Note 2 - Summary of Significant Accounting Policies (continued)

b) Reporting period

These consolidated financial statements have been prepared as of June 30, 2008 and 2007 and for the six-month periods then ended.

c) Reporting currency and monetary correction

The financial statements of the Company are prepared in U.S. dollars. As a significant portion of the Company's operations are transacted in U.S. dollars, the U.S. dollar is considered the currency of the primary economic environment in which the Company operates.

The Parent Company and those subsidiaries which maintain their accounting records in U.S. dollars are not required, or permitted, to restate the historical dollar amounts for the effects of inflation.

The financial statements of those domestic subsidiaries that maintain their accounting records in Chilean pesos have been restated to reflect the effects of variations in the purchasing power of the Chilean peso during the year. For this purpose, and in accordance with Chilean regulations, non-monetary assets and liabilities, equity and income statement accounts have been restated in terms of year-end constant pesos based on the change in the consumer price index during the year (3.2% and 1.9% in 2008 and 2007, respectively). The resulting net charge or credit to income arises as a result of the gain or loss in purchasing power from the holding of non-U.S. dollar denominated monetary assets and liabilities exposed to the effects of inflation.

Prior period financial statements presented for comparative purposes have not been restated to reflect the change in the purchasing power of the Chilean pesos during the most recent year-end. In accordance with Chilean GAAP, amounts expressed in U.S. dollars, including amounts included in the consolidated financial statements as determined in prior years from the translation of financial statements of those Chilean subsidiaries which maintain their accounting records in Chilean pesos, are not adjusted for price-level changes.

Notes to the Consolidated Financial Statements (A translation of the original in Spanish- see note 2 (a))

Note 2 - Summary of Significant Accounting Policies (continued)

foreign currencyForeign currency transactions

Monetary assets and liabilities denominated in Chilean pesos and other currencies have been translated to U.S. dollars at the observed exchange rates determined by the Central Bank of Chile at each period end of Ch\$526.05 per US\$1 at June 30, 2008 and Ch\$526.86 per US\$1 at June 30, 2007.

ii) Translation of non-U.S. dollar financial statements

In accordance with Chilean GAAP, the financial statements of foreign and domestic subsidiaries that do not maintain their accounting records in U.S. dollars are translated from the respective local currencies to U.S. dollars in accordance with Technical Bulletin No. 64 and No. 72 of the Chilean Association of Accountants ("BT 64-BT 72") as follows:

- a) For those subsidiaries and affiliates located in Chile which keep their accounting records in price-level adjusted Chilean pesos:
- -Balance sheet accounts are translated to U.S. dollars at the year-end exchange rate without eliminating the effects of price-level restatement.
 - Income statement accounts are translated to U.S. dollars at the average exchange rate each month. The monetary correction account on the income statement, which is generated by the inclusion of price-level restatement on the non-monetary assets and liabilities and shareholders' equity, is translated to U.S. dollars at the average exchange rate for each month.
- -Translation gains and losses, as well as the price-level restatement to the balance sheet mentioned above, are included as an adjustment in shareholders' equity, in conformity with Circular No. 1,697 of the SVS.

Notes to the Consolidated Financial Statements (A translation of the original in Spanish- see note 2 (a))

Note 2 - Summary of Significant Accounting Policies (continued)

- Income and expense accounts are translated at average exchange rates between the US dollar and the local currency.
 Any exchange differences are included in the results of operations for the period.

d) Foreign currency (continued)
