION. Consistent with the compensation elements discussed above, the below table summarizes the 2018 compensation of all of our non-employee directors who served in such capacity during 2018, other than Mr. Muehlhaeuser and Mr. Johnson, whose compensation is discussed under the section titled "Compensation Discussion and Analysis" and related tables. All amounts are calculated and presented in accordance with SEC disclosure rules.

(2) Reflects the aggregate grant date fair value of RSUs and common stock awarded in 2018, computed in accordance with Financial Accounting Standards Board's (FASB) Accounting Standards Codification (ASC) Topic 718. With respect to Ms. Egnotovitch, the grant date fair value for her awards were \$93,925 (routine grant of RSUs to all non-employee directors), \$69,378 (routine grant of common stock to the Chairperson) and \$47,353 (non-routine grant of RSUs as special compensation). At December 31, 2018, Ms. Egnotovitch had 13,361 RSUs outstanding, Ms. Fields had 3,443 RSUs outstanding, Mr. Gamache had 9,823 RSUs outstanding, and all other current non-employee directors had 10,800 RSUs outstanding.

(3) No stock options were awarded to directors in 2018 or outstanding for directors as of December 31, 2018.

(4) Ms. Fields was appointed to the Board effective April 27, 2018, and her annual retainer and award of RSUs were prorated accordingly.

DIRECTOR STOCK OWNERSHIP GUIDELINES

Under our Corporate Governance Guidelines, each non-employee director should acquire and hold an amount of our common stock with a value equal to, at a minimum, five times the director's total annual cash retainer (excluding any additional retainer for committee or Board chair positions). For purposes of determining stock ownership under the guidelines, RSUs and shares held in the Deferred Compensation Plan will be included but unexercised options will be excluded.

Compliance is measured annually at the first regularly scheduled Board meeting of the calendar year, following an initial transition period to achieve compliance, and will be based on each director's stock ownership and the stock price as of the close of business on the last day of the preceding calendar year. For directors who were previously members of the Board of MTW, the requirement to comply with such stock ownership guidelines commences on the later of (a) the first Board meeting in the sixth full calendar year after the director was first elected a member of the Board of MTW or (b) the first Board meeting in the fourth full calendar year after the Spin-Off. For directors who were not previously members of the Board of MTW, the requirement to comply with such stock ownership requirements commences on the first Board meeting of the sixth full calendar year after the director was first elected to the Board.

As of December 31, 2018, each of the non-employee directors was expected to achieve compliance with the stock ownership guidelines within the required time period. The Corporate Governance Committee reviews these stock ownership guidelines as well as directors' progress toward achieving compliance with such guidelines on an annual basis.

2018 COMPENSATION DESIGN

The performance measures used in our 2018 compensation programs included a range of key financial metrics designed to promote achievement of our strategic goals while also driving long-term stockholder value. Our 2018 STIP metrics were Organic Net Sales Growth, Adjusted Operating EBITDA Margin and Free Cash Flow, all of which

TABLE OF CONTENTS

were key metrics of our 2018 annual budget. Our 2018 long-term incentive plan (LTIP), which was aligned to our strategic plan, consisted of PSUs with a three-year performance period and stock options that generally vest ratably over a four-year period. Furthermore, all metrics were adjusted to exclude the impact of foreign currency fluctuations.

SAY-ON-PAY ADVISORY VOTE

The Compensation Committee considers the results of our annual say-on-pay advisory vote in determining executive compensation decisions and policies as it provides useful input to the committee in its work to design and oversee an executive compensation program that serves the long-term interests of our stockholders. At our 2018 Annual Meeting of Stockholders, over 96% of the votes cast were voted FOR approval of the compensation of our named executive officers as described and disclosed in the Compensation Discussion and Analysis section, compensation tables and narrative discussion in our accompanying proxy statement. The Compensation Committee believes such results affirm stockholders' support of the Company's approach to and structure of executive compensation. As such, the Company did not make any changes to compensation policies or practices that were specifically driven by the results of the advisory vote.

COMPENSATION PHILOSOPHY AND PRACTICES

OBJECTIVES AND PHILOSOPHY.

Our executive compensation program is intended to align the interests of our executives with those of our stockholders and motivate our executives to maximize long-term total returns of our stockholders. Our Compensation Committee designs our executive compensation programs to be competitive and ensure alignment between executive pay and Company performance. An important element of our compensation program design is to provide incentive-based compensation that is directly tied to Company performance. Our Compensation Committee annually reviews the key elements of our program considering our business strategy and talent needs. Our executive compensation program seeks to provide competitive total compensation opportunities to attract, motivate and retain highly-qualified executives critical to the achievement of our financial and strategic goals.

Key objectives and elements of our compensation philosophy include the following:

- **Pay-For-Performance.** The majority of the target compensation awarded to our named executive officers is incentive-based and at risk, meaning it is only earned if specific financial goals are achieved or, in the case of stock options, if our stock price appreciates over the next several years following the grant date.
- **Competitive.** Pay levels are generally targeted to be at or near market median levels based upon comparable positions at general industrial companies of similar size, and then adjusted to reflect individual factors (such as experience, length of service, and level of responsibility), internal structure and internal and external equity, business needs, Company performance, and other factors.
- **Encourage Retention.** LTIP awards make up a significant portion of each named executive officer's overall target compensation. These awards include multi-year vesting terms thereby encouraging retention of our executives.
- **Promote Stock Ownership.** LTIP awards to executives are solely equity-based, and executive officers are expected to comply with stock ownership guidelines to ensure meaningful ongoing alignment with stockholders' interests.

BEST PRACTICES IN GOVERNANCE.

Our executive compensation program reflects a strong pay-for-performance design and incorporates many best practices in executive compensation governance.

TABLE OF CONTENTSADMINISTRATION AND OVERSIGHT.

Our Compensation Committee reviews and approves all elements of our executive compensation program that cover our named executive officers and also reviews the design of our annual and long-term incentive programs applicable to all employees. Our Compensation Committee's review of our executive compensation program includes an annual consideration of business strategy and talent needs and alignment of compensation to performance and stockholder interests. Our Compensation Committee has engaged WTW to assist with its duties, though the Compensation Committee retains the ultimate decision-making authority for all executive pay matters.

PEER GROUP.

Following the Spin-Off, our Compensation Committee, together with WTW, considered how to best use competitive market data in designing our executive compensation programs. The Compensation Committee considered a multitude of factors, including how such data would be used, whether the data would be aligned with stockholder expectations, the breadth, consistency and reliability of the data and our ability to compete effectively for top executive talent. As a result of this review, our Compensation Committee determined to use third-party market data from two sources: published survey data reflecting a broader industry group (Survey Data) and a customized peer group (the Custom Peer Group). Together, these sources enable the Compensation Committee to make informed decisions and achieve its compensation objectives.

Survey Data. The Survey Data is based on WTW's Executive Compensation Survey and reflects approximately 1,000 companies from general industry. The Survey Data is adjusted, generally through regression analysis, to fit Welbilt's revenue scope. The Company did not select the companies that comprise the Survey Data, and the component companies' identities were not a factor in the analysis. The Survey Data serves as a reliable market reference and is used as the primary source for market compensation data.

Custom Peer Group. The Custom Peer Group is used for designing the overall executive compensation program, including design of the STIP and LTIP, and serves as a secondary source for market compensation data for the CEO, CFO and General Counsel positions and also as a reference for determining benefits and perquisites. In developing the Custom Peer Group, the Compensation Committee considered both quantitative factors (*are the companies of a comparable size in terms of revenue, employee headcount, market capitalization and/or net income?*) and qualitative factors (*do the companies operate within a comparable or adjacent industry? do the companies compete globally? how mature is the company?*). Based upon this review, the Compensation Committee selected a group of 16 core companies and two non-core companies that would only be used as a market check for pay practices but not pay levels given their relatively large revenue size and market capitalization.

2018 Custom Peer Group

Actuant Corporation	Graco Inc.	Lincoln Electric Holdings, Inc.
A.O. Smith Corp.	Harsco Corporation	Middleby Corp.
Briggs & Stratton Corporation	IDEX Corporation	Standex International Corp.
Carlisle Companies Incorporated	Illinois Tool Works Inc.*	The Timken Company
Chart Industries, Inc.	John Bean Technologies Corporation	
Dover Corporation*	Kennametal Inc.	
Generac Holdings, Inc.	Lennox International, Inc.	

* Included in the peer group for reviewing compensation program design, but not for reviewing pay levels. The Custom Peer Group was selected in 2016 and first used in connection with 2017 compensation decisions. During 2017, the Compensation Committee and WTW reviewed the peer group again and determined the same group, with

the exception of B/E Aerospace Inc. and Nortek Inc., which had since been acquired, was appropriate with respect to 2018 compensation decisions. The Compensation Committee intends to continue its practice of reviewing and, if necessary, updating the peer group annually for use in designing the following year's executive compensation program.

Determining Pay Levels. The Compensation Committee generally refers to the market median from the Survey Data and Custom Peer Group for base salary, target total cash compensation, target long-term incentive compensation and target total direct compensation as an initial point of reference, and then adjusts such amounts up or down to give effect to each individual's experience, number of years serving in the current role, level of responsibility, performance and such other factors the Compensation Committee deems important.

The Compensation Committee reviews competitive market compensation data annually relating to salary, annual incentives and long-term incentives. The Compensation Committee is mindful of the value and limitations of comparative data, and therefore does not target specific market levels. As a result, we do not set any component of compensation or total direct compensation at levels intended to achieve a mathematically precise market position. The Compensation Committee also obtains advice and recommendations from WTW regarding retirement benefits and other areas of total compensation.

TABLE OF CONTENTSSTOCK OWNERSHIP GUIDELINES.

The Compensation Committee has established stock ownership guidelines for executive officers as set forth below. Under the guidelines, each executive officer is provided with a reasonable period of time to achieve compliance. If he or she does not satisfy the applicable requirement prior to the end of the calendar year of his or her respective compliance date, the guidelines provide that the executive will be required to retain all net shares from the exercise of stock options and from the vesting of RSUs and PSUs, until compliance is achieved. For purposes of these stock ownership guidelines, common stock, RSUs, PSUs (at target) and stock equivalents held in deferred compensation and/or retirement arrangements are counted towards the individual's ownership attainment level. Additionally, one-half of the guideline amount can be met by vested, in-the-money stock options held by the executive officer.

Name	Multiple of Base Salary	Compliance Date⁽¹⁾	Status⁽²⁾
William C. Johnson	5x	2023	Expected
Josef Matosevic	3x	2020	In Compliance
Haresh Shah	3x	2021	In Compliance
Richard N. Caron	3x	2020	In Compliance
Joel H. Horn	3x	2021	In Compliance
Andreas G. Weishaar	3x	2021	In Compliance
Other Current Executive Officers	3x	5 Years after becoming an Executive Officer	In Compliance

(1) Compliance date reflects five years from the date such individual became an executive officer of the Company or, if earlier, MTW.

(2) All current executive officers are in compliance with applicable holding requirements or expected to achieve compliance prior to their respective compliance date.

CLAWBACKS.

In addition to any right of recoupment against our CEO or CFO pursuant to Section 304 of The Sarbanes-Oxley Act of 2002, we intend to recoup executive officer compensation, or a portion thereof, to the extent required under rules to be adopted by the SEC and NYSE pursuant to the Dodd-Frank Wall Street Reform and Consumer Protection Act. To that end, our 2016 Omnibus Incentive Plan provides that any awards granted under such plan, and any shares issued or cash paid pursuant to an award, will be subject to any recoupment or clawback policy that we adopt from time to time, or any recoupment or similar requirement otherwise made applicable by law, regulation or listing standards.

Furthermore, the administrator under the plan may terminate or cause a participant to forfeit an award, and require a participant to disgorge to us any gains attributable to an award, if the participant engages in any action constituting, as determined by the administrator in its discretion, cause for termination, or a breach of any agreement between the participant and us or one of our affiliates concerning non-competition, non-solicitation, confidentiality, trade secrets, intellectual property, non-disparagement or similar obligations.

COMPENSATION RISK ASSESSMENT.

In 2017, management and WTW each conducted separate risk assessments to provide the Compensation Committee with an internal and external view of our compensation programs and policies. Management reviewed the compensation programs applicable to both executives and non-executive employees, and WTW primarily focused their review on executive compensation plans and practices. In particular, management and/or WTW considered the following risk criteria:

Compensation Risk Criteria	
Compensation Philosophy and Plan Design	Are the Company’s compensation programs aligned with our near-term and long-term strategic goals and initiatives, effectively communicated to and understood by employees and motivating employees and executives to work collaboratively in the Company’s best interest?
Oversight	Is there adequate and regular oversight by the Compensation Committee and management to allow for effective implementation and to the extent appropriate, discretion?
Pay Mix	Do our compensation programs reflect an appropriate mix of fixed and variable compensation that both mitigates the incentive for excessive risk taking and encourages executives and employees to achieve our strategic goals?
Time Horizon	Do the performance periods and vesting periods of our LTIP awards encourage our employees to focus on sustained growth of our Company over the long term, rather than taking short-term risks?
Performance Goals	Do our performance-based compensation programs use multiple metrics that promote long-term enterprise value? Are the performance goals set at levels that are challenging but still reasonably achievable without taking inappropriate risks?
Stock Ownership Practices	Do we have policies in place to align the interests of our executives and employees with those of our stockholders, such as stock ownership guidelines and prohibitions on hedging of Company securities?

The results of both the internal and external assessments are that we believe our compensation policies and practices do not create risks that are reasonably likely to have a material adverse effect on the Company. In 2018, the Compensation Committee determined that the Company’s compensation programs had not materially changed from the prior year, and therefore concluded the findings from the prior year’s risk assessments were still appropriate. We believe that our compensation program is aligned with current market practices and contains an appropriate balance of risk versus rewards. Furthermore, our compensation program incorporates appropriate risk mitigating factors, such as multi-year vesting periods, performance goals tied to both top-line and bottom-line financial metrics, executive stock ownership guidelines and strong operational oversight and audit processes.

TAX CONSIDERATIONS.

Section 162(m) of the Internal Revenue Code (Section 162(m)) generally disallows a federal tax deduction by the Company for compensation paid to certain executive officers (and, beginning in 2018, certain former executive officers) in excess of \$1.0 million. Historically, compensation that qualified as performance-based compensation under Section 162(m) could be excluded from this \$1.0 million limit, but this exception has now been repealed, effective for taxable years beginning after December 31, 2017, unless certain transition relief for certain compensation arrangements in place as of November 2, 2017 is available.

Compensation decisions for the Company's named executive officers prior to 2018 were generally made after consideration of the Section 162(m) implications, but the Compensation Committee retained discretion to make compensation decisions in light of a variety of considerations. Based on the repeal described above and the operation of Section 162(m), compensation granted by the Compensation Committee to the named executive officers in 2018 is not expected to qualify as performance-based compensation. The Compensation Committee believes that the tax deduction limitation should not be permitted to compromise our ability to design and maintain executive compensation arrangements that will attract and retain the executive talent to compete successfully. Accordingly, achieving the desired flexibility in the design and delivery of compensation may result in compensation that is not deductible for federal income tax purposes. Moreover, even if the Compensation Committee intended to grant compensation that qualifies as "performance-based compensation" for purposes of Section 162(m), we cannot guarantee that such compensation will so qualify or be deductible.

The following section discusses the design of our 2018 compensation program for our named executive officers. For information regarding actual STIP payouts, individual equity awards, and certain other benefits and compensation, see the 2018 Summary Compensation Table below.

(1) Reflects aggregate target value of LTIP awards granted to each named executive officer in 2018. As further described below, 25% of such value was awarded in the form of stock options and 75% was awarded in the form of PSUs.

(2) Reflects Mr. Johnson's 2018 annualized base salary rate. Mr. Johnson did not receive a STIP or LTIP award in 2018.

(3) Does not reflect additional compensation awarded to Mr. Matosevic in connection with his appointment as the Company's interim President and CEO from September 1, 2018 through November 19, 2018, as further described below.

(4) Reflects Mr. Muehlhaeuser's 2018 target compensation prior to his separation.

(5) Mr. Weishaar was compensated in Swiss Francs (CHF). Amounts shown in the table have been translated into U.S. Dollars (USD) based upon an exchange rate of USD1 to CHF1.02, the exchange rate in effect at December 31, 2018.

BASE SALARY.

In reviewing 2018 base salaries, the Compensation Committee considered individual factors such as competencies, skills, experience, and performance, as well as internal equity and market data. Base salaries were generally reviewed and approved in December 2017 and became effective January 1, 2018, except with respect to Mr. Johnson, whose base salary was reviewed in connection with his hiring and the negotiation of his offer letter.

SHORT-TERM INCENTIVE PLAN.

2018 STIP awards to our named executive officers were made under the Welbilt 2016 Omnibus Incentive Plan. The STIP rewards executives for the achievement of certain financial goals that are aligned to our strategic plan and budget.

For all of our named executive officers, the 2018 STIP was based upon the following financial metrics.

- **Organic Net Sales Growth**, which measures top-line growth over prior year results, disregarding acquisitions and dispositions. Organic Net Sales Growth represents the percentage change in actual organic

third-party net sales from the prior year, excluding the impact of acquisitions and divestitures and foreign currency translation.

Adjusted Operating EBITDA Margin, which is a performance measure used by management to evaluate financial performance as a percentage of net sales and make resource allocation and other operating decisions. Adjusted Operating EBITDA Margin represents (a) net earnings before interest, income taxes, other expense - net, depreciation and amortization, plus certain items such as gains or losses from the impairment or disposal of assets, restructuring, separation charges and loss on early extinguishment of debt, divided by (b) net sales, in each case, excluding the impact of acquisitions and divestitures.

Free Cash Flow, which is a liquidity measure relating to the Company's ability to generate cash internally to fund initiatives such as debt repayment, acquisitions, dividends and share repurchases. Free Cash Flow represents net cash used in operating activities, excluding the impact of acquisitions, less capital expenditures plus cash receipts on our beneficial interest in sold receivables.

All of the above metrics were calculated based upon prior year foreign currency exchange rates to remove the impact of foreign currency fluctuations during the year. See **Non-GAAP Financial Measures** appearing elsewhere in this Proxy Statement for important additional information.

Additionally, 2018 STIP awards were subject to a hurdle such that no awards would be paid to any named executive officer if the Company's Adjusted Operating EBITDA Margin for 2018 was less than 16.5%.

The target STIP award opportunity granted to our named executive officers for 2018 ranged from 65% to 110% of base salary, with actual payout potential ranging from 0% to 200% of each individual's target. Target STIP awards were determined based upon a combination of factors, including internal parity and market data, with

TABLE OF CONTENTS

Mr. Muehlhaeuser receiving a STIP opportunity of 110% of base salary, Mr. Matosevic and Mr. Shah receiving a STIP opportunity of 90% of base salary and other named executive officers (other than Mr. Johnson) receiving a STIP opportunity of 65% of base salary. Any STIP awards earned are generally paid during the first quarter of the following fiscal year.

Presented below are the specific performance levels adopted under the 2018 STIP, as well as 2018 actual results. With respect to the portion of the STIP opportunity assigned to an applicable metric, threshold performance would have resulted in a payout of 50% of target and maximum performance would have resulted in a payout of 200% of target, with the payout between specific performance levels calculated using straight line interpolation. The STIP opportunity and actual payout for each of the named executive officers are presented in the subsequent executive compensation tables named Grants of Plan-Based Awards in 2018 and 2018 Summary Compensation Table, respectively.

Performance Goal (\$ in millions)	Weight	Threshold	Target	Maximum	Actual Results	Actual Attainment % ⁽¹⁾
Organic Net Sales Growth	30 %	0.5 %	1.5 %	2.5 %	5.0 %	200.0 %
Adjusted Operating EBITDA Margin	35 %	19.0 %	19.8 %	20.5 %	18.5 %	0.0 %
Free Cash Flow	35 %	\$ 100.0	\$ 108.0	\$ 118.0	\$ 119.9	200.0 %
Total	100 %					130.0 %

(1) Reflects percent of target STIP opportunity attained with respect to each metric.

LONG-TERM INCENTIVE PLAN.

Our long-term incentive plan (LTIP) awards are made under our 2016 Omnibus Incentive Plan. LTIP awards are intended to align the interests of executives and key employees with those of stockholders by allowing such individuals to share in the growth and financial success of the Company and motivating and rewarding achievement of specific longer-term financial goals. In addition, LTIP awards facilitate the attraction, retention and motivation of key members of management and employees. Our general practice is for all of our named executive officers LTIP awards to be at risk (in other words, requiring achievement of specific multi-year financial goals or stock price appreciation). In 2018, the Compensation Committee granted LTIP awards to each of the named executive officers that, in the aggregate, were within the 25th to 75th percentile of the industry survey data used for determining pay levels. The aggregate value was then granted in the form of stock options, which accounted for 25% of the total LTIP award, and PSUs, which accounted for 75% of the total LTIP award. Total LTIP target awards for each named executive officer are set forth in the table above, and actual LTIP grants made in 2018 are provided in the Grants of Plan-Based Awards in 2018 table below.

Stock Options. Stock options align executives interest with those of stockholders, since options only have realizable value if the price of our stock increases relative to the exercise price, which is the closing price of our common stock on the date of grant. The number of stock options granted to each named executive officer under our 2018 LTIP was determined using a Black-Scholes option pricing model. These awards generally vest annually in 25% increments beginning on the first anniversary of the grant date and continuing on each subsequent anniversary until the fourth anniversary and expire 10 years after the date of grant.

Performance Share Units. PSUs were provided to the named executive officers in 2018 to directly align the shares earned, if any, to the achievement of certain multi-year goals. The Compensation Committee selected (i) cumulative Adjusted Diluted Earnings per Share (Cumulative Adjusted EPS) and (ii) average Return on Invested Capital (ROIC) over the three-year period, both weighted 50%, as the performance metrics for the 2018 PSUs, with a performance period of January 1, 2018 to December 31, 2020. Additionally, no awards will be paid to any named executive officer under the 2018 PSUs if the Company s Cumulative Adjusted EPS for the performance period is less than the specified

hurdle rate.

The target number of PSUs granted to each named executive officer was determined based upon a price of \$20.3535, the average closing price of our common stock as reported on the NYSE during the 20-trading day period prior to and including the date of grant. Following the end of the performance period, our named executive officers will receive shares of stock ranging from 0% to 200% of their target number of shares based upon the actual achievement of the performance goals.

The Company does not disclose the specific, forward-looking financial performance targets of the 2018 PSUs in this Proxy Statement because (i) these goals relate to executive compensation to be earned and/or paid in future years and do not affect a fair understanding of the named executive officers' compensation for 2018 and (ii) the Company believes that disclosure of such goals while the applicable performance period is ongoing would cause the Company competitive harm. However, the Company expects to disclose such goals in a future proxy statement once the applicable performance period has ended, as part of the Company's discussion and analysis about the amounts earned by the named executive officers under these awards.

Welbilt, Inc. 2019 Proxy Statement | 23

TABLE OF CONTENTS

In setting the applicable target levels, the Compensation Committee considered how achievement of the performance goals could be impacted by events that may occur in the coming years and how likely it will be for the Company to achieve the goals. We believe that the threshold goals have been established at levels that should be appropriately difficult to attain, and that the target goals will require considerable and increasing collective effort on the part of the Company's employees, including the named executive officers, to achieve. Achievement of the maximum goal is considered to be a stretch goal based upon information known to management and the Compensation Committee at the date of grant.

Vesting of 2016 Performance Share Units. The three-year performance period with respect to the PSUs granted in 2016 (the 2016 PSUs) ended on December 31, 2018. Presented below are the specific performance levels adopted under the 2016 PSUs, as well as actual results for the applicable performance period. With respect to the portion of the PSU opportunity assigned to an applicable metric, threshold performance would have resulted in a payout of 50% of target and maximum performance would have resulted in a payout of 200% of target, with the payout between specific performance levels calculated using straight line interpolation. Additionally, no awards would have been paid to any named executive officer under the 2016 PSUs if the Company's Cumulative Adjusted EPS for the performance period was less than \$1.14, the specified hurdle rate.

Performance Goal	Weight	Threshold	Target	Maximum	Actual Results	Actual Attainment % ⁽¹⁾
Cumulative Diluted Adjusted Earnings per Share	50 %	\$ 1.56	\$ 2.25	\$ 2.77	\$ 2.21	98.4 %
Average Return on Invested Capital	50 %	8.5 %	11.3 %	13.9 %	13.6 %	186.2 %
Total	100 %					142.3 %

(1) Reflects percent of target LTIP opportunity attained with respect to each metric.

Based on the performance achievement described above, the named executive officers earned the following payouts for their 2016 PSUs.

Name	Target PSUs (#)	Earned Shares (#)
William C. Johnson ⁽¹⁾	—	—
Josef Matosevic	31,033	44,160
Hubertus M. Muehlhaeuser ⁽²⁾	111,029	—
Haresh Shah	5,009	7,128
Richard N. Caron	16,654	23,699
Joel H. Horn	8,497	12,091
Andreas G. Weishaar	27,757	39,498

(1) Because Mr. Johnson commenced employment with the Company on October 29, 2018, he did not hold any 2016 PSUs

(2) Mr. Muehlhaeuser's 2016 PSUs were forfeited upon his separation on August 31, 2018.

SPECIAL COMPENSATIONMatosevic Special Compensation

In addition to the STIP and LTIP awards described above, Mr. Matosevic also received additional bonus compensation opportunities and an award of RSUs during 2018 in recognition of his assumption of additional duties as interim President and Chief Executive Officer. These awards are further described below in the section titled Employment Agreements and Change in Control Benefits.

Johnson Discretionary Bonus

As referenced above, Mr. Johnson did not participate in the 2018 STIP and therefore did not receive any incentive-based cash compensation in 2018. In February 2019, as recognition for Mr. Johnson's strong leadership and contributions to the Company during 2018, the Compensation Committee determined to grant Mr. Johnson a one-time discretionary bonus in the amount of \$205,607, which amount was calculated by reference to Mr. Johnson's 2019 target STIP opportunity (110% of his base salary), actual attainment under the 2018 STIP (130.0%) and the number of days during 2018 Mr. Johnson was employed with Welbilt.

BENEFITS AND PERQUISITES.

401(k) Retirement Plan. All active, regular, full-time, non-union, U.S.-based employees, including each of our currently employed named executive officers, are eligible to participate in the Company's 401(k) Retirement Plan, which allows employees to build retirement savings on a tax-deferred basis. The plan has a tax-qualified defined contribution savings component (the 401(k) Savings feature) in which participating employees receive a matching contribution from the Company, subject to the terms set forth in the plan. In addition, all eligible employees may receive a performance-based contribution from the Company, by which the Company contributes up to 3% of

TABLE OF CONTENTS

eligible compensation each year, subject to satisfaction of certain specified performance goals, an initial vesting period and other terms set forth in the plan. The value of the employer contributions made on behalf of each of our named executive officers in 2018 is presented in the 2018 Summary Compensation Table.

Deferred Compensation Plan. Welbilt sponsors a non-qualified Deferred Compensation Plan that allows our named executive officers and other key employees to defer a portion of their compensation and the taxation on such compensation to a specified date in the future. Welbilt may also, at its option, make employer contributions to participants' accounts. During 2018, none of our named executive officers made any contributions to the Deferred Compensation Plan, and we did not make any contributions on their behalf.

Perquisites and Personal Benefits. To provide a market competitive total compensation package, we provide a limited amount of perquisites and supplemental benefits to our named executive officers. In 2018, we provided the following: executive long-term disability insurance, reimbursement for tax preparation, personal use of a company car, car allowance, relocation expenses, reimbursement for an executive physical, and limited personal use of a plane leased by the Company. We also made certain contributions to a Swiss governmental pension scheme on Mr. Weishaar's behalf and reimbursed him for financial planning fees. For more information regarding perquisites and supplemental benefits provided to the Company's named executive officers in 2018, see the 2018 Summary Compensation Table and related footnotes below.

TABLE OF CONTENTS

EMPLOYMENT AGREEMENTS AND CHANGE IN CONTROL BENEFITS

We have entered into employment agreements and offer letters with our named executive officers to provide market-competitive severance protections and continuity of the leadership team leading up to and after any potential change in control.

Employment Agreements. The employment agreements with named executive officers other than Mr. Johnson in effect during 2018 set forth the named executive officers' title, compensation and benefits. The employment agreements provided that each executive officer was entitled to an annual base salary of a certain amount, subject to potential increase from time to time, and that each was eligible to participate in the STIP with target award amounts equal to a specified percentage of base salary, and to receive LTIP awards under our 2016 Omnibus Incentive Plan in an amount determined by our Compensation Committee each year. Each executive officer also received a car allowance, vacation time, reimbursement for an annual physical examination and reimbursement for tax preparation and financial planning fees under the terms of the agreements.

For the named executive officers other than Mr. Johnson (except Mr. Weishaar), the employment agreements also provided that the executive officer would be eligible to participate in our 401(k) Retirement Plan, Deferred Compensation Plan and our health, dental, and life insurance plans. Because Mr. Weishaar is employed in Switzerland, his employment agreement provided that he would receive health, welfare, and other retirement benefits per the Swiss standard applicable for an equivalent position. To comply with this requirement, we made contributions to Swiss Social Security and pension programs and paid for 50% of the premium for Mr. Weishaar to receive local private health insurance comparable to the health insurance our other executives receive under our group health plan.

Each of the employment agreements provided that if we terminated the executive officer's employment without cause or the executive resigned with good reason (in each case, as described more fully in the agreement), then the executive would be entitled to receive severance payments, and all outstanding equity awards granted prior to the year of termination would be deemed fully vested, subject (with respect to the severance payments) to the executive signing a release of claims or potential claims against the Company. The severance payments would generally be subject to offset (as further described in the agreements) by the amount of compensation earned by the named executive officer during the severance pay period from a subsequent employer or under a Contingent Employment Agreement with the Company (as described below). More details regarding the severance payments and equity acceleration is provided in the Potential Payments upon Termination or Change in Control section.

Additionally, as required by the terms of the employment agreements, we also maintain director and officer insurance coverage and provide indemnification as permitted by law. In connection with entering into these employment agreements, each applicable named executive officer also agreed to certain non-competition, non-solicitation and confidentiality provisions.

Johnson Offer Letter. In connection with his appointment as President and Chief Executive Officer, Mr. Johnson entered into an offer letter with the Company, which offer letter set forth Mr. Johnson's initial annual base salary, target STIP opportunity, and target LTIP opportunity (in each case subject to increase from time to time as approved by the Board or an appropriate committee of the Board). The offer letter also provides that the Company will provide Mr. Johnson with perquisites and personal benefits on terms substantially similar to those that apply for other executive officers of the Company, including an annual vehicle allowance of \$10,800, reimbursement for the reasonable cost of one physical examination per year, reimbursement for the reasonable cost of Mr. Johnson's personal income tax preparation and financial planning services for each year up to \$10,000 per year, reasonable relocation services and benefits substantially consistent with the Company's effective relocation policy (subject to full or partial repayment in the event Mr. Johnson voluntarily terminates employment prior to the second anniversary of the date of the offer letter), and premiums for reasonable life, accidental death and dismemberment and long-term disability

insurance premiums as provided by the Company from time to time.

While employed by the Company, Mr. Johnson will be eligible to participate in the Company's health, welfare and other benefits arrangements and programs available to the Company's employees generally, in accordance with their terms. Mr. Johnson is also entitled to up to four weeks of paid vacation per year and participation in the Company's nonqualified Deferred Compensation Plan and qualified retirement plan as in effect from time to time on terms substantially similar to those that apply for other executive officers of the Company.

Until April 1, 2019, if Mr. Johnson's employment is terminated by the Company without cause or by Mr. Johnson for good reason (as each such term is defined in the offer letter), the Company will pay to Mr. Johnson: (1) a cash amount equal in value to two times Mr. Johnson's base salary as in effect on that date; plus (2) a cash amount equal in value to Mr. Johnson's target STIP opportunity for the year in which termination occurs; plus (3) a cash amount equal in value to a pro-rated portion of Mr. Johnson's STIP award actually earned for the year in which termination occurs (based on actual performance and calendar days of service for the year in which termination occurs) in settlement of Mr. Johnson's STIP opportunity for such year. In general, Mr. Johnson's receipt of any

severance payments or benefits from the Company is conditioned on his execution and non-revocation of one or more customary releases of claims in favor of the Company and its affiliates. Effective April 2, 2019, Mr. Johnson will participate in the Severance Policy, as further described below, and his severance protections under the offer letter will cease.

Mr. Johnson also agreed to enter into certain non-competition, non-solicitation and confidentiality provisions, consistent with those entered into with other named executive officers.

Executive Offer Letters. In early 2019, we entered into an offer letter with each of our named executive officers still serving at that time, other than Mr. Johnson, which offer letter sets forth the officer's current annual base salary, target STIP opportunity, and target LTIP opportunity (in each case subject to increase from time to time as approved by the Board or an appropriate committee of the Board) and replaces the officer's previously existing employment agreement. The offer letter also provides that the Company will provide the officer with perquisites and personal benefits on terms substantially similar to those that apply for other executive officers of the Company, including an annual vehicle allowance of \$10,800, reimbursement for the reasonable cost of one physical examination per year, reimbursement for the reasonable cost of his or her personal income tax preparation and financial planning services for each year up to \$10,000 per year and premiums for additional coverage for long-term disability insurance as provided by the Company from time to time.

While employed by the Company, the executive will be eligible to participate in the Company's health, welfare and other benefits arrangements and programs available to the Company's employees generally, in accordance with their terms. He or she is also entitled to up to four weeks of paid vacation per year and participation in the Company's nonqualified Deferred Compensation Plan and qualified retirement plan as in effect from time to time on terms substantially similar to those that apply for other executive officers of the Company. The offer letters themselves do not include severance provisions. Instead, each named executive officer who entered into an offer letter with the Company in early 2019 participates in our Severance Policy, as further described below. Each named executive officer also acknowledged and agreed to remain bound by certain non-competition, non-solicitation and confidentiality provisions, consistent with those entered into with other executive officers.

Severance Policy. In December 2018, the Compensation approved and adopted the Welbilt, Inc. Executive Severance Policy (the "Severance Policy"). The Compensation Committee also designated Mr. Johnson as a Tier 1 Participant, with an effective date of April 2, 2019, and designated the other named executive officers (other than Mr. Weishaar, who separated from the Company effective January 2, 2019, and Mr. Muehlhaeuser) as Tier 2 Participants, effective January 1, 2019, subject in each case to termination of the currently existing employment agreements of such officers (or, for Mr. Johnson, the severance protections under his offer letter, as described above). As a result, the severance protections under such named executive officers' prior employment arrangements have been superseded by the Severance Policy.

If the Company terminates the employment of a participant other than due to "Cause" (as defined in the Severance Policy), death or "Disability" (as defined in the Severance Policy), or if a participant terminates the participant's employment with the Company for "Good Reason" (as defined in the Severance Policy) and absent Cause, the Company will make certain severance payments and provide certain benefits to the participant, subject to applicable tax withholding, generally as follows:

- cash payments equal in the aggregate to the sum of (1) an amount equal in value to the participant's base salary as described in the Severance Policy multiplied by one (or, for a Tier 1 Participant, two), plus (2) an amount equal in value to the participant's target STIP opportunity for the year of termination of employment multiplied by one, generally payable in installments over the first year (or, for a portion of the payments to a Tier 1 Participant, the first two years) following termination of employment (except as otherwise described in

the Severance Policy, including for purposes of compliance with certain tax laws);

an amount in cash equal in value to a pro-rated portion (as described in the Severance Policy) of the STIP

- award that the Participant would have earned for the year of termination of employment based on actual performance for the full performance year, generally payable as soon as practicable after the Compensation Committee certifies performance achievement;
- if the participant is eligible for and elects continued coverage under the Consolidated Omnibus Budget Reconciliation Act of 1985 (COBRA) following the termination of employment, reimbursement of 100% of the participant's monthly COBRA cost during the COBRA continuation period as further described in the Severance Policy (subject to certain exceptions and conditions described in the Severance Policy);
- Continued eligibility to vest in any outstanding Company performance-based equity awards granted to the participant prior to the year of termination of employment based on actual performance over the full performance period;

Welbilt, Inc. 2019 Proxy Statement | 27

TABLE OF CONTENTS

- full vesting of any outstanding Company equity awards other than performance-based equity awards granted to the participant prior to the year of termination of employment; and
- continued exercisability of outstanding vested options held by the participant until the earlier of the expiration date of the options or 24 months after termination of employment.

As a condition to receiving the cash severance payments described in the first two bullets above, a participant is required to timely sign and not revoke one or more customary releases of claims in favor of the Company and its subsidiaries and affiliates. Further, the Severance Policy generally includes non-disparagement provisions in favor of the Company and a reaffirmation of the participant's obligations under the participant's Agreement Regarding Confidential Information, Intellectual Property, Non-Solicitation of Employees and Non-Compete with the Company. If a participant experiences a termination of employment that entitles the participant to compensation or benefits under a Contingent Employment Agreement (as described below) or other similar change in control severance arrangement with the Company, the participant will not be entitled to any compensation or benefits under the Severance Policy.

Matosevic Interim Compensation Letter. In connection with Mr. Matosevic's appointment as the Company's interim President and Chief Executive Officer, we entered into a Letter Agreement with Mr. Matosevic, dated August 9, 2018, pursuant to which he received a special lump sum cash bonus in an amount equal to \$62,500, on or about September 1, 2018 and an additional lump sum cash bonus in an amount equal to \$62,500, on or about March 1, 2019. Mr. Matosevic also received an award of 13,556 RSUs on August 31, 2018. The number of RSUs awarded equals the quotient of \$300,000 divided by the closing price of a share of the Company's common stock on August 31, 2018 on the New York Stock Exchange. This special RSU award generally will vest on September 1, 2019, subject to Mr. Matosevic's continued employment with the Company on such date (or upon certain qualifying terminations of employment as described in his employment agreement with the Company). The special, one-time compensation described in this letter agreement is in addition to, and not in lieu of, any compensation that may otherwise be payable to Mr. Matosevic under the terms of his employment agreement with the Company.

Muehlhaeuser Separation Agreement. On August 9, 2018, we entered into a Separation Agreement with Mr. Muehlhaeuser in connection with his resignation as President and Chief Executive Officer. Pursuant to such agreement, Mr. Muehlhaeuser continued to receive his base salary until August 31, 2018, his last date of employment, as well as a cash payment of \$760,336.50 in recognition of his partial year of service and foregone payments under the Company's 2018 STIP. Any equity awards previously granted to Mr. Muehlhaeuser by the Company that had not vested as of August 31, 2018 were forfeited. Any vested stock options held by Mr. Muehlhaeuser remain exercisable through the earlier of the original expiration date of such stock option award or August 31, 2020. Additionally, Mr. Muehlhaeuser executed (and did not revoke) a customary release of claims in favor of the Company, its affiliates and (among others) their directors, officers and employees. Mr. Muehlhaeuser's employment agreement with the Company, dated November 1, 2016, has generally been terminated pursuant to, and superseded by, his separation agreement, effective August 31, 2018.

Weishaar Separation. Mr. Weishaar resigned from the Company effective January 2, 2019. He was not entitled to any separation payments or benefits in connection with his resignation, other than certain accrued compensation and benefits.

Change in Control Severance Arrangements. We have also entered into Contingent Employment Agreements, which govern change in control severance arrangements, with each of our named executive officers. These Contingent Employment Agreements provide for the executives' continued employment upon a change in control for a two-year (or, for Mr. Johnson, three-year) period. In addition, the arrangements provide for certain severance benefits in the event an executive is terminated without cause or resigns for good reason (in each case as defined therein) prior to the end of the change in control employment period (as such, the agreements have a double trigger). The severance benefit would consist of base salary, annual incentive compensation (calculated at the target level), and other benefits that the executive otherwise would have been entitled to receive if his or her employment had not been terminated

prior to the end of the respective three- or two-year change in control employment period (with annual incentive compensation-based payments being made on a pro-rata basis for partial years during the change in control employment period).

The Contingent Employment Agreements also provide that if a named executive officer's employment is terminated within the six month period prior to a change in control, and if it is reasonably demonstrated that such termination of employment (1) was at the request of a third party who has taken steps reasonably calculated to effect a change in control or (2) otherwise arose in connection with or anticipation of a change in control, then the named executive officer will generally be entitled to participate in certain health and welfare benefits for a number

TABLE OF CONTENTS

of years equal to the change in control employment period following termination, and the Company will pay to named executive officer or his or her representative a severance payment representing continued base salary and target annual incentive compensation for a period of time equal to the change in control employment period.

If outstanding equity awards are not assumed in connection with a change in control, the Contingent Employment Agreements provide that (1) the named executive officers' stock options and stock appreciation rights (if any) will vest in full (and, in the discretion of the Company, may be canceled in exchange for a cash payment), (2) time-based restricted stock and RSU awards will vest in full (and, at the election of the named executive officer or the Company, may be canceled in exchange for a cash payment), (3) the named executive officers will have the right to elect to receive a cash payment for a pro-rata portion of outstanding performance-based equity awards determined based on the greater of target and projected actual performance, and (4) the named executive officers will have the right to elect to receive a cash payment for any dividend equivalent units then held (pro-rated to the extent the related award is pro-rated). If a named executive officer's employment is terminated by the employer without cause or by the named executive officer for good reason within 24 months following a change in control, any outstanding equity awards will vest in full (assuming maximum performance with respect to performance-based awards).

In the event that a named executive officer receives severance payments and benefits as described above, the named executive officer will generally be subject to customary non-competition provisions for 2 years following the change in control (or 2 years following the termination date in the event such officer's employment is terminated during the six-month period prior to the change in control). Further detail regarding these agreements is presented below under the heading Potential Payments upon Termination or Change in Control.

(1) Amount listed for Mr. Johnson represents a discretionary cash bonus awarded in 2019 in recognition for 2018 service as described above in Compensation Discussion and Analysis, and amounts listed for Mr. Matosevic represents a cash bonus awarded to him in connection with his assumption of additional duties as interim

President and Chief Executive Officer, as described above under the section titled Employment Agreements and Change in Control Benefits in the Compensation Discussion and Analysis.

Amounts listed for 2018 represent the aggregate grant date fair value of all stock awards computed in accordance with FASB ASC Topic 718, are based upon the probable outcome of any applicable performance conditions, exclude the impact of estimated forfeitures related to service-based vesting conditions and are consistent with the estimate of aggregate compensation cost to be recognized over the service period determined as of the grant date under FASB ASC Topic 718. Additional information about the assumptions used in valuing these stock awards is set forth in Note 19 Stock-Based Compensation of the consolidated financial statements included in our Annual

- (2) Report on Form 10-K for the year ended December 31, 2018. For restricted stock awards and PSUs, fair value is computed by multiplying the total number of shares subject to the award (or target number or shares, if applicable) by the closing price per share of our common stock as reported on the NYSE on the date of grant. PSUs are generally earned based on our financial performance over a three-year period, and the shares earned are not restricted after completion of the performance period and settlement of the award. The maximum values of the 2018 PSU awards as of the grant date, assuming the highest level of performance conditions are attained, are as follows: Mr. Matosevic \$1,268,541; Mr. Muehlhauser \$4,089,852; Mr. Shah \$895,455; Mr. Caron \$522,369; Mr. Horn \$567,081; and Mr. Weishaar \$746,172.

Amounts listed for 2018 reflect the aggregate grant date fair value of all stock option awards granted during the year in accordance with FASB ASC Topic 718. Additional information about the assumptions that we used when

- (3) valuing option awards is set forth in Note 19 Stock-Based Compensation of the consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2018. Amounts shown exclude the impact of estimated forfeitures related to service-based vesting conditions.

For 2017, amounts shown are based upon an exchange rate of USD1 to CHF1.03, the exchange rate effective as of December 31, 2017. For 2016, amounts shown are based upon an exchange rate of USD1 to CHF1.02, the exchange rate effective as of December 31, 2016.

PAY RATIO

Because none of Mr. Johnson, Mr. Matosevic and Mr. Muehlhaeuser served as our President and Chief Executive Officer for the full year, we calculated our principal executive officer's compensation for purposes of this pay ratio disclosure by annualizing the compensation of Mr. Muehlhaeuser, who was serving as our principal executive officer on the date we used to determine our median employee. Specifically, we referred to the sum of (i) his annualized base salary, (ii) the 2018 STIP award he would have earned, had he remained employed through 2018 and received a STIP payment based on actual attainment, (iii) the grant date fair value of his target LTIP award, as reported in the Summary Compensation Table above and (iv) the executive perquisites and benefits to which he was contractually entitled, calculated on an annualized basis.

In connection with our 2017 pay ratio disclosure, we selected November 30, 2017 as the date to identify the median employee, and we identified our median employee by comparing the compensation of all individuals that we

employed on November 30, 2017 based upon the sum of: (i) base salary (annualized for any permanent employees hired after January 1, 2017), (ii) overtime pay, (iii) short-term incentive awards, if any, and (iv) long-term incentive awards, if any, based on the grant date fair value of the target number of awards granted. During 2018, there were no changes in our employee population or employee compensation arrangements that we reasonably believe would result in a significant change to our pay ratio disclosure. Accordingly, we have used the same median employee for the 2018 pay ratio disclosure and have calculated his or her total annual compensation in the same way that we calculate the annual total compensation of our named executive officers in the 2018 Summary Compensation Table.

As calculated in accordance with applicable disclosure rules and as described above, the 2018 total compensation of our principal executive officer for purposes of this pay ratio disclosure was \$3,706,252 and the 2018 total compensation of our median employee for purposes of this pay ratio disclosure was \$47,561. As a result, we estimate that our principal executive officer's 2018 total compensation was approximately 78 times that of our median employee.

TABLE OF CONTENTSGRANTS OF PLAN-BASED AWARDS IN 2018.

The table below sets forth all equity and non-equity incentive awards granted to our named executive officers during 2018, all of which were made under our 2016 Omnibus Incentive Plan. As discussed under Design of 2018 Compensation Program above, 2018 equity awards to our named executive officers consisted of RSUs, PSUs and non-qualified stock options (NQO), and non-equity incentive awards consisted of our STIP.

TABLE OF CONTENTSOUTSTANDING EQUITY AWARDS AT 2018 FISCAL YEAR END.

The following table sets forth details about each outstanding equity award held by our named executive officers as of December 31, 2018. Each MTW equity award outstanding as of March 4, 2016, the effective date of the Spin-Off, was deemed bifurcated into two separate awards: a modified award relating to MTW common stock, and a new award relating to Welbilt common stock. Awards listed in the table below with a grant date prior to March 4, 2016 reflect the portion of the bifurcated awards that relate to our common stock and are outstanding under our 2016 Omnibus Incentive Plan.

TABLE OF CONTENTS**POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE IN CONTROL**

The following table and related discussion describes the estimated potential payments and other benefits our named executive officers (other than Mr. Muehlhaeuser and Mr. Weishaar) would have been eligible to receive in the event of a termination of employment or change in control, assuming a termination date (and, if applicable, a change in control date) of December 31, 2018. Because the disclosures in the table assume the occurrence of a termination of employment as of a particular date and under a particular set of circumstances, the actual amounts to be paid to our named executive officers upon a termination of employment or change in control may vary significantly from the amounts set forth below.

Mr. Muehlhaeuser, who resigned from the Company effective August 31, 2018, and Mr. Weishaar, who resigned from the Company effective January 2, 2019, are not listed in the table below, but the actual amounts and other benefits received by each individual are discussed in the narrative disclosure following the table.

Represents estimated payouts assuming a change in control and termination of employment without cause (as defined in the Contingent Employment Agreements) occurred on December 31, 2018 and outstanding equity awards of the Company are assumed by the purchaser, successor or surviving entity.

Reflects a prorata STIP award for the year of termination, which amount, for termination by the Company without cause or by the employee for good reason, is calculated based upon actual performance and, for a qualifying termination in connection with a change in control, is calculated based upon the target STIP award. Reflects amounts earned under outstanding and unvested PSUs that accelerate upon the specified event. PSUs, whether or not delivery of the underlying shares is deferred, are valued at the aggregate market value of the underlying shares (or, with respect to PSUs, the underlying target number of shares) based on the closing market price per share of our common stock on December 31, 2018, the last trading day of the year, or \$11.11. In the event of a qualifying termination following a change in control, awards of PSUs would be valued based on maximum performance.

Reflects amounts earned under outstanding and unvested stock options that accelerate upon the specified event. Such options are valued at the aggregate market value of the underlying shares based on the closing market price per share of our common stock on December 31, 2018, the last trading day of the year, or \$11.11, less the aggregate cost to exercise the stock options. For purposes of this table, stock options with an exercise price greater than the closing market price on December 31, 2018 have been assigned no value.

Reflects life insurance benefits that the named executive officer's designated beneficiaries would receive upon his death under life insurance coverage provided by the Company and does not include any additional benefits which might be paid out under supplemental coverage purchased by the individual executive. Does not reflect amounts payable upon Disability or retirement.

Reflects accelerated additional bonus payment pursuant to the additional interim compensation letter between the Company and Mr. Matosevic that would be paid in the event of a termination by the Company without cause or a resignation by Mr. Matosevic for good reason.

Termination by the Company for Cause (a).

In the event of a termination of employment for cause (as defined in the applicable employment agreement), the named executive officer will receive only accrued but unpaid compensation through the date of termination and no additional benefits. All outstanding equity awards will also be terminated on the individual's effective date of termination.

Termination by the Company without Cause or by Employee for Good Reason (b).

In the event of a termination of employment by the Company without cause or by the employee for Good Reason (as defined in the employment agreement, or, for Mr. Johnson, his offer letter), the named executive officer may receive severance payments in an aggregate amount equal to (1) 12 months' base salary (24 months' for Mr. Johnson), (2) 100% of his target STIP (or 70% with respect to Mr. Caron), (3) a prorata annual incentive compensation payment based upon the number of days actually employed and the actual performance of the Company under the STIP in effect for the year of termination, and (4) for Mr. Matosevic, \$62,500 under the terms of his additional interim compensation letter. Other than the prorata annual incentive payment (which is to be paid shortly after the Compensation Committee certifies the Company's performance under the STIP) and Mr. Matosevic's \$62,500 payment (which is to be paid shortly after the effectiveness of the release agreement provided for under Mr. Matosevic's employment agreement), the severance payments are generally to be paid over a 12-month period (or, in the case of Mr. Johnson, a 24-month period) in accordance with the Company's normal pay practices and otherwise subject to Section 409A of the Internal Revenue Code ("Section 409A") where applicable. Severance payments for named executive officers other than Mr. Johnson are subject to offset by the amount of any cash compensation earned from any subsequent employer during the applicable payment period or from the Company under any Contingent Employment Agreement (discussed below under "Change in Control"). Severance payments are generally subject to the execution of a customary release of claims. In the event of a termination of employment by the Company without cause or a resignation of the employee for good reason, a U.S. named executive officer (other than Mr. Johnson) would also be entitled to reimbursement of COBRA health care premiums for up to the entire COBRA continuation coverage period.

Additionally, all outstanding equity awards granted to the named executive officer (other than Mr. Johnson) prior to the year of termination will be deemed fully vested (for performance-based awards, based on either target or

TABLE OF CONTENTS

actual performance, depending on when the award was granted and whether it was intended to be a qualified performance-based award for purposes of Section 162(m)) and all outstanding equity awards made in the year of termination will be forfeited (unless otherwise provided by the Company). The executive will have until the earlier of the original expiration date or 24 months from the date of termination to exercise any outstanding options.

Death, Disability or Retirement (c).

In the event of death, the named executive officer's designated beneficiary will receive three times his base salary up to a maximum of \$1.0 million under the life insurance benefit provided by the Company. Payment of all compensation to the named executive officer will immediately cease, except for any compensation and benefits accrued but unpaid through the date of death. If a named executive officer is unable to perform his duties under his employment agreement due to a disability, his employment agreement will terminate. If his employment is terminated due to his disability prior to the one year anniversary of the effective date of the employment agreement, then he will continue to receive his standard compensation, reduced by any disability payment he is otherwise entitled, until the one year anniversary of the effective date of his employment agreement.

In the event of death, disability or retirement, all outstanding options will become fully vested and may be exercised until the earlier of (x) the option expiration date or (y) 12 months following the date of death or disability or 10 years following the retirement date, as applicable. Additionally, all outstanding RSUs will become fully vested, and all outstanding PSUs will be vested in an amount that is prorated through the last date of employment and settled following completion of the performance period based upon actual achievement of performance goals.

Change in Control (d).

In the event we experience a change in control (as defined in the Contingent Employment Agreements), Mr. Johnson will continue to be employed by the Company for three years and each other named executive officer will continue to be employed for two years (as applicable, the Change in Control Employment Period). Under the Contingent Employment Agreements, each executive would remain employed at the same position held as of the change in control date, and would receive a salary at least equal to the salary in effect as of such date, plus all bonuses, incentive compensation, and other similar or comparable cash incentive bonus plans no less favorable than those that were available prior to a change in control. After a change in control, the executive's compensation would be subject to upward adjustment at least annually based upon the executive's contributions and the level of increases provided to other officers and key employees. Each Contingent Employment Agreement would terminate prior to the end of the Change in Control Employment Period if the executive voluntarily retired or was terminated for cause, as defined in the Contingent Employment Agreement. In addition, the Contingent Employment Agreement is terminable by either party at any time prior to a change in control.

Additionally, the Contingent Employment Agreements provide the following benefits:

- In the event the named executive officer is terminated without cause or by the named executive officer for good reason following a change in control and prior to the end of the applicable Change in Control Employment Period, he would generally be entitled to continued participation in health and welfare benefits for the remainder of the Change in Control Employment Period and to receive a payment equal to the base salary and the annual incentive compensation the executive would have otherwise been paid but for the termination, calculated on the basis of his target bonus for the year of termination, through the Change in Control Employment Period.
- The named executive officer's equity-based awards would not automatically vest upon a change in control if his employment continued. However, if his employment is subsequently terminated by the surviving entity without cause, or by him for good reason, in either case within 24 months following a change of control, all

of his equity-based awards that are in effect as of the date of such termination will be vested in full or deemed earned in full (assuming the maximum performance goals provided under such award were met, if applicable) effective on the date of such termination (i.e., a double trigger). In addition, to the extent that equity-based awards are not assumed by the purchaser, successor or surviving entity in the change in control, or a more favorable outcome is not provided in the applicable plan or award agreement, upon a change of control: (1) stock options, stock-appreciation rights and time-based restricted stock (including RSUs) will vest and may be paid out in cash; (2) performance-based awards will be pro-rated and paid out in cash assuming the greater of target or projected actual performance (based on the assumption that the applicable performance goals continue to be achieved at the same rate through the end of the performance period as they are at the time of the change of control); and (3) each other type of equity-based award not mentioned above will be paid out in cash based on the value of the award as of the date of the change of control.

- In the event the executive is terminated for cause, the executive would be entitled only to the salary and benefits accrued and vested as of the effective date of the termination.

TABLE OF CONTENTS

The cash amount (base salary, STIP and prorata annual incentive award for the year of termination) described above would be paid in a lump sum within 30 days of the termination, subject to the requirements of Section 409A. Benefits would be provided over the course of the remainder of the Change in Control Employment Period.

If a named executive officer is terminated without cause within six months prior to a change in control and it was reasonably demonstrated by the employee that the termination (i) was at the request of a third party who has taken steps reasonably calculated to effect a change in control or (ii) otherwise arose in connection with or in anticipation of a change in control, the employee would be entitled to the severance payment and benefits that he would have otherwise have received during the change in control employment period.

If any of the payments to a named executive officer would constitute an excess parachute payment under Section 280G of the Internal Revenue Code and would result in the imposition on the executive of an excise tax under Section 4999 of the Internal Revenue Code (the Excise Tax), the executive would not be entitled to any tax gross up amount; however, the executive would be entitled to receive the best net treatment. Under the best net treatment, if the after-tax amount (taking into account all federal, state and local excise, income and other taxes) that would be retained by the executive is less than the after-tax amount that would be retained by the executive if the executive were instead to be paid or provided (as the case may be) the maximum amount that the executive could receive without being subject to the Excise Tax (the Reduced Amount), then the executive would be entitled to receive the Reduced Amount instead of the full amount that would have been subject to the Excise Tax.

The Contingent Employment Agreements also provide that (i) if the executive was terminated without cause or resigned for good reason prior to the end of the Change in Control Employment Period, the executive will be subject to non-competition restrictive covenants for the lesser of two years or the unexpired term of the Change in Control Employment Period, and (ii) if the executive was terminated within six months prior to a change in control in anticipation of a change in control as explained above, the executive will be subject to non-competition restrictive covenants for two years.

Separation Agreement with Mr. Muehlhaeuser

In connection with Mr. Muehlhaeuser's resignation, the Company and Mr. Muehlhaeuser entered into a separation agreement pursuant to which the Company made a cash payment to Mr. Muehlhaeuser equal to \$760,336.50, in recognition of his partial year of service and foregone payments under the Company's 2018 annual cash incentive program. Any previously awarded equity awards that were not vested as of his resignation on August 31, 2018 were forfeited. Mr. Muehlhaeuser may exercise any vested stock options through the earlier of the original expiration date of such stock options or August 31, 2020. The cash payment and equity award treatment described above were generally subject to Mr. Muehlhaeuser's execution and non-revocation of a customary release of claims in favor of the Company.

Weishaar Separation

Mr. Weishaar resigned from the Company effective January 2, 2019. He was not entitled to any separation payments or benefits in connection with his resignation, other than certain accrued compensation and benefits.

AUDIT MATTERS

EVALUATION AND SELECTION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee of the Board is directly responsible for the appointment, retention, compensation and oversight of the independent registered public accounting firm retained to audit the Company's financial statements. The Audit Committee has selected PricewaterhouseCoopers LLP (PwC) to serve as our independent registered public accounting firm for 2019.

Although ratification is not required by our Bylaws or otherwise, the Board is submitting the selection of PwC to our stockholders for ratification because we value our stockholders' views on the Company's independent registered public accounting firm. If our stockholders fail to ratify the selection, the Board and the Audit Committee may reconsider the selection of such firm. Even if the selection is ratified, the Audit Committee in its discretion may select a different independent registered public accounting firm at any time during the year if it determines that such a change would be in the best interests of the Company and our stockholders.

PwC has served as the independent registered public accounting firm of the Company since 2015. The Audit Committee's decision to retain and recommend that stockholders ratify the selection of PwC involved the consideration of a number of factors, including:

- PwC's performance on prior audits and the quality and efficiency of the provided services;
- PwC's continued independence;
- PwC's global capabilities and technical expertise;
- PwC's significant institutional knowledge and understanding of the Company's business, generally and particularly with respect to the Spin-Off;
- The quality and depth of PwC's staff;
- PwC's effectiveness of communications and working relationship with the Audit Committee, management and internal auditor;
- the appropriateness of the fees paid to PwC; and
- external data on audit quality and performance, including recent Public Company Accounting Oversight Board reports on PwC and its peer firms.

As part of the evaluation of its independent registered public accounting firm, the Audit Committee periodically considers whether there should be a regular rotation of the independent registered public accounting firm. In addition, in conjunction with the mandated rotation of the independent registered public accounting firm's lead engagement partner, the Audit Committee and the Audit Committee Chairman are directly involved in the selection of PwC's lead engagement partner. The Audit Committee and the Board of Directors believe the continued retention of PwC to serve as the Company's independent registered public accounting firm is in the best interests of the Company and its stockholders.

Representatives of PwC are expected to be present at the Annual Meeting. They also will have the opportunity to make a statement if they desire to do so and are expected to be available to respond to appropriate questions from stockholders.

The following table summarizes the fees for services rendered by PwC for each of the years ended December 31, 2018 and December 31, 2017. PRE-APPROVAL POLICIES AND PROCEDURES

Welbilt's policy and procedures for pre-approval of non-audit services is set forth in the Audit Committee Charter. The policy provides that the Audit Committee will review annually with Company management and the Company's independent auditor, their plans for the scope of the activities to be undertaken by the Company's independent auditor, including any contemplated performance by the Company's independent auditor of any permissible non-audit services and fees anticipated to be incurred for those services. The policy also provides that the Audit Committee must pre-approve all auditing services and non-audit services (other than those that are prohibited by applicable law, rule or regulation) provided to the Company by the Company's independent auditors. The Audit Committee may delegate to one or more designated members of the Audit Committee the authority to grant pre-approvals, provided that such decisions must be presented to the full Audit Committee at each of its scheduled meetings. For 2017 and 2018, all audit and non-audit services provided by our independent registered public accounting firm were pre-approved by the Audit Committee directly.

AUDIT COMMITTEE REPORT

In connection with its function to oversee and monitor the financial reporting process of the Company, the Audit Committee has done the following:

- reviewed and discussed the Company's audited financial statements for the fiscal year ended December 31, 2018 with the Company's management;

TABLE OF CONTENTS**EQUITY COMPENSATION PLANS**

The following table sets forth, as of December 31, 2018, certain information related to our compensation plans under which our common stock may be issued.

Plan Category	Number of securities to be issued upon exercise of outstanding options, warrants, and rights (A)	Weighted-average exercise price of outstanding options, warrants, and rights (B)⁽¹⁾	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (A)) (C)
Equity compensation plans approved by security holders	3,349,649 ⁽²⁾	\$ 14.85	6,583,776 ⁽³⁾
Equity compensation plans not approved by security holders ⁽⁴⁾	—	—	—
Total	3,349,649 ⁽²⁾	\$ 14.85	6,583,776 ⁽³⁾

(1) Reflects the weighted-average exercise price of stock options outstanding as of December 31, 2018. RSUs, restricted stock awards and PSUs granted under the Company's 2016 Omnibus Incentive Plan and common stock units issued under the Company's Deferred Compensation Plan are not included in this column as they have no exercise price.

(2) Consists of (a) 2,058,425 stock options, (b) 444,650 RSUs and (c) 846,574 PSUs (assuming maximum payout, which may overstate actual dilution that could occur as a result of such PSU awards), in each case outstanding as of December 31, 2018 under the Company's 2016 Omnibus Incentive Plan, of which 1,420,994 stock options are replacement awards issued in connection with the Spin-Off as substitution for awards previously granted by MTW and do not impact the share reserve under the 2016 Omnibus Incentive Plan.

(3) Amounts reflect the number of shares available for future issuance under the 2016 Omnibus Incentive Plan, determined in accordance with such plan as follows: (a) grants of stock options reduce the total shares available by 1.0 for each share issuable upon exercise of the award; (b) RSUs and restricted stock awards reduce the total shares available by 1.5 for each share issuable upon vesting and settlement of the award; and (c) PSUs reduce the total shares available by 1.5 for each share issuable upon vesting and settlement of the award, assuming maximum payout. All of the available shares represented in this column are available for future issuance other than upon the exercise of an option, warrant or right.

(4) Reflects the Company's Deferred Compensation Plan, which consisted of approximately 53,308 common stock units outstanding as of December 31, 2018. Each common stock unit under the Deferred Compensation Plan represents the right to receive one share of Company common stock following the participant's death, disability, termination of service as a director or employee, a date specified by the participant, or the earlier of any such events to occur. Since the common stock units are acquired by participants through a deferral of fees or compensation, there is no exercise price associated with the common stock units. The Deferred Compensation Plan requires the plan trustees to make available as and when needed a sufficient number of shares of Company common stock to meet the needs of the plan. As of December 31, 2018, all such shares were funded through the open market purchase of shares of Company common stock by the administrator.

For holders in street name: Yes. You must follow the specific voting instructions provided to you by your broker, bank or other similar institution to change or revoke any instructions you have already provided to them.

HOW WILL MY SHARES BE VOTED IF I DO NOT PROVIDE SPECIFIC INSTRUCTIONS IN THE PROXY CARD OR VOTING INSTRUCTIONS FORM THAT I SUBMIT?

If you are a stockholder of record and if you sign, date and return your proxy card but do not provide specific voting instructions, your shares of common stock will be voted FOR the election of each of the director nominees named in

this Proxy Statement, FOR the approval, on an advisory basis, of the compensation of Welbilt's named executive officers and FOR the ratification of the selection of PricewaterhouseCoopers LLP as our independent registered public accounting firm for 2019. If any other matter properly comes before our Annual Meeting and any adjournments thereof, the proxy holders will vote your shares in their discretion.

If your shares are held in street name at a broker, your broker may under certain circumstances vote your shares on discretionary matters if you do not timely provide voting instructions in accordance with the instructions provided by them. However, if you do not provide timely instructions, your broker does not have the authority to vote on any non-discretionary proposals at the Annual Meeting and a broker non-vote would occur, as explained below.

WHAT IS BROKER DISCRETIONARY VOTING ?

If you hold your shares in street name, your broker, bank or other similar institution may be able to vote your shares without your instructions depending on whether the matter being voted on is discretionary or non-discretionary. discretionary matter and your broker is permitted to vote your shares of common stock if you have not given voting instructions. The election of directors and the advisory vote to approve the compensation of Welbilt's named executive officers are non-discretionary matters and your broker cannot vote your shares if you have not given voting instructions. A broker non-vote occurs when your broker submits a proxy for the Annual Meeting, but does not vote on non-discretionary matters because you did not provide voting instructions on these matters. Therefore, it is important that you provide specific voting instructions regarding non-discretionary matters to your broker, bank or similar institution.
