PROSPECTUS SUMMARY

The following is a summary of our business. You should carefully read the section entitled "Risk Factors" in this prospectus and our annual report on Form 10-K for the fiscal year ended October 31, 2001 for more information on our business and the risks involved in investing in our stock.

In addition to the historical information contained in this prospectus, this prospectus contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Exchange Act of 1934. These statements may be identified by the use of words such as "expects," "anticipates," "intends," "plans" and similar expressions. The outcome of the events described in these forward-looking statements is subject to risks and actual results could differ materially. The sections entitled "Risk Factors" beginning on page 3 of this prospectus, and "Management's Discussion and Analysis of Financial Condition and Results of Operations" and "Business" in our annual report on Form 10-K for the fiscal year ended October 31, 2001, filed on

Edgar Filing: SBE INC - Form S-3

January 25, 2002 with the Securities and Exchange Commission, and our quarterly report on Form 10-Q for the quarter ended January 31, 2002, filed on March 18, 2002 with the Securities and Exchange Commission, contain a discussion of some of the factors that could contribute to those differences.

OUR BUSINESS

OVERVIEW

SBE, Inc. designs, markets, sells and supports high-speed intelligent communications controller and software products for use in telecommunications systems worldwide. Our products enable both traditional and emerging telecommunications service providers to deliver advanced communications products and services, which we believe help these providers compete more effectively in today's highly competitive telecommunications service market. Our products include WAN interface adapters and high performance communications controllers for workstations, media gateways, routers, internet access devices, home location registers and data messaging applications.

Founded in 1961 as Linear Systems, Inc., we evolved from a supplier of radio communications equipment to a provider of comprehensive network communications solutions for original equipment manufacturers and end users. Over the last two years, we expanded our product lines to include our Highwire family of high performance telecommunications controllers. The Highwire family provides high bandwidth intelligent connectivity to servers designed to act as gateways and signaling points within telecommunication networks. The Highwire coprocessing controllers enable operators of wireline and wireless networks to deliver Intelligent Network and Advanced Intelligent Network services such as

-2-

Caller ID, voice messaging, personal number calling, Service Provider Local Number Portability and customized routing and billing, as well as digital wireless services such as Personal Communications Systems and Global System for Mobile Telecommunications. The Highwire products are designed for integration with standard server platforms that will enable traditional carriers and new telecom entrants to pursue cost-reduced and performance-enhanced network architectures based on Internet Protocol, Asynchronous Transfer Mode or other "packet" technologies. We are focusing substantial resources on the continued development, marketing and sales activities for the Highwire products.

On July 14, 2000, we acquired LAN Media Corporation, a privately-held wide area networking adapter company headquartered in Sunnyvale, California. In the acquisition, we issued approximately 316,000 shares of our common stock for all of LAN Media's outstanding common stock. The acquisition was accounted for as a pooling of interests under Accounting Principles Board Opinion No. 16.

We market, sell and support four lines of high-speed intelligent communications controller products: Highwire, Wan Adapter, WanXL and VMEbus. All of these products are sold primarily to original equipment manufacturers. These products are often customized for a specific customer's application, and they support applications in a broad spectrum of industrial and commercial markets. Markets and application areas that our products serve include cellular network data communication, data networking, process control, medical imaging, CAE/automated test equipment, military defense systems and telecommunications networks.

Our Highwire communications controllers leverage our core technology strength into the telecommunications applications market. Our Wan Adapter products are focused on the need for wide area network connectivity in customer premise equipment such as routers, firewalls, virtual private network servers

Edgar Filing: SBE INC - Form S-3

and network switches. Our WanXL products are designed for applications that require high-performance and high-speed communications capability such as transmission of financial data and real time video data. Our VMEbus products are designed for high reliability industrial applications and are used in many wireline, wireless, and satellite based communications networks. All of these products, except the Wan Adapter products, are "intelligent," containing their own microprocessors and memory. This architecture allows these communications controllers to offload many of the lower-level communications tasks that would typically be performed by the host platform, improving overall system performance. The Wan Adapter products are designed to be low cost and high performance connectivity products that provide developers of customer premise equipment with an easy to integrate WAN interface for their systems. All four product lines are supported by communications software developed both by us and a variety of third party partners.

RISK FACTORS

An investment in our common stock involves a high degree of risk. We operate in a dynamic and rapidly changing environment that involves numerous risks and uncertainties. You should carefully consider the factors described below in addition to other information contained in this prospectus or incorporated by reference into this prospectus before purchasing our shares. Additional risks and uncertainties not presently known to us or that we currently see as immaterial may also impair our business operations.

RISKS ASSOCIATED WITH OUR BUSINESS

WE DEPEND ON A LIMITED NUMBER OF CUSTOMERS FOR A SIGNIFICANT PORTION OF OUR SALES.

Most of our sales are derived from a limited number of customers. A significant reduction in orders from any of our customers, particularly Compaq Computer, would have a material adverse effect on our operating results and financial condition. In fiscal 2001, sales to Compaq Computer accounted for 34%

-3-

of our net sales. We expect that sales to Compaq Computer will also constitute a substantial portion of our net sales in fiscal 2002. There can be no assurance that we will succeed in attracting new customers or that we will retain existing customers. Orders by our customers are affected by factors such as:

- new product introductions;
- product life cycles;
- inventory levels;
- manufacturing strategy;
- contract awards;
- competitive conditions; and
- general economic conditions.

Our sales to any single customer are also subject to significant variability from quarter to quarter due to the foregoing factors. Such fluctuations may have a material adverse effect on our operating results and cash flows.

Edgar Filing: SBE INC - Form S-3

WE MAY NOT BE ABLE TO MARKET AND SELL NEW PRODUCTS SUCCESSFULLY.

If our Highwire products or other new products developed by us do not gain market acceptance, our business, operating results and financial condition would be materially adversely affected. Since late 1998, we have focused a significant portion of our research and development, marketing and sales efforts on Highwire products. The success of these products is dependent on several factors, including:

- timely completion of new product designs;
- achievement of acceptable manufacturing quality and yields;
- introduction of competitive products by other companies; and
- market acceptance of our products.

We cannot assure you that our products will be successful or gain market acceptance in light of these factors.

WE ARE SUBJECT TO SIGNIFICANT COMPETITION.

The market for communications products is highly competitive. We cannot assure you that we will be able to compete successfully with our existing competitors or will be able to compete successfully with new competitors. We compete directly with traditional vendors of terminal servers, modems, remote control software, terminal emulation software and application-specific communications solutions. We also compete with suppliers of routers, hubs, network interface cards and other data communications products. In the future, we expect competition from companies offering client/server access solutions based on emerging technologies such as switched digital telephone services. In addition, we may encounter increased competition from operating system and network operating system vendors to the extent such vendors include full communications capabilities in their products. We may also encounter future

-4-

competition from telephony service providers (such as AT&T or the regional Bell operating companies) that may offer communications services through their telephone networks. Increased competition with respect to any of our products could result in price reductions and loss of market share, which would adversely affect our business, operating results and financial condition. Many of our current and potential competitors have greater financial, marketing, technical and other resources than we do.

OUR QUARTERLY RESULTS FLUCTUATE.

Our quarterly operating results have fluctuated significantly in the past and are likely to fluctuate significantly in the future due to several factors, some of which are outside our control. Further, it is likely that in some future quarter our revenues or operating results will be below the expectations of public market analysts and investors. In such event, the price of our common stock is likely to be materially adversely affected. Some of the factors that may cause our quarterly results to fluctuate include:

- timing of significant orders from customers;
- fluctuating market demand for, and declines in, the average selling prices of our products;
- delays in the introduction of our new products;

Edgar Filing: SBE INC - Form S-3

- competitive product introductions;
- the mix of products sold;
- changes in our distribution network;
- the failure to anticipate changing customer product requirements; and
- the cost and availability of components and general economic conditions.

We generally do not operate with a significant order backlog, and a substantial portion of our revenues in any quarter is derived from orders booked in that quarter. Accordingly, our sales expectations are based almost entirely on our internal estimates of future demand and not on firm customer orders. Based on the foregoing, we believe that quarterly operating results are likely to vary significantly in the future and that period-to-period comparisons of our results of operations are not necessarily meaningful and should not be relied upon as indications of future performance.

OUR MARKET IS CHARACTERIZED BY RAPIDLY CHANGING TECHNOLOGIES THAT REQUIRE US TO MEET AND ADAPT TO CHANGING CUSTOMER REQUIREMENTS.

The markets for our products are characterized by rapidly changing technologies, evolving industry standards and frequent new product introductions. There can be no assurance that we will be successful in identifying, developing, manufacturing and marketing new products or enhancing our existing products. In addition, there can be no assurance that services, products or technologies developed by others will not render our products noncompetitive or obsolete. Our future success will depend on our ability to enhance our existing products and to introduce new products and features to meet and adapt to changing customer requirements and emerging technologies such as Integrated Services Digital Network, Frame Relay, Asymmetric Digital Subscriber Line and Asynchronous Transfer Mode.

-5-

WE DEPEND ON A LIMITED NUMBER OF KEY EMPLOYEES.

We are highly dependent on the technical, management, marketing and sales skills of a limited number of key employees. The loss of the services of any key employees could adversely affect our business and operating results. We do not have employment agreements with, or life insurance on the lives of any of our key employees.

WE NEED TO RECRUIT AND RETAIN QUALIFIED PERSONNEL.

Our success also depends on our ability to continue to attract and retain additional highly talented personnel. There can be no assurance that we will be successful in retaining our key employees or that we can attract or retain additional skilled personnel as required. Competition for qualified personnel in the networking industry, and in the San Francisco Bay Area, is intense.

WE DEPEND ON KEY SUPPLIERS.

The chipsets used in our products are currently available only from Motorola. In addition, certain other components used in our products are currently available only from single suppliers. The inability to obtain sufficient key components as required, or to develop alternative sources if and as required in the future could result in delays or reductions in product shipments, which in turn would have a material adverse effect on our business,

Edgar Filing: SBE INC - Form S-3

operating results and financial condition.

WE DEPEND ON A SINGLE CONTRACT MANUFACTURER.

We have entered into an exclusive manufacturing service agreement with XeTel Corporation, a contract manufacturing company headquartered in Austin, Texas. Under this agreement, XeTel is to manufacture all of our products until at least May 2002. The agreement is now month to month, and we are evaluating other contract manufacturers to take the place of, or provide manufacturing services in addition to XeTel. We are dependent on XeTel's ability to manufacture our products according to specifications and in required volumes on a timely basis. The failure of XeTel to perform its obligations under the manufacturing service agreement could have a material adverse effect on our business, operating results and financial condition.

WE MAY BE UNABLE TO PROTECT OUR INTELLECTUAL PROPERTY, WHICH COULD REDUCE OR ELIMINATE ANY COMPETITIVE ADVANTAGE WE HAVE.

Although we believe that our future success will depend primarily on continuing innovation, sales, marketing and technical expertise, the quality of product support and customer relations, our success also depends upon our ability to protect the proprietary technology contained in our products. We do not currently hold any patents and rely on a combination of copyright, trademark, trade secret laws and contractual provisions to establish and protect proprietary rights in our products. There can be no assurance that steps taken by us in this regard will be adequate to deter misappropriation or independent third-party development of our technology. Although we believe that our products and technology do not infringe on the proprietary rights of others, there can be no assurance that third parties will not assert infringement claims against us. Third party infringement claims would subject us to additional legal expense and could divert management resources.

OUR FUTURE CAPITAL NEEDS MAY EXCEED OUR ABILITY TO RAISE CAPITAL.

The development and marketing of our products is capital-intensive. There can be no assurance that additional financing, if required, will be available on

-6-

reasonable terms or at all. To the extent that additional capital is raised through the sale of additional equity or convertible debt securities, the issuance of such securities could result in additional dilution to our stockholders. We believe that our existing cash balances, working capital line of credit with a bank, and our anticipated cash flow from operations will satisfy our financing requirements for the next twelve months. However, rapid revenue growth may require that we seek additional capital to meet our working capital needs beyond the next 12 months. Likewise, a further decline in future orders and revenues might have a similar effect should we be unable to reduce our expenses to the degree necessary to avoid incurring losses.

WE NEED TO SUCCESSFULLY INTEGRATE OUR ACQUISITIONS.

If we engage in acquisitions or divestitures in future periods, we may not be able to address the risks associated with these acquisitions or divestitures, and our business may be harmed. In the future, we may continue to acquire companies, technologies or products or to sell or discontinue some of our technologies or products in future periods. Our acquisitions involve numerous risks, including the use of significant amounts of our cash, diversion of the attention of our management from our core business, loss of our key employees and significant expenses and write-offs. Incremental acquisition related charges including in-process research and development and amortization of intangibles or divestitures of profitable technologies or products could

Edgar Filing: SBE INC - Form S-3

adversely impact our profitability. The success of these acquisitions depends upon our ability to timely and successfully develop, manufacture and gain market acceptance for the products we acquired.

RISKS ASSOCIATED WITH THIS OFFERING

TRADING IN OUR COMMON STOCK MAY BECOME MORE DIFFICULT BECAUSE FEWER INVESTORS MAY BE WILLING TO PURCHASE OUR COMMON STOCK AND OUR STOCK PRICE MAY DECLINE BECAUSE OUR COMMON STOCK IS LISTED ON THE NASDAQ SMALLCAP MARKET, AND WE MAY EVENTUALLY BECOME TRADED ON THE OTC BULLETIN BOARD.

On May 9, 2002 our common stock was transferred from the Nasdaq National Market to the Nasdaq SmallCap Market. In order to remain listed on the Nasdaq SmallCap Market we must meet various requirements, including maintaining a minimum bid price of \$1.00, a minimum market value of our public float of \$1.0 million and a stockholders' equity minimum of \$2.5 million. If we fail to maintain the standards necessary to remain listed on the Nasdaq SmallCap Market, we may be forced to conduct trading in our common stock on the OTC Bulletin Board or in the over-the-counter market in what is commonly referred to as the "pink sheets." Our common stock price may decline as a result of the listing of our common stock on the Nasdaq SmallCap Market or the OTC Bulletin Board. Both markets are seen as less prestigious and less efficient, making it more difficult to trade in our common stock. The liquidity of our common stock would then be adversely impacted. Certain analysts may no longer provide research coverage of SBE, making it more difficult for investors to keep apprised of our corporate developments. In addition, our stock could potentially be subject to what are known as the "penny stock" rules, which place additional requirements on broker-dealers who sell or make a market in such securities. Consequently, the ability or willingness of broker-dealers to sell or make a market in our common stock may decline. Further, our ability to raise additional capital through the issuance of stock could be seriously impaired because investors, including many institutional investors, may be unwilling or unable to purchase shares of our common stock.

THE MARKET PRICE FOR OUR COMMON STOCK IS LIKELY TO BE VOLATILE AND YOU MAY NOT BE ABLE TO RESELL YOUR SHARES AT OR ABOVE YOUR PURCHASE PRICE.

The market price of our common stock has been subject to wide fluctuations and is likely to be volatile in the future. The market price of our common stock could fluctuate for many reasons, including:

-7-

- our financial performance or the performance of our competitors;
- technological innovations or other trends or changes in the communications industry;
- the introduction of new products by us or our competitors;
- the arrival or departure of key personnel;
- acquisitions, strategic alliances or joint ventures involving us or our competitors;
- changes in estimates of our performance or recommendations by securities analysts;
- decisions by major participants in the communications industry not to purchase products from us or to pursue alternative technologies;

Edgar Filing: SBE INC - Form S-3

- decisions by investors to de-emphasize investment categories, groups or strategies that include our company or industry; and
- market conditions in the industry, the financial markets and the economy as a whole.

In addition, stock markets have experienced extreme price and trading volume volatility in recent years. This volatility has had a substantial effect on the market prices of securities of many high technology companies for reasons frequently unrelated to the operating performance of the specific companies. These broad market fluctuations may adversely affect the market price of our common stock. When the market price of a company's stock drops significantly in a short time period, stockholders often institute securities class action lawsuits against the company. A lawsuit against us could cause us to incur substantial costs and could divert the time and attention of our management and other resources.

DELAWARE LAWS AND PROVISIONS IN OUR CHARTER DOCUMENTS CONTAIN PROVISIONS THAT COULD DELAY OR PREVENT A CHANGE IN CONTROL.

We are subject to the Delaware anti-takeover laws, which may delay or deter a third party from acquiring us. These laws prevent us from engaging in a merger or sale of more than 10% of our voting stock with any stockholder, including all affiliates and associates of any stockholder, who owns 15% or more of our outstanding voting stock, for three years following the date that such stockholder acquired 15% or more of our voting stock, unless:

- our board of directors approves the transaction where the stockholder acquires 15% or more of our voting stock;
- after the transaction where the stockholder acquires 15% or more of our voting stock, the stockholder owns at least 85% of our outstanding voting stock, excluding shares owned by directors, officers and employee stock plans in which employee participants do not have the right to determine confidentially whether shares held under the plan will be tendered in an exchange or tender offer; or
- on or after this date, the merger or sale is approved by the board of directors and the holders of at least two thirds of the outstanding voting stock that is not owned by the stockholder.

-8-

In addition, our certificate of incorporation and bylaws include a number of provisions that may deter or impede hostile takeovers or changes of control of management. These provisions include:

- a board of directors classified into three classes of directors with staggered three-year terms;
- the authority of the board of directors to issue up to 2,000,000 shares of preferred stock, and to determine the price, rights, preferences and privileges of these shares, without stockholder approval;
- elimination of the ability of stockholders to act by written consent instead of at a duly called meeting of stockholders; and
- the indemnification of officers and directors against losses incurred during investigations and legal proceedings resulting from their service to us.

USE OF PROCEEDS

Edgar Filing: SBE INC - Form S-3

We will not receive any of the proceeds from the sale of the shares of common stock offered by the selling stockholders.

DIVIDEND POLICY

We have never declared or paid any cash dividends on our capital stock. We intend to retain any future earnings to support operations and to finance the growth and development of our business and we do not anticipate paying cash dividends for the foreseeable future.

SELLING STOCKHOLDERS

In connection with the private placement of 555,556 shares of our common stock and a warrant to purchase 111,111 shares of our common stock to Stonestreet Limited Partnership, we agreed to register all of those shares for resale. In addition we paid a finders fee to Vintage Partners LLC. A portion of the finders fee was paid with a warrant to purchase 11,429 shares of our common stock, and we also agreed to register all of those shares for resale. Our registration of the shares of common stock does not necessarily mean that the selling stockholders will sell all or any of the shares.

The following table sets forth certain information regarding the beneficial ownership of our common stock, as of May 1, 2002, by the selling stockholders. The information provided in the table below with respect to each selling stockholder has been obtained from that selling stockholder. Except as otherwise disclosed below, the selling stockholders have not, or within the past three years had any position, office or other material relationship with us. Because the selling stockholders may sell all or some portion of the shares of common stock beneficially owned by them, we cannot estimate the number of shares of common stock that will be beneficially owned by the selling stockholders after this offering. In addition, the selling stockholders may have sold, transferred or otherwise disposed of, or may sell, transfer or otherwise dispose of, at any time or from time to time since the date on which they provided the information regarding the shares of common stock beneficially owned by them, all or a portion of the shares of common stock beneficially owned by them in transactions exempt from the registration requirements of the Securities Act of 1933.

Unless otherwise noted, each person or group identified possesses sole voting and investment power with respect to shares, subject to community property laws where applicable.

PLAN OF DISTRIBUTION

The shares of common stock may be sold from time to time by the selling stockholders in one or more transactions at fixed prices, at market prices at the time of sale, at varying prices determined at the time of sale or at negotiated prices. As used in this prospectus, "selling stockholders" includes donees, pledgees, transferees and other successors in interest selling shares

Edgar Filing: SBE INC - Form S-3

received from the selling stockholders after the date of this prospectus as a gift, pledge, partnership distribution or other non-sale transfer. Upon receiving notice from the selling stockholders that a donee, pledgee, transferee or other successor in interest intends to sell more than 500 shares, we will file a supplement to this prospectus. The selling stockholders may offer their shares of common stock:

- on any national securities exchange or quotation service on which the common stock may be listed or quoted at the time of sale, including the Nasdaq SmallCap Market;
- in the over-the-counter market;
- in private transactions;
- through options;
- by pledge to secure debts and other obligations; or
- a combination of any of the above transactions.

The shares of common stock described in this prospectus may be sold from time to time directly by the selling stockholders. Alternatively, the selling stockholders may from time to time offer shares of common stock to or through underwriters, broker/dealers or agents. The selling stockholders and any underwriters, broker/dealers or agents that participate in the distribution of the shares of common stock may be deemed to be "underwriters" within the meaning of the Securities Act of 1933. Any profits on the resale of shares of common stock and any compensation received by any underwriter, broker/dealer or agent may be deemed to be underwriting discounts and commissions under the Securities Act of 1933. We have agreed to indemnify Stonestreet Limited Partnership against certain liabilities, including liabilities arising under the Securities Act of 1933. Stonestreet Limited Partnership may agree to indemnify any agent, dealer or broker-dealer that participates in the sale of shares of common stock described in this prospectus against certain liabilities, including liabilities arising under the Securities Act of 1933.

Any shares covered by this prospectus that qualify for sale pursuant to Rule 144 under the Securities Act of 1933 may be sold under Rule 144 rather than pursuant to this prospectus. The selling stockholders may elect to not sell the shares they hold. The selling stockholders may transfer, devise or gift such shares by other means not described in this prospectus. To comply with the securities laws of certain jurisdictions, the common stock must be offered or

-10-

sold only through registered or licensed brokers or dealers. In addition, in certain jurisdictions, the shares of common stock may not be offered or sold unless they have been registered or qualified for sale or an exemption is available and complied with.

Under the Securities Exchange Act of 1934, any person engaged in a distribution of the common stock may not simultaneously engage in market-making activities with respect to the common stock for five business days prior to the start of the distribution. In addition, each selling stockholder and any other person participating in a distribution will be subject to the Securities Exchange Act of 1934, which may limit the timing of purchases and sales of common stock by the selling stockholder or any such other person. These factors may affect the marketability of the common stock and the ability of brokers or dealers to engage in market-making activities.

All expenses of this registration will be paid by us. These expenses

Edgar Filing: SBE INC - Form S-3

include the SEC's filing fees and fees under state securities or "blue sky" laws.

LEGAL MATTERS

For the purpose of this offering, Cooley Godward LLP, San Francisco, California, is giving an opinion as to the validity of the common stock offered by this prospectus.

ITEM 15. INDEMNIFICATION OF OFFICERS AND DIRECTORS.

As permitted by Section 145 of the Delaware General Corporation Law, our Bylaws provide that (i) we are required to indemnify our directors and executive officers to the fullest extent permitted by the Delaware General Corporation Law, (ii) we may, in our discretion, indemnify other officers, employees and agents as set forth in the Delaware General Corporation Law, (iii) to the fullest extent permitted by the Delaware General Corporation Law, we are required to advance all expenses incurred by our directors and executive officers in connection with a legal proceeding (subject to certain exceptions), (iv) the rights conferred in our Bylaws are not exclusive, (v) we are authorized to enter into indemnification agreements with our directors, officers, employees

and agents and (vi) we may not retroactively amend the Bylaws provisions relating to indemnity.

We have entered into agreements with our directors and officers that require us to indemnify such persons against expenses, judgments, fines, settlements and other amounts that such person becomes legally obligated to pay (including expenses of a derivative action) in connection with any proceeding, whether actual or threatened, to which any such person may be made a party by reason of the fact that such person is or was our director or officer or any of our affiliated enterprises. Our obligation to indemnify our officers and directors is subject to certain limitations set forth in the indemnification agreements. The indemnification agreements also set forth certain procedures that will apply in the event of a claim for indemnification thereunder.

Stonestreet Limited Partnership has entered into an agreement with us whereby it agrees, to the extent permitted by law, to indemnify and hold harmless SBE, and each person, if any, who controls SBE within the meaning of the 1933 Act, each officer of SBE who signs this registration statement, each director of SBE, each underwriter and each person who controls any underwriter within the meaning of the 1933 Act, against all losses, claims, damages or liabilities, joint or several, to which SBE or such officer, director, underwriter or controlling person may become subject under the 1933 Act or otherwise, insofar as such losses, claims, damages or liabilities (or actions in respect thereof) arise out of or are based upon any untrue statement or alleged untrue statement of any material fact contained in this registration statement, any preliminary prospectus or final prospectus contained therein, or any amendment or supplement thereof, or arise out of or are based upon the omission

II-1

or alleged omission to state therein a material fact required to be stated therein or necessary to make the statements therein not misleading, and will reimburse SBE and each such officer, director, underwriter and controlling person for any legal or other expenses reasonably incurred by them in connection with investigating or defending any such loss, claim, damage, liability or action, provided, however, that Stonestreet Limited Partnership will be liable hereunder in any such case if and only to the extent that any such loss, claim, damage or liability arises out of or is based upon an untrue statement or alleged untrue statement or omission or alleged omission made in reliance upon and in conformity with information pertaining to such selling stockholder, as such, furnished in writing to SBE by Stonestreet Limited Partnership specifically for use in such registration statement or prospectus, and provided, further, however, that the liability of Stonestreet Limited Partnership hereunder shall be limited to the gross proceeds received by Stonestreet Limited Partnership from the sale of the common stock covered by this registration statement. The agreement also sets forth certain procedures that will apply in the event of a claim for indemnification thereunder.

ITEM 17. UNDERTAKINGS.

Edgar Filing: SBE INC - Form S-3

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to our directors, officers, and controlling persons pursuant to the provisions described in Item 15 or otherwise, we have been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act of 1933 and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by us of expenses incurred or paid by one of our directors, officers, or controlling persons in the successful defense of any action, suit, or proceeding) is asserted by such director, officer, or controlling person in connection with the securities being registered, we will, unless in the opinion of our counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

WE HEREBY UNDERTAKE:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement to include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information the registration statement;

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new

registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof; and

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

We hereby undertake that, for purposes of determining any liability under the Securities Act of 1933, each filing of our annual report pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.
